Author Index Volumes 349—354

Aasernd, F. Redirecting science: Niels Bohr, philanthropy and the rise of nuclear physics, *Book review by* Bernstein, J. **349,** 751

Aaronson, S A. *See under* Hart, M J., **354,** 311

Abbas, A K. Cellular and molecular immunology, *Book review by* Brodsky, F M., **353,** 513

Abelson, J N. Editor, Methods: A companion to methods in enzymology, *Journal review by* Craik, D S., **353,** 469

Abelson, J. *See under* Company, M., **349,** 487

Abo, A. Activation of the NADPH oxidase involves the small GTP-binding protein $p21^{rac1}$(with Pick, E, Hall, A, Totty, N, Teahan, C G, Segal, A W) *Letter to Nature,* **353,** 668

Abraham, N. Enhancement of T-cell responsiveness by the lymphocyte-specific tyrosine protein kinase $p56^{lck}$ (*with* Miceli, M C, Parnes, J R, Veillette, A) *Letter to Nature,* **350,** 62

Abramson, H S. Hero in disgrace: The true discoverer of the North Pole, Frederick A. Cook, *Book review* by Fordham, D. **352,** 293

Achs-Orbea, H. Clonal deletion of Vβ14-bearing T cells in mice transgenic for mammary tumour virus (*with* Shakhov, A N, Scarpellino, L, Kolb, E, Müller, V, Vessaz-Shaw, A, Fuchs, R, Blöchlinger, K, Rollini, P, Billotte, J, Sarafidou, M, Macdonald, H R, Diggelmann, H) *Article,* **350,** 207

Achauer, U. *See under* Green, W V., **354,** 199

Ackelson, S G. *See under* Wells, M L., **353,**248

Ackers, G K. *Book review of* Binding and linkage: Functional chemistry of biological macromolecules (*by* Wyman, J, Gill, S J) **349,** 377

Ada, G. Vaccine development: Real and imagined dangers, *News and views,* **349,** 369

Adamczewski, J P. *See under* Baadara, L R., **352,** 249

Adams, A E M. Requirement of yeast fimbrin for actin organization and morphogenesis *in vivo* (*with* Botstein, D, Drubin, D G) *Letter to Nature,* **354,** 404

Adams, B A. *See under* Tanabe, T., **352,** 800

Adams, D E. *See under* Jenkinson, D S., **351,** 304

Adams, E. *See under* Goodnow, C C., **352,** 532

Adams, J. The first surface faulting from a historical intraplate earthquake in North America (with Wetmiller, R J, Hasegawa, H S, Drysdale, J), *Letter to Nature,* **352,** 617

Adams, M J. *See under* Alford, N McN., **349,** 680

Adams, S R. Fluorescence ratio imaging of cyclic AMP in single cells (*with* Harootunian, A T, Buechler, Y J, Taylor, S S, Tsien, T Y) *Letter to Nature,* **349,** 694

Adar, E. *See under* Issar, A S., **352,** 10

Aderem, A. *See under* Thelen, M., **351,** 320

Adler, P N. *See under* Brunk, B P., **353,** 351

Admon, A. *See under* Peterson, M G., **354,** 369

Afiademanyo, K. *See under* Brochier, B., **354,** 521

Aharoni, R. Immunomodulation of experimental allergic encephalomyelitis by antibodies to the antigen-la complex (*with* Teitelbaum, D, Arnon, R, Puri, J) *Letter to Nature,* **351,** 147

Ahlberg, P E. Tetrapod or near-tetrapod fossils from the Upper Devonian of Scotland, *Letter to Nature,* **354,** 298

Ahlquist, J E. Phylogeny and classification of birds: A study in molecular evolution, *Book review by* Diamond, J M. **350,** 537

Ahmed, B. Clearing-up the Gulf, *Correspondence,* **351,** 685

Ahmed-Zaâd, I. A high-pressure form of Al_2SiO_5 as a possible host of aluminium in the mantle (with Madon, M) *Letter to Nature,* **353,** 426

Ahringer, J. Control of the sperm-oocyte switch in *Caenorhabditis elegans* hermaphrodites by the *fem-3* 3' untranslated region (*with* Kimble, J) *Letter to Nature,* **349,** 346

Aitken, J. Reproductive biology: A clue to Kartagener's, *News and views,* **353,** 306

Reproductive biology: Do sperm find eggs attractive?, *News and views,* **351,** 19

Aitman, T J. *See under* Todd, J A., **351,** 542

Akam, M. *Journal review of* Seminars in developmental biology, **353,** 465

Developmental biology: Wondrous transformation, *News and views,* **349,** 282

Akiyama, T. *See under* Gotoh, Y., **349,** 251

Al-Awqati, Q. *See under* Barasch, J., **352,** 70

Alatalo, R V. Lekking in the black grouse - a test of male viability (with Höglund, J, Lundberg, A), *Letter to Nature,* **352,** 155

Albers, M W. Relationship of FKBP to PKCI-2 (*with* Liu, J, Schreiber, S L) *Scientific correspondence,* **351,** 527

Albert, J. *See under* Putkonen, P., **352,** 436

Albrecht, R. *See under* Paresce, F., **352,** 297

Albritton, L M. *See under* Kim, J W., **352,** 725

Alcami, J. *See under* Bachelerie, F., **350,** 709

Aldhous, P. *See under* Anderson, C., **354,** 96

See under Anderson, C., **349,** 727

See under Anderson, C., **349,** 358

See under Dickman, S., **350,** 261

See under Pool, R., **352,** 459

Acid rain: An economic case for environmental cooperation, *News,* **351,** 175

Ageing research: Spend to save on health care, *News,* **351,** 594

AIDS drugs: DDI nears approval, *News,* **352,** 269

AIDS viruses: Spectre of contamination, *News,* **349,** 359

AIDS: Meeting to move, *News,* **352,** 652

Anglo-European research: Spend more to compete, *News,* **349,** 183

Animal experimentation: Charities fight back, *News,* **354,** 100

Animal experimentation: UK primate research under scrutiny, *News,* **354,** 177

Animal experiments: MRC breach spurs reforms, *News,* **349,** 446

Animal experiments: UK government funds humane research, *News,* **349,** 272

Animal rights: A leap into controversy, *News,* **352,** 463

Animal testing: Tide turns against LD5O, *News,* **353,** 489

Antarctic environment: Mining ban in the air, *News,* **351,** 88

Anthropology: Bones go home, *News,* **351,** 178

Astronomer Royal: New man will speak his mind, *News,* **349,** 93

Barking up the right tree, *News,* **352,** 95

Before and after, *News,* **352,** 651

Biomedical research: New institute snares prize team, *News,* **352,** 463

Biotechnology: Yellow light on L-tryptophan, *News,* **353,** 490

Birth rate shows signs of decline, *News,* **352,** 557

British Technology Group: Universities considering a buy-out, *News,* **350,** 181

BSE: First maternal transmission?, *News,* **350,** 368

Californian quake, *News,* **352,** 8

Call for brain-maps, *News,* **352,** 8

Chemistry: Bringing NMR to the masses, *News,* **353,** 689

'Civil war' scuttles EC research programme, *News,* **350,** 177

Climate change: 1990 warmest year on record, *News,* **349,** 186

Clinical trials: Blazing an ethical trail, *News,* **353,** 4

Collaboration: Call for LINK reform, *News,* **351,** 431

Compromise averts Framework fiasco, *News,* **350,** 641

Computer industry: IBM and Apple set up camp, *News,* **352,** 98

Computer industry: ICL expelled from JESSI projects, *News,* **350,** 368

Conservation: 'Hunting licence' for drugs, *News,* **353,** 290

Cosmology: European gravity detector in peril, *News,* **353,** 688

EC research: Brite's prospects dim, *News,* **354,** 5

EC research centres: Early retirement spawns money row, *News,* **349,** 182

Elephant conservation: African rift in Kyoto, *News,* **354,** 175

Environment: Grand Canyon, clearly, *News,* **352,** 559

Environment: US blocks Antarctic accord, *News,* **351,** 680

Environmental advice, *News,* **352,** 362

Environmental politics: US Greens go national, *News,* **352,** 750

Europe approves first transgenic animal patent, *News,* **353,** 589

European collaboration: Opening up to the east, *News,* **354,** 7

European research: Commission bids for power, *News,* **350,** 101

European research: Setting up shop in Brussels, *News,* **350,** 641

European science policy: Research given priority in new French budget, *News,* **353,** 375

European Space Agency: Deciding on indecision, *News,* **354,** 256

European space science: Columbus delayed, *News,* **353,** 491

European space summit: Deciding ESA's future, *News,* **354,** 97

European universities: Graduate training reforms, *News,* **351,** 339

Fetal tissue research, *News,* **352,** 362

Forensic science: Congress reviews DNA testing, *News,* **351,** 684

French blood scandal: The clot thickens, *News,* **354,** 98

French polar research: Poles together, *News,* **354,** 425

Fullerenes heat up, *News,* **352,** 463

Fusion research: ITER work is shared out, *News,* **352,** 179

Genetic engineering: Regulation cost concerns, *News,* **354,** 5

Genetic screening: California tackles insurance, *News,* **353,** 5

Genetic screening: Closing a loophole in discrimination rules, *News,* **351,** 684

Global warming: 'Activist' stance by UK government, *News*, **354**, 99
Global warming: Europe weighs a carbon tax, *News*, **353**, 375
Gulf conflagration: Predicting climate problems, *News*, **349**, 270
Gulf oil spill: Big test for bioremediation, *News*, **349**, 447
Gulf oil spill: Let nature take its course, *News*, **349**, 731
Gulf war: Oil-well climate catastrophe?, *News*, **349**, 96
Hard times for Polish industrial researchers, *News*, **354**, 341
Hazy hazy days, *News*, **352**, 557
Health research: NHS launches first strategy, *News*, **351**, 7
Health: Five-year toll: 10,000 dead from Chernobyl?, *News*, **351**, 4
High-performance computing: A last chance to catch up?, *News*, **349**, 645
HIV infection: France will compensate, *News*, **354**, 425
Hubble fix on course, *News*, **352**, 94
Hubble Space Telescope: Gyro failures worry NASA, *News*, **352**, 462
Human genome databases at the crossroads, *News*, **352**, 94
Human genome project: HUGO flirting with Johns Hopkins, *News*, **352**, 3
Human genome project: New office for HUGO in Soviet Union, *News*, **351**, 683
Indirect costs: OMB announces cap, *News*, **352**, 5
Industrial innovation: Get academics into the boardroom, *News*, **350**, 7
Industrial R&D: SPUR to innovation, *News*, **349**, 556
Industrial/academic collaboration: Alvey lessons unheeded, *News*, **351**, 178
Infrared astronomy: Keeping cool in space, *News*, **351**, 338
International collaboration: Euro-laser plans on ice, *News*, **356**, 102
International collaboration: Reforms sought from UK Treasury, *News*, **350**, 103
International Whaling Commision: Whaling ban versus science (*with* Swinbanks, D) *News*, **351**, 259
International Whaling Commission: Iceland sharpens its harpoons, *News*, **351**, 430
International Whaling Commission: Greens in disarray after committing a tactical blunder, *News*, **351**, 430
Iraqi refugee: From hillside to laboratory, *News*, **351**, 262
JESSI: Losing the 'R' from R&D, *News*, **354**, 257
Kuwait: Oil fields under control, *News*, **354**, 5
Kuwait: Palestinians may be barred from courses, *News*, **350**, 369
Kuwaiti science: Starting again from scratch, *News*, **350**, 369
Leukaemia epidemiology: Confusion surrounds the 'Gardner effect', *News*, **350**, 264
Leukaemia favours rich, *News*, **353**, 373
London Zoo: Management under fire, *News*, **353**, 374
Manned space flight: UK astronaut named, *News*, **349**, 727
Marine cats' eyes, *News*, **353**, 373
Mars mission: Back to the future, *News*, **351**, 594
Medical research: Boost for women's health, *News*, **352**, 180
Medical research: UK ethics guidelines, *News*, **352**, 746
Medical research: World's first MS unit, *News*, **350**, 8
Mediterranean oil spill: Riviera under threat, *News*, **350**, 547
Nanotechnology: Wanted: Home-grown industry, *News*, **352**, 746
NASA budget: Science societies target station, *News*, **352**, 179
NASA budget: Space station back on track, *News*, **351**, 507
National Institutes of Health: Hadley quits two OSI investigations, *News*, **352**, 268
National Institutes of Health: Healy and Dingell lock horns, *News*, **352**, 461
Neutrino astronomy: Italy looks to next supernova, *News*, **350**, 643
NOAA: Weather satellite woes, *News*, **352**, 97
Nobel Prize: Patch clamp brings honour, *News*, **353**, 487
Nuclear laboratories: Radioactive frogs, *News*, **352**, 464
Nuclear structure physics in limbo, *News*, **349**, 551
Oceanography: Europe in the vanguard?, *News*, **350**, 643
Oil-well fires: Smog alert in Kuwait City, *News*, **350**, 98
Optical astronomy: Canada back in the fold?, *News*, **353**, 688
Optical astronomy: Canada gets cold feet (*with* Lindley, D) *News*, **351**, 680
Overkill at Stanford?, *News*, **352**, 362
Ozone depletion: Montreal Protocol still too lax?, *News*, **353**, 688
Particle physics: Does Europe need the LHC?, *News*, **350**, 98
Particle Physics: Friction continues over costs, *News*, **351**, 594
Peer review: A cleanish bill of health, *News*, **349**, 272
Petroleum geology: Black gold causes a stir, *News*, **353**, 593
Pharmaceutical patents: EC row looms over patents, *News*, **350**, 645
Planetary science: Deep freeze for Galileo, *News*, **352**, 655
Power lobby pressure, *News*, **352**, 3
Publication ethics: IQ data controversy, *News*, **350**, 5
Radioactive materials: New UK road rules, *News*, **349**, 445
Radioastronomy: Funding hiccup at Jodrell, *News*, **349**, 733
Radioastronomy: Making the most of MERLIN's potential, *News*, **349**, 733
Remote sensing: ESA's eye on the oceans, *News*, **351**, 8
Research budget: Another tough year for MRC, *News*, **349**, 552
Research collaboration: Charities cohabit in Cambridge, *News*, **351**, 432
Research ethics: Nuffield takes the lead on bioethics, *News*, **350**, 641
Research ethics: Zagury challenges NIH report, *News*, **352**, 180
Research ethics: Zagury report censures NIH, *News*, **352**, 269
Research in Antarctica: Antarctic environment: Not the 'dirty man', *News*, **350**, 298
Research in Antarctica: British Antarctic Survey: Playing according to the game plan, *News*, **350**, 297
Research in Antarctica: European collaboration: Meteorites for all, *News*, **350**, 308
Research in Antarctica: Research computing: Logging-on on the ice, *News*, **350**, 297
Research in Antarctica: Research collaboration: Magnetic poles together, *News*, **350**, 297
Research in Antarctica: Research infrastructure: A steady expansion, *News*, **350**, 298
Satellite engineering: Surrey spreads its wings, *News*, **349**, 557
Science budget: Tough times extend even to the top, *News*, **351**, 339 *See under* Swinbanks, D., **351**, 428
Science fair: Heureka winds up, *News*, **354**, 7
Science magazines: Discover suspends activities, *News*, **352**, 559
Scientific misconduct: Burt files reopened, *News*, **354**, 97
Scientific misconduct: FASEB rejects OSI rules, *News*, **352**, 651
Scientific misconduct: UK medical guidelines proposed, *News*, **350**, 365
Scientific societies: Ethics rules provoke storm, *News*, **353**, 5
Semiconductor research: Retrenchment at JESSI, *News*, **354**, 5
SERC cuts deep to balance the books, *News*, **349**, 551
SERC research grants: Award now, pay later, *News*, **351**, 88
Slow progress in Geneva on warming treaty, *News*, **352**, 3
Solar-terrestrial physics: Europe woos Japan (*with* Swinbanks, D) *News*, **351**, 177
Soviet space gloom, *News*, **353**, 373
Soviet Union: Coup catches NASA engineers in Moscow, *News*, **352**, 650
Space exchange, *News*, **352**, 463
Space missions: Galileo rescue fails, *News*, **352**, 750
Space policy: It's official: no more shuttles, *News*, **352**, 362
Space: First Briton hits orbit, *News*, **351**, 262
Stanford University: SLAC accounting for damage?, *News*, **352**, 559
Stanford unrepentant, *News*, **352**, 94
Sun, sea and shadow, *News*, **352**, 179
Supercomputing: Logjam ahead for UK academics, *News*, **354**, 422
Swiss science: Showpiece in transition, *News*, **354**, 6
Swiss science: Swiss government plans to boost research, *News*, **354**, 6
Switchboard in orbit, *News*, **352**, 463
Technological research: US losing its lead, *News*, **352**, 5
Telecommunications: Science goes video, *News*, **352**, 464
Trouble for Healy over misconduct office, *News*, **352**, 361
UK forensic science: Forensic reform needed now, *News*, **351**, 262
UK higher education: Polytechnics seeking their fair share, *News*, **349**, 360
UK nuclear industry: Dounreay loses uranium, *News*, **354**, 422
UK nuclear physicists fear SERC's cuts, *News*, **349**, 357
UK nuclear physics: Daresbury hopes dashed, *Opinion*, **350**, 177
UK research councils: Trouble at AFRC, *News*, **353**, 690
UK research funding: Reform may cut grant awards, *News*, **351**, 88
UK science budget: Allocation pleases no-one, *News*, **349**, 359
UK science budget: Lords ask for crisis handout, *News*, **350**, 264
UK science budget: Lords look for culprits, *News*, **350**, 8
UK science budget: Moneysaving measures, *News*, **350**, 8
UK science budget: The calm after the storm, *News*, **354**, 99
UK science budget: The Lords weigh in, *News*, **349**, 644
UK science policy: Royal Society announces policy inquiry, *News*, **349**, 183
UK science: All change at the top, *News*, **349**, 443
UK science: Polys gain, *News*, **349**, 443
UK science: Raising the profile, *News*, **349**, 443
UK supercomputing: London centre keeps Cray, *News*, **349**, 184
UK universities: New CVCP chairman, *News*, **350**, 101
UK universities: What's in it for science?, *News*, **350**, 7
UK university budgets: Education under threat, *News*, **350**, 6
UK university funding: Cutting student costs, *News*, **350**, 453
University of London: Medicine becomes a liability, *News*, **350**, 546
University/polytechnic distinction to end, *News*, **351**, 257
US biomedical research: Exploring the limits to continued growth, *News*, **352**, 556
US biomedical research: Philadelphia: US biomedicine in microcosm, *News*, **352**, 556
US national laboratories: California's record attacked, *News*, **352**, 462
US national laboratories: Staying with California labs, *News*, **352**, 365
US okays Antarctic pact, *News*, **352**, 94
US science budget: Navy made to pay for civil research, *News*, **352**, 363
Weather satellites: NASA rebuked for GOES-NEXT, *News*, **352**, 362
Who needs a genome ethics treaty?, *News*, **351**, 507
Yugoslav crisis: Academics invade Dubrovnik, *News*, **354**, 425
Yugoslav crisis: Caught in a propaganda war, *News*, **354**, 178
Aldovini, A. Humoral and cell-mediated immune responses to live recombinant BCG-HIV vaccines (*with* Young, R A) *Letter to Nature*, **351**, 479
Aldrich, C J. Negative and positive selection of antigen-specific cytotoxic T lymphocytes affected by the α 3 domain of MHC I molecules (with Hammer, R E, Jones-Youngblood, S, Koszinowski, U, Hood, L, Stroynowski, I, Forman, J), *Letter to Nature*, **352**, 718
Aleksander, I. *Journal review of* Intern[illegible]nal journal of neural systems (Lautrup, B *editor*), **353**, 477
Alerstam, T. Bird migration, *Book review by* Greenwood, J J D, **351**, 25
Alexander, A. Editor, The biology of the naked mole-rat, *Book review by* Bertram, B, **354**, 29
Alexander, R McN. Athletics: It may be better to be a wimp, *News and views*, **353**, 696
Alexander, R W. *See under* Murphy, T J., **351**, 233
Alexander-Bridges, M. *See under* Nasrin, N., **354**, 317
Alfa, C E. Cell biology: ABG of microtubule assembly (with Hyams, J S), *News and views*, **352**, 471
Alford, N McN. *Journal review of* Journal of materials science: Materials in electronics (Willoughby, A *editor*), **353**, 474
Low surface resistance in $YBa_2Cu_3O_x$ melt-processed thick films (*with* Button, T W, Adams, M J, Hedges, S, Nicholson, B, Phillips, W A) *Letter to Nature*, **349**, 680
Alford, S. *See under* Bashir, Z I., **349**, 156
Ali, H M. *See under* Malik, M O A., **354**, 346
Ali, M H. *See under* Malik, M O A., **354**, 346
Allaby, M. Editor, The concise dictionary of zoology, *Book review by* Lewin, R A, **354**, 325
Allam, R J. *See under* Browning, K A., **351**, 363
Allard, M W. Tests for rodent polyphyly (with Miyamoto, M M, Honeycutt, R L) *Scientific correspondence*, **353**, 610
Allard, P. *See under* Baubron, J C., **350**, 27
Eruptive and diffuse emissions of CO_2 from Mount Etna (*with* Carbonnelle, J, Dajlevic, D, Le Bronec, J, Morel, P, Robe, M C, Maurenas, J M, Faivre-Pierret, R, Martin, D, Sabroux, J C, Zettwoog, P) *Letter to Nature*, **351**, 387
Allegrezza Jr, A E. *See under* DiLeo, A J., **351**, 420

AAAS meeting. AAAS meeting: Hope for the musically mediocre?, *News*, (Pool, R) **349,** 643
AAAS meeting: Presidential address sets the tone, *News*, (Culliton, B J and Pool, R) **349,** 642
Abortion drug. Drug policy: More RU-486 now available for research, *News*, (Anderson, C) **352,** 6
RU-486 in UK, *News*, (Anderson, C) **352,** 99
Academic appointments, UK. UK universities: New CVCP chairman, *News*, (Akihous, P) **350,** 101
Academic appointments, US. New president, *News*, (Shulman, S) **350,** 265
Academic freedom. Academic freedom: Back to flesh, *News*, (Anderson, C) **349,** 94
Academie Francais. French scandal, *News*, (Anderson, C) **352,** 99
Acalculia. Neuropsychology: Only four possible solutions, *News and views*, (Sutherland, S) **353,** 389
Accretion disks. Constraints on r-process nucleosynthesis in accretion disks, *Letter to Nature*, (Jin, L) **350,** 403
Accretion, low-mass X-ray binaries. Orbital evolution of low-mass X-ray binaries due to radiation driven mass transfer, *Letter to Nature*, (Tavani, M) **351,** 39
Acetylcholine receptor, nicotinic. Pentameric structure and subunit stoichiometry of a neuronal nicotinic acetylcholine receptor, *Letter to Nature*, (Cooper, E, Couturier, S and Ballivet, M) **350,** 235
Acetylcholine receptor. Extracellular domains mediating ε subunit interactions of muscle acetylcholine receptor, *Letter to Nature*, (Yu, X-M and Hall, Z W) **352,** 64
Acid deposition. Acid rain and acid waters, *book review by* Battarbee, R W. (Howells, G) **350,** 285
Acid rain: An economic case for environmental cooperation, *News*, (Akdhous, P) **351,** 175
Acid rain. Global extinction: Acid rain at the K/T boundary, *News and views*, (Palmer, M) **352,** 758
Acidity, soils. Amelioration of subsoil acidity by application of a coal-derived calcium fulvate to the soil surface, *Letter to Nature*, (van der Watt, H v H, Barnard, R O, Cronje, I J, Dekker, J, Croft, G J B and van der Walt, M M) **350,** 146
Acinar cells. Activation of Ca^{2+} entry into acinar cells by a non-phosphorylatable inositol trisphosphate, *Letter to Nature*, (Bird, G St J, Rossier, M F, Hughes, A R, Shears, S B, Armstrong, D L and Putney, J W) **352,** 162
Acoustics. Hum drum, *News and views*, **354,** 357
Olbers' paradox in concert halls?, *Scientific correspondence*, (Lee, J B) **352,** 202
Actin-capping protein. Ends and means, *News and views*, **350,** 383
Actin-membrane interactions. Regulation by phosphorylation of reversible association of a myristoylated protein kinase C substrate with the plasma membrane, *Letter to Nature*, (Thelen, M, Rosen, A, Nairn, A C and Aderem, A) **351,** 320
Actin. Actin in ribbons, *Scientific correspondence*, (Schutt, C, Lindberg, U and Myslik, J) **353,** 508
Actin microfilament dynamics in locomoting cells, *Article*, (Theriot, J A and Mitchison, T J) **352,** 126
Actin tracks, *Scientific correspondence*, (Kucik, D F and Elson, E L) **354,** 362
Actin tracks: Reply, *Scientific correspondence*, (Theriot, J and Mitchison, T) **354,** 363
Acting on actin, *News and views*, **354,** 357
Cell locomotion: Actin alone in lamellipodia, *News and views*, (Heath, J and Holifield, B) **352,** 107
Requirement of yeast fimbrin for actin organization and morphogenesis *in vivo*, *Letter to Nature*, (Adams, A E M, Botstein, D and Drubin, D G) **354,** 404
Sliding distance between actin and myosin filaments per ATP molecule hydrolysed in skinned muscle fibres, *Letter to Nature*, (Higuchi, H and Goldman, Y E) **352,** 352
Active galactic nuclei. A hot gas model for iron-line X-ray emission from the rapidly varying Seyfert galaxy NGC6814, *Letter to Nature*, (Hayakawa, S) **351,** 214
A rapid energetic X-ray flare in the quasar PKS0558-504, *Letter to Nature*, (Remillard, R A, Grossan, B, Bradt, H V, Ohashi, T, Hayashida, K, Makino, F and Tanaka, Y) **350,** 589
Active galactic nuclei: In the eye of the beholder, *News and views*, (Gaskell, C M) **349,** 194
Active galactic nuclei: Light hidden behind a bushel, *News and views*, (Hewett, P) **349,** 651
Active galactic nuclei: A sideways look at quasars, *News and views*, (Urry, M) **353,** 18
Are BL Lac objects too large to be gravitationally lensed?, *Letter to Nature*, (Gear, W K) **349,** 676
Gravitational micro-lensing of the relativistic jets of quasars, *Letter to Nature*, (Krishna, G and Subramanian, K) **349,** 766
Large-scale superluminal motion in the quasar 3C273, *Letter to Nature*, (Davis, R J, Unwin, S C and Muxlow, T W B) **354,** 374
Ship in the night, *News and views*, **350,** 195
The origin of the cosmic X-ray background, *Article*, (Shanks, T, Georgantopoulos, I, Stewart, G C, Pounds, K A, Boyle, B J and Griffiths, R E) **353,** 315
Activin. Pre-existent pattern in *Xenopus* animal pole cells revealed by induction with activin, *Letter to Nature*, (Sokol, S and Melton, D A) **351,** 409
Actomyosin, ATPase activity. Sub-piconeωton force fluctuations of actomyosin, *Article*, (Ishijima, A, Doi, T, Sakurada, K and Yanagida, T) **352,** 301
Adaptation, bacteria. Origin of bacterial adaptation, *Correspondence*, (Baumberg, S) **352,** 274
Adaptive optics. Astronomy: Laser beams untwinkle stars, *News and views*, (Merkle, F) **353,** 115
Compensation of atmospheric optical distortion using a synthetic beacon, *Letter to Nature*, (Primmerman, C A, Murphy, D V, Page, D A, Zollars, B G and Barclay, H T) **353,** 141
Grand spectacles, *Correspondence*, (Max, N) **353,** 294
Measurement of atmospheric wavefront distortion using scattered light from a laser guide-star, *Letter to Nature*, (Fugate, R Q, Fried, D L, Ameer, G A, Boeke, B R, Browne, S L, Roberts, P H, Ruane, R E, Tyler, G A and Wopat, L M) **353,** 144
Principles of adaptive optics, (Tyson, R K) *book review by* Woolf, N J. **354,** 197
Use of a neural network to control an adaptive optics system for an astronomical telescope, *Letter to Nature*, (Sandler, D G, Barrett, T K, Palmer, D A, Fugate, R Q and Wild, W J) **351,** 300
Addressin. ELAM-1 is an adhesion molecule for skin-homing T cells, *Letter to Nature*, (Picker, L J, Kishimoto, T K, Smith, C W, Warnock, R A and Butcher, E C) **349,** 796
Adenoviruses. Complementation of transforming domains in E1a/*myc* chimaeras, *Letter to Nature*, (Ralston, R) **353,** 866
Adhesion molecules. Activation-independent binding of human memory T cells to adhesion molecule ELAM-1, *Letter to Nature*, (Shimizu, Y, Shaw, S, Graber, N, Gopal, T V, Horgan, K J, Van Seventer, G A and Newman, W) **349,** 799
ELAM-1 is an adhesion molecule for skin-homing T cells, *Letter to Nature*, (Picker, L J, Kishimoto, T K, Smith, C W, Warnock, R A and Butcher, E C) **349,** 796
Adhesion receptors. A discrete sequence in a platelet integrin is involved in ligand recognition, *Letter to Nature*, (D'Souza, S E, Ginsberg, M H, Matsueda, G R and Plow, E F) **350,** 66
Adrenaline. Activation by adrenaline of a low-conductance G protein-dependent K^+ channel in mouse pancreatic B cells, *Letter to Nature*, (Rorsman, P, Bokvist, K, Ämmälä, C, Arkhammar, P, Berggren, P-O, Larsson, O and Wåhlander, K) **349,** 77
Advanced transportation, Japan. Advanced transportation: Maglev burns out in Japan, *News*, (Swinbanks, D) **353,** 592
Advertising. Milky way, *Correspondence*, (Daniel, J) **353,** 496
Aeolian transport. Long-range transport of volcanic ash to the Greenland ice sheet, *Letter to Nature*, (Ram, M and Gayley, R I) **349,** 401
Aerodynamics. Autorotation of many-sided bodies in an airstream, *Letter to Nature*, (Skews, B W) **352,** 512
Fluid mechanics: Aerodynamics in a spin, *News and views*, (Salter, S H) **352,** 470
Aerogels. Gathering dust, *News and views*, **349,** 20
Aerosols, atmospheric. Aircraft sulphur emissions, *Scientific correspondence*, (Hofmann, D J) **349,** 659
Coherence between seasonal cycles of dimethyl sulphide, methanesulphonate and sulphate in marine air, *Letter to Nature*, (Ayers, G P, Ivey, J P and Gillett, R W) **349,** 404
Could reducing fossil-fuel emissions cause global warming?, *Letter to Nature*, (Wigley, T M L) **349,** 503
Dimensions and dynamics of co-ignimbrite eruption columns, *Letter to Nature*, (Woods, A W and Wohletz, K) **350,** 225
Impact of oceanic sources of biogenic sulphur on sulphate aerosol concentrations at Mawson, Antarctica, *Letter to Nature*, (Prospero, J M, Savoie, D L, Saltzman, E S and Larsen, R) **350,** 221
Role of heterogeneous conversion of N_2O_5 on sulphate aerosols in global ozone losses, *Letter to Nature*, (Rodriguez, J M, Ko, M K W and Sze, N D) **352,** 134
Seasonal relationship between cloud condensation nuclei and aerosol methanesulphonate in marine air, *Letter to Nature*, (Ayers, G P and Gras, J L) **353,** 834
Use of cosmogenic ^{35}S to determine the rates of removal of atmospheric SO_2, *Letter to Nature*, (Tanaka, N and Turekian, K K) **352,** 226
Affective disorders. Cloning and expression of a functional serotoain transporter from rat brain, *Letter to Nature*, (Blakely, R D, Berson, H E, Fremeau Jr, R T, Caron, M G, Peek, M M, Prince, H K and Bradley, C C) **354,** 66
Africa, AIDS. AIDS against the rest of the world, *News and views*, (Culliton, B J) **352,** 15
AIDS: Small wonders in Africa, *News*, (Anderson, C) **353,** 4
Africa, biomass burning. Influence of biomass burning on equatorial African rains, *Letter to Nature* (Cachier, H and Ducret, J) **352,** 228
Africa, communications. Africa: Opening up communications, *News*, (Pool, R) **353,** 293
Africa, drought. Sub-Saharan Africa: Spotting famine from space, *News*, (Steele, D) **350,** 545
Africa, science journals. Discovery and innovation, *journal review by* Gratzer, W. (Isoun, T T *editor*) **353,** 459
Africa, tectonics. A three-dimensional seismic image of the crust and upper mantle beneath the Kenya rift, *Article*, (Green, W V, Achauer, U and Meyer, R P) **354,** 199
Large-scale variation in lithospheric structure along and across the Kenya rift, *Letter to Nature*, (KRISP Working Party) **354,** 223
Late Palaeozoic deformation in central Africa: a result of distant collision?, *Letter to Nature*, (Daly, M C, Lawrence, S R, Kimun'a, D and Binga, M) **350,** 605
Plate tectonics: A deep look at African rifting, *News and views*, (Morgan, P) **354,** 188
Ageing, brain. Gender gap, *News and views*, **350,** 656
Ageing. Longevity, senescence and the genome, *book review by* Partridge, L. (Finch, C E) **351,** 198
Aggregation, volcanic ash. Charge measurements on particle fallout from a volcanic plume, *Letter to Nature*, (Gilbert, J S, Lane, S J, Sparks, R S J and Koyaguchi, T) **349,** 598
Aggregation. Structure and growth mechanism of mineral dendrites, *Letter to Nature*, (Chopard, B, Herrmann, H J and Vicsek, T) **353,** 409
Agricultural research, Germany. German unification: Agricultural research pruned, *News*, (Bachtler, B) **353,** 595
Agriculture, climate change. Does climate still matter?, *Commentary*, (Ausubel, J H) **350,** 649
Agriculture, Europe. Closing Europe's farms, *Opinion*, **350,** 541
Farming fiasco, *Opinion*, **349,** 268
Agriculture, genetic engineering. Environmental release: Tomatoes approved, *News*, (Swinbanks, D) **349,** 360
Agriculture, spread of. Genetic evidence for the spread of agriculture in Europe by demic diffusion, *Letter to Nature*, (Sokal, R R, Oden, N L and Wilson, C) **351,** 143
Agriculture, US. Legislation: A Bill of Rights for fruit and vegetables?, *News*, (Steele, D) **350,** 367
Agriculture. Factory farming, *book review by* Singer, P. (Johnson, A) **353,** 613
Plants, power and profit, *book review by* Krimsky, S. (Busch, L, Lacy, W B, Burkhardt, J and Lacy, L R) **350,** 568
Aid, developing countries. Many catastrophes too many, *Opinion*, **351,** 171
AIDS blood test. OSI confirms mix-up, *News*, (Anderson, C) **353,** 687
AIDS drugs. AIDS: Challenge to AZT, *News*, (Jayaraman, K S) **353,** 589
AIDS: Green light for ddI, *News*, (Gershon, D) **353,** 589
AIDS education, US. Basketball, AIDS and education, *News and views*, (Maddox, J) **354,** 103
AIDS epidemiology. Making things worse, *Correspondence*, (Carey, N) **354,** 9
AIDS meetings. AIDS meet relocates, *News*, (Pool, R) **353,** 199
AIDS research. Imanishi-Kari affair: Baltimore resigns, *News*, (Anderson, C) **354,** 341
AIDS scandal, France. "AIDSgate" - a chronology, *News*, (Anderson, C) **353,** 197
AIDS scandal indicts French government, *News*, (Anderson,

C) **353,** 197
French blood scandal echoes across Europe, *News,* (Aldhous, P) **353,** 781
AIDS, Africa. AIDS against the rest of the world, *News and views,* (Culliton, B J) **352,** 15
AIDS, Asia. AIDS against the rest of the world, *News and views,* (Culliton, B J) **352,** 15
AIDS, chemotherapy. Potential of community-wide chemotherapy or immunotherapy to control the spread of HIV-1, *Letter to Nature,* (Anderson, R M, Gupta, S and May, R M) **350,** 356
AIDS, drugs. AIDS drugs: "Too little, too late" for AZT, *News,* (Anderson, C and Gershon, D) **351,** 508
AIDS drugs: DDI nears approval, *News,* (Aldhous, P) **352,** 269
Anti-HIV drug mechanism, *Scientific correspondence,* (Jones, I M and Jacob, G S) **352,** 198
AZT before AIDS, *Scientific correspondence,* (Dube, S K and Ostertag, W) **352,** 114
AZT patent: NIH quick off the mark, *News,* (Gershon, D) **352,** 268
US challenge to AZT patent, *News,* (Anderson, C) **349,** 93
US drug regulation: AIDS politics change rules, *News,* (Schaefer, E) **349,** 187
AIDS, epidemiology. AIDS: Will therapy spread disease?, *News and views,* (Weiss, R A) **350,** 276
Brazil: AIDS in Yanomami?, *News,* (Bonalume, R) **352,** 272
Potential of community-wide chemotherapy or immunotherapy to control the spread of HIV-1, *Letter to Nature,* (Anderson, R M, Gupta, S and May, R M) **350,** 356
AIDS, ethics. Research ethics: Zagury report censures NIH, *News,* (Aldhous, P) **352,** 269
AIDS, France. HIV infection: France will compensate, *News,* (Aldhous, P) **354,** 425
AIDS, immunization. AIDS: Passive primate protection, *News and views,* (Moore, J P and Weiss, R A) **352,** 376
AIDS, immunotherapy. Potential of community-wide chemotherapy or immunotherapy to control the spread of HIV-1, *Letter to Nature,* (Anderson, R M, Gupta, S and May, R M) **350,** 356
AIDS, origin of. AIDS, monkeys and malaria, *Commentary,* (Gilks, C) **354,** 262
Origin of AIDS, *Correspondence,* (McFadden, J) **350,** 104
AIDS, research, France. AIDS research: Inquiry launched into ethical procedures, *News,* (Coles, P and Anderson, C) **350,** 179
AIDS research: French minister clears Zagury, *News,* (Culliton, B J) **350,** 546
Human experimentation: AIDS trials questioned, *News,* (Culliton, B J) **350,** 263
Pasteur Institute: New building defies the metro, *News,* (Coles, P) **350,** 103
AIDS, research, US. AIDS research: Better late than never for minorities, *News,* (Anderson, C) **349,** 273
AIDS research: Inquiry launched into ethical procedures, *News,* (Coles, P and Anderson, C) **350,** 179
Conflict of interest: Then there were four . . ., *News,* (Anderson, C) **349,** 95
Human experimentation: AIDS trials questioned, *News,* (Culliton, B J) **350,** 263
AIDS, research. AIDS research turned upside down, *News and views,* (Maddox, J) **353,** 297
AIDS viruses: Spectre of contamination, *News,* (Aldhous, P) **349,** 359
Anti-HIV drug mechanism, *Scientific correspondence,* (Jones, I M and Jacob, G S) **352,** 198
Research ethics: Zagury challenges NIH report, *News,* (Aldhous, P) **352,** 180
AIDS, resistance to. AIDS: Small wonders in Africa, *News,* (Anderson, C) **353,** 4
AIDS, spread. Brazil: AIDS in Yanomami?, *News,* (Bonalume, R) **352,** 272
AIDS, therapy. AIDS: Will therapy spread disease?, *News and views,* (Weiss, R A) **350,** 276
AIDS, transmission of. The transmission of AIDS, *Opinion,* **353,** 2
AIDS, vaccine trials. AIDS research: New findings cast doubt on UK vaccine trials, *News,* **353,** 287
AIDS, vaccine. Research ethics: Zagury report censures NIH, *News,* (Aldhous, P) **352,** 269
AIDS, virus. AIDS viruses: Spectre of contamination, *News,* (Aldhous, P) **349,** 359
AIDS, Yanomami. Brazil: AIDS in Yanomami?, *News,* (Bonalume, R) **352,** 272
AIDS. AIDS response, *Scientific correspondence,* (Schwartz, D H) **354,** 439
AIDS response, *Scientific correspondence,* (Montefiori, D C, Hirsch, V M and Johnson, P R) **354,** 439
AIDS response, *Scientific correspondence,* (Whipple, A P) **354,** 440
AIDS: Of mice, monkeys and men, *News and views,* (Groopman, J E) **349,** 568
Anti-cell antibody in macaques, *Scientific correspondence,* (Stott, E J) **353,** 393
Apart from that . . ., *News,* (Haseltine, W A) **350,** 10
AZT patents, *Correspondence,* (Cousins, F W) **350,** 184
Beyond love, *book review by* Culliton, B J. (Lapierre, D) **351,** 199
Blocking of Tat-dependent HIV-1 RNA modification by an inhibitor of RNA polymerase II processivity, *Letter to Nature,* (Braddock, M, Thorburn, A M, Kingsman, A J and Kingsman, S M) **350,** 439
Clinical trials: Blazing an ethical trail, *News,* (Aldhous, P) **353,** 4
Contaminated origin of AIDS virus, *News and views,* (Culliton, B J) **351,** 267
Dingell opens second front in Gallo war, *News,* (Anderson, C) **354,** 95
Discrepancies in AIDS virus data, *Scientific correspondence,* (Chermann, J-C, Donker, G, Yahi, N, Salaun, D, Guettari, N, Gayet, O and Hirsh, I) **351,** 277
Dispensable carnival, *Opinion,* **351,** 426
Duesberg on AIDS and HIV, *Correspondence,* (Duesberg, P H) **350,** 10
French blood scandal: The clot thickens, *News,* (Aldhous, P) **354,** 98
Gallo vs Montagnier?, *Opinion,* **351,** 426
Gallo's virus sequence, *Scientific correspondence,* (Reitz Jr, M S, Streicher, H Z and Gallo, R C) **351,** 358
Gallo's virus sequence . . . and his response, *Scientific correspondence,* (Gallo, R C) **351,** 358
HIV enhancer activity perpetuated by NF-κB induction on infection of monocytes, *Letter to Nature,* (Bachelerie, F, Alcami, J, Arenzana-Seisdedos, F and Virelizier, J-L) **350,** 709
HIV infectivity, *Scientific correspondence,* (McKeating, J A and Moore, J P) **349,** 660
HIV: Games that viruses play, *News and views,* (Zinkernagel, R M and Hengartner, H) **354,** 433
HIV: Tampering with transcription, *News and views,* (Nabel, G J) **350,** 658
Human immunodeficiency virus genetic variation that can escape cytotoxic T cell recognition, *Article,* (Phillips, R E, Rowland-Jones, S, Nixon, D F, Gotch, F M, Edwards, J P, Ogunlesi, A O, Elvin, J G, Rothbard, J A, Bangham, C R M, Rizza, C R and McMichael, A J) **354,** 453
Mucosal transmission of HIV, *Scientific correspondence,* (Lehner, T, Hussain, L, Wilson, J and Chapman, M) **353,** 709
National Institutes of Health: Popovic rebuts, *News,* (Culliton, B J) **353,** 288
New twist in the long saga of HIV, *News and views,* (Culliton, B J) **349,** 735
Normal development and function of $CD8^+$ cells but markedly decreased helper cell activity in mice lacking CD4, *Letter to Nature,* (Rahemtulla, A, Fung-Leung, W P, Schilham, M W, Kündig, T M, Sambhara, S R, Narendran, A, Arabian, A, Wakeham, A, Paige, C J, Zinkernagel, R M, Miller, R G and Mak, T W) **353,** 180
Origin and spread of AIDS, *Correspondence,* (Owusu, S K) **350,** 184
Origin of AIDS, *Correspondence,* (Lecatsas, G) **351,** 179
Processing of the precursor of NF-κB by the HIV-1 protease during acute infection, *Letter to Nature,* (Rivière, Y, Blank, V, Kourilsky, P and Israël, A) **350,** 625
Risks of handling HIV, *Scientific correspondence,* (Letvin, N L, Lord, C I, King, N W, Wyand, M S, Myrick, K V and Haseltine, W A) **349,** 573
Sequence analysis of original HIV-1, *Scientific correspondence,* (Guo, H-G, Chermann, J-C, Waters, D, Hall, L, Louie, A, Gallo, R C, Streicher, H, Reitz, M S, Popovic, M and Blattner, W) **349,** 745
Serine phosphorylation-independent downregulation of cell-surface CD4, *Letter to Nature,* (Garcia, J V and Miller, A D) **350,** 508
Air-sea exchange. Air-sea gas exchange in rough and stormy seas measured by a dual-tracer technique, *Letter to Nature,* (Watson, A J, Upstill-Goddard, R C and Liss, P S) **349,** 145
Estimates of the effect of Southern Ocean iron fertilization on atmospheric CO_2 concentrations, *Letter to Nature,* (Joos, F, Sarmiento, J L and Siegenthaler, U) **349,** 772
Air-sea interface. Air entrainment and dissipation in breaking waves, *Letter to Nature,* (Lamarre, E and Melville, W K) **351,** 469
Aircraft emissions, ozone depletion. Future aircraft and global ozone, *Scientific correspondence,* (Bekki, S, Toumi, R, Pyle, J A and Jones, A E) **354,** 193
Aircraft, sulphur emissions. Aircraft sulphur emissions, *Scientific correspondence,* (Hofmann, D J) **349,** 659
Airlines. Afraid of flying?, *Opinion,* **349,** 638
Albedo, Earth. Ice particles and the greenhouse, *Scientific correspondence,* (Hoyle, F and Wickramasinghe, N C) **350,** 467
Alcohol dehydrogenase. Neutral mutation hypothesis test, *Scientific correspondence,* (Graur, D and Li, W-H) **354,** 114
Neutral mutation hypothesis test, *Scientific correspondence,* (Whittam, T S and Nei, M) **354,** 115
Neutral mutation hypothesis test: Reply, *Scientific correspondence,* (McDonald, J H and Kreitman, M) **354,** 116
Ali retrotransposition. A *de novo Ali* insertion results in neurofibromatosis type 1, *Letter to Nature,* (Wallace, M R, Andersen, L B, Saulino, A M, Gregory, P E, Glover, T W and Collins, F S) **353,** 864
Allergic encephalomyelitis. Immunomodulation of experimental allergic encephalomyelitis by antibodies to the antigen-Ia complex, *Letter to Nature,* (Aharoni, R, Teitelbaum, D, Arnon, R and Puri, J) **351,** 147
Allergy. Phosphorylation and dephosphorylation of the high-affinity receptor for immunoglobulin E immediately after receptor engagement and disengagement, *Letter to Nature,* (Paolini, R, Jouvin, M-H and Kinet, J-P) **353,** 855
Sesame sauce, *News and views,* **353,** 118
Allosterism. Was the loss of the D helix in α globin a functionally neutral mutation?, *Letter to Nature,* (Komiyama, N H, Shih, D T-B, Looker, D, Tame, J and Nagai, K) **352,** 349
Alloys. Making sense of binary metal alloys, *News and views,* (Maddox, J) **349,** 649
Passivity breakdown and pitting corrosion of binary alloys, *Letter to Nature,* (Williams, D E, Newman, R C, Song, Q and Kelly, R G) **350,** 216
Alternative energy sources. New technologies needed, *Correspondence,* (England, S B and Kammen, D B) **352,** 752
Aluminium, mantle. A high-pressure form of Al_2SiO_5 as a possible host of aluminium in the mantle, *Letter to Nature,* (Ahmed-Zaïd, I and Madon, M) **353,** 426
Aluminium, meteoritic. Large amounts of extinct ^{26}Al in interstellar grains from the Murchison meteorite, *Letter to Nature,* (Zinner, E, Amari, S, Anders, E and Lewis, R) **349,** 51
Alvey programme. Industrial/academic collaboration: Alvey lessons unheeded, *News,* (Aldhous, P) **351,** 178
Alzheimer's disease, animal model. Alzheimer's disease: In the beginning . . ., *News and views,* (Selkoe, D J) **354,** 432
Alzheimer's disease. Alzheimer's mutation, *Scientific correspondence,* (Tanzi, R E and Hyman, B T) **350,** 564
Amyloid plaques, neurofibrillary tangles and neuronal loss in brains of transgenic mice overexpressing a C-terminal fragment of human amyloid precursor protein, *Letter to Nature,* (Kawabata, S, Higgins, G A and Gordon, J W) **354,** 476
Early-onset Alzheimer's disease caused by mutations at codon 717 of the β-amyloid precursor protein gene, *Letter to Nature,* (Chartier-Harlin, M-C, Crawford, F, Houlden, H, Warren, A, Hughes, D, Fidani, L, Goate, A, Rossor, M, Roques, P, Hardy, J and Mullan, M) **353,** 844
Familial Alzheimer's disease: Beta amyloid resurrected, *News and views,* (Wright, A F, Goedert, M and Hastie, N D) **349,** 653
Formation of β-amyloid protein deposits in brains of transgenic mice, *Letter to Nature,* (Quon, D, Wang, Y, Catalano, R, Scardina, J M, Murakami, K and Cordell, B) **352,** 239
Injury and Alzheimer's, *News and views,* **354,** 437
New protein fold revealed by a 2.3-Å resolution crystal structure of nerve growth factor, *Letter to Nature,* (McDonald, N Q, Lapatto, R, Murray-Rust, J, Gunning, J, Wlodawer, A and Blundell, T L) **354,** 411
Segregation of a missense mutation in the amyloid precursor protein gene with familial Alzheimer's disease, *Letter to Nature,* (Goate, A, Chartier-Harlin, M-C, Mullan, M, Brown, J, Crawford, F, Fidani, L, Giuffra, L, Haynes, A, Irving, N, James, L, Mant, R, Newton, P, Rooke, K, Roques, P, Talbot, C, Williamson, R, Rossor, M, Owen, M and Hardy, J) **349,** 704
Amacrine cells, orientation-sensitive responses. Two types of orientation-sensitive responses of amacrine cells in the mammalian retina, *Letter to Nature,* (Bloomfield, S A) **350,** 347
Amazon, carbon isotopes. Carbon ratios in the Amazon, *Scientific correspondence,* (Bird, M I, Chivas, A R and Fyfe, W S) **354,** 271
Amazon, rain forests. Amazonia: Deforestation rate is falling, *News,* (Bonalume, R) **350,** 368
Amazonia: From mine camp to laboratory, *News,* (Bonalume, R) **350,** 368
Amino acids, extraterrestrial. Chirality and the cold origin of life, *Scientific correspondence,* (Goldanski, V I and Kuzmin, V V) **352,** 114
Extraterrestrial synthesis, *Scientific correspondence,* (Miller, S L and Bada, J L) **350,** 387
Extraterrestrial synthesis: Reply, *Scientific correspondence,* (Shock, E L and Schulte, M D) **350,** 388
Amino-acid food supplements. Biotechnology: Yellow light on L-tryptophan, *News,* (Aldhous, P) **353,** 490
Amorphization, polymers. Pressure-induced amorphization and disordering on cooling in a crystalline polymer, *Letter to Nature,* (Rastogi, S, Newman, M and Keller, A) **353,** 55
Amorphous metals. Sonochemical synthesis of amorphous iron, *Letter to Nature,* (Suslick, K S, Choe, S-B, Cichowlas, A A and Grinstaff, M W) **353,** 414
Amorphous solids. Medium-range order in the cation distribution of a calcium silicate glass, *Article,* (Gaskell, P H, Eckersley, M C, Barnes, A C and Chieux, P) **350,** 675
Medium-range structural order in covalent amorphous solids, *Review article,* (Elliott, S R) **354,** 445
Solid-state physics: Glasses come to order, *News and views,* (Jeanloz, R and Williams, Q) **350,** 659
Amphetamines. Expression cloning of a cocaine- and antidepressant-sensitive human noradrenaline transporter, *Letter to Nature,* (Pacholczyk, T, Blakely, R D and Amara, S G) **350,** 350
Amphiphiles. The conformation of membranes, *Review article,* (Lipowsky, R) **349,** 475
Amphiphilic bilayers. Model membranes: Playing a molecular accordion, *News and views,* (Cates, M) **351,** 102
Amphipods. Amphipod also invades Britain, *Scientific correspondence,* (Harris, R R) **354,** 194
Amyloid beta protein precursor. Alzheimer's mutation, *Scientific correspondence,* (Tanzi, R E and Hyman, B T) **350,** 564
Amyloid precuror protein. Early-onset Alzheimer's disease caused by mutations at codon 717 of the β-amyloid precursor protein gene, *Letter to Nature,* (Chartier-Harlin, M-C, Craw-

ford, F, Houlden, H, Warren, A, Hughes, D, Fidani, L, Goate, A, Rossor, M, Roques, P, Hardy, J and Mullan, M) **353,** 844

Amyloid precursor protein. Alzheimer's disease: In the beginning . . ., *News and views,* (Selkoe, D J) **354,** 432

Amyloid plaques, neurofibrillary tangles and neuronal loss in brains of transgenic mice overexpressing a C-terminal fragment of human amyloid precursor protein, *Letter to Nature,* (Kawabata, S, Higgins, G A and Gordon, J W) **354,** 476

Amyloid. Familial Alzheimer's disease: Beta amyloid resurrected, *News and views,* (Wright, A F, Goedert, M and Hastie, N D) **349,** 653

Segregation of a missense mutation in the amyloid precursor protein gene with familial Alzheimer's disease, *Letter to Nature,* (Goate, A, Chartier-Harlin, M-C, Mullan, M, Brown, J, Crawford, F, Fidani, L, Giuffra, L, Haynes, A, Irving, N, James, L, Mant, R, Newton, P, Rooke, K, Roques, P, Talbot, C, Williamson, R, Rossor, M, Owen, M and Hardy, J **349,** 704

Amyotrophic lateral sclerosis. Strike one, *News and views,* **351,** 353

Anaesthetics. Malignant diagnosis, *News and views,* **354,** 22

Analytical chemistry. A fibre-optic chemical sensor with discrete sensing sites, *Letter to Nature,* (Barnard, S M and Walt, D R) **353,** 338

Digital display, *Correspondence,* (Thomas, A F) **352,** 9

Anaphylatoxin. The chemotactic receptor for human C5a anaphylatoxin, *Letter to Nature,* (Gerard, N P and Gerard, C) **349,** 614

Anatomy, tetrapods. Fish-like gills and breathing in the earliest known tetrapod, *Letter to Nature,* (Coates, M I and Clack, J A) **352,** 234

Ancient Britons. Archaeology: Ancient Britons in blue, *News and views,* (Bahn, P G) **350,** 382

Ancient DNA. Ancient HLA genes from 7,500-year-old archaeological remains, *Letter to Nature,* (Lawlor, D A, Dickel, C D, Hauswirth, W W and Parham, P) **349,** 785

Ancient Greece, ecology of. The ecology of the ancient Greek world, *book review by* Halstead, P. (Sallares, R) **350,** 538

Ancient monuments, preservation. Deterioration of our cultural heritage, *Commentary,* (Burns, G) **352,** 658

Andes, volcanism. Andean magma: Peeled or MASHed?, *News and views,* (Hickey-Vargas, R) **350,** 381

Androgen receptor. Androgen receptor gene mutations in X-linked spinal and bulbar muscular atrophy, *Letter to Nature,* (La Spada, A R, Wilson, E M, Lubahn, D B, Harding, A E and Fischbeck, K H) **352,** 77

Androgens. Deletion of steroid 5α-reductase 2 gene in male pseudohermaphroditism, *Letter to Nature,* (Andersson, S, Berman, D M, Jenkins, E P and Russell, D W) **354,** 159

Angiosperms. A fossil smut fungus from the anthers of an Eocene angiosperm, *Letter to Nature,* (Currah, R S and Stockey, R A) **350,** 698

Floral colour changes as cues for pollinators, *Letter to Nature,* (Weiss, M R) **354,** 227

Angiotensin converting enzyme. Chromosomal mapping of two genetic loci associated with blood-pressure regulation in hereditary hypertensive rats, *Article,* (Hilbert, P, Lindpaintner, K, Beckmann, J, Serikawa, T, Soubrier, F, Dubay, C, Cartwright, P, De Gouyon, B, Julier, C, Takahasi, S, Vincent, M, Ganten, D, Georges, M and Lathrop, M) **353,** 521

Angiotensin II receptor. Cloning and expression of a complementary DNA encoding a bovine adrenal angiotensin II type-1 receptor, *Letter to Nature,* (Sasaki, K, Yamano, Y, Bardhan, S, Iwai, N, Murray, J J, Hasegawa, M, Matsuda, Y and Inagami, T) **351,** 230

Isolation of a cDNA encoding the vascular type-1 angiotensin II receptor, *Letter to Nature,* (Murphy, T J, Alexander, R W, Griendling, K K, Runge, M S and Bernstein, K E) **351,** 233

Anglo-Australian Observatory. The creation of the Anglo-Australian Observatory, *book review by* Ward, M. (Gascoigne, S C B, Proust, K M and Robins, M O) **350,** 522

Animal abundance. Ecology: Of size and abundance, *News and views,* (Damuth, J) **351,** 268

The relationship between abundance and body size in British birds, *Letter to Nature,* (Nee, S, Read, A F, Greenwood, J J D and Harvey, P H) **351,** 312

Animal behaviour. Headbangers, *News and views,* **349,** 657

How monkeys see the world, *book review by* McGrew, W C. (Cheney, D L and Seyfarth, R M) **350,** 565

Phylogeny, ecology and behavior: A research program in comparative biology, *book review by* Siebert, D J and Humphries, C J. (Brooks, D R and McLennan, D A) **353,** 615

The development and integration of behaviour: Essays in honour of Robert Hinde, *book review by* Dawkins, M S., (Bateson, P *editor*) **353,** 514

This little piggie . . ., *News and views,* **354,** 266

Animal breeding systems. Sexual selection and the potential reproductive rates of males and females, *Letter to Nature,* (Clutton-Brock, T H and Vincent, A C J) **351,** 58

Animal coloration. Zoology: Marine quick-change acts, *News and views,* (Greenwood, J J D) **349,** 741

Animal dispersal. Dispersal via whale bones, *Scientific correspondence,* (Martill, D M, Cruickshank, A R I and Taylor, M A) **351,** 193

Animal experimentation. Animal experimentation: Charities fight back, *News,* (Aldhous, P) **354,** 100

Animal experimentation: UK primate research under scrutiny, *News,* (Aldhous, P) **354,** 177

Animal experiments, US. Animal research: Rules arrive under a cloud, *News,* (Anderson, C) **349,** 641

Can reason defeat unreason?, *News and views,* (Culliton, B J) **351,** 517

Animal experiments. Animal experiments: UK government funds humane research, *News,* (Aldhous, P) **349,** 272

Animal experiments: MRC breach spurs reforms, *News,* (Aldhous, P) **349,** 446

Animal experimentation: NIH lose a legal shield, *News,* (Anderson, C) **351,** 337

Animal procedures research, *Correspondence,* (Huxley, A) **349,** 274

Animal research: Challenge on testing, *News,* (Anderson, C) **350,** 549

Animal research: The end for monkeys, *News,* (Anderson, C) **350,** 549

Animal research: Court puts rules in question, *News,* (Anderson, C) **350,** 642

Animal research: Primate imports confusion, *News,* (Anderson, C) **351,** 510

Animal rights, *Correspondence,* (Wolpert, D) **352,** 466

Animals in research, *Correspondence,* (Ralston III, H J and Ralston, D D) **353,** 788

Animals in research, *Correspondence,* (Love, J) **353,** 788

Biomedical research politics: Where angels fear to tread . . ., *News,* (Anderson, C) **350,** 367

More on Silver Spring monkeys, *Correspondence,* (Galsworthy, S B) **349,** 13

Wrong on animal rights, *Correspondence,* (Rowan, A N) **354,** 101

Animal models. Alzheimer's disease: In the beginning . . ., *News and views,* (Selkoe, D J) **354,** 432

Animal patents. Biotechnology: EC look to animal patents, *News,* (Anderson, C) **353,** 8

Animal physiology. Physiology: Cold facts and naked truth, *News and views,* (Cossins, A R) **353,** 699

Rheostasis: The physiology of change, *book review by* Schmidt-Nielsen, K. (Mrosovsky, N) **349,** 750

Animal research. Tissue shortage, *Correspondence,* (Sharpe, R) **354,** 427

Animal rights, UK. The animal rights question, *Correspondence,* (Matfield, M) **352,** 9

Animal rights, US. Animal experimentation: NIH lose a legal shield, *News,* (Anderson, C) **351,** 337

Animal research: Court puts rules in question, *News,* (Anderson, C) **350,** 642

Can reason defeat unreason?, *News and views,* (Culliton, B J) **351,** 517

PETA wins one, *News,* (Anderson, C) **353,** 687

Animal rights. Animal research: Rules arrive under a cloud, *News,* (Anderson, C) **349,** 641

Animal research: The end for monkeys, *News,* (Anderson, C) **350,** 549

Animal rights, *Correspondence,* (Wolpert, D) **352,** 466

Animal welfare: More monkey business, *News,* **349,** 5

Animals in research, *Correspondence,* (Ralston III, H J and Ralston, D D) **353,** 788

Animals in research, *Correspondence,* (Love, J) **353,** 788

Aquarium fights back, *Opinion,* **353,** 588

More on Silver Spring monkeys, *Correspondence,* (Galsworthy, S B) **349,** 13

The animal rights question, *Correspondence,* (Forster, T E) **352,** 9

Wrong on animal rights, *Correspondence,* (Rowan, A N) **354,** 101

Animal testing. Animal testing: Tide turns against LD50, *News,* (Aldhous, P) **353,** 489

Animal welfare, US. Animal supplier charged, *News,* (Anderson, C) **353,** 373

Animal welfare. Animal experiments: MRC breach spurs reforms, *News,* (Aldhous, P) **349,** 446

Animal procedures research, *Correspondence,* (Huxley, A) **349,** 274

Animal welfare: More monkey business, *News,* **349,** 5

Biomedical research politics: Where angels fear to tread . . ., *News,* (Anderson, C) **350,** 367

More on Silver Spring monkeys, *Correspondence,* (Galsworthy, S B) **349,** 13

Silver Spring monkeys, *Correspondence,* (Newkirk, I E) **351,** 93

Anion channels. Plant growth hormones control voltage-dependent activity of anion channels in plasma membrane of guard cells, *Letter to Nature,* (Marten, I, Lohse, G and Hedrich, R) **353,** 758

Aniridia. Mouse *Small eye* results from mutations in a paired-like homeobox-containing gene, *Letter to Nature,* (Hill, R E, Favor, J, Hogan, B L M, Ton, C C T, Saunders, G F, Hanson, I M, Prosser, J, Jordan, T, Hastie, N D and van Heyningen, V) **354,** 522

Annealing, magnetic. Texturing of magnetic materials at high temperature by solidification in a magnetic field, *Letter to Nature,* (de Rango, P, Lees, M, Lejay, P, Sulpice, A, Tournier, R, Ingold, M, Germi, P and Pernet, M) **349,** 770

Anniversaries. Eighteen ninety one and all that, *Commentary,* (Heilbron, J L and Bynum, W F) **349,** 9

Antarctic ice sheets. Global warming: Breakup of Antarctic ice, *News and views,* (Zwally, H J) **350,** 274

Antarctic meteorites. Research in Antarctica: Micrometeorites: Prospecting in the ice, *News,* (Coles, P) **350,** 300

Research in Antarctica: European collaboration: Meteorites for all, *News,* (Aldhous, P) **350,** 308

Antarctic ozone. Antarctic ozone: Worst hole yet, *News,* (Anderson, C) **353,** 591

Antarctic programme, South Africa. Antarctica: New base for South Africa, *News,* (Cherry, M) **354,** 100

Antarctic research, France. Antarctic research: French research threatened, *News,* (Coles, P) **349,** 553

Antarctic research. US science budget: Navy made to pay for civil research, *News,* (Aldhous, P) **352,** 363

Antarctic Treaty. The Antarctic Treaty System in world politics, *book review by* Drewry, D J., (Jorgansen-Dahl, A and Ostreng, W *editors*) **353,** 126

US okays Antarctic pact, *News,* (Aldhous, P) **352,** 94

Antarctic, mining. Antarctic environment: Mining ban in the air, *News,* (Aldhous, P) **351,** 88

Antarctic, ozone depletion. DNA damage in the Antarctic, *Scientific correspondence,* (Karentz, S, Cleaver, J E and Mitchell, D L) **350,** 28

Ozone depletion: A deepening, broadening trend, *News and views,* (Brasseur, G P) **352,** 668

Antarctic, productivity. Evidence for lower productivity in the Antarctic Ocean during the last glaciation, *Letter to Nature,* (Mortlock, R A, Charles, C D, Froelich, P N, Zibello, M A, Saltzman, J, Hays, J D and Burckle, L H) **351,** 220

Glacial climate: No change down under, *News and views,* (Berger, W H) **351,** 186

Antarctica, ice sheets. Rapid disintegration of the Wordie Ice Shelf in response to atmospheric warming, *Letter to Nature,* (Doake, C S M and Vaughan, D G) **350,** 328

Antarctica, nitrate. Fertilizer and snowfall nitrate, *Scientific correspondence,* (Mulvaney, R) **352,** 27

Antarctica, ocean circulation. Ocean circulation beneath the Ronne ice shelf, *Letter to Nature,* (Nicholls, K W, Makinson, K and Robinson, A V) **354,** 221

Antarctica, ozone depletion. Atmospheric chemistry: New ozone hole phenomenon, *News and views,* (Thompson, A M) **352,** 282

Antarctica, precipitation. Evidence from Antarctic ice cores for recent increases in snow accumulation, *Letter to Nature,* (Morgan, V I, Goodwin, I D, Etheridge, D M and Wookey, C W) **354,** 58

Antarctica, research. Administration: Capital philately, *News,* (Coles, P) **350,** 300

Air travel: Long-distance flying, *News,* (Ewing, T) **350,** 305

Animal populations: Penguins losing the struggle?, *News,* (Anderson, C) **350,** 294

Antarctic environment: Not the 'dirty man', *News,* (Aldhous, P) **350,** 298

Antarctica: A deep depression, *News,* **349,** 7

Antarctica: Reprieve for French polar expeditions?, *News,* (Coles, P) **350,** 265

Archaeology: Dry as dust, *News,* (Ewing, T) **350,** 306

Astronomy: Pole position, *News,* (Anderson, C) **350,** 295

Australian Antarctic Territories: But when does the real science start?, *News,* (Ewing, T) **350,** 303

British Antarctic Survey: Playing according to the game plan, *News,* (Aldhous, P) **350,** 297

Climate research: Filling in missing pieces, *News,* (Dickman, S) **350,** 308

Communications: Penguins keep their distance, *News,* (Ewing, T) **350,** 305

European collaboration: Meteorites for all, *News,* (Aldhous, P) **350,** 308

Exploring the still unexplored, *News,* **350,** 287

Finance and organization: research takes a back seat, *News,* (Coles, P) **350,** 300

Finance: Concentrating the effort, *News,* (Ewing, T) **350,** 307

France in Antarctica: Change unsettles Antarctic old hands, *News,* (Coles, P) **350,** 299

Future: Dome C: new Antarctic base, *News,* (Coles, P) **350,** 302

German research: Polarstern - Germany's pride and joy, **350,** 307

Glaciology: Warming on the shelf, *News,* (Ewing, T) **350,** 304

Landing strip: Engineering feat or blight?, *News,* (Coles, P) **350,** 301

Limits to Endurance, *News,* (Anderson, C) **352,** 271

Marine living resources: The trouble with trawlers, *News,* (Anderson, C) **350,** 296

Marine living resources: How much krill to fish?, *News,* (Ewing, T) **350,** 306

Micrometeorites: Prospecting in the ice, *News,* (Coles, P) **350,** 300

Oil biology: In troubled waters, *News,* (Anderson, C) **350,** 293

Oil spillage: Helping the local population, *News,* (Ewing, T) **350,** 304

Overwintering: In the bleak midwinter, *News,* (Coles, P) **350,** 302

Polar psychology: Coping with it all, *News,* (Anderson, C) **350,** 290

Research collaboration: Magnetic poles together, *News,* (Aldhous, P) **350,** 297

Research computing: Logging-on on the ice, *News,* (Aldhous, P) **350,** 297

Research infrastructure: A steady expansion, *News,* (Aldhous, P) **350,** 298

The Antarctic Treaty System in world politics, *book review*

by Drewry, D J. (Jorgansen-Dahl, A and Ostreng, W *editors*, , 126
The good life: A base marching on its stomach . . ., *News*, (Coles, P) **350**, 299
Tourism: Let sleeping dogs lie, *News*, (Anderson, C) **350**, 291
Undersea research: When things go wrong, *News*, (Anderson, C) **350**, 292
US polar architecture: Designing the next South Pole station, *News*, (Anderson, C) **350**, 289
US sciences programme: Green issues fuel funding, *News*, (Anderson, C) **350**, 295
Women's place: Still an embattled minority, *News*, (Ewing, T) **350**, 305

Antarctica, sea ice. Climate change: The Arctic as a bellwether, *News and views*, (Walsh, J E) **352**, 19
Recent variations in Arctic and Antarctic sea-ice covers, *Article*, (Gloersen, P and Campbell, W J) **352**, 33

Antarctica. Swift to avoid the swallow, *News and views*, (Anderson, C) **353**, 795

Antelopes. Athletics: It may be better to be a wimp, *News and views*, (Alexander, R McN) **353**, 696
Running energetics in the pronghorn antelope, *Letter to Nature*, (Lindstedt, S L, Hokanson, J F, Wells, D J, Swain, S D, Hoppeler, H and Navarro, V) **353**, 748

Anthropology, forensic. Witness from the grave: The stories bones tell, *book review by* Green, M A. (Joyce, C and Stover, E) **350**, 389

Anthropology. Anthropology: Bones go home, *News*, (Aldhous, P) **351**, 178
Anthropology: Why are pygmies small?, *News and views*, (Diamond, J M) **354**, 111
Palaeoanthropology: Teeth, sex and species, *News and views*, (Martin, L) **352**, 111
The egalitarians - Human and chimpanzee: An anthropological view of social organization, (Power, M) *book review by* McGrew, W C. **354**, 324
Uniquely human: The evolution of speech, thought and selfless behavior, *book review by* Fletcher, P. (Lieberman, P) **350**, 535

Anti-cancer drugs. Anti-cancer drugs: An international journal on anti-cancer agents, *journal review by* Connors, T A., **353**, 466
Synthetic chemistry: A radical approach to cancer, *News and views*, (Jarman, M) **349**, 566

Anti-cell antibodies. Anti-cell antibody in macaques, *Scientific correspondence*, (Stott, E J) **353**, 393

Anti-HIV drug. Anti-HIV drug mechanism, *Scientific correspondence*, (Jones, I M and Jacob, G S) **352**, 198

Anti-prions. Anti-prions and other agents, *Scientific correspondence*, (Manson, J and Hope, J) **352**, 291
Anti-prions and other agents, *Scientific correspondence*, (Hewinson, R G, Lowings, J P, Dawson, M D and Woodward, M J) **352**, 291
Anti-prions and other agents, *Scientific correspondence*, (Bendheim, P E and Bolton, D C) **352**, 291

Antibiotics. Antibiotic inhibition of group I ribozyme function, *Letter to Nature*, (von Ahsen, U, Davies, J and Schroeder, R) **353**, 368
Ribosomes: Drugs and the RNA world, *News and views*, (Noller, H F) **353**, 302

Antibodies, humanized. Humanized antibodies for therapy, *Product Review*, (Co, M S and Queen, C) **351**, 501

Antibodies, monoclonal. Growing human B lymphocytes in the CD40 system, *Product Review*, (Banchereau, J and Rousset, F) **353**, 678
Off the shelf, *News and views*, **354**, 437

Antibodies. Immunology: The centre of hypermutation, *News and views*, (MacLennan, I) **354**, 352
Intracional generation of antibody mutants in germinal centres, *Letter to Nature*, (Jacob, J, Kelsoe, G, Rajewsky, K and Weiss, U) **354**, 389
The next cluster of differentiation (CD) workshop, *Product Review*, (Springer, T A) **354**, 415

Antidepressants. Cloning and expression of a functional serotonin transporter from rat brain, *Letter to Nature*, (Blakely, R D, Berson, H E, Fremeau Jr, R T, Caron, M G, Peek, M M, Prince, H K and Bradley, C C) **354**, 66
Expression cloning of a cocaine- and antidepressant-sensitive human noradrenaline transporter, *Letter to Nature*, (Pacholczyk, T, Blakely, R D and Amara, S G) **350**, 350
Neuroscience: Vehicles of inactivation, *News and views*, (Snyder, S H) **354**, 187

Antiferromagnetism. Antiferromagnetism and metallic conductivity in Nb_3O_8, *Letter to Nature*, (Cava, R J, Batlogg, B, Krajewski, J J, Gammel, P, Poulsen, H F, Peck, W F and Rupp, L W) **350**, 598

Antigen binding. Peptide binding to empty HLA-B27 molecules of viable human cells, *Letter to Nature*, (Benjamin, R J, Madrigal, J A and Parham, P) **351**, 74
The structure of HLA-B27 reveals nonamer self-peptides bound in an extended conformation, *Article*, (Madden, D R, Gorga, J C, Strominger, J L and Wiley, D C) **353**, 321

Antigen presentation. Allele-specific motifs revealed by sequencing of self-peptides eluted from MHC molecules, *Article*, (Falk, K, Rötzschke, O, Stevanovic, S, Jung, G and Rammensee, H-G) **351**, 290
Antigen presentation: Later for the rendezvous, *News and views*, (Hackett, C J) **349**, 655
Antigen presentation: Half of a peptide pump, *News and views*, (Parham, P) **351**, 271
Antigen presentation: The second class story, *News and views*, (Germain, R N) **353**, 605
Restoration of antigen presentation to the mutant cell line RMA-S by an MHC-linked transporter, *Letter to Nature*, (Powis, S J, Townsend, A R M, Deverson, E V, Bastin, J, Butcher, G W and Howard, J C) **354**, 528
Segregation of MHC class II molecules from MHC class I molecules in the Golgi complex for transport to lysosomal compartments, *Article*, (Peters, P J, Neefjes, J J, Oorschot, V, Ploegh, H L and Geuze, H J) **349**, 669
Sequence analysis of peptides bound to MHC class II molecules, *Article*, (Rudensky, A Y, Preston, Hurlburt, P, Hong, S-C, Barlow, A and Janeway Jr, C A) **353**, 622

Antigen processing. A proteasome-related gene between the two ABC transporter loci in the class II region of the human MHC, *Letter to Nature*, (Glynne, R, Powis, S H, Beck, S, Kelly, A, Kerr, L-A and Trowsdale, J) **353**, 357
A role for peptide in determining MHC class II structure, *Letter to Nature*, (Sadegh-Nasseri, S and Germain, R N) **353**, 167
Antigen processing: Proteasomes in the pathway, *News and views*, (Robertson, M) **353**, 300
Homology of proteasome subunits to a major histocompatibility complex-linked LMP gene, *Letter to Nature*, (Martinez, C K and Monaco, J J) **353**, 664
MHC class II structure, occupancy and surface expression determined by post-endoplasmic reticulum antigen binding, *Article*, (Germain, R N and Hendrix, L R) **353**, 134
Second proteasome-related gene in the human MHC class II region, *Letter to Nature*, (Kelly, A, Powis, S H, Glynne, R, Radley, E, Beck, S and Trowsdale, J) **353**, 667
Structural and serological similarity of MHC-linked LMP and proteasome (multicatalytic protinase) complexes, *Letter to Nature*, (Brown, M G, Driscoll, J and Monaco, J J) **353**, 355
Subunit of the '20S' proteasome (muticatalytic proteinase) encoded by the major histocompatibility complex, *Letter to Nature*, (Ortiz-Navarrete, V, Seelig, A, Gernold, M, Frentzel, S, Kloetzel, P M and Hämmerling, G J) **353**, 662
What's the score?, *Scientific correspondence*, (Brodsky, F M) **352**, 288

Antigen recognition. Elimination from peripheral lymphoid tissues of self-reactive B lymphocytes recognizing membrane-bound antigens, *Letter to Nature*, (Hartley, S B, Crosbie, J, Brink, R, Kantor, A B, Basten, A and Goodnow, C C) **353**, 765
Specific binding of antigenic peptides to cell-associated MHC class I molecules, *Letter to Nature*, (Luescher, I F, Romero, P, Cerottini, J-C and Maryanski, J L) **351**, 72

Antigenic T-cell sites. Identifying antigenic T-cell sites, *Apis mellifera* . (Feller, D C and de la Cruz, V F) **349**, 720

Antigenic variation. Efficient production of functional mRNA mediated by RNA polymerase I in *Trypanosoma brucei*, *Letter to Nature*, (Zomerdijk, J C B M, Kieft, R and Borst, P) **353**, 772

Antigens. Interleukin-2 programs mouse αβ T lymphocytes for apoptosis, *Letter to Nature*, (Lenardo, M J) **353**, 858
Normal development and function of CD8⁺ cells but markedly decreased helper cell activity in mice lacking CD4, *Letter to Nature*, (Rahemtulla, A, Fung-Leung, W P, Schilham, M W, Kündig, T M, Sambhara, S R, Narendran, A, Arabian, A, Wakeham, A, Paige, C J, Zinkernagel, R M, Miller, R G and Mak, T W) **353**, 180
Phosphorylation and dephosphorylation of the high-affinity receptor for immunoglobulin E immediately after receptor engagement and disengagement, *Letter to Nature*, (Paolini, R, Jouvin, M-H and Kinet, J-P) **353**, 855

Antihydrogen. Atomic physics: Antihydrogen in a new light, *News and views*, (Hughes, R) **353**, 700

Antimatter. Atomic physics: Antihydrogen in a new light, *News and views*, (Hughes, R) **353**, 700

Antineutrinos. Deep thought, *News and views*, **351**, 270

Antiparticles. Suspended animation, *News and views*, **353**, 386

Antiprotons. Suspended animation, *News and views*, **353**, 386

Antipsychotic drugs. Cloning of the gene for a human dopamine D_4 receptor with high affinity for the antipsychotic clozapine, *Letter to Nature*, (Van Tol, H H M, Bunzow, J R, Guan, H-C, Sunahara, R K, Seeman, P, Niznik, H B and Civelli, O) **350**, 610

Antiretroviral drugs. AIDS: Green light for ddI, *News*, (Gershon, D) **353**, 589
AZT before AIDS, *Scientific correspondence*, (Dube, S K and Ostertag, W) **352**, 114

Antirrhinum majus. A portable palette, *News and views*, **353**, 20
The war of the whorls: genetic interactions controlling flower development, *Review article*, (Coen, E S and Meyerowitz, E M) **353**, 31

Apolipoprotein A1. Inhibition of early atherogenesis in transgenic mice by human apolipoprotein AI, *Letter to Nature*, (Rubin, E M, Krauss, R M, Spangler, E A, Verstuyft, J G and Clift, S M) **353**, 265

Apolipoprotein B. Cotranslocational insertion of apolipoprotein B into the inner leaflet of the endoplasmic reticulum, *Letter to Nature*, (Pease, R J, Harrison, G B and Scott, J) **353**, 448

Apoptosis. Activation of Epstein-Barr virus latent genes protects human B cells from death by apoptosis, *Letter to Nature*, (Gregory, C D, Dive, C, Henderson, S, Smith, C A, Williams, G T, Gordon, J and Rickinson, A B) **349**, 612
Interleukin-2 programs mouse αβ T lymphocytes for apoptosis, *Letter to Nature*, (Lenardo, M J) **353**, 858
Stimulation by superantigen, *Scientific correspondence*, (Cohen, J J, Duke, R C and Sellins, K S) **352**, 199
Wild-type p53 induces apoptosis of myeloid leukaemic cells that is inhibited by interleukin-6, *Letter to Nature*, (Yonish-Rouach, E, Resnitzky, D, Lotem, J, Sachs, L, Kimchi, A and Oren, M) **352**, 345

Appointments, Germany. Unifying German research: Simon stays, *News*, (Dickman, S) **349**, 448

Appointments, UK. UK science: All change at the top, *News*, (Aldhous, P) **349**, 443

Aquaria. Aquarium fights back, *Opinion*, **353**, 588

Aquifers, anaerobic. Microbial production of organic acids in aquitard sediments and its role in aquifer geochemistry, *Letter to Nature*, (McMahon, P B and Chapelle, F H) **349**, 233

Aquifers, seep sediments. Control of pore-water chemistry at the base of the Florida escarpment by processes within the platform, *Letter to Nature*, (Chanton, J P, Martens, C S and Paull, C K) **349**, 229

Aquitards. Microbial production of organic acids in aquitard sediments and its role in aquifer geochemistry, *Letter to Nature*, (McMahon, P B and Chapelle, F H) **349**, 233

Arabian Sea, methane fluxes. Methane flux to the atmosphere from the Arabian Sea, *Letter to Nature*, (Owens, N J P, Law, C S, Mantoura, R F C, Burkill, P H and Llewellyn, C A) **354**, 293

Arabian Sea, temperature. Biological control of surface temperature in the Arabian Sea, *Letter to Nature*, (Sathyendranath, S, Gouveia, A D, Shetye, S R, Ravindran, P and Platt, T) **349**, 54

Arabic science. Arabic sciences and philosophy, *journal review by* Sardar, Z., (Musallem, B, Rashed, R, Jolivet, J, Mahdi, M and Saliba, G *editors*) **353**, 459

Arabidopsis thaliana. Mutations affecting body organization in the *Arabidopsis* embryo, *Article*, (Mayer, U, Ruiz, R A T, Berleth, T, Miséra, S and Jürgens, G) **353**, 402
The war of the whorls: genetic interactions controlling flower development, *Review article*, (Coen, E S and Meyerowitz, E M) **353**, 31

Arachidonic acid. A primary determinant for lipoxygenase positional specificity, *Letter to Nature*, (Sloane, D L, Leung, R, Craik, C S and Sigal, E) **354**, 149
Dopamine activation of the arachidonic acid cascade as a basis for D_1/D_2 receptor synergism, *Letter to Nature*, (Piomelli, D, Pilon, C, Giros, B, Sokoloff, P, Martres, M-P and Schwartz, J-C) **353**, 164

Archaean geology. Geophysics: The lost continents, *News and views*, (Schubert, G) **354**, 358

Archaebacteria. A molecular chaperone from a thermophilic archaebacterium is related to the eukaryotic protein t-complex polypeptide-1, *Letter to Nature*, (Trent, J D, Nimmesgern, E, Wall, J S, Hartl, F-U and Horwich, A L) **354**, 490
More natural classification, *Scientific correspondence*, (Mayr, E) **353**, 122

Archaeoastronomy. Did Sirius change colour, *Scientific correspondence*, (Tang, T B) **352**, 25
Marking time in the Palaeolithic, *News and views*, (Lincoln, T) **351**, 273
Steady shine, *Scientific correspondence*, (van Gent, R H) **349**, 470

Archaeology, North America. Ancient North America: The Archaeology of a Continent, *book review by* Bahn, P G. (Fagan, B M) **351**, 615

Archaeology. Archaeology: Ancient Britons in blue, *News and views*, (Bahn, P G) **350**, 382
Archaeology: Another (and armless) army, *News and views*, (Bahn, P G) **351**, 19
Archaeology: Brilliant - rock art and art rock in Australia, *News and views*, (Gamble, C) **351**, 608
Archaeology: Dead Sea Scrolls released to scholars, *News*, (Culliton, B J) **353**, 291
Archaeology: The earliest horsemen, *News and views*, (Diamond, J M) **350**, 275
Archaeology: Theories, methods and practice, (Renfrew, C and Bahn, P) *book review by* Whittle, A. **354**, 198
Bone hard, *News and views*, **351**, 16
Burning bush: A fire history of Australia, *book review by* Gowlett, J A J. (Pyne, S J) **350**, 539
Centuries of darkness, *book review by* Hassan, F A., (James, P) **353**, 712
Dead Sea Scrolls, *Opinion*, **353**, 96
Deterioration of our cultural heritage, *Commentary*, (Burns, G) **352**, 658
Fantastic archaeology: The wild side of North American prehistory, (Williams, S) *book review by* Sabloff, J A. **354**, 328
Marking time in the Palaeolithic, *News and views*, (Lincoln, T) **351**, 273
Research in Antarctica: Archaeology: Dry as dust, *News*, (Ewing, T) **350**, 306
The Davenport conspiracy revisited, *book review by* Krech III, Shepard. **352**, 389
The great wooden well of Kückhoven, *News and views*, (Bahn, P G) **354**, 269

Arctic haze. Origin of sulphur in Canadian Arctic haze from isotope measurements, *Letter to Nature*, (Nriagu, J O, Coker, R D and Barrie, L A) **349**, 142

Arctic ocean, sedimentation. Effects of ice coverage and ice-rafted material on sedimentation in the Fram Strait, *Letter to*

Nature, (Hebbeln, D and Wefer, G) **350,** 409
Arctic, ozone depletion. Atmospheric chemistry: Stratospheric ozone depletion over the Arctic, *News and views*, (Chipperfield, M) **349,** 279
Evidence from balloon measurements for chemical depletion of stratospheric ozone in the Arctic winter of 1989-90, *Article*, (Hofmann, D J and Deshler, T) **349,** 300
Measuring air from polar vortices, *Scientific correspondence*, (Roscoe, H K) **350,** 197
Arctic, sea ice. Climate change: The Arctic as a bellwether, *News and views*, (Walsh, J E) **352,** 19
Recent variations in Arctic and Antarctic sea-ice covers, *Article*, (Gloersen, P and Campbell, W J) **352,** 33
Warming in the Arctic, *Scientific correspondence*, (Quadfasel, D, Sy, A, Wells, D and Tunik, A) **350,** 385
Armenia, human rights. Hunger strike, *Correspondence*, (Glebocki, R) **349,** 13
Arms control, South Africa. Arms control: South Africa to sign, *News*, (Anderson, C) **352,** 7
Arms control. Leadership needed, *Correspondence*, (Richards, P G) **354,** 347
Lessons of hundred-hour war, *Opinion*, **350,** 1
The end of the nuclear threat?, *Opinion*, **353,** 483
The Gulf War and the NPT, *Opinion*, **349,** 637
The NPT and its black sheep, *Opinion*, **354,** 253
Arms restrictions, chemical weapons. Verification of the chemical convention, *Commentary*, (Black, S, Morel, B and Zapf, P) **351,** 515
Aromaticity. Buckminsterfullerene: Aromaticity revisited, *News and views*, (Fowler, P) **350,** 20
Experimental and theoretical determination of the magnetic susceptibility of C_{60} and C_{70}, *Letter to Nature*, (Haddon, R C, Schneemeyer, L F, Waszczak, J V, Glarum, S H, Tycko, R, Dabbagh, G, Kortan, A R, Muller, A J, Mujsce, A M, Rosseinsky, M J, Zahurak, S M, Makhija, A V, Thiel, F A, Raghavachari, K, Cockayne, E and E) **350,** 46
Ring ratings, *News and views*, **351,** 190
Arterial thrombosis. Domains specifying thrombin-receptor interaction, *Letter to Nature*, (Vu, T-K H, Wheaton, V I, Hung, D T, Charo, I and Coughlin, S R) **353,** 674
Artificial insemination. Women without men, *Opinion*, **350,** 96
Artificial intelligence. Hermes and the golden thinking machine, *book review by* Campbell, J A. (Tzonis, A) **350,** 32
International journal of neural systems, *journal review by* Aleksander, I., (Lautrup, B *editor*) **353,** 477
Models of my life, *book review by* Longuet-Higgins, H C. (Simon, H A) **350,** 531
Unified theories of cognition, *book review by* Fox, J., (Newell, A) **353,** 312
Artificial membranes. Composite membranes from photochemical synthesis of ultrathin polymer films, *Letter to Nature*, (Liu, C and Martin, C R) **352,** 50
Polymer films: Designing a slow leak, *News and views*, (Kaner, R B) **352,** 23
Artificial olfaction. Nobody nose ..., *News and views*, **352,** 22
Asia, AIDS. AIDS against the rest of the world, *News and views*, (Culliton, B J) **352,** 15
Asia, monsoons. Climate: Long-term monsoon regulators, *News and views*, (Hagelberg, T and Mix, A C) **353,** 703
Forcing mechanisms of the Indian Ocean monsoon, *Article*, (Clemens, S, Prell, W, Murray, D, Shimmield, G and Weedon, G) **353,** 720
Aspernic vaccine. India: Sterilized dogs, bulls will keep their libido, *News*, (Jayaraman, K S) **352,** 97
Asteroids. A chip off some old rocks, *News*, (Lindley, D) **354,** 178
A way-out 'asteroid', *News and views*, (Chapman, C R) **350,** 556
Near miss of the Earth by a small asteroid, *Letter to Nature*, (Scotti, J V, Rabinowitz, D L and Marsden, B G) **354,** 287
Phosphates in pallasite meteorites as probes of mantle processes in small planetary bodies, *Letter to Nature*, (Davis, A M and Olsen, E J) **353,** 637
Spacewatch: Our asteroid-pelted planet, *News and views*, (Steel, D) **354,** 265
Asthma. Cloning and expression of cDNA for a human thromboxane A_2 receptor, *Letter to Nature*, (Hirata, M, Hayashi, Y, Ushikubi, F, Yokota, Y, Kageyama, R, Nakanishi, S and Narumiya, S) **349,** 617
Astronomer Royal. Astronomer Royal: New man will speak his mind, *News*, (Aldhous, P) **349,** 93
Not so old, *Correspondence*, (Wayman, P A) **349,** 734
Astronomy, adaptive optics. Principles of adaptive optics, (Tyson, R K) *book review by* Woolf, N J. **354,** 197
Astronomy, Hubble Space Telescope. Hubble Space Telescope: Real science at last, *News and views*, (Lindley, D) **351,** 441
Astronomy, optical. Optical astronomy: Canada back in the fold?, *News*, (Aldhous, P) **353,** 688
Astronomy, UK. Astronomer Royal: New man will speak his mind, *News*, (Aldhous, P) **349,** 93
Not so old, *Correspondence*, (Wayman, P A) **349,** 734
Astronomy, US. Astronomers still thinking too big?, *Correspondence*, (Yaes, R J) **352,** 9
Astronomy: Keck telescope twin gets the go-ahead, *News*, (Anderson, C) **351,** 8
Astronomy: Radio wars, *News*, (Anderson, C) **353,** 592
Research in Antarctica: Astronomy: Pole position, *News*, (Anderson, C) **350,** 295
Space science: Astro reborn, *News*, (Lindley, D) **351,** 257
US astronomers ask for more, *Commentary*, (Lindley, D) **350,** 185
Astronomy. Astronomy: Insult to injury, *News*, (Anderson, C) **353,** 97
Astronomy: Laser beams untwinkle stars, *News and views*, (Merkle, F) **353,** 115
Cheap big science, *Correspondence*, (Tayler, R J) **354,** 10
Comets: A chronological history of observation, science, myth and folklore, *book review by* Harrison, E. (Yeomans, D K) **350,** 521
Compensation of atmospheric optical distortion using a synthetic beacon, *Letter to Nature*, (Primmerman, C A, Murphy, D V, Page, D A, Zollars, B G and Barclay, H T) **353,** 141
Experimental astronomy, *journal review by* Wolfendale, A W., (Beckers, J M, Cash, W C, de Graauw, T, Hanisch, R J, Holt, S S, Schilizzi, R T and Schönfelder, V *editors*) **353,** 479
Measurement of atmospheric wavefront distortion using scattered light from a laser guide-star, *Letter to Nature*, (Fugate, R Q, Fried, D L, Ameer, G A, Boeke, B R, Browne, S L, Roberts, P H, Ruane, R E, Tyler, G A and Wopat, L M) **353,** 144
The astronomers, *book review by* Hughes, D W. (Goldsmith, D) **351,** 451
The creation of the Anglo-Australian Observatory, *book review by* Ward, M. (Gascoigne, S C B, Proust, K M and Robins, M O) **350,** 522
Wanderers in space: Exploration and discovery in the Solar System, (Lang, K R and Whitney, C A) *book review by* Chapman, C R. **354,** 28
Astrophysical jets. A disrupted radio jet inside the host galaxy of the quasar 3C48, *Letter to Nature*, (Wilkinson, P N, Tzioumis, A K, Benson, J M, Walker, R C, Simon, R S and Kahn, F D) **352,** 313
Quasar jets: Life in the fast lane, *News and views*, (Heckman, T and O'Dea, C) **354,** 355
Astrophysics, Japan. Astrophysics: Bigger than 20 Olympic pools, *News*, (Swinbanks, D) **353,** 200
Asymmetry, DNA. DNA strand asymmetry, *Scientific correspondence*, (Wu, C-I) **352,** 114
AT&T Bell Labs, new head. Industrial research: Mayo new head at Bell Labs, *News*, (Pool, R) **352,** 268
Atherosclerosis. A primary determinant for lipoxygenase positional specificity, *Letter to Nature*, (Sloane, D L, Leung, R, Craik, C S and Sigal, E) **354,** 149
Inhibition of early atherogenesis in transgenic mice by human apolipoprotein AI, *Letter to Nature*, (Rubin, E M, Krauss, R M, Spangler, E A, Verstuyft, J G and Clift, S M) **353,** 265
Athletics, sex testing. Genetic testing: Olympic row over sex testing, *News*, (Anderson, C) **353,** 784
Athletics. Athletics: It may be better to be a wimp, *News and views*, (Alexander, R McN) **353,** 696
Atmosphere, evolution of. Breathless, *News and views*, **350,** 383
Atmospheric aerosols. Coherence between seasonal cycles of dimethyl sulphide, methanesulphonate and sulphate in marine air, *Letter to Nature*, (Ayers, G P, Ivey, J P and Gillett, R W) **349,** 404
Could reducing fossil-fuel emissions cause global warming?, *Letter to Nature*, (Wigley, T M L) **349,** 503
Atmospheric chemistry, heterogeneous. Role of heterogeneous conversion of N_2O_5 on sulphate aerosols in global ozone losses, *Letter to Nature*, (Rodriguez, J M, Ko, M K W and Sze, N D) **352,** 134
Atmospheric chemistry, solar protons. Importance of energetic solar protons in ozone depletion, *Letter to Nature*, (Stephenson, J A E and Scourfield, M W J) **352,** 137
Atmospheric chemistry. Atmospheric chemistry: Stratospheric ozone depletion over the Arctic, *News and views*, (Chipperfield, M) **349,** 279
Atomospheric chemistry: Methane's sinks and sources, *News and views*, (Crutzen, P J) **350,** 380
Chlorine in the stratosphere, *Scientific correspondence*, (Tanaka, N and Rye, D M) **353,** 707
Evidence from balloon measurements for chemical depletion of stratospheric ozone in the Arctic winter of 1989-90, *Article*, (Hofmann, D J and Deshler, T) **349,** 300
Future aircraft and global ozone, *Scientific correspondence*, (Bekki, S, Toumi, R, Pyle, J A and Jones, A E) **354,** 193
Highly vibrationally excited oxygen as a potential source of ozone in the upper stratosphere and mesosphere, *Letter to Nature*, (Toumi, R, Kerridge, B J and Pyle, J A) **351,** 217
New measurement of the rate coefficient for the reaction of OH with methane, *Letter to Nature*, (Vaghjiani, G R and Ravishankara, A R) **350,** 406
Terpenes and forest decline, *Scientific correspondence*, (Ross, H B and De Serves, C) **352,** 672
Terpenes and forest decline: Reply, *Scientific correspondence*, (Becker, K H, Brockmann, K J and Bechara, J) **352,** 672
Atmospheric convection. Climate feedbacks: Limit to greenhouse warming?, *News and views*, (Heymsfield, A J and Miloshevich, L M) **351,** 14
Atmospheric dynamics, Jupiter. Planetary atmospheres: Jupiter's stratosphere mapped, *News and views*, (Gierasch, P J) **351,** 103
Atmospheric dynamics, Saturn. The Great White Spot and disturbances in Saturn's equatorial atmosphere during 1990, *Article*, (Sanchez-Lavega, A, Colas, F, Lecacheux, J, Laques, P, Miyazaki, I and Parker, D) **353,** 397
Atmospheric dynamics. Measuring air from polar vortices, *Scientific correspondence*, (Roscoe, H K) **350,** 197
Atmospheric oscillations, Jupiter. The quasiquadrennial oscillation of Jupiter's equatorial stratosphere, *Letter to Nature*, (Leovy, C B, Friedson, A J and Orton, G S) **354,** 380
Atmospheric research, US. Ozone mission up, *News*, (Anderson, C) **353,** 199
Atmospheric science. The changing atmosphere: A global challenge, *book review by* Birks, J W. (Firor, J) **349,** 472
Atom interferometry. Atomic physics: Unnatural selection, *News and views*, (Foot, C and Steane, A) **351,** 521
Quantum optical tests of complementarity, *Review article*, (Scully, M A, Englert, B-G and Walther, H) **351,** 111
Atom trapping. Something for nothing, *News and views*, **349,** 280
Atomic bomb tests. Radiation doses and cancer, *Scientific correspondence*, (Shlyakhter, A and Wilson, R) **350,** 25
Atomic force fields. Relation between crystal symmetry and ionicity in silica polymorphs, *Letter to Nature*, (Kramer, G J, van Beest, W H and van Santen, R A) **351,** 636
Atomic force microscope, force measurements. Direct measurement of colloidal forces using an atomic force microscope, *Letter to Nature*, (Ducker, W A, Senden, T J and Pashley, R M) **353,** 239
Atomic force microscopy. Molecular-resolution images of Langmuir-Blodgett films using atomic force microscopy, *Letter to Nature*, (Meyer, E, Howald, L, Overney, R M, Heinzelmann, H, Frommer, J, Güntherodt, H-J, Wagner, T, Schier, H and Roth, S) **349,** 398
Atomic nuclei. Nucleosynthesis: Finding the proton drip line, *News and views*, (Mathews, G J) **351,** 348
Atomic physics. Atomic physics: Unnatural selection, *News and views*, (Foot, C and Steane, A) **351,** 521
Atomic physics: Antihydrogen in a new light, *News and views*, (Hughes, R) **353,** 700
Atoms and light interactions, *book review by* Loudon, R. (Dodd, J N) **352,** 678
Making atoms march in step, *News and views*, (Maddox, J) **351,** 601
Redirecting science: Niels Bohr, philanthropy and the rise of nuclear physics, *book review by* Bernstein, J. (Aaserud, F) **349,** 751
Atomic research, India. India: Atomic lab flooded, *News*, (Jayaraman, K S) **352,** 272
Atomic switch. An atomic switch realized with the scanning tunnelling microscope, *Letter to Nature*, (Eigler, D M, Lutz, C P and Rudge, W E) **352,** 600
Nanotechnology: Switch to atom control, *News and views*, (Quate, C F) **352,** 571
ATP hydrolysis. Sliding distance between actin and myosin filaments per ATP molecule hydrolysed in skinned muscle fibres, *Letter to Nature*, (Higuchi, H and Goldman, Y E) **352,** 352
ATP-binding cassette transporter genes. Restoration of antigen presentation to the mutant cell line RMA-S by an MHC-linked transporter, *Letter to Nature*, (Powis, S J, Townsend, A R M, Deverson, E V, Bastin, J, Butcher, G W and Howard, J C) **354,** 528
ATP-sensitive K^+ channel. ATP-sensitive K^+ channel in the mitochondrial inner membrane, *Letter to Nature*, (Inoue, I, Nagase, H, Kishi, K and Higuti, T) **352,** 244
ATP. Supersalt, *News and views*, **352,** 110
ATPase, actomyosin. Sub-piconewton force fluctuations of actomyosin, *Article*, (Ishijima, A., Doi, T, Sakurada, K and Yanagida, T) **352,** 301
ATPase, Na^+ and K^+. Reverse polarity, *News and views*, **352,** 18
ATPases. Bovine papillomavirus E5 oncoprotein binds to the 16K component of vacuolar H^+-ATPases, *Letter to Nature*, (Goldstein, D J, Finbow, M E, Andresson, T, McLean, P, Smith, K, Bubb, V and Schlegel, R) **352,** 347
Auger emission. Holographic images of iodine atoms on a silver surface from electron emission patterns, *Letter to Nature*, (Hu, P and King, D A) **353,** 831
Aurorae, Jupiter. Images of aurorae on Jupiter from H_3^+ emission at 4 μm, *Letter to Nature*, (Kim, S J, Drossart, P, Caldwell, J, Maillard, J-P, Herbst, T and Shure, M) **353,** 536
Imaging Jupiter's aurorae from H_3^+ emissions in the 3-4 μm band, *Letter to Nature*, (Baron, R, Joseph, R D, Owen, T, Tennyson, J, Miller, S and Ballester, G E) **353,** 539
Australia, Aboriginals. Anthropology: Bones go home, *News*, (Aldhous, P) **351,** 178
Australia, Antarctic research. Research in Antarctica: Australian Antarctic Territories: But when does the real science start?, *News*, (Ewing, T) **350,** 303
Research in Antarctica: Air travel: Long-distance flying, *News*, (Ewing, T) **350,** 305
Research in Antarctica: Finance: Concentrating the effort, *News*, (Ewing, T) **350,** 307
Australia, computer networks. Research in Antarctica: Communications: Penguins keep their distance, *News*, (Ewing, T) **350,** 305
Australia, fire. Burning bush: A fire history of Australia, *book review by* Gowlett, J A J. (Pyne, S J) **350,** 539
Australia, genetically modified organism. First to market, *News*, (Lawson, M) **353,** 687
Australia, HUGO. Grant to HUGO, *Correspondence*, (Bodmer, W) **352,** 274

Australia, immigration. Australian brain drain, *News*, (Anderson, C) **352**, 99
Australia, museums. Anthropology: Bones go home, *News*, (Aldhous, P) **351**, 178
Australia, research commercialization. Australia: Costly commercialization, *News*, (Wright, B) **353**, 490
Australia, research funding. Research in Antarctica: Finance: Concentrating the effort, *News*, (Ewing, T) **350**, 307
Australia, science. International collaboration: India and Australia plan ties, *News*, (Jayaraman, K S) **351**, 431
Australia, universities. Advance from Australia?, *Correspondence*, (Rohozinski, J) **351**, 599
Australia's talisman, *Opinion*, **350**, 447
Australian research: Canberra squeezes ANU, *News*, (Maddox, J) **350**, 452
Australian National University. Australia's talisman, *Opinion*, **350**, 447
Australian research: Canberra squeezes ANU, *News*, (Maddox, J) **350**, 452
Authorship, scientific publications. Trying an authorship index, *Correspondence*, (Hunt, R) **352**, 187
Autocatalysis. Towards synthetic self-replication, *News and views*, (Maddox, J) **354**, 351
Autoimmunity. Identification and mapping to chromosome 1 of a susceptibility locus for periinsulitis in non-obese diabetic mice, *Letter to Nature*, (Garchon, H-J, Bedossa, P, Eloy, L and Bach, J-F) **353**, 260
Immunomodulation of experimental allergic encephalomyelitis by antibodies to the antigen-1a complex, *Letter to Nature*, (Aharoni, R, Teitelbaum, D, Arnon, R and Puri, J) **351**, 147
Peptide binding to empty HLA-B27 molecules of viable human cells, *Letter to Nature*, (Benjamin, R J, Madrigal, J A and Parham, P) **351**, 74
Peripheral deletion of self-reactive B cells, *Letter to Nature*, (Russell, D M, Dembic, Z, Morahan, G, Miller, J F A P, Bürki, K and Nemazee, D) **354**, 308
Type 1 diabetes in mice is linked to the interleukin-1 receptro and *Lsh/Ity/Bcg* genes on chromosome 1, *Letter to Nature*, (Cornall, R J, Prins, J-B, Todd, J A, Pressey, A, DeLarato, N H, Wicker, L S and Peterson, L B) **353**, 262
Autorotation. Autorotation of n- -sided bodies in an airstream, *Letter to Nature*, (Skews, B W) **352**, 512
Fluid mechanics: Aerodynamics in a spin, *News and views*, (Salter, S H) **352**, 470
Auxins. Plant growth hormones control voltage-dependent activity of anion channels in plasma membrane of guard cells, *Letter to Nature*, (Marten, I, Lohse, G and Hedrich, R) **353**, 758
Avalanches. On the slide, *News and views*, **349**, 20
Azidothymidine. AZT before AIDS, *Scientific correspondence*, (Dube, S K and Ostertag, W) **352**, 114
AZT, AIDS drug. AIDS drugs: DDI nears approval, *News*, (Aldhous, P) **352**, 269
AZT, India. AIDS: Challenge to AZT, *News*, (Jayaraman, K S) **353**, 589
AZT, patent. AZT patent: NIH quick off the mark, *News*, (Gershon, D) **352**, 268
Patent confusion, *Correspondence*, (Jackson, M P) **350**, 550
AZT. AIDS drugs: "Too little, too late" for AZT, *News*, (Anderson, C and Gershon, D) **351**, 508
AZT before AIDS, *Scientific correspondence*, (Dube, S K and Ostertag, W) **352**, 114
AZT patents, *Correspondence*, (Cousins, F W) **350**, 184
Clinical trials: Blazing an ethical trail, *News*, (Aldhous, P) **353**, 4
Potential of community-wide chemotherapy or immunotherapy to control the spread of HIV-1, *Letter to Nature*, (Anderson, R M, Gupta, S and May, R M) **350**, 356
B cell-deficient mice. A B cell-deficient mouse by targeted disruption of the membrane exon of the immunoglobulin chain gene, *Letter to Nature*, (Kitamura, D, Roes, J, Kühn, R and Rajewsky, K) **350**, 423
B cells. Activation by adrenaline of a low-conductance G protein-dependent K^+ channel in mouse pancreatic B cells, *Letter to Nature*, (Rorsman, P, Bokvist, K, Ämmälä, C, Arkhammar, P, Berggren, P-O, Larsson, O and Wåhlander, K) **349**, 77
Activation of Epstein-Barr virus latent genes protects human B cells from death by apoptosis, *Letter to Nature*, (Gregory, C D, Dive, C, Henderson, S, Smith, C A, Williams, G T, Gordon, J and Rickinson, A B) **349**, 612
Antigen presentation: Later for the rendezvous, *News and views*, (Hackett, C J) **349**, 655
Bcl-2 maintains B cell memory, *Letter to Nature*, (Nuñez, G, Hockenbery, D, McDonnell, T J, Sorensen, C M and Korsmeyer, S J) **353**, 71
Elimination from peripheral lymphoid tissues of self-reactive B lymphocytes recognizing membrane-bound antigens, *Letter to Nature*, (Hartley, S B, Crosbie, J, Brink, R, Kantor, A B, Basten, A and Goodnow, C C) **353**, 765
Immunology: The centre of hypermutation, *News and views*, (MacLennan, I) **354**, 352
Intracional generation of antibody mutants in germinal centres, *Letter to Nature*, (Jacob, J, Kelsoe, G, Rajewsky, K and Weiss, U) **354**, 389
Molecular characterization of single memory B cells, *Letter to Nature*, (McHeyzer-Williams, M G, Nossal, G J V and Lalor, P A) **350**, 502
Peripheral deletion of self-reactive B cells, *Letter to Nature*, (Russell, D M, Dembic, Z, Morahan, G, Miller, J F A P, Bürki, K and Nemazee, D) **354**, 308
Processing of the precursor of NF-κB by the HIV-1 protease during acute infection, *Letter to Nature*, (Rivière, Y, Blank, V, Kourilsky, P and Israël, A) **350**, 625
B lymphocytes. Growing human B lymphocytes in the CD40 system, *Product Review*, (Banchereau, J and Rousset, F) **353**, 678
B-DNA. Base-pairing shift in the major groove of (CA)S1nT tracts by B-DNA crystal structures, *Letter to Nature*, (Timsit, Y, Vilbois, E and Moras, D) **354**, 167
Sinister change, *Correspondence*, (Tessman, I) **350**, 184
Babbage, computer. Computation research: Cranky computer, *News*, (Anderson, C) **352**, 4
Bacculovirus, toxin expression. Insect paralysis by baculovirus-mediated expression of a mite neurotoxin gene, *Bacillus* mercury detoxification. (Tomalski, M D and Miller, L K) **352**, 82
Bacillus thuringiensis. Biopesticides: Control engineering, *News and views*, (Hochberg, M E and Waage, J K) **352**, 16
Crystal structure of insecticidal δ-endotoxin from *Bacillus thuringiensis* at 2.5 Å resolution, *Article*, (Li, J, Carroll, J and Ellar, D J) **353**, 815
Bacteria, adaptation. Origin of bacterial adaptation, *Correspondence*, (Baumberg, S) **352**, 274
Bacteria, mating. Bacteria mating preferences, *Scientific correspondence*, (Redfield, R J) **352**, 25
Bacteria, sex. Do bacteria have sex?, *Scientific correspondence*, (Martinez, J L) **352**, 288
Localized sex in bacteria, *Review article*, (Maynard Smith, J, Dowson, C G and Spratt, B G) **349**, 29
Bacteria. Microbial degradation of methanesulphonic acid: a missing link in the biogeochemical sulphur cycle, *Letter to Nature*, (Baker, S C, Kelly, D P and Murrell, J C) **350**, 627
Bacterial σ factors. Conserved sequence motifs in the small subunit of human general transcription factor TFIIE, *Letter to Nature*, (Sumimoto, H, Ohkuma, Y, Sinn, E, Kato, H, Shimasaki, S, Horikoshi, M and Roeder, R G) **354**, 401
Structural motifs and potential σ homologies in the large subunit of human general transcription factor TFIIE, *Letter to Nature*, (Ohkuma, Y, Sumimoto, H, Hoffmann, A, Shimasaki, S, Horikoshi, M and Roeder, R G) **354**, 398
Bacterial cell dision. Cell division: Ring of bright metal, *News and views*, (Begg, K) **354**, 109
Bacterial cell division. FtsZ ring structure associated with division in *Escherichia coli* (Bi, E and Lutkenhaus, J) **354**, 161
Bacterial endosymbionts. Identification *in situ* and phylogeny of uncultured bacterial endosymbionts, *Letter to Nature*, (Amann, R, Springer, N, Ludwig, W, Görtz, H-D and Schleifer, K-H) **351**, 161
Bacterial genetics. The emergence of bacterial genetics, *book review by* Stent, G S. (Brock, T D) **349**, 661
Bacterial mats. Hydrothermal vents in Lake Baikal, *Scientific correspondence*, (Crane, K, Hecker, B and Golubev, V) **350**, 281
Bacteriocins. A 'molten-globule' membrane-insertion intermediate of the pore-forming domain of colicin A, *Letter to Nature*, (van der Goot, F G, González-Manas, J M, Lakey, J H and Pattus, F) **354**, 408
Bacteriology. Chitin and nodulation, *Scientific correspondence*, (Bulawa, C E and Wasco, W) **353**, 710
Precise prediction of a dominant class I MHC-restricted epitope of *Listeria monocytogenes*, *Letter to Nature*, (Pamer, E G, Harty, J T and Bevan, M J) **353**, 852
Bacteriophages. Obituary: Salvador E. Luria (1912-1991), *News and views*, (Watson, J D) **350**, 113
Baculovirus, toxin expression. Construction of an improved baculovirus insecticide containing an insect-specific toxin gene, *Letter to Nature*, (Stewart, L M D, Hirst, M, Ferber, M L, Merryweather, A T, Cayley, P J and Possee, R D) **352**, 85
Badger sets. Country life, *News and views*, **353**, 700
Balkan states. A plea from Croatia, *Correspondence*, (Vucak, I and Juretic, A) **353**, 597
Ball lightning. Ball lightning, *Scientific correspondence*, (Witalis, E A) **352**, 290
Ball lightning: Great balls of fire, *News and views*, (Singer, S) **350**, 108
Orange sky . . ., *Correspondence*, (McNaught, R H) **352**, 368
Plasma fireballs formed by microwave interference in air, *Letter to Nature*, (Ohtsuki, Y H and Ofuruton, H) **350**, 139
Watching the ball, *Correspondence*, (Mayor, H D) **353**, 496
Baltic states. Europe's future, *Correspondence*, (Altosaar, I) **349**, 13
Open letter: A message from Vilnius, *News*, **349**, 186
What now for the Soviet Union?, *Opinion*, **349**, 181
Baltimore affair. Baltimore declares O'Toole mistaken, *News and views*, (Baltimore, D) **351**, 341
Dr Baltimore says sorry, *News and views*, (Baltimore, D) **351**, 94
Margot O'Toole's record of events, *News and views*, (O'Toole, M) **351**, 180
More views on Imanishi-Kari, *Commentary*, (Ptashne, M) **352**, 100
More views on Imanishi-Kari, *Commentary*, (Cairns, J) **352**, 101
More views on Imanishi-Kari, *Commentary*, (Eisen, H N) **352**, 101
More views on Imanishi-Kari, *Commentary*, (Yannoutsos, N) **352**, 102
Origins of MIT inquiry, *News and views*, (Eisen, H N) **351**, 343
OSI's conclusions wrong, *News and views*, (Imanishi-Kari, T) **351**, 344
Scientific misconduct: Conflict in NIH panel, *News*, **351**, 598
The end of the Baltimore saga, *Opinion*, **351**, 85
Baltimore, David. Baltimore defeat a defeat for research, *Opinion*, **354**, 419
Imanishi-Kari affair: Baltimore resigns, *News*, (Anderson, C) **354**, 341
Band theory. Solid-state physics: And now quasi-semiconductors?, *News and views*, (Carlsson, A) **353**, 15
Banks, Japan. Disaster response: Worldwide costs of an earthquake, *News*, (Swinbanks, D) **351**, 260
Banks, UK. Bankrupt systems, *Opinion*, **352**, 175
Bardeen, John. Obituary: John Bardeen (1908-1991), *News and views*, (Anderson, P W) **349**, 652
Basaltic magmatism, Iceland. Increased mantle melting beneath Snaefellsjökull volcano during Late Pleistocene deglaciation, *Letter to Nature*, (Hardarson, B S and Fitton, J G) **353**, 62
Basalts, mid-ocean-ridge. Inside out, *News and views*, **349**, 657
Basalts, water diffusion. Water diffusion in a basaltic melt, *Letter to Nature*, (Zhang, Y and Stolper, E M) **351**, 306
Basement membranes. Embryonic lethality caused by mutations in basement membrane collagen of *C. elegans*, *Letter to Nature*, (Guo, X, Johnson, J J and Kramer, J M) **349**, 707
Basophils. Phosphorylation and dephosphorylation of the high-affinity receptor for immunoglobulin E immediately after receptor engagement and disengagement, *Letter to Nature*, (Paolini, R, Jouvin, M-H and Kinet, J-P) **353**, 855
Batesian mimicry. Evolutionary biology: A case of self-deception, *News and views*, (Vane-Wright, R I) **350**, 460
The viceroy butterfly is not a batesian mimic, *Letter to Nature*, (Ritland, D B and Brower, L P) **350**, 497
Bathymetry. Evidence for volcanic eruption on the southern Juan de Fuca ridge between 1981 and 1987, *Letter to Nature*, (Chadwick, W W, Embley, R W and Fox, C G) **350**, 416
Bats. Echolocation: The cost of being a bat, *News and views*, (Rayner, J M V) **350**, 383
No cost of echolocation for bats in flight, *Letter to Nature*, (Speakman, J R and Racey, P A) **350**, 421
Batteries, solid-state. Small wonder, *News and views*, **353**, 796
Bayesian reasoning. Bayesian reasoning in science, *Commentary*, (Howson, C and Urbach, P) **350**, 371
Bayesian reasoning in science, *Scientific correspondence*, (Traut, H) **352**, 386
Bayesian reasoning in science, *Scientific correspondence*, (Edwards, A W F) **352**, 386
Bayesian reasoning, *Scientific correspondence*, (Skilling, J) **353**, 707
Bayesian reasoning, *Scientific correspondence*, (Larham, R) **353**, 708
Source please, *Correspondence*, (Hooper, R J L) **351**, 434
BCG vaccine. BCG: Rebirth of a star performer, *News and views*, (Colston, M J) **351**, 442
Humoral and cell-mediated immune responses to live recombinant BCG-HIV vaccines, *Letter to Nature*, (Aldovini, A and Young, R A) **351**, 479
New use of BCG for recombinant vaccines, *Article*, (Stover, C K, de la Cruz, V F, Fuerst, T R, Burlein, J E, Benson, L A, Bennett, L T, Bansal, G P, Young, J F, Lee, M H, Hatfull, G F, Snapper, S B, Barletta, R G, Jacobs, W R and Bloom, B R) **351**, 456
Bcl-2 protein. Bcl-2 maintains B cell memory, *Letter to Nature*, (Nuñez, G, Hockenbery, D, McDonnell, T J, Sorensen, C M and Korsmeyer, S J) **353**, 71
Beckwith-Wiedemann syndrome. Isodisomy in BWS chromosomes, *Scientific correspondence*, (Wilkie, A O M, Malcolm, S and Pembrey, M E) **353**, 802
Beer glasses. Beer break, *News and views*, **354**, 357
Beetletoxin. Crystal structure of insecticidal δ-endotoxin from *Bacillus thuringiensis* 2.5 Å resolution, *Article*, (Li, J, Carroll, J and Ellar, D J) **353**, 815
Behaviour, birds. Fitness consequences of foraging behaviour in the zebra finch, *Letter to Nature*, (Lemon, W C) **352**, 153
Behaviour. Man and beast revisited, *book review by* Ridley, M. (Robinson, M H and Tiger, L **352**, 296
Signalling of need by offspring to their parents, *Letter to Nature*, (Godfray, H C J) **352**, 328
Behavioural ecology. Behavioral ecology, *journal review by* Gwynne, D T., (Ulfstrand, S and Kramer, D L *editors*) **353**, 479
Man and beast revisited, *book review by* Ridley, M. (Robinson, M H and Tiger, L **352**, 296
Population biology: Flying in the face of reason, *News and views*, (Sutherland, W J) **353**, 211
Sexual selection and the potential reproductive rates of males and females, *Letter to Nature*, (Clutton-Brock, T H and Vincent, A C J) **351**, 58
The biology of the naked mole-rat, (Sherman, P W, Jarvis, J and Alexander, A *editors*) *book review by* Bertram, B. **354**, 29
Behavioural medicine, US. Behavioural medicine: Mental health research will return to NIH, *News*, (Culliton, B J) **351**, 509
Bell's inequality. Bell's inequality, *Scientific correspondence*, (Hannabuss, K C) **353**, 395
Quantum cryptography: Schrödinger's catflap, *News and views*, (Stewart, I) **353**, 384
Belousov-Zhabotinsky reaction. Cross-membrane coupling of

chemical spatiotemporal patterns, *Letter to Nature*, (Winston, D, Arora, M, Maselko, J, Gáspár, V and Showalter, K) **351,** 132
Super-spiral structures in an excitable medium, *Letter to Nature*, (Perez-Muñuzuri, V, Ailev, R, Baslev, B, Perez-Villar, V and Krinsky, V I) **353,** 740
Wave upon chemical wave, *News and views*, **351,** 99
Benthic extinctions. Abrupt deep-sea warming, palaeoceanographic changes and benthic extinctions at the end of the Palaeocene, *Article*, (Kennett, J P and Stott, L D) **353,** 225
Bermuda Rise, volcanism. Hotspots: Bermuda stretches a point, *News and views*, (Richardson, R M) **350,** 655
Berry's phase. Geometric phase shifts in chemical oscillators, *Letter to Nature*, (Kagan, M L, Kepler, T B and Epstein, I R) **349,** 506
Quantum mechanics: Light and the single photon, *News and views*, (Barnett, S M) **350,** 459
Beryllium-7, cosmogenic. Come in LDEF, your time is up, *News and views*, **349,** 656
Observation of ^{7}Be on the surface of the LDEF spacecraft, *Letter to Nature*, (Fishman, G J, Harmon, B A, Gregory, J C, Parnell, T A, Peters, P, Phillips, G W, King, S E, August, R A, Ritter, J C, Cutchin, J H, Haskins, P S, McKisson, J E, Ely, D W, Weisenberger, A G, Piercey, R B and Dybl) **349,** 678
Bestiaries. The naming of the beasts: Natural history in the medieval bestiary, *book review by* Mabey, R. (George, W and Yapp, B) **352,** 766
Beta decay. Environmental fine structure in low-energy β-particle spectra, *Letter to Nature*, (Koonin, S E) **354,** 468
Solid-state physics: Crystal effects in β-decay, *News and views*, (Rehr, J J) **354,** 436
Bhopal disaster, India. India: Bhopal case near end, *News*, (Jayaraman, K S) **353,** 595
Bicycles, mechanics. Uphill struggle, *Correspondence*, (Scott, J) **349,** 362
Big Bang. Another look at the Big Bang, *Scientific correspondence*, (Harrison, E) **352,** 574
Cosmology: Quark soup: do not boil, *News and views*, (Fukugita, M and Hogan, C J) **354,** 17
Nucleosynthesis: Beryllium and the Big Bang, *News and views*, (Pagel, B E J) **354,** 267
Pseudo-dilemma?, *Correspondence*, (Craig, W L) **354,** 347
Split decision, *News and views*, **352,** 380
The case for the relativistic hot Big Bang cosmology, *Review article*, (Peebles, P J E, Schramm, D N, Turner, E L and Kron, R G) **352,** 769
The shadows of creation: Dark matter and the structure of the Universe, *book review by* Rowan-Robinson, M. (Riordan, M and Schramm, D N) **352,** 677
Binary alloys. Making sense of binary metal alloys, *News and views*, (Maddox, J) **349,** 649
Binary pulsars. Eclipses of the ablating binary pulsar PSR1744-24A, *Letter to Nature*, (Thorsett, S E and Nice, D J) **353,** 731
Binary star systems. A nearby 37.9-ms radio pulsar in a relativistic binary system, *Letter to Nature*, (Wolszczan, A) **350,** 688
Creation by stellar ablation of the low-mass companion to pulsar 1829-10, *Letter to Nature*, (Krolik, J H) **353,** 829
Detection of binaries in the core of the globular cluster M15 using calcium emission lines, *Letter to Nature*, (Murphy, B W, Rutten, R G M, Callanan, P J, Seitzer, P, Charles, P A, Cohn, H N and Lugger, P M) **351,** 130
Ejection of pulsars and binaries to the outskirts of globular clusters, *Letter to Nature*, (Phinney, E S and Sigurdsson, S) **349,** 220
Formation of hierarchical multiple protostellar cores, *Letter to Nature*, (Boss, A P) **351,** 298
Orbital evolution of low-mass X-ray binaries due to radiation driven mass transfer, *Letter to Nature*, (Tavani, M) **351,** 39
Star formation: The good companions, *News and views*, (Hernquist, L) **351,** 274
Bioassays, carcinogens. Detection of human carcinogens, *Commentary*, (Ashby, J and Morrod, R S) **352,** 185
Biochemistry textbooks. Biochemistry, *book review by* Lennarz, W J. (Voet, D and Voet, J G) **350,** 389
Biochemistry. Bioconjugate chemistry, *journal review by* Gait, M J., (Mearcs, C F *editor*) **353,** 472
Contrasts in scientific style: Research groups in the chemical and biochemical sciences, *book review by* Gratzer, W. (Fruton, J S) **350,** 540
Portrait of a biochemist, *News and views*, **353,** 606
The biological chemistry of the elements: The inorganic chemistry of life, (da Silva, J J R F and Williams, R J P) *book review by* Martin, R B. **354,** 367
Biocontrol, insects. Construction of an improved baculovirus insecticide containing an insect-specific toxin gene, *Letter to Nature*, (Stewart, L M D, Hirst, M, Ferber, M L, Merryweather, A T, Cayley, P J and Possee, R D) **352,** 85
Insect paralysis by baculovirus-mediated expression of a mite neurotoxin gene, *Letter to Nature*, (Tomalski, M D and Miller, L K) **352,** 82
Biodegradation, cars. Correction: Car-eating bacteria, *News*, **351,** 176
Germany: Car-eating bacteria, *News*, (Dickman, S) **350,** 453
Biodegradation, oil spills. Gulf oil spill, *Correspondence*, (Radwan, S S) **350,** 456
Oil spill clean-up, *Scientific correspondence*, (Claxton, L D, Houk, V S, Williams, R and Krenzer, F) **353,** 24
Research in Antarctica: Oil spillage: Helping the local population, *News*, (Ewing, T) **350,** 304
Biodegradation, petroleum. Biodegradation of refractory hydrocarbon biomarkers from petroleum under laboratory conditions, *Letter to Nature*, (Chosson, P, Lanau, C, Connan, J and Dessort, D) **351,** 640
Biodegradation. Biodegradation, *journal review by* Betts, W B., (Hanson, R S, Leisinger, T, Rittmann, B E, Stouthamer, A H and Verstraete, W *editors*) **353,** 480
US-Japan collaboration [illegible]op oil-eating bacteria, *News*, (Swinbanks, D) **350,**
Biodiversity. Biodiversity: The UK role in conservation, *News*, (Gee, H) **351,** 596
Conservation: 'Hunting licence' for drugs, *News*, (Aldhous, P) **353,** 290
What biodiversity?, *Opinion*, **352,** 2
Bioenergetics. Athletics: It may be better to be a wimp, *News and views*, (Alexander, R McN) **353,** 696
Echolocation: The cost of being a bat, *News and views*, (Rayner, J M V) **350,** 383
No cost of echolocation for bats in flight, *Letter to Nature*, (Speakman, J R and Racey, P A) **350,** 421
Running energetics in the pronghorn antelope, *Letter to Nature*, (Lindstedt, S L, Hokanson, J F, Wells, D J, Swain, S D, Hoppeler, H and Navarro, V) **353,** 748
Bioengineering. Biotechnology: A first step, but still a long way to go, *News*, (Berlfein, J) **352,** 365
Bioethics. Genome ethics, *Correspondence*, (Aschheim, EW) **353,** 598
Strangers at the bedside: A history of how law and bioethics transformed medical decision making, *book review by* Lock, S. (Rothman, D J) **350,** 530
Biogeochemical cycles. Biogeochemical cycles: Ironing out greenhouse effects, *News and views*, (Keir, R S) **349,** 198
Coherence between seasonal cycles of dimethyl sulphide, methanesulphonate and sulphate in marine air, *Letter to Nature*, (Ayers, G P, Ivey, J P and Gillett, R W) **349,** 404
Direct measurement of nitrogen gas fluxes from continental shelf sediments, *Letter to Nature*, (Devol, A H) **349,** 319
Dynamical limitations on the Antarctic iron fertilization strategy, *Letter to Nature*, (Peng, T-H and Broecker, W S) **349,** 227
Ice-core record of oceanic emissions of dimethylsulphide during the last climate cycle, *Letter to Nature*, (Legrand, M, Feniet-Saigne, C, Saltzman, E S, Germain, C, Barkov, N I and Petrov, V N) **350,** 144
Impact of oceanic sources of biogenic sulphur on sulphate aerosol concentions at Mawson, Antarctica, *Letter to Nature*, (Prospero, J M, Savoie, D L, Saltzman, E S and Larsen, R) **350,** 221
Importance of continental margins in the marine biogeochemical cycling of carbon and nitrogen, *Letter to Nature*, (Walsh, J J) **350,** 53
Molecular nitrogen emissions from denitrification during biomass burning, *Letter to Nature*, (Kuhlbusch, T A, Lobert, J M, Crutzen, P J and Warneck, P) **351,** 135
N_2O production in the ocean, *Scientific correspondence*, (Naqvi, S W A) **349,** 373
Seasonal and depth-related changes in the source of sinking particles in the North Atlantic, *Letter to Nature*, (Altabet, M A, Deuser, W G, Honjo, S and Stienen, C) **354,** 136
Spatial variability in the sink for atmospheric carbon dioxide in the North Atlantic, *Letter to Nature*, (Watson, A J, Robinson, C, Robinson, J E and Williams, P J le B, Fasham, M J R) **350,** 50
Biogeography. Oceanic disjunctions, *Scientific correspondence*, (Williamson, M) **351,** 106
Biological control. Biocontrol risks, *Scientific correspondence*, (Williamson, M) **353,** 394
Biological diversity. The expendable future: US politics and the protection of biological diversity, *book review by* Pimm, S L. **350,** 668
Biological membranes. Biological membranes: The semiotics of charge, *News and views*, (Green, N M) **351,** 349
Biological research. Infectious paradigm, *Correspondence*, (Brash, D E) **351,** 9
Biological signals. Signalling of need by offspring to their parents, *Letter to Nature*, (Godfray, H C J) **352,** 328
Biological weapons, Iraq. Gulf war and sanctions, *Correspondence*, (Cobourn, S D) **351,** 9
Biological weapons. Genetic engineering: Rifkin wins suit, *News*, (Anderson, C) **354,** 257
Preventing a biological arms race, *book review by* Hay, A. (Wright, S) **350,** 117
Biology, computational. Missing the point, *Correspondence*, (Lacy, M E) **351,** 434
Biology, Europe. Biological accord, *Correspondence*, (Keir, H M) **353,** 10
European Community actions, *Correspondence*, (Van Hoeck, F) **351,** 599
European Community action, *Correspondence*, (Breimer, L H) **351,** 599
Turmoil in European biology, *Commentary*, (Philipson, L) **351,** 91
Biology, mathematics. Biology's variable logic, *Correspondence*, (Parks, J R) **351,** 434
Biology. Ethical problems to merit the name, *Opinion*, **352,** 359
In-depth probe, *News*, (Anderson, C) **352,** 271
Man and beast revisited, *book review by* Ridley, M. (Robinson, M H and Tiger, L **352,** 296
Biomarkers, petroleum. Biodegradation of refractory hydrocarbon biomarkers from petroleum under laboratory conditions, *Letter to Nature*, (Chosson, P, Lanau, C, Connan, J and Dessort, D) **351,** 640
Biomarkers. Biases from natural sulphurization in palaeoenvironmental reconstruction based on hydrocarbon biomarker distributions, *Letter to Nature*, (Kohnen, M E L, Damsté, J S S and De Leeuw, J W) **349,** 775
Biomass burning. Influence of biomass burning on equatorial African rains, *Letter to Nature*, (Cachier, H and Ducret, J) **352,** 228
Molecular nitrogen emissions from denitrification during biomass burning, *Letter to Nature*, (Kuhlbusch, T A, Lobert, J M, Crutzen, P J and Warneck, P) **351,** 135
New estimates of nitrous oxide emissions from biomass burning, *Letter to Nature*, (Cofer, W R, Levine, J S, Winstead, E L and Stocks, B J) **349,** 689
Biomass, energy technology. Cooling the greenhouse with bioenergy, *Commentary*, (Hall, D O, Mynick, H E and Williams, R H) **353,** 11
Biomathematics. Firefly synchrony, *Scientific correspondence*, (Ermentrout, G B) **353,** 220
Biomechanics. Motor proteins: Biomechanics goes quantum, *News and views*, (Irving, M) **352,** 284
Quantized velocities at low myosin densities in an *in vitro* motility assay, *Article*, (Uyeda, T Q P, Warrick, H M, Kron, S J and Spudich, J A) **352,** 307
Sliding distance between actin and myosin filaments per ATP molecule hydrolysed in skinned muscle fibres, *Letter to Nature*, (Higuchi, H and Goldman, Y E) **352,** 352
Sub-piconewton force fluctuations of actomyosin, *Article*, (Ishijima, A, Doi, T, Sakurada, K and Yanagida, T) **352,** 301
Biomedical journals. Biomedical science, *journal review by* Luzzato, L., (Petrov, R V and Donovan, B T *editors*) **353,** 460
Biomedical research, Sudan. Breach of trust in Sudan, *Correspondence*, (Malik, M O A, Ali, M H, Homeida, M, Ali, H M, Ghalib, H W, Suleiman, S M, El-Sheikh, E-H A, Zayed, O and Mahmoud, B) **354,** 346

Biotechnology therapeutics. *journal review by* Lotze, M T., (Gillis, S and Ammann, A *editors*) **353,** 467
Biotechnology: More problems than products. *News,* **349,** 5
Biotechnology: Cetus and Chiron merge. *News,* (Gershon, D) **352,** 364
Biotechnology: Is Cetus selling the family silver?. *News,* (Gershon, D) **352,** 364
Biotechnology: A first step, but still a long way to go. *News,* (Berlfein, J) **352,** 365
Biotechnology: Yellow light on L-tryptophan. *News,* (Aldhous, P) **353,** 490
Biotechnology: Go-ahead for Centocor. *News,* (Gershon, D) **353,** 101
Biotechnology: Will milk shake up industry?. *News,* (Gershon, D) **353,** 7
Does industry corrupt?. *Opinion,* **351,** 334
Genetic engineering: TNF production licensed. *News,* (Dickman, S) **349,** 271
Genetic information: Evolution of a gadfly. *News,* (Anderson, C) **353,** 686
Genetic information: Global warming meets genetic engineering. *News,* (Anderson, C) **353,** 686
Market heats up for US biotech companies. *News,* (Gershon, D) **351,** 86
Off the shelf. *News and views,* **354,** 437
Penicillin and beyond. *Commentary,* (Chain, B) **353,** 492
Plants, power and profit. *book review by* Krimsky, S. (Busch, L, Lacy, W B, Burkhardt, J and Lacy, L R) **350,** 568
Synthesis from DNA of a molecule with the connectivity of a cube. *Letter to Nature,* (Chen, J and Seeman, N C) **350,** 631

Biotic impoverishment. The Earth in transition: Patterns and processes of biotic impoverishment. *book review by* Myers, N., (Woodwell, G M *editor*) **353,** 614

Bird distribution. Distribution and taxonomy of birds of the world. *book review by* Diamond, J M. (Sibley, C G and Monroe, B L) **350,** 537

Bird migration. Bird migration. *book review by* Greenwood, J J D. (Alerstam, T) **351,** 25
Population biology: Flying in the face of reason. *News and views,* (Sutherland, W J) **353,** 211

Bird navigation. Ornithology: The question of polarization. *News and views,* (Martin, G R) **350,** 194

Bird plumage, coloration. Plumage coloration is a sexually selected indicator of male quality. *Letter to Nature,* (Hill, G E) **350,** 337

Bird plumage. Colour coding. *News and views,* **350,** 21

Bird taxonomy. Distribution and taxonomy of birds of the world. *book review by* Diamond, J M. (Sibley, C G and Monroe, B L) **350,** 537
Phylogeny and classification of birds: A study in molecular evolution. *book review by* Diamond, J M. (Sibley, C G and Ahlquist, J E) **350,** 537

Birds, feeding. Bloom with a view. *News and views,* **352,** 18

Birds, fossils. Palaeontology: The bird in the bush. *News and views,* (Ostrom, J H) **353,** 212

Birds, origins of. Early bird. *News and views,* **353,** 601

Birds. Fitness consequences of foraging behaviour in the zebra finch. *Letter to Nature,* (Lemon, W C) **352,** 153
Lekking in the black grouse - a test of male viability. *Letter to Nature,* (Alatalo, R V, Höglund, J and Lundberg, A) **352,** 155

Birdsong. Long-term memory of individual neighbours in a migratory songbird. *Letter to Nature,* (Godard, R) **350,** 228

Bitumen, nuclear waste disposal. Organic matter and containment of uranium and fissiogenic isotopes at the Oklo natural reactors. *Letter to Nature,* (Nagy, B, Gauthier-Lafaye, F, Holliger, P, Davis, D W, Mossman, D J, Leventhal, J S, Rigali, M J and Parnell, J) **354,** 472

BL Lac objects. Active galactic nuclei: In the eye of the beholder. *News and views,* (Gaskell, C M) **349,** 194
Active galactic nuclei: Light hidden behind a bushel. *News and views,* (Hewett, P) **349,** 651
Are BL Lac objects too large to be gravitationally lensed?. *Letter to Nature,* (Gear, W K) **349,** 676

Black holes, SS433. Evidence that the compact object in SS433 is a neutron star and not a black hole. *Letter to Nature,* (D'Odorico, S, Oosterloo, T, Zwitter, T and Calvani, M) **353,** 329

Black holes. Black holes and structure in an oscillating universe. *Letter to Nature,* (Saslaw, W C) **350,** 43
Black holes and the Universe. *book review by* Friedman, J L. (Novikov, I) **350,** 119
Black holes: Bigger and better. *News and views,* (Binney, J) **351,** 101
Black-hole mergers and mass inflation in a bouncing universe. *Letter to Nature,* (Sikkema, A E and Israel, W) **349,** 45
Evidence for a black hole in the X-ray nova Muscae 1991. *Letter to Nature,* (Della Valle, M, Jarvis, B J and West, R M) **353,** 50
Galaxies: Inner secrets of ellipticals. *News and views,* (Binney, J) **354,** 186
Gamma rays and energetic particles from primordial black holes. *Review article,* (Halzen, F, Zas, E, MacGibbon, J H and Weekes, T C) **353,** 807
General relativity: Evading the cosmic censor. *News and views,* (Friedman, J L) **351,** 269
General relativity: Inside a black hole. *News and views,* (Hiscock, W A) **353,** 702
Hole story. *News and views,* **354,** 266
Merging of two galaxies with central black holes. *Letter to Nature,* (Ebisuzaki, T and Makino, J) **354,** 212

Black Sea, sediments. Enrichment in saturated compounds of Black Sea interfacial sediment. *Letter to Nature,* (Beier, J A, Wakeham, S G, Pilskaln, C H and Honjo, S) **351,** 642

Black Sea, trace elements. Depletion of barium and radium-226 in Black Sea surface waters over the past thirty years. *Letter to Nature,* (Falkner, K K, O'Neill, D J, Todd, J F, Moore, W S and Edmond, J M) **350,** 481

Black Sea. Low organic carbon accumulation rates in Black Sea sediments. *Letter to Nature,* (Calvert, S E, Karlin, R E, Toolin, L J, Donahue, D J, Southon, J R and Vogel, J S) **350,** 692

Black smokers. Hydrothermal activity and metallogenesis in the Lau back-arc basin. *Letter to Nature,* (Fouquet, Y, Von Stackelberg, U, Charlou, J L, Donval, J P, Erzinger, J, Foucher, J P, Herzig, P, Mühe, R, Soakai, S, Wiedicke, M and Whitechurch, H) **349,** 778

Blazars. Gravitational micro-lensing of the relativistic jets of quasars. *Letter to Nature,* (Krishna, G and Subramanian, K) **349,** 766

Blind spot. Images at the blind spot. *Scientific correspondence,* (Andrews, P R and Campbell, F W) **353,** 308

Blind-spots. Perceptual filling in of artificially induced scotomas in human vision. *Letter to Nature,* (Ramachandran, V S and Gregory, R L) **350,** 699

Blood clotting. The working of vitamin K. *News and views,* (Maddox, J) **353,** 695

Blood pressure. Chromosomal mapping of two genetic loci associated with blood-pressure regulation in hereditary hypertensive rats. *Article,* (Hilbert, P, Lindpaintner, K, Beckmann, J, Serikawa, T, Soubrier, F, Dubay, C, Cartwright, P, De Gouyon, B, Julier, C, Takahasi, S, Vincent, M, Ganten, D, Georges, M and Lathrop, M) **353,** 521
Isolation of a cDNA encoding the vascular type-1 angiotensin II receptor. *Letter to Nature,* (Murphy, T J, Alexander, R W, Griendling, K K, Runge, M S and Bernstein, K E) **351,** 233

Blood products, HIV. Not in the blood, *News and views,* **354,** 22

Blood transfusion, France. French blood scandal echoes across Europe. *News,* (Aldhous, P) **353,** 781
French blood scandal: The clot thickens. *News,* (Aldhous, P) **354,** 98
HIV infection: France will compensate. *News,* (Aldhous, P) **354,** 425

Blood, religious relics. Keeping bloody relics liquid. *Scientific correspondence,* (Hendry, G A F and Lyon, A J E) **354,** 114
Keeping bloody relics liquid. *Scientific correspondence,* (Dunlop, J M) **354,** 114

Blue straggler stars. Blue stragglers in the core of the globular cluster 47 Tucanae. *Article,* (Paresce, F, Shara, M, Meylan, G, Baxter, D, Greenfield, P, Jedrzejewski, R, Nota, A, Sparks, W B, Albrecht, R, Barbieri, C, Blades, J C, Boksenberg, A, Crane, P, Deharveng, J M, Disney, M J, Jakobsen, P, Kamperman, T M, **352,** 297
Stellar evolution: Collisions and mergers. *News and views,* (Nemec, J M) **352,** 286

Blumlein, Alan Dower. Help wanted. *Correspondence,* (Thomson, F P) **351,** 264

Body size. Bird community structure. *Scientific correspondence,* (Cotgreave, P and Harvey, P H) **353,** 123
Ecology: Of size and abundance. *News and views,* (Damuth, J) **351,** 268
The relationship between abundance and body size in British birds. *Letter to Nature,* (Nee, S, Read, A F, Greenwood, J J D and Harvey, P H) **351,** 312

Bohr effect. Crystals of haemoglobin with the T quaternary structure bind oxygen noncooperatively with no Bohr effect. *Letter to Nature,* (Mozzarelli, A, Rivetti, C, Rossi, G L, Henry, E R and Eaton, W A) **351,** 416

Bohr, Niels. Niels Bohr's times, in physics, philosophy and polity. *book review by* Ziman, J., (Pais, A) **353,** 511
Redirecting science: Niels Bohr, philanthropy and the rise of nuclear physics. *book review by* Bernstein, J. (Aaserud, F) **349,** 751

Bomb carbon-14. Another recipe for bomb ^{14}C dilution. *Scientific correspondence,* (Rau, G H) **350,** 116

Bone marrow. Peripheral deletion of self-reactive B cells. *Letter to Nature,* (Russell, D M, Dembic, Z, Morahan, G, Miller, J F A P, Bürki, K and Nemazee, D) **354,** 308

Bone marrow transplantation. Bone marrow transplantation: Making just the right match. *News and views,* (Parham, P) **350,** 111

Bone marrow. Stem cells. *Scientific correspondence,* (Weissman, I, Spangrude, G, Heimfeld, S, Smith, L and Uchida, N) **353,** 26
Stem cells: Reply. *Scientific correspondence,* (Iscove, N) **353,** 26

Bone, DNA. Bone hard. *News and views,* **351,** 16

Book preservation. Book preservation: Library to deacidify books. *News,* (Pool, R) **351,** 429

Books, theft. Libraries: Museum still looking for stolen books. *News,* (Bonalume, R) **352,** 6

Borehole studies. Borehole studies: Climate plumbs the depths. *News and views,* (Sass, J) **349,** 458

Boron chemistry. Ring ratings. *News and views,* **351,** 190

Botany. Taxonomy: Naming names in botany. *News and views,* (Stace, C A) **350,** 466

Bovine papillomavirus E5 oncoprotein. Bovine papillomavirus E5 oncoprotein binds to the 16K component of vacuolar H$^+$-ATPases. *Letter to Nature,* (Goldstein, D J, Finbow, M E, Andresson, T, McLean, P, Smith, K, Bubb, V and Schlegel, R) **352,** 347

Bovine spongiform encephalopathies. Spongiform encephalopathies: The prion's progress. *News and views,* (Weissmann, C) **349,** 569

Bovine spongiform encephalopathy. Anti-prions and other agents. *Scientific correspondence,* (Hewinson, R G, Lowings, J P, Dawson, M D and Woodward, M J) **352,** 291
BSE: First maternal transmission?. *News,* (Aldhous, P) **350,** 368
BSE: First. *News,* (Coles, P) **350,** 4
Homozygous prion protein genotype predisposes to sporadic Creutzfeldt-Jakob disease. *Letter to Nature,* (Palmer, M S, Dryden, A J, Hughes, J T and Collinge, J) **352,** 340
Solvent solution. *News and views,* **350,** 112

Brachiopods. Current change. *News and views,* **354,** 191

Brachydanio rerio. Expression pattern of zebrafish *pax* genes suggests a role in early brain regionalization. *Letter to Nature,* (Krauss, S, Johansen, T, Korzh, V and Fjose, A) **353,** 267

Brachyury gene. A cell autonomous function of *Brachyury* in *T/T* embryonic stem cell chimaras. *Letter to Nature,* (Rashbass, P, Cooke, L A, Herrmann, B G and Beddington, R S P) **353,** 348

Bragg, Lawrence. Selections and reflections: The legacy of Sir Lawrence Bragg. *book review by* Mackay, A. (Thomas, J M and Phillips, D) **351,** 279

Brain damage. Object awareness. *Scientific correspondence,* (Goodale, M A, Milner, A D, Jakobson, L S and Carey, D P) **352,** 202

Brain development. Zinc and GABA in developing brain. *Sci-*

entific correspondence, (Ben-Ari, Y and Cherubini, E) **353,** 220

Brain drain, Australia. Australian brain drain, *News,* (Anderson, C) **352,** 99

Brain function. Iso-orientation domains in cat visual cortex are arranged in pinwheel-like patterns, *Letter to Nature,* (Bonhoeffer, T and Grinvald, A) **353,** 429

Left neglect for near but not far space in man, *Letter to Nature,* (Halligan, P W and Marshall, J C) **350,** 498

Neurobiology: Temporal associations, *News and views,* (Stryker, M P) **354,** 108

Brain lesions. Neuropsychology: Only four possible solutions, *News and views,* (Sutherland, S) **353,** 389

Brain regionalization. Expression pattern of zebrafish *pax* genes suggests a role in early brain regionalization, *Letter to Nature,* (Krauss, S, Johansen, T, Korzh, V and Fjose, A) **353,** 267

Brain research, US. Call for brain-maps, *News,* (Aldhous, P) **352,** 8

Brain tissue, medical research. Medical research: Beating the tissue shortage, *News,* (Anderson, C) **351,** 595

Brain, ageing. Gender gap, *News and views,* **350,** 656

Brain, calcium channels. Primary structure and functional expression from complementary DNA of a brain calcium channel, *Article,* (Mori, Y, Friedrich, T, Kim, M-S, Mikami, A, Nakai, J, Ruth, P, Bosse, E, Hofmann, F, Flockerzi, V, Furuichi, T, Mikoshiba, K, Imoto, K, Tanabe, T and Numa, S) **350,** 398

Brain, functioning of. Towards the brain-computer's code?, *News and views,* (Maddox, J) **352,** 469

Brain-derived neurotrophic factor. BDNF is a neurotrophic factor for dopaminergic neurons of the substantia nigra, *Letter to Nature,* (Hyman, C, Hofer, M, Barde, Y-A, Juhasz, M and Yan) **350,** 230

Brazil, AIDS. Brazil: AIDS in Yanomami?, *News,* (Bonalume, R) **352,** 272

Brazil, debt-for nature. Debt swaps: The greening of Collor, *News,* (Bonalume, R) **352,** 6

Brazil, environment. Brazil: War of the greens, *News* (Bonalume, R) **353,** 595

Brazil, physics. Brazil: Physicist jumping ship, *News,* (Bonalume, R) **354,** 100

Brazil, research. Amazonia: From mine camp to laboratory, *News,* (Bonalume, R) **350,** 368

Brazil, science. Brazil: A sad state of affairs, *News,* (Bonalume, R) **354,** 100

Breast feeding, HIV. The transmission of AIDS, *Opinion,* **353,** 2

Breast milk substitutes. Powdered milk, *Correspondence,* (Vickers, J) **353,** 103

Powdered milk, *Correspondence,* (Goldfarb, M F) **353,** 103

Breathing, tetrapods. Fish-like gills and breathing in the earliest known tetrapod, *Letter to Nature,* (Coates, M I and Clack, J A) **352,** 234

Breathing, underwater. Dorsal nostrils and hydrodynamically driven underwater olfaction in plesiosaurs, (Cruickshank, A R I, Small, P G and Taylor, M A) **352,** 62

Bridgman, Percy Williams. Science and cultural crisis: An intellectual biography of Percy Williams Bridgman (1882-1961), *book review by* Emery, G T. (Walter, M L) **351,** 109

Brilliant Pebbles. Underflying Brilliant Pebbles, *Scientific correspondence,* (Wright, D C and Gronlund, L) **350,** 663

Brines, seep sediments. Control of pore-water chemistry at the base of the Florida escarpment by processes within the platform, *Letter to Nature,* (Chanton, J P, Martens, C S and Paull, C K) **349,** 229

British Antarctic Survey, Limits to Endurance, *News,* (Anderson, C) **352,** 271

Brown dwarfs. Twinkle, twinkle, *News and views,* **351,** 16

Young ones, *News and views,* **352,** 110

Brownian motion. Brownian emotion, *Correspondence,* (Cadée, G C) **354,** 180

Bubbles, wave breaking. Air entrainment and dissipation in breaking waves, *Letter to Nature,* (Lamarre, E and Melville, W K) **351,** 469

Bubbles. Toroidal bubbles, *Scientific Correspondence,* (Spisak, W) **349,** 23

Buckminsterfullerene, astrophysics. Diffuse bands in emission, *Scientific correspondence,* (Sarre, P J) **351,** 356

Buckminsterfullerene, high pressure. Effects of pressure and stress on C_{60} fullerite to 20 GPa, *Letter to Nature,* (Duclos, S J, Brister, K, Haddon, R C, Kortan, A R and Thiel, F A) **351,** 380

Buckminsterfullerene, superconductivity. Electronic states and phases of K_3C_{60} from photoemission and X-ray absorption spectroscopy, *Letter to Nature,* (Chen, C T, Tjeng, L H, Rudolf, P, Meigs, G, Rowe, J E, Chen, J, McCauley Jr, J P, Smith III, A B, McGhie, A R, Romanow, W J and Plummer, E W) **352,** 603

Going up, *News and views,* **351,** 353

Magnetic-field penetration depth in K_3C_{60} measured by muon spin relaxation, *Letter to Nature,* (Uemura, Y J, Keren, A, Le, L P, Luke, G M, Sternlieb, B J, Wu, W D, Brewer, J H, Whetten, R L, Huang, S M, Lin, S, Kaner, R B, Diederich, F, Donovan, S, Grüner, G and Holczer, K) **352,** 605

Structure of single-phase superconducting K_3C_{60}, *Letter to Nature,* (Stephens, P W, Mihaly, L, Lee, P L, Whetten, R L, Huang, S-M, Kaner, R, Deiderich, F and Holczer, K) **351,** 632

Superconductivity: Cagey carbon conundrums, (Pickett, W E) **351,** 602

Superconductivity at 33K in $CS_xRb_yC_{60}$, *Letter to Nature,* (Tanigaki, K, Ebbesen, T W, Saito, S, Mizuki, J, Tsai, J S, Kubo, Y and Kuroshima, S) **352,** 222

Superconductivity at 30K in caesium-doped C_{60}, *Letter to Nature,* (Kelty, S P, Chen, C-C and Lieber, C M) **352,** 223

Buckminsterfullerene. Absence of a metallic phase at high pressures in CS160T, *Letter to Nature,* (Regueiro, M N, Monceau, P, Rassat, A, Bernier, P and Zahab, A) **354,** 289

Buckminsterfullerene: Aromaticity revisited, *News and views,* (Fowler, P) **350,** 20

Buckminsterfullerene: Sooty superconductors, *News and views,* (Sleight, A W) **350,** 557

C_{60} zeolites?, *Scientific correspondence,* (O'Keeffe, M) **352,** 674

Comparison of a calculated spectrum of $C_{60}H_{60}$ with the unidentified astronomical infrared emission features, *Letter to Nature,* (Webster, A) **352,** 412

Conducting films of C_{60} and C_{70} by alkali-metal doping, *Letter to Nature,* (Haddon, R C, Hebard, A F, Rosseinsky, M J, Murphy, D W, Duclos, S J, Lyons, K B, Miller, B, Rosomilia, J M, Fleming, R M, Kortan, A R, Glarum, S H, Makhija, A V, Muller, A J, Eick, R H, Zahurak, S M, Tycko, R, D) **350,** 320

Crystal structure and bonding of ordered C_{60}, *Letter to Nature,* (David, W I F, Ibberson, R M, Matthewman, J C, Prassides, K, Dennis, T J S, Hare, J P, Kroto, H W, Taylor, R and Walton, D R M) **353,** 147

Degradation of C_{60} by light, *Scientific correspondence,* (Taylor, R, Parsons, J P, Avent, A G, Rannard, S P, Dennis, T J, Hare, J P, Kroto, H W and Walton, D R M) **351,** 277

Experimental and theoretical determination of the magnetic susceptibility of C_{60} and C_{70}, *Letter to Nature,* (Haddon, R C, Schneemeyer, L F, Waszczak, J V, Glarum, S H, Tycko, R, Dabbagh, G, Kortan, A R, Muller, A J, Mujsce, A M, Rosseinsky, M J, Zahurak, S M, Makhija, A V, Thiel, F A, Raghavachari, K, Cockayne, E and E) **350,** 46

Fullerenes C_{60} and C_{70} in flames, *Letter to Nature,* (Howard, J B, McKinnon, J T, Makarovsky, Y, Lafleur, A L and Johnson, M E) **352,** 139

Fullerenes from coal, *Scientific correspondence,* (Pang, L S K, Vassallo, A M and Wilson, M A) **352,** 480

Insider dealing, *News and views,* **352,** 380

Is C_{60} stiffer than diamond?, *Scientific correspondence,* (Ruoff, R S and Ruoff, A L) **350,** 663

Muonium in fullerite, *Scientific correspondence,* (Ansaldo, E J, Niedermayer, C and Stronach, C E) **353,** 121

Prediction of fullerene packing in C_{60} and C_{70} crystals, *Letter to Nature,* (Guo, Y, Karasawa, N and Goddard, W A) **351,** 464

Preparation and structure of the alkali-metal fulleride A_4C_{60}, *Letter to Nature,* (Fleming, R M, Rosseinsky, M J, Ramirez, A P, Murphy, D W, Tully, J C, Haddon, R C, Siegrist, T, Tycko, R, Glarum, S H, Marsh, P, Dabbagh, G, Zahurak, S M, Makhija, A V and Hampton, C) **352,** 701

Relation of structure and superconducting transition temperatures in A_4C_{60}, *Letter to Nature,* (Fleming, R M, Ramirez, A P, Rosseinsky, M J, Murphy, D W, Haddon, R C, Zahurak, S M and Makhija, A V) **352,** 787

Structure and bonding in alkali-metal-doped C_{60}, *Letter to Nature,* (Zhou, O, Fischer, J E, Coustel, N, Kycia, S, Zhu, Q, McGhie, A R, Romanow, W J, McCauley, J P, Smith, A B and Cox, D E) **351,** 462

Superconductivity at 18 K in potassium-doped fullerene (K_xC_{60}), *Letter to Nature,* (Hebard, A F, Rosseinsky, M J, Haddon, R C, Murphy, D W, Glarum, S H, Palstra, T T M, Ramirez, A P and Kortan, A R) **350,** 600

Vibrational spectroscopy of superconducting KS13TCS160T by inelastic neutron scattering, *Letter to Nature,* (Prassides, K, Tomkinson, J, Christides, C, Rosseinsky, M J, Murphy, D W and Haddon, R C) **354,** 462

Buffers. Homeostatic muffling, *Scientific correspondence,* (Thomas, R C, Coles, J A and Deitmer, J W) **350,** 564

Bulbar muscular atrophy. Androgen receptor gene mutations in X-linked spinal and bulbar muscular atrophy, *Letter to Nature,* (La Spada, A R, Wilson, E M, Lubahn, D B, Harding, A E and Fischbeck, K H) **352,** 77

Bulgaria, nuclear power. Nuclear power: Bulgaria's dilemma, *News,* (Dickman, S) **352,** 7

Bullard fracture zone. Unusual sea-floor fabric near the Bullard fracture zone imaged by GLORIA sidescan sonar, *Letter to Nature,* (Livermore, R A, Tomlinson, J S and Woollett, R W) **353,** 158

Burt, Cyril. Scientific misconduct: Burt files reopened, *News,* (Aldhous, P) **354,** 97

Business, UK. Who will fashion the distant future?, *Opinion,* **352,** 93

Business, US. Who will fashion the distant future?, *Opinion,* **352,** 93

Butterflies. Evolutionary biology: A case of self-deception, (Vane-Wright, R I) **350,** 460

The viceroy butterfly is not a batesian mimic, *Letter to Nature,* (Ritland, D B and Brower, L P) **350,** 497

Butterfly wing patterns. The development and evolution of butterfly wing patterns, (Nijhout, H F) *book review by* Mallet, J. **354,** 368

c-fos proto-oncogene. Ets-related protein Elk-1 is homologous to the *c-fos* regulatory factor p62S0TCFT, *Letter to Nature,* (Hipskind, R A, Rao, V N, Mueller, C G F, Reddy, E S P and Nordheim, A) **354,** 531

c-Jun. v-Src and EJ Ras alleviate repression of c-Jun by a cell-specific inhibitor, *Letter to Nature,* (Baichwal, V R, Park, A and Tjian, R) **352,** 165

Caenorhabditis elegans. Early aspects of *Caenorhabditis elegans* sex determination and dosage compensation are regulated by a zinc-finger protein, *Letter to Nature,* (Nonet, M L and Meyer, B J) **351,** 65

Evolutionary and developmental biology: More fecund but not so fit, *News and views,* (Godfray, H C J and Harvey, P H) **354,** 190

Calcium channel. Acceleration of activation and inactivation by the β subunit of the skeletal muscle calcium channel, *Letter to Nature,* (Varadi, G, Lory, P, Schultz, D, Varadi, M and Schwartz, A) **352,** 159

Activation of Ca^{2+} entry into acinar cells by a non-phosphorylatable inositol trisphosphate, *Letter to Nature,* (Bird, G St J, Rossier, M F, Hughes, A R, Shears, S B, Armstrong, D L and Putney, J W) **352,** 162

Calcium channels, Brain. Primary structure and functional expression from complementary DNA of a brain calcium channel, *Article,* (Mori, Y, Friedrich, T, Kim, M-S, Mikami, A, Nakai, J, Ruth, P, Bosse, E, Hofmann, F, Flockerzi, V, Furuichi, T, Mikoshiba, K, Imoto, K, Tanabe, T and Numa, S) **350,** 398

Calcium channels. Action potentials must admit calcium to evoke transmitter release, *Letter to Nature,* (Mulkey, R M and Zucker, R S) **350,** 153

Assignment of G-protein subtypes to specific receptors inducing inhibition of calcium currents, *Article,* (Kleuss, C, Hescheler, J, Ewel, C, Rosenthal, W, Schultz, G and Wittig, B) **353,** 43

Ca^{2+} channels or voltage sensors?, *Scientific correspondence,* (Lamb, G D) **352,** 113

Calcium control and $InsP_3$, *Scientific correspondence,* (Irvine, R F) **352,** 115

Channel control, *Scientific correspondence,* (Pelzer, S, McDonald, T F and Pelzer, D J) **354,** 363

Channel control, *Scientific correspondence,* (Yatani, A and Brown, A M) **354,** 363

Channel control: Reply, *Scientific correspondence,* (Hartzell, H C, Méry, P F, Fischmeister, R and Szabo, G) **354,** 364

Correction: Action potentials must admit calcium to evoke transmitter release, *Letter to Nature,* (Mulkey, R M and Zucker, R S) **351,** 419

Rhodopsin-regulated calcium currents in *Chlamydomonas, Letter to Nature,* (Harz, H and Hegemann, P) **351,** 489

Calcium regulation. Dendritic spines as individual neuronal compartments for synaptic CaS02+T responses, *Letter to Nature,* (Müller, W and Connor, J A) **354,** 73

Independent regulation of calcium revealed by imaging dendritic spines, *Letter to Nature,* (Guthrie, P B, Segal, M and Kater, S B) **354,** 76

Calcium store. Spontaneous calcium release from inositol trisphosphate-sensitive calcium stores, *Letter to Nature,* (Missiaen, L, Taylor, C W and Berridge, M J) **352,** 241

Calcium transport. Spontaneous calcium release from inositol trisphosphate-sensitive calcium stores, *Letter to Nature,* (Missiaen, L, Taylor, C W and Berridge, M J) **352,** 241

Calcium, cytosolic. Molecular operations of the sodium-calcium exchanger revealed by conformation currents, *Letter to Nature,* (Niggli, E and Lederer, W J) **349,** 621

Sodium-calcium exchange: Ins and outs of CA^{2+} transport, *News and views,* (Reuter, H) **349,** 567

Calcium, intracellular. Activation of Ca^{2+} entry into acinar cells by a non-phosphorylatable inositol trisphosphate, *Letter to Nature,* (Bird, G St J, Rossier, M F, Hughes, A R, Shears, S B, Armstrong, D L and Putney, J W) **352,** 162

Inositol trisphosphate-dependent periodic activation of a Ca^{2+}-activated K^+ conductance in glucose-stikmulated pancreatic β-cells, *Letter to Nature,* (Ämmälä, C, Larsson, O, Berggren, P-O, Bokvist, K, Juntti-Berggren, L, Kindmark, H and Rorsman, P) **353,** 849

Subcellular patterns of calcium release determined by G protein-specific residues of muscarinic receptors, *Letter to Nature,* (Lechleiter, J, Girard, S, Clapham, D and Peralta, E) **350,** 505

Calcium, role in phototransduction. A *Drosophila* mutant defective in extracellular calcium-dependent photoreceptor deactivation and rapid desensitization, *Letter to Nature,* (Ranganathan, R, Harris, G L, Stevens, C F and Zuker, C S) **354,** 230

Calcium-binding proteins. Fit connection, *News and views,* **351,** 99

Key residues involved in calcium-binding motifs in EGF-like domains, *Letter to Nature,* (Handford, P A, Mayhew, M, Baron, M, Winship, P R, Campbell, I D and Brownlee, G G) **351,** 164

Caldesmon. Acting on actin, *News and views,* **354,** 357

California, earthquakes. Kerb crawling, *News and views,* **353,** 796

California, research funding. Science lobbying: California takes the gloves off, *News,* (Schaefer, E) **349,** 557

Calixarenes. X-ray diffraction evidence for aromatic π hydrogen bonding to water, *Letter to Nature,* (Atwood, J L, Hamada, F, Robinson, K D, Orr, G W and Vincent, R L) **349,** 683

Cambrian fossils. New early Cambrian animal and onychophoran affinities of enigmatic metazoans, *Letter to Nature,* (Ramsköld, L and Xianguang, H) **351,** 225

Camouflaged DNA. Camouflaged DNA, *Scientific correspondence,* (Griffin, B E) **354,** 25
Canada, biotechnology. Biotechnology: Synergie in Quebec, *News,* (Spurgeon, D) **354,** 422
Canada, earthquakes. Earthquakes in aseismic zones, *News and views,* (Crone, A J) **352,** 570
Canada, optical astronomy. Optical astronomy: Canada back in the fold?, *News,* (Aldhous, P) **353,** 688
Canada, research commercialization. Research commercialization: Canada targets biotech, *News,* (Spurgeon, D) **354,** 423
Canada, science. Physics and the rise of scientific research in Canada, *book review by* de la Mothe, J. (Gingras, Y) **352,** 488
Canada, universities. Academic freedom: Back to flesh, *News,* (Anderson, C) **349,** 94
Canary Islands, lizards. Parallel within-island microevolution of lizards on neighbouring islands, *Letter to Nature,* (Brown, R P, Thorpe, R S and Báez, M) **352,** 60
Cancer biology. Seminars in cancer biology, *journal review by* Lane, D P., **353,** 467
Cancer genetics. *WT1* mutations contribute to abnormal genital system development and hereditary Wilms' tumour, *Letter to Nature,* (Pelletier, J, Bruening, W, Li, F P, Haber, D A, Glaser, T and Housman, D E) **353,** 431
Adenovirus E1a prevents the retinoblastoma gene product from complexing with a cellular transcription factor, *Letter to Nature,* (Bandara, L R and La Thangue, N B) **351,** 494
Cancer genes: Telling changes of base, *News and views,* (Harris, A L) **350,** 377
Colon cancer: Suppression with a difference, *News and views,* (Bourne, H R) **353,** 696
DNA repair: Seven genes for three diseases, *News and views,* (Wood, R D) **350,** 190
Failure of wild-type or a mutant form of protein kinase C-α to transform fibroblasts, *Letter to Nature,* (Borner, C, Filipuzzi, I, Weinstein, I B and Imber, R) **353,** 78
Genes and cancer, *book review by* Michalski, A J. (Carney, D and Sikora, K) **350,** 666
Mutational hotspot in the p53 gene in human hepatocellular carcinomas, *Letter to Nature,* (Hsu, I C, Metcalf, R A, Sun, T, Welsh, J A, Wang, N J and Harris, C C) **350,** 427
Oncogenic germ-line mutations in Sp1 and ATF sites in the human retinoblastoma gene, *Letter to Nature,* (Sakai, T, Ohtani, N, McGee, T L, Robbins, P D and Dryja, T P) **353,** 83
Selective G to T mutations of p53 gene in hepatocellular carcinoma from southern Africa, *Letter to Nature,* (Bressac, B, Kew, M, Wands, J and Ozturk, M) **350,** 429
The p53 tumour suppressor gene, *Review article,* (Levine, A J, Momand, J and Finlay, C A) **351,** 453
Cancer research, Germany. Clinical cancer research: An 'alternative' in Germany, *News,* (Dickman, S) **352,** 95
Cancer research. Clinical trials: Evaluating cancer therapies, *News,* (Anderson, C) **351,** 598
Detection of human carcinogens, *Commentary,* (Ashby, J and Morrod, R S) **352,** 185
Gene therapy: Cancer trial starts, *News,* (Gershon, D) **349,** 445
Retinoblastoma: A transcriptional tryst, *News and views,* (Wagner, S and Green, M R) **352,** 189
Cancer risk, nuclear accidents. Three Mile Island: A stress-cancer link following accident?, *News,* (Pool, R) **351,** 429
Cancer risks, Chernobyl. Chernobyl effects not as bad as feared, *News,* (Dickman, S) **351,** 335
Cancer risks, electrical appliances. Electromagnetic fields: Danger from electrical appliances?, *News,* (Pool, R) **349,** 554
Cancer risks, electromagnetic fields. Electromagnetic fields: EMF - cancer link still murky, *News,* (Pool, R) **349,** 554
Cancer risks, radon. Leukaemia risks and radon, *Scienufic correspondence,* (Wolff, S P) **352,** 288
Cancer therapies. Cancer therapy: Neutron-treatment fund axed, *News,* (Gee, H) **349,** 552
Clinical trials: Evaluating cancer therapies, *News,* (Anderson, C) **351,** 598
Cancer treatments. Cancer treatments, *Correspondence,* (Groner, B and Nagel, G A) **354,** 346
Cancer, breast. Cancer confirmation, *News and views,* **352,** 285

Cancer, drugs. Barking up the right tree, *News,* (Aldhous, P) **352,** 95
Synthetic chemistry: A radical approach to cancer, *News and views,* (Jarman, M) **349,** 566
Cancer, electromagnetic fields. Cancer-EMF connection, *Correspondence,* (Woolf, N J) **351,** 10
Direct action?, *Correspondence,* (Kon, S H) **353,** 787
Cancer, epidemiology. Cancer epidemiology: Gold mine in East Germany?, *News,* (Dickman, S) **349,** 728
Cancer, fluoride. Epidemiology: Fluoride given the all clear, *News,* (Anderson, C) **349,** 732
Cancer, gastric. Cancer connection, *News and views,* **351,** 353
Cancer, Peru. Cholera epidemic traced to risk miscalculation, *News,* (Anderson, C) **354,** 255
Cancer, telomere loss. Telomere loss and cancer, *Scientific correspondence,* (Jankovic, G M J, Colovic, M D and Petrovic, M D) **350,** 197
Telomere loss and cancer: Reply, *Scientific correspondence,* (Hastie, N D, Dempster, M, Dunlop, M G, Thompson, A M, Green, D K and Allshire, R C) **350,** 197
Cancer, vitamin C. Vitamin C and cancer: Medicine or politics, *book review by* Galloway, J., (Richards, E) **353,** 125
Cancer-causing agents. Carcinogenesis: Testing times for the tests, *News and views,* (Hay, A) **350,** 555
Cancer. Association of $p60^{c\text{-}src}$ with polyoma virus middle-T antigen abrogating mitosis-specific activation, *Letter to Nature,* (Kaech, S, Covic, L, Wyss, A and Ballmer-Hofer, K) **350,** 431
Cancer causes and control: An international journal of studies of cancer in human populations, *journal review by* Kinlen, L J., (MacMahon, B *editor*) **353,** 467
Colon cancer: Consider the coiled coil . . ., *News and views,* (Bourne, H R) **351,** 188
Genetic engineers: Cracks in the RAC, *News,* (Gershon, D) **353,** 591
Ha-Ras augments c-Jun activity and stimulates phosphorylation of its activation domain, *Article,* (Binétruy, B, Smeal, T and Karin, M) **351,** 122
Mutant α subunits of G_α inhibit cyclic AMP accumulation, *Letter to Nature,* (Wong, Y H, Federman, A, Pace, A M, Zachary, I, Evans, T, Pouysségur, J and Bourne, H R) **351,** 63
Canine distemper virus. Where next for canine virus?, *Scientific correspondence,* (Appel, M J G) **353,** 508
Canine parvovirus, structure. Virology: Architecture with a difference, *News and views,* (Filman, D J and Hogle, J M) **351,** 100
Capillarity. Classical liquid in a box, *News and views,* (Maddox, J) **350,** 105
No capillary rise, *Scientific correspondence,* (Graham, G M) **350,** 198
Capillary gel electrophoresis. High-speed DNA sequencing by capillary gel electrophoresis, *Product Review,* (Smith, L M) **349,** 812
Carbon chemistry. Buckminsterfullerene: Aromaticity revisited, *News and views,* (Fowler, P) **350,** 20
Buckminsterfullerene Sooty superconductors, *News and views,* (Sleight, A **350,** 557
Conducting films of C_{60} and C_{70} by alkali-metal doping, *Letter to Nature,* (Haddon, R C, Hebard, A F, Rosseinsky, M J, Murphy, D W, Duclos, S J, Lyons, K B, Miller, B, Rosomilia, J M, Fleming, R M, Kortan, A R, Glarum, S H, Makhija, A V, Muller, A J, Eick, R H, Zahurak, S M, Tycko, R, D) **350,** 320
Degradation of C_{60} by light, *Scientific correspondence,* (Taylor, R, Parsons, J P, Avent, A G, Rannard, S P, Dennis, T J, Hare, J P, Kroto, H W and Walton, D R M) **351,** 277
Experimental and theoretical determination of the magnetic susceptibility of C_{60} and C_{70}, *Letter to Nature,* (Haddon, R C, Schneemeyer, L F, Waszczak, J V, Glarum, S H, Tycko, R, Dabbagh, G, Kortan, A R, Muller, A J, Mujsce, A M, Rosseinsky, M J, Zahurak, S M, Makhija, A V, Thiel, F A, Raghavachari, K, Cockayne, E and E) **350,** 46
Fullerenes C_{60} and C_{70} in flames, *Letter to Nature,* (Howard, J B, McKinnon, J T, Makarovsky, Y, Lafleur, A L and Johnson, M E) **352,** 139
Helical microtubules of graphitic carbon, *Letter to Nature,* (Iijama, S) **354,** 56
Isolation of C_{36}, a chiral D_2 allotrope of carbon, *Letter to Nature,* (Ettl, R, Chao, I, Diederich, F and Whetten, R L) **353,** 149
Needles in a carbon haystack, *News and views,* (Ball, P) **354,** 18
Superconductivity at 18 K in potassium-doped fullerene (K_3C_{60}), *Letter to Nature,* (Hebard, A F, Rosseinsky, M J, Haddon, R C, Murphy, D W, Glarum, S H, Paistra, T T M, Ramirez, A P and Kortan, A R) **350,** 600
Carbon clusters. Insider dealing, *News and views,* **352,** 380
Carbon cycle, Antarctica. Research in Antarctica: Undersea research: When things go wrong, *News,* (Anderson, C) **350,** 292
Carbon cycle, Black Sea. Low organic carbon accumulation rates in Black Sea sediments, *Letter to Nature,* (Calvert, S E, Karlin, R E, Toolin, L J, Donahue, D J, Southon, J R and Vogel, J S) **350,** 692
Carbon cycle. A record of the atmospheric methane sink from formaldehyde in polar ice cores, *Letter to Nature,* (Staffelbach, T, Neftel, A, Stauffer, B and Jacob, D) **349,** 603
Air-sea gas exchange in rough and stormy seas measured by a dual-tracer technique, *Letter to Nature,* (Watson, A J, Upstill-Goddard, R C and Liss, P S) **349,** 145
Another recipe for bomb ^{14}C dilution, *Scientific correspondence,* (Rau, G H) **350,** 116
Biogeochemical cycles: Ironing out greenhouse effects, *News and views,* (Keir, R S) **349,** 198
Carbon dioxide and temperature, *Scientific correspondence,* (Marston, J B, Oppenheimer, M, Fujita, R M and Gaffin, S R) **349,** 573
Carbon ratios in the Amazon, *Scientific correspondence,* (Bird, M I, Chivas, A R and Fyfe, W S) **354,** 271
Chronology from plant matter, *Scientific correspondence,* (Leavitt, S W and Danzer, S R) **352,** 671
Do upper-ocean sediment traps provide an accurate record of particle flux?, *Letter to Nature,* (Buesseler, K O) **353,** 420
Dynamical limitations on the Antarctic iron fertilization strategy, *Letter to Nature,* (Peng, T-H and Broeker, W S) **349,** 227
Enhanced particle fluxes in Bay of Bengal induced by injection of fresh water, *Letter to Nature,* (Ittekkot, V, Nair, R R, Honko, S, Ramaswamy, V, Bartsch, M, Manganini, S and Desai, B N) **351,** 385
Estimates of the effect of Southern Ocean iron fertilization on atmospheric CO_2 concentrations, *Letter to Nature,* (Joos, F, Sarmiento, J L and Siegenthaler, U) **349,** 772
High turnover rates of dissolved organic carbon during a spring phytoplankton bloom, *Letter to Nature,* (Kirchman, D L, Suzuki, Y, Garside, C and Ducklow, H W) **352,** 612
Ice age carbon, *Scientific correspondence,* (Crowley, T J) **352,** 575
Importance of *Phaeocystis* blooms in the high-latitude ocean carbon cycle, *Letter to Nature,* (Smith Jr, W O, Codispoti, L A, Nelson, D M, Manley, T, Buskey, E J, Niebauer, J and Cota, G F) **352,** 514
Importance of continental margins in the marine biogeochemical cycling of carbon and nitrogen, *Letter to Nature,* (Walsh, J J) **350,** 53
Isotopic composition of atmospheric CO_2 inferred from carbon in C4 plant cellulose, *Article,* (Marino, B D and McElroy, M B) **349,** 127
Model estimates of CO_2 emissions from soil in response to global warming, *Letter to Nature,* (Jenkinson, D S, Adams, D E and Wild, A) **351,** 304
Occurrence of small colloids in sea water, *Letter to Nature,* (Wells, M L and Goldberg, E D) **353,** 342
Photochemical degradation of dissolved organic carbon and its impact on the oceanic carbon cycle, *Letter to Nature,* (Mopper, K, Zhou, X, Kieber, R J, Kieber, D J, Sikorski, R J and Jones, R D) **353,** 60
Role of eddy pumping in enhancing primary production in the ocean, *Letter to Nature,* (Falkowski, P G, Ziemann, D, Kolber, Z and Bienfang, P K) **352,** 55
Seasonal and depth-related changes in the source of sinking particles in the North Atlantic, *Letter to Nature,* (Altabet, M A, Deuser, W G, Honjo, S and Stienen, C) **354,** 136
Sources of sedimentary lipids deduced from stable carbon-isotope analyses of individual compounds, *Letter to Nature,* (Rieley, G, Collier, R J, Jones, D M, Eglinton, G, Eakin, P A and Fallick, A E) **352,** 425
Spatial variability in the sink for atmospheric carbon dioxide in the North Atlantic, *Letter to Nature,* (Watson, A J, Robinson, C, Robinson, J E and Williams, P J le B and Fasham, M J R) **350,** 50
Spatial variability in the sink for atmospheric carbon dioxide in the North Atlantic, *Correction,* (Watson, A J, Robinson, C, Robertson, J E, Williams, P J le B and Fasham, M J R) **350,** 254
Stable carbon isotope variation in C_3 and C_4 plants along the Amazon River, *Letter to Nature,* (Martinelli, L A, Devol, A H, Victoria, R L and Richey, J E) **353,** 57
Carbon dioxide emissions, Japan. Japan: Pollution on the upswing, *News,* (Swinbanks, D) **351,** 5
Carbon dioxide, atmospheric. Air-sea gas exchange in rough and stormy seas measured by a dual-tracer technique, *Letter to Nature,* (Watson, A J, Upstill-Goddard, R C and Liss, P S) **349,** 145
Algae to the rescue, *News,* (Swinbanks, D) **350,** 267
Biogeochemical cycles: Ironing out greenhouse effects, *News and views,* (Keir, R S) **349,** 198
Carbon dioxide and temperature, *Scientific correspondence,* (Marston, J B, Oppenheimer, M, Fujita, R M and Gaffin, S R) **349,** 573
Chronology from plant matter, *Scientific correspondence,* (Leavitt, S W and Danzer, S R) **352,** 671
Could reducing fossil-fuel emissions cause global warming?, *Letter to Nature,* (Wigley, T M L) **349,** 503
Dynamical limitations on the Antarctic iron fertilization strategy, *Letter to Nature,* (Peng, T-H and Broeker, W S) **349,** 227
Efficiency of climate policy, *Scientific correspondence,* (Scheraga, J D and Leary, N A) **354,** 193
Eruptive and diffuse emissions of CO_2 from Mount Etna, *Letter to Nature,* (Allard, P, Carbonnelle, J, Dajlevic, D, Le Bronec, J, Morel, P, Robe, M C, Maurenas, J M, Faivre-Pierret, R, Martin, D, Sabrioux, J C and Zettwoog, P) **351,** 387
Estimates of the effect of Southern Ocean iron fertilization on atmospheric CO_2 concentrations, *Letter to Nature,* (Joos, F, Sarmiento, J L and Siegenthaler, U) **349,** 772
Evidence for lower productivity in the Antarctic Ocean during the last glaciation, *Letter to Nature,* (Mortlock, R A, Charles, C D, Froelich, P N, Zibello, M A, Saltzman, J, Hays, J D and Burckle, L H) **351,** 220
Glacial climate: No change down under, *News and views,* (Berger, W H) **351,** 186
Ice age carbon, *Scientific correspondence,* (Crowley, T J) **352,** 575
Inadequacy of effective CO_2 as a proxy in simulating the greenhouse effect of other radiatively active gases, *Article,* (Wang, W-C, Dudek, M P, Liang, X-Z and Kiehl, J T) **350,** 573
Isotopic composition of atmospheric CO_2 inferred from carbon in C4 plant cellulose, *Article,* (Marino, B D and McElroy, M B) **349,** 127
Model estimates of CO_2 emissions from soil in response to global warming, *Letter to Nature,* (Jenkinson, D S, Adams, D E and Wild, A) **351,** 304
Ocean uncertainty, *Scientific correspondence,* (Covey, C) **353,** 309
Spatial variability in the sink for atmospheric carbon dioxide in the North Atlantic, *Letter to Nature,* (Watson, A J, Robinson, C, Robinson, J E and Williams, P J le B and

Fasham, M J R) **350,** 50
Spatial variability in the sink for atmospheric carbon dioxide in the North Atlantic, *Correction,* (Watson, A J, Robinson, C, Robertson, J E, Williams, P J le B and Fasham, M J R) **350,** 254
Stable carbon isotope variation in C_3 and C_4 plants along the Amazon River, *Letter to Nature,* (Martinelli, L A, Devol, A H, Victoria, R L and Richey, J E) **353,** 57
Volcanology: Etna's greenhouse pump, *News and views,* (Gerlach, T) **351,** 352
Will we reach the greenhouse?, *Scientific correspondence,* (Hatfield, C B) **351,** 355
Carbon dioxide, volcanic. Eruptive and diffuse emissions of CO_2 from Mount Etna, *Letter to Nature,* (Allard, P, Carbonnelle, J, Dajlevic, D, Le Bronec, J, Morel, P, Robe, M C, Maurenas, J M, Faivre-Pierret, R, Martin, D, Sabroux, J C and Zettwoog, P) **351,** 387
Gas hazard on Vulcano Island, *Scientific correspondence,* (Badalamenti, B, Gurrieri, S, Nuccio, P M and Velenza, M) **350,** 26
Gas hazard on Vulcano Island: Reply, *Scientific correspondence,* (Baubron, J C, Allard, P and Toutain, J-P) **350,** 27
Volcanology: Etna's greenhouse pump, *News and views,* (Gerlach, T) **351,** 352
Carbon fibres. Graphitic carbon copies, *Correspondence,* (Cahn, R W) **349,** 97
Graphitic carbon copies: Reply, *Correspondence,* (Swinbanks, D) **349,** 97
Carbon isotope analysis. Isotopic composition of atmospheric CO_2 inferred from carbon in C4 plant cellulose, *Article,* (Marino, B D and McElroy, M B) **349,** 127
Sources of sedimentary lipids deduced from stable carbon-isotope analyses of individual compounds, *Letter to Nature,* (Rieley, G, Collier, R J, Jones, D M, Eglinton, G, Eakin, P A and Fallick, A E) **352,** 425
Carbon isotope chronologies. A stable-isotope tree-ring timescale of the Late Glacial/Holocene boundary, *Letter to Nature,* (Becker, B, Kromer, B and Trimborn, P) **353,** 647
Carbon isotope records. Carbon ratios in the Amazon, *Scientific correspondence,* (Bird, M I, Chivas, A R and Fyfe, W S) **354,** 271
Carbon isotopes, plants. Stable carbon isotope variation in C_3 and C_4 plants along the Amazon River, *Letter to Nature,* (Martinelli, L A, Devol, A H, Victoria, R L and Richey, J E) **353,** 57
Carbon isotopes, wood. Chronology from plant matter, *Scientific correspondence,* (Leavitt, S W and Danzer, S R) **352,** 671
Carbon molecules, astrophysics. Red Rectangle emission, *Scientific correspondence,* (Fossey, S J) **353,** 393
Carbon stars. Meteoritic silicon carbide: pristine material from carbon stars (Erratum), *Letter to Nature,* (Lewis, R S, Amari, S and Anders, E) **350,** 174
Carbon storage, terrestrial. Model estimates of CO_2 emissions from soil in response to global warming, *Letter to Nature,* (Jenkinson, D S, Adams, D E and Wild, A) **351,** 304
Carbon storage. Ice age carbon, *Scientific correspondence,* (Crowley, T J) **352,** 575
Carbon suboxide, comet Halley. Carbon suboxide in comet Halley?, *Letter to Nature,* (Huntress, W T, Allen, M and Delitsky, M) **352,** 316
Carbon suboxide in comet Halley, *Scientific correspondence,* (Crovisier, J, Encrenaz, T and Combes, M) **353,** 610
Carbon suboxides, comets. Carbon suboxide in Halley, *Scientific correspondence,* (Allen, M) **354,** 272
Carbon tax, Europe. Global warming: Europe weighs a carbon tax, *News,* (Aldhous, P) **353,** 375
Carbon tax. Efficiency of climate policy, *Scientific correspondence,* (Scheraga, J D and Leary, N A) **354,** 193
Carbon, interstellar medium. Images of atomic carbon in the interstellar medium, *Letter to Nature,* (White, G J and Padman, R) **354,** 511
Carbon, interstellar. Going to great wavelengths in the Milky Way, *News and views,* (Pease, R) **354,** 110
Carbonado diamonds. Constraints from noble-gas contents on the origin of carbonado diamonds, *Letter to Nature,* (Ozima, M, Zashu, S, Tomura, K and Matsuhisa, Y) **351,** 472
Carbonate sediments. Extraction of high-resolution carbonate data for palaeoclimate reconstruction, *Letter to Nature,* (Mayer, L A) **352,** 148
Carbonatites. The role of fluorine in carbonatite magma evolution, *Letter to Nature,* (Jago, B C and Gittins, J) **349,** 56
Carcinogen detection. Detection of human carcinogens, *Commentary,* (Ashby, J and Morrod, R S) **352,** 185
Carcinogenesis. Carcinogenesis: Testing times for the tests, *News and views,* (Hay, A) **350,** 555
Wild-type p53 induces apoptosis of myeloid leukaemic cells that is inhibited by interleukin-6, *Letter to Nature,* (Yonish-Rouach, E, Resnitzky, D, Lotem, J, Sachs, L, Kimchi, A and Oren, M) **352,** 345
Cardiac pacemaker cells. Direct activation of cardiac pacemaker channels by intracellular cyclic AMP, *Letter to Nature,* (DiFrancesco, D and Tortora, P) **351,** 145
Cardiomyocytes. Channel control, *Scientific correspondence,* (Pelzer, S, McDonald, T F and Pelzer, D J) **354,** 363
Channel control, *Scientific correspondence,* (Yatani, A and Brown, A M) **354,** 363
Channel control: Reply, *Scientific correspondence,* (Hartzell, H C, Méry, P F, Fischmeister, R and Szabo, G) **354,** 364
Care, parental. The Evolution of Parental Care, *book review by* Gwynne, D T. (Clutton-Brock, T H) **352,** 118
Caribbean, palaeoclimatology. Reconstruction of Caribbean climate change over the past 10,500 years, *Letter to Nature,* (Hodell, D A, Curtis, J H, Jones, G A, Higuera-Gundy, A, Brenner, M, Binford, M W and Dorsey, K T) **352,** 790
Cars, biodegradation. Germany: Car-eating bacteria, *News,* (Dickman, S) **350,** 453
Cartilage development. Homeobox gene expression correlated with the bifurcation process of limb cartilage development, *Letter to Nature,* (Yokouchi, Y, Sasaki, H and Kuroiwa, A) **353,** 443
Cartography. How to lie with maps, *book review by* Smith, C D., (Monmonier, M) **353,** 512
Cascadian subduction zone. Only one earthquake, *News and views,* (Pease, R) **353,** 116
Radiocarbon test of earthquake magnitude at the Cascadia subduction zone, *Letter to Nature,* (Atwater, B F, Stuiver, M and Yamaguchi, D K) **353,** 156
Catalysis, metallic glasses. Sonochemical synthesis of amorphous iron, *Letter to Nature,* (Suslick, K S, Choe, S-B, Cichowlas, A A and Grinstaff, M W) **353,** 414
Catalysis, zeolites. Structure of the two-dimensional medium-pore high-silica zeolite NU-87, *Letter to Nature,* (Shannon, M D, Casci, J L, Cox, P A and Andrews, S J) **353,** 417
Catalysis. A non-porous supported-platinum catalyst for aromatization of *n*-hexane, *Letter to Nature,* (Davis, R J and Derouane, E G) **349,** 313
Conversion of methane into higher hydrocarbons on platinum, *Letter to Nature,* (Belgued, M, Pareja, P, Amariglio, A and Amariglio, H) **352,** 789
Materials science: When size does matter, *News and views,* (Ball, P) **349,** 101
Partial oxidation of methane to synthesis gas using carbon dioxide, *Letter to Nature,* (Ashcroft, A T, Cheetham, A K, Green, M L H and Vernon, P D F) **352,** 225
Tracing the conversion of aurichalcite to a copper catalyst by combined X-ray absorption and diffraction, *Letter to Nature,* (Couves, J W, Thomas, J M, Waller, D, Jones, R H, Dent, A J, Derbeyshire, G E and Greaves, G N) **354,** 465
Catalytic RNA. Antibiotic inhibition of group I ribozyme function, *Letter to Nature,* (von Ahsen, U, Davies, J and Schroeder, R) **353,** 368
Ribosomes: Drugs and the RNA world, *News and views,* (Noller, H F) **353,** 302
Catastrophes. Many catastrophes too many, *Opinion,* **351,** 171
CD2 antigen. Structure of domain 1 of rat T lymphocyte CD2 antigen, *Letter to Nature,* (Driscoll, P C, Cyster, J G, Campbell, I D and Williams, A F) **353,** 762
CD2 molecule. Cell adhesion: A birth certificate for CD2, *News and views,* (Springer, T A) **353,** 704
CD4 molecule. CD4 expressed on earliest T-lineage precursor cells in the adult murine thymus, *Letter to Nature,* (Wu, L, Scollay, R, Egerton, M, Pearse, M, Spangrude, G J and Shortman, K) **349,** 71
Serine phosphorylation-independent downregulation of cell-surface CD4, *Letter to Nature,* (Garcia, J V and Miller, A D) **350,** 508
CD43 protein. CD43, a molecule defective in Wiskott-Aldrich syndrome, binds ICAM-1, *Letter to Nature,* (Rosenstein, Y, Park, J K, Hahn, W C, Rosen, F S, Bierer, B E and Burakoff, S J) **354,** 233
CD45 isoform. Confusion over CD45 isoform, *Scientific correspondence,* (Merkenschlager, M) **352,** 28
cdc25 protein. Clues to action of cdc25 protein, *Scientific correspondence,* (Moreno, S and Nurse, P) **351,** 194
Dephosphorylation and activation of a $p34^{cdc2}$/cyclin B complex *in vitro* by human CDC25 protein, *Letter to Nature,* (Strausfeld, U, Labbé, J C, Fesquet, D, Cavadore, J C, Picard, A, Sadhu, K, Russell, P and Dorée, M) **351,** 242
Cell adhesion. Cell adhesion: A birth certificate for CD2, *News and views,* (Springer, T A) **353,** 704
Cell-surface regulation of β_1-integrin activity on developing retinal neurons, *Letter to Nature,* (Neugebauer, K M and Reichardt, L F) **350,** 68
Structure of domain 1 of rat T lymphocyte CD2 antigen, *Letter to Nature,* (Driscoll, P C, Cyster, J G, Campbell, I D and Williams, A F) **353,** 762
Cell biology. *Bcr* encodes a GTPase-activating protein for $p21^{rac}$, *Letter to Nature,* (Diekmann, D, Brill, S, Garrett, M D, Totty, N, Hsuan, J, Monfries, C, Hall, C, Lim, L and Hall, A) **351,** 400
Myc rescue of a mutant CSF-1 receptor impaired in mitogenic signalling, *Letter to Nature,* (Roussel, M F, Cleveland, J L, Shurtleff, S A and Sherr, C J) **353,** 361
A 'molten-globule' membrane-insertion intermediate of the pore-forming domain of colicin A, *Letter to Nature,* (van der Goot, F G, González-Manas, J M, Lakey, J H and Pattus, F) **354,** 408
A cellular protein that competes with SV40 T antigen for binding to the retinoblastoma gene product, *Letter to Nature,* (Huang, S, Lee, W-H and Lee, E Y-H P) **350,** 160
A cyclic GMP-activated channel in dissociated cells of the chick pineal gland, *Letter to Nature,* (Dryer, S E and Henderson, D) **353,** 756
A haemoprotein with kinase activity encoded by the oxygen sensor, *Letter to Nature,* (Gilles-Gonzalez, M A, Ditta, G S and Helinski, D R) **350,** 170
A product of the *prune* locus of *Drosophila* is similar to mammalian GTPase-activating protein, *Letter to Nature,* (Teng, D H F, Engele, C M and Venkatesh, T R) **353,** 437
A protein-tyrosine phosphatase with sequence similarity to the SH2 domain of the protein-tyrosine kinases, *Letter to Nature,* (Shen S-H, Bastien, L, Posner, B I and Chrétien, P) **353,** 868
A small GTP-binding protein dissociates from synaptic vesicles during exocytosis, *Letter to Nature,* (Fischer von Mollard, G, Südhof, T C and Jahn, R) **349,** 79
Actin microfilament dynamics in locomoting cells, *Article,* (Theriot, J A and Mitchison, T J) **352,** 126
Actin tracks, *Scientific correspondence,* (Kucik, D F and Elson, E L) **354,** 362
Actin tracks: Reply, *Scientific correspondence,* (Theriot, J and Mitchison, T) **354,** 363
Activation of chloride channels in normal and cystic fibrosis airway epithelial cells by multifunctional calcium/calmodulin-dependent protein kinase, *Letter to Nature,* (Wagner, J A, Cozens, A L, Schulman, H, Gruenert, D C, Stryer, L and Gardner, P) **349,** 793
Activation of the β1 isozyme of phospholipase C by α subunits of the G_q class of G proteins, *Letter to Nature,* (Taylor, S J, Chae, H Z, Rhee, S G and Exton, J H) **350,** 516
Alteration of ionic selectivity of a K^+ channel by mutation of the H5 region, *Letter to Nature,* (Yool, A J and Schwarz, T L) **349,** 700
Assembly of yeast Sec proteins involved in translocation into the endoplasmic reticulum into a membrane-bound multisubunit complex, *Letter to Nature,* (Deshaies, R J, Sanders, S L, Feldheim, D A and Schekman, R) **349,** 806
Assignment of G-protein subtypes to specific receptors inducing inhibition of calcium currents, *Article,* (Kleuss, C, Hescheler, J, Ewel, C, Rosenthal, W, Schultz, G and Wittig, B) **353,** 43
Binding of chaperonins, *Scientific correspondence,* (Saibil, H, Dong, Z, Wood, S and auf der Mauer, A) **353,** 25
Biological membranes: The semiotics of charge, *News and views,* (Green, N M) **351,** 349
Blueprint for a cell: The nature and origin of life, *book review by* Cavalier-Smith, T. (de Duve, C) **351,** 110
Catalysis of guanine nucleotide exchange on the CDC42Hs protein by the *dbl* oncogene product, *Letter to Nature,* (Hart, M J, Eva, A, Evans, T, Aaronson, S A and Cerione, R A) **354,** 311
Cell biology: A cytoplasmic chaperonin?, *News and views,* (North, G) **354,** 434
Cell biology: Membrane traffic COPs, *News and views,* (Robinson, M S) **349,** 743
Cell biology: Microtubules get the chop, *News and views,* (Hollenbeck, P J and Dentler, W L) **350,** 578
Cell biology: Probing the plant cytoskeleton, *News and views,* (Lloyd, C) **350,** 189
Cell biology: The Janus factor, *News and views,* (Warn, R M) **353,** 20
Cell regulation, *journal review by* Shelterline, P., (Ruoslahti, E *editor*) **353,** 464
Channels, carriers and pumps: An introduction to membrane transport, *book review by* Green, N M. (Stein, W D) **351,** 450
Chromosome kinetics: Movement on two fronts, *News and views,* (Vallee, R) **351,** 187
Cloned neuronal I_A(A) channels reopen during recovery from inactivation, *Letter to Nature,* (Ruppersberg, J P, Frank, R, Pongs, O and Stocker, M) **353,** 657
Coalignment of vimentin intermediate filaments with microtubules depends on kinesin, *Letter to Nature,* (Gyoeva, F K and Gelfand, V I) **353,** 445
Cotranslocational insertion of apolipoprotein B into the inner leaflet of the endoplasmic reticulum, *Letter to Nature,* (Pease, R J, Harrison, G B and Scott, J) **353,** 448
Dependence of Ypt1 and Sec4 membrane attachment on Bet2, *Letter to Nature,* (Rossi, G, Jiang, Y, Newman, A P and Ferro-Novick, S) **351,** 158
Dissection of the protein kinase cascade by which nerve growth factor activates MAP kinases, *Letter to Nature,* (Gómez, N and Cohen, P) **353,** 170
Dynamin-like protein encoded by the *Drosophila shibire* gene associated with vesicular traffic, *Letter to Nature,* (van der Bliek, A M and Meyerowitz, E M) **351,** 411
Embryonic lethality caused by mutations in basement membrane collagen *Letter to Nature,* (Guo, X, Johnson, J J and Kramer, J M) **349,** 707
Ends and means, *News and views,* **350,** 383
Fluorescence ratio imaging of cyclic AMP in single cells, *Letter to Nature,* (Adams, S R, Harootunian, A T, Buechler, Y J, Taylor, S S and Tsien, T Y) **349,** 694
Formation of a nine-subunit complex by HLA class II glycoproteins and the invariant chain, *Letter to Nature,* (Roche, P A, Marks, M S and Cresswell, P) **354,** 392
Function of DnaJ and DnaK as chaperones in origin-specific DNA binding by RepA, *Letter to Nature,* (Wickner, S, Hoskins, J and McKenney, K) **350,** 165
Hsp104 is a highly conserved protein with two essential nucleotide-binding sites, *Letter to Nature,* (Parsell, D A, Sanchez, Y, Stitzel, J D and Lindquist, S) **353,** 270
Hypervariable C-terminal domain of rab proteins acts as a targeting signal, *Letter to Nature,* (Chavrier, P, Gorvel, J-P, Stelzer, E, Simons, K, Gruenberg, J and Zerial, M) **353,** 769
Intracellular trafficking of proteins, (Steer, C J and Hanover, J A *editors*) *book review by* Armstrong, J. **354,** 29

Ion channels: Making a submicroscopic hole in one, *News and views*, (Stevens, C F) **349,** 657
Ion channels: Not an open-and-shut case, *News and views*, (Jones, S W) **353,** 603
Membrane proteins and minimalism, *News and views*, (Robertson, M) **354,** 183
MHC class II structure, occupancy and surface expression determined by post-endoplasmic reticulum antigen binding, *Article*, (Germain, R N and Hendrix, L R) **353,** 134
Microtubule translocation in the cytokinetic apparatus of cultured tobacco cells, *Letter to Nature*, (Asada, T, Sonobe, S and Shibaoka, H) **350,** 238
Molecular biology: Signal recognition revisited, *News and views*, (Munro, S) **354,** 437
Molecular operations of the sodium-calcium exchanger revealed by conformation currents, *Letter to Nature*, (Niggli, E and Lederer, W J) **349,** 621
Mutant α subunits of G_o inhibit cyclic AMP accumulation, *Letter to Nature*, (Wong, Y H, Federman, A, Pace, A M, Zachary, I, Evans, T, Pouysségur, J and Bourne, H R) **351,** 63
Nature of the motor element in electrokinetic shape changes of cochlear outer hair cells, *Letter to Nature*, (Dallos, P, Evans, B N and Hallworth, R) **350,** 155
Olfaction: The strong scent of success, *News and views*, (Lancet, D) **351,** 275
Pathway of phosphatidylinositol(3,4,5)-trisphosphate synthesis in activated neutrophils, *Article*, (Stephens, L R, Hughes, K T and Irvine, R F) **351,** 33
Peptide-binding specificity of the molecular chaperone BiP, *Article*, (Flynn, G C, Pohl, J, Flocco, M T and Rothman, J E) **353,** 726
Phosphorylation of c-*jun* mediated by MAP kinases, *Letter to Nature*, (Pulverer, B J, Kyriakis, J M, Avruch, J, Nikolakaki, E and Woodgett, J R) **353,** 670
Phosphorylation and dephosphorylation of the high-affinity receptor for immunoglobulin E immediately after receptor engagement and disengagement, *Letter to Nature*, (Paolini, R, Jouvin, M-H and Kinet, J-P) **353,** 855
Protein synthesis required to anchor a mutant p53 protein which is temperature-sensitive for nuclear transport, *Letter to Nature*, (Gannon, J V and Lane, D P) **349,** 802
Putative receptor for the cytoplasmic inactivation gate in the *shaker* K^+ channel, *Letter to Nature*, (Isacoff, E Y, Jan, Y N and Jan, L Y) **353,** 86
Regulated import and degradation of a cytosolic protein in the yeast vacuole, *Article*, (Chiang, H-L and Schekman, R) **350,** 313
Regulation by phosphorylation of reversible association of a myristoylated protein kinase C substrate with the plasma membrane, *Letter to Nature*, (Thelen, M, Rosen, A, Nairn, A C and Aderem, A) **351,** 320
Regulatory proteins: Ras and the *awd* couple, *News and views*, (Ruggieri, R and McCormick, F) **353,** 390
Requirement of yeast fimbrin for actin organization and morphogenesis *in vivo* (Adams, A E M, Botstein, D and Drubin, D G) **354,** 404
Restoration by a 35K membrane protein of peroxisome assembly in a peroxisome-deficient mammalian cell mutant, *Letter to Nature*, (Tsukamoto, T, Miura, S and Fujiki, Y) **350,** 77
Rhodopsin-regulated calcium currents in *chlamydomonas*, *Letter to Nature*, (Harz, H and Hegemann, P) **351,** 489
RNA action, *News and views*, **351,** 99
Segregation of MHC class II molecules from MHC class I molecules in the Golgi complex for transport to lysosomal compartments, *Article*, (Peters, P J, Neefjes, J J, Oorschot, V, Ploegh, H L and Geuze, H J) **349,** 669
Seminars in cell biology, *journal review by* Shelterline, P., **353,** 464
Sequence and expression of a metabotropic glutamate receptor, *Article*, (Masu, M, Tanabe, Y, Tsuchida, K, Shigemoto, R and Nakanishi, S) **349,** 760
Sodium-calcium exchange: Ins and outs of CA^{2+} transport, *News and views*, (Reuter, H) **349,** 567
Spontaneous calcium release from inositol trisphosphate-sensitive calcium stores, *Letter to Nature*, (Missiaen, L, Taylor, C W and Berridge, M J) **352,** 241
Stress-induced oligomerization and chromosomal relocalization of heat-shock factor, *Article*, (Westwood, J T, Clos, J and Wu, C) **353,** 822
Structural architecture of an outer membrane channel as determined by electron crystallography, *Letter to Nature*, (Jap, B K, Walian, P J and Gehring, K) **350,** 167
Targeting of transmembrane and GPI-anchored forms of N-CAM to opposite domains of a polarized epithelial cell, *Letter to Nature*, (Powell, S K, Cunningham, B A, Edelman, G M and Rodriguez-Boulan, E) **353,** 76
The eyes have it, *News and views*, **351,** 442
Thrombin receptor: Variations on a theme, *News and views*, (Lefkowitz, R J) **351,** 353
Toll and IL-1 receptor, *Scientific correspondence*, (Gay, N J and Keith, F J) **351,** 355
Two different microtubule-based motor activities with opposite polarities in kinetochores, *Article*, (Hyman, A A and Mitchison, T J) **351,** 206
Tyrosine phosphorylation and tyrosine kinase activity of the *trk* proto-oncogene product induced by NGF, *Letter to Nature*, (Kaplan, D R, Martin-Zanca, D and Parada, L F) **350,** 158
Voltage-sensing residues in the S4 region of a mammalian K^+ channel, *Letter to Nature*, (Liman, E R, Hess, P, Weaver, F and Koren, G) **353,** 752
Cell cycle. *Wee1*$^+$-like gene in human cells, *Letter to Nature*, (Igarashi, M, Nagata, A, Jinno, S, Suto, K and Okayama, H) **353,** 80
A novel cyclin encoded by a *bcl1*-linked candidate oncogene, *Letter to Nature*, (Motokura, T, Bloom, T, Kim, H G, Jüppner, H, Ruderman, J V, Kronenberg, H M and Arnold, A) **350,** 512
A Tyr/Ser protein phosphatase encoded by vaccinia virus, *Letter to Nature*, (Guan, K, Broyles, S S and Dixon, J E) **350,** 359
Association of $p60^{c\text{-}src}$ with polyoma virus middle-T antigen abrogating mitosis-specific activation, *Letter to Nature*, (Kaech, S, Covic, L, Wyss, A and Ballmer-Hofer, K) **350,** 431
Catalysis of guanine nucleotide exchange on Ran by the mitotic regulator RCC1, *Letter to Nature*, (Bischoff, F R and Ponstingl, H) **354,** 80
Cell biology: Cell cycle gets more cyclins, *News and views*, (Hunt, T) **350,** 462
Cell biology: Never-in-mitosis in mitosis, *News and views*, (Murray, A W) **353,** 701
Cell cycle: Checkpoints and spindles, *News and views*, (Nurse, P) **354,** 356
Clues to action of cdc25 protein, *Scientific correspondence*, (Moreno, S and Nurse, P) **351,** 194
Coordination of expression of DNA synthesis genes in budding yeast by a cell-cycle regulated *trans* factor, *Letter to Nature*, (Lowndes, N F, Johnson, A L and Johnston, L H) **350,** 247
Dephosphorylation and activation of a $p34^{cdc2}$/cyclin B complex *in vitro* by human CDC25 protein, *Letter to Nature*, (Strausfeld, U, Labbé, J C, Fesquet, D, Cavadore, J C, Picard, A, Sadhu, K, Russell, P and Dorée, M) **351,** 242
Fission yeast $p107^{mcs1}$ mitotic inhibitor is a tyrosine/serine kinase, *Letter to Nature*, (Featherstone, C and Russell, P) **349,** 808
Identification of a G1-type cyclin *puc1*$^+$ in the fission yeast *Schizosaccharomyces pombe*, *Letter to Nature*, (Forsburg, S L and Nurse, P) **351,** 245
Independent inactivation of MFP and cytostatic factor (Mos) upon fertilization of *Xenopus* eggs, *Letter to Nature*, (Watanabe, N, Hunt, T, Ikawa, Y and Sagata, N) **352,** 247
Isolation of the human *cdk2* gene that encodes the cyclin A- and adenovirus E1A-associated p33 kinase, *Letter to Nature*, (Tsai, L-H, Harlow, E and Meyerson, M) **353,** 174
Molecular Sisyphus, *News and views*, **354,** 108
Phosphorylation of two small GTP-binding proteins of the Rab family by $p34^{cdc2}$, *Letter to Nature*, (Bailly, E, McCaffrey, M, Touchot, N, Zahraoui, A, Goud, B and Bornens, M) **350,** 715
Retinoblastoma: A transcriptional tryst, *News and views*, (Wagner, S and Green, M R) **352,** 189
Role for cyclin A in the dependence of mitosis on completion of DNA replication, *Letter to Nature*, (Walker, D H and Maller, J L) **354,** 314
The p53 tumour suppressor gene, *Review article*, (Levine, A J, Momand, J and Finlay, C A) **351,** 453
Cell death, programmed. Interleukin-2 programs mouse αβ T lymphocytes for apoptosis, *Letter to Nature*, (Lenardo, M J) **353,** 858
Cell differentiation. Alternative temporal control systems for hypodermal cell differentiation in *src*, *Letter to Nature*, (Liu, Z and Ambros, V) **350,** 162
Cell division. A dynamin-like protein encoded by the yeast sporulation gene, *Letter to Nature*, (Yeh, E, Driscoll, R, Coltrera, M, Olins, A and Bloom, K) **349,** 713
Cell division: Rang of bright metal, *News and views*, (Begg, K) **354,** 109
FtsZ ring structure associated with division in *Escherichia coli* (Bi, E and Lutkenhaus, J) **354,** 161
Cell locomotion. Cell locomotion: Actin alone in lamellipodia, *News and views*, (Heath, J and Holifield, B) **352,** 107
Cell lysis. Peptide binding to class I MHC on living cells and quantitation of complexes required for CTL lysis, *Letter to Nature*, (Christinck, E R, Luscher, M A, Barber, B H and Williams, D B) **352,** 67
Cell membrane, labelling. Radioactive cell membrane labelling, *Product Review*, (Sieczak, S E and Muirhead, K A) **352,** 261
Cell motility. Actin microfilament dynamics in locomoting cells, *Article*, (Theriot, J A and Mitchison, T J) **352,** 126
Cell physiology. Nobel Prize: Patch clamp brings honour, *News*, (Aldhous, P) **353,** 487
Cell proliferation. Ets-related protein Elk-1 is homologous to the *c-fos* regulatory factor p62S0TCFT, *Letter to Nature*, (Hipskind, R A, Rao, V N, Mueller, C G F, Reddy, E S P and Nordheim, A) **354,** 531
Cell signalling. Subcellular patterns of calcium release determined by G protein-specific residues of muscarinic receptors, *Letter to Nature*, (Lechleiter, J, Girard, S, Clapham, D and Peralta, E) **350,** 505
Cell transformation. Association of $p60^{c\text{-}src}$ with polyoma virus middle-T antigen abrogating mitosis-specific activation, *Letter to Nature*, (Kaech, S, Covic, L, Wyss, A and Ballmer-Hofer, K) **350,** 431
Ha-Ras augments c-Jun activity and stimulates phosphorylation of its activation domain, *Article*, (Binétruy, B, Smeal, T and Karin, M) **351,** 122
Cell-cell interactions. Regulation of cellular responsiveness to inductive signals in the developing *C. elegans* nervous system, *Letter to Nature*, (Waring, D A and Kenyon, C) **350,** 712
Cell-surface proteins. Extracellular domains mediating ε subunit interactions of muscle acetylcholine receptor, *Letter to Nature*, (Yu, X-M and Hall, Z W) **352,** 64
Cellular automata. 'Life' not critical?, *Scientific correspondence*, (Bennett, C and Bourzutschky, M S) **350,** 468
An automaton for fractal patterns of fragmentation, *Letter to Nature*, (Stenzy, S J and Sammis, C G) **353,** 250
Cellular messages. Spontaneous calcium release from inositol trisphosphate-sensitive calcium stores, *Letter to Nature*, (Missiaen, L, Taylor, C W and Berridge, M J) **352,** 241
Censuses, India. Demography: Census sex puzzle, *News*, (Jayaraman, K S) **350,** 645
Centenaries. Eighteen ninety one and all that, *Commentary*, (Heilbron, J L and Bynum, W F) **349,** 9
Central Europe, politics. Balkanization again?, *Opinion*, **350,** 176
Central nervous system, zebrafish. The cyclops mutation blocks specification of the floor plate of the zebrafish central nervous system, *Letter to Nature*, (Hatta, K, Kimmel, C B, Ho, R K and Walker, C) **350,** 339
Central nervous system. Dysmyelination in transgenic mice resulting from expression of class I histocompatibility molecules in oligodendrocytes, *Letter to Nature*, (Turnley, A M, Morahan, G, Okano, H, Bernard, O, Mikoshiba, K, Allison, J, Bartlett, P F and Miller, J F A P) **353,** 566
Towards the brain-computer's code?, *News and views*, (Maddox, J) **352,** 469
Central pattern generators. Construction of a pattern-generating circuit with neurons of different networks, *Letter to Nature*, (Meyrand, P, Simmers, J and Moulins, M) **351,** 60
Centrifugation. Science and secrecy, *Commentary*, (Ormerod, W) **350,** 551
Cephalopods. Zoology: Marine quick-change acts, *News and views*, (Greenwood, J J D) **349,** 741
Ceramics, silicon. Synthesis of pentacoordinate silicon complexes from SiO_2, *Letter to Nature*, (Laine, R M, Blohowiak, K Y, Robinson, T R, Hoppe, M L, Nardi, P, Kampf, J and Uhm, J) **353,** 642
Ceramics. Getting tough, *News and views*, **349,** 460
Cerebellum. Molecular cloning and characterization of the rat NMDA receptor, *Article*, (Moriyoshi, K, Masu, M, Ishii, T, Shigemoto, R, Mizuno, N and Nakanishi, S) **354,** 31
Sequence and expression of a metabotropic glutamate receptor, *Article*, (Masu, M, Tanabe, Y, Tsuchida, K, Shigemoto, R and Nakanishi, S) **349,** 760
Cerebral cortex. Cerebral cortex, *journal review by* Davies, P., (Goldman-Rakic, P S and Rakic, P *editors*) **353,** 462
Lack of regional specificity for connections formed between thalamus and cortex in coculture, *Letter to Nature*, (Molnár, Z and Blakemore, C) **351,** 475
Molecular cloning and characterization of the rat NMDA receptor, *Article*, (Moriyoshi, K, Masu, M, Ishii, T, Shigemoto, R, Mizuno, N and Nakanishi, S) **354,** 31
CERN. No friction, *Correspondence*, (Rubbia, C and Schwitters, R) **352,** 187
Particle physics: Does Europe need the LHC?, *News*, (Aldhous, P) **350,** 98
Particle Physics: Friction continues over costs, *News*, (Aldhous, P) **351,** 594
Cetaceans. Conservation of polymorphic simple sequence loci in cetacean species, *Letter to Nature*, (Schlötterer, C, Amos, B and Tautz, D) **354,** 63
Cetus. Biotechnology: Cetus and Chiron merge, *News*, (Gershon, D) **352,** 364
Biotechnology: Is Cetus selling the family silver?, *News*, (Gershon, D) **352,** 364
CFC replacements. CFC replacements: A global experiment in technology transfer, *News*, (Pool, R) **351,** 6
Environment: Red flag on CFC substitute, *News*, (Pool, R) **352,** 98
CFCs, regulation of. Ozone diplomacy: New directions in safeguarding the planet, *book review by* Greenberg, D S, (Benedick, R E) **351,** 450
Chance. The taming of chance, *book review by* Lindley, D V, (Hacking, I) **349,** 202
Channel tunnel, spiders. Tunnelling in, *News and views*, **352,** 285
Channel Tunnel. Dead end tunnel, *Opinion*, **353,** 684
Chaos, climatology. Dimension of weather and climate attractors, *Letter to Nature*, (Lorenz, E N) **353,** 241
Chaos, time asymmetry. The arrow of time, *Correspondence*, (Coveney, P and Highfield, R) **350,** 456
The arrow of time: Reply, *Correspondence*, (Price, H) **350,** 456
Chaos. Calculating the rate of loss of information from chaotic time series by forecasting, *Letter to Nature*, (Wales, D J) **350,** 485
Fractals, chaos, power laws: Minutes from an infinite paradise, *book review by* May, R M, (Schroeder, M) **350,** 524
Nonlinear waves, solitons and chaos, *book review by* Bohr, T, (Infeld, E and Rowlands, G) **349,** 291
Symmetry and chaotic data, *Scientific correspondence*, (Stewart, I) **354,** 113
Chaotic dynamics, plants. Oscillations and chaos in the dynamics of a perennial grass, *Letter to Nature*, (Tilman, D and

Wedin, D) **353,** 653

Chaotic flow. Fast dynamo action in a steady chaotic flow, *Letter to Nature,* (Gilbert, A D) **350,** 483

Chaotic population dynamics. Population ecology: Chaos in time and space, *News and views,* (Ives, A R) **353,** 214

Spatial structure and chaos in insect population dynamics, *Letter to Nature,* (Hassell, M P, Comins, H N and May, R M) **353,** 255

Chaperones, molecular. Molecular chaperones: Unfolding protein folding, *News and views,* (Creighton, T E) **352,** 17

Chaperonin, protein folding. Chaperonin-mediated protein folding at the surface of groEL through a 'molten globule'-like intermediate, *Article,* (Martin, J, Langer, T, Boteva, R, Schramel, A, Horwich, A L and Hartl, F-U) **352,** 36

Chaperonins. A molecular chaperone from a thermophilic archaebacterium is related to the eukaryotic protein t-complex polypeptide-1, *Letter to Nature,* (Trent, J D, Nimmesgern, E, Wall, J S, Hartl, F-U and Horwich, A L) **354,** 490

Binding of chaperonins, *Scientific correspondence,* (Saibil, H, Dong, Z, Wood, S and auf der Mauer, A) **353,** 25

Cell biology: A cytoplasmic chaperonin?, *News and views,* (North, G) **354,** 434

Function of DnaJ and DnaK as chaperones in origin-specific DNA binding by RepA, *Letter to Nature,* (Wickner, S, Hoskins, J and McKenney, K) **350,** 165

Peptide-binding specificity of the molecular chaperone BiP, *Article,* (Flynn, G C, Pohl, J, Flocco, M T and Rothman, J E) **353,** 726

Prion infection, *Scientific correspondence,* (Hurst, L D and Haig, D) **351,** 21

Charge transfer, porphyrins. Charge migration in supramolecular stacks of peripherally substituted porphryins, *Letter to Nature,* (Schouten, P G, Warman, J M, de Haas, M P, Fox, M A and Pan, H-L) **353,** 736

Charge-transfer salts. Molecular films: Laying down organic metals, *News and views,* (Bryce, M R) **352,** 760

Chemical analysis. Digital display, *Correspondence,* (Thomas, A F) **352,** 9

Chemical evolution. Chemical evolution: Origin of the elements, molecules and living systems, *book review by* Walker, J C G, (Mason, S F) **351,** 199

Chemical kinetics. New measurement of the rate coefficient for the reaction of OH with methane, *Letter to Nature,* (Vaghjiani, G R and Ravishankara, A R) **350,** 406

Chemical oscillators. Geometric phase shifts in chemical oscillators, *Letter to Nature,* (Kagan, M L, Kepler, T B and Epstein, I R) **349,** 506

Chemical physics. Chemical physics: Gas-phase liquids, *News and views,* (Stace, T) **353,** 21

Chemical physics: Aiming the molecular arrow, *News and views,* (Stolte, S) **353,** 391

Spatial orientation of molecules in strong electric fields and evidence for pendular states, *Letter to Nature,* (Friedrich, B and Herschbach, D R) **353,** 412

Chemical sensors. A fibre-optic chemical sensor with discrete sensing sites, *Letter to Nature,* (Barnard, S M and Walt, D R) **353,** 338

Artificial 'olfactory' images from a chemical sensor using a light-pulse technique, *Letter to Nature,* (Lundström, I, Erlandsson, R, Frykman, U, Hedborg, E, Spetz, A, Sundgren, H, Welin, S and Winquist, F) **352,** 47

Chemical testing. Environment: Red flag on CFC substitute, *News,* (Pool, R) **352,** 98

Chemical waves. Chemical waves: Crystals from dreams, *News and views,* (Winfree, A T) **352,** 568

Cross-membrane coupling of chemical spatiotemporal patterns, *Letter to Nature,* (Winston, D, Arora, M, Maselko, J, Gáspár, V and Showalter, K) **351,** 132

Super-spiral structures in an excitable medium, *Letter to Nature,* (Perez-Muñuzuri, V, Aliev, R, Baslev, B, Perez-Villar, V and Krinsky, V I) **353,** 740

Transition from a uniform state to hexagonal and striped Turing patterns, *Letter to Nature,* (Ouyang, Q and Swinney, H L) **352,** 610

Wave upon chemical wave, *News and views,* **351,** 99

Chemical weapons, Iraq. Gulf war and sanctions, *Correspondence,* (Cobourn, S D) **351,** 9

Is Big Brother really watching us?, *News and views,* (Maddox, J) **352,** 375

Chemical weapons. Lessons of hundred-hour war, *Opinion,* **350,** 1

Verification of the chemical convention, *Commentary,* (Black, S, Morel, B and Zapf, P) **351,** 515

Chemistry, China. The study of change: Chemistry in China 1840-1949, (Reardon-Anderson, J) *book review by* Anderson, R G W. **354,** 441

Chemistry, Germany. The Kaiser's chemists, *book review by* Stern, F, (Johnson, J A) **351,** 107

Chemistry, materials. Journal of materials chemistry, *journal review by* Calvert, P., (West, A R *editor*) **353,** 473

Chemistry, Nobel Prize. Chemistry: Bringing NMR to the masses, *News,* (Aldhous, P) **353,** 689

Chemistry, structural. Structural chemistry, *journal review by* Drew, M G B., (Hargittai, I and Greenberg, SA *editors*) **353,** 472

Chemistry. Atoms, electrons and change, *book review by* Simons, J P., (Atkins, P W) **353,** 805

Character analysis of a science, *Commentary,* (Magnusson, E) **352,** 103

Chemical evolution: Origin of the elements, molecules and living systems, *book review by* Walker, J C G, (Mason, S F) **351,** 199

Contrasts in scientific style: Research groups in the chemical and biochemical sciences, *book review by* Gratzer, W, (Fruton, J S) **350,** 540

Chemoreception. Neurobiology: Most of the senses begin to make some sense, *News and views,* (Lancet, D) **353,** 799

Chemosensory dysfunctions. Let them eat soap, *Scientific correspondence,* (Cowart, B J) **354,** 114

Chemosynthetic communities. Control of pore-water chemistry at the base of the Florida escarpment by processes within the platform, *Letter to Nature,* (Chanton, J P, Martens, C S and Paull, C K) **349,** 229

Chemosynthetic invertebrates. Dispersal via whale bones, *Scientific correspondence,* (Martill, D M, Cruickshank, A R I and Taylor, M A) **351,** 193

Chemotactic bacteria. Complex patterns formed by motile cells of *Escherichia coli, Letter to Nature,* (Budrene, E O and Berg, H C) **349,** 630

Chernobyl accident. Chernobyl effects not as bad as feared, (Dickman, S) **351,** 335

Facing up to the Chernobyl accident, *Opinion,* **351,** 1

Health: Five-year toll: 10,000 dead from Chernobyl?, *News,* (Aldhous, P) **351,** 4

Health: World researchers to take a closer look at Chernobyl, *News,* (Dickman, S) **351,** 4

The Truth about Chernobyl, *book review by* Gittus, J, (Medvedev, G) **352,** 32

Chernobyl disaster. Chernobyl: Ukraine will close reactors, *News,* (Kanin, Y) **354,** 8

Nuclear power: Chernobyl fire chronology, *News,* (Kanin, Y) **353,** 690

Chevrel phases. Superconductivity: An unconventional family tree, *News and views,* (d'Ambrumenil, N) **352,** 472

Chick limb bud. Retinoic acid induces polarizing activity but is unlikely to be a morphogen in the chick limb bud, *Letter to Nature,* (Noji, S, Nohno, T, Koyama, E, Muto, K, Ohyama, K, Aoki, Y, Tamura, K, Ohsugi, K, Ide, H, Taniguchi, S and Saito, T) **350,** 83

Chick wing bud. Conversion by retinoic acid of anterior cells into ZPA cells in the chick wing bud, *Letter to Nature,* (Wanek, N, Gardiner, D M, Muneoka, K and Bryant, S V) **350,** 81

Chick wing development. Expression of the homeobox Hox-4 genes and the specification of position in chick wing development, *Article,* (Izpisúa-Belmonte, J-C, Tickle, C, Dollé, P, Wolpert, L and Duboule, D) **350,** 585

Child nutrition. Help wanted, *Correspondence,* (Clarke, P) **353,** 9

China, chemistry. The study of change: Chemistry in China 1840-1949, (Reardon-Anderson, J) *book review by* Anderson, R G W. **354,** 441

China, fossils. Extreme sexual dimorphism in a Miocene hominoid, *Letter to Nature,* (Kelley, J and Qinghua, X) **352,** 151

In the swim, *News and views,* **350,** 195

Chiral synthesis. Organic chemistry: Synthesis with a strong hand, *News and views,* (Brown, J M) **350,** 191

Chirality, fullerenes. Isolation of C_{76} a chiral (*D Letter to Nature,* (Ettl, R, Chao, I, Diederich, F and Whetten, R L) **353,** 149

Chirality, origin of. Chirality and the cold origin of life, *Scientific correspondence,* (Goldanski, V I and Kuzmin, V V) **352,** 114

Chirality. Optical enrichment of a racemic chiral crystal by X-ray irradiation, *Letter to Nature,* (Osano, Y T, Uchida, A and Ohashi, Y) **352,** 510

Chiron. Biotechnology: Cetus and Chiron merge, *News,* (Gershon, D) **352,** 364

Solar System: Why did Halley hiccup?, *News and views,* (Weissman, P) **353,** 793

Chitin. Chitin and nodulation, *Scientific correspondence,* (Bulawa, C E and Wasco, W) **353,** 710

Chitinase. Yeast released, *News and views,* **354,** 191

Chloride channels. *In vivo* cell-specific expression of the cystic fibrosis transmembrane conductance regulator, *Letter to Nature,* (Trezise, A E O and Buchwald, M) **353,** 434

Activation of chloride channels in normal and cystic fibrosis airway epithelial cells by multifunctional calcium/calmodulin-dependent protein kinase, *Letter to Nature,* (Wagner, J A, Cozens, A L, Schulman, H, Gruenert, D C, Stryer, L and Gardner, P) **349,** 793

Altered chloride ion channel kinetics associated with the °F508 cystic fibrosis mutation, *Letter to Nature,* (Dalemans, W, Barbry, P, Champigny, G, Jallat, S, Dott, K, Dreyer, D, Crystal, R G, Pavirani, A, Lazdunski, M and Lecocq, J-P) **354,** 526

Cystic fibrosis: Back to the chloride channel, *News and views,* (Frizzell, R A and Cliff, W H) **350,** 277

Cystic fibrosis: Channelling our thoughts, *News and views,* (Higgins, C F and Hyde, S C) **352,** 194

Cystic fibrosis: The mutant protein responds, *News and views,* (Wine, J J) **354,** 303

Defective acidification of intracellular organelles in cystic fibrosis, *Letter to Nature,* (Barasch, J, Kiss, B, Prince, A, Saiman, L, Gruenert, D and Al-Awqati, Q) **352,** 70

Inactivation of muscle chloride channel by transposon insertion in myotonic mice, *Letter to Nature,* (Steinmeyer, K, Klocke, R, Ortland, C, Gronemeier, M, Jockusch, H, Gründer, S and Jentsch, T J) **354,** 304

Primary structure and functional expression of a developmentally regulated skeletal muscle chloride channel, *Letter to Nature,* (Steinmeyer, K, Ortland, C and Jentsch, T J) **354,** 301

Chlorine, atmospheric. Chlorine in the stratosphere, *Scientific correspondence,* (Tanaka, N and Rye, D M) **353,** 707

Chlorophyll. Three-dimensional structure of plant light-harvesting complex determined by electron crystallography, *Article,* (Kühlbrandt, W and Wang, D N) **350,** 130

Chloroplast genes. Splice after splice, *News and views,* **349,** 739

Chloroplasts. Editing of a chloroplast mRNA by creation of an initiation codon, *Letter to Nature,* (Hoch, B, Maier, R M, Appel, K, Igloi, G L and Kössel, H) **353,** 178

Eukaryote origins: Seeds of a universal tree, *News and views,* (Penny, D and O'Kelly, C J) **350,** 106

The major chloroplast envelope polypeptide is the phosphate translocator and not the protein import receptor, *Letter to Nature,* (Flügge, U-I, Weber, A, Fischer, K, Lottspeich, F, Eckerskorn, C, Waegemann, K and Soll, J) **353,** 364

Cholera toxin. Crystal structure of a cholera toxin-related heat-labile enterotoxin from *E. Coli, Article,* (Sixma, T K, Pronk, S E, Kalk, K H, Wartna, E S, van Zanten, B A M, Witholt, B and Hol, W G J) **351,** 371

Enterotoxins: The ring on a finger, *News and views,* (van Heyningen, S) **351,** 351

Pituitary hyperplasia and gigantism in mice caused by a cholera toxin transgene, *Letter to Nature,* (Burton, F H, Hasel, K W, Bloom, F E and Sutcliffe, J G) **350,** 74

Cholera, South America. Cholera marches on, *Opinion,* **350,** 640

Cholera, UK. Cholera mystery, *Correspondence,* (Gantt, R C) **351,** 264

Cholera mystery, *Correspondence,* (Yach, D) **351,** 264

Cholera, vaccine. Toxin two, *News and views,* **352,** 110

Cholera. Cholera epidemic traced to risk miscalculation, *News,* (Anderson, C) **354,** 255

Christianity. Is God careless?, *Correspondence,* (Austerberry, C F) **354,** 101

Chromatography. Displacement chromatography, *Product Review,* (Cramer, S M) **351,** 251

Perfusion chromatography, *Product Revie* (Regnier, F E) **350,** 634

Chromites. In step, *News and views,* **350,** 558

Chromosome condensation. Catalysis of guanine nucleotide exchange on Ran by the mitotic regulator RCC1, *Letter to Nature,* (Bischoff, F R and Ponstingl, H) **354,** 80

Chromosome healing. Telomerase primer specificity and chromosome healing, *Letter to Nature,* (Harrington, L A and Greider, C W) **353,** 451

Chromosome kinetics. Chromosome kinetics: Movement on two fronts, *News and views,* (Vallee, R) **351,** 187

Chromosome movement. Two different microtubule-based motor activities with opposite polarities in kinetochores, *Article,* (Hyman, A A and Mitchison, T J) **351,** 206

Chromosome organization. Splice after splice, *News and views,* **349,** 739

Chromosome structure. Inhibition of telomerase by G-quartet DNA structures, *Letter to Nature,* (Zahler, A M, Williamson, J R, Cech, T R and Prescott, D M) **350,** 718

Recognition of a chromosome truncation site associated with α-thalassaemia by human telomerase, *Letter to Nature,* (Morin, G B) **353,** 454

Chromosomes, physical mapping. Single-site enzymatic cleavage of yeast genomic DNA mediated by triple helix formation, *Letter to Nature,* (Strobel, S A and Dervan, P B) **350,** 172

Chromosomes. Structure and function of telomeres, *Review article,* (Blackburn, E H) **350,** 569

Chronic granulomatous disease. Activation of the NADPH oxidase involves the small GTP-binding protein $p21^{rac1}$, *Letter to Nature,* (Abo, A, Pick, E, Hall, A, Totty, N, Teahan, C G and Segal, A W) **353,** 668

Radical prospects, *News and views,* **349,** 739

Chronology. Centuries of darkness, *book review by* Hassan, F A., (James, P) **353,** 712

Chymotrypsin. Structure of Sindbis virus core protein reveals a chymotrypsin-like serine proteinase and the organization of the virion, *Article,* (Choi, H-K, Tong, L, Minor, W, Dumas, P, Boege, U, Rossmann, M G and Wengler, G) **354,** 37

Cichlid fishes. African fishes, *Scientific correspondence,* (de Caprona, M-D C and Fritzsch, B) **350,** 467

African fishes: Reply, *Scientific correspondence,* (Meyer, A, Kocher, T D and Wilson, A C) **350,** 467

Circadian rhythms. A cyclic GMP-activated channel in dissociated cells of the chick pineal gland, *Letter to Nature,* (Dryer, S E and Henderson, D) **353,** 756

Circadian rhythms: Resetting the human clock, *News and views,* (Winfree, A T) **350,** 18

Human circadian rhythms, *Scientific correspondence,* (Kronauer, R E, Jewett, M E and Czeisler, C A) **351,** 193

Light-induced suppression of endogenous circadian amplitude in humans, *Letter to Nature,* (Jewett, M E, Kronauer, R E and Czeisler, C A) **350,** 59

Circumstellar disks. Astronomy: Comets in collision, *News and views,* (Weintraub, D A) **351,** 440

Citations, Gulf war. Bibliometric lines in the sand, *Commentary,* (de Bruin, R E, Braam, R R and Moed, H F) **349,** 559

Citations, Japan. Research rating: Japanese biologists produce 'hot' papers, *News,* (Swinbanks, D) **351,** 597

Citations. Another mountain from a molehill, *News and views,*

(Maddox, J) **351,** 13
Citation analysis: US science OK, *News,* **350,** 6
Order, order!, *Correspondence,* (Evans, R D) **349,** 734
Order, order!, *Correspondence,* (Miller, J B) **349,** 734
CITES ban. Asian elephant threatened, *Correspondence,* (Dawson, S and Blackburn, T M) **352,** 274
City development. Straight-line city, *Opinion,* **353,** 286
Classification. More natural classification, *Scientific correspondence,* (Mayr, E) **353,** 122
Classified advertisements. Time of grace, *Correspondence,* (Malpas, S) **350,** 268
Clathrate hydrates. Optimal circular packing, *Scientific correspondence,* (O'Keefe, M) **352,** 27
Clathrin-coated vesicles. Cell biology: Membrane traffic COPs, *News and views,* (Robinson, M S) **349,** 743
Clathrin. Mathematics: Circularly covering clathrin, *News and views,* (Stewart, I) **351,** 103
Climate change, volcanic eruptions. Dimensions and dynamics of co-ignimbrite eruption columns, *Letter to Nature,* (Woods, A W and Wohletz, K) **350,** 225
Climate change. Climate change, *Correspondence,* (Sukumar, R and Devi Prasad, K V) **353,** 496
Climate change: 1990 warmest year on record, *News,* (Aldhous, P) **349,** 186
Climate change: The Arctic as a bellwether, *News and views,* (Walsh, J E) **352,** 19
Climate change: Is water vapour understood?, *News and views,* (Jones, R L and Mitchell, J F B) **353,** 210
Climate change: Chaos in ocean heat transport, *News and views,* (Covey, C) **353,** 796
Current change, *News and views,* **354,** 191
Does climate still matter?, *Commentary,* (Ausubel, J H) **350,** 649
Freshwater flux forcing of decadal and interdecadal oceanic variability, *Letter to Nature,* (Weaver, A J, Sarachik, E S and Marotze, J) **353,** 836
Global climate talks: Stalemate in Nairobi, *News,* (Pool, R) **353,** 291
Global warming makes its mark everywhere, *News,* **349,** 3
Global warming: Gulf war clouds convention, *News,* (Anderson, C and Aldhous, P) **349,** 358
Global warming: Meeting set fair for squalls, *News,* (Lindley, D) **349,** 449
Global warming: Third world muscles in on climate treaty, *News,* (Anderson, C and Aldhous, P) **349,** 727
How to slow global warming, *Commentary,* (Victor, D G) **349,** 451
Making global warming public property, *News and views,* (Maddox, J) **349,** 189
Methane flux to the atmosphere from the Arabian Sea, *Letter to Nature,* (Owens, N J P, Law, C S, Mantoura, R F C, Burkill, P H and Llewellyn, C A) **354,** 293
NAS on global warming: 'insurance needed', *News,* (Pool, R) **350,** 449
Ocean uncertainty, *Scientific correspondence,* (Covey, C) **353,** 309
Pragmatics in the greenhouse, *Commentary,* (Grubb, M J, Victor, D G and Hope, C W) **354,** 348
Proof negative, *Correspondence,* (Sundt, N) **352,** 187
Recent variations in Arctic and Antarctic sea-ice covers, *Article,* (Gloersen, P and Campbell, W J) **352,** 33
Research in Antarctica: Climate research: Filling in missing pieces, *News,* (Dickman, S) **350,** 308
Simulations of the effect of a warmer climate on atmospheric humidity, *Letter to Nature,* (Del Genio, A D, Lacis, A A and Ruedy, R A) **351,** 382
Turning off the gas . . ., *Correspondence,* (Nielsen, S O) **349,** 362
What kind of greenhouse treaty?, *Opinion,* **349,** 441
Climate feedbacks, water vapour. Simulations of the effect of a warmer climate on atmospheric humidity, *Letter to Nature,* (Del Genio, A D, Lacis, A A and Ruedy, R A) **351,** 382
Climate feedbacks, water. Sensitivity of the Earth's climate to height-dependent changes in the water vapour mixing ratio, *Letter to Nature,* (Shine, K P and Sinha, A) **354,** 382
Climate forcing, monsoons. Forcing mechanisms of the Indian Ocean monsoon, *Article,* (Clemens, S, Prell, W, Murray, D, Shimmield, G and Weedon, G) **353,** 720
Climate forcing. The quasiquadrennial oscillation of Jupiter's equatorial stratosphere, *Letter to Nature,* (Leovy, C B, Friedson, A J and Orton, G S) **354,** 380
Climate research, US. Climate data: Too much of a good thing, *News,* (Anderson, C) **349,** 553
Climate research. Contrary agenda for greenhouse research, *News,* (Pool, R) **350,** 449
Climate treaties. Pragmatics in the greenhouse, *Commentary,* (Grubb, M J, Victor, D G and Hope, C W) **354,** 348
Climatology, Gulf war. Gulf conflagration: Predicting climate problems, *News,* (Aldhous, P) **349,** 270
Climatology, nuclear winter. A path where no man thought: Nuclear winter and the end of the arms race, *book review by* Ruina, J. (Sagan, C and Turco, R) **352,** 765
Climatology, oil fires. Climate response to smoke from the burning oil wells in Kuwait, *Article,* (Bakan, S, Chlond, A, Cubasch, U, Feichter, J, Graf, H, Grassl, H, Hasselmann, K, Kirchner, I, Latif, M, Roekner, E, Sausen, R, Schlese, U, Schriever, D, Schult, I, Schumann, U, Sielmann, F and Welke, W) **351,** 367
Environmental effects from burning oil wells in Kuwait, *Article,* (Browning, K A, Allam, R J, Ballard, S P, Barnes, R T H, Bennetts, D A, Maryon, R H, Mason, P J, McKenna, D, Mitchell, J F B, Senior, C A, Slingo, A and Smith, F B) **351,** 363
Climatology, remote sensing. Remote sensing: ESA's eye on the oceans, *News,* (Aldhous, P) **351,** 8
Climatology. Borehole studies: Climate plumbs the depths, *News and views,* (Sass, J) **349,** 458
Climate change: Credit the oceans?, *News and views,* (Covey, C) **352,** 196
Climate change: Chaos in ocean heat transport, *News and views,* (Covey, C) **353,** 796
Dimension of weather and climate attractors, *Letter to Nature,* (Lorenz, E N) **353,** 241
Do bidecadal oscillations exist in the global temperature record?, *Letter to Nature,* (Elsner, J B and Tsonis, A A) **353,** 551
Does climate still matter?, *Commentary,* (Ausubel, J H) **350,** 649
Environmental impact of fires in Kuwait, *Commentary,* (Small, R D) **350,** 11
Evidence from Antarctic ice cores for recent increases in snow accumulation, *Letter to Nature,* (Morgan, V I, Goodwin, I D, Etheridge, D M and Wookey, C W) **354,** 58
Freshwater flux forcing of decadal and interdecadal oceanic variability, *Letter to Nature,* (Weaver, A J, Sarachik, E S and Marotze, J) **353,** 836
Gulf war: Oil-well climate catastrophe?, *News,* (Aldhous, P) **349,** 96
High salinity in the North Sea, *Scientific correspondence,* (Heath, M R, Henderson, E W, Slesser, G and Woodward, E M S) **352,** 116
Watching the World's Weather, *book review by* Lloyd, P. (Burroughs, W J) **352,** 31
Clinical research. Trials by wire, *News,* (Anderson, C) **353,** 293
Clinical trial, AZT. Clinical trials: Blazing an ethical trail, *News,* (Aldhous, P) **353,** 4
Clinical trials. Clinical trials: Evaluating cancer therapies, *News,* (Anderson, C) **351,** 598
Radical prospects, *News and views,* **349,** 739
Cloud condensation nuclei. Seasonal relationship between cloud condensation nuclei and aerosol methanesulphonate in marine air, *Letter to Nature,* (Ayers, G P and Gras, J L) **353,** 834
Clouds, global warming. Simulations of the effect of a warmer climate on atmospheric humidity, *Letter to Nature,* (Del Genio, A D, Lacis, A A and Ruedy, R A) **351,** 382
Clouds, greenhouse effect. Climate feedbacks: Limit to greenhouse warming?, *News and views,* (Heymsfield, A J and Miloshevich, L M) **351,** 14
Greenhouse warming: Positive about water feedback, *News and views,* (Cess, R D) **349,** 462
No limit to global warming?, *Scientific correspondence,* (Mitchell, J F B) **353,** 219
Thermodynamic regulation of ocean warming by cirrus clouds deduced from observations of the 1987 El Niño, *Article,* (Ramanathan, V and Collins, W) **351,** 27
Clouds, volcanic ash. Hazard from volcanic ash, *Scientific correspondence,* (Prata, A J, Barton, I J, Johnson, R W, Kamo, K and Kingwell, J) **354,** 25
Clozapine. Cloning of the gene for a human dopamine D_4 receptor with high affinity for the antipsychotic clozapine, *Letter to Nature,* (Van Tol, H H M, Bunzow, J R, Guan, H-C, Sunahara, R K, Seeman, P, Niznik, H B and Civelli, O) **350,** 610
Club of Rome. Club of Rome comes in from cold?, *Opinion,* **353,** 95
Cluster chemistry. Induced molecule self-organization, *Scientific correspondence,* (Müller, A) **352,** 115
Synthesis of inorganic nanophase materials in supramolecular protein cages, *Letter to Nature,* (Meldrum, F C, Wade, V J, Nimmo, D L, Heywood, B R and Mann, S) **349,** 684
Cluster of differentiation (CD) workshop. The next cluster of differentiation (CD) workshop, *Product Review,* (Springer, T A) **354,** 415
Cluster physics. Chemical physics: Gas-phase liquids, *News and views,* (Stace, T) **353,** 21
Cluster physics: All surface and no bulk, *News and views,* (Grätzel, M) **349,** 740
Observation of quantum supershells in clusters of sodium atoms, *Letter to Nature,* (Pedersen, J, Bjornholm, S, Borggreen, J, Hansen, K, Martin, T P and Rasmussen, H D) **353,** 733
Clusters. Materials science: Minute particulars, *News and views,* (Cahn, R W) **353,** 208
Clutch size. Lack's solution?, *Scientific correspondence,* (Magrath, R D) **353,** 611
Coal, fullerenes. Fullerenes from coal, *Scientific correspondence,* (Pang, L S K, Vassallo, A M and Wilson, M A) **352,** 480
Coal. Power lobby pressure, *News,* (Aldhous, P) **352,** 3
Coastal zone colour scanner. Estimation of new production in the ocean by compound remote sensing, *Article,* (Sathyendranath, S, Platt, T, Horne, E P W, Harrison, W G, Ulloa, O, Outerbridge, R and Hoepffner, N) **353,** 129
Cocaine. Expression cloning of a cocaine- and antidepressant-sensitive human noradrenaline transporter, *Letter to Nature,* (Pacholczyk, T, Blakely, R D and Amara, S G) **350,** 350
Cochlear implants. Better speech recognition with cochlear implants, *Letter to Nature,* (Wilson, B S, Finley, C C, Lawson, D T, Wolford, R D, Eddington, D K and Rabinowitz, W M) **352,** 236
Cochlear outer hair cells. Nature of the motor element in electrokinetic shape changes of cochlear outer hair cells, *Letter to Nature,* (Dallos, P, Evans, B N and Hallworth, R) **350,** 155
Cockayne's syndrome. DNA repair: Seven genes for three diseases, *News and views,* (Wood, R D) **350,** 190
Coelacanth. Close tetrapod relationships of the coelacanth *Latimeria* indicated by haemoglobin sequences, *Letter to Nature,* (Gorr, T, Kleinschmidt, T and Fricke, H) **351,** 394
Coelacanth's relationships, *Scientific correspondence,* (Stock, D W and Swofford, D L) **353,** 217
Coelacanth's relationships, *Scientific correspondence,* (Sharp, P M, Lloyd, A T and Higgins, D G) **353,** 218
Coelacanth's relationships, *Scientific correspondence,* (Meyer, A and Wilson, A C) **353,** 219
Evolution: Blood lines of the coelacanth, *News and views,* (Forey, P) **351,** 347
Living fossil: The story of the coelacanth, *book review by* Taylor, M A., (Thomson, K S) **353,** 29
Cognition. Unified theories of cognition, *book review by* Fox, J., (Newell, A) **353,** 312
Cognitive ethology. How monkeys see the world, *book review by* McGrew, W C. (Cheney, D L and Seyfarth, R M) **350,** 565
Cognitive neuropsychology. A selective deficit for writing vowels in acquired dysgraphia, *Letter to Nature,* (Cubelli, R) **353,** 258
Cognitive neuropsychology: Writing without vowels, *News and views,* (Marshall, J C) **353,** 209
Cognitive science. Foundations of cognitive science, *book review by* Shaffer, L H. (Posner, M) **351,** 281
Cold dark matter. Cosmology: Cold dark matter makes an exit, *News and views,* (Lindley, D) **349,** 14
Cosmology: Texture and cosmic structure, *News and views,* (Silk, J and Juszkiewicz, R) **353,** 386
Is cold dark matter really dead?, *Scientific correspondence,* (Frenk, C S and Kaiser, N) **351,** 22
The density field of the local Universe, *Article,* (Saunders, W, Frenk, C, Rowan-Robinson, M, Efstathiou, G, Lawrence, A, Kaiser, N, Ellis, R, Crawford, J, Xia, X-Y and Parry, I) **349,** 32
Cold fusion. All over now, *Correspondence,* (Craig, H) **351,** 264
Scientific misconduct: Cold fusion tempest at MIT, *News,* (Anderson, C) **353,** 98
Too hot to handle: The race for cold fusion, *book review by* Pippard, B. (Close, F) **350,** 29
UK-Japan collaboration: Cold fusion leaves a legacy, *News,* (Swinbanks, D) **354,** 98
Cold prehistory of life. Chirality and the cold origin of life, *Scientific correspondence,* (Goldanski, V I and Kuzmin, V V) **352,** 114
Colicin A. A 'molten-globule' membrane-insertion intermediate of the pore-forming domain of colicin A, *Letter to Nature,* (van der Goot, F G, González-Manas, J M, Lakey, J H and Pattus, F) **354,** 408
Protein dynamics: A case of a flexible friend, *News and views,* (Pain, R) **354,** 353
Collaboration, international. International collaboration: India and Australia plan ties, *News,* (Jayaraman, K S) **351,** 431
Collaborative research, UK. Collaboration: Call for LINK reform, *News,* (Aldhous, P) **351,** 431
Research collaboration: Charities cohabit in Cambridge, *News,* (Aldhous, P) **351,** 432
Collective framing, Soviet Union. The collective farm song, *Correspondence,* **351,** 93
Colloid science. An introduction to ultrathin organic films: From Langmuir-Blodgett to self-assembly, (Ulman, A) *book review by* Tredgold, R H. **354,** 120
Direct measurement of colloidal forces using an atomic force microscope, *Letter to Nature,* (Ducker, W A, Senden, T J and Pashley, R M) **353,** 239
Electrically erodible polymer gel for controlled release of drugs, *Letter to Nature,* (Kwon, I C, Bae, Y H and Kim, S W) **354,** 291
Forces between polymer-bearing surfaces undergoing shear, *Letter to Nature,* (Klein, J, Perahia, D and Warburg, S) **352,** 143
Formation of membranes, *Scientific correspondence,* (Lasic, D D) **351,** 613
Gathering dust, *News and views,* **349,** 20
Lattice work, *News and views,* **349,** 571
Model membranes: Playing a molecular accordion, *News and views,* (Cates, M) **351,** 102
Saccharide-sensitive phase transition of a lectin-loaded gel, *Letter to Nature,* (Kokufata, E, Zhang, Y-Q and Tanaka, T) **351,** 302
Self-assembling phospholipid filaments, *Letter to Nature,* (Rudolph, A S, Ratna, B R and Kahn, B) **352,** 52
Surface physics: A vanishing interface, *News and views,* (Ball, P) **353,** 213
The conformation of membranes, *Review article,* (Lipowsky, R) **349,** 475
Towards synthetic self-replication, *News and views,* (Maddox, J) **354,** 351
Colloidal metals. Air-stable alkali-metal colloids and the blue colour in Wurtz syntheses, *Letter to Nature,* (Benfield, R E, Cragg, R H, Jones, R G and Swain, A C) **353,** 340
Colloids, oceanic. Occurrence of small colloids in sea water, *Letter to Nature,* (Wells, M L and Goldberg, E D) **353,** 342

Colon cancer. Colon cancer: Consider the coiled coil . . ., *News and views,* (Bourne, H R) **351,** 188
Colon cancer: Suppression with a difference, *News and views,* (Bourne, H R) **353,** 696
Colony-stimulating factor-1 receptor. Myc rescue of a mutant CSF-1 receptor impaired in mitogenic signalling, *Letter to Nature,* (Rounsel, M F, Cleveland, J L, Shurtleff, S A and Sherr, C J) **353,** 361
Colour vision. Neurobiology: Most of the senses begin to make some sense, *News and views,* (Lancet, D) **353,** 799
Obituary: Edwin Herbert Land (1909-1991), *News and views,* (Mollon, J D) **350,** 379
Columbus telescopes. Astronomy: Insult to injury, *News,* (Anderson, C) **353,** 97
Combustion chemistry, fullerenes. Fullerenes C_{60} and C_{70} in flames, *Letter to Nature,* (Howard, J B, McKinnon, J T, Makarovsky, Y, Lafleur, A L and Johnson, M E) **352,** 139
Comet Austin. Microwave detection of hydrogen sulphide and methanol in comet Austin (1989c1), *Letter to Nature,* (Bockelée-Morvan, D, Colom, P, Crovisier, J, Despois, D and Paubert, G) **350,** 318
Comet Halley. A kick from the solar wind as the cause of Comet Halley's February 1991 flare, *Letter to Nature,* (Intriligator, D S and Dryer, M) **353,** 407
Carbon suboxide in comet Halley?, *Letter to Nature,* (Huntress, W T, Allen, M and Delitsky, M) **352,** 316
Carbon suboxide in comet Halley, *Scientific correspondence,* (Crovisier, J, Encrenaz, T and Combes, M) **353,** 610
Carbon suboxide in Halley, *Scientific correspondence,* (Allen, M) **354,** 272
Comet Halley: Investigations, results, interpretations, . Vol 1: Organization, plasma, gas. Vol. 2: Dust, nucleus, evolution., *book review by* Hughes, D W. (Mason, J W **352,** 768
Halley at large, *News,* (Pease, R) **349,** 732
Negative ions in the coma of comet Halley, *Letter to Nature,* (Chaizy, P, Rème, H, Sauvaud, J A, d'Uston, C, Lin, R P, Larson, D E, Mitchell, D L, Anderson, K A, Carlson, C W, Korth, A and Mendis, D A) **349,** 393
Re-evaluation of the chemistry of dust grains in the coma of comet Halley, *Letter to Nature,* (Mukhin, L, Dolnikov, G, Evlanov, E, Fomenkova, M, Prilutsky, O and Sagdeev, R) **350,** 480
Solar System: Why did Halley hiccup?, *News and views,* (Weissman, P) **353,** 793
Cometary nuclei. Microwave detection of hydrogen sulphide and methanol in comet Austin (1989c1), *Letter to Nature,* (Bockelée-Morvan, D, Colom, P, Crovisier, J, Despois, D and Paubert, G) **350,** 318
Comets, Apollo. Tell tails, *News and views,* **351,** 442
Comets, carbonaceous material. Carbon suboxide in comet Halley?, *Letter to Nature,* (Huntress, W T, Allen, M and Delitsky, M) **352,** 316
Comets, circumstellar disks. Astronomy: Comets in collision, *News and views,* (Weintraub, D A) **351,** 440
Comets, Halley. Negative ions in the coma of comet Halley, *Letter to Nature,* (Chaizy, P, Rème, H, Sauvaud, J A, d'Uston, C, Lin, R P, Larson, D E, Mitchell, D L, Anderson, K A, Carlson, C W, Korth, A and Mendis, D A) **349,** 393
Comets, Icarus. Tell tails, *News and views,* **351,** 442
Comets, non-gravitational trajectories. Tell tails, *News and views,* **351,** 442
Comets. A way-out 'asteroid', *News and views,* (Chapman, C R) **350,** 556
Comets: A chronological history of observation, science, myth and folklore, *book review by* Harrison, E. (Yeomans, D K) **350,** 521
Gravitationally unbound comets move in predominantly retrograde orbits, *Letter to Nature,* (Matese, J J, Whitman, P G and Whitmire, D P) **352,** 506
Physics and chemistry of comets, *book review by* Brownlee, D E. (Heubner, W F) **351,** 197
Planetary rings: Ever decreasing circles, *News and views,* (Esposito, L W) **354,** 107
Spacewatch: Our asteroid-pelted planet, *News and views,* (Steel, D) **354,** 265
Commercial research, universities. Soul not for sale, *Correspondence,* (Iles, R) **349,** 188
Commercial technology, US. Recipe for prosperity?, *Opinion,* **353,** 780
Communications, Africa. Africa: Opening up communications, *News,* (Pool, R) **353,** 293
Community ecology. Community ecology: A case of missing marsupials, *News and views,* (Diamond, J M) **353,** 17
Community structure, birds. Bird community structure, *Scientific correspondence,* (Cotgreave, P and Harvey, P H) **353,** 123
Community structure. Food web patterns and their consequences, *Review article,* (Pimm, S L, Lawton, J H and Cohen, J E) **350,** 669
Comparative biology. Phylogeny, ecology and behavior: A research program in comparative biology, *book review by* Siebert, D J and Humphries, C J (Brooks, D R and McLennan, D A) **353,** 615
Comparative method, in evolutionary biology. The comparative method in evolutionary biology, *book review by* Siebert, D J and Humphries, C J (Harvey, P and Pagel, M) **353,** 615
Complementarity, quantum mechanics. Quantum optical tests of complementarity, *Review article,* (Scully, M A, Englert, B-G and Walther, H) **351,** 111
Complementary DNA strategy. DNA sequencing: Complementary questions, *News and views,* (Little, P) **352,** 20
Complex dynamics. Mathematics: Justifying the means, *News and views,* (Stewart, I) **354,** 185
Complexity, runaway. Complexity levels, *Correspondence,* (Maiorana, V C) **349,** 558
Complexity still running, *Correspondence,* (Sheldon, P R) **350,** 104
Complexity. The hour of our delight: Cosmic evolution, order, and complexity, *book review by* Bennett, C H. (Reeves, H) **352,** 204
Composite materials. Graphitic carbon copies, *Correspondence,* (Cahn, R W) **349,** 97
Graphitic carbon copies: Reply, *Correspondence,* (Swinbanks, D) **349,** 97
Computation. Dynamics: Deciding the undecidable, *News and views,* (Stewart, I) **352,** 664
Computational biology. Missing the point, *Correspondence,* (Lacy, M E) **351,** 434
Computer design. The fangs of the VIPER, *Commentary,* (MacKenzie, D) **352,** 467
Computer graphics. Journal of visual languages and computing, *journal review by* Campbell, J A., (Chang, S K and Levialdi, S *editors*) **353,** 477
Computer industry, UK. Computer industry: ICL expelled from JESSI projects, *News,* (Aldhous, P) **350,** 368
Computer networks, Australia. Research in Antarctica: Communications: Penguins keep their distance, *News,* (Ewing, T) **350,** 305
Computer networks, UK. Research in Antarctica: Research computing: Logging-on on the ice, *News,* (Aldhous, P) **350,** 297
Computer networks, US. Review systems: Computerized grants project is unveiled, *News,* (Anderson, C) **350,** 646
Review systems: Electronic review: mixed messages, *News,* (Anderson, C) **350,** 646
Computer science. International journal of foundations in computer science, *journal review by* Campbell, J A., (Engeler, E, Ito, T, Lee, D J, Parikh, R and Tucker, J V *editors*) **353,** 477
Journal of visual languages and computing, *journal review by* Campbell, J A., (Chang, S K and Levialdi, S *editors*) **353,** 477
Mathematical structures in computer science, *journal review by* Campbell, J A., (Longo, G *editor*) **353,** 477
Computer simulation. Classical liquid in a box, *News and views,* (Maddox, J) **350,** 105
Effect of defects on molecular mobility in liquid water, *Letter to Nature,* (Sciortino, F, Geiger, A and Stanley, H E) **354,** 218
Water goes with the flow, *News and views,* (Ball, P) **354,** 188
Computer software, US. Software protection, *News,* (Anderson, C) **353,** 199
Computer software. Growing up with your software, *News and views,* (Maddox, J) **351,** 437
Soft on software, *Opinion,* **350,** 640
Computers, Europe. A European collaboration for IBM, *News,* (Pool, R) **352,** 98
High-performance computing: A last chance to catch up?, *News,* (Aldhous, P) **349,** 645
Soft on software, *Opinion,* **350,** 640
Computers, Germany. A European collaboration for IBM, *News,* (Pool, R) **352,** 98
Computers, grant allocation. Review systems: Electronic review: mixed messages, *News,* (Anderson, C) **350,** 646
Computers, grant allocations. Review systems: Computerized grants project is unveiled, *News,* (Anderson, C) **350,** 646
Computers, health hazards. An electrostatic attraction, *Scientific correspondence,* (Ziemba, F P) **349,** 659
Computers, Japan. Sixth-generation computing: Japan courts US on joint project, *News,* (Swinbanks, D and Pool, R) **351,** 336
Sixth-generation computing: The private sector offers an alternative, *News,* (Swinbanks, D) **351,** 336
Computers, microscopy. Journal of computer-assisted microscopy, *journal review by* Dunn, G A., (Russ, J C *editor*) **353,** 471
Computers, UK. Computation research: Cranky computer, *News,* (Anderson, C) **352,** 4
Parallel boost, *News,* (Anderson, C) **352,** 271
UK supercomputing: London centre keeps Cray, *News,* (Aldhous, P) **349,** 184
Who will fashion the distant future?, *Opinion,* **352,** 93
Computers, US. Computer industry: IBM and Apple set up camp, *News,* (Aldhous, P) **352,** 98
Sixth-generation computing: Japan courts US on joint project, *News,* (Swinbanks, D and Pool, R) **351,** 336
Who will fashion the distant future?, *Opinion,* **352,** 93
Computers. Hermes and the golden thinking machine, *book review by* Campbell, J A. (Tzonis, A) **350,** 32
Scientific integrity: If Orwell had had a Macintosh (and a scanner), *News,* (Anderson, C) **350,** 454
Scientific visualization: practices and promises, *Product Review,* (Greenwade, L E) **353,** 191
Virtual reality, (Rheingold, H) *book review by* Anderson, C. **354,** 366
Computing, history of. John von Neumann and the origins of modern computing, *book review by* Tweedale, G. (Aspray, W) **349,** 662
Concert halls, acoustics. Olbers' paradox in concert halls?, *Scientific correspondence,* (Lee, J B) **352,** 202
Condensed matter physics. Nobel Prize: Physics: A gift for unravelling complexity, *News,* (Ball, P) **353,** 689
Conducting polymers. Molecular electronics: Totally organic transistors, *News and views,* (Bloor, D) **349,** 738
Conferences, scientific. When is a conference independent?, *News,* (Anderson, C) **354,** 421
Conflicts of interest. Conflict of interest: Then there were four . . ., *News,* (Anderson, C) **349,** 95
Conflict of interest: Black eye for NIH, *News,* (Anderson, C) **350,** 100
Scientific misconduct: Conflict in NIH panel, *News,* **351,** 598
University-industry collaboration: Questions on drug pact, *News,* (Shulman, S) **350,** 645
Confocal microscopy. Confocal microscopy, *book review by* Dunn, G. (Wilson, T) **350,** 118
Conformation, amino acids. Helix formation: Alarums and diversions, *News and views,* (Lesk, A M) **352,** 379
Congenital contractural arachnodactyly. Medical genetics: The defect in Marfan syndrome, *News and views,* (McKusick, V A) **352,** 279
Congress, space station. How to stop the space station, *Opinion,* **352,** 175
Conjugated molecules. Off-axis orientation of the electronic transition moment for a linear conjugated polyene, *Letter to Nature,* (Shang, Q-y, Dou, X and Hudson, B S) **352,** 703
Connective tissue, disorders. Linkage of Marfan syndrome and a phenotypically related disorder to two different fibrillin genes, *Letter to Nature,* (Lee, B, Godfrey, M, Vitale, E, Hori, H, Mattei, M-G, Sarfarazi, M, Tsipouras, P, Ramirez, F and Hollister, D W) **352,** 330
Partial sequence of a candidate gene for the Marfan syndrome, *Letter to Nature,* (Maslen, C L, Corson, G M, Maddox, B K, Glanville, R W and Sakai, L Y) **352,** 334
Connective tissue. Marfan syndrome caused by a recurrent *de novo* missense mutation in the fibrillin gene. *Letter to Nature,* (Dietz, H C, Cutting, G R, Pyeritz, R E, Maslen, C L, Sakai, L Y, Corson, G M, Puffenberger, E G, Hamosh, A, Nanthakumar, E J, Curristin, S M, Stetten, G, Meyers, D A and Francomano, C A) **352,** 337
Consciousness. Conscious or unconscious?, *Scientific correspondence,* (Libet, B) **351,** 194
Conscious vs neural time, *Scientific correspondence,* (Libet, B) **352,** 27
Conscious vs neural time: reply, *Scientific correspondence,* (Glynn, I M) **352,** 27
Conservation biology. Conservation: 'Hunting licence' for drugs, *News,* (Aldhous, P) **353,** 290
Endangered species, *Correspondence,* (Harcourt, S) **354,** 10
Species reintroduction: New twist in snail saga, *News,* (Anderson, C) **353,** 489
The expendable future: US politics and the protection of biological diversity, *book review by* Pimm, S L. **350,** 668
Conservation, ancient monuments. Deterioration of our cultural heritage, *Commentary,* (Burns, G) **352,** 658
Conservation, Antarctica. The Antarctic Treaty System in world politics, *book review by* Drewry, D J., (Jorgansen-Dahl, A and Ostreng, W *editors*) **353,** 126
Conservation, elephants. Asian elephant threatened, *Correspondence,* (Dawson, S and Blackburn, T M) **352,** 274
Conservation, seals. Seal hunting: Moratorium in South Africa, *News,* (Cherry, M) **350,** 4
Conservation, sharks. South Africa: Saving the shark, *News,* (Cherry, M) **350,** 645
Conservation, UK. Biodiversity: The UK role in conservation, *News,* (Gee, H) **351,** 596
Conservation, whales. International Whaling Commision: Whaling ban versus science, *News,* (Aldhous, P and Swinbanks, D) **351,** 259
Conservation. Conservation: Tiger project halted, *News,* (Jayaraman, K S) **354,** 424
Endangered species: Emerging virus threat, *News,* (Anderson, C) **351,** 89
Endangered species: Killer cows prompt shell suit, *News,* (Anderson, C) **351,** 595
Environment: EC putting bite in its green bark, *News,* (Anderson, C) **352,** 182
Last animals at the zoo, (Tudge, C) *book review by* Mace, G M. **354,** 195
Nature Reserves: Island Theory and Conservation Practice, *book review by* Williamson, M. (Shafer, C L) **352,** 32
The conservation atlas of tropical forests: Asia and the Pacific, *book review by* Bawa, K S. (Collins, N M, Sayer, J A and Whitmore, T C **352,** 204
US opens pockets to protect species, *News,* (Anderson, C) **350,** 265
Continental crust, evolution of. Geophysics: The lost continents, *News and views,* (Schubert, G) **354,** 358
Continental crust, formation of. Neodymium isotope evidence for ultra-depleted mantle in the early Proterozoic, *Letter to Nature,* (Sivell, W J and McCulloch, M T) **354,** 384
Continental drift. Continental drift, *Correspondence,* (Goodacre, A) **354,** 261
Continental margins. Importance of continental margins in the marine biogeochemical cycling of carbon and nitrogen, *Letter to Nature,* (Walsh, J J) **350,** 53
Continental shelves, denitrification. Direct measurement of nitrogen gas fluxes from continental shelf sediments, *Letter to Nature,* (Devol, A H) **349,** 319
Continental tectonics, Central Africa. Late Palaeozoic deformation in central Africa: a result of distant collision?, *Letter*

to Nature, (Daly, M C, Lawrence, S R, Kimun'a, D and Binga, M) **350,** 605

Continental tectonics. Earthquakes in aseismic zones, *News and views,* (Crone, A J) **352,** 570

Geodetic determination of tectonic deformation in central Greece from 1900 to 1988, *Article,* (Billiris, H, Paradissis, D, Veis, G, England, P, Featherstone, W, Parsons, B, Cross, P, Rands, P, Rayson, M, Sellers, P, Ashkenazi, V, Davison, M, Jackson, J and Ambraseys, N) **350,** 124

Geological faulting: Do little things matter?, *News and views,* (King, G and Cisternas, A) **351,** 350

Isotope dating: Quick shifts in plate motion, *News and views,* (Yardley, B W D) **354,** 269

Rapid dewatering of the crust deduced from ages of mesothermal gold deposits, *Letter to Nature,* (Goldfarb, R J, Snee, L W, Miller, L D and Newberry, R J) **354,** 296

The first surface faulting from a historical intraplate earthquake in North America, *Letter to Nature,* (Adams, J, Wetmiller, R J, Hasegawa, H S and Drysdale, J) **352,** 617

The importance of small-scale faulting in regional extension, *Letter to Nature,* (Walsh, J, Watterson, J and Yielding, G) **351,** 391

Transform faults and vertical tectonics, *News and views,* **349,** 371

Contraception. A history of contraception: From antiquity to the present day, *book review by* Davenport-Hines, R. (McLaren, A) **349,** 661

Génération pilule, *book review by* Gratzer, W. (Baulieu, E-E) **350,** 199

Controlled release. Electrically erodible polymer gel for controlled release of drugs, *Letter to Nature,* (Kwon, I C, Bae, Y H and Kim, S W) **354,** 291

Convection, atmospheric. Positive water vapour feedback in climate models confirmed by satellite data, *Letter to Nature,* (Rind, D, Chiou, E-W, Chu, W, Larsen, J, Oltmans, S, Lerner, J, McCormick, M P and McMaster, L) **349,** 500

Convection, mantle. Intermittent layered convection in a model mantle with an endothermic phase change at 670 km, *Letter to Nature,* (Machetel, P and Weber, P) **350,** 55

Convection. Erosion of a stable density gradient by sedimentation-driven convection, *Letter to Nature,* (Kerr, R C) **353,** 423

Magnetically controlled convection in a paramagnetic fluid, *Letter to Nature,* (Braithwaite, D, Beaugnon, E and Tournier, R) **354,** 134

Convergent evolution. . . . and then there were two, *News and views,* (Baker, T A) **353,** 794

Coordination chemistry, silicon. NMR evidence for five-coordinated silicon in a silicate glass at atmospheric pressure, *Letter to Nature,* (Stebbins, J F) **351,** 638

Coordination chemistry. Change of coordination from tetrahedral gold-ammonium to square-pyramidal gold-arsonium cations, *Letter to Nature,* (Zeller, E, Beruda, H, Kolb, A, Bissinger, P, Riede, J and Schmidbaur, H) **352,** 141

Coral records. Post-glacial sea-level rise from a coral record at Huon Peninsula, Papua New Guinea, *Letter to Nature,* (Chappell, J and Polach, H) **349,** 147

Core-mantle boundary. Earth sciences: A superplume in the mantle, *News and views,* (Cox, K G) **352,** 564

Coronaviruses. Coronavirus motif, *Scientific correspondence,* (Britton, P) **353,** 394

Corrections. Gas sample correction, *Scientific correspondence,* (Marty, B) **354,** 194

Corrosion. Metallurgy: Revealing corrosion pits, *News and views,* (Burstein, G T) **350,** 188

Passivity breakdown and pitting corrosion of binary alloys, *Letter to Nature,* (Williams, D E, Newman, R C, Song, Q and Kelly, R G) **350,** 216

Corruption, France. French scandal, *News,* (Anderson, C) **352,** 99

Cosmic censorship. General relativity: Evading the cosmic censor, *News and views,* (Friedman, J L) **351,** 269

Cosmic microwave background, discovery of. Early cosmic background, *Scientific correspondence,* (Le Floch, A and Bretenaker, F) **352,** 198

Cosmic microwave background. Large-scale structure in the Universe, *Review article,* (Kashlinsky, A and Jones, B J T) **349,** 753

The case for the relativistic hot Big Bang cosmology, *Review article,* (Peebles, P J E, Schramm, D N, Turner, E L and Kron, R G) **352,** 769

Cosmic rays. Cosmic rays and particle physics, *book review by* Kazanas, D. (Gaisser, T K) **350,** 390

Cosmic X-ray background. The origin of the cosmic X-ray background, *Article,* (Shanks, T, Georgantopoulos, I, Stewart, G C, Pounds, K A, Boyle, B J and Griffiths, R E) **353,** 315

Cosmochemistry. A collection of diverse micrometeorites recovered from 100 tonnes of Antarctic blue ice, *Letter to Nature,* (Maurette, M, Olinger, C, Michel-Levy, M C, Kurat, G, Pourchet, M, Brandstätter, F and Bourot-Denise, M) **351,** 44

Carbon suboxide in comet Halley?, *Letter to Nature,* (Huntress, W T, Allen, M and Delitsky, M) **352,** 316

Carbon suboxide in comet Halley, *Scientific correspondence,* (Crovisier, J, Encrenaz, T and Combes, M) **353,** 610

Carbon suboxide in Halley, *Scientific correspondence,* (Allen, M) **354,** 272

Extraterrestrial synthesis, *Scientific correspondence,* (Miller, S L and Bada, J L) **350,** 387

Extraterrestrial synthesis: Reply, *Scientific correspondence,* (Shock, E L and Schulte, M D) **350,** 388

Geochemistry: Solar gases in the Earth?, *News and views,* (Podosek, F A) **349,** 106

Large amounts of extinct ^{26}Al in interstellar grains from the Murchison meteorite, *Letter to Nature,* (Zinner, E, Amari, S, Anders, E and Lewis, R) **349,** 51

Microwave detection of hydrogen sulphide and methanol in comet Austin (1989c1), *Letter to Nature,* (Bockelée-Morvan, D, Colom, P, Crovisier, J, Despois, D and Paubert, G) **350,** 318

Phosphates in pallasite meteorites as probes of mantle processes in small planetary bodies, *Letter to Nature,* (Davis, A M and Olsen, E J) **353,** 637

Physics and chemistry of comets, *book review by* Brownlee, D E. (Heubner, W F) **351,** 197

Re-evaluation of the chemistry of dust grains in the coma of comet Halley, *Letter to Nature,* (Mukhin, L, Dolnikov, G, Evlanov, E, Fomenkova, M, Prilutsky, O and Sagdeev, R) **350,** 480

Solar System: Small grains of truth, *News and views,* (Nuth, J) **349,** 18

Cosmogony. Black-hole mergers and mass inflation in a bouncing universe, *Letter to Nature,* (Sikkema, A E and Israel, W) **349,** 45

Cosmology. Another look at the Big Bang, *Scientific correspondence,* (Harrison, E) **352,** 574

Astronomy: Slow-motion galactic birth, *News and views,* (Silk, J) **351,** 191

Bang on, *News and views,* **349,** 104

Basics of modern cosmology, *book review by* Peacock, J. (Dolgov, A D, Sazhin, M V and Zeldovich, Ya B) **351,** 359

Black holes and structure in an oscillating universe, *Letter to Nature,* (Saslaw, W C) **350,** 43

Black holes and the Universe, *book review by* Friedman, J L. (Novikov, I) **350,** 119

Black-hole mergers and mass inflation in a bouncing universe, *Letter to Nature,* (Sikkema, A E and Israel, W) **349,** 45

Cool for clouds, *News and views,* **350,** 21

Cosmology: A quasar superstructure, *News and views,* (Silk, J and Weinberg, D) **350,** 272

Cosmology: Cold dark matter makes an exit, *News and views,* (Lindley, D) **349,** 14

Cosmology: Dark dark matter, *News and views,* (Hogan, C J) **351,** 96

Cosmology: European gravity detector in peril, *News,* (Aldhous, P) **353,** 688

Cosmology: More Hubble trouble?, *News and views,* (Peacock, J) **352,** 378

Cosmology: Quark soup: do not boil, *News and views,* (Fukugita, M and Hogan, C J) **354,** 17

Cosmology: Texture and cosmic structure, *News and views,* (Silk, J and Juszkiewicz, R) **353,** 386

Early cosmic background, *Scientific correspondence,* (Le Floch, A and Bretenaker, F) **352,** 198

Faint hope, *News and views,* **352,** 18

Formation of cosmic structure by Doppler instability, *Article,* (Hogan, C J) **350,** 469

Is cold dark matter really dead?, *Scientific correspondence,* (Frenk, C S and Kaiser, N) **351,** 22

Large-scale structure in the Universe, *Review article,* (Kashlinsky, A and Jones, B J T) **349,** 753

New for old, *News and views,* **350,** 463

Notes from underground, *News and views,* **350,** 656

Nucleosynthesis: Beryllium and the Big Bang, *News and views,* (Pagel, B E J) **354,** 267

Our universes, *book review by* Hughes, D W., (Wilkinson, D) **353,** 804

Particle physics and inflationary cosmology, *book review by* Turok, N. (Linde, A D) **350,** 666

Pseudo-dilemma?, *Correspondence,* (Craig, W L) **354,** 347

Quasar redshifts, *Scientific correspondence,* (Dar, A) **353,** 708

Split decision, *News and views,* **352,** 380

Test of the decaying dark matter hypothesis using the Hopkins Ultraviolet Telescope, *Letter to Nature,* (Davidsen, A F, Kriss, G A, Ferguson, H C, Blair, W P, Bowers, C W, Dixon, W V, Durrance, S T, Feldman, P D, Henry, R C, Kimble, R A, Kruk, J W, Long, K S, Moos, H W and Vancura, O) **351,** 128

The case for the relativistic hot Big Bang cosmology, *Review article,* (Peebles, P J E, Schramm, D N, Turner, E L and Kron, R G) **352,** 769

The density field of the local Universe, *Article,* (Saunders, W, Frenk, C, Rowan-Robinson, M, Efstathiou, G, Lawrence, A, Kaiser, N, Ellis, R, Crawford, J, Xia, X-Y and Parry, I) **349,** 32

The Great Attractor: do galaxies trace the large-scale mass distribution?, *Review article,* (Dressler, A) **350,** 391

The Hubble constant from VLA measurement of the time delay in the double quasar 0957+561, *Letter to Nature,* (Roberts, D H, Lehár, J, Hewitt, J N and Burke, B F) **352,** 43

The shadows of creation: Dark matter and the structure of the Universe, *book review by* Rowan-Robinson, M. (Riordan, M and Schramm, D N) **352,** 677

Theories of everything: The quest for ultimate explanation, *book review by* Stewart, I. (Barrow, J D) **350,** 525

Voronoi cosmology, *Scientific correspondence,* (Coles, P) **349,** 288

Were small galaxies once the dominant cosmological population?, *Letter to Nature,* (Cowie, L L, Songaila, A and Hu, E M) **354,** 460

COSTAR. Hubble fix on course, *News,* (Aldhous, P) **352,** 94

Coulomb staircase. Incremental charging of a molecule at room temperature using the scanning tunnelling microscope, *Letter to Nature,* (Nejoh, H) **353,** 640

Countershading. Zoology: Marine quick-change acts, *News and views,* (Greenwood, J J D) **349,** 741

Coupled oscillators. Mathematics: All together now . . ., *News and views,* (Stewart, I) **350,** 557

Cours de Comptes. French scandal, *News,* (Anderson, C) **352,** 99

Covalent glasses. Medium-range structural order in covalent amorphous solids, *Review article,* (Elliott, S R) **354,** 445

Cows, methane production. India: Skinny cows no threat, *News,* (Jayaraman, K S) **353,** 685

CREB proteins. Somatotroph hypoplasia and dwarfism in transgenic mice expressing a non-phosphorylatable CREB mutant, *Letter to Nature,* (Struthers, R S, Vale, W W, Arias, C, Sawchenko, P E and Montminy, M R) **350,** 622

Crematoria, mercury. More mercury from crematoria, *Scientific correspondence,* (Künzler, P and Andrée, M) **349,** 746

Cretaceous-Tertiary boundary. Cretaceous/Tertiary extinction: Where did it happen?, *News and views,* (Smit, J) **349,** 461

Geochemical constraints on source region of Cretaceous/Tertiary impact glasses, *Letter to Nature,* (Sigurdsson, H, Bonté, Ph, Turpin, L, Chaussidon, M, Metrich, N, Steinberg, M, Pradel, Ph and D'Hondt, S) **353,** 839

Glass from the Cretaceous/Tertiary boundary in Haiti, *Article,* (Sigurdsson, H, D'Hondt, S, Arthur, M A, Bralower, T J, Zachos, J C, van Fossen, M and Channell, J E T) **349,** 482

Global extinction: Acid rain at the K/T boundary, *News and views,* (Palmer, M) **352,** 758

Melt droplet formation in energetic impact events, *Letter to Nature,* (Melosh, H J and Vickery, A M) **350,** 494

Mexican site for K/T impact crater, *Scientific correspondence,* (Pope, K O, Ocampo, A C and Duller, C E) **351,** 105

Nanometre-size diamonds in the Cretaceous/Tertiary boundary clay of Alberta, *Letter to Nature,* (Carlisle, D G and Braman, D R) **352,** 708

Palaeobotanical evidence for a June 'impact winter' at the Cretaceous/Tertiary boundary, *Letter to Nature,* (Wolfe, J A) **352,** 420

Rapid change in strontium isotopic composition of sea water before the Cretaceous/Tertiary boundary, *Letter to Nature,* (Nelson, B K, MacLeod, G K and Ward, P D) **351,** 644

Creutzfeldt-Jakob disease. Change for the worse, *News and views,* **351,** 16

CJD discrepancy, *Scientific correspondence,* (Doh-ura, K, Kitamoto, T, Sakaki, Y and Tateishi, J) **353,** 801

CJD discrepancy: Reply, *Scientific correspondence,* (Collinge, J and Palmer, M) **353,** 802

Homozygous prion protein genotype predisposes to sporadic Creutzfeldt-Jakob disease, *Letter to Nature,* (Palmer, M S, Dryden, A J, Hughes, J T and Collinge, J) **352,** 340

Spongiform encephalopathies: The prion's progress, *News and views,* (Weissmann, C) **349,** 569

Critical currents, superconductivity. Current record in superconductors, *Scientific correspondence,* (Ekin, J W, Salama, K and Selvamanickam, V) **350,** 26

Critical currents. High-temperature superconductivity: Supercurrents at a pinch, *News and views,* (Gallop, J) **350,** 465

Structural origin of reduced critical currents at $YBa_2Cu_3O_\delta$ grain boundaries, *Letter to Nature,* (Chisholm, M F and Pennycook, S J) **351,** 47

Croatia, politics. A plea from Croatia, *Correspondence,* (Vucak, I and Juretic, A) **353,** 597

Crust, deformation. Geodetic determination of tectonic deformation in central Greece from 1900 to 1988, *Article,* (Billiris, H, Paradissis, D, Veis, G, England, P, Featherstone, W, Parsons, B, Cross, P, Rands, P, Rayson, M, Sellers, P, Ashkenazi, V, Davison, M, Jackson, J and Ambraseys, N) **350,** 124

Crust, formation of. Neodymium isotope evidence for ultra-depleted mantle in the early Proterozoic, *Letter to Nature,* (Sivell, W J and McCulloch, M T) **354,** 384

Crustacea, stomatogastric nervous system. Construction of a pattern-generating circuit with neurons of different networks, *Letter to Nature,* (Meyrand, P, Simmers, J and Moulins, M) **351,** 60

Crustal evolution. Andean magma: Peeled or MASHed?, *News and views,* (Hickey-Vargas, R) **350,** 381

Geochemistry: Young Earth like Venus?, *News and views,* (Taylor, S R) **350,** 376

Crustal fluids. Evidence for a regional-scale fluid loss event during mid-crustal metamorphism, *Letter to Nature,* (Yardley, B, Bottrell, S H and Cliff, R A) **349,** 151

Isotope dating: Quick shifts in plate motion, *News and views,* (Yardley, B W D) **354,** 269

Isotopic evidence for involvement of COS12T-bearing magmas in granulite formation, *Letter to Nature,* (Farquhar, J and Chacko, T) **354,** 60

Metamorphic fluid flow, *Scientific correspondence,* (Tanner, P W G) **352,** 483

Metamorphic fluid flow: Reply, *Scientific correspondence,* (Yardley, B, Bottrell, S H and Cliff, R A) **352,** 484

Rapid dewatering of the crust deduced from ages of mesothermal gold deposits, *Letter to Nature*, (Goldfarb, R J, Snee, L W, Miller, L D and Newberry, R J) **354,** 296
Water at fault, *News and views,* **351,** 520
Crustal metamorphism. Evidence for a regional-scale fluid loss event during mid-crustal metamorphism, *Letter to Nature,* (Yardley, B, Bottrell, S H and Cliff, R A) **349,** 151
Cryptands. Macrocyclic chemistry: A new challenge to valency, *News and views,* (Constable, E C) **353,** 600
Cryptography. Quantum cryptography: Schrödinger's catflap, *News and views,* (Stewart, I) **353,** 384
Cryptomonad algae. Cryptomonad algae are evolutionary chimaeras of two phylogenetically distinct unicellular eukaryotes, *Letter to Nature,* (Douglas, S E, Murphy, C A, Spencer, D F and Gray, M W) **350,** 148
Crystal chemistry. Optimal circular packing, *Scientific correspondence,* (O'Keefe, M) **352,** 27
Crystal growth. Crystals: Surfaces make a difference, *News and views,* (Reeder, R J) **353,** 797
Disequilibrium carbon and oxygen isotope variations in natural calcite, *Letter to Nature,* (Dickson, J A D) **353,** 842
Helical microtubules of graphitic carbon, *Letter to Nature,* (Iijama, S) **354,** 56
Highly oriented thin films of poly(tetrafluoroethylene) as a substrate for oriented growth of materials, *Letter to Nature,* (Wittmann, J C and Smith, P) **352,** 414
Magnetically controlled convection in a paramagnetic fluid, *Letter to Nature,* (Braithwaite, D, Beaugnon, E and Tournier, R) **354,** 134
Materials science: Minute particulars, *News and views,* (Cahn, R W) **353,** 208
Molecular design based on recognition at inorganic surfaces, *Letter to Nature,* (Davey, R J, Black, S N, Bromley, L A, Cottier, D, Dobbs, B and Rout, J E) **353,** 549
Molecular electronics: Bringing molecules to order, *News and views,* (Friend, R) **352,** 377
Crystal structure, buckminsterfullerene. Prediction of fullerene packing in C_{60} and C_{70} crystals, *Letter to Nature,* (Guo, Y, Karasawa, N and Goddard, W A) **351,** 464
Structure and bonding in alkali-metal-doped C_{60}, *Letter to Nature,* (Zhou, O, Fischer, J E, Coustel, N, Kycia, S, Zhu, Q, McGhie, A R, Romanow, W J, McCauley, J P, Smith, A B and Cox, D E) **351,** 462
Crystal structure, phospholipase A_2. Structure of recombinant human rheumatoid arthritic synovial fluid phospholipase A_2 at 2.2Å resolution, *Letter to Nature,* (Wery, J-P, Schevitz, R W, Clawson, D K, Bobbitt, J L, Dow, E R, Gamboa, G, Goodson, T, Hermann, R B, Kramer, R M, McClure, D B, Mihelich, E D, Putnam, J E, Sharp, J D, Stark, D H, Teater, C, Warrick, M W and Jones, N D) **352,** 79
Crystallization, dislocations. High-temperature superconductors: Whorls upon whorls, *News and views,* (Garwin, L) **350,** 277
Screw dislocations in high-T_c films, *Scientific correspondence,* (Gerber, C, Anselmett, D, Bednorz, J G, Mannhart, J and Schlom, D G) **350,** 279
Crystallization. Biominerals: Flattery by imitation, *News and views,* (Mann, S) **349,** 285
Crystallization of an inorganic phase controlled by a polymer matrix, *Letter to Nature,* (Bianconi, P A, Lin, J and Strzelecki, A R) **349,** 315
Faceted crystal growth in two dimensions, *Letter to Nature,* (Berge, B, Faucheux, L, Schwab, K and Libchaber, A) **350,** 322
Nonequilibrium systems: The shape of crystals to come, *News and views,* (Villain, J) **350,** 273
Solubility and reaction kinetics of solution-solid reactions determined by *in situ* observations, *Letter to Nature,* (Ohmoto, H, Hayashi, K, Onuma, K, Tsukamoto, K, Kitakaze, A, Nakano, Y and Yamamoto, Y) **351,** 634
Crystallographic shear phases. Antiferromagnetism and metallic conductivity in Nb_2O_{5}, *Letter to Nature,* (Cava, R J, Batlogg, B, Krajewski, J J, Gammel, P, Poulsen, H F, Peck, W F and Rupp, L W) **350,** 598
Crystallography, chirality. Optical enrichment of a racemic chiral crystal by X-ray irradiation, *Letter to Nature,* (Osano, Y T, Uchida, A and Ohashi, Y) **352,** 510
Crystallography, fullerenes. C_{60} zeolites?, *Scientific correspondence,* (O'Keeffe, M) **352,** 674
Crystal structure and bonding of ordered C_{60}, *Letter to Nature,* (David, W I F, Ibberson, R M, Matthewman, J C, Prassides, K, Dennis, T J S, Hare, J P, Kroto, H W, Taylor, R and Walton, D R M) **353,** 147
Preparation and structure of the alkali-metal fulleride A_4C_{60}, *Letter to Nature,* (Fleming, R M, Rosseinsky, M J, Ramirez, A P, Murphy, D W, Tully, J C, Haddon, R C, Siegrist, T, Tycko, R, Glarum, S H, Marsh, P, Dabbagh, G, Zahurak, S M, Makhija, A V and Hampton, C) **352,** 701
Crystallography. A high-pressure form of Al_2SiO_5 as a possible host of aluminium in the mantle, *Letter to Nature,* (Ahmed-Zaïd, I and Madon, M) **353,** 426
A lattice-like construction to explain diffraction patterns of some non-stoichiometric phases, *Letter to Nature,* (Harburn, G, Tilley, R J D, Williams, J M and Williams, R P) **350,** 214
Selections and reflections: The legacy of Sir Lawrence Bragg, *book review by* Mackay, A. (Thomas, J M and Phillips, D) **351,** 279
Structure of the two-dimensional medium-pore high-silica zeolite NU-87, *Letter to Nature,* (Shannon, M D, Casci, J L, Cox, P A and Andrews, S J) **353,** 417
X-ray diffraction evidence for aromatic π hydrogen bonding to water, *Letter to Nature,* (Atwood, J L, Hamada, F, Robinson, K D, Orr, G W and Vincent, R L) **349,** 683
Cube-like molecules, DNA-based. Synthesis from DNA of a molecule with the connectivity of a cube, *Letter to Nature,* (Chen, J and Seeman, N C) **350,** 631
Cubic diamonds. High internal pressures in diamond fluid inclusions determined by infrared absorption, *Letter to Nature,* (Navon, O) **353,** 746
Currency, forgeries. Mössbauer test for forgery, *Scientific correspondence,* (Rusanov, V, Angelov, V, Jordanov, V and Ormandjiev, S) **349,** 199
Currency, Germany. Money matters: Gaussian curve graces banknote, *News,* (Dickman, S) **350,** 647
Cushing's syndrome. Drug policy: More RU-486 now available for research, *News,* (Anderson, C) **352,** 6
Cyclic AMP, fluorescence ratio imaging. Fluorescence ratio imaging of cyclic AMP in single cells, *Letter to Nature,* (Adams, S R, Harootunian, A T, Buechler, Y J, Taylor, S S and Tsien, T Y) **349,** 694
Cyclic AMP. Direct activation of cardiac pacemaker channels by intracellular cyclic AMP, *Letter to Nature,* (DiFrancesco, D and Tortora, P) **351,** 145
Mutant α subunits of G_o inhibit cyclic AMP accumulation, *Letter to Nature,* (Wong, Y H, Federman, A, Pace, A M, Zachary, I, Evans, T, Pouysségur, J and Bourne, H R) **351,** 63
Pituitary hyperplasia and gigantism in mice caused by a cholera toxin transgene, *Letter to Nature,* (Burton, F H, Hasel, K W, Bloom, F E and Sutcliffe, J G) **350,** 74
Cyclic GMP. A cyclic GMP-activated channel in dissociated cells of the chick pineal gland, *Letter to Nature,* (Dryer, S E and Henderson, D) **353,** 756
Cyclin A. Cyclin A facilitates the association of the retinoblastoma gene product with a cellular transcription factor, *Letter to Nature,* (Bandara, L R, Adamczewski, J P, Hunt, T and La Thangue, N B) **352,** 249
Cyclins. A novel cyclin encoded by a bcl1-linked candidate oncogene, *Letter to Nature,* (Motokura, T, Bloom, T, Kim, H G, Jüppner, H, Ruderman, J V, Kronenberg, H M and Arnold, A) **350,** 512
Cell biology: Cell cycle gets more cyclins, *News and views,* (Hunt, T) **350,** 462
Dephosphorylation and activation of a $p34^{cdc2}$/cyclin B complex *in vitro* by human CDC25 protein, *Letter to Nature,* (Strausfeld, U, Labbé, J C, Fesquet, D, Cavadore, J C, Picard, A, Sadhu, K, Russell, P and Dorée, M) **351,** 242
Identification of a G1-type cyclin puc1$^+$ in the fission yeast *Schizosaccharomyces pombe*, *Letter to Nature,* (Forsburg, S L and Nurse, P) **351,** 245
Isolation of the human *cdk2* gene that encodes the cyclin A- and adenovirus E1A-associated p33 kinase, *Letter to Nature,* (Tsai, L-H, Harlow, E and Meyerson, M) **353,** 174
Role for cyclin A in the dependence of mitosis on completion of DNA replication, *Letter to Nature,* (Walker, D H and Maller, J L) **354,** 314
Cyclones. Winding up, *News and views,* **349,** 366
Cyclophilin, structure of. Structure of human cyclophilin and its binding site for cyclosporin A determined by X-ray crystallography and NMR spectroscopy, *Letter to Nature,* (Kallen, J, Spitzfaden, C, Zurini, M G M, Wider, G, Widmer, H, Wüthrich, K and Walkinshaw, M D) **353,** 276
Cyclophilin. Immunosuppression: Binding by design, *News and views,* (Ringe, D) **351,** 185
Solution structure of the major binding protein for the immunosuppressant FK506, *Letter to Nature,* (Moore, J M, Peattie, D A, Fitzgibbon, M J and Thomson, J A) **351,** 248
Cyclosporin A. Structure of human cyclophilin and its binding site for cyclosporin A determined by X-ray crystallography and NMR spectroscopy, *Letter to Nature,* (Kallen, J, Spitzfaden, C, Zurini, M G M, Wider, G, Widmer, H, Wüthrich, K and Walkinshaw, M D) **353,** 276
Cyclosporin. Immunosuppression: Binding by design, *News and views,* (Ringe, D) **351,** 185
Solution structure of the major binding protein for the immunosuppressant FK506, *Letter to Nature,* (Moore, J M, Peattie, D A, Fitzgibbon, M J and Thomson, J A) **351,** 248
Cystic fibrosis. Activation of chloride channels in normal and cystic fibrosis airway epithelial cells by multifunctional calcium/calmodulin-dependent protein kinase, *Letter to Nature,* (Wagner, J A, Cozens, A L, Schulman, H, Gruenert, D C, Stryer, L and Gardner, P) **349,** 793
Altered chloride ion channel kinetics associated with the ΔF508 cystic fibrosis mutation, *Letter to Nature,* (Dalemans, W, Barbry, P, Champigny, G, Jallat, S, Dott, K, Dreyer, D, Crystal, R G, Pavirani, A, Lazdunski, M and Lecocq, J-P) **354,** 526
Counter current, *News and views,* **353,** 21
Cystic fibrosis: Back to the chloride channel, *News and views,* (Frizzell, R A and Cliff, W H) **350,** 277
Cystic fibrosis: Acidification indication, *News and views,* (Weish, M J) **352,** 23
Cystic fibrosis: Channelling our thoughts, *News and views,* (Higgins, C F and Hyde, S C) **352,** 194
Cystic fibrosis: Keeping open options, *News and views,* (Wine, J J) **354,** 503
Defective acidification of intracellular organelles in cystic fibrosis, *Letter to Nature,* (Barasch, J, Kiss, B, Prince, A, Saiman, L, Gruenert, D and Al-Awqati, Q) **352,** 70
Cytochrome c. Supersalt, *News and views,* **352,** 110
Cytochromes. Electron transfer: Switches in enzymes, *News and views,* (Halliwell, B) **354,** 191
Cytokeratins. Slimier slime, *News and views,* **352,** 191
Cytokines. Cytokine, *journal review by* Cushley, W., (Durum, S and Duff, G *editors*) **353,** 465
Signalling and superinduction, *Scientific correspondence,* (Mahadevan, L C and Edwards, D R) **349,** 747
Cytokinesis. Microtubule translocation in the cytokinetic apparatus of cultured tobacco cells, *Letter to Nature,* (Asada, T, Sonobe, S and Shibaoka, H) **350,** 238
Cytoplasmic incompatibility. Rapid spread of an inherited incompatibility factor in California *Drosophila*, *Letter to Nature,* (Turelli, M and Hoffmann, A A) **353,** 440
Cytoskeleton. Cell biology: Microtubules get the chop, *News and views,* (Hollenbeck, P J and Dentler, W L) **350,** 378
Cell biology: Probing the plant cytoskeleton, *Dactylium dendroides* . (Lloyd, C) **350,** 189
Coalignment of vimentin intermediate filaments with microtubules depends on kinesin, *Letter to Nature,* (Gyoeva, F K and Gelfand, V I) **353,** 445
Decreased osmotic stability of dystrophin-less muscle cells from the mdx mouse, *Letter to Nature,* (Menke, A and Jockusch, H) **349,** 69
Cytostatic factor. Independent inactivation of MPF and cytostatic factor (Mos) upon fertilization of Xenopus eggs, *Letter to Nature,* (Watanabe, N, Hunt, T, Ikawa, Y and Sagata, N) **352,** 247
Czechoslovakia, pollution. Czechoslovak environment, *Correspondence,* (Nondek, L) **354,** 180
Czechoslovakia, research institutes. Eastern Europe: Doors are opened to advanced study, *News,* (Dickman, S) **349,** 358
Daedalus. Daedalus: A sideways move, *News and views,* (Jones, D) **353,** 216
Daedalus: Arresting waste, *News and views,* (Jones, D) **354,** 24
Daedalus: Automatic marks, *News and views,* (Jones, D) **352,** 197
Daedalus: Bacterial choirs, *News and views,* (Jones, D) **354,** 112
Daedalus: Bespoke flight, *News and views,* (Jones, D) **350,** 278
Daedalus: Broken dreams, *News and views,* (Jones, D) **354,** 270
Daedalus: Cash on the rail, *News and views,* (Jones, D) **353,** 706
Daedalus: Casting the stone, *News and views,* (Jones, D) **354,** 360
Daedalus: Dead Heat, *News and views,* **350,** 662
Daedalus: Deep cold, *News and views,* (Jones, D) **352,** 384
Daedalus: Desert shield, *News and views,* (Jones, D) **351,** 192
Daedalus: Diamond mill, *News and views,* (Jones, D) **350,** 384
Daedalus: Electrons on tap, *News and views,* (Jones, D) **352,** 670
Daedalus: Elevated circles, *News and views,* (Jones, D) **349,** 466
Daedalus: Eyes right!, *News and views,* (Jones, D) **352,** 287
Daedalus: Fake fur, *News and views,* (Jones, D) **352,** 572
Daedalus: Falsified teeth, *News and views,* (Jones, D) **353,** 608
Daedalus: Fixed air, *News and views,* (Jones, D) **349,** 286
Daedalus: Flesh pressure, *News and views,* (Jones, D) **349,** 22
Daedalus: Flying doctors, *News and views,* (Jones, D) **352,** 24
Daedalus: Food on the hop, *News and views,* (Jones, D) **350,** 114
Daedalus: Ghostly graphite, *News and views,* (Jones, D) **351,** 526
Daedalus: Good resolutions, *News and views,* (Jones, D) **351,** 446
Daedalus: Heavenly power, *News and views,* (Jones, D) **349,** 572
Daedalus: In two minds, *News and views,* (Jones, D) **349,** 198
Daedalus: Industrial fruit, *News and views,* (Jones, D) **353,** 120
Daedalus: Internal skin-care, *News and views,* (Jones, D) **349,** 658
Daedalus: Life after death, *News and views,* (Jones, D) **352,** 761
Daedalus: Metabolic tuning, *News and views,* (Jones, D) **354,** 192
Daedalus: New vitality, *News and views,* (Jones, D) **353,** 22
Daedalus: Nuclear ballistics, *News and views,* (Jones, D) **351,** 610

Daedalus:P Green music, *News and views*, (Jones, D) **351,** 104
Parking fine, *Correspondence*, (James, B) **353,** 691
Smart whale, *Correspondence*, (Herring, P J) **353,** 294
Dams, Lake Nyos. Lake Nyos dam threat, *Scientific correspondence*, (Lockwood, J P and Schuster, R L) **351,** 195
Daresbury accelerator. Nuclear structure physics in limbo, *News*, (Aldhous, P) **349,** 551
Dark matter. Cosmology: Cold dark matter makes an exit, *News and views*, (Lindley, D) **349,** 14
Cosmology: Dark dark matter, *News and views*, (Hogan, C J) **351,** 96
Galactic halo gamma rays, *Scientific correspondence*, (Shaham, J) **354,** 439
Is cold dark matter really dead?, *Scientific correspondence*, (Frenk, C S and Kaiser, N) **351,** 22
Large-scale structure in the Universe, *Review article*, (Kashlinsky, A and Jones, B J T) **349,** 753
Notes from underground, *News and views*, **350,** 656
Test of the decaying dark matter hypothesis using the Hopkins Ultraviolet Telescope, *Letter to Nature*, (Davidsen, A F, Kriss, G A, Ferguson, H C, Blair, W P, Bowers, C W, Dixon, W V, Durrance, S T, Feldman, P D, Henry, R C, Kimble, R A, Kruk, J W, Long, K S, Moos, H W and Vancura, O) **351,** 128
The density field of the local Universe, *Article*, (Saunders, W, Frenk, C, Rowan-Robinson, M, Efstathiou, G, Lawrence, A, Kaiser, N, Ellis, R, Crawford, J, Xia, X-Y and Parry, I) **349,** 32
The Great Attractor: do galaxies trace the large-scale mass distribution?, *Review article*, (Dressler, A) **350,** 391
The shadows of creation: Dark matter and the structure of the Universe, *book review by* Rowan-Robinson, M. (Riordan, M and Schramm, D N) **352,** 677
Darwin, Charles. One long argument: Charles Darwin and the genesis of evolutionary thought, *book review by* Bowler, P J., (Mayr, E) **353,** 713
Darwinism. Beyond natural selection, *book review by* Smith, J M. (Wesson, R) **352,** 206
Is God careless?, *Correspondence*, (Austerberry, C F) **354,** 101
Data handling. Human genome databases at the crossroads, *News*, (Aldhous, P) **352,** 94
Data recording. Human factors, *Correspondence*, (Cox, N J) **353,** 597
Data storage. Climate data: Too much of a good thing, *News*, (Anderson, C) **349,** 553
Databanks. Free trade in human sequence data?, *Opinion*, **354,** 171
Dating, U-Th. Sea-level constraints, *Scientific correspondence*, (Lambeck, K and Nakada, M) **350,** 115
DDI, approval by FDA. AIDS drugs: DDI nears approval, *News*, (Aldhous, P) **352,** 269
de Gennes, Pierre-Gilles. Nobel Prize: Physics: A gift for unravelling complexity, *News*, (Ball, P) **353,** 689
Dead Sea Scrolls. Archaeology: Dead Sea Scrolls released to scholars, *News*, (Culliton, B J) **353,** 291
Dead Sea Scrolls, *Opinion*, **353,** 96
Deafness, treatment. Better speech recognition with cochlear implants, *Letter to Nature*, (Wilson, B S, Finley, C C, Lawson, D T, Wolford, R D, Eddington, D K and Rabinowitz, W M) **352,** 236
Death, assisted. Final exit, *Correspondence*, (Overmyer, M) **353,** 788
Debt-for-science trades. Bad loans, good science, *News*, (Anderson, C) **353,** 293
Deep earthquakes. Aseismicity in the lower mantle by superplasticity of the descending slab, *Letter to Nature*, (Ito, E and Sato, H) **351,** 140
Fast rise times and the physical mechanism of deep earthquakes, *Letter to Nature*, (Houston, H and Williams, Q) **352,** 520
Insignificant isotropic component in the moment tensor of deep earthquakes, *Letter to Nature*, (Kawakatsu, H) **351,** 50
Relationship of deep seismicity to the thermal structure of subducted lithosphere, *Letter to Nature*, (Helffrich, G and Brodholt, J) **353,** 252
Deep-sea biology. Deep-sea biology: A natural history of organisms at the deep-sea floor, *book review by* Southward, A J. (Gage, J D and Tyler, P A) **352,** 294
Deep-sea drilling. Ocean Drilling Program: Ancient ocean-climate links, *News and views*, (Leg 138 shipboard Scientific Party) **353,** 304
Defects, solid-state. High-temperature superconductors: Whorls upon whorls, *News and views*, (Garwin, L) **350,** 277
Screw dislocations in high-T_c films, *Scientific correspondence*, (Gerber, C, Anselmett, D, Bednorz, J G, Mannhart, J and Schlom, D G) **350,** 279
Defence Advanced Research Projects Agency, US. US research policy: A new role for DARPA?, *News*, (Pool, R) **353,** 198
Defence research, UK. Defence research: UK military favoured, *News*, (Maddox, J) **351,** 512
Defence, animal. Slimier slime, *News and views*, **352,** 191
Defence, Europe. Europe's non-defence, *Opinion*, **349,** 550
Defence, US. Underflying Brilliant Pebbles, *Scientific correspondence*, (Wright, D C and Gronlund, L) **350,** 663
Deforestation. Amazonia: Deforestation rate is falling, *News*, (Bonalume, R) **350,** 368
Degeneries. Neurobiology: Nematodes in nervous decline, *News and views*, (Hodgkin, J) **349,** 564
Deglaciation, lithospheric stress. Lower-mantle viscosity constrained by seismicity around deglaciated regions, *Letter to Nature*, (Spada, G, Yuen, D A, Sabadini, R and Boschi, E) **351,** 53
Deglaciation, magmatism. Increased mantle melting beneath Snaefellsjökull volcano during Late Pleistocene deglaciation, *Letter to Nature*, (Hardarson, B S and Fitton, J G) **353,** 62
Deglaciation. Climate change: A stop-start ocean conveyer, *News and views*, (Jones, G A) **349,** 364
Enhanced particle fluxes in Bay of Bengal induced by injection of fresh water, *Letter to Nature*, (Ittekkot, V, Nair, R R, Honko, S, Ramaswamy, V, Bartsch, M, Manganini, S and Desai, B N) **351,** 385
Initiation of Fennoscandian ice-sheet retreat during the last deglaciation, *Letter to Nature*, (Lehman, S J, Jones, G A, Keigwin, L D, Andersen, E S, Butenko, G and Ostmo, S-R) **349,** 513
Dementia. Amyloid plaques, neurofibrillary tangles and neuronal loss in brains of transgenic mice overexpressing a C-terminal fragment of human amyloid precur, *Letter to Nature*, (Kawabata, S, Higgins, G A and Gordon, J W) **354,** 476
Dementia, *journal review by* Davies, P., (Chan-Palay, V *editor*) **353,** 462
Demography, India. Demography: Census sex puzzle, *News*, (Jayaraman, K S) **350,** 645
Demography. Designer data, *Correspondence*, (McManus, I C) **354,** 427
Energy costs of a long life, *Correspondence*, (Schidlowski, M) **353,** 294
The South answers back, *Commentary*, (Orrego, F) **353,** 596
Dendrites, mineral. Structure and growth mechanism of mineral dendrites, *Letter to Nature*, (Chopard, B, Herrmann, H J and Vicsek, T) **353,** 409
Dendritic spines. Dendritic spines as individual neuronal compartments for synaptic $CaS02+T$ responses, *Letter to Nature*, (Müller, W and Connor, J A) **354,** 73
Independent regulation of calcium revealed by imaging dendritic spines, *Letter to Nature*, (Guthrie, P B, Segal, M and Kater, S B) **354,** 76
Dendrochronology. A stable-isotope tree-ring timescale of the Late Glacial/Holocene boundary, *Letter to Nature*, (Becker, B, Kromer, B and Trimborn, P) **353,** 647
Post-glacial sea-level rise from a coral record at Huon Peninsula, Papua New Guinea, *Letter to Nature*, (Chappell, J and Polach, H) **349,** 147
The great wooden well of Kückhoven, *News and views*, (Bahn, P G) **354,** 269
Denitrification, biomass burning. Molecular nitrogen emissions from denitrification during biomass burning, *Letter to Nature*, (Kuhlbusch, T A, Lobert, J M, Crutzen, P J and Warneck, P) **351,** 135
Denitrification, sediments. Direct measurement of nitrogen gas fluxes from continental shelf sediments, *Letter to Nature*, (Devol, A H) **349,** 319
Denitrification. N_2O production in the ocean, *Scientific correspondence*, (Naqvi, S W A) **349,** 373
Density dependence. Delayed density-dependence, *Scientific correspondence*, (Hanski, I and Woiwood, I) **350,** 28
Dental development, hominids. Hominid dental development, *Scientific correspondence*, (Beynon, A D and Dean, M C) **351,** 196
Department of Energy, US. Department of Energy faces hard choices, *News*, (Pool, R) **353,** 287
US national laboratories: Staying with California labs, *News*, (Aldhous, P) **352,** 365
Depression. Cloning and expression of a functional serotonin transporter from rat brain, *Letter to Nature*, (Blakely, R D, Berson, H E, Fremeau Jr, R T, Caron, M G, Peek, M M, Prince, H K and Bradley, C C) **354,** 66
Depression, treatment of. Expression cloning of a cocaine- and antidepressant-sensitive human noradrenaline transporter, *Letter to Nature*, (Pacholczyk, T, Blakely, R D and Amara, S G) **350,** 350
Depth perception. Perceiving depth, *Scientific correspondence*, (Lazarides, M) **351,** 106
Depth, vision. Depth is encoded in the visual cortex by a specialized receptive field structure, *Letter to Nature*, (DeAngelis, G C, Ohzawa, I and Freeman, R D) **352,** 156
Descartes, Rene. The magic of numbers and motion: The scientific career of René Descartes, *book review by* Hall, A R. (Shea, W R) **352,** 675
Detoxification. Recognition and plasma clearance of endotoxin by scavenger receptors, *Letter to Nature*, (Hampton, R Y, Golenbock, D T, Penman, M, Krieger, M and Raetz, C R H) **352,** 342
Structure of the detoxification catalyst mercuric ion reductase from *Bacillus* sp. strain RC607, *Letter to Nature*, (Schiering, N, Kabsch, W, Moore, M J, Distefano, M D, Walsh, C T and Pai, E F) **352,** 168
Deuterium, cosmology. Faint hope, *News and views*, **352,** 18
Developing countries, research. Bad loans, good science, *News*, (Anderson, C) **353,** 293
Developing countries, scientific journals. Chauvinism, *Correspondence*, (Mehrotra, K N) **354,** 179
Developing world, scientific literature. Spreading the word, *Opinion*, (Salam, A) **353,** 457
Development, plants. Mutations affecting body organization in the *Arabidopsis* embryo, *Article*, (Mayer, U, Ruiz, R A T, Berleth, T, Miséra, S and Jürgens, G) **353,** 402
Plant genetics: Abnormal developments, *News and views*, (Meyerowitz, E M) **353,** 385
Developmental biology, plants. The developmental gene *Knotted-1* is a member of a maize homeobox gene family, *Letter to Nature*, (Vollbrecht, E, Veit, B, Sinha, N and Hake, S) **350,** 241
Developmental biology. *Drosophila genes* Posteria Sex Combs and *Suppressor two of zeste* encode proteins with homology to the murine *bmi-1* oncogene, *Letter to Nature*, (Brunk, B P, Martin, E C and Adler, P N) **353,** 351
Drosophila Toll and IL-1 receptor, *Scientific Correspondence*, (Gay, N J and Keith, F J) **351,** 355
WT1 mutations contribute to abnormal genital system development and hereditary Wilms' tumour, *Letter to Nature*, (Pelletier, J, Bruening, W, Li, F P, Haber, D A, Glaser, T and Housman, D E) **353,** 431
A deficiency of the homeotic complex of the beetle, *Letter to Nature*, (Stuart, J J, Brown, S J, Beeman, R W and Denell, R E) **350,** 72
A distinct *Hox* code for the branchial region of the vertebrate head, *Letter to Nature*, (Hunt, P, Gulisano, M, Cook, M, Sham-M-H, Faiella, A, Wilkinson, D, Boncinelli, E and Krumlauf, R) **353,** 861
A portable palette, *News and views*, **353,** 20
Alternative temporal control systems for hypodermal cell differentiation in *Drosophila*, *Letter to Nature*, (Liu, Z and Ambros, V) **350,** 162
Concentration-dependent transcriptional activation or repression by *Krüppel* from a single binding site, *Letter to Nature*, (Sauer, F and Jäckle, H) **353,** 563
Conversion by retinoic acid of anterior cells into ZPA cells in the chick wing bud, *Letter to Nature*, (Wanek, N, Gardiner, D M, Muneoka, K and Bryant, S V) **350,** 81
Demethylation of CpG islands in embryonic cells, *Letter to Nature*, (Frank, D, Keshet, I, Shani, M, Levine, A, Razin, A and Cedar, H) **351,** 239
Developmental biology: Another hit for gene targeting, *News and views*, (Wright, C and Hogan, B) **350,** 458
Developmental biology: We may not have a morphogen, *News and views*, (Brockes, J) **350,** 15
Developmental biology: A marriage is consummated, *News and views*, (Lawrence, P A and Tomlinson, A) **352,** 193
Embryonic lethality caused by mutations in basement membrane collagen of *Drosophila*, *Letter to Nature*, (Guo, X, Johnson, J J and Kramer, J M) **349,** 707
Evolutionary and developmental biology: More fecund but not so fit, *News and views*, (Godfray, H C J and Harvey, P H) **354,** 190
Expression of the homeobox *Hox-4* genes and the specification of position in chick wing development, *Article*, (Izpisúa-Belmonte, J-C, Tickle, C, Dollé, P, Wolpert, L and Duboule, D) **350,** 585
Expression pattern of zebrafish *pax* genes suggests a role in early brain regionalization, *Letter to Nature*, (Krauss, S, Johansen, T, Korzh, V and Fjose, A) **353,** 267
Gene activation: An agent of suppression, *News and views*, (Herr, W) **350,** 554
Homeobox gene expression correlated with the bifurcation process of limb cartilage development, *Letter to Nature*, (Yokouchi, Y, Sasaki, H and Kuroiwa, A) **353,** 443
I-POU: a POU-domain protein that inhibits neuron-specific gene activation, *Article*, (Treacy, M N, He, X and Rosenfeld, M G) **350,** 577
Introduction of a subtle mutation into the *Hox-2.6* locus in embryonic stem cells, *Letter to Nature*, (Hasty, P, Ramírez-Solis, R, Krumlauf, R and Bradley, A) **350,** 243
Key residues involved in calcium-binding motifs in EGF-like domains, *Letter to Nature*, (Handford, P A, Mayhew, M, Baron, M, Winship, P R, Campbell, I D and Brownlee, G G) **351,** 164
Localized RNA An3 may encode an ATP-dependent RNA helicase, *Letter to Nature*, (Gururajan, R, Perry-O'Keefe, H, Melton, D A and Weeks, D L) **349,** 717
Male development of chromosomally female mice transgenic for *Sry*, *Article*, (Koopman, P, Gubbay, J, Vivian, N, Goodfellow, P and Lovell-Badge, R) **351,** 117
Modern myth, *Correspondence*, (Pritchard, D) **354,** 179
Out on a limb, *Scientific correspondence*, (Newman, S A) **354,** 26
Out on a limb: Reply, *Scientific correspondence*, (Slack, J M W) **354,** 26
Parental imprinting of the mouse H19 gene, *Letter to Nature*, (Bartolomei, M S, Zemel, S and Tilghman, S M) **351,** 153
Pre-existent pattern in *Xenopus* animal pole cells revealed by induction with activin, *Letter to Nature*, (Sokol, S and

Melton, D A) **351,** 409
Regionally restricted developmental defects resulting from targeted disruption of the mouse homeobox gene *hox-1.5*, *Article,* (Chisaka, O and Capecchi, M R) **350,** 473
Regulation of cellular responsiveness to inductive signals in the developing *C. elegans* nervous system, *Letter to Nature,* (Waring, D A and Kenyon, C) **350,** 712
Relation of an array of early-dirrerentiating cones to the photoreceptor mosaic in the primate retina, *Letter to Nature,* (Wikler, K C and Rakic, P) **351,** 397
Retinoic acid induces polarizing activity but is unlikely to be a morphogen in the chick limb bud, *Letter to Nature,* (Noji, S, Nohno, T, Koyama, E, Muto, K, Ohyama, K, Aoki, Y, Tamura, K, Ohsugi, K, Ide, H, Taniguchi, S and Saito, T) **350,** 83
Role of the *Drosophila patched* gene in positional signalling, *Letter to Nature,* (Ingham, P W, Taylor, A M and Nakano, Y) **353,** 184
Seminars in developmental biology, *journal review by* Akam, M., **353,** 465
Sequence similarity between the mammalian *bmi-1* proto-oncogene and the *Drosophila* regulatory genes *Psc* and *Su(z)2*, *Letter to Nature,* (van Lohuizen, M, Frasch, M, Wientjens, E and Berns, A) **353,** 353
Sex determination: The making of male mice, *News and views,* (McLaren, A) **351,** 96
The *int-2* proto-oncogene is responsible for induction of the inner ear, *Letter to Nature,* (Represa, J, León, Y, Miner, C and Giraldez, F) **353,** 561
The cyclops mutation blocks specification of the floor plate of the zebrafish central nervous system, *Letter to Nature,* (Hatta, K, Kimmel, C B, Ho, R K and Walker, C) **350,** 339
The development and evolution of butterfly wing patterns, (Nijhout, H F) *book review by* Mallet, J. **354,** 368
The war of the whorls: genetic interactions controlling flower development, *Review article,* (Coen, E S and Meyerowitz, E M) **353,** 31
Unrestricted expression of the *Drosophila* gene *patched* allows a normal segment polarity, *Letter to Nature,* (Sampedro, J and Guerrero, I) **353,** 187
Zinc and GABA in developing brain, *Scientific correspondence,* (Ben-Ari, Y and Cherubini, E) **353,** 220

Developmental genetics. A cell autonomous function of *Brachyury* in *T/T* embryonic stem cell chimaras *Letter to Nature,* (Rashbass, P, Cooke, L A, Herrmann, B G and Beddington, R S P) **353,** 348
Mouse *Small eye* results from mutations in a paired-like homeobox-containing gene, *Letter to Nature,* (Hill, R E, Favor, J, Hogan, B L M, Ton, C C T, Saunders, G F, Hanson, I M, Prosser, J, Jordan, T, Hastie, N D and van Heyningen, V) **354,** 522

Developmental neurobiology. Comments on developmental neurobiology, *journal review by* Hanley, M., (Prochiantz, A *editor*) **353,** 463

Developmental psychology. Developmental psychology: Face to face with babies, *News and views,* (Bryant, P E) **354,** 19

DFG president, Germany. German scienc DFG selects new president, *News,* (Dickman, S) **352,** 178

Diabetes mellitus. Receptor binding redefined by a structural switch in a mutant human insulin, *Letter to Nature,* (Hua, Q X, Shoelson, S E, Kochoyan, M and Weiss, M A) **354,** 238

Diabetes research. Structure of the insulin receptor substrate IRS-1 defines a unique signal transduction protein, *Letter to Nature,* (Sun, X J, Rothenberg, P, Kahn, C R, Backer, J M, Araki, E, Wilden, P A, Cahill, D A, Goldstein, B J and White, M F) **352,** 73

Diabetes, murine. An explanation for the protective effect of the MHC class II I-E molecule in murine diabetes: Correction, *Letter to Nature,* (Reich, E-P, Sherwin, R S, Kanagawa, O and Janeway, C A) **352,** 88

Diabetes. Identification and mapping to chromosome 1 of a susceptibility locus for periinsulitis in non-obese diabetic mice, *Letter to Nature,* (Garchon, H-J, Bedossa, P, Eloy, L and Bach, J-F) **353,** 260
Insulin-IGF2 region on chromosome 11p encodes a gene implicated in HLA-DR4-dependent diabetes susceptibility, *Letter to Nature,* (Julier, C, Hyer, R N, Davies, J, Merlin, F, Soularue, P, Briant, L, Cathelineau, G, Deschamps, I, Rotter, J I, Froguel, P, Boitard, C, Bell, J I and Lathrop, G M) **354,** 155
Sweet success, *News and views,* **350,** 112
Type 1 diabetes in mice is linked to the interleukin-1 receptro and *Lsh/Ity/Bcg* genes on chromosome 1, *Letter to Nature,* (Cornall, R J, Prins, J-B, Todd, J A, Pressey, A, DeLarato, N H, Wicker, L S and Peterson, L B) **353,** 262

Diagenesis, sediments. Enrichment in saturated compounds of Black Sea interfacial sediment, *Letter to Nature,* (Beier, J A, Wakeham, S G, Pilskaln, C H and Honjo, S) **351,** 642

Diagnosis. Dead right, *News and views,* **351,** 190

Diamond films. Activated CS170T and diamond, *Scientific correspondence,* (Meilunas, R, Chang, R P H, Liu, S and Kappes, M M) **354,** 271

Diamond inclusions. High internal pressures in diamond fluid inclusions determined by infrared absorption, *Letter to Nature,* (Navon, O) **353,** 746
Isotope evidence for the involvement of recycled sediments in diamond formation, *Letter to Nature,* (Eldridge, C S, Compston, W, Williams, I S, Harris, J W and Bristow, J W) **353,** 649
Mantle geochemistry: Diamonds deliver the dirt, *News and views,* (Gurney, J J) **353,** 601

Diamond, phase transitions. Shock-induced martensitic phase transformation of oriented graphite to diamond, *Letter to Nature,* (Erskine, D J and Nellis, W J) **349,** 317

Diamond, semiconducting. Semiconductors: Dawn of the diamond chip, *News and views,* (Brown, L M) **350,** 561

Diamonds, carbonado. Constraints from noble-gas contents on the origin of carbonado diamonds, *Letter to Nature,* (Ozima, M, Zashu, S, Tomura, K and Matsuhisa, Y) **351,** 472

Diamonds, Cretaceous-Tertiary boundary. Nanometre-size diamonds in the Cretaceous/Tertiary boundary clay of Alberta, *Letter to Nature,* (Carlisle, D G and Braman, D R) **352,** 708

Diamonds, meteoritic. Nanometre-size diamonds in the Cretaceous/Tertiary boundary clay of Alberta, *Letter to Nature,* (Carlisle, D G and Braman, D R) **352,** 708

Diapirs. A three-dimensional seismic image of the crust and upper mantle beneath the Kenya rift, *Article,* (Green, W V, Achauer, U and Meyer, R P) **354,** 199

Diatom stratigraphy. Reconstruction of past changes in salinity and climate using a diatom-based transfer function, *Letter to Nature,* (Fritz, S C, Juggins, S, Battarbee, R W and Engstrom, D R) **352,** 706

Dichalgogenides. Rapid solid-state synthesis of materials from molybdenum disulphide to refractories, *Letter to Nature,* (Bonneau, P R, Jarvis, R F and Kaner, R B) **349,** 510

Dideoxyinosine, anti-AIDS drug. AIDS drugs: DDI nears approval, *News,* (Aldhous, P) **352,** 269

Dielectric media. Disordered systems: Catching moonbeams, *News and views,* (Pendry, J B) **351,** 438
Optics: Photonic insulators, *News and views,* (Pendry, J B) **354,** 435

Dielectrics. Hope for photonic bandgaps, *Scientific correspondence,* (Yablonovitch, E and Leung, K M) **351,** 278

Diet, intelligence. Diet and IQ, *Scientific correspondence,* (Schoenthaler, S) **352,** 292

Diffraction, X-ray. Tracing the conversion of aurichalcite to a copper catalyst by combined X-ray absorption and diffraction, *Letter to Nature,* (Couves, J W, Thomas, J M, Waller, D, Jones, R H, Dent, A J, Derbeyshire, G E and Greaves, G N) **354,** 465

Diffuse interstellar bands. Diffuse bands in emission, *Scientific correspondence,* (Sarre, P J) **351,** 356
Red Rectangle emission, *Scientific correspondence,* (Fossey, S J) **353,** 393

Diffuse X-ray background. High-energy background radiation from quiescent γ-ray burst sources, *Letter to Nature,* (van Paradijs, J) **353,** 730

Diffusion, liquids. Classical liquid in a box, *News and views,* (Maddox, J) **350,** 105

Diffusion, magma. Water diffusion in a basaltic melt, *Letter to Nature,* (Zhang, Y and Stolper, E M) **351,** 306

Diffusion, porous media. Diffraction-like effects in NMR diffusion studies of fluids in porous solids, *Letter to Nature,* (Callaghan, P T, Coy, A, MacGowan, D, Packer, K J and Zelaya, F O) **351,** 467
NMR: Diffusion and diffraction, *News and views,* (Cotts, R M) **351,** 443

Diffusion, solid-state. Effect of fluorine on solid-state alkali interdiffusion rates in feldspar, *Letter to Nature,* (Snow, E and Kidman, S) **349,** 231

Diffusion. A bigger can of worms?, *Scientific correspondence,* (Malone, P C and Wheatley, D N) **349,** 373

DiGeorge's syndrome. Regionally restricted developmental defects resulting from targeted disruption of the mouse homeobox gene, *Article,* (Chisaka, O and Capecchi, M R) **350,** 473

Dihydropyridine receptor. Primary structure and functional expression from complementary DNA of a brain calcium channel, *Article,* (Mori, Y, Friedrich, T, Kim, M-S, Mikami, A, Nakai, J, Ruth, P, Bosse, E, Hofmann, F, Flockerzi, V, Furuichi, T, Mikoshiba, K, Imoto, K, Tanabe, T and Numa, S) **350,** 398

Dilution effects. Defence of diluted water, *Correspondence,* (Benveniste, J) **353,** 787

Dimethyl sulphide. Coherence between seasonal cycles of dimethyl sulphide, methanesulphonate and sulphate in marine air, *Letter to Nature,* (Ayers, G P, Ivey, J P and Gillett, R W) **349,** 404
Microbial degradation of methanesulphonic acid: a missing link in the biogeochemical sulphur cycle, *Letter to Nature,* (Baker, S C, Kelly, D P and Murrell, J C) **350,** 627

Dimethylsulphide, atmospheric. Ice-core record of oceanic emissions of dimethylsulphide during the last climate cycle, *Letter to Nature,* (Legrand, M, Feniet-Saigne, C, Saltzman, E S, Germain, C, Barkov, N I and Petrov, V N) **350,** 144
Impact of oceanic sources of biogenic sulphur on sulphate aerosol concentions at Mawson, Antarctica, *Letter to Nature,* (Prospero, J M, Savoie, D L, Saltzman, E S and Larsen, R) **350,** 221
Seasonal relationship between cloud condensation nuclei and aerosol methanesulphonate in marine air, *Letter to Nature,* (Ayers, G P and Gras, J L) **353,** 834

Dimorphism, sexual. Extreme sexual dimorphism in a Miocene hominoid, *Letter to Nature,* (Kelley, J and Qinghua, X) **352,** 151

Dimorphism. Palaeoanthropology: Teeth, sex and species, *News and views,* (Martin, L) **352,** 111

Dinosaurs. Dinosaurs, spitfires, & sea dragons, *book review by* Gee, H. (McGowan, C) **351,** 361

Diodes. Semiconductors: Dawn of the diamond chip, *News and views,* (Brown, L M) **350,** 561

Dioxin, health hazards. Dioxin damages denied, *Opinion,* **351,** 591
US government orders new look at dioxin, *News and views,* (Culliton, B J) **352,** 753

Diploblasts. Evolution: Two-layered awakening, *News and views,* (Barnes, R S K) **350,** 561

Diploidy. Evolution: When to be diploid, *News and views,* (Charlesworth, B) **351,** 273
Haploidy or diploidy: which is better?, *Letter to Nature,* (Kondrashov, A S and Crow, J F) **351,** 314
Transition from haploidy to diploidy, *Letter to Nature,* (Perrot, V, Richerd, S and Valéro, M) **351,** 315

Dirac, P A M. Dirac: A scientific biography, *book review by* Kemmer, N. (Kragh, H S) **349,** 750

Disaster prevention. Disaster prevention: Quake raises doubts about Indian dam, *News,* (Jayaraman, K S) **354,** 96

Disaster protection, Tokyo. Disaster response: Tokyo gears up for calamity, *News,* (Swinbanks, D) **351,** 260

Disasters. Many catastrophes too many, *Opinion,* **351,** 171

Discotic liquid crystals. Charge migration in supramolecular stacks of peripherally substituted porphryins, *Letter to Nature,* (Schouten, P G, Warman, J M, de Haas, M P, Fox, M A and Pan, H-L) **353,** 736

Disease. Disease, mortality and population in transition: Change in England since the eighteenth century as part of a global phenomenon, *book review by* Porter, R. (Mercer, A) **349,** 663

Disk galaxies. A dynamical instability of bars in disk galaxies, *Letter to Nature,* (Raha, N, Sellwood, J A, James, R A and Kahn, F D) **352,** 411

Disordered media, localization. Microwave localization by two-dimensional random scattering, *Letter to Nature,* (Dalichaouch, R, Armstrong, J P, Schultz, S, Platzman, P M and McCall, S L) **354,** 53

Disordered solids. Medium-range order in the cation distribution of a calcium silicate glass, *Article,* (Gaskell, P H, Eckersley, M C, Barnes, A C and Chieux, P) **350,** 675
Solid-state physics: Glasses come to order, *News and views,* (Jeanloz, R and Williams, Q) **350,** 659

Disordered systems. Disordered systems: Catching moonbeams, *News and views,* (Pendry, J B) **351,** 438

Displacement chromatography. Displacement chromatography, *Product Review,* (Cramer, S M) **351,** 251

Dissolution, solids. Solubility and reaction kinetics of solution-solid reactions determined by *in situ* observations, *Letter to Nature,* (Ohmoto, H, Hayashi, K, Onuma, K, Tsukamoto, K, Kitakaze, A, Nakano, Y and Yamamoto, Y) **351,** 634

Dissolved organic carbon. High turnover rates of dissolved organic carbon during a spring phytoplankton bloom, *Letter to Nature,* (Kirchman, D L, Suzuki, Y, Garside, C and Ducklow, H W) **352,** 612
Photochemical degradation of dissolved organic carbon and its impact on the oceanic carbon cycle, *Letter to Nature,* (Mopper, K, Zhou, X, Kieber, R J, Kieber, D J, Sikorski, R J and Jones, R D) **353,** 60

Divergence. DNA strand asymmetry, *Scientific correspondence,* (Wu, C-I) **352,** 114

DNA amplification. Bone hard, *News and views,* **351,** 16
Nucleic acid sequence-based amplification, *Product Review,* (Compton, J) **350,** 91

DNA cleavage. Single-site enzymatic cleavage of yeast genomic DNA mediated by triple helix formation, *Letter to Nature,* (Strobel, S A and Dervan, P B) **350,** 172

DNA fingerprinting, India. DNA fingerprinting in India, *Scientific correspondence,* (Das, A) **350,** 387

DNA fingerprinting. DNA fingerprinting: New variations on the theme, *News and views,* (Farr, C J and Goodfellow, P N) **354,** 184
Imprints on DNA fingerprints, *Scientific correspondence,* (Shapiro, M M) **353,** 121
Minisatellite repeat coding as a digital approach to DNA typing, *Article,* (Jeffreys, A J, MacLeod, A, Tamaki, K, Neil, D L and Monckton, D G) **354,** 204

DNA methylation. Demethylation of CpG islands in embryonic cells, *Letter to Nature,* (Frank, D, Keshet, I, Shani, M, Levine, A, Razin, A and Cedar, H) **351,** 239
Human genetics: Methylation and the fragile X, *News and views,* (Craig, I) **349,** 742

DNA profiles. Trivial error, *Scientific correspondence,* (Evett, I W) **354,** 114

DNA recombination. Formation and resolution of recombination intermediates by *E. coli* RecA and RuvC proteins, *Article,* (Dunderdale, H J, Benson, F E, Parsons, C A, Sharples, G J, Lloyd, R G and West, S C) **354,** 506
TFIIS and strand-transfer proteins, *Scientific correspondence,* (Kipling, D and Kearsey, S E) **353,** 509

DNA repair. DNA repair: Seven genes for three diseases, *News and views,* (Wood, R D) **350,** 190
The *vsr* gene product of *E. coli* K-12 is a strand- and sequence-specific DNA mismatch endonuclease, *Letter to Nature,* (Hennecke, F, Kolmar, H, Bründi, K and Fritz, H-J) **353,** 776

DNA replication. Activation of BPV-1 replication *in vitro* by the transcription factor E2, *Article,* (Uang, L, Li, R, Mohr, I J, Clark, R and Botchan, M R) **353,** 628
Role for cyclin A in the dependence of mitosis on completion of DNA replication, *Letter to Nature,* (Walker, D H and Maller, J L) **354,** 314

DNA sequencing, Japan. DNA research institute to open in Japan, *News*, (Swinbanks, D) **349,** 640

DNA sequencing. DNA sequence: The journal of DNA sequencing and mapping, *journal review by* Sommer, S S., (Barrell, B *editor*) **353,** 468

DNA sequencing: Complementary questions, *News and views*, (Little, P) **352,** 20

High-speed DNA sequencing by capillary gel electrophoresis, *Product Review*, (Smith, L M) **349,** 812

The new automated DNA sequencer, *News*, (Swinbanks, D) **351,** 593

DNA structure. Base-pairing shift in the major groove of (CA)S1nT tracts by B-DNA crystal structures, *Letter to Nature*, (Timsit, Y, Vilbois, E and Moras, D) **354,** 167

DNA structures. Inhibition of telomerase by G-quartet DNA structures, *Letter to Nature*, (Zahler, A M, Williamson, J R, Cech, T R and Prescott, D M) **350,** 718

DNA synthesis. Coordination of expression of DNA synthesis genes in budding yeast by a cell-cycle regulated *trans* factor, *Letter to Nature*, (Lowndes, N F, Johnson, A L and Johnston, L H) **350,** 247

DNA tumour viruses. A cellular protein that competes with SV40 T antigen for binding to the retinoblastoma gene product, *Letter to Nature*, (Huang, S, Lee, W-H and Lee, E Y-H P) **350,** 160

Adenovirus E1a prevents the retinoblastoma gene product from complexing with a cellular transcription factor, *Letter to Nature*, (Bandara, L R and La Thangue, N B) **351,** 494

The p53 tumour suppressor gene, *Review article*, (Levine, A J, Momand, J and Finlay, C A) **351,** 453

DNA typing, museum specimens. DNA typing of museum birds, *Scientific correspondence*, (Ellegren, H) **354,** 113

DNA typing. PCR DNA typing for forensics, *Correspondence*, (Dallapiccola, B, Novelli, G and Spinella, A) **354,** 179

DNA viruses. Acquisition of the human adeno-associated virus type-2 *rep* gene by human herpesvirus type-6, *Letter to Nature*, (Thomson, B J, Efstathiou, S and Honess, R W) **351,** 78

Structure of simian virus 40 at 3.8-Å resolution, *Article*, (Liddington, R C, Yan, Y, Moulai, J, Sahli, R, Benjamin, T L and Harrison, S C) **354,** 278

DNA, asymmetry. DNA strand asymmetry, *Scientific correspondence*, (Wu, C-I) **352,** 114

DNA, bone. Bone hard, *News and views*, **351,** 16

DNA, camouflaged. Camouflaged DNA, *Scientific correspondence*, (Griffin, B E) **354,** 25

DNA, knotted. Get knotted, *News and views*, **353,** 303

DNA, mitochondrial. Evolution: Matriarchal liberation, *News and views*, (Avise, J C) **352,** 192

Paternal inheritance of mitochondrial DNA in mice, *Letter to Nature*, (Gyllensten, U, Wharton, D, Josefsson, A and Wilson, A C) **352,** 255

DNA, parasitic. Lice and easy, *Correspondence*, (Playford, M and Kamiya, M) **354,** 9

DNA, quantum mechanics. Schrodinger's quantum cat, *Scientific correspondence*, (Percival, I) **351,** 357

DNA, recombinant. Biotechnology: Yellow light on L-tryptophan, *News*, (Aldhous, P) **353,** 490

DNA, single-stranded. Get knotted, *News and views*, **353,** 303

DNA, triple helix. Single-site enzymatic cleavage of yeast genomic DNA mediated by triple helix formation, *Letter to Nature*, (Strobel, S A and Dervan, P B) **350,** 172

DNA, triple-stranded. Triple helix stabilization?, *Scientific correspondence*, (Stavnezer, J) **351,** 447

Triple helix stabilization? Reply, *Scientific correspondence*, (Reaban, M E and Griffin, J A) **351,** 448

DNA-binding proteins. A structural taxonomy of DNA-binding domains, *Review article*, (Harrison, S C) **353,** 715

Concentration-dependent transcriptional activation or repression by *Kruppel* from a single binding site, *Letter to Nature*, (Sauer, F and Jäckle, H) **353,** 563

DNA-binding properties of the product of the testis determining gene and a related protein, *Letter to Nature*, (Nasrin, N, Buggs, C, Kong, X F, Carnazza, J, Goebl, M and Alexander-Bridges, M) **354,** 317

Function of DnaJ and DnaK as chaperones in origin-specific DNA binding by RepA, *Letter to Nature*, (Wickner, S, Hoskins, J and McKenney, K) **350,** 165

Gene activation: An agent of suppression, *News and views*, (Herr, W) **350,** 554

Generating yeast transcriptional activators containing no yeast protein sequences, *Letter to Nature*, (Ruden, D M, Ma, J, Li, Y, Wood, K and Ptashne, M) **350,** 250

Generation of p50 subunit of NF-κB by processing of p105 through an ATP-dependent pathway, *Letter to Nature*, (Fan, C-M and Maniatis, T) **354,** 395

I-POU: a POU-domain protein that inhibits neuron-specific gene activation, *Article*, (Treacy, M N, He, X and Rosenfeld, M G) **350,** 577

Processing of the precursor of NF-κB by the HIV-1 protease during acute infection, *Letter to Nature*, (Rivière, Y, Blank, V, Kourilsky, P and Israël, A) **350,** 625

Transcription: When the CAP fits bent DNA, *News and views*, (Lilley, D M J) **354,** 359

DNA. DNA science: A first course in recombinant DNA technology, *book review by* Struhl, K. (Micklos, D and Freyer, G) **351,** 360

Modern myth, *Correspondence*, (Pritchard, D) **354,** 179

Nucleic acids in chemistry and biology, *book review by* Gumport, R I. (Blackburn, G M and Gait, M J) **350,** 667

Sinister change, *Correspondence*, (Tessman, I) **350,** 184

Synthesis from DNA of a molecule with the connectivity of a cube, *Letter to Nature*, (Chen, J and Seeman, N C) **350,** 631

Doctoral degrees. A thesis for all seasons, *Commentary*, (Breimer, L H and Mikhailidis, D P) **353,** 789

Dogs, India. India: Sterilized dogs, bulls will keep their libido, *News*, (Jayaraman, K S) **352,** 97

Dolphins. Marine cats' eyes, *News*, (Aldhous, P) **353,** 373

Dopamine receptors. Cloning of the gene for a human dopamine D_2 receptor with high affinity for the antipsychotic clozapine, *Letter to Nature*, (Van Tol, H H M, Bunzow, J R, Guan, H-C, Sunahara, R K, Seeman, P, Niznik, H B and Civelli, O) **350,** 610

Cloning of the gene for a human dopamine D_3 receptor with higher affinity for dopamine than D_2, *Letter to Nature*, (Sunahara, R K, Guan, H-C, O'Dowd, B F, Seeman, P, Laurier, L G, Ng, G, George, S R, Torchia, J, Van Tol, H H M and Niznik, H B) **350,** 614

Dopamine. Dopamine activation of the arachidonic acid cascade as a basis for D_1/D_2 receptor synergism, *Letter to Nature*, (Piomelli, D, Pilon, C, Giros, B, Sokoloff, P, Martres, M-P and Schwartz, J-C) **353,** 164

Dopamine transporters. Neuroscience: Vehicles of inactivation, *News and views*, (Snyder, S H) **354,** 187

Dosage compensation. Characterization of a murine gene expressed from the inactive X chromosome, *Letter to Nature*, (Borsani, G, Tonlorenzi, R, Simmler, M C, Dandalo, L, Arnaud, D, Capra, V, Grompe, M, Pizzuti, A, Muzny, D, Lawrence, C, Willard, H F, Avner, P and Ballabio, A) **351,** 325

Early aspects of *Caenorhabditis elegans* sex determination and dosage compensation are regulated by a zinc-finger protein, *Letter to Nature*, (Nonet, M L and Meyer, B J) **351,** 65

Down's syndrome. Mix-up, *Correspondence*, (Hodgson, S) **350,** 648

Draco interstellar cloud. Soft X-ray shadowing by the Draco cloud, *Letter to Nature*, (Burrows, D N and Mendenhall, J A) **351,** 629

X-ray astronomy: Draco's silver lining, *Drosophila* (Kahn, S M) **351,** 607

Drainage networks. An invasion percolation model of drainage network evolution, *Letter to Nature*, (Stark, C P) **352,** 423

Dried milk, boycott. Milk and coffee, *Opinion*, **352,** 266

Drift nets. Marine cats' eyes, *News*, (Aldhous, P) **353,** 373

Drosophila development. *Drosophila genes* Posteria Sex Combs and *Suppressor two of zeste* encode proteins with homology to the murine *bmi-1* oncogene, *Letter to Nature*, (Brunk, B P, Martin, E C and Adler, P N) **353,** 351

Concentration-dependent transcriptional activation or repression by *Krüppel* from a single binding site, *Letter to Nature*, (Sauer, F and Jäckle, H) **353,** 563

Role of the *Drosophila patched* gene in positional signalling, *Letter to Nature*, (Ingham, P W, Taylor, A M and Nakano, Y) **353,** 184

Sequence similarity between the mammalian *bmi-1* protooncogene and the *Drosophila* regulatory genes *Psc* and *Su(z)2*, *Letter to Nature*, (van Lohuizen, M, Frasch, M, Wientjens, E and Berns, A) **353,** 353

Unrestricted expression of the Drosophila gene *patched* allows a normal segment polarity, *Letter to Nature*, (Sampedro, J and Guerrero, I) **353,** 187

Drosophila genetics. A *Drosophila* mutant defective in extracellular calcium-dependent photoreceptor deactivation and rapid desensitization, *Letter to Nature*, (Ranganathan, R, Harris, G L, Stevens, C F and Zuker, C S) **354,** 230

A product of the *prune* locus of *Drosophila* is similar to mammalian GTPase-activating protein, *Letter to Nature*, (Teng, D H F, Engele, C M and Venkatesh, T R) **353,** 437

Drosophila, eye. Developmental biology: A marriage is consummated, *News and views*, (Lawrence, P A and Tomlinson, A) **352,** 193

Drosophila, gene nomenclature. Simplified gene nomenclature, (Chandy, K G) **352,** 26

Drosophila, incompatibility factors. Rapid spread of an inherited incompatibility factor in California *Drosophila*, *Letter to Nature*, (Turelli, M and Hoffmann, A A) **353,** 440

Drosophila. Interation of *bride of sevenless* membrane bound ligand and the *sevenless* tyrosine-kinase receptor, *Article*, (Krämer, H, Cagan, R L and Zipursky, S L) **352,** 207

Drought, Africa. Sub-Saharan Africa: Spotting famine from space, *News*, (Steele, D) **350,** 545

Drought, US. Californian drought: Water shortage pits man against nature, *News*, (Schaefer, E) **350,** 180

Drought threatens Californian bird populations, *News*, (Schaefer, E) **350,** 180

Drug delivery systems. Electrically erodible polymer gel for controlled release of drugs, *Letter to Nature*, (Kwon, I C, Bae, Y H and Kim, S W) **354,** 291

Drug development. A new type of synthetic peptide library for identifying ligand-binding activity, *Letter to Nature*, (Lam, K S, Salmon, S E, Hersh, E M, Hruby, V J, Kazmierski, W M and Knapp, R J) **354,** 82

Generation and use of synthetic peptide combinatorial libraries for basic research and drug discovery, *Letter to Nature*, (Houghton, R A, Pinilla, C, Blondelle, S E, Appel, J R, Dooley, C T and Cuervo, J H) **354,** 84

Drug legislation. Research ethics: Zagury challenges NIH report, *News*, (Aldhous, P) **352,** 180

Drug regulation. FDA vs. free speechover drug promotions, *News*, (Anderson, C) **354,** 421

When is a conference independent?, *News*, (Anderson, C) **354,** 421

Drug review process. FDA announces reforms of drug review process, *News*, (Anderson, C) **354,** 173

Drug screening. Conservation: 'Hunting licence' for drugs, *News*, (Aldhous, P) **353,** 290

Drugs legislation. RU-486 in UK, *News*, (Anderson, C) **352,** 99

Drugs, AIDS. AIDS drugs: "Too little, too late" for AZT, *News*, (Anderson, C and Gershon, D) **351,** 508

Drugs, economics. Market heats up for US biotech companies, *News*, (Gershon, D) **351,** 86

Drugs, oligonucleotide-based. Oligonucleotide drugs: A change of backbone, *News and views*, (Frank-Kamenetskii, M) **354,** 505

Duesberg, P. Duesberg on AIDS and HIV, *Correspondence*, (Duesberg, P H) **350,** 10

Dupal anomaly. Inside out, *News and views*, **349,** 657

Dwarf galaxies. Galactic evolution: Dwarf galaxies' vanishing act, *News and views*, (Lacey, C) **354,** 430

Dwarfism. Somatotroph hypoplasia and dwarfism in transgenic mice expressing a non-phosphorylatable CREB mutant, *Letter to Nature*, (Struthers, R S, Vale, W W, Arias, C, Sawchenko, P E and Montminy, M R) **350,** 622

Dynamical systems, weather. Dimension of weather and climate attractors, *Letter to Nature*, (Lorenz, E N) **353,** 241

Dynamical systems. Dynamics: Deciding the undecidable, *News and views*, (Stewart, I) **352,** 664

Dynamin-like proteins. A dynamin-like protein encoded by the yeast sporulation gene *SPO15*, *Letter to Nature*, (Yeh, E, Driscoll, R, Coltrera, M, Olins, A and Bloom, K) **349,** 713

Dynamin-like protein encoded by the *Drosophila shibire* gene associated with vesicular traffic, *Letter to Nature*, (van der Bliek, A M and Meyerowitz, E M) **351,** 411

Dynamo action, geomagnetism. Long-lived transitional states of the geomagnetic field and the two dynamo families, *Article*, (Hoffman, K A) **354,** 273

Dynamo action. Fast dynamo action in a steady chaotic flow, *Letter to Nature*, (Gilbert, A D) **350,** 483

The latitude belts of solar activity as a consequence of a boundary-layer dynamo, *Letter to Nature*, (Belvedere, G, Proctor, M R E and Lanzafame, G) **350,** 481

Dysgraphia, acquired. A selective deficit for writing vowels in acquired dysgraphia, *Letter to Nature*, (Cubelli, R) **353,** 258

Dystrophin. Decreased osmotic stability of dystrophin-less muscle cells from the mdx mouse, *Letter to Nature*, (Menke, A and Jockusch, H) **349,** 69

Muscle damage in mdx mice, *Scientific correspondence*, (Jackson, M J, McArdle, A, Edwards, R H T and Jones, D A) **350,** 664

E7 transforming protein. Cloning of cDNAs for cellular proteins that bind to the retinoblastoma gene product, *Letter to Nature*, (Defeo-Jones, D, Huang, P S, Jones, R E, Haskell, K M, Vuocolo, G A, Hanobik, M G, Huber, H E and Oliff, A) **352,** 251

Earth Remote Sensing, launch. ERS-1 off at last, *News*, (Anderson, C) **352,** 271

Earth sciences. The solid Earth: An introduction to global geophysics, (Fowler, C M R) *book review by* Royden, L. **354,** 30

Earth, evolution of. Evidence for extreme mantle fractionation in early Archaean ultramafic rocks from northern Labrador, *Article*, (Collerson, K D, Campbell, L M, Weaver, B L and Palacz, Z A) **349,** 209

Geochemistry: Young Earth like Venus?, *News and views*, (Taylor, S R) **350,** 376

Earth, origin of. Geochemistry: Solar gases in the Earth?, *News and views*, (Podosek, F A) **349,** 106

Possible solar noble-gas component in Hawaiian basalts, *Letter to Nature*, (Honda, M, McDougall, I, Patterson, D B, Doulgeris, A and Clague, D A) **349,** 149

Earthquake hazard analysis. Earthquake hazard analyhsis: Issues and insights, *book review by* Wesson, R L., (Reiter, L) **353,** 127

Earthquake lights. Light from seismic waves, *Scientific correspondence*, (Johnston, A C) **354,** 361

Earthquake prediction. Earthquake explanations, *Scientific correspondence*, (Langbein, J) **349,** 287

Earthquake hazard analyhsis: Issues and insights, *book review by* Wesson, R L., (Reiter, L) **353,** 127

Geosciences: Predicting earthquake risks, *News*, (Schaefer, E) **350,** 103

Kerb crawling, *News and views*, **353,** 796

Shake-up for earthquake prediction, *Commentary*, (Geller, R J) **352,** 275

Sixty seconds that will change the world: The coming Tokyo earthquake, *book review by* Swinbanks, D. (Hadfield, P) **352,** 205

Unpredictable earthquakes, *Scientific correspondence*, (Hamada, K) **353,** 611

Unpredictable earthquakes: Reply, *Scientific correspondence*, (Geller, R J) **353,** 612

Earthquake protection, Japan. Disaster response: Tokyo gears up for calamity, *News*, (Swinbanks, D) **351,** 260

Earthquakes, aseismic zones. Earthquakes in aseismic zones, *News and views*, (Crone, A J) **352,** 570

The first surface faulting from a historical intraplate earthquake in North America, *Letter to Nature*, (Adams, J, Wetmiller, R J, Hasegawa, H S and Drysdale, J) **352,** 617

Earthquakes, Canada. Earthquakes in aseismic zones, *News*

and views, (Crone, A J) **352,** 570
Earthquakes, Cascadia. Only one earthquake, *News and views,* (Pease, R) **353,** 116
Radiocarbon test of earthquake magnitude at the Cascadia subduction zone, *Letter to Nature,* (Atwater, B F, Stuiver, M and Yamaguchi, D K) **353,** 156
Earthquakes, deep. Aseismicity in the lower mantle by superplasticity of the descending slab, *Letter to Nature,* (Ito, E and Sato, H) **351,** 140
Fast rise times and the physical mechanism of deep earthquakes, *Letter to Nature,* (Houston, H and Williams, Q) **352,** 520
Insignificant isotropic component in the moment tensor of deep earthquakes, *Letter to Nature,* (Kawakatsu, H) **351,** 50
Relationship of deep seismicity to the thermal structure of subducted lithosphere, *Letter to Nature,* (Helffrich, G and Brodholt, J) **353,** 252
Earthquakes, Greece. A possible normal-fault rupture for the 464 BC Sparta earthquake, *Letter to Nature,* (Armijo, R, Lyon-Caen, H and Papanastassiou, D) **351,** 137
Earthquakes, Loma Prieta. Loma Prieta earthquake: Putting the pieces together, *News and views,* (Ellsworth, W L) **349,** 371
Earthquakes, oceanic. Sea-level rise and earthquakes, *Scientific correspondence,* (Bilham, R and Barrientos, S) **350,** 386
Earthquakes, Parkfield. Seismic quiescence at Parkfield due to detachment faulting, *Letter to Nature,* (Stuart, W D) **349,** 58
Earthquakes, San Andreas. The San Andreas Fault system, California, *book review by* Sibson, R. (Wallace, R E **352,** 487
Earthquakes, Tokyo. Disaster response: Worldwide costs of an earthquake, *News,* (Swinbanks, D) **351,** 260
Sixty seconds that will change the world: The coming Tokyo earthquake, *book review by* Swinbanks, D. (Hadfield, P) **352,** 205
Earthquakes, US. Californian quake, *News,* (Aldhous, P) **352,** 8
Earthquakes. Disaster prevention: Quake raises doubts about Indian dam, *News,* (Jayaraman, K S) **354,** 96
Geological faulting: Do little things matter?, *News and views,* (King, G and Cisternas, A) **351,** 350
Kerb crawling, *News and views,* **353,** 796
The importance of small-scale faulting in regional extension, *Letter to Nature,* (Walsh, J, Watterson, J and Yielding, G) **351,** 391
East Africa, extinct ungulates. Late quaternary extinct ungulates of East Africa and palaeoenvironmental implications, *Letter to Nature,* (Marean, C W and Gifford-Gonzalez, D) **350,** 418
East Germany, pollution. Cancer epidemiology: Gold mine in East Germany?, *News,* (Dickman, S) **349,** 728
Eastern Europe, aid. Eastern European aid, *News,* (Anderson, C) **352,** 8
Eastern Germany, research institutes. German research: Ray of hope for the East, *News,* (Dickman, S) **351,** 87
Echolocation. Echolocation: The cost of being a bat, *News and views,* (Rayner, J M V) **350,** 383
No cost of echolocation for bats in flight, *Letter to Nature,* (Speakman, J R and Racey, P A) **350,** 421
Eclipse, solar. Sun, sea and shadow, *News,* (Aldhous, P) **352,** 179
Eclipses, pulsars. Eclipses of the ablating binary pulsar PSR1744-24A, *Letter to Nature,* (Thorsett, S E and Nice, D J) **353,** 731
Ecological economics. Ecological economics: The journal of the International Society for Ecological Economics, *journal review by* Usher, M B., (Costanza, R *editor*) **353,** 480
Ecological releases. Unspoken fears, *Correspondence,* (Frontali, C) **353,** 496
Ecological research, India. Perspectives for India, *Correspondence,* (Singh, J S) **353,** 104
Ecology, Antarctica. Research in Antarctica: Marine living resources: How much krill to fish?, *News,* (Ewing, T) **350,** 306
Research in Antarctica: Animal populations: Penguins losing the struggle?, *News,* (Anderson, C) **350,** 294
Ecology, behavioural. Behavioral ecology, *journal review by* Gwynne, D T., (Ulfstrand, S and Kramer, D L *editors*) **353,** 479
Ecology, California. Drought threatens Californian bird populations, *News,* (Schaefer, E) **350,** 180
Ecology, oil fires. Environmental impact of fires in Kuwait, *Commentary,* (Small, R D) **350,** 11
Ecology, penguins. Penguins crowded out?, *Correspondence,* (Culik, B and Wilson, R) **351,** 340
Ecology, plants. British plant communities. Vol. I. Woodlands and scrub, *book review by* Crawley, M J., (Rodwell, J S *editor*) **353,** 224
Ecology, population. Population ecology: Chaos in time and space, *News and views,* (Ives, A R) **353,** 214
Spatial structure and chaos in insect population dynamics, *Letter to Nature,* (Hassell, M P, Comins, H N and May, R M) **353,** 255
Ecology. A critique for ecology, (Peters, R H) *book review by* Lawton, J. **354,** 444
Bird community structure, *Scientific correspondence,* (Cotgreave, P and Harvey, P H) **353,** 123
Bird life of mountain and upland, *book review by* Howlett, R. (Ratcliffe, D) **350,** 567
Community ecology: A case of missing marsupials, *News and views,* (Diamond, J M) **353,** 17
Delayed density-dependence, *Scientific correspondence,* (Hanski, I and Woiwood, I) **350,** 28
Ecology: Of size and abundance, *News and views,* (Damuth, J) **351,** 268
Ecology: Prey for the plundering, *News and views,* (Moore, P D) **350,** 192
Ecology: Ups and downs in peatland, *News and views,* (Moore, P D) **353,** 299
Ecosystem trends, *Scientific correspondence,* (Moen, J and Oksanen, L) **353,** 510
Food web patterns and their consequences, *Review article,* (Pimm, S L, Lawton, J H and Cohen, J E) **350,** 669
Herbivore-driven mycorrhizal mutualism in insect-susceptible pinyon pine, *Letter to Nature,* (Gehring, C A and Whitham, T G) **353,** 556
New technologies needed, *Correspondence,* (Sherr, E B) **352,** 752
Oscillations and chaos in the dynamics of a perennial grass, *Letter to Nature,* (Tilman, D and Wedin, D) **353,** 653
Phylogeny, ecology and behavior: A research program in comparative biology, *book review by* Siebert, D J and Humphries, C J (Brooks, D R and McLennan, D A) **353,** 615
The Earth in transition: Patterns and processes of biotic impoverishment, *book review by* Myers, N (Woodwell, G M *editor*) **353,** 614
The ecology of the ancient Greek world, *book review by* Halstead, P. (Sallares, R) **350,** 538
The relationship between abundance and body size in British birds, *Letter to Nature,* (Nee, S, Read, A F, Greenwood, J J D and Harvey, P H) **351,** 312
The Smithsonian's tropical niche, *Commentary,* (Anderson, A) **349,** 647
US opens pockets to protect species, *News,* (Anderson, C) **350,** 265
Wetlands: A threatened landscale, (Williams, M *editor*) *book review by* Pursegiove, J. **354,** 117
Economic competitiveness. Economic competitiveness: Superconductor consortium approaches test, *News,* (Pool, R) **353,** 100
Economics, ecological. Ecological economics: The journal of the International Society for Ecological Economics, *journal review by* Usher, M B., (Costanza, R *editor*) **353,** 480
Economics, Soviet Union. $100 billion loan, *Opinion,* **351,** 334
Mikhail Gorbachev's tightest corner, *Opinion,* **350,** 639
Economics, US. Recovery by decree, *Opinion,* **351,** 1
Economics. Is the world running out of wealth?, *Opinion,* (Maddox, J) **351,** 505
Linking the natural environment and the economy, (Folke, C and Kaberger, T *editors*) *book review by* Myers, N. **354,** 332
New technologies needed, *Correspondence,* (Sherr, E B) **352,** 752
Values for the environment, (Winpenny, J T) *book review by* Myers, N. **354,** 332
Economy, Japan. Disaster response: Worldwide costs of an earthquake, *News,* (Swinbanks, D) **351,** 260
Eddy pumping. Role of eddy pumping in enhancing primary production in the ocean, *Letter to Nature,* (Falkowski, P G, Ziemann, D, Kolber, Z and Bienfang, P K) **352,** 55
Education, France. Friends for France, *Opinion,* **352,** 176
Education, Germany. Hobson's choice?, *Opinion,* **349,** 442
Education, Japan. Another leap forward in Japan, *Opinion,* **353,** 371
Education, science. Education in science, *Opinion,* **350,** 3
Education, UK. British science, *Correspondence,* (Fagandini, D A A) **353,** 787
Shakespeare's school, *Opinion,* **351,** 2
Teaching the teachers, *Correspondence,* (Margerison, T) **353,** 598
Testing the science testers, *Commentary,* (Drummond, M J) **352,** 369
Education, US. Not quite so dumb, *News,* (Anderson, C) **353,** 784
Education. Education platitudes, *Opinion,* **349,** 2
The education of the very young, *News and views,* (Maddox, J) **350,** 375
The South answers back, *Commentary,* (Orrego, F) **353,** 596
Eels, defence. Slimier slime, *News and views,* **352,** 191
Einstein rings. An unusually strong Einstein ring in the radio source PKS1830-211, *Letter to Nature,* (Jauncy, D L, Reynolds, J E, Tzioumis, A K, Muxlow, T W B, Perley, R A, Murphy, D W, Preston, R A, Meier, D L, Bird, D J, Blair, D G, Bunton, J D, Clay, R W, Costa, M E, Duncan, R A, Ferris, R H, Gough, R G, Hamilton, P **352,** 132
Einstein-Podolsky-Rosen paradox. Non-locality bursts into life, *News and views,* (Maddox, J) **352,** 277
El Nino. Interdecadal oscillations and warming trend deduced from TIMe-series analysis of global temperatures, *Letter to Nature,* (Ghil, M and Vautard, R) **350,** 324
Thermodynamic regulation of ocean warming by cirrus clouds deduced from observations of the 1987 El Niño, *Article,* (Ramanathan, V and Collins, W) **351,** 27
Electrical generation. Electrical generation: Storage opens up options, *News,* (Pool, R) **351,** 509
Electrical industry, UK. Ferranti and the British Electrical Industry,1864-1940, *book review by* Hackmann, W. (Wilson, J F) **352,** 119
Electricity generation. Politics of electricity production, *Commentary,* (Price, T) **351,** 435
Electricity, Japan. Nuclear energy: An urgent search for power, *News,* (Swinbanks, D) **352,** 181
Electricity. Power lobby pressure, *News,* (Aldhous, P) **352,** 3
Electro-optic devices. Liquid crystals: Shedding light on alignment, *News and views,* (Jones, C and Day, S) **351,** 15
Electrochemistry. Effect of cyanide on the photo-electrochemical response of n-CdSe/Fe(CN)$_6^{4-/3-}$ electrolytic cells, *Letter to Nature,* (Seshadri, G, Chun, J K M and Bocarsly, A B) **352,** 508
Efficiency in a liquid solar cell, *Scientific correspondence,* (Licht, S and Peramunage, D) **354,** 440
Generation of Maxwell displacement current across an azobenzene monolayer by photoisomerization, *Letter to Nature,* (Iwamoto, M, Majima, Y, Naruse, H, Noguchi, T and Fuwa, H) **353,** 645
Electromagnetic fields, cancer risks. Cancer-EMF connection, *Correspondence,* (Woolf, N J) **351,** 10
Direct action?, *Correspondence,* (Kon, S H) **353,** 787
Electromagnetic fields: EMF - cancer link still murky, *News,* (Pool, R) **349,** 554
Electromagnetic fields: Danger from electrical appliances?, *News,* (Pool, R) **349,** 554
Health at work: Exoneration for VDTs, *News,* (Pool, R) **350,** 179
Electromagnetic fields, human health. Electromagnetic fields: Little accord on priorities, *News,* (Pool, R) **354,** 260
Electron beams, focusing. Do it yourself, *News and views,* **352,** 285
Electron crystallography. Structural architecture of an outer membrane channel as determined by electron crystallography, *Letter to Nature,* (Jap, B K, Walian, P J and Gehring, K) **350,** 167
Three-dimensional structure of plant light-harvesting complex determined by electron crystallography, *Article,* (Kühlbrandt, W and Wang, D N) **350,** 130
Electron holography. Holographic images of iodine atoms on a silver surface from electron emission patterns, *Letter to Nature,* (Hu, P and King, D A) **353,** 831
Superconductivity: Flux lines on video holograms, *News and views,* (Caplin, D) **350,** 14
Electron microscopy. Biophysical electron microscopy, *book review by* Stewart, M. (Hawkes, P W and Valdre, U) **351,** 108
Structural origin of reduced critical currents at $YBa_2Cu_3O_\delta$ grain boundaries, *Letter to Nature,* (Chisholm, M F and Pennycook, S J) **351,** 47
Electron paramagnetic resonance. Radiation doses, *Scientific correspondence,* (Desrosiers, M F, Coursey, B M, Avila, M J and Parks, N J) **349,** 287
Electron transfer. Electron transfer: Switches in enzymes, *News and views,* (Halliwell, B) **354,** 191
Electron transport. Semiconductor physics: Sure plays a mean pinball, *News and views,* (Washburn, S) **353,** 119
Electron, charge. Anything goes, *News and views,* **351,** 442
Electronic journals. Trials by wire, *News,* (Anderson, C) **353,** 293
Electronic structure. Electron density maps with a difference, *News and views,* **352,** 194
Electronics industry, Europe. JESSI: Losing the 'R' from R&D, *News,* (Aldhous, P) **354,** 257
Electronics, materials. Journal of materials science: Materials in electronics, *journal review by* Alford, N McN., (Willoughby, A *editor*) **353,** 474
Electronics. A silicon neuron, *Letter to Nature,* (Mahowald, M and Douglas, R) **354,** 515
Neural sciences: Electronic arts imitate life, *News and views,* (Andreou, A G) **354,** 501
Paradoxical behaviour of mechanical and electrical networks, *Letter to Nature,* (Cohen, J E and Horowitz, P) **352,** 699
Semiconductor devices: Pioneering papers, (Sze, S M) *book review by* Holmes-Siedle, A. **354,** 443
Electrophoresis. Applied and theoretical electrophoresis, *journal review by* Schwartz, D C., (Merril, C R *editor*) **353,** 470
Electrophysiology. A cyclic GMP-activated channel in dissociated cells of the chick pineal gland, *Letter to Nature,* (Dryer, S E and Henderson, D) **353,** 756
Channel control: Reply, *Scientific correspondence,* (Hartzell, H C, Méry, P F, Fischmeister, R and Szabo, G) **354,** 364
Cloned neuronal I_A(A) channels reopen during recovery from inactivation, *Letter to Nature,* (Ruppersberg, J P, Frank, R, Pongs, O and Stocker, M) **353,** 657
Direct activation of cardiac pacemaker channels by intracellular cyclic AMP, *Letter to Nature,* (DiFrancesco, D and Tortora, P) **351,** 145
Inositol trisphosphate-dependent periodic activation of a Ca^{2+}-activated K^+ conductance in glucose-stimulated pancreatic β-cells, *Letter to Nature,* (Ämmälä, C, Larsson, O, Berggren, P-O, Bokvist, K, Juntti-Berggren, L, Kindmark, H and Rorsman, P) **353,** 849
Molecular cloning and characterization of the rat NMDA receptor, *Article,* (Moriyoshi, K, Masu, M, Ishii, T, Shigemoto, R, Mizuno, N and Nakanishi, S) **354,** 31
Nobel Prize: Patch clamp brings honour, *News,* (Aldhous, P) **353,** 487
Primary structure and functional expression of a developmentally regulated skeletal muscle chloride channel, *Letter to Nature,* (Steinmeyer, K, Ortland, C and Jentsch, T J) **354,** 301

Putative receptor for the cytoplasmic inactivation gate in the *Shaker* K^+ channel, *Letter to Nature*, (Isacoff, E Y, Jan, Y N and Jan, L Y) **353,** 86
Voltage-sensing residues in the S4 region of a mammalian K^+ channel, *Letter to Nature*, (Liman, E R, Hess, P, Weaver, F and Koren, G) **353,** 752
Electroweak theory. Particle physics after a year of LEP, *Review article*, (Miller, D J) **349,** 379
Element abundances, globular clusters. Astronomy: Slow-motion galactic birth, *News and views*, (Silk, J) **351,** 191
Evidence from stellar abundances for a large age difference between two globular clusters, *Letter to Nature*, (Dickens, R J, Croke, B F W, Cannon, R D and Bell, R A) **351,** 212
Elephant conservation. Elephant conservation: African rift in Kyoto, *News*, (Aldhous, P) **354,** 175
Elephants, conservation. Asian elephant threatened, *Correspondence*, (Dawson, S and Blackburn, T M) **352,** 274
Elk-1 proto-oncogene. Ets-related protein Elk-1 is homologous to the *c-fos* regulatory factor p62SOTCFT, *Letter to Nature*, (Hipskind, R A, Rao, V N, Mueller, C G F, Reddy, E S P and Nordheim, A) **354,** 531
Elliptical galaxies. Galaxies: Inner secrets of ellipticals, *News and views*, (Binney, J) **354,** 186
Merging of two galaxies with central black holes, *Letter to Nature*, (Ebisuzaki, T and Makino, J) **354,** 212
Origin of kinematic subsystems in elliptical galaxies, *Letter to Nature*, (Hernquist, L and Barnes, J E) **354,** 210
Embryo research. Fetal tissue research, *News*, (Aldhous, P) **352,** 362
Embryogenesis, plants. Mutations affecting body organization in the *Arabidopsis* embryo, *Article*, (Mayer, U, Ruiz, R A T, Berleth, T, Miséra, S and Jürgens, G) **353,** 402
Embryogenesis. Chitin and nodulation, *Scientific correspondence*, (Bulawa, C E and Wasco, W) **353,** 710
Demethylation of CpG islands in embryonic cells, *Letter to Nature*, (Frank, D, Keshet, I, Shani, M, Levine, A, Razin, A and Cedar, H) **351,** 239
Embryonic stem cells. Introduction of a subtle mutation into the *Hox-2.6* locus in embryonic stem cells, *Letter to Nature*, (Hasty, P, Ramírez-Solis, R, Krumlauf, R and Bradley, A) **350,** 243
Introduction of a subtle mutation into the *Hox-2.6* locus in embryonic stem cells(erratum), *Letter to Nature*, (Hasty, P, Ramírez-Solis, R, Krumlauf, R and Bradley, A) **353,** 94
Emerging viruses. Endangered species: Emerging virus threat, *News*, (Anderson, C) **351,** 89
Employment. Time of grace, *Correspondence*, (Malpas, S) **350,** 268
Endangered species. Conservation: Tiger project halted, *News*, (Jayaraman, K S) **354,** 424
Endangered species: Emerging virus threat, *News*, (Anderson, C) **351,** 89
Endangered species: Killer cows prompt shell suit, *News*, (Anderson, C) **351,** 595
Endangered species, *Correspondence*, (Harcourt, S) **354,** 10
Endocrinology, reproductive. On labour day, *News and views*, **353,** 303
Endocrinology. Génération pilule, *book review by* Gratzer, W. (Baulieu, E-E) **350,** 199
Hormones, *book review by* Tata, J R. (Baulieu, E-E and Kelly, P A) **351,** 362
Endocytosis. Hypervariable C-terminal domain of rab proteins acts as a targeting signal, *Letter to Nature*, (Chavrier, P, Gorvel, J-P, Stelzer, E, Simons, K, Gruenberg, J and Zerial, M) **353,** 769
What's the score?, *Scientific correspondence*, (Brodsky, F M) **352,** 288
Endoplasmic reticulum. Assembly of yeast Sec proteins involved in translocation into the endoplasmic reticulum into a membrane-bound multisubunit complex, *Letter to Nature*, (Deshaies, R J, Sanders, S L, Feldheim, D A and Schekman, R) **349,** 806
Cotranslocational insertion of apolipoprotein B into the inner leaflet of the endoplasmic reticulum, *Letter to Nature*, (Pease, R J, Harrison, G B and Scott, J) **353,** 448
MHC class II structure, occupancy and surface expression determined by post-endoplasmic reticulum antigen binding, *Article*, (Germain, R N and Hendrix, L R) **353,** 134
Endosymbionts, bacterial. Identification *in situ* and phylogeny of uncultured bacterial endosymbionts, *Letter to Nature*, (Amann, R, Springer, N, Ludwig, W, Görtz, H-D and Schleifer, K-H) **351,** 161
Endosymbiosis theory. Cryptomonad algae are evolutionary chimaeras of two phylogenetically distinct unicellular eukaryotes, *Letter to Nature*, (Douglas, S E, Murphy, C A, Spencer, D F and Gray, M W) **350,** 148
Eukaryote origins: Seeds of a universal tree, *News and views*, (Penny, D and O'Kelly, C J) **350,** 106
Endothelial cell leukocyte adhesion molecule-1. Activation-independent binding of human memory T cells to adhesion molecule ELAM-1, *Letter to Nature*, (Shimizu, Y, Shaw, S, Graber, N, Gopal, T V, Horgan, K J, Van Seventer, G A and Newman, W) **349,** 799
ELAM-1 is an adhesion molecule for skin-homing T cells, *Letter to Nature*, (Picker, L J, Kishimoto, T K, Smith, C W, Warnock, R A and Butcher, E C) **349,** 796
Endothelial cells. The next cluster of differentiation (CD) workshop, *Product Review*, (Springer, T A) **354,** 415
Endotoxin, clearance. Recognition and plasma clearance of endotoxin by scavenger receptors, (Hampton, R Y, Golenbock, D T, Penman, M, Krieger, M and Raetz, C R H) **352,** 342
Endotoxins. Crystal structure of insecticidal δ-endotoxin from *Bacillus thuringiensis* at 2.5 Å resolution, *Article*, (Li, J, Carroll, J and Ellar, D J) **353,** 815
Energia. Soviet Union: Space programme in disarray, *News*, (de Selding, P B) **352,** 363
Energy consumption. Energy costs of a long life, *Correspondence*, (Schidlowski, M) **353,** 294
Energy costs. Energy costs, *Correspondence*, (von Weizsacker, E U) **353,** 495
Energy policy, Japan. Energy policy: Japan promotes nuclear power, *News*, (Swinbanks, D) **353,** 782
Energy policy: The persuasive power of yen, *News*, (Swinbanks, D) **353,** 782
Energy policy. Power lobby pressure, *News*, (Aldhous, P) **352,** 3
Energy research, US. University of California: Stronger management tactics for laboratories, *News*, (Schaefer, E) **349,** 446
Energy technology. Cooling the greenhouse with bioenergy, *Commentary*, (Hall, D O, Mynick, H E and Williams, R H) **353,** 11
Energy, renewable. Renewable energy: The future is now (again), *News*, (Anderson, C) **354,** 344
Renewable energy: The windmill gets a second wind, *News*, (Anderson, C) **354,** 344
Renewable energy: A bright light goes out, *News*, (Anderson, C) **354,** 345
Energy, UK. Waves rediscovered, *News*, (Anderson, C) **352,** 271
Energy, US. Energy policy: More free market, less regulation, Bush asks, *News*, (Pool, R) **349,** 729
Squaring circle of US energy, *Opinion*, **349,** 725
Enterotoxin. Crystal structure of a cholera toxin-related heat-labile enterotoxin from *E. coli*, *Article*, (Sixma, T K, Pronk, S E, Kalk, K H, Wartna, E S, van Zanten, B A M, Witholt, B and Hol, W G J) **351,** 371
Enterotoxins: The ring on a finger, *News and views*, (van Heyningen, S) **351,** 351
Entomology. Count down, *News and views*, **352,** 191
Firefly synchrony, *Scientific correspondence*, (Ermentrout, G B) **353,** 220
Entropy. Complexity, entropy and the physics of information, *book review by* Landsberg, P T. (Zurek, W H) **349,** 376
Maxwell's demon: Entropy, information, computing, *book review by* Landsberg, P T. (Leff, H S and Rex, A F) **349,** 376
Environment, Brazil. Brazil: War of the greens, *News*, (Bonalume, R) **353,** 595
Environment, Eastern Europe. Eastern European aid, *News*, (Anderson, C) **352,** 8
Environment, Europe. Environment: EC putting bite in its green bark, *News*, (Anderson, C) **352,** 182
Environment: New environmental agency hijacked by politics, *News*, (Anderson, C) **352,** 182
Environment, legislation. Environment: EC putting bite in its green bark, *News*, (Anderson, C) **352,** 182
Environment, UK. Global warming: 'Activist' stance by UK government, *News*, (Aldhous, P) **354,** 99
Environment, US. Common sense in the environment, *Opinion*, **353,** 779
Environmental advice, *News*, (Aldhous, P) **352,** 362
Global warming: Ozone report puts US policy in question, *News*, (Aldhous, P) **353,** 783
Environment. Nuclear waste: Questions at Sellafield, *News*, (Anderson, C) **352,** 366
Ozone hits new low, *News*, (Anderson, C) **352,** 271
The Earth in transition: Patterns and processes of biotic impoverishment, *book review by* Myers, N., (Woodwell, G M *editor*) **353,** 614
Environmental issues. Environment: Nuclear cleanup costs rise, *News*, (Pool, R) **353,** 101
Third party assurance?, *Opinion*, **352,** 360
Environmental policy, US. Environmental policy: GATT attack, *News*, (Anderson, C) **354,** 259
Environmental Protection Agency, US. Biotechnology: A first step, but still a long way to go, *News*, (Berlfein, J) **352,** 365
Environmental protection. Environmental regulation: Polluters pay at auction, *News*, (Pool, R) **351,** 337
Environmental technology, Japan. Environment: One Westerner gets it RITE in Japan, *News*, (Swinbanks, D) **351,** 5
Environmentalism, Antarctica. Antarctic environment: Mining ban in the air, *News*, (Aldhous, P) **351,** 88
Landing strip: Engineering feat or blight?, *News*, (Coles, P) **350,** 301
Research in Antarctica: Antarctic environment: Not the 'dirty man', *News*, (Aldhous, P) **350,** 298
Environmentalism, Czechoslovakia. Czechoslovak environment, *Correspondence*, (Nondek, L) **354,** 180
Environmentalism, Japan. Japanese industry: Going for 'green technology', *News*, (Swinbanks, D) **350,** 266
Environmentalism, South Africa. South African development: Water project dropped, *News*, (Cherry, M) **349,** 731
Environmentalism. Linking the natural environment and the economy, (Folke, C and Kaberger, T *editors*) *book review by* Myers, N. **354,** 332
The conservation atlas of tropical forests: Asia and the Pacific, *book review by* Bawa, K S. (Collins, N M, Sayer, J A and Whitmore, T C **352,** 204
Values for the environment, (Winpenny, J T) *book review by* Myers, N. **354,** 332
Enzyme catalysis. Enzyme catalysis: not different, just better, *Review article*, (Knowles, J R) **350,** 121
Enzyme structure. Anticodon and acceptor stem nucleotides in $tRNA^{Gln}$ are major recognition elements for *E. coli* glutaminyl-tRNA synthetase, *Letter to Nature*, (Jahn, M, Rogers, M J and Söll, D) **352,** 258
Convergent evolution of similar function in two structurally divergent enzymes, *Letter to Nature*, (Kuriyan, J, Krishna, T S R, Wong, L, Guenther, B, Pahler, A, Williams, C H and Model, P) **352,** 172
Structural basis of anticodon loop recognition by glutaminyl-tRNA synthetase, *Article*, (Rould, M A, Perona, J J and Steitz, T A) **352,** 213
Enzymes, evolution. Convergent evolution of similar function in two structurally divergent enzymes, *Letter to Nature*, (Kuriyan, J, Krishna, T S R, Wong, L, Guenther, B, Pahler, A, Williams, C H and Model, P) **352,** 172
Enzymes. Enzyme evolution: Déjà vu all over again, *News and views*, (Petsko, G A) **352,** 104
Enzymology. A model for interfacial activation in lipases from the structure of a fungal lipase-inhibitor complex, *Letter to Nature*, (Brzozowski, A M, Derewenda, U, Derewenda, Z S, Dodson, G G, Lawson, D M, Turkenburg, J P, Bjorkling, F, Huge-Jensen, B, Patkar, S A and Thim, L) **351,** 491
A primary determinant for lipoxygenase positional specificity, *Letter to Nature*, (Sloane, D L, Leung, R, Craik, C S and Sigal, E) **354,** 149
A protein-tyrosine phosphatase with sequence similarity to the SH2 domain of the protein-tyrosine kinases, *Letter to Nature*, (Shen S-H, Bastien, L, Posner, B I and Chrétien, P) **353,** 868
Chaperonin-mediated protein folding at the surface of groEL through a 'molten globule'-like intermediate, *Article*, (Martin, J, Langer, T, Boteva, R, Schramel, A, Horwich, A L and Hartl, F-U) **352,** 36
Deficiency in red blood cells, *Scientific correspondence*, (MacDonald, D, Town, M, Mason, P, Vulliamy, T, Luzzatto, L and Goff, D K) **350,** 115
Demonstration by NMR of folding domains in lysozyme, *Letter to Nature*, (Miranker, A, Radford, S E, Karplus, M and Dobson, C M) **349,** 633
Discovering enzymes, *book review by* Perham, R. (Dressler, D and Potter, H) **350,** 533
Electron transfer: Switches in enzymes, *News and views*, (Halliwell, B) **354,** 191
Enzymology: Lipases reach the surface, *News and views*, (Blow, D) **351,** 444
Enzymology: Radical copper in oxidases, *News and views*, (Thomson, A J) **350,** 22
Methods: A companion to methods in enzymology, *journal review by* Craik, D S., (Abelson, J N and Simon, M I *editors*) **353,** 469
Novel thioether bond revealed by a 1.7 Å crystal structure of galactose oxidase, *Letter to Nature*, (Ito, N, Phillips, S E V, Stevens, C, Ogel, Z B, McPherson, M J, Keen, J N, Yadav, K D S and Knowles, P F) **350,** 87
Primary structure and expression of bovine poly(A) polymerase, *Article*, (Raabe, T, Bollum, F J and Manley, J L) **353,** 229
Single-site enzymatic cleavage of yeast genomic DNA mediated by triple helix formation, *Letter to Nature*, (Strobel, S A and Dervan, P B) **350,** 172
Viral proteases: Molecular metamorphosis, *News and views*, (Ringe, D and Petsko, G A) **354,** 22
Epidemiology, AIDS. Brazil: AIDS in Yanomami?, *News*, (Bonalume, R) **352,** 272
Epidemiology, cancer. Cancer epidemiology: Gold mine in East Germany?, *News*, (Dickman, S) **349,** 728
Epidemiology: Fluoride given the all clear, *News*, (Anderson, C) **349,** 732
Health: World researchers to take a closer look at Chernobyl, *News*, (Dickman, S) **351,** 4
Leukaemia and unemployment, *Correspondence*, (Solff, S P) **350,** 268
Solvent solution, *News and views*, **350,** 112
Epidemiology, Leukaemia. Leukaemia epidemiology: Confusion surrounds the 'Gardner effect', *News*, (Aldhous, P) **350,** 264
Leukaemia favours rich, *News*, (Aldhous, P) **353,** 373
Epidemiology. Cholera epidemic traced to risk miscalculation, *News*, (Anderson, C) **354,** 255
Epidermal growth factor. Key residues involved in calcium-binding motifs in EGF-like domains, *Letter to Nature*, (Handford, P A, Mayhew, M, Baron, M, Winship, P R, Campbell, I D and Brownlee, G G) **351,** 164
Signalling and superinduction, *Scientific correspondence*, (Mahadevan, L C and Edwards, D R) **349,** 747
Epidermolysis bullosa simplex. Intermediate filaments: Getting under the skin, *News and views*, (Klymkowsky, M W) **354,** 264
Epilepsy. Fit connection, *News and views*, **351,** 99
Molecular neurobiology: NMDA receptors cloned at last, *News and views*, (Mayer, M L) **354,** 16
That's entertainment, *News and views*, **352,** 191
Epitaxial films. New cuprate superconductors, *Scientific correspondence*, (Kawai, T, Egami, Y, Tabata, H and Kawai, S) **349,** 200
Epithelial cells. Activation of chloride channels in normal and

cystic fibrosis airway epithelial cells by multifunctional calcium/calmodulin-dependent protein kinase, *Letter to Nature*, (Wagner, J A, Cozens, A L, Schulman, H, Gruenert, D C, Stryer, L and Gardner, P) **349,** 793

Epithelium. Targeting of transmembrane and GPI-anchored forms of N-CAM to opposite domains of a polarized epithelial cell, *Letter to Nature*, (Powell, S K, Cunningham, B A, Edelman, G M and Rodriguez-Boulan, E) **353,** 76

EPR paradox. Quantum cryptography: Schrödinger's catflap, *News and views*, (Stewart, I) **353,** 384

Epstein-Barr virus. Activation of Epstein-Barr virus latent genes protects human B cells from death by apoptosis, *Letter to Nature*, (Gregory, C D, Dive, C, Henderson, S, Smith, C A, Williams, G T, Gordon, J and Rickinson, A B) **349,** 612

Equivalence principle. Weak equivalence in the balance, *News and views*, (Maddox, J) **350,** 187

ERATO, Japan. Research funding: Erato announces new research target, *News*, (Swinbanks, D) **352,** 96

Ernst, Richard. Chemistry: Bringing NMR to the masses, *News*, (Aldhous, P) **353,** 689

Erosion, Lake Nyos. Lake Nyos dam threat, *Scientific correspondence*, (Lockwood, J P and Schuster, R L) **351,** 195

Erosion. Land degradation and rehabilitation, *Journal review by* Berrow, M L., (Barrow, C J *editor*) **353,** 481

ERS-1, launch. ERS-1 off at last, *News*, (Anderson, C) **352,** 271

Eruption plumes. Dimensions and dynamics of co-ignimbrite eruption columns, *Letter to Nature*, (Woods, A W and Wohletz, K) **350,** 225

Eruption prediction. In the volcano's shadow, *Commentary*, (Shimozuru, D) **353,** 295

Japan: Eruptions no secret, *News*, (Anderson, C) **351,** 511

Japan: Volcano prediction problems, *News*, (Swinbanks, D) **351,** 511

Prospects for eruption prediction in near real-time, *Letter to Nature*, (Voight, B and Cornelius, R R) **350,** 695

Under the volcano, *Scientific correspondence*, (Fiske, R S) **353,** 307

Under the volcano, *Scientific correspondence*, (Peterson, D W) **353,** 307

Under the volcano: Reply, *Scientific correspondence*, (Swinbanks, D) **353,** 307

Unzen volcano: Anatomy of an eruption, *News and views*, (Ida, Y) **352,** 571

Volcano warning needed, *Scientific correspondence*, (Fink, J) **351,** 611

Volcanology: Volcanoes' volatile behaviour, *News and views*, (Fink, J) **352,** 188

Erythrocytes. Direct access to serum macromolecules by intraerythrocytic malaria parasites, *Letter to Nature*, (Pouvelle, B, Spiegel, R, Hsiao, L, Howard, R J, Morris, R L, Thomas, A P and Taraschi, T F) **353,** 73

Erythropoiesis. Human γ-globin genes silenced independently of other genes in the β-globin locus, *Letter to Nature*, (Dillon, N and Grosveld, F) **350,** 252

Erythropoietin. Biotechnology patent.: Solving a dispute, Japanese style, *News*, (Swinbanks, D) **354,** 4

Escher, M. C. Visions of symmetry: Notebooks, period drawings, and related works of M C Escher, *Escherichia coli* . (Schattschneider, D) **349,** 471

Escherichia coli. Cell division: Ring of bright metal, *News and views*, (Begg, K) **354,** 109

FtsZ ring structure associated with division in *Escherichia coli* (Bi, E and Lutkenhaus, J) **354,** 161

The *vsr* gene product of *E. coli* K-12 is a strand- and sequence-specific DNA mismatch endonuclease, *Letter to Nature*, (Hennecke, F, Kolmar, H, Bründi, K and Fritz, H-J) **353,** 776

Essential oils. The journal of essential oil research, *journal review by* Crombie, L., (Lawrence, B M *editor*) **353,** 475

Estonia, independence. Open letter: A message from Vilnius, *News*, **349,** 186

Ethics, AIDS. Research ethics: Zagury report censures NIH, *News*, (Aldhous, P) **352,** 269

Ethics, Human Genome Project. Genome ethics, *Correspondence*, (Aschheim, EW) **353,** 598

More genome ethics, *Opinion*, **353,** 2

Who needs a genome ethics treaty?, *News*, (Aldhous, P) **351,** 507

Ethics, scientific. Scientific licence, *Correspondence*, (Siddhartha, V) **351,** 263

Ethics. Clinical trials: Blazing an ethical trail, *News*, (Aldhous, P) **353,** 4

Ethical problems to merit the name, *Opinion*, **352,** 359

Fetal tissue research, *News*, (Aldhous, P) **352,** 362

Gene therapy on the move, *News and views*, (Culliton, B J) **354,** 429

Genome ethics treaty, *Correspondence*, (Segurado, O G and Schendel, D J) **352,** 368

Imaginary hazards?, *Correspondence*, (Miller, H I and Huttner, S L) **353,** 204

Just screening, *Correspondence*, (Macer, D) **354,** 347

Responsibility and Weaver *Commentary*, (Doty, P) **352,** 183

Scientific societies: Ethics rules provoke storm, *News*, (Aldhous, P) **353,** 5

US research policy: Ethics rule reconsidered, *News*, (Anderson, C) **353,** 784

Ethology. The development and integration of behaviour: Essays in honour of Robert Hinde, *book review by* Dawkins, M S., (Bateson, P *editor*) **353,** 514

ets proto-oncogene family. Ets-related protein Elk-1 is homologous to the *c-fos* regulatory factor p62S0TCFT, *Letter to Nature*, (Hipskind, R A, Rao, V N, Mueller, C G F, Reddy, E S P and Nordheim, A) **354,** 531

Etymology. Misuse of words, *Correspondence*, (Katscher, F) **351,** 179

New words, *Correspondence*, (Estling, R) **352,** 751

New words, *Correspondence*, (Marshall, J H) **352,** 751

On the run, *Correspondence*, (Weitzman, D) **353,** 9

Thinking on the run, *Correspondence*, (Dorn, R I and Clark, J) **352,** 10

Eubacteria. More natural classification, *Scientific correspondence*, (Mayr, E) **353,** 122

Eucrites. Metamorphism of eucrite meteorites studied quantitatively using induced thermoluminescence, *Euglena gracilis*, (Batchelor, J D and Sears, D W G) **349,** 516

Eugenics. Ethical problems to merit the name, *Opinion*, **352,** 359

Euglandina snails. Species reintroduction: New twist in snail saga, *News*, (Anderson, C) **353,** 489

Eukaryote origins. Cryptomonad algae are evolutionary chimaeras of two phylogenetically distinct unicellular eukaryotes, *Letter to Nature*, (Douglas, S E, Murphy, C A, Spencer, D F and Gray, M W) **350,** 148

Eukaryote origins: Seeds of a universal tree, *News and views*, (Penny, D and O'Kelly, C J) **350,** 106

Eukaryotes. More natural classification, *Scientific correspondence*, (Mayr, E) **353,** 122

Euler's theorem. Extension of Euler's theorem to symmetry properties of polyhedra, *Letter to Nature*, (Ceulemans, A and Fowler, P W) **353,** 52

Europe, acid deposition. Acid rain: An economic case for environmental cooperation, *News*, (Aldhous, P) **351,** 175

Europe, agriculture. Closing Europe's farms, *Opinion*, **350,** 541

Farming fiasco, *Opinion*, **349,** 268

Europe, Antarctic research. Research in Antarctica: European collaboration: Meteorites for all, *News*, (Aldhous, P) **350,** 308

Europe, biology. Biological accord, *Correspondence*, (Keir, H M) **353,** 10

European Community actions, *Correspondence*, (Van Hoeck, F) **351,** 599

European Community action, *Correspondence*, (Breimer, L H) **351,** 599

Turmoil in European biology, *Commentary*, (Philipson, L) **351,** 91

Europe, biotechnology. Biotechnology: More problems than products, *News*, **349,** 5

Biotechnology: EEC policy on the eve of 1993, *book review by* Sharp, M and Shackley, S., (European Study Service) **353,** 711

Biotechnology: EC look to animal patents, *News*, (Anderson, C) **353,** 8

Europe, carbon tax. Global warming: Europe weighs a carbon tax, *News*, (Aldhous, P) **353,** 375

Europe, computers. A European collaboration for IBM, *News*, (Pool, R) **352,** 98

High-performance computing: A last chance to catch up?, *News*, (Aldhous, P) **349,** 645

Soft on software, *Opinion*, **350,** 640

Europe, defence. Europe's non-defence, *Opinion*, **349,** 550

Europe, environment. Environment: EC putting bite in its green bark, *News*, (Anderson, C) **352,** 182

Environment: New environmental agency hijacked by politics, *News*, (Anderson, C) **352,** 182

Europe, farming. Genetic evidence for the spread of agriculture in Europe by demic diffusion, *Letter to Nature*, (Sokal, R R, Oden, N L and Wilson, C) **351,** 143

Population genetics: Farming is in the blood, *News and views*, (Jones, J S) **351,** 97

Europe, food industry. Food irradiation: Compromise eludes EC, *News*, (Dickman, S) **349,** 273

Europe, Framework programme. Compromise averts Framework fiasco, *News*, (Aldhous, P) **350,** 641

Europe, genome research. Helping Europe compete in human genome research, *News*, (Dickman, S and Aldhous, P) **350,** 261

Europe, gravity detectors. Cosmology: European gravity detector in peril, *News*, (Aldhous, P) **353,** 688

Europe, high-energy physics. High-energy physics: HERA stores protons, *News*, (Dickman, S) **351,** 261

Europe, homeopathy. Homeopaths' cushion, *Opinion*, **353,** 484

Europe, industry. Can Fortress Europe be feasible?, *Opinion*, **350,** 447

Europe, molecular biology. Funding of molecular biology, *Commentary*, (Müller-Hill, B) **351,** 11

Europe, oceanography. Oceanography: Europe in the vanguard?, *News*, (Aldhous, P) **350,** 643

Europe, particle physics. Particle physics: Does Europe need the LHC?, *News*, (Aldhous, P) **350,** 98

Europe, patents. Europe approves first transgenic animal patent, *News*, (Aldhous, P) **353,** 589

Europe, pharmaceutical industry. Pharmaceutical patents: EC row looms over patents, *News*, (Aldhous, P) **350,** 645

Europe, politics. Europe's future, *Correspondence*, (Altosaar, I) **349,** 13

Europe, research funding. 'Civil war' scuttles EC research programme, *News*, (Aldhous, P) **350,** 177

Anglo-European research: Spend more to compete, *News*, (Aldhous, P) **349,** 183

Community confusion, *Opinion*, **349,** 638

Europe's research postponed, *Opinion*, **350,** 175

European research: Grant scheme put in doubt, *News*, (Maddox, J) **349,** 556

European research: Setting up shop in Brussels, *News*, (Aldhous, P) **350,** 641

European science funding: Auditors decry EC research waste, *News*, (Gee, H) **351,** 512

Europe, research. Due credit, *Correspondence*, (Markl, H) **351,** 263

EC research centres: Early retirement spawns money row, *News*, (Aldhous, P) **349,** 182

EC research: Brite's prospects dim, *News*, (Aldhous, P) **354,** 5

European research: Commission bids for power, *News*, (Aldhous, P) **350,** 101

European research: Gordon conference clones, *News*, (Dickman, S) **350,** 179

International collaboration: Euro-laser plans on ice, *News*, (Aldhous, P) **350,** 102

Europe, satellite. ERS-1 off at last, *News*, (Anderson, C) **352,** 271

Remote sensing: ESA's eye on the oceans, *News*, (Aldhous, P) **351,** 8

Remote sensing: Satellite launch delay, *News*, (Dickman, S) **351,** 596

Europe, science policy. European science policy: Research given priority in new French budget, *News*, (Aldhous, P) **353,** 375

Europe, science. Prospects improve for US-European collaboration, *News*, (Anderson, C) **349,** 182

Europe, semiconductor research. Semiconductor research: Retrenchment at JESSI, *News*, (Aldhous, P) **354,** 5

Europe, space programme. Europe in space, *book review by* King-Hele, D. (Collins, G) **349,** 113

European space summit: Deciding ESA's future, *News*, (Aldhous, P) **354,** 97

Germany pulls back on space programmes, *News*, (Dickman, S) **352,** 177

Europe, space research. Space research: The cost of ambition, *News*, **349,** 8

Space science: ESA and Hungary cooperate, *News*, (Dickman, S) **350,** 450

Europe, space science. European space science: Columbus delayed, *News*, (Aldhous, P) **353,** 491

Europe, space shuttle. Germany pulls back on space programmes, *News*, (Dickman, S) **352,** 177

Europe, supercomputers. High-performance computing: A last chance to catch up?, *News*, (Aldhous, P) **349,** 645

Europe, telecommunications. Telecommunications: Pandolfi boosts HDTV, *News*, (Anderson, C) **353,** 7

Europe, trade. Free trade now free?, *Opinion*, **349,** 726

Europe, universities. A thesis for all seasons, *Commentary*, (Breimer, L H and Mikhailidis, D P) **353,** 789

European universities: Graduate training reforms, *News*, (Aldhous, P) **351,** 339

European collaboration. European collaboration: Opening up to the east, *News*, (Aldhous, P) **354,** 7

European Commission. 'Civil war' scuttles EC research programme, *News*, (Aldhous, P) **350,** 177

Compromise averts Framework fiasco, *News*, (Aldhous, P) **350,** 641

Europe's research postponed, *Opinion*, **350,** 175

European Community, environment. Environment: EC putting bite in its green bark, *News*, (Anderson, C) **352,** 182

Environment: New environmental agency hijacked by politics, *News*, (Anderson, C) **352,** 182

European Community, zoos. EC targets zoos for crackdowns, *News*, (Anderson, C) **352,** 180

European Community. Dead end tunnel, *Opinion*, **353,** 684

Europe's embarrassing growth, *Opinion*, **353,** 1

European community. Europe's nemesis at Maastricht, *Opinion*, **354,** 1

European environmental agency. Environment: New environmental agency hijacked by politics, *News*, (Anderson, C) **352,** 182

European research. Genome researchers go hog wild, *News*, (Anderson, C) **352,** 180

European Space Agency. European Space Agency: Deciding on indecision, *News*, (Aldhous, P) **354,** 256

European Space Agency. Europe in space, *book review by* King-Hele, D. (Collins, G) **349,** 113

Euthanasia. Death with dignity, *Opinion*, **354,** 254

Final exit, *Correspondence*, (Overmyer, M) **353,** 788

Evolution, convergent. . . . and then there were two, *News and views*, (Baker, T A) **353,** 794

Evolution, enzymes. Convergent evolution of similar function in two structurally divergent enzymes, *Letter to Nature*, (Kuriyan, J, Krishna, T S R, Wong, L, Guenther, B, Pahler, A, Williams, C H and Model, P) **352,** 172

Enzyme evolution: Déjà vu all over again, *News and views*, (Petsko, G A) **352,** 104

Evolution, globin. Was the loss of the D helix in α globin a functionally neutral mutation?, *Letter to Nature*, (Komiyama, N H, Shih, D T-B, Looker, D, Tame, J and Nagai, K) **352,** 349

Evolution, molecular. Molecular evolution: The resistance movement, *News and views*, (Brookfield, J F Y) **350,** 107

Worldwide migration of amplified insecticide resistance

genes in mosquitoes, *Letter to Nature,* (Raymond, M, Callaghan, A, Fort, P and Pasteur, N) **350,** 151
Evolution, molecules. Evolution: Matriarchal liberation, *News and views,* (Avise, J C) **352,** 192
Evolution, primates. First skulls of the Early Eocene primate *Shoshonius cooperi* and the anthropoid-tarsier dichotomy, *Letter to Nature,* (Beard, K C, Krishtalka, L and Stucky, R K) **349,** 64
Evolution, thermodynamics. Is Darwinism a thermodynamic necessity?, *News and views,* (Maddox, J) **350,** 653
Evolution. Alfred Russel Wallace: An anthology of his shorter writings, *book review by* Bynum, W F., (Wallace, A R) **353,** 223
Beyond natural selection, *book review by* Smith, J M. (Wesson, R) **352,** 206
Bully for Brontosaurus, *book review by* Neve, M. (Gould, S J) **352,** 117
Complexity levels, *Correspondence,* (Maiorana, V C) **349,** 558
Complexity still running, *Correspondence,* (Sheldon, P R) **350,** 104
Cryptomonad algae are evolutionary chimaeras of two phylogenetically distinct unicellular eukaryotes, *Letter to Nature,* (Douglas, S E, Murphy, C A, Spencer, D F and Gray, M W) **350,** 148
Eukaryote origins: Seeds of a universal tree, *News and views,* (Penny, D and O'Kelly, C J) **350,** 106
New early Cambrian animal and onychophoran affinities of enigmatic metazoans, *Letter to Nature,* (Ramsköld, L and Xianguang, H) **351,** 225
Palaeontology: Oddballs from the Cambrian start to get even, *News and views,* (Bengtson, S) **351,** 184
Palaeontology: The brave vertebrate venture, *News and views,* (Gee, H) **354,** 268
Parallel within-island microevolution of lizards on neighbouring islands, *Letter to Nature,* (Brown, R P, Thorpe, R S and Báez, M) **352,** 60
Red-blooded reindeer, *News and views,* **349,** 657
Science in India, *Correspondence,* (Sehgal, N K) **353,** 691
The Evolution of Parental Care, *book review by* Gwynne, D T. (Clutton-Brock, T H) **352,** 118
Evolutionary biology, comparative method. The comparative method in evolutionary biology, *book review by* Siebert, D J and Humphries, C J (Harvey, P and Pagel, M) **353,** 615
Evolutionary biology. African fishes, *Scientific correspondence,* (de Caprona, M-D C and Fritzsch, B) **350,** 467
African fishes: Reply, *Scientific correspondence,* (Meyer, A, Kocher, T D and Wilson, A C) **350,** 467
Baer facts, *Correspondence,* (Kaavere, V) **353,** 104
Close tetrapod relationships of the coelacanth *Latimeria* indicated by haemoglobin sequences, *Letter to Nature,* (Gorr, T, Kleinschmidt, T and Fricke, H) **351,** 394
Colour coding, *News and views,* **350,** 21
Conservation of polymorphic simple sequence loci in cetacean species, *Letter to Nature,* (Schlötterer, C, Amos, B and Tautz, D) **354,** 63
Equal mating success among male reproductive strategies in a marine isopod, *Letter to Nature,* (Shuster, S M and Wade, M J) **350,** 608
Evolution: Blood lines of the coelacanth, *News and views,* (Forey, P) **351,** 347
Evolution: Hypercycles spring to life, *News and views,* (May, R M) **353,** 607
Evolution: Sex, slime and selfish genes, *News and views,* (Hurst, L D) **354,** 23
Evolution: Two-layered awakening, *News and views,* (Barnes, R S K) **350,** 561
Evolution: When to be diploid, *News and views,* (Charlesworth, B) **351,** 273
Evolutionary and developmental biology: More fecund but not so fit, *News and views,* (Godfray, H C J and Harvey, P H) **354,** 190
Evolutionary biology: A case of self-deception, *News and views,* (Vane-Wright, R I) **350,** 460
Evolutionary ecology: How to live like a mammal, *News and views,* (Harvey, P H and Nee, S) **350,** 23
Experimental detection of rapid evolutionary response in natural lizard populations, *Letter to Nature,* (Malhotra, A and Thorpe, R S) **353,** 347
Fifty years of genetic load: An odyssey, (Wallace, B) *book review by* Charlesworth, B. **354,** 119
Floral colour changes as cues for pollinators, *Letter to Nature,* (Weiss, M R) **354,** 227
Genetic evidence for the spread of agriculture in Europe by demic diffusion, *Letter to Nature,* (Sokal, R R, Oden, N L and Wilson, C) **351,** 143
Haploidy or diploidy: which is better?, *Letter to Nature,* (Kondrashov, A S and Crow, J F) **351,** 314
Lack's solution?, *Scientific correspondence,* (Magrath, R D) **353,** 611
Localized sex in bacteria, *Review article,* (Maynard Smith, J, Dowson, C G and Spratt, B G) **349,** 29
Longevity, senescence and the genome, *book review by* Partridge, L. (Finch, C E) **351,** 198
Mimicry and viceroy butterflies, *Scientific correspondence,* (Malcolm, S) **353,** 24
Mimicry and viceroy butterflies, *Scientific correspondence,* (Ritland, D B and Brower, L P) **353,** 24
Mimicry and viceroy butterflies, *Scientific correspondence,* (MacCallum, W, Thacker, B and Johnson, G) **353,** 24
Obituary: Allan Charles Wilson (1934-1991), *News and views,* (Felsenstein, J) **353,** 19
One long argument: Charles Darwin and the genesis of evolutionary thought, *book review by* Bowler, P J., (Mayr, E) **353,** 713
Phylogeny and classification of birds: A study in molecular evolution, *book review by* Diamond, J M. (Sibley, C G and Ahlquist, J E) **350,** 537
Phylogeny, ecology and behavior: A research program in comparative biology, *book review by* Siebert, D J and Humphries, C J (Brooks, D R and McLennan, D A) **353,** 615
Plumage coloration is a sexually selected indicator of male quality, *Letter to Nature,* (Hill, G E) **350,** 337
Population biology: Flying in the face of reason, *News and views,* (Sutherland, W J) **353,** 211
Population genetics: Farming is in the blood, *News and views,* (Jones, J S) **351,** 97
Rapid spread of an inherited incompatibility factor in California *Drosophila, Letter to Nature,* (Turelli, M and Hoffmann, A A) **353,** 440
Seeing the fruits of deception, *News and views,* (Moore, P D) **351,** 189
Selfish psycho-darwinism, *Correspondence,* (Waller, M J C) **351,** 264
Sexual selection and the potential reproductive rates of males and females, *Letter to Nature,* (Clutton-Brock, T H and Vincent, A C J) **351,** 58
Size is important, *News and views,* **351,** 190
Stress and evolution, *Scientific correspondence,* (Parsons, P A) **351,** 356
The biology of the naked mole-rat, (Sherman, P W, Jarvis, J and Alexander, A editors) *book review by* Bertram, B. **354,** 29
The development and evolution of butterfly wing patterns, (Nijhout, H F) *book review by* Mallet, J. **354,** 368
The evolution of mating preferences and the paradox of the lek, *Review article,* (Kirkpatrick, M and Ryan, M J) **350,** 33
The viceroy butterfly is not a batesian mimic, *Letter to Nature,* (Ritland, D B and Brower, L P) **350,** 497
Transition from haploidy to diploidy, *Letter to Nature,* (Perrot, V, Richerd, S and Valéro, M) **351,** 315
Evolutionary ecology. Bird community structure, *Scientific correspondence,* (Cotgreave, P and Harvey, P H) **353,** 123
Ecology: Of size and abundance, *News and views,* (Damuth, J) **351,** 268
The relationship between abundance and body size in British birds, *Letter to Nature,* (Nee, S, Read, A F, Greenwood, J J D and Harvey, P H) **351,** 312
What does it cost a plant to produce floral nectar?, *Letter to Nature,* (Pyke, G H) **350,** 58
EXAFS. Environmental fine structure in low-energy β-particle spectra, *Letter to Nature,* (Koonin, S E) **354,** 468
Solid-state physics: Crystal effects in β-decay, *News and views,* (Rehr, J J) **354,** 436
Tracing the conversion of aurichalcite to a copper catalyst by combined X-ray absorption and diffraction, *Letter to Nature,* (Couves, J W, Thomas, J M, Waller, D, Jones, R H, Dent, A J, Derbeyshire, G E and Greaves, G N) **354,** 465
Exceptional abilities, origins of. The origins of exceptional abilities, *book review by* Bryant, P. (Howe, M J A) **350,** 532
Excitable media. Chemical waves: Crystals from dreams, *News and views,* (Winfree, A T) **352,** 568
Cross-membrane coupling of chemical spatiotemporal patterns, *Letter to Nature,* (Winston, D, Arora, M, Maselko, J, Gáspár, V and Showalter, K) **351,** 132
Super-spiral structures in an excitable medium, *Letter to Nature,* (Perez-Muñuzuri, V, Aliev, R, Baslev, B, Perez-Villar, V and Krinsky, V I) **353,** 740
Transition from a uniform state to hexagonal and striped Turing patterns, *Letter to Nature,* (Ouyang, Q and Swinney, H L) **352,** 610
Wave upon chemical wave, *News and views,* **351,** 99
Exhibitions, Switzerland. Science communication: Frustration in Switzerland, *News,* (Dickman, S) **351,** 597
Exocytosis. A small GTP-binding protein dissociates from synaptic vesicles during exocytosis, *Letter to Nature,* (Fischer von Mollard, G, Südhof, T C and Jahn, R) **349,** 79
Exons. Out of sequence, *News and views,* **350,** 21
Exploration, Mars. Making Mars habitable, *Review article,* (McKay, C P, Toon, O B and Kasting, J F) **352,** 489
Exploration, North Pole. Hero in disgrace: The true discoverer of the North Pole, Frederick A. Cook, *book review by* Fordham, D. (Abramson, H S) **352,** 293
Extensional magmatism. Extensional magmatism: The rift narrows, *News and views,* (Ellam, R) **351,** 525
Extinction. Extinction: Bad genes or bad luck?, (Raup, D M) *book review by* Hallam, A. **354,** 327
The miner's canary: Unravelling the mysteries of extinction, (Eldredge, N) *book review by* Hallam, A. **354,** 327
Extracellular proteins. Key residues involved in calcium-binding motifs in EGF-like domains, *Letter to Nature,* (Handford, P A, Mayhew, M, Baron, M, Winship, P R, Campbell, I D and Brownlee, G G) **351,** 164
Extragalactic radio sources. Evidence for a common central-engine mechanism in all extragalactic radio sources, *Letter to Nature,* (Rawlings, S and Saunders, R) **349,** 138
Extraterrestrial intelligence. The cosmic water hole, (Davoust, E) *book review by* Tipler, F J. **354,** 334
Eye, development. Interaction of *bride of sevenless* membrane-bound ligand and the *sevenless* tyrosine-kinase receptor, *Article,* (Krämer, H, Cagan, R L and Zipursky, S L) **352,** 207
Eye, Drosophila. Developmental biology: A marriage is consummated, *News and views,* (Lawrence, P A and Tomlinson, A) **352,** 193
Eyes, binocular vision. Visual neuroscience: Misaligned viewpoints, *News and views,* (Parker, A J) **352,** 109
Eyes. Depth is encoded in the visual cortex by a specialized receptive field structure, *Letter to Nature,* (DeAngelis, G C, Ohzawa, I and Freeman, R D) **352,** 156
Factory farming. Factory farming, *book review by* Singer, P., (Johnson, A) **353,** 613
Faraday, Michael. Celebration of a dead genius, *News and views,* (Maddox, J) **353,** 599
Farming, Europe. Genetic evidence for the spread of agriculture in Europe by demic diffusion, *Letter to Nature,* (Sokal, R R, Oden, N L and Wilson, C) **351,** 143
Population genetics: Farming is in the blood, *News and views,* (Jones, J S) **351,** 97
Fat, edible. Beneficial effects of ghee, *Scientific correspondence,* (Aneja, R P and Murthi, T N) **350,** 280
Faulting. A possible normal-fault rupture for the 464 BC Sparta earthquake, *Letter to Nature,* (Armijo, R, Lyon-Caen, H and Papanastassiou, D) **351,** 137
An automaton for fractal patterns of fragmentation, *Letter to Nature,* (Steacy, S J and Sammis, C G) **353,** 250
Geological faulting: Do little things matter?, *News and views,* (King, G and Cisternas, A) **351,** 350
Quasi-static fault growth and shear fracture energy in granite, *Article,* (Lockner, D A, Byerlee, J D, Kuksenko, V, Ponomarev, A and Sidorin, A) **350,** 39
Rock mechanics: Action replay for fracture, *News and views,* (Wong, T-f) **350,** 17
Seismic quiescence at Parkfield due to detachment faulting, *Letter to Nature,* (Stuart, W D) **349,** 58
The importance of small-scale faulting in regional extension, *Letter to Nature,* (Walsh, J, Watterson, J and Yielding, G) **351,** 391
The San Andreas Fault system, California, *book review by* Sibson, R. (Wallace, R E **352,** 487
Transform faults and vertical tectonics, *News and views,* **349,** 371
Water at fault, *News and views,* **351,** 520
FBI. Imprints on DNA fingerprints, *Scientific correspondence,* (Shapiro, M M) **353,** 121
Feeding, birds. Fitness consequences of foraging behaviour in the zebra finch, *Letter to Nature,* (Lemon, W C) **352,** 153
Feldspars, diffusion. Effect of fluorine on solid-state alkali interdiffusion rates in feldspar, *Letter to Nature,* (Snow, E and Kidman, S) **349,** 231
Female choice. Colour coding, *News and views,* **350,** 21
Plumage coloration is a sexually selected indicator of male quality, *Letter to Nature,* (Hill, G E) **350,** 337
The evolution of mating preferences and the paradox of the lek, *Review article,* (Kirkpatrick, M and Ryan, M J) **350,** 33
Fennoscandian ice sheet. Initiation of Fennoscandian ice-sheet retreat during the last deglaciation, *Letter to Nature,* (Lehman, S J, Jones, G A, Keigwin, L D, Andersen, E S, Butenko, G and Ostmo, S-R) **349,** 513
Ferranti, Sebastian Ziani de. Ferranti and the British Electrical Industry,1864-1940, *book review by* Hackmann, W. (Wilson, J F) **352,** 119
Ferritin. Synthesis of inorganic nanophase materials in supramolecular protein cages, *Letter to Nature,* (Meldrum, F C, Wade, V J, Nimmo, D L, Heywood, B R and Mann, S) **349,** 684
Ferromagnets. Texturing of magnetic materials at high temperature by solidification in a magnetic field, *Letter to Nature,* (de Rango, P, Lees, M, Lejay, P, Sulpice, A, Tournier, R, Ingold, M, Germi, P and Pernet, M) **349,** 770
Fertilizers, nitrate. Fertilizer and climate change, *Scientific correspondence,* (Turner, R E) **349,** 469
Fertilizer and snowfall nitrate, *Scientific correspondence,* (Mulvaney, R) **352,** 27
Fetal research. Fetal tissue research, *News,* (Aldhous, P) **352,** 362
Fetal sex tests, India. India: Saving female babies, *News,* (Jayaraman, K S) **353,** 594
Fetal tissue research. Fetal tissue research: New panel for ethical issues, *News,* (Gershon, D) **349,** 184
Fetal tissue research: Tissue ban under fire, *News,* (Anderson, C) **350,** 543
US squeamishness, *Opinion,* **349,** 181
Fibre optics. A fibre-optic chemical sensor with discrete sensing sites, *Letter to Nature,* (Barnard, S M and Walt, D R) **353,** 338
Fibrillin gene. Linkage of Marfan syndrome and a phenotypically related disorder to two different fibrillin genes, *Letter to Nature,* (Lee, B, Godfrey, M, Vitale, E, Hori, H, Mattei, M-G, Sarfarazi, M, Tsipouras, P, Ramirez, F and Hollister, D W) **352,** 330
Marfan syndrome caused by a recurrent *de novo* missense mutation in the fibrillin gene, *Letter to Nature,* (Dietz, H C, Cutting, G R, Pyeritz, R E, Maslen, C L, Sakai, L Y, Corson, G M, Puffenberger, E G, Hamosh, A, Nanthakumar, E J, Curristin, S M, Stetten, G, Meyers, D A and Francomano, C A) **352,** 337
Partial sequence of a candidate gene for the Marfan syndrome, *Letter to Nature,* (Maslen, C L, Corson, G M, Mad-

dox, B K, Glanville, R W and Sakai, L Y) **352,** 334
Fibrillin. Calcium binding to fibrillin?, *Scientific correspondence,* (Handford, P A, Mayhew, M and Brownlee, G G) **353,** 395
Fibroblast growth factors. The *int-2* proto-oncogene is responsible for induction of the inner ear, *Letter to Nature,* (Represa, J, León, Y, Miner, C and Giraldez, F) **353,** 561
Fibroblasts. Complementation of transforming domains in E1a/*myc* chimaeras, *Letter to Nature,* (Ralston, R) **353,** 866
Failure of wild-type or a mutant form of protein kinase C-α to transform fibroblasts, *Letter to Nature,* (Borner, C, Filipuzzi, I, Weinstein, I B and Imber, R) **353,** 78
Fick's law. A bigger can of worms?, *Scientific correspondence,* (Malone, P C and Wheatley, D N) **349,** 373
Fifth force. *G* whizz, *News and views,* **354,** 437
Filoviruses. Animal research: Primate imports confusion, *News,* (Anderson, C) **351,** 510
Fimbrin. Requirement of yeast fimbrin for actin organization and morphogenesis *in vivo* (Adams, A E M, Botstein, D and Drubin, D G) **354,** 404
Fire, Australia. Burning bush: A fire history of Australia, *book review by* Gowlett, J A J. (Pyne, S J) **350,** 539
Fireflies, synchronization of. Firefly synchrony, *Scientific correspondence,* (Ermentrout, G B) **353,** 220
First-principles structure calculations. Ionicity in silica, *Scientific correspondence,* (Silvi, B, D'Arco, P and Causà, M) **353,** 394
Structural transformation of quartz at high pressures, *Letter to Nature,* (Binggeli, N and Chelikowsky, J R) **353,** 344
Fish, gills. Fish-like gills and breathing in the earliest known tetrapod, *Letter to Nature,* (Coates, M I and Clack, J A) **352,** 234
Fisheries. Crisis in the World's Fisheries: People, Problems and Policies, *book review by* Shepherd, J. (McGoodwin, J R) **352,** 29
Fitness, thermodynamics. Is Darwinism a thermodynamic necessity?, *News and views,* (Maddox, J) **350,** 653
FK506-binding protein. Solution structure of the major binding protein for the immunosuppressant FK506, *Letter to Nature,* (Moore, J M, Peattie, D A, Fitzgibbon, M J and Thomson, J A) **351,** 248
FK506. FK506 and protein kinase C, *Scientific correspondence,* (Tropschug, M and Hofmann, R) **351,** 195
Immunosuppression: Binding by design, *News and views,* (Ringe, D) **351,** 185
Flame chemistry, fullerenes. Fullerenes C_{60} and C_{70} in flames, *Letter to Nature,* (Howard, J B, McKinnon, J T, Makarovsky, Y, Lafleur, A L and Johnson, M E) **352,** 139
Flight, man-powered. Otto Lilienthal: Early flight pioneer commemorated, *News,* (Dickman, S) **351,** 177
Flood, India. India: Atomic lab flooded, *News,* (Jayaraman, K S) **352,** 272
Floods. Lake Nyos dam threat, *Scientific correspondence,* (Lockwood, J P and Schuster, R L) **351,** 195
Floral colour change. Floral colour changes as cues for pollinators, *Letter to Nature,* (Weiss, M R) **354,** 227
Flower development. The war of the whorls: genetic interactions controlling flower development, *Review article,* (Coen, E S and Meyerowitz, E M) **353,** 31
Fluid dynamics. Fast dynamo action in a steady chaotic flow, *Letter to Nature,* (Gilbert, A D) **350,** 483
Fluid dynamics: Forging the missing link, *News and views,* (Jones, J D S) **354,** 21
Linking of vortex rings, *Letter to Nature,* (Arel, H and Zawadzki, I) **354,** 50
Mixing-layer distortion at the confluence of channels of different depth, *Letter to Nature,* (Best, J L and Roy, A G) **350,** 411
Fluid flow, crustal. Isotopic evidence for involvement of COS12T-bearing magmas in granulite formation, *Letter to Nature,* (Farquhar, J and Chacko, T) **354,** 60
Fluid flow, porous media. Dispersion and advection in unsaturated porous media enhanced by anion exclusion, *Letter to Nature,* (Gvirtzman, H and Gorelick, S M) **352,** 703
Fluid inclusions, diamonds. High internal pressures in diamond fluid inclusions determined by infrared absorption, *Letter to Nature,* (Navon, O) **353,** 746
Fluid mechanics. Air entrainment and dissipation in breaking waves, *Letter to Nature,* (Lamarre, E and Melville, W K) **351,** 469
Magnetically controlled convection in a paramagnetic fluid, *Letter to Nature,* (Braithwaite, D, Beaugnon, E and Tournier, R) **354,** 134
Rediscovery of Da Rios equations, *Commentary,* (Ricca, R L) **352,** 561
Fluorescence ratio imaging. Fluorescence ratio imaging of cyclic AMP in single cells, *Letter to Nature,* (Adams, S R, Harootunian, A T, Buechler, Y J, Taylor, S S and Tsien, T Y) **349,** 694
Fluorescence spectroscopy. Fluorescence spectroscopy and spectral diffusion of single impurity molecules in a crystal, *Letter to Nature,* (Ambrose, W P and Moerner, W E) **349,** 225
Off-axis orientation of the electronic transition moment for a linear conjugated polyene, *Letter to Nature,* (Shang, Q-y, Dou, X and Hudson, B S) **352,** 703
Solid-state physics: Single-molecule probes, *News and views,* (Skinner, J L) **349,** 195
Fluoride, health risk. Epidemiology: Fluoride given the all clear, *News,* (Anderson, C) **349,** 732
Fluorine, carbonatites. The role of fluorine in carbonatite magma evolution, *Letter to Nature,* (Jago, B C and Gittins, J) **349,** 56
Flux lattices. High-temperature superconductivity: Attractive vortices, *News and views,* (Kes, P H) **350,** 192
Flux lines, superconductivity. Superconductivity: Flux lines on video holograms, *News and views,* (Caplin, D) **350,** 14
Foams, graphite. Diamond from graphite, *Scientific correspondence,* (Mackay, A L and Terrones, H) **352,** 762
Food and Drug Administration, US. FDA announces reforms of drug review process, *News,* (Anderson, C) **354,** 173
FDA vs. free speechover drug promotions, *News,* (Anderson, C) **354,** 421
Food and Drug Administration: FDA upgrade proposed, *News,* (Gershon, D) **351,** 258
Food and Drug Administration: Integrity review halted, *News,* (Anderson, C) **353,** 590
When is a conference independent?, *News,* (Anderson, C) **354,** 421
Food irradiation. Food irradiation: Compromise eludes EC, *News,* (Dickman, S) **349,** 273
Food preservation. Frosty foods, *Correspondence,* (Cuthbertson, W F J) **351,** 434
Food safety, US. Risk assessment: End of an era, *News,* (Anderson, C) **353,** 289
Food science. Beneficial effects of ghee, *Scientific correspondence,* (Aneja, R P and Murthi, T N) **350,** 280
Trends in food science and technology, *journal review by* Cheeseman, G C., (O'Brien, J *editor*) **353,** 475
Food supplements. Biotechnology: Yellow light on L-tryptophan, *News,* (Aldhous, P) **353,** 490
Food webs. Food web patterns and their consequences, *Review article,* (Pimm, S L, Lawton, J H and Cohen, J E) **350,** 669
Food, frozen. Frosty foods, *Correspondence,* (Cuthbertson, W F J) **351,** 434
Food, refrigeration. Bacon's chicken, *Correspondence,* (Woods, K L and Woods, R) **352,** 368
Food, vegetarian. Sesame sauce, *News and views,* **353,** 118
Foraging, birds. Fitness consequences of foraging behaviour in the zebra finch, *Letter to Nature,* (Lemon, W C) **352,** 153
Forecasting, chaos. Calculating the rate of loss of information from chaotic time series by forecasting, *Letter to Nature,* (Wales, D J) **350,** 485
Forensic anthropology. Witness from the grave: The stories bones tell, *book review by* Green, M A. (Joyce, C and Stover, E) **350,** 389
Forensic science, Imanishi-Kari affair. Dissent on forensic evidence, *Commentary,* (McDevitt, H O and Storb, U) **352,** 184
Forensic science. Independence of forensic science, *Opinion,* **350,** 95
Minisatellite repeat coding as a digital approach to DNA typing, *Article,* (Jeffreys, A J, MacLeod, A, Tamaki, K, Neil, D L and Monckton, D G) **354,** 204
PCR DNA typing for forensics, *Correspondence,* (Dallapiccola, B, Novelli, G and Spinella, A) **354,** 179
Trivial error, *Scientific correspondence,* (Evett, I W) **354,** 114
UK forensic science: Forensic reform needed now, *News,* (Aldhous, P) **351,** 262
Forest decline. Terpenes and forest decline, *Scientific correspondence,* (Ross, H B and De Serves, C) **352,** 672
Terpenes and forest decline: Reply, *Scientific correspondence,* (Becker, K H, Brockmann, K J and Bechara, J) **352,** 672
Forest fires. Flash and burn, *News and views,* **353,** 601
Forests, tropical. The conservation atlas of tropical forests: Asia and the Pacific, *book review by* Buwa, K S. (Collins, N M, Sayer, J A and Whitmore, T C **352,** 294
Formaldehyde, ice cores. A record of the atmospheric methane sink from formaldehyde in polar ice cores, *Letter to Nature,* (Staffelbach, T, Neftel, A, Stauffer, B and Jacob, D) **349,** 603
Fos protein. Oncogenic and transcriptional cooperation with Ha-Ras requires phosphorylation of c-Jun on serines 63 and 73, *Letter to Nature,* (Smeal, T, Binetruy, B, Mercola, D A, Birrer, M and Karin, M) **354,** 494
Fossey, Dian. Walking with the great apes, *book review by* Jolly, A. (Montgomery, S) **350,** 534
Fossil birds. Early bird, *News and views,* **353,** 601
Palaeontology: The bird in the bush, *News and views,* (Ostrom, J H) **353,** 212
Fossil fuel burning. Proof negative, *Correspondence,* (Sundt, N) **352,** 187
Worrying trends, *Correspondence,* (Rout, A) **354,** 261
Fossil fuels, use of. Squaring circle of US energy, *Opinion,* **349,** 725
Fossil fuels. Will we reach the greenhouse?, *Scientific correspondence,* (Hatfield, C B) **351,** 355
Fossil record. Fossil first, *News and views,* **354,** 108
Fossil reptiles. Early bird, *News and views,* **353,** 601
Fossilization. The processes of fossilization, (Donovan, S K *editor*) *book review by* Palmer, D. **354,** 120
Fossils, China. In the swim, *News and views,* **350,** 195
Fossils, tetrapod. Fish-like gills and breathing in the earliest known tetrapod, *Letter to Nature,* (Coates, M I and Clack, J A) **352,** 234
Fossils. Dorsal nostrils and hydrodynamically driven underwater olfaction in plesiosaurs, *Letter to Nature,* (Cruickshank, A R I, Small, P G and Taylor, M A) **352,** 62
Extreme sexual dimorphism in a Miocene hominoid, *Letter to Nature,* (Kelley, J and Qinghua, X) **352,** 151
Palaeoanthropology: Teeth, sex and species, *News and views,* (Martin, L) **352,** 111
Fourier-transform infrared spectroscopy. Microbiological characterizations by FT-IR spectroscopy, *Product Review,* (Naumann, D, Helm, D and Labischinski, H) **351,** 81
Foxes. Large scale eradication of rabies using recombinant vaccinia-rabies vaccine, *Letter to Nature,* (Brochier, B, Kieny, M P, Costy, F, Coppens, P, Bauduin, B, Lecocq, J P, Languet, B, Chappuis, G, Desmettre, P, Afiademanyo, K, Libois, R and Pastoret, P-P) **354,** 521
Fractals, fracture. An automaton for fractal patterns of fragmentation, *Letter to Nature,* (Steacy, S J and Sammis, C G) **353,** 250
Fractals. An invasion percolation model of drainage network evolution, *Letter to Nature,* (Stark, C P) **352,** 423
Chemical fluff, *News and views,* **354,** 266
Fractals, chaos, power laws: Minutes from an infinite paradise, *book review by* May, R M. (Schroeder, M) **350,** 524
Hum drum, *News and views,* **354,** 357
Olbers' paradox: Dandekar, T, *Scientific correspondence,* **351,** 21
Structure and growth mechanism of mineral dendrites, *Letter to Nature,* (Chopard, B, Herrmann, H J and Vicsek, T) **353,** 409
Fracture zones. Unusual sea-floor fabric near the Bullard fracture zone imaged by GLORIA sidescan sonar, *Letter to Nature,* (Livermore, R A, Tomlinson, J S and Woollett, R W) **353,** 158
Fracture, fractals. An automaton for fractal patterns of fragmentation, *Letter to Nature,* (Steacy, S J and Sammis, C G) **353,** 250
Fracture. Quasi-static fault growth and shear fracture energy in granite, *Article,* (Lockner, D A, Byerlee, J D, Kuksenko, V, Ponomarev, A and Sidorin, A) **350,** 39
Rock mechanics: Action replay for fracture, *News and views,* (Wong, T-f) **350,** 17
Fragile-X. Abnormal pattern detected in fragile-X patients by pulsed-field gel electrophoresis, *Letter to Nature,* (Vincent, A, Heitz, D, Petit, C, Kretz, C, Oberlé, I and Mandel, J-L) **349,** 624
Human genetics: Methylation and the fragile X, *News and views,* (Craig, I) **349,** 742
Human genetics: Breaking the fragile X, *News and views,* (Davies, K) **351,** 439
Framework programme. Compromise averts Framework fiasco, *News,* (Aldhous, P) **350,** 641
France, agriculture. BSE: First *vache folle, News,* (Coles, P) **350,** 4
France, AIDS research. AIDS research: Inquiry launched into ethical procedures, *News,* (Coles, P and Anderson, C) **350,** 179
AIDS research: French minister clears Zagury, *News,* (Cullinton, B J) **350,** 546
France, AIDS scandal. "AIDSgate" - a chronology, *News,* (Anderson, C) **353,** 197
AIDS scandal indicts French government, *News,* (Anderson, C) **353,** 197
French blood scandal echoes across Europe, *News,* (Aldhous, P) **353,** 781
France, Antarctic research. Antarctic research: French research threatened, *News,* (Coles, P) **349,** 553
Antarctica: Reprieve for French polar expeditions?, *News,* (Coles, P) **350,** 265
Landing str[illegible] Engineering feat or blight?, *News,* (Coles, P) **350,** 301
Research in Antarctica: France in Antarctica: Change unsettles Antarctic old hands, *News,* (Coles, P) **350,** 299
Research in Antarctica: The good life: A base marching on its stomach . . ., *News,* (Coles, P) **350,** 299
Research in Antarctica: Finance and organization: research takes a back seat, *News,* (Coles, P) **350,** 300
Research in Antarctica: Administration: Capital philately, *News,* (Coles, P) **350,** 300
Research in Antarctica: Future: Dome C: new Antarctic base, *News,* (Coles, P) **350,** 302
France, biotechnology. Biotechnology: French drug industry initiative, *News,* (Anderson, C) **353,** 487
France, blood transfusion. French blood scandal echoes across Europe. *News,* (Aldhous, P) **353,** 781
French blood scandal: The clot thickens, *News,* (Aldhous, P) **354,** 98
France, bovine spongiform encephalopathy. BSE: First *vache folle, News,* (Coles, P) **350,** 4
France, corruption. French scandal, *News,* (Anderson, C) **352,** 99
France, education. Friends for France, *Opinion,* **352,** 176
France, HIV infection. HIV infection: France will compensate, *News,* (Aldhous, P) **354,** 425
France, language. La langue: French leave the circumflex unscathed, *News,* (Wenz, C) **349,** 553
France, nuclear reactors. European physics: Cracks shut neutron reactor, *News,* (Anderson, C) **352,** 178
France, polar research. French polar research: Poles together, *News,* (Aldhous, P) **354,** 425
France, prize minister. French research: Science policy from abroad, *News,* (Anderson, C) **351,** 257
France, research funding. Antarctic research: French research threatened, *News,* (Coles, P) **349,** 553
France: Budget cuts for research, *News,* (Coles, P) **350,** 181
Research in Antarctica: Finance and organization: research

takes a back seat, *News*, (Coles, P) **350,** 300
France, research grants. France: research grants or handouts?, *News*, (Anderson, C) **353,** 98
France, research. Pasteur Institute: New building defies the metro, *News*, (Coles, P) **350,** 103
France, science policy. French research: Science policy from abroad, *News*, (Anderson, C) **351,** 257
Research assured, *Opinion*, **351,** 256
France, universities. France's peers overseas, *Correspondence*, (Courtillot, V) **353,** 786
Friends for France, *Opinion*, **352,** 176
Universities: Battling for and against rising numbers, *News*, **349,** 6
Fraud, scientific. Fraudulent slur, *Correspondence*, (Simón, A) **349,** 274
NIH need clear definition of fraud, *News and views*, (Culliton, B J) **352,** 563
Free electrons, interstellar. The galactic distribution of free electrons, *Article*, (Cordes, J M, Weisberg, J M, Frail, D A, Spangler, S R and Ryan, M) **354,** 121
Freezing transition. Materials science: Dropping below freezing point, *News and views*, (Cahn, R W) **349,** 736
Freud, Sigmund. Final analysis: The making and unmaking of a psychoanalyst, (Masson, J) *book review by* Shepherd, M. **354,** 331
Frolov, Ivan. Man, science, humanism: A new synthesis, *book review by* Graham, L. (Frolov, I) **350,** 527
Fructose 1,6-bisphosphatase. Regulated import and degradation of a cytosolic protein in the yeast vacuole, *Article*, (Chiang, H-L and Schekman, R) **350,** 313
Fullerenes, astrophysics. Comparison of a calculated spectrum of $C_{60}H_{36}$ with the unidentified astronomical infrared emission features, *Letter to Nature*, (Webster, A) **352,** 412
Fullerenes, crystallography. C_{70} zeolites?, *Scientific correspondence*, (O'Keeffe, M) **352,** 674
Crystal structure and bonding of ordered C_{60}, *Letter to Nature*, (David, W I F, Ibberson, R M, Matthewman, J C, Prassides, K, Dennis, T J S, Hare, J P, Kroto, H W, Taylor, R and Walton, D R M) **353,** 147
Fullerenes, doped. Preparation and structure of the alkali-metal fulleride A_3C_{60}, *Letter to Nature*, (Fleming, R M, Rosseinsky, M J, Ramirez, A P, Murphy, D W, Tully, J C, Haddon, R C, Siegrist, T, Tycko, R, Glarum, S H, Marsh, P, Dabbagh, G, Zahurak, S M, Makhija, A V and Hampton, C) **352,** 701
Fullerenes, muon spin relaxation. Muonium in fullerite, *Scientific correspondence*, (Ansaldo, E J, Niedermayer, C and Stronach, C E) **353,** 121
Fullerenes, superconductivity. Electronic states and phases of K_xC_{60} from photoemission and X-ray absorption spectroscopy, *Letter to Nature*, (Chen, C T, Tjeng, L H, Rudolf, P, Meigs, G, Rowe, J E, Chen, J, McCauley Jr, J P, Smith III, A B, McGhie, A R, Romanow, W J and Plummer, E W) **352,** 603
Magnetic-field penetration depth in K_3C_{60} measured by muon spin relaxation, *Letter to Nature*, (Uemura, Y J, Keren, A, Le, L P, Luke, G M, Sternlieb, B J, Wu, W D, Brewer, J H, Whetten, R L, Huang, S M, Lin, S, Kaner, R B, Diederich, F, Donovan, S, Grüner, G and Holczer, K) **352,** 605
Relation of structure and superconducting transition temperatures in A_3C_{60}, *Letter to Nature*, (Fleming, R M, Ramirez, A P, Rosseinsky, M J, Murphy, D W, Haddon, R C, Zahurak, S M and Makhija, A V) **352,** 787
The superconducting energy gap of Rb_3C_{60}, *Letter to Nature*, (Zhang, Z, Chen, C-C, Kelty, S P, Dai, H and Lieber, C M) **353,** 333
Fullerenes. Absence of a metallic phase at high pressures in CS160T, *Letter to Nature*, (Reguiro, M N, Monceau, P, Rassat, A, Bernier, P and Zahab, A) **354,** 289
Activated CS170T and diamond, *Scientific correspondence*, (Meilunas, R, Chang, R P H, Liu, S and Kappes, M M) **354,** 271
Fullerenes from coal, *Scientific correspondence*, (Pang, L S K, Vassallo, A M and Wilson, M A) **352,** 480
Insider dealing, *News and views*, **352,** 380
Isolation of C_{76}, a chiral (*D Letter to Nature*, (Ettl, R, Chao, I, Diederich, F and Whetten, R L) **353,** 149
Needles in a carbon haystack, *News and views*, (Ball, P) **354,** 18
Superconductors: Fullerene false alarm, *News*, (Swinbanks, D) **353,** 377
Vibrational spectroscopy of superconducting KS13TCS160T by inelastic neutron scattering, *Letter to Nature*, (Prassides, K, Tomkinson, J, Christides, C, Rosseinsky, M J, Murphy, D W and Haddon, R C) **354,** 462
Fundamental physics. Where has fundamental physics gone?, *News and views*, (Maddox, J) **354,** 263
Funding, Germany. German research budget robs west to pay east, *News*, (Dickman, S) **352,** 267
Fusion research, US. Department of Energy faces hard choices, *News*, (Pool, R) **353,** 287
DoE rallies to save US fusion research programme, *News*, (Anderson, C) **349,** 269
US research policy: New direction for fusion, *News*, (Pool, R) **353,** 372
Fusion research. Burning tritium, *Opinion*, **354,** 94
Fusion research: ITER work is shared out, *News*, (Aldhous, P) **352,** 179
Fusion: First use of tritium, *News*, (Pease, R) **354,** 95
Scientific misconduct: Cold fusion tempest at MIT, *News*, (Anderson, C) **353,** 98
G protein-coupled receptors. Cloning and expression of a complementary DNA encoding a bovine adrenal angiotensin II type-1 receptor, *Letter to Nature*, (Sasaki, K, Yamano, Y, Bardhan, S, Iwai, N, Murray, J J, Hasegawa, M, Matsuda, Y and Inagami, T) **351,** 230
Isolation of a cDNA encoding the vascular type-1 angiotensin II receptor, *Letter to Nature*, (Murphy, T J, Alexander, R W, Griendling, K K, Runge, M S and Bernstein, K E) **351,** 233
Sequence and expression of a metabotropic glutamate receptor, *Article*, (Masu, M, Tanabe, Y, Tsuchida, K, Shigemoto, R and Nakanishi, S) **349,** 760
Thrombin receptor: Variations on a theme, *News and views*, (Lefkowitz, R J) **351,** 353
G proteins. Activation by adrenaline of a low-conductance G protein-dependent K$^+$ channel in mouse pancreatic B cells, *Letter to Nature*, (Rorsman, P, Bokvist, K, Ämmälä, C, Arkhammar, P, Berggren, P-O, Larsson, O and Wåhlander, K) **349,** 77
Activation of the β1 isozyme of phospholipase C by α subunits of the G_q class of G proteins, *Letter to Nature*, (Taylor, S J, Chae, H Z, Rhee, S G and Exton, J H) **350,** 516
Assignment of G-protein subtypes to specific receptors inducing inhibition of calcium currents, *Article*, (Kleuss, C, Hescheler, J, Ewel, C, Rosenthal, W, Schultz, G and Wittig, B) **353,** 43
Channel control, *Scientific correspondence*, (Pelzer, S, McDonald, T F and Pelzer, D J) **354,** 363
Channel control, *Scientific correspondence*, (Yatani, A and Brown, A M) **354,** 363
Channel control: Reply, *Scientific correspondence*, (Hartzell, H C, Méry, P F, Fischmeister, R and Szabo, G) **354,** 364
Cloning of the gene for a human dopamine D_3 receptor with higher affinity for dopamine than D_2, *Letter to Nature*, (Sunahara, R K, Guan, H-C, O'Dowd, B F, Seeman, P, Laurier, L G, Ng, G, George, S R, Torchia, J, Van Tol, H H M and Niznik, H B) **350,** 614
Colon cancer: Consider the coiled coil . . ., *News and views*, (Bourne, H R) **351,** 188
Mutant α subunits of G_q inhibit cyclic AMP accumulation, *Letter to Nature*, (Wong, Y H, Federman, A, Pace, A M, Zachary, I, Evans, T, Pouysségur, J and Bourne, H R) **351,** 63
Olfaction: The strong scent of success, *News and views*, (Lancet, D) **351,** 275
On the scent, *News and views*, **353,** 601
Subcellular patterns of calcium release determined by G protein-specific residues of muscarinic receptors, *Letter to Nature*, (Lechleiter, J, Girard, S, Clapham, D and Peralta, E) **350,** 505
G7 summit, London. Summit gets something done, *Opinion*, **352,** 265
GABA, brain development. Zinc and GABA in developing brain, *Scientific correspondence*, (Ben-Ari, Y and Cherubini, E) **353,** 220
GABA. $GABA_B$ autoreceptors regulate the induction of LTP, *Letter to Nature*, (Davies, C H, Starkey, S J, Pozza, M F and Collingridge, G L) **349,** 609
Galactic bars. A dynamical instability of bars in disk galaxies, *Letter to Nature*, (Raha, N, Sellwood, J A, James, R A and Kahn, F D) **352,** 411
Galactic Centre. A filamentary radio source near the Galactic Centre, *Letter to Nature*, (Gray, A D, Cram, L E, Ekers, R D and Goss, W M) **353,** 237
A molecular gas streamer feeding the Galactic Centre, *Article*, (Ho, P T P, Ho, L C, Szczepanski, J C, Jackson, J M, Armstrong, J T and Barrett, A H) **350,** 309
High-resolution VLA images of the Galactic Centre at 2-cm wavelength with large dynamic range, *Letter to Nature*, (Zhao, J-H, Goss, W M, Lo, K Y and Ekers, R D) **354,** 46
Is the Galactic Centre gamma-ray source 1E1740.7-2942 accreting from a molecular cloud?, *Letter to Nature*, (Bally, J and Leventhal, M) **353,** 234
Milky Way galaxy: annihilation near the centre, *News and views*, (Ramaty, R and Lingenfelter, R E) **353,** 215
Galactic clusters, evolution. Iron distribution in the intracluster gas of the Virgo cluster of galaxies, *Letter to Nature*, (Koyama, K, Takano, S and Tawara, Y) **350,** 135
Galactic clusters. Large-scale structure in the Universe, *Review article*, (Kashlinsky, A and Jones, B J T) **349,** 753
Galactic evolution. A dynamical instability of bars in disk galaxies, *Letter to Nature*, (Raha, N, Sellwood, J A, James, R A and Kahn, F D) **352,** 411
A post-core-collapse model for the nucleus of M33, *Letter to Nature*, (Hernquist, L, Hut, P and Kormendy, J) **354,** 376
Astronomy: Slow-motion galactic birth, *News and views*, (Silk, J) **351,** 191
Black holes: Bigger and better, *News and views*, (Binney, J) **351,** 101
Evidence from stellar abundances for a large age difference between two globular clusters, *Letter to Nature*, (Dickens, R J, Croke, B F W, Cannon, R D and Bell, R A) **351,** 212
Galactic astronomy: A census of the Milky Way, *News and views*, (Gilmore, G) **353,** 604
Galactic evolution: Dwarf galaxies' vanishing act, *News and views*, (Laccy, C) **354,** 430
Galactic structure: When galaxies get together, *News and views*, (Quinn, P J) **349,** 571
Galaxies: Inner secrets of ellipticals, *News and views*, (Binney, J) **354,** 186
Galaxy evolution: Our dim and distant past, *News and views*, (Ellis, R S) **351,** 606
Merging of two galaxies with central black holes, *Letter to Nature*, (Ebisuzaki, T and Makino, J) **354,** 212
Milky Way: Not with a whimper, *News and views*, (Blitz, L) **350,** 110
Origin of kinematic subsystems in elliptical galaxies, *Letter to Nature*, (Hernquist, L and Barnes, J E) **354,** 210
The case for the relativistic hot Big Bang cosmology, *Review article*, (Peebles, P J E, Schramm, D N, Turner, E L and Kron, R G) **352,** 769
Were small galaxies once the dominant cosmological population?, *Letter to Nature*, (Cowie, L L, Songaila, A and Hu, E M) **354,** 460
Galactic kinematics. Galactic astronomy: A census of the Milky Way, *News and views*, (Gilmore, G) **353,** 604
Galactic magnetism. Correlation of magnetic and optical structure in the barred spiral galaxy M83, *Letter to Nature*, (Neininger, N, Klein, U, Beck, R and Wielebinski, R) **352,** 781
Galactic magnetic fields: Spinning a tangled web, *News and views*, (Zweibel, E) **352,** 755
Galactic mergers. Merging of two galaxies with central black holes, *Letter to Nature*, (Ebisuzaki, T and Makino, J) **354,** 212
Origin of kinematic subsystems in elliptical galaxies, *Letter to Nature*, (Hernquist, L and Barnes, J E) **354,** 210
Galactic morphology. Morphological differences between optical and infrared images of the spiral galaxy NGC309, *Letter to Nature*, (Block, D L and Wainscoat, R J) **353,** 48
Galactic structure. A post-core-collapse model for the nucleus of M33, *Letter to Nature*, (Hernquist, L, Hut, P and Kormendy, J) **354,** 376
Correlation of magnetic and optical structure in the barred spiral galaxy M83, *Letter to Nature*, (Neininger, N, Klein, U, Beck, R and Wielebinski, R) **352,** 781
Dependence of galaxy properties on viewing angle, *Review article*, (Burstein, D, Haynes, M P and Faber, S M) **353,** 515
Galaxies: Inner secrets of ellipticals, *News and views*, (Binney, J) **354,** 186
High-resolution optical observations compared to radio structure of the jet in M87, *Letter to Nature*, (Stiavelli, M, Møller, P and Zeilinger, W W) **354,** 132
Is the bulge of our Galaxy triaxial?, *Letter to Nature*, (Nakada, Y, Deguchi, S, Hashimoto, O, Izumiura, H, Onaka, T, Sekiguchi, K and Yamamura, I) **353,** 140
Origin of kinematic subsystems in elliptical galaxies, *Letter to Nature*, (Hernquist, L and Barnes, J E) **354,** 210
Galactose oxidase. Novel thioether bond revealed by a 1.7 Å crystal structure of galactose oxidase, *Letter to Nature*, (Ito, N, Phillips, S E V, Stevens, C, Ogel, Z B, McPherson, M J, Keen, J N, Yadav, K D S and Knowles, P F) **350,** 87
Galaxies, dark halos. Galactic halo gamma rays, *Scientific correspondence*, (Shaham, J) **354,** 439
Galaxies, distribution of. Cosmology: Cold dark matter makes an exit, *News and views*, (Lindley, D) **349,** 14
The density field of the local Universe, *Article*, (Saunders, W, Frenk, C, Rowan-Robinson, M, Efstathiou, G, Lawrence, A, Kaiser, N, Ellis, R, Crawford, J, Xia, X-Y and Parry, I) **349,** 32
Galaxies, Hubble flow. Astronomy: A smooth ride for galaxies, *News and views*, (Edmunds, M G and Phillips, S) **350,** 464
Galaxy clusters. Where are quasars?, *News and views*, **354,** 108
Galaxy formation. Were small galaxies once the dominant cosmological population?, *Letter to Nature*, (Cowie, L L, Songaila, A and Hu, E M) **354,** 460
Galdikas, B. Walking with the great apes, *book review by* Jolly, A. (Montgomery, S) **350,** 534
Galileo spacecraft. A chip off some old rocks, *News*, (Lindley, D) **354,** 178
Gallo, Robert. Dingell opens second front in Gallo war, *News*, (Anderson, C) **354,** 95
Gallo vs Montagnier?, *Opinion*, **351,** 426
New twist in the long saga of HIV, *News and views*, (Culliton, B J) **349,** 735
Galton, Francis. Mix-up, *Correspondence*, (Hodgson, S) **350,** 648
Game of Life. 'Life' not critical?, *Scientific correspondence*, (Bennett, C and Bourzutschky, M S) **350,** 468
Gamma Ray Observatory. Correction: Gamma-Ray Observatory, *News*, **351,** 8
Gamma Ray Observatory: Successful satellite lift-off, *News*, (Lindley, D) **350,** 451
Gamma-ray astronomy. Correction: Gamma-Ray Observatory, *News*, **351,** 8
Gamma Ray Observatory: Successful satellite lift-off, *News*, (Lindley, D) **350,** 451
Gamma rays and energetic particles from primordial black holes, *Review article*, (Halzen, F, Zas, E, MacGibbon, J H and Weekes, T C) **353,** 807
Is the Galactic Centre gamma-ray source 1E1740.7-2942 accreting from a molecular cloud?, *Letter to Nature*, (Bally, J and Leventhal, M) **353,** 234
Gamma-ray bursts. A γ-ray burst preceded by X-ray activity, *Letter to Nature*, (Murakami, T, Inoue, H, Nishimura, J, van

Paradijs, J, Fenimore, E E, Ulmer, A and Yoshida, A) **350,** 592
Astronomy: Starquakes and γ-ray bursts, *News and views,* (Joss, P C) **349,** 103
Astronomy: X-rays from γ-ray bursts, *News and views,* (Dermer, C D) **350,** 559
Formation of a planet orbiting pulsar 1829-10 from the debris of a supernova explosion, *Letter to Nature,* (Lin, D N C, Woosley, S E and Bodenheimer, P H) **353,** 827
Galactic halo gamma rays, *Scientific correspondence,* (Shaham, J) **354,** 439
Gamma rays and energetic particles from primordial black holes, *Review article,* (Halzen, F, Zas, E, MacGibbon, J H and Weekes, T C) **353,** 807
Gamma-ray bursters: The answer is near, *News and views,* (Dermer, C D) **351,** 272
Gamma-ray bursts: Astronomy versus astrophysics, *News and views,* (Lindley, D) **354,** 20
High-energy background radiation from quiescent γ-ray burst sources, *Letter to Nature,* (van Paradijs, J) **353,** 730
Statistical evidence for a galactic origin of gamma-ray bursts, *Letter to Nature,* (Atteia, J L, Barat, C, Jourdain, E, Niel, M, Vedrenne, G, Blinov, N, Chernenko, A, Dolidze, V, Kozlenkov, A, Kuznetsov, A, Mitrofanov, I G, Pozanenko, A, Sunyaev, R and Terekhov, O) **351,** 296
Gamma-Ray Observatory. Gamma-ray bursts: Astronomy versus astrophysics, *News and views,* (Lindley, D) **354,** 20
Gamma-ray sources, globular clusters. Gamma-ray emission from millisecond pulsars in globular clusters, *Letter to Nature,* (Chen, K) **352,** 695
Gandhi, Rajiv. India: Scientists will miss Gandhi, *News,* (Jayaraman, K S) **351,** 431
What will happen now to India?, *Opinion,* **351,** 333
Gas sensors. Artificial 'olfactory' images from a chemical sensor using a light-pulse technique, *Letter to Nature,* (Lundström, I, Erlandsson, R, Frykman, U, Hedborg, E, Spetz, A, Sundgren, H, Welin, S and Winquist, F) **352,** 47
Nobody nose ..., *News and views,* **352,** 22
Polymer films: Designing a slow leak, *News and views,* (Kaner, R B) **352,** 23
Gas separation. Composite membranes from photochemical synthesis of ultrathin polymer films, *Letter to Nature,* (Liu, C and Martin, C R) **352,** 50
Polymer films: Designing a slow leak, *News and views,* (Kaner, R B) **352,** 23
Gastric cancer. Cancer connection, *News and views,* **351,** 353
Gastrulation. A cell autonomous function of *Brachyury* in T/T embryonic stem cell chimaras, *Letter to Nature,* (Rashbass, P, Cooke, L A, Herrmann, B G and Beddington, R S P) **353,** 348
Gauge theories. Lattice work, *News and views,* **349,** 571
Gauss, Carl Friedrich. Mathematics: Justifying the means, *News and views,* (Stewart, I) **354,** 185
Money matters: Gaussian curve graces banknote, *News,* (Dickman, S) **350,** 647
Gel electrophoresis, capillary. High-speed DNA sequencing by capillary gel electrophoresis, *Product Review,* (Smith, L M) **349,** 812
Gel electrophoresis, pulsed-field. Abnormal pattern detected in fragile-X patients by pulsed-field gel electrophoresis, *Letter to Nature,* (Vincent, A, Heitz, D, Petit, C, Kretz, C, Oberlé, I and Mandel, J-L) **349,** 624
Gels, phase transitions. Volume transition in a gel driven by hydrogen bonding, *Letter to Nature,* (Ilmain, F, Tanaka, T and Kokufuta, E) **349,** 400
Gels. Electrically erodible polymer gel for controlled release of drugs, *Letter to Nature,* (Kwon, I C, Bae, Y H and Kim, S W) **354,** 291
Saccharide-sensitive phase transition of a lectin-loaded gel, *Letter to Nature,* (Kokufata, E, Zhang, Y-Q and Tanaka, T) **351,** 302
Gene activation. Gene activation: An agent of suppression, *News and views,* (Herr, W) **350,** 554
I-POU: a POU-domain protein that inhibits neuron-specific gene activation, *Article,* (Treacy, M N, He, X and Rosenfeld, M G) **350,** 577
Gene expression, HIV. Blocking of Tat-dependent HIV-1 RNA modification by an inhibitor of RNA polymerase II processivity, *Letter to Nature,* (Braddock, M, Thorburn, A M, Kingsman, A J and Kingsman, S M) **350,** 439
Gene expression. A mediator required for activation of RNA polymerase II transcription *in vitro*, *Letter to Nature,* (Flanagan, P M, Kelleher, R J, Sayre, M H, Tschochner, H and Kornberg, R D) **350,** 436
Acquisition of the human adeno-associated virus type-2 *rep* gene by human herpesvirus type-6, *Letter to Nature,* (Thomson, B J, Efstathiou, S and Honess, R W) **351,** 78
Activation of BPV-1 replication *in vitro* by the transcription factor E2, *Article,* (Uang, L, Li, R, Mohr, I J, Clark, R and Botchan, M R) **353,** 628
Binding of general transcription factor TFIIB to an acidic activating region, *Letter to Nature,* (Lin, Y-S, Ha, I, Maldonado, E, Reinberg, D and Green, M R) **353,** 569
Concentration-dependent transcriptional activation or repression by *Krüppel* from a single binding site, *Letter to Nature,* (Sauer, F and Jäckle, H) **353,** 563
Conserved sequence motifs in the small subunit of human general transcription factor TFIIE, *Letter to Nature,* (Sumimoto, H, Ohkuma, Y, Sinn, E, Kato, H, Shimasaki, S, Horikoshi, M and Roeder, R G) **354,** 401
Cooperative interaction of an initiator-binding transcription initiation factor and the helix-loop-helix activator USF, *Letter to Nature,* (Roy, A L, Meisterernst, M, Pognonec, P and Roeder, R G) **354,** 245
Coordination of expression of DNA synthesis genes in budding yeast by a cell-cycle regulated *trans* factor, *Letter to Nature,* (Lowndes, N F, Johnson, A L and Johnston, L H) **350,** 247
DNA-binding properties of the product of the testis determining gene and a related protein, *Letter to Nature,* (Nasrin, N, Buggs, C, Kong, X F, Carnazza, J, Goebl, M and Alexander-Bridges, M) **354,** 317
Early aspects of *Caenorhabditis elegans* sex determination and dosage compensation are regulated by a zinc-finger protein, *Letter to Nature,* (Nonet, M L and Meyer, B J) **351,** 65
Editing of a chloroplast mRNA by creation of an initiation codon, *Letter to Nature,* (Hoch, B, Maier, R M, Appel, K, Igloi, G L and Kössel, H) **353,** 178
Efficient production of functional mRNA mediated by RNA polymerase I in *Trypanosoma brucei*, *Letter to Nature,* (Zomerdijk, J C B M, Kleft, R and Borst, P) **353,** 772
Generating yeast transcriptional activators containing no yeast protein sequences, *Letter to Nature,* (Ruden, D M, Ma, J, Li, Y, Wood, K and Ptashne, M) **350,** 250
Generation of p50 subunit of NF-κB by processing of p105 through an ATP-dependent pathway, *Letter to Nature,* (Fan, C-M and Maniatis, T) **354,** 395
Human γ-globin genes silenced independently of other genes in the β-globin locus, *Letter to Nature,* (Dillon, N and Grosveld, F) **350,** 252
Internal initiation of translation mediated by the 5′ leader of a cellular mRNA, *Letter to Nature,* (Macejak, D G and Sarnow, P) **353,** 90
Molecular Sisyphus, *News and views,* **354,** 108
mRNA translation: Initiation without an end, *News and views,* (Jackson, R J) **353,** 14
Oligonucleotide drugs: A change of backbone, *News and views,* (Frank-Kamenetskii, M) **354,** 505
Oncogenic germ-line mutations in Sp1 and ATF sites in the human retinoblastoma gene, *Letter to Nature,* (Sakai, T, Ohtani, N, McGee, T L, Robbins, P D and Dryja, T P) **353,** 83
Phosphorylation of c-*jun* mediated by MAP kinases, *Letter to Nature,* (Pulverer, B J, Kyriakis, J M, Avruch, J, Nikolakaki, E and Woodgett, J R) **353,** 670
Primary structure and expression of bovine poly(A) polymerase, *Article,* (Raabe, T, Bollum, F J and Manley, J L) **353,** 229
RNA action, *News and views,* **351,** 99
Signalling and superinduction, *Scientific correspondence,* (Mahadevan, L C and Edwards, D R) **349,** 747
Stress-induced oligomerization and chromosomal relocalization of heat-shock factor, *Article,* (Westwood, J T, Clos, J and Wu, C) **353,** 822
Structural motifs and potential σ homologies in the large subunit of human general transcription factor TFIIE, *Letter to Nature,* (Ohkuma, Y, Sumimoto, H, Hoffmann, A, Shimasaki, S, Horikoshi, M and Roeder, R G) **354,** 398
Structure and functional properties of human general transcription factor IIE, *Article,* (Peterson, M G, Inostroza, J, Maxon, M E, Flores, O, Admon, A, Reinberg, D and Tjian, R) **354,** 369
Transcription: When the CAP fits bent DNA, *News and views,* (Lilley, D M J) **354,** 359
YY1 is an initiator sequence-binding protein that directs and activates transcription *in vitro* (Seto, E, Shi, Y and Shenk, T) **354,** 241
Gene mapping. Hunting the gene, *News and views,* **352,** 380
Gene nomenclature, Drosophila. Simplified gene nomenclature, *Scientific correspondence,* (Chandy, K G) **352,** 26
Gene organization. Out of sequence, *News and views,* **350,** 21
Gene patents. Gene patents: A battle as old as the nation, *News,* (Anderson, C) **354,** 174
Gene patents: More questions than answers, *News,* (Anderson, C) **354,** 174
To patent a naked gene, *News,* (Anderson, C) **353,** 485
US patent application stirs up gene hunters, *News,* (Anderson, C) **353,** 485
Gene targeting. A B cell-deficient mouse by targeted disruption of the membrane exon of the immunoglobulin chain gene, *Letter to Nature,* (Kitamura, D, Roes, J, Kühn, R and Rajewsky, K) **350,** 423
Developmental biology: Another hit for gene targeting, *News and views,* (Wright, C and Hogan, B) **350,** 458
Introduction of a subtle mutation into the *Hox-2.6* locus in embryonic stem cells, *Letter to Nature,* (Hasty, P, Ramírez-Solis, R, Krumlauf, R and Bradley, A) **350,** 243
Regionally restricted developmental defects resulting from targeted disruption of the mouse homeobox gene *Hox-1.5*, *Article,* (Chisaka, O and Capecchi, M R) **350,** 473
Gene therapy. Gene therapy on the move, *News and views,* (Culliton, B J) **354,** 429
Gene therapy: Cancer trial starts, *News,* (Gershon, D) **349,** 445
Genetic engineers: Cracks in the RAC, *News,* (Gershon, D) **353,** 591
Genome ethics treaty, *Correspondence,* (Segurado, O G and Schendel, D J) **352,** 368
Oligonucleotide drugs: A change of backbone, *News and views,* (Frank-Kamenetskii, M) **354,** 505
Gene transcription. Gene transcription: TFIIB or not TFIIB?, *News and views,* (Sharp, P A) **351,** 16
General Agreement on Tariffs and Trade. Farming fiasco, *Opinion,* **349,** 268
Free trade now free?, *Opinion,* **349,** 726
Prospects improve for US-European collaboration, *News,* (Anderson, C) **349,** 182
Summit gets something done, *Opinion,* **352,** 265
General circulation models. Climate change: Credit the oceans?, *News and views,* (Covey, C) **352,** 196
Inadequacy of effective CO$_2$ as a proxy in simulating the greenhouse effect of other radiatively active gases, *Article,* (Wang, W-C, Dudek, M P, Liang, X-Z and Kiehl, J T) **350,** 573
Revised projection of future greenhouse warming, *Letter to Nature,* (Schlesinger, M E and Jiang, X) **350,** 219
General relativity. General relativity: Inside a black hole, *News and views,* (Hiscock, W A) **353,** 702
New measurement of solar gravitational deflection of radio signals using VLBI, *Letter to Nature,* (Robertson, D S, Carter, W E and Dillinger, W H) **349,** 768
Genetic code. Recognition of UGA as a selenocysteine codon in Type I deiodinase requires sequences in the 3′ untranslated region, *Letter to Nature,* (Berry, M J, Banu, L, Chen, Y, Mandel, S J, Kieffer, J D, Harney, J W and Larsen, P R) **353,** 273
Genetic disorders. Marfan syndrome caused by a recurrent *de novo* missense mutation in the fibrillin gene, *Letter to Nature,* (Dietz, H C, Cutting, G R, Pyeritz, R E, Maslen, C L, Sakai, L Y, Corson, G M, Puffenberger, E G, Hamosh, A, Nanthakumar, E J, Curristin, S M, Stetten, G, Meyers, D A and Francomano, C A) **352,** 337
Genetic engineering, environmental release. Environmental release: Tomatoes approved, *News,* (Swinbanks, D) **349,** 360
Genetic engineering, risk assessment. Risk assessment in genetic engineering: Environmental release of organisms, *book review by* Fincham, J R S. (Levin, M and Strauss, H S) **350,** 284
Genetic engineering, UK. Genetic engineering: Regulation cost concerns, *News,* (Aldhous, P) **354,** 5
Genetic engineering, US. Genetic engineering: Rifkin wins suit, *News,* (Anderson, C) **354,** 257
Genetic engineering. Biotechnology: A first step, but still a long way to go, *News,* (Berlfein, J) **352,** 365
Ethics and the human genome, *Opinion,* **351,** 591
Gene manipulation, *Correspondence,* (Österlund, K) **350,** 268
Genetic engineers: Cracks in the RAC, *News,* (Gershon, D) **353,** 591
Genetic information: Global warming meets genetic engineering, *News,* (Anderson, C) **353,** 686
Who needs a genome ethics treaty?, *News,* (Aldhous, P) **351,** 507
Genetic imprinting. Parental imprinting of the mouse H19 gene, *Letter to Nature,* (Bartolomei, M S, Zemel, S and Tilghman, S M) **351,** 153
Genetic information, misuse of. Genetic information: Evolution of a gadfly, *News,* (Anderson, C) **353,** 686
Genetic information, US. Privacy bill vetoed, *News,* (Anderson, C) **353,** 687
Genetic load. Fifty years of genetic load: An odyssey, (Wallace, B) *book review by* Charlesworth, B. **354,** 119
Genetic recombination. . . . and then there were two, *News and views,* (Baker, T A) **353,** 794
Formation and resolution of recombination intermediates by *E. coli* RecA and RuvC proteins, *Article,* (Dunderdale, H J, Benson, F E, Parsons, C A, Sharples, G J, Lloyd, R G and West, S C) **354,** 506
Genetic resources, plants. Plants, not pandas, *News,* (Anderson, C) **353,** 784
Genetic screening, US. Genetic screening: California tackles insurance, *News,* (Aldhous, P) **353,** 5
Genetic screening. Just screening, *Correspondence,* (Macer, D) **354,** 347
Genetic testing. Genetic testing: Olympic row over sex testing, *News,* (Anderson, C) **353,** 784
Genetic variation, HIV. Human immunodeficiency virus genetic variation that can escape cytotoxic T cell recognition, *Article,* (Phillips, R E, Rowland-Jones, S, Nixon, D F, Gotch, F M, Edwards, J P, Ogunlesi, A O, Elvin, J G, Rothbard, J A, Bangham, C R M, Rizza, C R and McMichael, A J) **354,** 453
Genetically modified organisms, Australia. First to market, *News,* (Lawson, M) **353,** 687
Genetically modified organisms, release of. Unspoken fears, *Correspondence,* (Frontali, C) **353,** 496
Genetically modified organisms. Biocontrol risks, *Scientific correspondence,* (Williamson, M) **353,** 394
Introduction of genetically modified organisms into the environment, SCOPE 44, *book review by* Williamson, M. (Mooney, H A and Bernardi, G) **349,** 578
Genetics journals. *Nature Genetics* **354,** 341
Genetics, human. Human genetics: Language of the genome, *News and views,* (Goodfellow, P N and Sefton, L) **353,** 117
Genetics. Cancer confirmation, *News and views,* **352,** 285
Human genome dispute, *Correspondence,* (Rees, D A) **354,** 426
Human genome dispute, *Correspondence,* (Bodmer, W) **354,** 426
Identification and mapping to chromosome 1 of a suscepti-

bility locus for periinsulitis in non-obese diabetic mice, *Letter to Nature,* (Garchon, H-J, Bedossa, P, Eloy, L and Bach, J-F) **353,** 260
Stretching a point, *Scientific correspondence,* (Feinstein, S I) **350,** 563
The human blueprint: The race to unlock the secrets of our genetic script, (Shapiro, R) *book review by* Jones, J S. **354,** 323
The lottery of life: The new genetics of the future of makind, (Frossard, P) *book review by* Jones, J S. **354,** 323
Type 1 diabetes in mice is linked to the interleukin-1 receptro and *Lsh/Ity/Bcg* genes on chromosome 1, *Letter to Nature,* (Cornall, R J, Prins, J-B, Todd, J A, Pressey, A, DeLarato, N H, Wicker, L S and Peterson, L B) **353,** 262

Genital development. *WT1* mutations contribute to abnormal genital system development and hereditary Wilms' tumour, *Letter to Nature,* (Pelletier, J, Bruening, W, Li, F P, Haber, D A, Glaser, T and Housman, D E) **353,** 431

Genocide. The genocidal mentality:Nazi holocaust and nuclear threat, *book review by* Warner, F. (Lifton, R J and Markusen, E) **350,** 200

Genome Database. Human genome databases at the crossroads, *News,* (Aldhous, P) **352,** 94

Genome project, pig. Genome researchers go hog wild, *News,* (Anderson, C) **352,** 180

Genome project, UK. Genome project: Secrecy and the bottom line, *News,* (Anderson, C and Aldhous, P) **354,** 96

Genome projects, ethics. Genome ethics, *Correspondence,* (Aschheim, EW) **353,** 598
More genome ethics, *Opinion,* **353,** 2

Genome projects, Japan. DNA research institute to open in Japan, *News,* (Swinbanks, D) **349,** 640

Genome projects, rice. Rice genome project: 'Office ladies' aid research, *News,* (Ferrell, J) **353,** 99

Genome projects. Free trade in human sequence data?, *Opinion,* **354,** 171
Genome project, *Correspondence,* (Pirt, S J) **350,** 104
Mapping the code, *book review by* Davies, K. (Davis, J) **351,** 280
Modern myth, *Correspondence,* (Pritchard, D) **354,** 179
Sequence analysis: Spinning in hyperspace, *News and Views,* (Taylor, W) **353,** 388

Genome research, Europe. Helping Europe compete in human genome research, *News,* (Dickman, S and Aldhous, P) **350,** 261

Genome research, Japan. Human genome: Japan's project stalls, *News,* (Swinbanks, D) **349,** 360
Japan's Human Genome project takes shape, *News,* (Swinbanks, D) **351,** 593
The new automated DNA sequencer, *News,* (Swinbanks, D) **351,** 593

Genome research, US. Too many noughts, *Correspondence,* (Watson, J D) **350,** 550

Genome research. Ethics and the human genome, *Opinion,* **351,** 591
Infectious paradigm, *Correspondence,* (Brash, D E) **351,** 9
The case for the human genome, *News and views,* (Maddox, J) **352,** 11
Who needs a genome ethics treaty?, *News,* (Aldhous, P) **351,** 507

Genomic imprinting. The mouse insulin-like growth factor type-2 receptor is imprinted and closely linked to the *Tme* locus, *Letter to Nature,* (Barlow, D P, Stöger, R, Herrmann, B G, Saito, K and Schweifer, N) **349,** 84

Geobarometry. High internal pressures in diamond fluid inclusions determined by infrared absorption, *Letter to Nature,* (Navon, O) **353,** 746

Geochemistry, aquifers. Microbial production of organic acids in aquitard sediments and its role in aquifer geochemistry, *Letter to Nature,* (McMahon, P B and Chapelle, F H) **349,** 233

Geochemistry, mantle. Dynamic melting of the Iceland plume, *Article,* (Elliott, T R, Hawkesworth, C J and Grönvold, K) **351,** 201
Fluxes and excess temperatures of mantle plumes inferred from their interaction with migrating mid-ocean ridges, *Article,* (Schilling, J-G) **352,** 397
Geophysics: Split decision on the mantle, *News and views,* (Heinz, D L) **351,** 346
High internal pressures in diamond fluid inclusions determined by infrared absorption, *Letter to Nature,* (Navon, O) **353,** 746
Isotope evidence for the involvement of recycled sediments in diamond formation, *Letter to Nature,* (Eldridge, C S, Compston, W, Williams, I S, Harris, J W and Bristow, J W) **353,** 649
Mantle geochemistry: Diamonds deliver the dirt, *News and views,* (Gurney, J J) **353,** 601
Oceanic magmatism: Iceland melting dynamics, *News and views,* (Ellam, R) **351,** 191
Terrestrial primordial neon, *Scientific correspondence,* (Sarda, Ph and Staudacher, Th) **352,** 388
Terrestrial primordial neon: Reply, *Scientific correspondence,* (Honda, M, McDougall, I, Patterson, D B, Doulgeris, A and Clague, D A) **352,** 388

Geochemistry, Moon. A lunar meteorite found outside the Antarctic, *Letter to Nature,* (Hill, D H, Boynton, W V and Haag, R A) **352,** 614

Geochemistry. Inside out, *News and views,* **349,** 657

Geodesy. Geodetic determination of tectonic deformation in central Greece from 1900 to 1988, *Article,* (Billiris, H, Paradissis, D, Veis, G, England, P, Featherstone, W, Parsons, B, Cross, ?, Rands, P, Rayson, M, Sellers, P, Ashkenazi, V, Davison, M, Jackson, J and Ambraseys, N) **350,** 124

Geological boundaries. A stable-isotope tree-ring timescale of the Late Glacial/Holocene boundary, *Letter to Nature,* (Becker, B, Kromer, B and Trimborn, P) **353,** 647

Geological time scale. A geologic time scale 1989, *book review by* McElhinny, M. (Harland, W B, Armstrong, R L, Cox, A V, Craig, L E, Smith, A G and Smith, D G) **349,** 26

Geological timescales. Oriental eons, *News and views,* **350,** 273

Geology, Archaean. Geophysics: The lost continents, *News and views,* (Schubert, G) **354,** 358

Geology, history of. A history of geology, (Gohau, G) *book review by* Smith, P J. **354,** 27
Continental drift, *Correspondence,* (Goodacre, A) **354,** 261

Geology, petroleum. Petroleum geology: Black gold causes a stir, *News,* (Aldhous, P) **353,** 593

Geology, tectonics. Global tectonics, *book review by* Smith, P J. (Keary, P and Vine, F J) **350,** 200

Geology. Principles of geology, first edition, Volumes I-III, *book review by* Gould, S J. (Lyell, C) **352,** 577
To interpret the Earth: Ten ways to be wrong, (Schumm, S A) *book review by* Davies, G L H. **354,** 329

Geomagnetic reversals. Earth sciences: A superplume in the mantle, *News and views,* (Cox, K G) **352,** 564
Geomagnetic reversal paths, *Scientific correspondence,* (Laj, C, Mazaud, A, Weeks, R, Fuller, M and Herrero-Bervera, E) **351,** 447
Geomagnetism: Reversals of opinion, *News and views,* (Bogue, S) **351,** 445
Long-lived transitional states of the geomagnetic field and the two dynamo families, *Article,* (Hoffman, K A) **354,** 273
Reversal records in marine marls and delayed acquisition of remanent magnetization, *Letter to Nature,* (van Hoof, A A M and Langereis, C G) **351,** 223

Geomagnetism. Earth sciences: A superplume in the mantle, *News and views,* (Cox, K G) **352,** 564
Geomagnetic reversal paths, *Scientific correspondence,* (Laj, C, Mazaud, A, Weeks, R, Fuller, M and Herrero-Bervera, E) **351,** 447
Geomagnetism: Reversals of opinion, *News and views,* (Bogue, S) **351,** 445
Mapping magnetism onto the core, *News and views,* (Maddox, J) **349,** 563
Reversal records in marine marls and delayed acquisition of remanent magnetization, *Letter to Nature,* (van Hoof, A A M and Langereis, C G) **351,** 223

Geometric phase. Geometric phase shifts in chemical oscillators, *Letter to Nature,* (Kagan, M L, Kepler, T B and Epstein, I R) **349,** 506
Quantum mechanics: Light and the single photon, *News and views,* (Barnett, S M) **350,** 459

Geometry. Beyond the third dimension, *book review by* Clarke, C J S. (Banchoff, T) **349,** 473
Optimal circular packing, *Scientific correspondence,* (O'Keefe, M) **352,** 27

Geomorphology, Mars. Ancient oceans, ice sheets and the hydrological cycle on Mars, *Article,* (Baker, V R, Strom, R G, Gulick, V C, Kargel, J S, Komatsu, G and Kale, V S) **352,** 589

Geomorphology. An invasion percolation model of drainage network evolution, *Letter to Nature,* (Stark, C P) **352,** 423
Global geomorphology, *book review by* Church, M., (Summerfield, M A) **353,** 30
To interpret the Earth: Ten ways to be wrong, (Schumm, S A) *book review by* Davies, G L H. **354,** 329
World geomorphology, *book review by* Kirkby, M. (Bridges, E M) **351,** 26

Geophysics, Archaean. Geophysics: The lost continents, *News and views,* (Schubert, G) **354,** 358

Geophysics, mantle. Geophysics: Split decision on the mantle, *News and views,* (Heinz, D L) **351,** 346

Geophysics, Mars. Soft core, *News and views,* **354,** 22

Geophysics. Intermittent layered convection in a model mantle with an endothermic phase change at 670 km, *Letter to Nature,* (Machetel, P and Weber, P) **350,** 55
The sold Earth: An introduction to global geophysics, (Fowler, C M R) *book review by* Royden, L. **354,** 30

Germ cells. Effect of *Steel* factor and leukaemia inhibitory factor on murine primordial germ cells in culture, *Letter to Nature,* (Matsui, Y, Toksoz, D, Nishikawa, S, Nishikawa, S-I, Williams, D, Zsebo, K and Hogan, B L M) **353,** 750

Germ line. A *de novo Alu* insertion results in neurofibromatosis type 1, *Letter to Nature,* (Wallace, M R, Andersen, L B, Saulino, A M, Gregory, P E, Glover, T W and Collins, F S) **353,** 864

German science council. Unifying German research: 'Now it seems this whole enterprise is about to fail', *News,* **350,** 366

Germany, agricultural research. German unification: Agricultural research pruned, *News,* (Bachtler, B) **353,** 595

Germany, Antarctic research. Research in Antarctica: German research: *Polarstern* Germany's pride and joy, *News,* (Dickman, S) **350,** 307
Research in Antarctica: Climate research: Filling in missing pieces, *News,* (Dickman, S) **350,** 308

Germany, biotechnology. Genetic engineering: TNF production licensed, *News,* (Dickman, S) **349,** 271

Germany, cancer research. Cancer treatments, *Correspondence,* (Groner, B and Nagel, G A) **354,** 346
Clinical cancer research: An 'alternative' in Germany, *News,* (Dickman, S) **352,** 95

Germany, chemistry. The Kaiser's chemists, *book review by* Stern, F. (Johnson, J A) **351,** 107

Germany, computers. A European collaboration for IBM, *News,* (Pool, R) **352,** 98

Germany, currency. Money matters: Gaussian curve graces banknote, *News,* (Dickman, S) **350,** 647

Germany, DFG president. German science: DFG selects new president, *News,* (Dickman, S) **352,** 178

Germany, education. Hobson's choice?, *Opinion,* **349,** 442

Germany, history. A long view of history, *Correspondence,* (Theodore, W H) **349,** 734

Germany, Jewish researchers. Israel: German proposal draws fire, *News,* (Dickman, S) **351,** 261

Germany, mining. Germany: Uranium mining's legacy, *News,* (Dickman, S) **352,** 8

Germany, motor industry. Germany: Car-eating bacteria, *News,* (Dickman, S) **350,** 453

Germany, national characteristics. Unwise after the events, *Correspondence,* (zur Hausen, H) **352,** 10
War reparations, *Correspondence,* (Dumont, J E) **352,** 10

Germany, nuclear power. German research: Berlin finally licenses reactor, *News,* (Dickman, S) **350,** 451
Nuclear energy: German reactor closed, *News,* (Dickman, S) **350,** 265

Germany, optics industry. German unification & Carl Zeiss Jena: Times getting tough for an ex-giant, *News,* (Dickman, S) **350,** 548

Germany, population. Designer data, *Correspondence,* (McManus, I C) **354,** 427

Germany, research budget. German research budget: Robbing west to pay east, *News,* (Bachtler, B) **354,** 345

Germany, research. German research budget robs west to pay east, *News,* (Dickman, S) **352,** 267
German reunification: Selling research to save it, *News,* (Anderson, C) **352,** 99
Unifying German research: Restructuring gets under way, *News,* (Dickman, S) **349,** 448
Unifying German research: Politics rears its not-so-ugly head, *News,* (Dickman, S) **349,** 448
Unifying German research: Simon stays, *News,* (Dickman, S) **349,** 448
Unifying German research: Good news, for a change, *News,* (Dickman, S) **350,** 366
Unifying German research: 'Now it seems this whole enterprise is about to fail', *News,* **350,** 366

Germany, science budget. German research: Funding, east and west, *News,* (Dickman, S) **349,** 552

Germany, science. Contrasts in scientific style: Research groups in the chemical and biochemical sciences, *book review by* Gratzer, W. (Fruton, J S) **350,** 540

Germany, space programme. Germany pulls back on space programmes, *News,* (Dickman, S) **352,** 177

Germany, telecommunications. Telecommunications: Satellite aids sore fingers, *News,* (Dickman, S) **350,** 647

Germany, unification. A long view of history, *Correspondence,* (Theodore, W H) **349,** 734
Can Fortress Europe be feasible?, *Opinion,* **350,** 447
German research: Ray of hope for the East, *News,* (Dickman, S) **351,** 87
German reunification: Old fears overtaken by doubt, *News,* **349,** 3
German unification & Carl Zeiss Jena: Times getting tough for an ex-giant, *News,* (Dickman, S) **350,** 548
German unification: Agricultural research pruned, *News,* (Bachtler, B) **353,** 595
Germany in perspective, *Correspondence,* (Meijler, F L) **350,** 268
Telecommunications: Satellite aids sore fingers, *News,* (Dickman, S) **350,** 647
Two views of the new Germany, *Correspondence,* (Koenemann, F) **350,** 648
Two views of the new Germany, *Correspondence,* (Vrba, R) **350,** 648
Unifying German research: Restructuring gets under way, *News,* (Dickman, S) **349,** 448
Unifying German research: Politics rears its not-so-ugly head, *News,* (Dickman, S) **349,** 448
Unifying German research: Simon stays, *News,* (Dickman, S) **349,** 448
Unifying German research: Good news, for a change, *News,* (Dickman, S) **350,** 366
Unifying German research: 'Now it seems this whole enterprise is about to fail', *News,* **350,** 366

Germany, universities. German education, *Correspondence,* (Weber, T J) **349,** 274
German politics: Späth loss rocks universities, *News,* (Dickman, S) **349,** 270
German research: Funding, east and west, *News,* (Dickman, S) **349,** 552
German universities: Rebuilding takes a downturn, *News,* (Dickman, S) **351,** 432
Germany: New university for Frankfurt on the Oder?, *News,* (Dickman, S) **351,** 261
Hobson's choice?, *Opinion,* **349,** 442
Unifying German research: Politics rears its not-so-ugly head, *News,* (Dickman, S) **349,** 448

Germinal centres. Immunology: The centre of hypermutation,

News and views, (MacLennan, I) **354,** 352
Intracional generation of antibody mutants in germinal centres, *Letter to Nature*, (Jacob, J, Kelsoe, G, Rajewsky, K and Weiss, U) **354,** 389
Gerstmann-Sträussler syndrome. Homozygous prion protein genotype predisposes to sporadic Creutzfeldt-Jakob disease, *Letter to Nature*, (Palmer, M S, Dryden, A J, Hughes, J T and Collinge, J) **352,** 340
Gerstmann-Straussler disease. Spongiform encephalopathies: The prion's progress, *News and views*, (Weissmann, C) **349,** 569
Ghee. Beneficial effects of ghee, *Scientific correspondence*, (Aneja, R P and Murthi, T N) **350,** 280
Giant resonances, nuclei. Double giant resonances in atomic nuclei, *Review article*, (Mordechai, S and Moore, C F) **352,** 393
Gigantism. Pituitary hyperplasia and gigantism in mice caused by a cholera toxin transgene, *Letter to Nature*, (Burton, F H, Hasel, K W, Bloom, F E and Sutcliffe, J G) **350,** 74
Glaciation. Initiation of Fennoscandian ice-sheet retreat during the last deglaciation, *Letter to Nature*, (Lehman, S J, Jones, G A, Keigwin, L D, Andersen, E S, Butenko, G and Ostmo, S-R) **349,** 513
Reconstruction of glaciation over the past 6 Myr from iceborne deposits in the Norwegian Sea, *Letter to Nature*, (Jansen, E and Sjoholm, J) **349,** 600
The growth and decay of ice, *book review by* Oerlemans, J. (Lock, G S H) **351,** 360
Glaciology. Rapid disintegration of the Wordie Ice Shelf in response to atmospheric warming, *Letter to Nature*, (Doake, C S M and Vaughan, D G) **350,** 328
Research in Antarctica: Glaciology: Warming on the shelf, *News*, (Ewing, T) **350,** 304
Glass, toughened. Beer break, *News and views*, **354,** 357
Glasses, metallic. Sonochemical synthesis of amorphous iron, *Letter to Nature*, (Suslick, K S, Choe, S-B, Cichowlas, A A and Grinstaff, M W) **353,** 414
Glasses. Medium-range order in the cation distribution of a calcium silicate glass, *Article*, (Gaskell, P H, Eckersley, M C, Barnes, A C and Chieux, P) **350,** 675
Medium-range structural order in covalent amorphous solids, *Review article*, (Elliott, S R) **354,** 445
Solid-state physics: Glasses come to order, *News and views*, (Jeanloz, R and Williams, Q) **350,** 659
Global catastrophe. Club of Rome comes in from cold?, *Opinion*, **353,** 95
Global change. Global changes of the past, *book review by* Rooth, C G H., (Bradley, R *editor*) **353,** 806
Global climate talks. Global climate talks: Stalemate in Nyrobi, *News*, (Pool, R) **353,** 291
Global Positioning System. Geodetic determination of tectonic deformation in central Greece from 1900 to 1988, *Article*, (Billiris, H, Paradissis, D, Veis, G, England, P, Featherstone, W, Parsons, B, Cross, P, Rands, P, Rayson, M, Sellers, P, Ashkenazi, V, Davison, M, Jackson, J and Ambraseys, N) **350,** 124
Satellite data: Spat over Gulf War windfall, *News*, (Anderson, C) **351,** 174
Global temperatures. Do bidecadal oscillations exist in the global temperature record?, *Letter to Nature*, (Ebner, J B and Tsonis, A A) **353,** 551
Global warming potentials. National greenhouse accounting, *Scientific correspondence*, (Gurney, K R) **353,** 21
Global warming, treaty. Slow progress in Geneva on warming treaty, *News*, (Aldhous, P) **352,** 3
Global warming. Algae to the rescue, *News*, (Swinbanks, D) **350,** 267
Atomospheric chemistry: Methane's sinks and sources, *News and views*, (Crutzen, P J) **350,** 380
Bated breath, *News and views*, **350,** 112
Carbon dioxide and temperature, *Scientific correspondence*, (Marston, J B, Oppenheimer, M, Fujita, R M and Gaffin, S R) **349,** 573
Climate change: 1990 warmest year on record, *News*, (Aldhous, P) **349,** 186
Climate change: The Arctic as a bellwether, *News and views*, (Walsh, J E) **352,** 19
Climate change: Is water vapour understood?, *News and views*, (Jones, R L and Mitchell, J F B) **353,** 210
Climate change: Chaos in ocean heat transport, *News and views*, (Covey, C) **353,** 796
Climate feedbacks: Limit to greenhouse warming?, *News and views*, (Heymsfield, A J and Miloshevich, L M) **351,** 14
Contrary agenda for greenhouse research, *News*, (Pool, R) **350,** 449
Cooling the greenhouse with bioenergy, *Commentary*, (Hall, D O, Mynick, H E and Williams, R H) **353,** 11
Could reducing fossil-fuel emissions cause global warming?, *Letter to Nature*, (Wigley, T M L) **349,** 503
Does climate still matter?, *Commentary*, (Ausubel, J H) **350,** 649
Efficiency of climate policy, *Scientific correspondence*, (Scheraga, J D and Leary, N A) **354,** 193
Genetic information: Global warming meets genetic engineering, *News*, (Anderson, C) **353,** 686
Global air pollution: Problems for the 1990s, *book review by* Birks, J W. (Bridgman, H) **349,** 472
Global warming makes its mark everywhere, *News*, **349,** 3
Global warming: Gulf war clouds convention, *News*, (Anderson, C and Aldhous, P) **349,** 358
Global warming: Meeting set fair for squalls, *News*, (Lindley, D) **349,** 449
Global warming: Third world muscles in on climate treaty, *News*, (Anderson, C and Aldhous, P) **349,** 727
Global warming: Breakup of Antarctic ice, *News and views*, (Zwally, H J) **350,** 274
Global warming: Europe weighs a carbon tax, *News*, (Aldhous, P) **353,** 375
Global warming: Ozone report puts US policy in question, *News*, (Aldhous, P) **353,** 783
Global warming: 'Activist' stance by UK government, *News*, (Aldhous, P) **354,** 99
Greenhouse budgets, *Scientific correspondence*, (Enting, I G and Rodhe, H) **349,** 468
Greenhouse budgets, *Scientific correspondence*, (Handel, M D) **349,** 468
Greenhouse budgets: Reply, *Scientific correspondence*, (Hammond, A L, Rodenburg, E and Moomaw, W) **349,** 468
Greenhouse warming: Positive about water feedback, *News and views*, (Cess, R D) **349,** 462
How to slow global warming, *Commentary*, (Victor, D G) **349,** 451
Ice particles and the greenhouse, *Scientific correspondence*, (Hoyle, F and Wickramasinghe, N C) **350,** 467
Inadequacy of effective CO_2 as a proxy in simulating the greenhouse effect of other radiatively active gases, *Article*, (Wang, W-C, Dudek, M P, Liang, X-Z and Kiehl, J T) **350,** 573
Interdecadal oscillations and warming trend deduced from time-series analysis of global temperatures, *Letter to Nature*, (Ghil, M and Vautard, R) **350,** 324
Leaking gas in the greenhouse, *Commentary*, (Wallis, M K) **354,** 428
Making global warming public property, *News and views*, (Maddox, J) **349,** 189
Methane and nitrous oxide fluxes in native, fertilized and cultivated grasslands, *Letter to Nature*, (Mosier, A, Schimel, D, Valentine, D, Bronson, K, Parton, W) **350,** 330
Methane on the greenhouse agenda, *Commentary*, (Hogan, K B, Hoffman, J S and Thompson, A M) **354,** 181
Model estimates of CO_2 emissions from soil in response to global warming, *Letter to Nature*, (Jenkinson, D S, Adams, D E and Wild, A) **351,** 304
Mount Pinatubo: Volcanic shade causes cooling, *News and views*, (Luhr, J F) **354,** 104
NAS on global warming: 'insurance needed', *News*, (Pool, R) **350,** 449
No limit to global warming?, *Scientific correspondence*, (Mitchell, J F B) **353,** 219
Ocean uncertainty, *Scientific correspondence*, (Covey, C) **353,** 309
Positive water vapour feedback in climate models confirmed by satellite data, *Letter to Nature*, (Rind, D, Chiou, E-W, Chu, W, Larsen, J, Oltmans, S, Lerner, J, McCormick, M P and McMaster, L) **349,** 500
Power lobby pressure, *News*, (Aldhous, P) **352,** 3
Pragmatics in the greenhouse, *Commentary*, (Grubb, M J, Victor, D G and Hope, C W) **354,** 348
Rapid disintegration of the Wordie Ice Shelf in response to atmospheric warming, *Letter to Nature*, (Doake, C S M and Vaughan, D G) **350,** 328
Recent variations in Arctic and Antarctic sea-ice covers, *Article*, (Gloersen, P and Campbell, W J) **352,** 33
Research in Antarctica: Glaciology: Warming on the shelf, *News*, (Ewing, T) **350,** 304
Research in Antarctica: Climate research: Filling in missing pieces, *News*, (Dickman, S) **350,** 308
Revised projection of future greenhouse warming, *Letter to Nature*, (Schlesinger, M E and Jiang, X) **350,** 219
Sensitivity of the Earth's climate to height-dependent changes in the water vapour mixing ratio, *Letter to Nature*, (Shine, K P and Sinha, A) **354,** 382
Simulations of the effect of a warmer climate on atmospheric humidity, *Letter to Nature*, (Del Genio, A D, Lacis, A A and Ruedy, R A) **351,** 382
Slow progress in Geneva on warming treaty, *News*, (Aldhous, P) **352,** 3
Sun and water in the greenhouse, *Scientific correspondence*, (Gribland, R I, Jastrow, R and Parker, E) **349,** 467
Sun and water in the greenhouse, *Scientific correspondence*, (Lindzen, R S) **349,** 467
Sun and water in the greenhouse: Reply, *Scientific correspondence*, (Hansen, J E and Lacis, A A) **349,** 467
The changing atmosphere: A global challenge, *book review by* Birks, J W. (Frost, J) **349,** 472
Thermodynamic regulation of ocean warming by cirrus clouds deduced from observations of the 1987 El Niño, *Article*, (Ramanathan, V and Collins, W) **351,** 27
Too much caution on global warming, *Opinion*, **350,** 641
Turning off the gas . . ., *Correspondence*, (Nielsen, S O) **349,** 362
Warming in the Arctic, *Scientific correspondence*, (Quadfasel, D, Sy, A, Wells, D and Tunik, A) **350,** 385
What global treaty?, *Opinion*, **349,** 1
What kind of greenhouse treaty?, *Opinion*, **349,** 441
Will we reach the greenhouse?, *Scientific correspondence*, (Hatfield, C B) **351,** 355
Wintertime asymmetry of upper tropospheric water between the Northern and Southern Hemispheres, *Letter to Nature*, (Kelly, K K, Tuck, A F and Davies, T) **353,** 244
Globin genes. Human γ-globin genes silenced independently of other genes in the β-globin locus, *Letter to Nature*, (Dillon, N and Grosveld, F) **350,** 252
Globins. Was the loss of the D helix in α globin a functionally neutral mutation?, *Letter to Nature*, (Komiyama, N H, Shih, D T-B, Looker, D, Tame, J and Nagai, K) **352,** 349
Globular clusters. Astronomy: Slow-motion galactic birth, *News and views*, (Silk, J) **351,** 191
Blue stragglers in the core of the globular cluster 47 Tucanae, *Article*, (Paresce, F, Shara, M, Meylan, G, Baxter, D, Greenfield, P, Jedrzejewski, R, Nota, A, Sparks, W B, Albrecht, R, Barbieri, C, Blades, J C, Boksenberg, A, Crane, P, Deharveng, J M, Disney, M J, Jakobsen, P, Kamperman, T M, **352,** 297
CaII emission from old red giants in the globular cluster M15, *Letter to Nature*, (Dupree, A K and Whitney, B A) **354,** 492
Detection of binaries in the core of the globular cluster M15 using calcium emission lines, *Letter to Nature*, (Murphy, B W, Rutten, R G M, Callanan, P J, Seitzer, P, Charles, P A, Cohn, H N and Lugger, P M) **351,** 130
Discovery of ten millisecond pulsars in the globular cluster 47 Tucanae, *Letter to Nature*, (Manchester, R N, Lyne, A G, Robinson, C, D'Amico, N, Bailes, M and Lim, J) **352,** 219
Ejection of pulsars and binaries to the outskirts of globular clusters, *Letter to Nature*, (Phinney, E S and Sigurdsson, S) **349,** 220
Evacuation of gas from globular clusters by winds from millisecond pulsars, *Letter to Nature*, (Spergel, D N) **352,** 221
Evidence from stellar abundances for a large age difference between two globular clusters, *Letter to Nature*, (Dickens, R J, Croke, B F W, Cannon, R D and Bell, R A) **351,** 212
Gamma-ray emission from millisecond pulsars in globular clusters, *Letter to Nature*, (Chen, K) **352,** 695
Globular clusters: New tools of the trade, *News and views*, (Bailyn, C) **352,** 195
Old pulsars in the low-density globular clusters M13 and M53, *Letter to Nature*, (Kulkarni, S R, Anderson, S B, Prince, T A and Wolszczan, A) **349,** 47
Stellar evolution: Collisions and mergers, *News and views*, (Nemec, J M) **352,** 286
Gluconeogenesis. Regulated import and degradation of a cytosolic protein in the yeast vacuole, *Article*, (Chiang, H-L and Schekman, R) **350,** 313
Glucose 6-phosphate dehydrogenase. Deficiency in red blood cells, *Scientific correspondence*, (MacDonald, D, Town, M, Mason, P, Vulliamy, T, Luzzatto, L and Goff, D K) **350,** 115
Glucose-galactose malabsorption. Glucose/galactose malabsorption caused by a defect in the Na^+/glucose cotransporter, *Letter to Nature*, (Turk, E, Zabel, B, Mundlos, S, Dyer, J and Wright, E M) **350,** 354
Glutamate receptors. Sequence and expression of a metabotropic glutamate receptor, *Article*, (Masu, M, Tanabe, Y, Tsuchida, K, Shigemoto, R and Nakanishi, S) **349,** 760
Glutamate. Cloning of cDNA for the glutamate-binding subunit of an NMDA receptor complex, *Letter to Nature*, (Kumar, K N, Tilakaratne, N, Johnson, P S, Allen, A E and Michaelis, E K) **354,** 70
Molecular cloning and characterization of the rat NMDA receptor, *Article*, (Moriyoshi, K, Masu, M, Ishii, T, Shigemoto, R, Mizuno, N and Nakanishi, S) **354,** 31
Molecular neurobiology: NMDA receptors cloned at last, *News and views*, (Mayer, M L) **354,** 16
Glutaminyl-tRNA synthetase. Anticodon and acceptor stem nucleotides in $tRNA^{Gln}$ are major recognition elements for *E. coli* glutaminyl-tRNA synthetase, *Letter to Nature*, (Jahn, M, Rogers, M J and Söll, D) **352,** 258
Structural basis of anticodon loop recognition by glutaminyl-tRNA synthetase, *Article*, (Rould, M A, Perona, J J and Steitz, T A) **352,** 213
Glyceraldehyde-3-phosphate dehydrogenase. DNA-binding properties of the product of the testis determining gene and a related protein, *Letter to Nature*, (Nasrin, N, Buggs, C, Kong, X F, Carnazza, J, Goebl, M and Alexander-Bridges, M) **354,** 317
Glycoproteins. A discrete sequence in a platelet integrin is involved in ligand recognition, *Letter to Nature*, (D'Souza, S E, Ginsberg, M H, Matsueda, G R and Plow, E F) **350,** 66
A three-base-pair deletion in the perpherin-*RDS* gene in one form of retinitis pigmentosa, *Letter to Nature*, (Farrar, G J, Kenna, P, Jordan, S A, Kumar-Singh, R, Humphries, M M, Sharp, E M, Sheils, D M and Humphries, P) **354,** 478
Coronavirus motif, *Scientific correspondence*, (Britton, P) **353,** 394
Formation of a nine-subunit complex by HLA class II glycoproteins and the invariant chain, *Letter to Nature*, (Roche, P A, Marks, M S and Cresswell, P) **354,** 392
GMP, cyclic. A cyclic GMP-activated channel in dissociated cells of the chick pineal gland, *Letter to Nature*, (Dryer, S E and Henderson, D) **353,** 756
God. Is God careless?, *Correspondence*, (Austerberry, C F) **354,** 101
GOES-NEXT satellite. NOAA: Weather satellite woes, *News*, (Aldhous, P) **352,** 97
Weather satellites: NASA rebuked for GOES-NEXT, *News*, (Aldhous, P) **352,** 262
Gold chemistry. Change of coordination from tetrahedral

gold-ammonium to square-pyramidal gold-arsonium cations, *Letter to Nature,* (Zeller, E, Beruda, H, Kolb, A, Bissinger, P, Riede, J and Schmidbaur, H) **352,** 141

Gold deposition. Ore deposits: Ocean cycles in control, *News and views,* (Petersen, U) **352,** 382

Gold deposits. Isotope dating: Quick shifts in plate motion, *News and views,* (Yardley, B W D) **354,** 269

Rapid dewatering of the crust deduced from ages of mesothermal gold deposits, *Letter to Nature,* (Goldfarb, R J, Snee, L W, Miller, L D and Newberry, R J) **354,** 296

Gold, mineralization. Hydrothermal activity and metallogenesis in the Lau back-arc basin, *Letter to Nature,* (Fouquet, Y, Von Stackelberg, U, Charlou, J L, Donval, J P, Erzinger, J, Foucher, J P, Herzig, P, Mühe, R, Soakai, S, Wiedicke, M and Whitechurch, H) **349,** 778

Gold, volcanic. Gold fever, *News and views,* **353,** 118

Golgi complex. Segregation of MHC class II molecules from MHC class I molecules in the Golgi complex for transport to lysosomal compartments, *Article,* (Peters, P J, Neefjes, J J, Oorschot, V, Ploegh, H L and Geuze, H J) **349,** 669

Golgi, network. Defective acidification of intracellular organelles in cystic fibrosis, *Letter to Nature,* (Barasch, J, Kiss, B, Prince, A, Saiman, L, Gruenert, D and Al-Awqati, Q) **352,** 70

Gondwana, tectonics. Late Palaeozoic deformation in central Africa: a result of distant collision?, *Letter to Nature,* (Daly, M C, Lawrence, S R, Kimun'a, D and Binga, M) **350,** 605

Gondwanaland. Plate tectonics: About turn for supercontinents, *News and views,* (Hartnady, C J H) **352,** 476

Goodall, Jane. Walking with the great apes, *book review by* Jolly, A. (Montgomery, S) **350,** 534

Gorbachev, Mikhail. Mikhail Gorbachev's tightest corner, *Opinion,* **350,** 639

Grain boundaries, superconductivity. Absence of weak-link behaviour in $YBa_2Cu_3O_7$ grains connected by 90 [010] twist boundaries. *Letter to Nature,* (Eom, C B, Marshall, A F, Suzuki, Y, Boyer, B, Pease, R F W and Geballe, T H) **353,** 544

Grain boundaries. Structural origin of reduced critical currents at $YBa_2Cu_3O_7$ grain boundaries, *Letter to Nature,* (Chisholm, M F and Pennycook, S J) **351,** 47

Grammar. Misuse of words, *Correspondence,* (Katscher, F) **351,** 179

New words, *Correspondence,* (Marshall, J H) **352,** 751

Grand unified theories. High-energy physics: Evidence of supersymmetry, *News and views,* (Ross, G G) **352,** 21

No two ways, *News and views,* **350,** 558

Grant allocation, US. Review systems: Computerized grants project is unveiled, *News,* (Anderson, C) **350,** 646

Review systems: Electronic review: mixed messages, *News,* (Anderson, C) **350,** 646

Granulites. Isotopic evidence for involvement of COS12T-bearing magmas in granulite formation, *Letter to Nature,* (Farquhar, J and Chacko, T) **354,** 60

Graphite, phase transitions. Shock-induced martensitic phase transformation of oriented graphite to diamond, *Letter to Nature,* (Erskine, D J and Nellis, W J) **349,** 317

Graphite. Diamond from graphite, *Scientific correspondence,* (Mackay, A L and Terrones, H) **352,** 762

Graphitic carbon. Helical microtubules of graphitic carbon, *Letter to Nature,* (Iijama, S) **354,** 56

Needles in a carbon haystack, *News and views,* (Ball, P) **354,** 18

Graptolites. Graptolites, *book review by* Gee, H. (Palmer, D and Rickards, B) **350,** 202

Grasslands, gas uptake. Methane and nitrous oxide fluxes in native, fertilized and cultivated grasslands, *Letter to Nature,* (Mosier, A, Schimel, D, Valentine, D, Bronson, K, Parton, W) **350,** 330

Gravitation. *G* whizz, *News and views,* **354,** 437

General relativity: Evading the cosmic censor, *News and views,* (Friedman, J L) **351,** 269

General relativity: Inside a black hole, *News and views,* (Hiscock, W A) **353,** 702

New measurement of solar gravitational deflection of radio signals using VLBI, *Letter to Nature,* (Robertson, D S, Carter, W E and Dillinger, W H) **349,** 768

No two ways, *News and views,* **350,** 558

Small change, *News and views,* **354,** 191

Weak equivalence in the balance, *News and views,* (Maddox, J) **350,** 187

Gravitational lensing. Active galactic nuclei: Light hidden behind a bushel, *News and views,* (Hewett, P) **349,** 651

An estimate of the Hubble constant from the gravitational lensing of quasar Q0957+561, *Letter to Nature,* (Rhee, G) **350,** 211

An unusually strong Einstein ring in the radio source PKS1830-211, *Letter to Nature,* (Jauncy, D L, Reynolds, J E, Tzioumis, A K, Muxlow, T W B, Perley, R A, Murphy, D W, Preston, R A, Meier, D L, Bird, D J, Blair, D G, Bunton, J D, Clay, R W, Costa, M E, Duncan, R A, Ferris, R H, Gough, R G, Hamilton, P **352,** 132

Are BL Lac objects too large to be gravitationally lensed?, *Letter to Nature,* (Gear, W K) **349,** 676

Gravitational micro-lensing of the relativistic jets of quasars, *Letter to Nature,* (Krishna, G and Subramanian, K) **349,** 766

Quasar redshifts, *Scientific correspondence,* (Dar, A) **353,** 708

The Hubble constant from VLA measurement of the time delay in the double quasar 0957+561, *Letter to Nature,* (Roberts, D H, Lehár, J, Hewitt, J N and Burke, B F) **352,** 43

Twinkle, twinkle, *News and views,* **351,** 16

Gravitational waves. Gravitational waves: Recycling for a cleaner signal, *News and views,* (Raab, F J) **351,** 98

Gravity detectors, Europe. Cosmology: European gravity detector in peril, *News,* (Aldhous, P) **353,** 688

Gravity research. Japan: Microgravity on tap, *News,* (Swinbanks, D) **352,** 272

Gravity waves. The detection of gravitational waves, *book review by* Weiss, R., (Blair, D G *editor*) **353,** 616

Great Attractor. Astronomy: A smooth ride for galaxies, *News and views,* (Edmunds, M G and Phillips, S) **350,** 464

The Great Attractor: do galaxies trace the large-scale mass distribution?, *Review article,* (Dressler, A) **350,** 391

Great white shark, conservation. South Africa: Saving the shark, *News,* (Cherry, M) **350,** 645

Greece, ancient history. The ecology of the ancient Greek world, *book review by* Halstead, P. (Sallares, R) **350,** 538

Greece, tectonics. Geodetic determination of tectonic deformation in central Greece from 1900 to 1988, *Article,* (Billiris, H, Paradissis, D, Veis, G, England, P, Featherstone, W, Parsons, B, Cross, P, Rands, P, Rayson, M, Sellers, P, Ashkenazi, V, Davison, M, Jackson, J and Ambraseys, N) **350,** 124

Green politics. Third party assurance?, *Opinion,* **352,** 360

Greenhouse effect. Algae to the rescue, *News,* (Swinbanks, D) **350,** 267

Atmospheric chemistry: Methane's sinks and sources, *News and views,* (Crutzen, P J) **350,** 380

Bated breath, *News and views,* **350,** 112

Carbon dioxide and temperature, *Scientific correspondence,* (Marston, J B, Oppenheimer, M, Fujita, R M and Gaffin, S R) **349,** 573

Climate change: 1990 warmest year on record, *News,* (Aldhous, P) **349,** 186

Climate change: The Arctic as a bellwether, *News and views,* (Walsh, J E) **352,** 19

Climate change: Is water vapour understood?, *News and views,* (Jones, R L and Mitchell, J F B) **353,** 210

Climate change: Chaos in ocean heat transport, *News and views,* (Covey, C) **353,** 796

Climate feedbacks: Limit to greenhouse warming?, *News and views,* (Heymsfield, A J and Miloshevich, L M) **351,** 14

Contrary agenda for greenhouse research, *News,* (Pool, R) **350,** 449

Cooling the greenhouse with bioenergy, *Commentary,* (Hall, D O, Mynick, H E and Williams, R H) **353,** 11

Could reducing fossil-fuel emissions cause global warming?, *Letter to Nature,* (Wigley, T M L) **349,** 503

Does climate still matter?, *Commentary,* (Ausubel, J H) **350,** 649

Efficiency of climate policy, *Scientific correspondence,* (Scheraga, J D and Leary, N A) **354,** 193

Estimates of the effect of Southern Ocean iron fertilization on atmospheric CO_2 concentrations, *Letter to Nature,* (Joos, F, Sarmiento, J L and Siegenthaler, U) **349,** 772

Genetic information: Global warming meets genetic engineering, *News,* (Anderson, C) **353,** 686

Global air pollution: Problems for the 1990s, *book review by* Birks, J W. (Bridgman, H) **349,** 472

Global climate talks: Stalemate in Nairobi, *News,* (Pool, R) **353,** 291

Global warming: Gulf war clouds convention, *News,* (Anderson, C and Aldhous, P) **349,** 358

Global warming: Meeting set fair for squalls, *News,* (Lindley, D) **349,** 449

Global warming: Third world muscles in on climate treaty, *News,* (Anderson, C and Aldhous, P) **349,** 727

Global warming: Breakup of Antarctic ice, *News and views,* (Zwally, H J) **350,** 274

Global warming: Europe weighs a carbon tax, *News,* (Aldhous, P) **353,** 375

Greenhouse budgets, *Scientific correspondence,* (Enting, I G and Rodhe, H) **349,** 468

Greenhouse budgets, *Scientific correspondence,* (Handel, M D) **349,** 468

Greenhouse budgets: Reply, *Scientific correspondence,* (Hammond, A L, Rodenburg, E and Moomaw, W) **349,** 468

Greenhouse warming: Positive about water feedback, *News and views,* (Cess, R D) **349,** 462

How to slow global warming, *Commentary,* (Victor, D G) **349,** 451

Ice particles and the greenhouse, *Scientific correspondence,* (Hoyle, F and Wickramasinghe, N C) **350,** 467

Inadequacy of effective CO_2 as a proxy in simulating the greenhouse effect of other radiatively active gases, *Article,* (Wang, W-C, Dudek, M P, Liang, X-Z and Kiehl, J T) **350,** 573

India: Skinny cows no threat, *News,* (Jayaraman, K S) **353,** 685

Interdecadal oscillations and warming trend deduced from time-series analysis of global temperatures, *Letter to Nature,* (Ghil, M and Vautard, R) **350,** 324

Leaking gas in the greenhouse, *Commentary,* (Wallis, M K) **354,** 428

Making global warming public property, *News and views,* (Maddox, J) **349,** 189

Methane and nitrous oxide fluxes in native, fertilized and cultivated grasslands, *Letter to Nature,* (Mosier, A, Schimel, D, Valentine, D, Bronson, K, Parton, W) **350,** 330

Methane on the greenhouse agenda, *Commentary,* (Hogan, K B, Hoffman, J S and Thompson, A M) **354,** 181

Model estimates of CO_2 emissions from soil in response to global warming, *Letter to Nature,* (Jenkinson, D S, Adams, D E and Wild, A) **351,** 304

Mount Pinatubo: Volcanic shade causes cooling, *News and views,* (Luhr, J F) **354,** 104

NAS on global warming: 'insurance needed', *News,* (Pool, R) **350,** 449

National greenhouse accounting, *Scientific correspondence,* (Gurney, K R) **353,** 21

No limit to global warming?, *Scientific correspondence,* (Mitchell, J F B) **353,** 219

Ocean uncertainty, *Scientific correspondence,* (Covey, C) **353,** 309

Positive water vapour feedback in climate models confirmed by satellite data, *Letter to Nature,* (Rind, D, Chiou, E-W, Chu, W, Larsen, J, Oltmans, S, Lerner, J, McCormick, M P and McMaster, L) **349,** 500

Pragmatics in the greenhouse, *Commentary,* (Grubb, M J, Victor, D G and Hope, C W) **354,** 348

Rapid disintegration of the Wordie Ice Shelf in response to atmospheric warming, *Letter to Nature,* (Doake, C S M and Vaughan, D G) **350,** 328

Recent variations in Arctic and Antarctic sea-ice covers, *Article,* (Gloersen, P and Campbell, W J) **352,** 33

Revised projection of future greenhouse warming, *Letter to Nature,* (Schlesinger, M E and Jiang, X) **350,** 219

Sensitivity of the Earth's climate to height-dependent changes in the water vapour mixing ratio, *Letter to Nature,* (Shine, K P and Sinha, A) **354,** 382

Simulations of the effect of a warmer climate on atmospheric humidity, *Letter to Nature,* (Del Genio, A D, Lacis, A A and Ruedy, R A) **351,** 382

Sun and water in the greenhouse, *Scientific correspondence,* (Gilliland, R L, Jastrow, R and Parker, E) **349,** 467

Sun and water in the greenhouse, *Scientific correspondence,* (Lindzen, R S) **349,** 467

Sun and water in the greenhouse: Reply, *Scientific correspondence,* (Hansen, J E and Lacis, A A) **349,** 467

The changing atmosphere: A global challenge, *book review by* Birks, J W. (Firor, J) **349,** 472

Thermodynamic regulation of ocean warming by cirrus clouds deduced from observations of the 1987 El Niño, *Article,* (Ramanathan, V and Collins, W) **351,** 27

Too much caution on global warming, *Opinion,* **350,** 541

Turning off the gas . . ., *Correspondence,* (Nielsen, S O) **349,** 362

Warming in the Arctic, *Scientific correspondence,* (Quadfasel, D, Sy, A, Wells, D and Tunik, A) **350,** 385

What kind of greenhouse treaty?, *Opinion,* **349,** 441

Will we reach the greenhouse?, *Scientific correspondence,* (Hatfield, C B) **351,** 355

Wintertime asymmetry of upper tropospheric water between the Northern and Southern Hemispheres, *Letter to Nature,* (Kelly, K K, Tuck, A F and Davies, T) **353,** 244

Greenhouse gas emissions. Could reducing fossil-fuel emissions cause global warming?, *Letter to Nature,* (Wigley, T M L) **349,** 503

Greenhouse budgets, *Scientific correspondence,* (Enting, I G and Rodhe, H) **349,** 468

Greenhouse budgets, *Scientific correspondence,* (Handel, M D) **349,** 468

Greenhouse budgets: Reply, *Scientific correspondence,* (Hammond, A L, Rodenburg, E and Moomaw, W) **349,** 468

Greenhouse gases, nitrous oxide. New estimates of nitrous oxide emissions from biomass burning, *Letter to Nature,* (Cofer, W R, Levine, J S, Winstead, E L and Stocks, B J) **349,** 689

Greenhouse gases, UN climate convention. Slow progress in Geneva on warming treaty, *News,* (Aldhous, P) **352,** 3

Greenhouse gases, water. Climate change: Is water vapour understood?, *News and views,* (Jones, R L and Mitchell, J F B) **353,** 210

No limit to global warming?, *Scientific correspondence,* (Mitchell, J F B) **353,** 219

Wintertime asymmetry of upper tropospheric water between the Northern and Southern Hemispheres, *Letter to Nature,* (Kelly, K K, Tuck, A F and Davies, T) **353,** 244

Greenhouse gases. Atmospheric chemistry: Methane's sinks and sources, *News and views,* (Crutzen, P J) **350,** 380

CFC replacements: A global experiment in technology transfer, *News,* (Pool, R) **351,** 6

Inadequacy of effective CO_2 as a proxy in simulating the greenhouse effect of other radiatively active gases, *Article,* (Wang, W-C, Dudek, M P, Liang, X-Z and Kiehl, J T) **350,** 573

Leaking gas in the greenhouse, *Commentary,* (Wallis, M K) **354,** 428

Methane and nitrous oxide fluxes in native, fertilized and cultivated grasslands, *Letter to Nature,* (Mosier, A, Schimel, D, Valentine, D, Bronson, K, Parton, W) **350,** 330

Methane flux to the atmosphere from the Arabian Sea, *Letter to Nature,* (Owens, N J P, Law, C S, Mantoura, R F C, Burkill, P H and Llewellyn, C A) **354,** 293

Methane on the greenhouse agenda, *Commentary,* (Hogan, K B, Hoffman, J S and Thompson, A M) **354,** 181

National greenhouse accounting, *Scientific correspondence*, (Gurney, K R) **353,** 21
New measurement of the rate coefficient for the reaction of OH with methane, *Letter to Nature*, (Vaghjiani, G R and Ravishankara, A R) **350,** 406
Sensitivity of the Earth's climate to height-dependent changes in the water vapour mixing ratio, *Letter to Nature*, (Shine, K P and Sinha, A) **354,** 382
What global treaty?, *Opinion*, **349,** 1

groEL protein. Chaperonin-mediated protein folding at the surface of groEL through a 'molten globule'-like intermediate, *Article*, (Martin, J, Langer, T, Boteva, R, Schramel, A, Horwich, A L and Hartl, F-U) **352,** 36

Ground water, flow. Dispersion and advection in unsaturated porous media enhanced by anion exclusion, *Letter to Nature*, (Gvirtzman, H and Gorelick, S M) **352,** 793

Groundwater chemistry. Microbial production of organic acids in aquitard sediments and its role in aquifer geochemistry, *Letter to Nature*, (McMahon, P B and Chapelle, F H) **349,** 233

Group theory. Extension of Euler's theorem to symmetry properties of polyhedra, *Letter to Nature*, (Ceulemans, A and Fowler, P W) **353,** 52

Growth factors. Cell biology: The Janus factor, *News and views*, (Warn, R M) **353,** 20
Dissection of the protein kinase cascade by which nerve growth factor activates MAP kinases, *Letter to Nature*, (Gómez, N and Cohen, P) **353,** 170
High-affinity NGF binding requires coexpression of the *trk* proto-oncogene and the low-affinity NGF receptor, *Letter to Nature*, (Hempstead, B L, Martin-Zanca, D, Kaplan, D R and Chao, M V) **350,** 678
Key residues involved in calcium-binding motifs in EGF-like domains, *Letter to Nature*, (Handford, P A, Mayhew, M, Baron, M, Winship, P R, Campbell, I D and Brownlee, G G) **351,** 164
Neurobiology: *Trking* neurotrophic receptors, *News and views*, (Ragsdale, C and Woodgett, J) **350,** 660
New protein fold revealed by a 2.3-Å resolution crystal structure of nerve growth factor, *Letter to Nature*, (McDonald, N Q, Lapatto, R, Murray-Rust, J, Gunning, J, Wlodawer, A and Blundell, T L) **354,** 411
Parkinson's disease: Fresh factors to consider, *News and views*, (Snyder, S H) **350,** 195
Peptide growth factors and their receptors. Volumes 1 and 2, *book review by* Waterfield, M D. (Sporn, M B and Roberts, A B) **350,** 566
Phosphorylation of *c-jun* proto-oncogene is responsible for induction of the inner ear, *Letter to Nature*, (Pulverer, B J, Kyriakis, J M, Avruch, J, Nikolakaki, E and Woodgett, J R) **353,** 670
Pre-existent pattern in Xenopus animal pole cells revealed by induction with activin, *Letter to Nature*, (Sokol, S and Melton, D A) **351,** 409
Requirement for nerve growth factor in the development of myelinated nociceptors *in vivo*, *Letter to Nature*, (Ritter, A M, Lewin, G R, Kremer, N E and Mendell, L M) **350,** 500
Signalling and superinduction, *Scientific correspondence*, (Mahadevan, L C and Edwards, D R) **349,** 747
The *int-2* proto-oncogene is responsible for induction of the inner ear, *Letter to Nature*, (Represa, J, León, Y, Minor, C and Giraldez, F) **353,** 561
Tyrosine phosphorylation and tyrosine kinase activity of the *trk* proto-oncogene product induced by NGF, *Letter to Nature*, (Kaplan, D R, Martin-Zanca, D and Parada, L F) **350,** 158
v-Src and EJ Ras alleviate repression of c-Jun by a cell-specific inhibitor, *Letter to Nature*, (Baichwal, V R, Park, A and Tjian, R) **352,** 165

Growth hormones, plants. Plant growth hormones control voltage-dependent activity of anion channels in plasma membrane of guard cells, *Letter to Nature*, (Marten, I, Lohse, G and Hedrich, R) **353,** 758

Growth hormones. Pituitary hyperplasia and gigantism in mice caused by a cholera toxin transgene, *Letter to Nature*, (Burton, F H, Hasel, K W, Bloom, F E and Sutcliffe, J G) **350,** 74

GTP-binding proteins. A small GTP-binding protein dissociates from synaptic vesicles during exocytosis, *Letter to Nature*, (Fischer von Mollard, G, Südhof, T C and Jahn, R) **349,** 79
Activation of the NADPH oxidase involves the small GTP-binding protein $p21^{rac1}$, *Letter to Nature*, (Abo, A, Pick, E, Hall, A, Totty, N, Teahan, C G and Segal, A W) **353,** 668
Catalysis of guanine nucleotide exchange on the CDC42Hs protein by the *dbl* oncogene product, *Letter to Nature*, (Hart, M J, Eva, A, Evans, T, Aaronson, S A and Cerione, R A) **354,** 311
Dependence of Ypt1 and Sec4 membrane attachment on Bet2, *Letter to Nature*, (Rossi, G, Jiang, Y, Newman, A P and Ferro-Novick, S) **351,** 158
Hypervariable C-terminal domain of rab proteins acts as a targeting signal, *Letter to Nature*, (Chavrier, P, Gorvel, J-P, Stelzer, E, Simons, K, Gruenberg, J and Zerial, M) **353,** 769
Phosphorylation of two small GTP-binding proteins of the Rab family by $p34^{cdc2}$, *Letter to Nature*, (Bailly, E, McCaffrey, M, Touchot, N, Zahraoui, A, Goud, B and Bornens, M) **350,** 715
The chemotactic receptor for human C5a anaphylatoxin, *Letter to Nature*, (Gerard, N P and Gerard, C) **349,** 614

GTPase-activating proteins. *Ber* encodes a GTPase-activating protein for p21*rac*, *Letter to Nature*, (Diekmann, D, Brill, S, Garrett, M D, Totty, N, Hsuan, J, Monfries, C, Hall, C, Lim, L and Hall, A) **351,** 400
A product of the *prune* locus of *Drosophila* is similar to mammalian GTPase-activating protein, *Letter to Nature*, (Teng, D H F, Engele, C M and Venkatesh, T R) **353,** 437
Regulatory proteins: Ras and the *awd* couple, *News and views*, (Ruggieri, R and McCormick, F) **353,** 390

Guanine nucleotide exchange factors. Catalysis of guanine nucleotide exchange on the CDC42Hs protein by the *dbl* oncogene product, *Letter to Nature*, (Hart, M J, Eva, A, Evans, T, Aaronson, S A and Cerione, R A) **354,** 311

Guanine nucleotide-binding proteins. Channel control, *Scientific correspondence*, (Pelzer, S, McDonald, T F and Pelzer, D J) **354,** 363
Channel control, *Scientific correspondence*, (Yatani, A and Brown, A M) **354,** 363

Guanine-nucleotide-binding proteins. Channel control: Reply, *Scientific correspondence*, (Hartzell, H C, Méry, P F, Fischmeister, R and Szabo, G) **354,** 364

Guanine. Catalysis of guanine nucleotide exchange on Ran by the mitotic regulator RCC1, *Letter to Nature*, (Bischoff, F R and Ponstingl, H) **354,** 80

Guard cells. Plant growth hormones control voltage-dependent activity of anion channels in plasma membrane of guard cells, *Letter to Nature*, (Marten, I, Lohse, G and Hedrich, R) **353,** 758

Guidance, missiles. Inventing accuracy: A historical sociology of nuclear missile guidance, *book review by* Jones, R V. (Mackenzie, D) **350,** 523

Guinea-pigs. Tests for rodent polyphyly, *Scientific correspondence*, (Allard, M W, Miyamoto, M M and Honeycutt, R L) **353,** 610

Gulf war, reparations. War reparations, *Correspondence*, (Issar, A S and Adar, E) **352,** 10

Gulf war. Airborne observations of the physical and chemical characteristics of the Kuwait oil smoke plume, *Article*, (Johnson, D W, Kilsby, C G, McKenna, D S, Saunders, R W, Jenkins, G J, Smith, F B and Foot, J S) **353,** 617
Bibliometric lines in the sand, *Commentary*, (de Bruin, R E, Braam, R R and Moed, H F) **349,** 599
Environmental impact of fires in Kuwait, *Commentary*, (Small, R D) **350,** 11
Europe's non-defence, *Opinion*, **349,** 550
Gulf conflagration: Predicting climate problems, *News*, (Aldhous, P) **349,** 270
Gulf oil spill: Big test for bioremediation, *News*, (Aldhous, P) **349,** 447
Gulf oil spill: Let nature take its course, *News*, (Aldhous, P) **349,** 731
Gulf war and sanctions, *Correspondence*, (Elkhawad, A O) **351,** 9
Gulf war: Oil-well climate catastrophe?, *News*, (Aldhous, P) **349,** 96
Is there an end to holy wars?, *Opinion*, **349,** 267
Is this the eco-war?, *Opinion*, **349,** 356
Kuwait after the invasion, *Correspondence*, (Burns, G) **349,** 450

Gulf War. Kuwait: Oil fields under control, *News*, (Aldhous, P) **354,** 5

Gulf war. Kuwait: Palestinians may be barred from courses, *News*, (Aldhous, P) **350,** 369
Kuwaiti science: Starting again from scratch, *News*, (Aldhous, P) **350,** 369
Lessons of hundred-hour war, *Opinion*, **350,** 1
Pollution and the Persian Gulf, *Scientific correspondence*, (Bohle-Carbonell, M) **350,** 25
The Gulf War and the NPT, *Opinion*, **349,** 637
The technology of Wednesday's war, *Opinion*, **349,** 91
When will the Gulf War be over?, *Opinion*, **350,** 363

Gupta, V J. Himalayan palaeontology: Gupta faces suspension, *News*, (Jayaraman, K S) **349,** 645
Indian reputations, *Opinion*, **349,** 639

H^+ pumps. Bovine papillomavirus E5 oncoprotein binds to the 16K component of vacuolar H^+-ATPases, *Letter to Nature*, (Goldstein, D J, Finbow, M E, Andresson, T, McLean, P, Smith, K, Bubb, V and Schlegel, R) **352,** 347

Haematopoietic stem cells. Stem cells, *Scientific correspondence*, (Weissman, I, Spangrude, G, Heimfeld, S, Smith, L and Uchida, N) **353,** 26
Stem cells: Reply, *Scientific correspondence*, (Iacove, N) **353,** 26

Haemoglobin. Close tetrapod relationships of the coelacanth *Latimeria* indicated by haemoglobin sequences, *Letter to Nature*, (Gorr, T, Kleinschmidt, T and Fricke, H) **351,** 394
Crystals of haemoglobin with the T quaternary structure bind oxygen noncooperatively with no Bohr effect, *Letter to Nature*, (Mozzarelli, A, Rivetti, C, Rossi, G L, Henry, E R and Eaton, W A) **351,** 416
Dead right, *News and views*, **351,** 190
Red-blooded reindeer, *News and views*, **349,** 657
Was the loss of the D helix in α globin a functionally neutral mutation?, *Letter to Nature*, (Komiyama, N H, Shih, D T-B, Looker, D, Tame, J and Nagai, K) **352,** 349

Haemophilia. French blood scandal: The clot thickens, *News*, (Aldhous, P) **354,** 98
Key residues involved in calcium-binding motifs in EGF-like domains, *Letter to Nature*, (Handford, P A, Mayhew, M, Baron, M, Winship, P R, Campbell, I D and Brownlee, G G) **351,** 164

Haemophiliacs, HIV. French blood scandal echoes across Europe, *News*, (Aldhous, P) **353,** 781

Haemoproteins. A haemoprotein with kinase activity encoded by the oxygen sensor of *Rhizobium meliloti*, *Letter to Nature*, (Gilles-Gonzalez, M A, Ditta, G S and Helinski, D R) **350,** 170

Haemostasis. A discrete sequence in a platelet integrin is involved in ligand recognition, *Letter to Nature*, (D'Souza, S E, Ginsberg, M H, Matsueda, G R and Plow, E F) **350,** 66

Hagfish. Fossil first, *News and views*, **354,** 108

Hall effect. Semiconductor physics: Sure plays a mean pinball, *News and views*, (Washburn, S) **353,** 119

Hallucinogenic drugs. One route to religious ecstasy, *Correspondence*, (Piomelli, D) **349,** 362

Hamilton-Zuk hypothesis. Colour coding, *News and views*, **350,** 21

Handedness, life expectancy. Health: Can lefties study be right?, *News*, (Pool, R) **350,** 545

Handedness. Fetal clues to handedness, *Scientific correspondence*, (Dryden, R) **350,** 27

Hanson. Industrial research: Hanson: research versus the bottom-line, *News*, (Anderson, C) **352,** 367

Haplochromine fishes. African fishes, *Scientific correspondence*, (de Caprona, M-D C and Fritzsch, B) **350,** 467
African fishes: Reply, *Scientific correspondence*, (Meyer, A, Kocher, T D and Wilson, A C) **350,** 467

Haploidy. Haploidy or diploidy: which is better?, *Letter to Nature*, (Kondrashov, A S and Crow, J F) **351,** 314
Transition from haploidy to diploidy, *Letter to Nature*, (Perrot, V, Richerd, S and Valéro, M) **351,** 315

Hardness, buckminsterfullerene. Is C_{60} stiffer than diamond?, *Scientific correspondence*, (Ruoff, R S and Ruoff, A L) **350,** 663

Hawaiian volcanism. Picritic glasses from Hawaii, *Letter to Nature*, (Clague, D A, Weber, W S and Dixon, J E) **353,** 553

Hawking radiation. Gamma rays and energetic particles from primordial black holes, *Review article*, (Halzen, F, Zas, E, MacGibbon, J H and Weekes, T C) **353,** 807

Head injury. Injury and Alzheimer's, *News and views*, **354,** 437

Health care, US. Ageing research: Spend to save on health care, *News*, (Aldhous, P) **351,** 594
Health care: US looks to German model, *News*, (Neel, J R) **351,** 433

Health care. On the height side, *News and views*, **353,** 386
The South answers back, *Commentary*, (Orrego, F) **353,** 596

Health hazards, dioxin. Dioxin damages denied, *Opinion*, **351,** 591
US government orders new look at dioxin, *News and views*, (Culliton, B J) **352,** 753

Health hazards, electromagnetic fields. Cancer-EMF connection, *Correspondence*, (Woolf, N J) **351,** 10
Direct action?, *Correspondence*, (Kon, S H) **353,** 787
Electromagnetic fields: EMF - cancer link still murky, *News*, (Pool, R) **349,** 554
Electromagnetic fields: Danger from electrical appliances?, *News*, (Pool, R) **349,** 554
Health at work: Exoneration for VDTs, *News*, (Pool, R) **350,** 179

Health hazards, fluoride. Epidemiology: Fluoride given the all clear, *News*, (Anderson, C) **349,** 732

Health hazards, Kuwait oil fires. Oil-well fires: Smog alert in Kuwait City, *News*, (Aldhous, P) **350,** 98

Health hazards, lead. Lead risks, *Scientific correspondence*, (Weiner, S L and Goodman, G) **352,** 385

Health hazards, nuclear accidents. Japanese nuclear power: Political fallout anticipated, *News*, (Swinbanks, D) **349,** 644

Health hazards, nuclear power. Chernobyl effects not as bad as feared, *News*, (Dickman, S) **351,** 335
Health risks, *Correspondence*, (Wolff, S P) **351,** 10
Technological risk, *book review by* Sills, D L. (Lewis, H W) **349,** 749

Health hazards, pollution. Technological risk, *book review by* Sills, D L. (Lewis, H W) **349,** 749

Health hazards, radiation. Health: Five-year toll: 10,000 dead from Chernobyl?, *News*, (Aldhous, P) **351,** 4
Health: World researchers to take a closer look at Chernobyl, *News*, (Dickman, S) **351,** 4
Radiation doses, *Correspondence*, (Fremlin, J H) **350,** 10
Radiation doses and cancer, *Scientific correspondence*, (Shlyakhter, A and Wilson, R) **350,** 25
Radiation risks, *Correspondence*, (Southon, F C G and Gandevia, S C) **349,** 450
Technological risk, *book review by* Sills, D L. (Lewis, H W) **349,** 749

Health hazards, radioactivity. Leukaemia epidemiology: Confusion surrounds the 'Gardner effect', *News*, (Aldhous, P) **350,** 264

Health hazards, radon-222. An electrostatic attraction, *Scientific correspondence*, (Ziemba, F P) **349,** 659

Health hazards, radon. Leukaemia risks and radon, *Scientific correspondence*, (Wolff, S P) **352,** 288

Health hazards, uranium. Germany: Uranium mining's legacy, *News*, (Dickman, S) **352,** 8

Health hazards, VDTs. Health at work: Exoneration for VDTs, *News*, (Pool, R) **350,** 179
Risks to VDT operators, *Scientific correspondence*, (Wedberg, W C) **352,** 199

Health hazards. Public health: Hazards of risk assessment,

News, (Anderson, C) **351**, 176
Health insurance. Genetic screening: California tackles insurance, *News*, (Aldhous, P) 353, 5
Health research, UK. Health research: NHS launches first strategy, *News*, (Aldhous, P) **351**, 7
Health, UK. Cholera mystery, *Correspondence*, (Gantt, R C) **351**, 264
Cholera mystery, *Correspondence*, (Yach, D) **351**, 264
Health, US. Public health: Hazards of risk assessment, *News*, (Anderson, C) **351**, 176
Health, women. Medical research: Boost for women's health, *News*, (Aldhous, P) **352**, 180
Healy, Bernadine. Trouble for Healy over misconduct office, *News*, (Aldhous, P) **352**, 361
Hearing. Better speech recognition with cochlear implants, *Letter to Nature*, (Wilson, B S, Finley, C C, Lawson, D T, Wolford, R D, Eddington, D K and Rabinowitz, W M) **352**, 236
Nature of the motor element in electrokinetic shape changes of cochlear outer hair cells, *Letter to Nature*, (Dallos, P, Evans, B N and Hallworth, R) **350**, 155
Heat diffusion. A bigger can of worms?, *Scientific correspondence*, (Malone, P C and Wheatley, D N) **349**, 373
Heat flow, Earth. Borehole studies: Climate plumbs the depths, *News and views*, (Sass, J) **349**, 458
Heat transport, oceans. Climate change: Chaos in ocean heat transport, *News and views*, (Covey, C) **353**, 796
Freshwater flux forcing of decadal and interdecadal oceanic variability, *Letter to Nature*, (Weaver, A J, Sarachik, E S and Marotzke, J) **353**, 836
Heat-shock factors. Stress-induced oligomerization and chromosomal relocalization of heat-shock factor, *Article*, (Westwood, J T, Clos, J and Wu, C) **353**, 822
Heat-shock proteins. A homologue of the bacterial heat-shock gene *DnaJ* that alters protein sorting in yeast, *Letter to Nature*, (Blumberg, H and Silver, P A) **349**, 627
A molecular chaperone from a thermophilic archaebacterium is related to the eukaryotic protein t-complex polypeptide-1, *Letter to Nature*, (Trent, J D, Nimmesgern, E, Wall, J S, Hartl, F-U and Horwich, A L) **354**, 490
Function of DnaJ and DnaK as chaperones in origin-specific DNA binding by RepA, *Letter to Nature*, (Wickner, S, Hoskins, J and McKenney, K) **350**, 165
Hsp104 is a highly conserved protein with two essential nucleotide-binding sites, *Letter to Nature*, (Parsell, D A, Sanchez, Y, Stitzel, J D and Lindquist, S) **353**, 270
Peptide-binding specificity of the molecular chaperone BiP, *Article*, (Flynn, G C, Pohl, J, Flocco, M T and Rothman, J E) **353**, 726
Prion infection, (Hurst, L D and Haig, D) **351**, 21
Heavy metals, atmospheric. Decrease in anthropogenic lead, cadmium and zinc in Greenland snows since the late 1960s, *Letter to Nature*, (Boutron, C F, Görlach, U, Candelone, J-P, Bolshov, M A and Delmas, R J) **353**, 153
Heisenberg, Werner. Uncertainty: The life and science of Werner Heisenberg, (Cassidy, D C) *book review by* Walker, M. **354**, 365
Helicases, RNA. Similarities in RNA helicases, *Scientific correspondence*, (Koonin, E V) **352**, 290
Helioseismology. Seismological measurement of solar helium abundance, *Letter to Nature*, (Vorontsov, S V, Baturin, V A and Pamyatnykh, A A) **349**, 49
Solar-cycle dependence of the Sun's deep internal rotation shown by helioseismology, *Letter to Nature*, (Goode, P R and Dziembowski, W A) **349**, 223
Helium, solar. Seismological measurement of solar helium abundance, *Letter to Nature*, (Vorontsov, S V, Baturin, V A and Pamyatnykh, A A) **349**, 49
Helix formation. Helix formation: Alarums and diversions, *News and views*, (Lesk, A M) **352**, 379
Hemicarcerands. Guest-host complexes: Chemistry in a nutshell, *News and views*, (Atwood, J L and Gokel, G W) **354**, 354
Hepatitis B virus. *HBx* gene of hepatitis B virus induces liver cancer in transgenic mice, *Letter to Nature*, (Kim, C-M, Koike, K, Saito, I, Miyamura, T and Jay, G) **351**, 317
Hepatitis C virus, maternal transfer. Maternal transfer of HCV, *Scientific correspondence*, (Inoue, Y, Miyamura, T, Unayama, T, Takahashi, K and Saito, I) **353**, 609
Hepatitis delta virus. A pseudoknot-like structure required for efficient self-cleavage of hepatitis delta virus RNA, *Letter to Nature*, (Perrotta, A T and Been, M D) **350**, 434
Hepatocellular carcinomas. Mutational hotspot in the p53 gene in human hepatocellular carcinomas, *Letter to Nature*, (Hsu, I C, Metcalf, R A, Sun, T, Welsh, J A, Wang, N J and Harris, C C) **350**, 427
Selective G to T mutations of p53 gene in hepatocellular carcinoma from southern Africa, *Letter to Nature*, (Bressac, B, Kew, M, Wands, J and Ozturk, M) **350**, 429
Hepatocyte growth factor. Cell biology: The Janus factor, *News and views*, (Warn, R M) **353**, 20
Herbivory. Herbivore-driven mycorrhizal mutualism in insect-susceptible pinyon pine, *Letter to Nature*, (Gehring, C A and Whitham, T G) **353**, 556
Hermaphroditism. Deletion of steroid 5α-reductase 2 gene in male pseudohermaphroditism, *Letter to Nature*, (Andersson, S, Berman, D M, Jenkins, E P and Russell, D W) **354**, 159
Herpes simplex virus. Neurovirulence factor, *Scientific correspondence*, (McGeoch, D J and Barnett, B C) **353**, 609
Herpesvirus. Acquisition of the human adeno-associated virus type-2 *rep* gene by human herpesvirus type-6 *Letter to Nature*, (Thomson, B J, Efstathiou, S and Honess, R W) **351**, 78
Activation of Epstein-Barr virus latent genes protects human B cells from death by apoptosis, *Letter to Nature*, (Gregory, C D, Dive, C, Henderson, S, Smith, C A, Williams, G T, Gordon, J and Rickinson, A B) **349**, 612
Heterogeneous catalysis. Conversion of methane into higher hydrocarbons on platinum, *Letter to Nature*, (Belgued, M, Pareja, P, Amariglio, A and Amariglio, H) **352**, 789
Heteropolyanions. Induced molecule self-organization, *Scientific correspondence*, (Müller, A) **352**, 115
Induced molecule self-organization, *Scientific correspondence*, (Day, V W, Klemperer, W G and Yaghi, O M) **352**, 115
Induced molecule self-organization: Reply, *Scientific correspondence*, (Mitchell, P C H) **352**, 115
Higgs boson. Bang on, *News and views*, **349**, 104
Lattice work, *News and views*, **349**, 571
Particle physics after a year of LEP, *Review article*, (Miller, D J) **349**, 379
Higgs field. Cosmology: Texture and cosmic structure, *News and views*, (Silk, J and Juszkiewicz, R) **353**, 386
High Definition Television. Telecommunications: Pandolfi boosts HDTV, *News*, (Anderson, C) **353**, 7
Telecommunications: HDTV satellite is up, *News*, (Swinbanks, D) **353**, 8
High energy physics, Japan. High-energy physics: Japan in retreat from SSC plans?, *News*, (Swinbanks, D) **352**, 177
High-definition television, Japan. Japanese television: HDTV off to slow start, *News*, (Swinbanks, D) **354**, 423
High-energy physics, Europe. High-energy physics: HERA stores protons, *News*, (Dickman, S) **351**, 261
Particle physics: Does Europe need the LHC?, *News*, (Aldhous, P) **350**, 98
High-energy physics, UK. Nuclear structure physics in limbo, *News*, (Aldhous, P) **349**, 551
UK nuclear physics: Daresbury hopes dashed, *Opinion*, (Aldhous, P) **350**, 177
High-energy physics, US. Department of Energy faces hard choices, *News*, (Pool, R) **353**, 287
DOE chops funding for high-energy physics, *News*, (Pool, R) **354**, 3
Superconducting Super Collider: first winner in detector race, *News*, (Schaefer, E) **349**, 96
Superconducting Super Collider: New detector sought, *News*, (Pool, R) **351**, 258
US getting little help in funding the SSC, *News*, (Pool, R) **351**, 173
High-energy physics. Atomic physics: Antihydrogen in a new light, *News and views*, (Hughes, R) **353**, 700
Can any anti-particle make a probe?, *News and views*, (Maddox, J) **353**, 207
High-energy physics: Evidence of supersymmetry, *News and views*, (Ross, G G) **352**, 21
Neutrino nudge, *News and views*, **353**, 700
No friction, *Correspondence*, (Rubbia, C and Schwitters, R) **352**, 187
Nuclear and particle physics, *book review by* Brown, G E. (Williams, M S C) **352**, 392
Obituary: Edwin M McMillan (1907-1991), *News and views*, (Jackson, J D) **353**, 602
Particle physics after a year of LEP, *Review article*, (Miller, D J) **349**, 379
Particle physics: Glueballs and exotic matter, *News and views*, (Close, F) **349**, 368
Particle Physics: Friction continues over costs, *News*, (Aldhous, P) **351**, 594
High-pressure geophysics. High-temperature electrical conductivity of the lower-mantle phase (Mg, Fe)O, *Letter to Nature*, (Wood, B J and Nell, J) **351**, 309
High-pressure mineralogy. A new high-pressure form of $MgAl_2O_4$, *Letter to Nature*, (Irifune, T, Fujino, K and Ohtani, E) **349**, 409
Phases and electrical conductivity of a hydrous silicate assemblage at lower-mantle conditions, *Letter to Nature*, (Li, X and Jeanloz, R) **350**, 332
High-pressure physics. Absence of a metallic phase at high pressures in CS160T, *Letter to Nature*, (Reguiro, M N, Monceau, P, Rassat, A, Bernier, P and Zahab, A) **354**, 289
Effects of pressure and stress on C_{60} fullerite to 20 GPa, *Letter to Nature*, (Duclos, S J, Brister, K, Haddon, R C, Kortan, A R and Thiel, F A) **351**, 380
High-pressure dialectric measurements of solid hydrogen to 170 GPa, *Letter to Nature*, (Hemley, R J, Hanfland, M and Mao, H K) **350**, 488
Ionicity in silica, *Scientific correspondence*, (Silvi, B, D'Arco, P and Causà, M) **353**, 394
Is C_{60} stiffer than diamond?, *Scientific correspondence*, (Ruoff, R S and Ruoff, A L) **350**, 663
Mineral physics: Deep mantle melting, *News and views*, (Hemley, R J and Kubicki, J D) **349**, 283
Shock-induced martensitic phase transformation of oriented graphite to diamond, *Letter to Nature*, (Erskine, D J and Nellis, W J) **349**, 317
Static strength and equation of state of rhenium at ultra-high pressures, *Letter to Nature*, (Jeanloz, R, Godwal, B K and Meade, C) **349**, 687
Structural transformation of quartz at high pressures, *Letter to Nature*, (Binggeli, N and Chelikowsky, J R) **353**, 344
High-redshift galaxies. Galaxy evolution: Our dim and distant past, *News and views*, (Ellis, R S) **351**, 606
High-temperature superconductor. Superconducting motor, *News*, (Pool, R) **352**, 269
Higher education, UK. Higher education: British move sows confusion, *News*, (Maddox, J) **351**, 508
Less class distinction, *Opinion*, **351**, 256
UK higher education: Polytechnics seeking their fair share, *News*, (Aldhous, P) **349**, 360
UK university budgets: Education under threat, *News*, (Aldhous, P) **350**, 6
University/polytechnic distinction to end, *News*, (Aldhous, P) **351**, 257
Himalayas, tectonics. In a nutshell, *News and views*, **353**, 21
Hinde, Robert. The development and integration of behaviour: Essays in honour of Robert Hinde, *book review by* Dawkins, M S., (Bateson, P *editor*) **353**, 514
Hippocampus. $GABA_B$ autoreceptors regulate the induction of LTP, *Letter to Nature*, (Davies, C H, Starkey, S J, Pozza, M F and Collingridge, G L) **349**, 609
Hippocampus, *journal review by* Davies, P., (Amaral, D G and Witter, M P *editors*) **353**, 462
Long-term potentiation in the hippocampus is blocked by tyrosine kinase inhibitors, *Letter to Nature*, (O'Dell, T J, Kandel, E R and Grant, S G N) **353**, 558
Molecular cloning and characterization of the rat NMDA receptor, *Article*, (Moriyoshi, K, Masu, M, Ishii, T, Shigemoto, R, Mizuno, N and Nakanishi, S) **354**, 31
Novel form of long-term potentiation produced by a K^+ channel blocker in the hippocampus, *Letter to Nature*, (Aniksztejn, L and Ben-Ari, Y) **349**, 67
Quantal analysis of excitatory synaptic action and depression in hippocampal slices, *Letter to Nature*, (Larkman, A, Stratford, K and Jack, J) **350**, 344
Sequence and expression of a metabotropic glutamate receptor, *Article*, (Masu, M, Tanabe, Y, Tsuchida, K, Shigemoto, R and Nakanishi, S) **349**, 760
History of science, India. History of science and technology in ancient India, Vol. II: Formation of the theoretical fundamentals of natural science, *book review by* Temple, R (Chattopadhyaya, D) **353**, 28
History of science. Bully for Brontosaurus, *book review by* Neve, M. (Gould, S J) **352**, 117
Partners in Science: Foundations and Natural Scientists,1890-1945, *book review by* Bynum, W F. (Kohler, R E) **351**, 618
Science, optics and music in medieval and early modern thought, *book review by* Hall, A R. (Crombie, A C) **350**, 30
The correspondence between Sir George Gabriel Stokes and Sir William Thomson, Baron Kelvin of Largs, Vol. I & II, *book review by* Brush, S G. (Wilson, D B) **349**, 575
History, conscription. Feel the draft, *Correspondence*, (Foncin, J-F) **350**, 10
History, Germany. A long view of history, *Correspondence*, (Theodore, W H) **349**, 734
The Kaiser's chemists, *book review by* Stern, F. (Johnson, J A) **351**, 107
HIV infection, France. HIV infection: France will compensate, *News*, (Aldhous, P) **354**, 425
HIV infectivity. HIV infectivity, *HLA* (McKeating, J A and Moore, J P) **349**, 660
Risks of handling HIV, *Scientific correspondence*, (Letvin, N L, Lord, C I, King, N W, Wyand, M S, Myrick, K V and Haseltine, W A) **349**, 573
HIV transmission. Clinical trials: Blazing an ethical trail, *News*, (Aldhous, P) **353**, 4
Mucosal transmission of HIV, *Scientific correspondence*, (Lehner, T, Hussain, L, Wilson, J and Chapman, M) **353**, 709
The transmission of AIDS, *Opinion*, **353**, 2
HIV, Africa. AIDS against the rest of the world, *News and views*, (Culliton, B J) **352**, 15
HIV, Asia. AIDS against the rest of the world, *News and views*, (Culliton, B J) **352**, 15
HIV, blood products. Not in the blood, *News and views*, **354**, 22
HIV, drugs. AIDS drugs: DDI nears approval, *News*, (Aldhous, P) **352**, 269
Anti-HIV drug mechanism, *Scientific correspondence*, (Jones, I M and Jacob, G S) **352**, 198
AZT patent: NIH quick off the mark, *News*, (Gershon, D) **352**, 268
HIV, gene expression. Blocking of Tat-dependent HIV-1 RNA modification by an inhibitor of RNA polymerase II processivity, *Letter to Nature*, (Braddock, M, Thorburn, A M, Kingsman, A J and Kingsman, S M) **350**, 439
HIV, genetic variation. Human immunodeficiency virus genetic variation that can escape cytotoxic T cell recognition, *Article*, (Phillips, R E, Rowland-Jones, S, Nixon, D F, Gotch, F M, Edwards, J P, Ogunlesi, A O, Elvin, J G, Rothbard, J A, Bangham, C R M, Rizza, C R and McMichael, A J) **354**, 453
HIV, haemophiliacs. French blood scandal echoes across Europe, *News*, (Aldhous, P) **353**, 781
HIV, vaccine. AIDS: Passive primate protection, *News and views*, (Moore, J P and Weiss, R A) **352**, 376
Research ethics: Zagury report censures NIH, *News*, (Aldhous, P) **352**, 269
HIV. "AIDSgate" - a chronology, *News*, (Anderson, C) **353**, 197

Acquisition of the human adeno-associated virus type-2 *rep* gene by human herpesvirus type-6, *Letter to Nature*, (Thomson, B J, Efstathiou, S and Honess, R W) **351,** 78
AIDS meet relocates, *News*, (Pool, R) **353,** 199
AIDS research turned upside down, *News and views*, (Maddox, J) **353,** 297
AIDS research: New findings cast doubt on UK vaccine trials, *News*, **353,** 287
AIDS response, *Scientific correspondence*, (Schwartz, D H) **354,** 439
AIDS response, *Scientific correspondence*, (Montefiori, D C, Hirsch, V M and Johnson, P R) **354,** 439
AIDS response, *Scientific correspondence*, (Whipple, A P) **354,** 440
AIDS scandal indicts French government, *News*, (Anderson, C) **353,** 197
AIDS viruses: Spectre of contamination, *News*, (Aldhous, P) **349,** 359
AIDS, monkeys and malaria, *Commentary*, (Gilks, C) **354,** 262
AIDS: Challenge to AZT, *News*, (Jayaraman, K S) **353,** 589
AIDS: Green light for ddI, *News*, (Gershon, D) **353,** 589
AIDS: Of mice, monkeys and men, *News and views*, (Groopman, J E) **349,** 568
AIDS: Small wonders in Africa, *News*, (Anderson, C) **353,** 4
AIDS: Will therapy spread disease?, *News and views*, (Weiss, R A) **350,** 276
Anti-cell antibody in macaques, *Scientific correspondence*, (Stott, E J) **353,** 393
Apart from that . . ., *News*, (Haseltine, W A) **350,** 10
AZT patents, *Correspondence*, (Cousins, F W) **350,** 184
Basketball, AIDS and education, *News and views*, (Maddox, J) **354,** 103
Beyond love, *book review by* Culliton, B J. (Lapierre, D) **351,** 199
Contaminated origin of AIDS virus, *News and views*, (Culliton, B J) **351,** 267
Dingell opens second front in Gallo war, *News*, (Anderson, C) **354,** 95
Discrepancies in AIDS virus data, *Scientific correspondence*, (Chermann, J-C, Donker, G, Yahi, N, Salaun, D, Guettari, N, Gayet, O and Hirsh, I) **351,** 277
Dispensable carnival, *Opinion*, **351,** 426
Duesberg on AIDS and HIV, *Correspondence*, (Duesberg, P H) **350,** 10
French blood scandal: The clot thickens, *News*, (Aldhous, P) **354,** 98
Gallo vs Montagnier?, *Opinion*, **351,** 426
Gallo's virus sequence, *Scientific correspondence*, (Reitz Jr, M S, Streicher, H Z and Gallo, R C) **351,** 358
Gallo's virus sequence, . . . and his response, *Scientific correspondence*, (Gallo, R C) **351,** 358
HIV enhancer activity perpetuated by NF-κB induction on infection of monocytes, *Letter to Nature*, (Bachelerie, F, Alcami, J, Arenzana-Seisdedos, F and Virelizier, J-L) **350,** 709
HIV: Games that viruses play, *News and views*, (Zinkernagel, R M and Hengartner, H) **354,** 433
HIV: Tampering with transcription, *News and views*, (Nabel, G J) **350,** 658
Humoral and cell-mediated immune responses to live recombinant BCG-HIV vaccines, *Letter to Nature*, (Aldovini, A and Young, R A) **351,** 479
Making things worse, *Correspondence*, (Carey, N) **354,** 9
National Institutes of Health: Popovic rebuts, *News*, (Culliton, B J) **353,** 288
New twist in the long saga of HIV, *News and views*, (Culliton, B J) **349,** 735
Origin and spread of AIDS, *Correspondence*, (Owusu, S K) **350,** 184
Origin of AIDS. *Correspondence*, (McFadden, J) **350,** 104
Origin of AIDS, *Correspondence*, (Lecatsas, G) **351,** 179
OSI confirms mix-up, *News*, (Anderson, C) **353,** 687
Potential of community-wide chemotherapy or immunotherapy to control the spread of HIV-1, *Letter to Nature*, (Anderson, R M, Gupta, S and May, R M) **350,** 356
Processing of the precursor of NF-κB by the HIV-1 protease during acute infection, *Letter to Nature*, (Rivière, Y, Blank, V, Kourilsky, P and Israël, A) **350,** 625
Sequence analysis of original HIV-1, *Scientific correspondence*, (Guo, H-G, Chermann, J-C, Waters, D, Hall, L, Louie, A, Gallo, R C, Streicher, H, Reitz, M S, Popovic, M and Blattner, W) **349,** 745
Serine phosphorylation-independent downregulation of cell-surface CD4 by *nef*, *Letter to Nature*, (Garcia, J V and Miller, A D) **350,** 508
HLA molecules. Formation of a nine-subunit complex by HLA class II glycoproteins and the invariant chain, *Letter to Nature*, (Roche, P A, Marks, M S and Cresswell, P) **354,** 392
HLA, antigen-binding cleft. The structure of HLA-B27 reveals nonamer self-peptides bound in an extended conformation, *Article*, (Madden, D R, Gorga, J C, Strominger, J L and Wiley, D C) **353,** 321
HLA-disease associations. Insulin-IGF2 region on chromosome 11p encodes a gene implicated in HLA-DR4-dependent diabetes susceptibility, *Letter to Nature*, (Julier, C, Hyer, R N, Davies, J, Merlin, F, Soularue, P, Brinet, I, Cathelineau, G, Deschamps, I, Rotter, J I, Froguel, P, Boitard, C, Bell, J I and Lathrop, G M) **354,** 155
HMM molecules. Quantized velocities at low myosin densities in an *in vitro* motility assay, (Uyeda, T Q P, Warrick, H M, Kron, S J and Spudich, J A) **352,** 307
HMS Endurance. Limits to Endurance, *News*, (Anderson, C) **352,** 271
Hole-burning spectroscopy. Solid-state physics: Single-molecule probes, *News and views*, (Skinner, J L) **349,** 195
Holography. Time-resolved holography, *Letter to Nature*, (Rebane, A and Feinberg, J) **351,** 378
Homeobox genes. A distinct *Hox* code for the branchial region of the vertebrate head, *Letter to Nature*, (Hunt, P, Gulisano, M, Cook, M, Sham-M-H, Faiella, A, Wilkinson, D, Boncinelli, E and Krumlauf, R) **353,** 861
Developmental biology: Another hit for gene targeting, *News and views*, (Wright, C and Hogan, B) **350,** 458
Homeobox gene expression correlated with the bifurcation process of limb cartilage development, *Letter to Nature*, (Yokouchi, Y, Sasaki, H and Kuroiwa, A) **353,** 443
Introduction of a subtle mutation into the *Hox-2.6* locus in embryonic stem cells, *Letter to Nature*, (Hasty, P, Ramírez-Solis, R, Krumlauf, R and Bradley, A) **350,** 243
Regionally restricted developmental defects resulting from targeted disruption of the mouse homeobox gene *Hox-1.5*, *Article*, (Chisaka, O and Capecchi, M R) **350,** 473
The developmental gene *Knotted-1* is a member of a maize homeobox gene family, *Letter to Nature*, (Vollbrecht, E, Veit, B, Sinha, N and Hake, S) **350,** 241
Homeobox-containing genes. Mouse *Small eye* results from mutations in a paired-like homeobox-containing gene, *Letter to Nature*, (Hill, R E, Favor, J, Hogan, B L M, Ton, C C T, Saunders, G F, Hanson, I M, Prosser, J, Jordan, T, Hastie, N D and van Heyningen, V) **354,** 522
Homeodomain proteins. Gene activation: An agent of suppression, *News and views*, (Herr, W) **350,** 554
Homeogenes. Expression of the homeobox *Hox-4* genes and the specification of position in chick wing development, (Izpisúa-Belmonte, J-C, Tickle, C, Dollé, P, Wolpert, L and Duboule, D) **350,** 585
Homeopathy, Europe. Homeopaths' cushion, *Opinion*, **353,** 484
Homeopathy. Defence of diluted water, *Correspondence*, (Benveniste, J) **353,** 787
Publicity on controversial data, *Correspondence*, (Timmerman, H) **352,** 751
Homeotic complex. A deficiency of the homeotic complex of the beetle *Tribolium*, *Letter to Nature*, (Stuart, J J, Brown, S J, Beeman, R W and Denell, R E) **350,** 72
Hominids, dental development. Hominid dental development, *Scientific correspondence*, (Beynon, A D and Dean, M C) **351,** 196
Hominids. Language origins: The silence of the past, *News and views*, (Foley, R A) **353,** 114
Laser-fusion S040TAr/S039TAr dating of Bed I, Olduvai Gorge, Tanzania, *Letter to Nature*, (Walter, R C, Manega, P C, Hay, R L, Drake, R E and Curtis, G H) **354,** 145
Olduvai Gorge. Vol. 4. The skulls, endocasts and teeth of *Homo habilis*, *book review by* Wood, B. (Tobias, P V) **353,** 313
Hominoid, dimorphism. Extreme sexual dimorphism in a Miocene hominoid, *Letter to Nature*, (Kelley, J and Qinghua, X) **352,** 151
Homo habilis. Olduvai Gorge. Vol. 4. The skulls, endocasts and teeth of *Homo habilis*, *book review by* Wood, B. (Tobias, P V) **353,** 313
Homosexuality. Is homosexuality hard-wired?, *News and views*, (Maddox, J) **353,** 13
Making things worse, *Correspondence*, (Carey, N) **354,** 9
Honey bees, Africanized. Gene flow between African- and European-derived honey bee populations in Argentina, *Letter to Nature*, (Sheppard, W S, Rinderer, T E, Mazzoli, J A, Stelzer, J A and Shimanuki, H) **349,** 782
Hong Kong, biotechnology. Far East: Biotech grows in Hong Kong, *News*, (Gwynne, P) **352,** 273
Hong Kong, higher education. Hong Kong: 3,000 lecturers wanted, *News*, (Gwynne, P) **354,** 425
Hong Kong, organ transplant. Hong Kong: Looking for livers, kidneys, *News*, (Gwynne, P) **354,** 343
Hong Kong, research and development. Hong Kong: $25 million for R&D, *News*, (Gwynne, P) **354,** 425
Hong Kong, science park. Far East: Science park in Macao, *News*, (Gwynne, P) **352,** 273
Hong Kong, science university. Hong Kong: Science university debuts, *News*, (Gwynne, P) **353,** 491
Hong Kong, university. Far East: Hong Kong university, *News*, (Gwynne, P) **352,** 273
Hormones. Hormones, *book review by* Tata, J R. (Baulieu, E-E and Kelly, P A) **351,** 362
Inositol trisphosphate-dependent periodic activation of a Ca^{2+}-activated K^+ conductance in glucose-stikmulated pancreatic β-cells, *Letter to Nature*, (Ämmälä, C, Larsson, O, Berggren, P-O, Bokvist, K, Juntti-Berggren, L, Kindmark, H and Rorsman, P) **353,** 849
Horsemen. Archaeology: The earliest horsemen, *News and views*, (Diamond, J M) **350,** 275
Host-guest complexes. Guest-host complexes: Chemistry in a nutshell, *News and views*, (Atwood, J L and Gokel, G W) **354,** 354
Induced molecule self-organization, *Scientific correspondence*, (Müller, A) **352,** 115
Induced molecule self-organization, *Scientific correspondence*, (Day, V W, Klemperer, W G and Yaghi, O M) **352,** 115
Induced molecule self-organization: Reply, *Scientific correspondence*, (Mitchell, P C H) **352,** 115
Hotspots, Hawaii. Possible solar noble-gas component in Hawaiian basalts, *Letter to Nature*, (Honda, M, McDougall, I, Patterson, D B, Doulgeris, A and Clague, D A) **349,** 149
Hotspots. Hotspots: Bermuda stretches a point, *News and views*, (Richardson, R M) **350,** 655
House of Lords. UK science budget: The Lords weigh in, *News*, (Aldhous, P) **349,** 644
Hox genes. A distinct *Hox* code for the branchial region of the vertebrate head, *Letter to Nature*, (Hunt, P, Gulisano, M, Cook, M, Sham-M-H, Faiella, A, Wilkinson, D, Boncinelli, E and Krumlauf, R) **353,** 861
Developmental biology: Another hit for gene targeting, *News and views*, (Wright, C and Hogan, B) **350,** 458
Expression of the homeobox *Hox-4* genes and the specification of position in chick wing development, *Article*, (Izpisúa-Belmonte, J-C, Tickle, C, Dollé, P, Wolpert, L and Duboule, D) **350,** 585
Regionally restricted developmental defects resulting from targeted disruption of the mouse homeobox gene *Article*, (Chisaka, O and Capecchi, M R) **350,** 473
Hubble constant. An estimate of the Hubble constant from the gravitational lensing of quasar Q0957+561, *Letter to Nature*, (Rhee, G) **350,** 211
Cosmology: More Hubble trouble?, *News and views*, (Peacock, J) **352,** 378
The Hubble constant from VLA measurement of the time delay in the double quasar 0957+561, *Letter to Nature*, (Roberts, D H, Lehár, J, Hewitt, J N and Burke, B F) **352,** 43
Hubble Space Telescope. Hubble fix on course, *News*, (Aldhous, P) **352,** 94
Hubble Space Telescope: Real science at last, *News and views*, (Lindley, D) **351,** 441
Hubble's calibration error, *Scientific correspondence*, (Korhonen, T) **350,** 280
Human biology. Encyclopedia of human biology. Volumes 1-8, (Dulbecco, R *editor*) *book review by* Barnett, S A. **354,** 196
Human circadian rhythms. Light-induced suppression of endogenous circadian amplitude in humans, *Letter to Nature*, (Jewett, M E, Kronauer, R E and Czeisler, C A) **350,** 59
Human error. Human factors, *Correspondence*, (Cox, N J) **353,** 597
Human evolution. Language origins: The silence of the past, *News and views*, (Foley, R A) **353,** 114
Laser-fusion S040TAr/S039TAr dating of Bed I, Olduvai Gorge, Tanzania, *Letter to Nature*, (Walter, R C, Manega, P C, Hay, R L, Drake, R E and Curtis, G H) **354,** 145
Narratives of human evolution, (Landau, M) *book review by* Conroy, G C. **354,** 326
Olduvai Gorge. Vol. 4. The skulls, endocasts and teeth of *Homo habilis*, *book review by* Wood, B. (Tobias, P V) **353,** 313
Uniquely human: The evolution of speech, thought and selfless behavior, *book review by* Fletcher, P. (Lieberman, P) **350,** 535
Human Frontier Program. Human Frontier effort gets promise from NIH, *News*, (Swinbanks, D and Pool, R) **350,** 97
Human Frontier Science Program: A foray into red tape, *News*, (Swinbanks, D) **350,** 644
Human Frontier Science Program: US leads race for Human Frontier grants, *News*, (Swinbanks, D) **350,** 644
Japanese funding: Bureaucracy denies grants, *News*, (Swinbanks, D) **349,** 185
Swiss sign up also, *News*, (Swinbanks, D and Pool, R) **350,** 97
Human Frontier Science Program, Japan. A minnow to catch a mackerel?, *News*, (Swinbanks, D) **353,** 685
Human genetics. *Nature Genetics* **354,** 341
Wee1$^+$-like gene in human cells, *Letter to Nature*, (Igarashi, M, Nagata, A, Jinno, S, Suto, K and Okayama, H) **353,** 80
WIT mutations contribute to abnormal genital system development and hereditary Wilms' tumour, *Letter to Nature*, (Pelletier, J, Bruening, W, Li, F P, Haber, D A, Glaser, T and Housman, D E) **353,** 431
A gene deleted in Kallmann's syndrome shares homology with neural cell adhesion and axonal path-finding molecules, *Article*, (Franco, B, Guioli, S, Pragliola, A, Incerti, B, Bardoni, B, Tonlorenzi, R, Carrozzo, R, Maestrini, E, Pieretti, M, Taillon-Miller, P, Brown, C J, Willard, H F, Lawrence, C, Persico, M G, Camerino, G and Ballabio, A) **353,** 529
A gene from the region of the human X inactivation centre is expressed exclusively from the inactive X chromosome, *Article*, (Brown, C J, Ballabio, A, Rupert, J L, Lafreniere, R G, Grompe, M, Tonlorenzi, R and Willard, H F) **349,** 38
A Met-to-Val mutation in the skeletal muscle NaS0+T channel α-subunit in h yperkalaemic periodic paralysis, *Letter to Nature*, (Rojas, C V, Wang, J, Schwartz, L S, Hoffman, E P, Powell, B R and Brown, R H) **354,** 387
A three-base-pair deletion in the perpherin-*RDS* gene in one form of retinitis pigmentosa, *Letter to Nature*, (Farrar, G J, Kenna, P, Jordan, S A, Kumar-Singh, R, Humphries, M M, Sharp, E M, Sheils, D M and Humphries, P) **354,** 478
Abnormal pattern detected in fragile-X patients by pulsed-field gel electrophoresis, *Letter to Nature*, (Vincent, A, Heitz, D, Petit, C, Kretz, C, Oberlé, I and Mandel, J-L) **349,** 624
Alzheimer's mutation, *Scientific correspondence*, (Tanzi, R

E and Hyman, B T) **350,** 564
Anticipating the anti-prion protein?, *Scientific correspondence,* (Goldgaber, D) **351,** 106
CD43, a molecule defective in Wiskott-Aldrich syndrome, binds ICAM-1, *Letter to Nature,* (Rosenstein, Y, Park, J K, Hahn, W C, Rosen, F S, Bierer, B E and Burakoff, S J) **354,** 233
Cell biology: The Janus factor, *News and views,* (Warn, R M) **353,** 20
Change for the worse, *News and views,* **351,** 16
Chromosomal mapping of two genetic loci associated with blood-pressure regulation in hereditary hypertensive rats, *Article,* (Hilbert, P, Lindpaintner, K, Beckmann, J, Serikawa, T, Soubrier, F, Dubay, C, Cartwright, P, De Gouyon, B, Julier, C, Takahasi, S, Vincent, M, Ganten, D, Georges, M and Lathrop, M) **353,** 521
CJD discrepancy, *Scientific correspondence,* (Doh-ura, K, Kitamoto, T, Sakaki, Y and Tateishi, J) **353,** 801
CJD discrepancy: Reply, *Scientific correspondence,* (Collinge, J and Palmer, M) **353,** 802
Cloning of the gene for a human dopamine D_4 receptor with high affinity for the antipsychotic clozapine, *Letter to Nature,* (Van Tol, H H M, Bunzow, J R, Guan, H-C, Sunahara, R K, Seeman, P, Niznik, H B and Civelli, O) **350,** 610
Cloning of the gene for a human dopamine D_5 receptor with higher affinity for dopamine than D_1, *Letter to Nature,* (Sunahara, R K, Guan, H-C, O'Dowd, B F, Seeman, P, Laurier, L G, Ng, G, George, S R, Torchia, J, Van Tol, H H M and Niznik, H B) **350,** 614
Copying connection, *News and views,* **350,** 383
Cystic fibrosis: Back to the chloride channel, *News and views,* (Frizzell, R A and Cliff, W H) **350,** 277
Cystic fibrosis: Keeping open options, *News and views,* (Wine, J J) **354,** 503
Deficiency in red blood cells, *Scientific correspondence,* (MacDonald, D, Town, M, Mason, P, Vulliamy, T, Luzzatto, L and Goff, D K) **350,** 115
Deletion of steroid 5α-reductase 2 gene in male pseudohermaphroditism, *Letter to Nature,* (Andersson, S, Berman, D M, Jenkins, E P and Russell, D W) **354,** 159
DNA-binding properties of the product of the testis determining gene and a related protein, *Letter to Nature,* (Nasrin, N, Buggs, C, Kong, X F, Carnazza, J, Goebl, M and Alexander-Bridges, M) **354,** 317
Early-onset Alzheimer's disease caused by mutations at codon 717 of the β-amyloid precursor protein gene, *Letter to Nature,* (Chartier-Harlin, M-C, Crawford, F, Houlden, H, Warren, A, Hughes, D, Fidani, L, Goate, A, Rossor, M, Roques, P, Hardy, J and Mullan, M) **353,** 844
Familial Alzheimer's disease: Beta amyloid resurrected, *News and views,* (Wright, A F, Goedert, M and Hastie, N D) **349,** 653
Fit connection, *News and views,* **351,** 99
Glucose/galactose malabsorption caused by a defect in the Na^+/glucose cotransporter, *Letter to Nature,* (Turk, E, Zabel, B, Mundlos, S, Dyer, J and Wright, E M) **350,** 354
Human γ-globin genes silenced independently of other genes in the β-globin locus, *Letter to Nature,* (Dillon, N and Grosveld, F) **350,** 252
Human genetics: Methylation and the fragile X, *News and views,* (Craig, I) **349,** 742
Human genetics: Breaking the fragile X, *News and views,* (Davies, K) **351,** 439
Human genetics: Language of the genome, *News and views,* (Goodfellow, P N and Sefton, L) **353,** 117
Human genetics: Mapping the way forward, *News and views,* (Davies, K) **353,** 798
Impairment of mitochondrial transcription termination by a point mutation associated with the MELAS subgroup of mitochondrial encephalomyopathies, *Letter to Nature,* (Hess, J F, Parisi, M A, Bennett, J L and Clayton, D A) **351,** 236
Insulin-IGF2 region on chromosome 11p encodes a gene implicated in HLA-DR4-dependent diabetes susceptibility, *Letter to Nature,* (Julier, C, Hyer, R N, Davies, J, Merlin, F, Soularue, P, Briant, L, Cathelineau, G, Deschamps, I, Rotter, J I, Froguel, P, Boitard, C, Bell, J I and Lathrop, G M) **354,** 155
Intermediate filaments: Getting under the skin, *News and views,* (Klymkowsky, M W) **354,** 264
Isodisomy in BWS chromosomes, *Scientific correspondence,* (Wilkie, A O M, Malcolm, S and Pembrey, M E) **353,** 802
Localization of the X inactivation centre on the human X chromosome in Xq13, *Letter to Nature,* (Brown, C J, Lafreniere, R G, Powers, V E, Sebastio, G, Ballabio, A, Pettigrew, A L, Ledbetter, D H, Levy, E, Craig, I W and Willard, H F) **349,** 82
Malignant diagnosis, *News and views,* **354,** 22
Mapping the code, *book review by* Davies, K. (Davis, J) **351,** 280
Mix-up, *Correspondence,* (Hodgson, S) **350,** 648
Mouse *Small eye* results from mutations in a paired-like homeobox-containing gene, *Letter to Nature,* (Hill, R E, Favor, J, Hogan, B L M, Ton, C C T, Saunders, G F, Hanson, I M, Prosser, J, Jordan, T, Hastie, N D and van Heyningen, V) **354,** 522
Mutations in the human retinal degeneration slow gene in autosomal dominant, *Letter to Nature,* **354,** 480
Mutations in the human retinal degeneration slow gene in autosomal dominant retinitis pigmentosa, *Letter to Nature,* (Kajiwara, K, Hahn, L B, Mukai, S, Travis, G H, Berson, E L and Dryja, T P) **354,** 480
Protection from X inactivation, *Scientific correspondence,* (Crow, T J) **353,** 710
Recognition of a chromosome truncation site associated with α-thalassaemia by human telomerase, *Letter to Nature,* (Morin, G B) **353,** 454
Segregation of a missense mutation in the amyloid precursor protein gene with familial Alzheimer's disease, *Letter to Nature,* (Goate, A, Chartier-Harlin, M-C, Mullan, M, Brown, J, Crawford, F, Fidani, L, Giuffra, L, Haynes, A, Irving, N, James, L, Mant, R, Newton, P, Rooke, K, Roques, P, Talbot, C, Williamson, R, Rossor, M, Owen, M and) **349,** 704
Spinal tap, *News and views,* **353,** 386
Strike one, *News and views,* **351,** 353
Sweet success, *News and views,* **350,** 112
The human blueprint: The race to unlock the secrets of our genetic script, (Shapiro, R) *book review by* Jones, J S. **354,** 323
The lottery of life: The new genetics of the future of makind, (Frossard, P) *book review by* Jones, J S. **354,** 323
X-chromosome inactivation may explain the difference in viability of XO humans and mice, *Letter to Nature,* (Ashworth, A, Rastan, S, Lovell-Badge, R and Kay, G) **351,** 406
Human Genome Organization. Helping Europe compete in human genome research, *News,* (Dickman, S and Aldhous, P) **350,** 261
Human genome dispute, *Correspondence,* (Bodmer, W) **354,** 426
Human genome project: HUGO flirting with Johns Hopkins, *News,* (Aldhous, P) **352,** 3
Human Genome Project, ethics. Genome ethics, *Correspondence,* (Aschheim, EW) **353,** 598
Human Genome Project, Japan. Japan's Human Genome project takes shape, *News,* (Swinbanks, D) **351,** 593
Japan's project stalls, *News,* (Swinbanks, D) **349,** 360
The new automated DNA sequencer, *News,* (Swinbanks, D) **351,** 593
Human Genome Project, patents. Human Genome Project: Tit for tat on patents?, *News,* (Aldhous, P) **353,** 785
Human Genome Project. DNA sequencing: Complementary questions, *News and views,* (Little, P) **352,** 20
Ethics and the human genome, *Opinion,* **351,** 591
Exons, introns, and talking genes: The science behind the Human Genome Project, (Wills, C) *book review by* Jones, J S. **354,** 323
Fallacious claims for HGP, *Correspondence,* (Sarkar, S and Tauber, A I) **353,** 691
Free trade in human sequence data?, *Opinion,* **354,** 171
Genetic information: Evolution of a gadfly, *News,* (Anderson, C) **353,** 686
Genome ethics treaty, *Correspondence,* (Segurado, O G and Schendel, D J) **352,** 368
Genome project: Secrecy and the bottom line, *News,* (Anderson, C and Aldhous, P) **354,** 96
Grant to HUGO, *Correspondence,* (Bodmer, W) **352,** 274
Human genome databases at the crossroads, *News,* (Aldhous, P) **352,** 94
Human genome dispute, *Correspondence,* (Rees, D A) **354,** 426
Mapping the code, *book review by* Davies, K. (Davis, J) **351,** 280
Pseudogenes, *Correspondence,* (Tangoren, I A) **354,** 10
The case for the human genome, *News and views,* (Maddox, J) **352,** 11
Who needs a genome ethics treaty?, *News,* (Aldhous, P) **351,** 507
Human genome. Modern myth, *Correspondence,* (Pritchard, D) **354,** 179
Human health, electromagnetic fields. Electromagnetic fields: Little accord on priorities, *News,* (Pool, R) **354,** 260
Human height. On the height side, *News and views,* **353,** 386
Human herpesvirus. Acquisition of the human adeno-associated virus type-2 *rep* gene by human herpesvirus type-6, *Letter to Nature,* (Thomson, B J, Efstathiou, S and Honess, R W) **351,** 78
Human infertility. Reproductive biology: A clue to Kartagener's, *News and views,* (Aitken, J) **353,** 306
Human odour. The scented ape: The biology and culture of human odour, *book review by* Bronson, F H. (Stoddart, M) **349,** 576
Human population. Disease, mortality and population in transition: Change in England since the eighteenth century as part of a global phenomenon, *book review by* Porter, R. (Mercer, A) **349,** 663
Human rights, Armenia. Hunger strike, *Correspondence,* (Glebocki, R) **349,** 13
Human sexuality. Mystery dance: On the evolution of human sexuality, (Margulis, L and Sagan, D) *book review by* Dawkins, R. **354,** 442
Human tissue, shortage. Tissue shortage, *Correspondence,* (Sharpe, R) **354,** 427
Humane ResearchDonor Card. Tissue shortage, *Correspondence,* (Sharpe, R) **354,** 427
Hume-Rothery rules. Making sense of binary metal alloys, *News and views,* (Maddox, J) **349,** 649
Hummingbirds, feeding. Bloom with a view, *News and views,* **352,** 18
Hummingbirds. Greedy guts, *News and views,* **353,** 796
Hungary, research institutes. Eastern Europe: Doors are opened to advanced study, *News,* (Dickman, S) **349,** 358
Hungary, space research. Space science: ESA and Hungary cooperate, *News,* (Dickman, S) **350,** 450
Huntington's disease. Hunting the gene, *News and views,* **352,** 380
Hybridization, honey bees. Gene flow between African- and European-derived honey bee populations in Argentina, *Letter to Nature,* (Sheppard, W S, Rinderer, T E, Mazzoli, J A, Stelzer, J A and Shimanuki, H) **349,** 782
Hybridization. African fishes: Reply, *Scientific correspondence,* (Meyer, A, Kocher, T D and Wilson, A C) **350,** 467
Hydrocarbon catalysis. A non-porous supported-platinum catalyst for aromatization of *n*-hexane, *Letter to Nature,* (Davis, R J and Derouane, E G) **349,** 313
Hydrocarbons, catalysis. Conversion of methane into higher hydrocarbons on platinum, *Letter to Nature,* (Belgued, M, Pareja, P, Amariglio, A and Amariglio, H) **352,** 789
Hydrodynamics. Autorotation of many-sided bodies in an airstream, *Letter to Nature,* (Skews, B W) **352,** 512
Fluid mechanics: Aerodynamics in a spin, *News and views,* (Salter, S H) **352,** 470
Relaxation modes of the contact line of a liquid spreading on a surface, *Letter to Nature,* (Ondarçuhu, T and Veyssié, M) **352,** 418
Hydrogen bonding, polymer gels. Volume transition in a gel driven by hydrogen bonding, *Letter to Nature,* (Ilmain, F, Tanaka, T and Kokufuta, E) **349,** 400
Hydrogen bonding. Effect of defects on molecular mobility in liquid water, *Letter to Nature,* (Sciortino, F, Geiger, A and Stanley, H E) **354,** 218
Water goes with the flow, *News and views,* (Ball, P) **354,** 188
X-ray diffraction evidence for aromatic π hydrogen bonding to water, *Letter to Nature,* (Atwood, J L, Hamada, F, Robinson, K D, Orr, G W and Vincent, R L) **349,** 683
Hydrogen, solid. High-pressure dielectric measurements of solid hydrogen to 170 GPa, *Letter to Nature,* (Hemley, R J, Hanfland, M and Mao, H K) **350,** 488
Hydrological cycle. Enhanced particle fluxes in Bay of Bengal induced by injection of fresh water, *Letter to Nature,* (Ittekkot, V, Nair, R R, Honko, S, Ramaswamy, V, Bartsch, M, Manganini, S and Desai, B N) **351,** 385
Hydrology, Kuwait. War reparations, *Correspondence,* (Issar, A S and Adar, E) **352,** 10
Hydrology, Mars. Ancient oceans, ice sheets and the hydrological cycle on Mars, *Article,* (Baker, V R, Strom, R G, Gulick, V C, Kargel, J S, Komatsu, G and Kale, V S) **352,** 589
Hydrology. Dispersion and advection in unsaturated porous media enhanced by anion exclusion, *Letter to Nature,* (Gvirtzman, H and Gorelick, S M) **352,** 793
Mixing-layer distortion at the confluence of channels of different depth, *Letter to Nature,* (Best, J L and Roy, A G) **350,** 411
Temperate palaeohydrology: Fluvial processes in the temperate zone during the last 15,000 years, *book review by* Kirkby, M. (Starkel, L, Gregory, K J and Thornes, J B) **351,** 26
Hydrothermal plumes, metals. *In situ* chemical mapping of dissolved iron and manganese in hydrothermal plumes, *Letter to Nature,* (Coale, K H, Chin, C S, Massoth, G J, Johnson, K S and Baker, E T) **352,** 325
Hydrothermal vents, Lake Baikal. Hydrothermal vents in Lake Baikal, *Scientific correspondence,* (Crane, K, Hecker, B and Golubev, V) **350,** 281
Hydrothermal vents. Hydrothermal activity and metallogenesis in the Lau back-arc basin, *Letter to Nature,* (Fouquet, Y, Von Stackelberg, U, Charlou, J L, Donval, J P, Erzinger, J, Foucher, J P, Herzig, P, Mühe, R, Soakai, S, Wiedicke, M and Whitechurch, H) **349,** 778
Hydroxyl, atmospheric. New measurement of the rate coefficient for the reaction of OH with methane, *Letter to Nature,* (Vaghjiani, G R and Ravishankara, A R) **350,** 406
Hypercycles. Evolution: Hypercycles spring to life, *News and views,* (May, R M) **353,** 607
Hyperkalaemic periodic paralysis. A Met-to-Val mutation in the skeletal muscle NaS0+T channel α-subunit in hyperkalaemic periodic paralysis, *Letter to Nature,* (Rojas, C V, Wang, J, Schwartz, L S, Hoffman, E P, Powell, B R and Brown, R H) **354,** 387
Hypermutation. Immunology: The centre of hypermutation, *News and views,* (MacLennan, I) **354,** 352
Hypertension. Chromosomal mapping of two genetic loci associated with blood-pressure regulation in hereditary hypertensive rats, *Article,* (Hilbert, P, Lindpaintner, K, Beckmann, J, Serikawa, T, Soubrier, F, Dubay, C, Cartwright, P, De Gouyon, B, Julier, C, Takahasi, S, Vincent, M, Ganten, D, Georges, M and Lathrop, M) **353,** 521
Isolation of a cDNA encoding the vascular type-1 angiotensin II receptor, *Letter to Nature,* (Murphy, T J, Alexander, R W, Griendling, K K, Runge, M S and Bernstein, K E) **351,** 233
Hypothalamus. Is homosexuality hard-wired?, *News and views,* (Maddox, J) **353,** 13
Making things worse, *Correspondence,* (Carey, N) **354,** 9
Ice cores, formaldehyde. A record of the atmospheric methane sink from formaldehyde in polar ice cores, *Letter to Nature,* (Staffelbach, T, Neftel, A, Stauffer, B and Jacob, D) **349,** 603
Ice cores, sulphur. Ice-core record of oceanic emissions of dimethylsulphide during the last climate cycle, *Letter to Nature,* (Legrand, M, Feniet-Saigne, C, Saltzman, E S, Ger-

main, C, Barkov, N I and Petrov, V N) **350,** 144

Ice cores, volcanic ash. Long-range transport of volcanic ash to the Greenland ice sheet, *Letter to Nature,* (Ram, M and Gayley, R I) **349,** 401

Ice sheets, Antarctic. Global warming: Breakup of Antarctic ice, *News and views,* (Zwally, H J) **350,** 274

Ice sheets, Antarctica. Evidence from Antarctic ice cores for recent increases in snow accumulation, *Letter to Nature,* (Morgan, V I, Goodwin, I D, Etheridge, D M and Wookey, C W) **354,** 58

Ice sheets, Fennoscandian. Initiation of Fennoscandian ice-sheet retreat during the last deglaciation, *Letter to Nature,* (Lehman, S J, Jones, G A, Keigwin, L D, Andersen, E S, Butenko, G and Ostmo, S-R) **349,** 513

Ice sheets, neutrino detection. Neutrino astronomy: Putting a project on ice, *News and views,* (Kazanas, D) **353,** 298

Ice sheets, neutrino detectors. Observation of muons using the polar ice cap as a Cerenkov detector, *Letter to Nature,* (Lowder, D M, Miller, T, Price, P B, Westphal, A, Barwick, S W, Halzen, F and Morse, R) **353,** 331

Ice sheets. Rapid disintegration of the Wordie Ice Shelf in response to atmospheric warming, *Letter to Nature,* (Donke, C S M and Vaughan, D G) **350,** 328

The growth and decay of ice, *book review by* Oerlemans, J. (Lock, G S H) **351,** 360

Ice, mesospheric. Ice particles and the greenhouse, *Scientific correspondence,* (Hoyle, F and Wickramasinghe, N C) **350,** 467

Ice, planetary. Planetary astronomy: Icy clues to Triton's origins, *News and views,* (McKinnon, W B) **354,** 431

Planetary sciences: An ice cap on Mercury, *News and views,* (Chapman, C R) **354,** 504

Ice, satellites. Coherent backscatter model for the unusual radar reflectivity of icy satellites, *Letter to Nature,* (Hapke, B and Blewett, D) **352,** 46

Ice. The growth and decay of ice, *book review by* Oerlemans, J. (Lock, G S H) **351,** 360

Icebergs, deposits. Reconstruction of glaciation over the past 6 Myr from ice-borne deposits in the Norwegian Sea, *Letter to Nature,* (Jansen, E and Sjoholm, J) **349,** 600

Iceland, geochemistry. Dynamic melting of the Iceland plume, *Article,* (Elliott, T R, Hawkesworth, C J and Grönvold, K) **351,** 201

Iceland, magmatism. Increased mantle melting beneath Snaefellsjökull volcano during Late Pleistocene deglaciation, *Letter to Nature,* (Hardarson, B S and Fitton, J G) **353,** 62

ICI. Industrial research: Manning the cannons at ICI, *News,* (Anderson, C) **352,** 367

Industrial research: Hanson: research versus the bottom-line, *News,* (Anderson, C) **352,** 367

Imaging, medical research. New image, *Scientific correspondence,* (Chance, B and Leigh, J S) **349,** 660

Imanishi-Kari affair. Dissent on forensic evidence, *Commentary,* (McDevitt, H O and Storb, U) **352,** 184

Imanishi-Kari affair: Baltimore resigns, *News,* (Anderson, C) **354,** 341

More views on Imanishi-Kari, *Commentary,* (Ptashne, M) **352,** 100

More views on Imanishi-Kari, *Commentary,* (Cairns, J) **352,** 101

More views on Imanishi-Kari, *Commentary,* (Eisen, H N) **352,** 101

More views on Imanishi-Kari, *Commentary,* (Yannoutsos, N) **352,** 102

National Institutes of Health: Hadley quits two OSI investigations, *News,* (Aldhous, P) **352,** 268

OSI's conclusions wrong, *News and views,* (Imanishi-Kari, T) **351,** 344

Responsibility and Weaver *Commentary,* (Doty, P) **352,** 183

Immigrant scientists, Israel. Israel: Coping with a talent flood, *News,* (Rabinovich, A) **353,** 201

Immigration, Australia. Australian brain drain, *News,* (Anderson, C) **352,** 99

Immunization, AIDS. AIDS: Passive primate protection, *News and views,* (Moore, J P and Weiss, R A) **352,** 376

Immunofluorescent confocal microscopy. Hypervariable C-terminal domain of rab proteins acts as a targeting signal, *Letter to Nature,* (Chavrier, P, Gorvel, J-P, Stelzer, E, Simons, K, Gruenberg, J and Zerial, M) **353,** 769

Immunoglobulin E receptor. Phosphorylation and dephosphorylation of the high-affinity receptor for immunoglobulin E immediately after receptor engagement and disengagement, *Letter to Nature,* (Paolini, R, Jouvin, M-H and Kinet, J-P) **353,** 855

Immunoglobulin-related molecules. Cell adhesion: A birth certificate for CD2, *News and views,* (Springer, T A) **353,** 704

Immunoglobulins. A B cell-deficient mouse by targeted disruption of the membrane exon of the immunoglobulin chain gene, *Letter to Nature,* (Kitamura, D, Roes, J, Kühn, R and Rajewsky, K) **350,** 423

A new human HLA class II-related locus, *JM , Letter to Nature,* (Kelly, A P, Monaco, J J, Cho, S and Trowsdale, J) **353,** 571

Immunodeficiency disorders. CD43, a molecule defective in Wiskott-Aldrich syndrome, binds ICAM-1, *Letter to Nature,* (Rosenstein, Y, Park, J K, Hahn, W C, Rosen, F S, Bierer, B E and Burakoff, S J) **354,** 233

Immunology textbooks. Cellular and molecular immunology, *book review by* Brodsky, F M., (Abbas, A K, Lichtman, A H and Pober, J S) **353,** 513

Essential immunology, seventh edition, *book review by* Brodsky, F M., (Roitt, I) **353,** 513

Immunology: A short course, second edition, *book review by* Brodsky, F M., (Benjamini, E and Lefkowitz, S) **353,** 513

Immunology: A synthesis, second edition, *book review by* Brodsky, F M., (Golub, E S and Green, D R) **353,** 513

Immunology. A B cell-deficient mouse by targeted disruption of the membrane exon of the immunoglobulin chain gene, *Letter to Nature,* (Kitamura, D, Roes, J, Kühn, R and Rajewsky, K) **350,** 423

A new human HLA class II-related locus, *JM , Letter to Nature,* (Kelly, A P, Monaco, J J, Cho, S and Trowsdale, J) **353,** 571

A novel class II MHC molecule with unusual tissue distribution, *Letter to Nature,* (Karlsson, L, Surh, C D, Sprent, J and Peterson, P A) **351,** 485

A proteasome-related gene between the two ABC transporter loci in the class II region of the human MHC, *Letter to Nature,* (Glynne, R, Powis, S H, Beck, S, Kelly, A, Kerr, L-A and Trowsdale, J) **353,** 357

A role for peptide in determining MHC class II structure, *Letter to Nature,* (Sadegh-Nasseri, S and Germain, R N) **353,** 167

A superantigen encoded in the open reading frame of the 3' long terminal repeat of mouse mammary tumour virus, *Article,* (Choi, Y, Kappler, J W and Marrack, P) **350,** 203

Acquisition of the human adeno-associated virus type-2 *rep* gene by human herpesvirus type-6, *Letter to Nature,* (Thomson, B J, Efstathiou, S and Honess, R W) **351,** 78

Activation of Epstein-Barr virus latent genes protects human B cells from death by apoptosis, *Letter to Nature,* (Gregory, C D, Dive, C, Henderson, S, Smith, C A, Williams, G T, Gordon, J and Rickinson, A B) **349,** 612

Activation-independent binding of human memory T cells to adhesion molecule ELAM-1, *Letter to Nature,* (Shimizu, Y, Shaw, S, Graber, N, Gopal, T V, Horgan, K J, Van Seventer, G A and Newman, W) **349,** 799

AIDS response, *Scientific correspondence,* (Schwartz, D H) **354,** 439

AIDS response, *Scientific correspondence,* (Montefiori, D C, Hirsch, V M and Johnson, P R) **354,** 439

AIDS response, *Scientific correspondence,* (Whipple, A P) **354,** 440

Allele-specific motifs revealed by sequencing of self-peptides eluted from MHC molecules, *Article,* (Falk, K, Rötzschke, O, Stevanovic, S, Jung, G and Rammensee, H-G) **351,** 290

An explanation for the protective effect of the MHC class II I-E molecule in murine diabetes: Correction, *Letter to Nature,* (Reich, E-P, Sherwin, R S, Kanagawa, O and Janeway, C A) **352,** 88

Ancient *HLA* genes from 7,500-year-old archaeological remains, *Letter to Nature,* (Lawlor, D A, Dickel, C D, Hauswirth, W W and Parham, P) **349,** 785

Anti-cell antibody in macaques, *Scientific correspondence,* (Stott, E J) **353,** 393

Antigen presentation: Later for the rendezvous, *News and views,* (Hackett, C J) **349,** 655

Antigen presentation: Half of a peptide pump, *News and views,* (Parham, P) **351,** 271

Antigen presentation: The second class story, *News and views,* (Germain, R N) **353,** 605

Antigen processing: Proteasomes in the pathway, *News and views,* (Robertson, M) **353,** 300

Bcl-2 maintains B cell memory, *Letter to Nature,* (Nuñez, G, Hockenbery, D, McDonnell, T J, Sorensen, C M and Korsmeyer, S J) **353,** 71

Biological membranes: The semiotics of charge, *News and views,* (Green, N M) **351,** 349

Bone marrow transplantation: Making just the right match, *News and views,* (Parham, P) **350,** 111

Break for SCIDs, *Scientific correspondence,* (Mosier, D E, Gulizia, R J, Torbett, B E, Baird, S M and Wilson, D B) **353,** 500

$CD4^-$ and $CD8^-$ T cells acquire specific lymphokine secretion potentials during thymic maturation, *Letter to Nature,* (Bendelac, A and Schwartz, R H) **353,** 68

CD4 expressed on earliest T-lineage precursor cells in the adult murine thymus, *Letter to Nature,* (Wu, L, Scollay, R, Egerton, M, Pearse, M, Spangrude, G J and Shortman, K) **349,** 71

Clonal deletion of Vβ14-bearing T cells in mice transgenic for mammary tumour virus, *Article,* (Acha-Orbea, H, Shakhov, A N, Scarpellino, L, Kolb, E, Müller, V, Vessaz-Shaw, A, Fuchs, R, Blöchlinger, K, Rollini, P, Billotte, J, Sarafidou, M, Macdonald, H R and Diggelmann, H) **350,** 207

Clonal deletion of immature $CD4^+8^+$ thymocytes in suspension culture by extrathymic antigen presenting cells, *Letter to Nature,* (Swat, W, Ignatowicz, L, von Boehmer, H and Kisielow, P) **351,** 150

Confusion over CD45 isoform, *Scientific correspondence,* (Merkenschlager, M) **352,** 28

Efficient production of functional mRNA mediated by RNA polymerase I in *Trypanosoma brucei, Letter to Nature,* (Zomerdijk, J C B M, Kleft, R and Borst, P) **353,** 772

ELAM-1 is an adhesion molecule for skin-homing T cells, *Letter to Nature,* (Picker, L J, Kishimoto, T K, Smith, C W, Warnock, R A and Butcher, E C) **349,** 796

Elimination from peripheral lymphoid tissues of self-reactive B lymphocytes recognizing membrane-bound antigens, *Letter to Nature,* (Hartley, S B, Crosbie, J, Brink, R, Kantor, A B, Basten, A and Goodnow, C C) **353,** 765

Enhancement of T-cell activation by the CD43 molecule whose expression is defective in Wiskott-Aldrich syndrome, *Letter to Nature,* (Park, J K, Rosenstein, Y J, Remold-O'Donnell, E, Bierer, B E, Rosen, F S and Burakoff, S J) **350,** 706

Enhancement of T-cell responsiveness by the lymphocyte-specific tyrosine protein kinase $p56^{lck}$, *Letter to Nature,* (Abraham, N, Miceli, M C, Parnes, J R and Veillette, A) **350,** 62

Excess β, microglobulin promoting functional peptide association with purified soluble class I MHC molecules, *Letter to Nature,* (Kozlowski, S, Takeshita, T, Boehncke, W-H, Takahashi, H, Boyd, L F, Germain, R N, Berzofsky, J A and Margulies, D H) **349,** 74

FK506 and protein kinase C, *Scientific correspondence,* (Tropschug, M and Hofmann, R) **351,** 195

Formation of a nine-subunit complex by HLA class II glycoproteins and the invariant chain, *Letter to Nature,* (Roche, P A, Marks, M S and Cresswell, P) **354,** 392

Growing human B lymphocytes in the CD40 system, *Product Review,* (Banchereau, J and Rousset, F) **353,** 678

HIV enhancer activity perpetuated by NF-κB induction on infection of monocytes, *Letter to Nature,* (Bachelerie, F, Alcami, J, Arenzana-Seisdedos, F and Virelizier, J-L) **350,** 709

HIV: Games that viruses play, *News and views,* (Zinkernagel, R M and Hengartner, H) **354,** 433

Homology of proteasome subunits to a major histocompatibility complex-linked LMP gene, *Letter to Nature,* (Martinez, C K and Monaco, J J) **353,** 664

Human immunodeficiency virus genetic variation that can escape cytotoxic T cell recognition, *Article,* (Phillips, R E, Rowland-Jones, S, Nixon, D F, Gotch, F M, Edwards, J P, Ogunlesi, A O, Elvin, J G, Rothbard, J A, Bangham, C R M, Rizza, C R and McMichael, A J) **354,** 453

Humoral and cell-mediated immune responses to live recombinant BCG-HIV vaccines, *Letter to Nature,* (Aldovini, A and Young, R A) **351,** 479

Identification of self peptides bound to purified HLA-B27, *Letter to Nature,* (Jardetzky, T S, Lane, W S, Robinson, R A, Madden, D R and Wiley, D C) **353,** 326

Identification and mapping to chromosome 1 of a susceptibility locus for periinsulitis in non-obese diabetic mice, *Letter to Nature,* (Garchon, H-J, Bedossa, P, Eloy, L and Bach, J-F) **353,** 260

Identifying antigenic T-cell sites, *Product Review,* (Feller, D C and de la Cruz, V F) **349,** 720

Immunology: The centre of hypermutation, *News and views,* (MacLennan, I) **354,** 352

Immunomodulation of experimental allergic encephalomyelitis by antibodies to the antigen-la complex, *Letter to Nature,* (Aharoni, R, Teitelbaum, D, Arnon, R and Puri, J) **351,** 147

Immunosuppression: Binding by design, *News and views,* (Ringe, D) **351,** 185

Interleukin-2 programs mouse αβ T lymphocytes for apoptosis, *Letter to Nature,* (Lenardo, M J) **353,** 858

Intracloncal generation of antibody mutants in germinal centres, *Letter to Nature,* (Jacob, J, Kelsoe, G, Rajewsky, K and Weiss, U) **354,** 389

Limited heterogeneity of rearranged T-cell receptor Vα transcripts in brains of multiple sclerosis patients (Erratum), *Letter to Nature,* (Oksenberg, J R, Stuart, S, Begovich, A B, Bell, R B, Erlich, H A, Steinman, L and Bernard, C C A) **353,** 94

Lower receptor avidity required for thymic clonal deletion than for effector T-cell function, *Letter to Nature,* (Pircher, H, Rohrer, U H, Moskophidis, D, Zinkernagel, R M and Hengartner, H) **351,** 482

Lymphocyte homing: Skin-seeking memory T cells, *News and views,* (Mackay, C R) **349,** 737

Membrane protein association by potential intramembrane charge pairs, *Letter to Nature,* (Cosson, P, Lankford, S P, Bonifacino, J S and Klausner, R D) **351,** 414

MHC class I surface expression in embryo-derived cell lines inducible with peptide or interferon, *Letter to Nature,* (Bikoff, E K, Jaffe, L, Ribaudo, R K, Otten, G R, Germain, R N and Robertson, E J) **354,** 235

MHC class II structure, occupancy and surface expression determined by post-endoplasmic reticulum antigen binding, *Article,* (Germain, R N and Hendrix, L R) **353,** 134

Molecular characterization of single memory B cells, *Letter to Nature,* (McHeyzer-Williams, M G, Nossal, G J V and Lalor, P A) **350,** 502

New class II-like genes in the murine MHC, *Letter to Nature,* (Cho, S, Attaya, M and Monaco, J J) **353,** 573

New use of BCG for recombinant vaccines, *Article,* (Stover, C K, de la Cruz, V F, Fuerst, T R, Burlein, J E, Benson, L A, Bennett, L T, Bansal, G P, Young, J F, Lee, M H, Hatfull, G F, Snapper, S B, Barletta, R G, Jacobs, W R and Bloom, B R) **351,** 456

Normal development and function of $CD8^+$ cells but markedly decreased helper cell activity in mice lacking CD4, *Letter to Nature,* (Rahemtulla, A, Fung-Leung, W P, Schilham, M W, Kündig, T M, Sambhara, S R, Narendran, A, Arabian, A, Wakeham, A, Paige, C J, Zinkernagel, R M, Miller, R G and Mak, T W) **353,** 180

On the complexity of self, *Letter to Nature*, (Rudensky, A Y, Rath, S, Preston-Hurlburt, P, Murphy, D B and Janeway Jr, C A) **353,** 660

Peptide binding to empty HLA-B27 molecules of viable human cells, *Letter to Nature*, (Benjamin, R J, Madrigal, J A and Parham, P) **351,** 74

Peptide binding to class I MHC on living cells and quantitation of complexes required for CTL lysis, *Letter to Nature*, (Christinck, E R, Luscher, M A, Barber, B H and Williams, D B) **352,** 67

Peptide selection by MHC class I molecules, *Letter to Nature*, (Schumacher, T N M, De Bruijn, M L H, Vermie, L N, Kast, W M, Melief, C J M, Neefjes, J J and Ploegh, H L) **350,** 703

Peptide-induced conformational change of the class I heavy chain, *Letter to Nature*, (Elliott, T, Cerundolo, V, Elvin, J and Townsend, A) **351,** 402

Peripheral deletion of self-reactive B cells, *Letter to Nature*, (Russell, D M, Dembic, Z, Morahan, G, Miller, J F A P, Bürki, K and Nemazee, D) **354,** 308

Phosphorylation and dephosphorylation of the high-affinity receptor for immunoglobulin E immediately after receptor engagement and disengagement, *Letter to Nature*, (Paolini, R, Jouvin, M-H and Kinet, J-P) **353,** 855

Precise prediction of a dominant class I MHC-restricted epitope of *Listeria monocytogenes*, *Letter to Nature*, (Pamer, E G, Harty, J T and Bevan, M J) **353,** 852

Processing of the precursor of NF-κB by the HIV-1 protease during acute infection, *Letter to Nature*, (Rivière, Y, Blank, V, Kourilsky, P and Israël, A) **350,** 625

Reconstitution by MHC-restricted peptides of HLA-A2 heavy chain with β$_2$-microglobulin, *Letter to Nature*, (Silver, M L, Parker, K C and Wiley, D C) **350,** 619

Regulation of leukocyte migration by activation of the leukocyte adhesion molecule-1 (LAM-1) selectin, *Letter to Nature*, (Spertini, O, Kansas, G S, Munro, J M, Griffin, J D and Tedder, T F) **349,** 691

Restoration of antigen presentation to the mutant cell line RMA-S by an MHC-linked transporter, *Letter to Nature*, (Powis, S J, Townsend, A R M, Deverson, E V, Bastin, J, Butcher, G W and Howard, J C) **354,** 528

Restored expression of major histocompatibility class I molecules by gene transfer of a putative peptide transporter, *Letter to Nature*, (Spies, T and DeMars, R) **351,** 323

Second proteasome-related gene in the human MHC class II region, *Letter to Nature*, (Kelly, A, Powis, S H, Glynne, R, Radley, E, Beck, S and Trowsdale, J) **353,** 667

Segregation of MHC class II molecules from MHC class I molecules in the Golgi complex for transport to lysosomal compartments, *Article*, (Peters, P J, Neefjes, J J, Oorschot, V, Ploegh, H L and Geuze, H J) **349,** 669

Sequence analysis of peptides bound to MHC class II molecules, *Article*, (Rudensky, A Y, Preston, Hurlburt, P, Hong, S-C, Barlow, A and Janeway Jr, C A) **353,** 622

Serine phosphorylation-independent downregulation of cell-surface CD4 by *nef*, *Letter to Nature*, (Garcia, J V and Miller, A D) **350,** 508

Solution structure of the major binding protein for the immunosuppressant FK506, *Letter to Nature*, (Moore, J M, Peattie, D A, Fitzgibbon, M J and Thomson, J A) **351,** 248

Specific binding of antigenic peptides to cell-associated MHC class I molecules, *Letter to Nature* (Luescher, I F, Romero, P, Cerottini, J-C and Maryanski, J L) **351,** 72

Stimulation by superantigen, *Scientific correspondence*, (Cohen, J J, Duke, R C and Sellins, K S) **352,** 199

Stretching a point, *Scientific correspondence*, (Feinstein, S I) **350,** 563

Structural and serological similarity of MHC-linked LMP and proteasome (multicatalytic proteinase) complexes, *Letter to Nature*, (Brown, M G, Driscoll, J and Monaco, J J) **353,** 355

Structure of domain 1 of rat T lymphocyte CD2 antigen, *Letter to Nature*, (Driscoll, P C, Cyster, J G, Campbell, I D and Williams, A F) **353,** 762

Subunit of the '20S' proteasome (muticatalytic proteinase) encoded by the major histocompatibility complex, *Letter to Nature*, (Ortiz-Navarrete, V, Seelig, A, Gernold, M, Frentzel, S, Kloetzel, P M and Hämmerling, G J) **353,** 662

Synthetic vaccines: Peptides of fortune, *News and views*, (Janeway, C) **353,** 792

The chemotactic receptor for human C5a anaphylatoxin, *Letter to Nature*, (Gerard, N P and Gerard, C) **349,** 614

The structure of HLA-B27 reveals nonamer self-peptides bound in an extended conformation, *Article*, (Madden, D R, Gorga, J C, Strominger, J L and Wiley, D C) **353,** 321

Type 1 diabetes in mice is linked to the interleukin-1 receptro and *Lsh/Ity/Bcg* genes on chromosome 1, *Letter to Nature*, (Cornall, R J, Prins, J-B, Todd, J A, Pressey, A, DeLarato, N H, Wicker, L S and Peterson, L B) **353,** 262

Uptake of *Pneumocystis carinii* mediated by the macrophage mannose receptor, *Letter to Nature*, (Ezekowitz, R A B, Williams, D J, Koziel, H, Armstrong, M Y K, Warner, A, Richards, F F and Rose, R M) **351,** 155

What's the score?, *Scientific correspondence*, (Brodsky, F M) **352,** 288

Immunosuppressants. Structure of human cyclophilin and its binding site for cyclosporin A determined by X-ray crystallography and NMR spectroscopy, *Letter to Nature*, (Kallen, J, Spitzfaden, C, Zurini, M G M, Wider, G, Widmer, H, Wüthrich, K and Walkinshaw, M D) **353,** 276

Immunosuppression. FK506 and protein kinase C, *Scientific correspondence*, (Tropschug, M and Hofmann, R) **351,** 195

Immunosuppression: Binding by design, *News and views*, (Ringe, D) **351,** 185

Solution structure of the major binding protein for the immunosuppressant FK506, *Letter to Nature*, (Moore, J M, Peattie, D A, Fitzgibbon, M J and Thomson, J A) **351,** 248

Impact craters, Cretaceous-Tertiary boundary. Mexican site for K/T impact crater, *Scientific correspondence*, (Pope, K O, Ocampo, A C and Duller, C E) **351,** 105

Impact glasses. Geochemical constraints on source region of Cretaceous/Tertiary impact glasses, *Letter to Nature*, (Sigurdsson, H, Bonté, Ph, Turpin, L, Chausidon, M, Metrich, N, Steinberg, M, Pradel, Ph and D'Hondt, S) **353,** 839

Impacts, asteroids. Spacewatch: Our asteroid-pelted planet, *News and views*, (Steel, D) **354,** 265

Imports, animal research. Animal research: Primate imports confusion, *News*, (Anderson, C) **351,** 510

Inclusion chemistry. Guest-host complexes: Chemistry in a nutshell, *News and views*, (Atwood, J L and Gokel, G W) **354,** 354

Induced molecule self-organization, *Scientific correspondence*, (Müller, A) **352,** 115

Induced molecule self-organization, *Scientific correspondence*, (Day, V W, Klemperer, W G and Yaghi, O M) **352,** 115

Induced molecule self-organization: Reply, *Scientific correspondence*, (Mitchell, P C H) **352,** 115

Inclusion compounds. Macrocyclic chemistry: A new challenge to valency, *News and views*, (Constable, E C) **353,** 600

X-ray diffraction evidence for aromatic π hydrogen bonding to water, *Letter to Nature*, (Atwood, J L, Hamada, F, Robinson, K D, Orr, G W and Vincent, R L) **349,** 683

Incommensurate phases. A lattice-like construction to explain diffraction patterns of some non-stoichiometric phases, *Letter to Nature*, (Harburn, G, Tilley, R J D, Williams, J M and Williams, R P) **350,** 214

Incompatibility factors. Rapid spread of an inherited incompatibility factor in California *Drosophila*, *Letter to Nature*, (Turelli, M and Hoffmann, A A) **353,** 440

India, AZT. AIDS: Challenge to AZT, *News*, (Jayaraman, K S) **353,** 589

India, Bhopal disaster. India: Bhopal case near end, *News*, (Jayaraman, K S) **353,** 595

India, dam projects. Disaster prevention: Quake raises doubts about Indian dam, *News*, (Jayaraman, K S) **354,** 96

India, demography. Demography: Census sex puzzle, *News*, (Jayaraman, K S) **350,** 645

India, DNA fingerprinting. DNA fingerprinting in India, *Scientific correspondence*, (Das, A) **350,** 387

India, dogs. India: Sterilized dogs, bulls will keep their libido, *News*, (Jayaraman, K S) **352,** 97

India, fetal sex tests. India: Saving female babies, *News*, (Jayaraman, K S) **353,** 594

India, greenhouse gases. India: Skinny cows no threat, *News*, (Jayaraman, K S) **353,** 685

India, Gulf war. India: Impact of Gulf War, *News*, (Jayaraman, K S) **349,** 447

India, nuclear reprocessing. Nuclear research: India to reprocess fuels, *News*, (Jayaraman, K S) **351,** 338

India, politics. What will happen now to India?, *Opinion*, **351,** 333

India, radioactive contamination. India: Chasing the source of radioactive steel, *News*, (Jayaraman, K S) **353,** 202

India, research institutes. Raman rejoinder, *Correspondence*, (Radhakrishnan, V) **350,** 183

India, research. India: Atomic lab flooded, *News*, (Jayaraman, K S) **352,** 272

Indian research: Universities and industry collaborate, *News*, (Jayaraman, K S) **349,** 555

India, satellites. Earth mapping: New Indian satellite is up, *News*, (Jayaraman, K S) **353,** 202

India, science budget. India: Meagre science budget, *News*, (Jayaraman, K S) **352,** 365

India, science. History of science and technology in ancient India, Vol. II: Formation of the theoretical fundamentals of natural science, *book review by* Temple, R., (Chattopadhyaya, D) **353,** 28

India: Scientists will miss Gandhi, *News*, (Jayaraman, K S) **351,** 431

International collaboration: India and Australia plan ties, *News*, (Jayaraman, K S) **351,** 431

Perspectives for India, *Correspondence*, (Singh, J S) **353,** 104

Science in India, *Correspondence*, (Sehgal, N K) **353,** 691

India, space programme. India: Meagre science budget, *News*, (Jayaraman, K S) **352,** 365

India, space research. Nuclear research: India to reprocess fuels, *News*, (Jayaraman, K S) **351,** 338

India, suicide pills. India: Death pills from pesticide, *News*, (Jayaraman, K S) **353,** 377

India, universities. Himalayan palaeontology: Gupta faces suspension, *News*, (Jayaraman, K S) **349,** 645

Indian reputations, *Opinion*, **349,** 639

Indian research: Universities and industry collaborate, *News*, (Jayaraman, K S) **349,** 555

Raman Institute: Storm at Bangalore institute, *News*, (Jayaraman, K S) **349,** 732

Indo-European languages. Genetic evidence for the spread of agriculture in Europe by demic diffusion, *Letter to Nature*, (Sokal, R R, Oden, N L and Wilson, C) **351,** 143

Industrial participation. Research centres: The perils of industrial participation, *News*, (Anderson, C) **352,** 270

Industrial research, Poland. Hard times for Polish industrial researchers, *News*, (Aldhous, P) **354,** 341

Industrial-academic collaboration. Industrial/academic collaboration: Alvey lessons unheeded, *News*, (Aldhous, P) **351,** 178

Industrialized nations. On the height side, *News and views*, **353,** 386

Industry, AT&T Bell Labs. Industrial research: Mayo new head at Bell Labs, *News*, (Pool, R) **352,** 268

Industry, Europe. Can Fortress Europe be feasible?, *Opinion*, **350,** 447

Industry, Japan. Japanese industry: Going for 'green technology', *News*, (Swinbanks, D) **350,** 266

Industry, research. The social return of academic research, *News and views*, (Pool, R) **352,** 661

Industry, UK. Industrial innovation: Get academics into the boardroom, *News*, (Aldhous, P) **350,** 7

Industrial R&D: SPUR to innovation, *News*, (Aldhous, P) **349,** 556

Industrial/academic collaboration: Alvey lessons unheeded, *News*, (Aldhous, P) **351,** 178

Industry, US. R&D for industry - A century of technical innovation at Alcoa, *book review by* Cahn, R W. (Graham, M B W and Pruitt, B H) **350,** 118

Industry. Biotechnology: Cetus and Chiron merge, *News*, (Gershon, D) **352,** 364

Industrial research: Manning the cannons at ICI, *News*, (Anderson, C) **352,** 367

Industrial research: Hanson: research versus the bottom-line, *News*, (Anderson, C) **352,** 367

Inertial-confinement fusion. Plasma physics: Just a light squeeze, *News and views*, (Pease, R S) **349,** 466

Infertility, human. Reproductive biology. A clue to Kartagener's, *News and views*, (Aitken, J) **353,** 306

Inflammation. A primary determinant for lipoxygenase positional specificity, *Letter to Nature*, (Sloane, D L, Leung, R, Craik, C S and Sigal, E) **354,** 149

Activation-independent binding of human memory T cells to adhesion molecule ELAM-1, *Letter to Nature*, (Shimizu, Y, Shaw, S, Graber, N, Gopal, T V, Horgan, K J, Van Seventer, G A and Newman, W) **349,** 799

ELAM-1 is an adhesion molecule for skin-homing T cells, *Letter to Nature*, (Picker, L J, Kishimoto, T K, Smith, C W, Warnock, R A and Butcher, E C) **349,** 796

Regulation of leukocyte migration by activation of the leukocyte adhesion molecule-1 (LAM-1) selectin, *Letter to Nature*, (Spertini, O, Kansas, G S, Munro, J M, Griffin, J D and Tedder, T F) **349,** 691

The chemotactic receptor for human C5a anaphylatoxin, *Letter to Nature*, (Gerard, N P and Gerard, C) **349,** 614

Inflation, cosmology. New for old, *News and views*, **350,** 463

Inflationary cosmology. Particle physics and inflationary cosmology, *book review by* Turok, N. (Linde, A D) **350,** 666

Influenza virus. Muller's ratchet and flu virus, *Scientific correspondence*, (Donis, R O) **353,** 308

Information storage. Earlier light, *Scientific correspondence*, (Klopman, G) **349,** 112

The right way, *Scientific correspondence*, (Liu, Z F, Hashimoto, K and Fujishima, A) **351,** 193

Information technology, UK. Industrial/academic collaboration: Alvey lessons unheeded, *News*, (Aldhous, P) **351,** 178

Information theory. Complexity, entropy and the physics of information, *book review by* Landsberg, P T. (Zurek, W H) **349,** 376

Maxwell's demon: Entropy, information, computing, *book review by* Landsberg, P T. (Leff, H S and Rex, A F) **349,** 376

Infrared astronomy, fullerenes. Comparison of a calculated spectrum of $C_{60}H_{60}$ with the unidentified astronomical infrared emission features, *Letter to Nature*, (Webster, A) **352,** 412

Infrared astronomy. Astronomy: When big is beautiful, *News and views*, (Kulkarni, S R, Shao, M and Haniff, C A) **352,** 383

Infrared astronomy: Keeping cool in space, *News*, (Aldhous, P) **351,** 338

Is the bulge of our Galaxy triaxial?, *Letter to Nature*, (Nakada, Y, Deguchi, S, Hashimoto, O, Izumiura, H, Onaka, T, Sekiguchi, K and Yamamura, I) **353,** 140

Morphological differences between optical and infrared images of the spiral galaxy NGC309, *Letter to Nature*, (Block, D L and Wainscoat, R J) **353,** 48

Inheritance, mtDNA. Paternal inheritance of mitochondrial DNA in mice, *Letter to Nature*, (Gyllensten, U, Wharton, D, Josefsson, A and Wilson, A C) **352,** 255

Inner ear. The *int-2* proto-oncogene is responsible for induction of the inner ear, *Letter to Nature*, (Represa, J, León, Y, Miner, C and Giraldez, F) **353,** 561

Inorganic chemistry. Change of coordination from tetrahedral gold-ammonium to square-pyramidal gold-arsonium cations, *Letter to Nature*, (Zeller, E, Beruda, H, Kolb, A, Bissinger, P, Riede, J and Schmidbaur, H) **352,** 141

Induced molecule self-organization, *Scientific correspondence*, (Müller, A) **352,** 115

Induced molecule self-organization, *Scientific correspondence*, (Day, V W, Klemperer, W G and Yaghi, O M) **352,** 115

Induced molecule self-organization: Reply, *Scientific correspondence*, (Mitchell, P C H) **352,** 115

Low-temperature synthesis of hydrated zinco(beryllo)-phosphate and arsenate molecular sieves, *Letter to Nature*, (Gier, T E and Stucky, G D) **349,** 508

Rapid solid-state synthesis of materials from molybdenum disulphide to refractories, *Letter to Nature*, (Bonneau, P R, Jarvis, R F and Kaner, R B) **349,** 510

Ring ratings, *News and views*, **351,** 190

Synthesis of pentacoordinate silicon complexes from SiO_2, *Letter to Nature*, (Laine, R M, Blohowiak, K Y, Robinson, T R, Hoppe, M L, Nardi, P, Kampf, J and Uhm, J) **353,** 642

The biological chemistry of the elements: The inorganic chemistry of life, (da Silva, J J R F and Williams, R J P) *book review by* Martin, R B. **354,** 367

Inositol 1,4,5-trisphosphate. Spontaneous calcium release from inositol trisphosphate-sensitive calcium stores, *Letter to Nature*, (Missiaen, L, Taylor, C W and Berridge, M J) **352,** 241

Inositol trisphosphate. Activation of Ca^{2+} entry into acinar cells by a non-phosphorylatable inositol trisphosphate, *Letter to Nature*, (Bird, G St J, Rossier, M F, Hughes, A R, Shears, S B, Armstrong, D L and Putney, J W) **352,** 162

Calcium control and $InsP_3$, *Scientific correspondence*, (Irvine, R F) **352,** 115

Inositol trisphosphate-dependent periodic activation of a Ca^{2+}-activated K^+ conductance in glucose-stimulated pancreatic β-cells, *Letter to Nature*, (Ämmälä, C, Larsson, O, Berggren, P-O, Bokvist, K, Juntti-Berggren, L, Kindmark, H and Rorsman, P) **353,** 849

Insect control. Construction of an improved baculovirus insecticide containing an insect-specific toxin gene, *Letter to Nature*, (Stewart, L M D, Hirst, M, Ferber, M L, Merryweather, A T, Cayley, P J and Possee, R D) **352,** 85

Insect paralysis by baculovirus-mediated expression of a mite neurotoxin gene, *Letter to Nature*, (Tomalski, M D and Miller, L K) **352,** 82

Insect development. A deficiency of the homeotic complex of the beetle *Tribolium*, *Letter to Nature*, (Stuart, J J, Brown, S J, Beeman, R W and Denell, R E) **350,** 72

Insecticide resistance, mosquitoes. Molecular evolution: The resistance movement, *News and views*, (Brookfield, J F Y) **350,** 107

Worldwide migration of amplified insecticide resistance genes in mosquitoes, *Letter to Nature*, (Raymond, M, Callaghan, A, Fort, P and Pasteur, N) **350,** 151

Insecticides. Biopesticides: Control engineering, *News and views*, (Hochberg, M E and Waage, J K) **352,** 16

Crystal structure of insecticidal δ-endotoxin from *Bacillus thuringiensis* at 2.5 Å resolution, *Article*, (Li, J, Carroll, J and Ellar, D J) **353,** 815

Insectivorous plants. Ecology: Prey for the plundering, *News and views*, (Moore, P D) **350,** 192

Insects, population dynamics. Spatial structure and chaos in insect population dynamics, *Letter to Nature*, (Hassell, M P, Comins, H N and May, R M) **353** 255

Insects. Count down, *News and views*, **352,** 191

Insulin receptor. Receptor binding redefined by a structural switch in a mutant human insulin, *Letter to Nature*, (Hua, Q X, Shoelson, S E, Kochoyan, M and Weiss, M A) **354,** 238

Structure of the insulin receptor substrate IRS-1 defines a unique signal transduction protein, *Letter to Nature*, (Sun, X J, Rothenberg, P, Kahn, C R, Backer, J M, Araki, E, Wilden, P A, Cahill, D A, Goldstein, B J and White, M F) **352,** 73

Insulin secretion. Inositol trisphosphate-dependent periodic activation of a Ca^{2+}-activated K^+ conductance in glucose-stimulated pancreatic β-cells, *Letter to Nature*, (Ämmälä, C, Larsson, O, Berggren, P-O, Bokvist, K, Juntti-Berggren, L, Kindmark, H and Rorsman, P) **353,** 849

Insulin, binding. Structure of the insulin receptor substrate IRS-1 defines a unique signal transduction protein, *Letter to Nature*, (Sun, X J, Rothenberg, P, Kahn, C R, Backer, J M, Araki, E, Wilden, P A, Cahill, D A, Goldstein, B J and White, M F) **352,** 73

Insulin-dependent diabetes mellitus. Identification and mapping to chromosome 1 of a susceptibility locus for periinsulitis in non-obese diabetic mice, *Letter to Nature*, (Garchon, H-J, Bedossa, P, Eloy, L and Bach, J-F) **353,** 260

Type 1 diabetes in mice is linked to the interleukin-1 receptro and *Lsh/Ity/Bcg* genes on chromosome 1, *Letter to Nature*, (Cornall, R J, Prins, J-B, Todd, J A, Pressey, A, DeLarato, N H, Wicker, L S and Peterson, L B) **353,** 262

Insulin-dependent gene expression. DNA-binding properties of the product of the testis determining gene and a related protein, *Letter to Nature*, (Nasrin, N, Buggs, C, Kong, X F, Carnazza, J, Goebl, M and Alexander-Bridges, M) **354,** 317

Insulin-like growth factor II. Insulin-IGF2 region on chromosome 11p encodes a gene implicated in HLA-DR4-dependent diabetes susceptibility, *Letter to Nature*, (Julier, C, Hyer, R N, Davies, J, Merlin, F, Soularue, P, Briant, L, Cathelineau, G, Deschamps, I, Rotter, J I, Froguel, P, Boitard, C, Bell, J I and Lathrop, G M) **354,** 155

Insulin-like growth factor receptors. The mouse insulin-like growth factor type-2 receptor is imprinted and closely linked to the *Tme* locus, *Letter to Nature*, (Barlow, D P, Stöger, R, Herrmann, B G, Saito, K and Schweifer, N) **349,** 84

Insulin. Activation by adrenaline of a low-conductance G protein-dependent K^+ channel in mouse pancreatic B cells, *Letter to Nature*, (Rorsman, P, Bokvist, K, Ämmälä, C, Arkhammar, P, Berggren, P-O, Larsson, O and Wåhlander, K) **349,** 77

Insulin-IGF2 region on chromosome 11p encodes a gene implicated in HLA-DR4-dependent diabetes susceptibility, *Letter to Nature*, (Julier, C, Hyer, R N, Davies, J, Merlin, F, Soularue, P, Briant, L, Cathelineau, G, Deschamps, I, Rotter, J I, Froguel, P, Boitard, C, Bell, J I and Lathrop, G M) **354,** 155

Insurance industry. Just screening, *Correspondence*, (Macer, D) **354,** 347

Integrated circuits. A silicon neuron, *Letter to Nature*, (Mahowald, M and Douglas, R) **354,** 515

Japanese patent system: Fujitsu and TI fight it out, *News*, (Swinbanks, D) **353,** 488

Neural sciences: Electronic arts imitate life, *News and views*, (Andreou, A G) **354,** 501

Integrins. A discrete sequence in a platelet integrin is involved in ligand recognition, *Letter to Nature*, (D'Souza, S E, Ginsberg, M H, Matsueda, G R and Plow, E F) **350,** 66

Cell-surface regulation of β_1-integrin activity on developing retinal neurons, *Letter to Nature*, (Neugebauer, K M and Reichardt, L F) **350,** 68

Intelligence tests, vitamins. Vitamins and intelligence tests, *Correspondence*, (Pauling, L) **353,** 103

Intelligence tests. Science, Ideology, and the Media: The Cyril Burt Scandal, *book review by* Loevinger, L. (Fletcher, R) **352,** 120

Intelligence, vitamins. A dose of vitamins and a pinch of salt, *News and views*, (Blinkhorn, S) **350,** 13

Diet and IQ, *Scientific correspondence*, (Schoenthaler, S) **352,** 292

IQ and vitamin supplements, *Correspondence*, (Eysenck, H J) **351,** 263

Publication ethics: IQ data controversy, *News*, (Aldhous, P) **350,** 5

Vitamin quotient, *Opinion*, **350,** 2

Intensity-fluctuation spectroscopy, X-rays. Observation of speckle by diffraction with coherent X-rays, *Letter to Nature*, (Sutton, M, Mochrie, S G J, Greytak, T, Nagler, S E, Berman, L E, Held, G A and Stephenson, G B) **352,** 608

Intercellular adhesion molecule-1. CD43, a molecule defective in Wiskott-Aldrich syndrome, binds ICAM-1, *Letter to Nature*, (Rosenstein, Y, Park, J K, Hahn, W C, Rosen, F S, Bierer, B E and Burakoff, S J) **354,** 233

Intercellular signalling. Role of the *Drosophila patched* gene in positional signalling, *Letter to Nature*, (Ingham, P W, Taylor, A M and Nakano, Y) **353,** 184

Interferometry, MERLIN. Radioastronomy: Making the most of MERLIN's potential, *News*, (Aldhous, P) **349,** 733

Interferometry, VLBI. New measurement of solar gravitational deflection of radio signals using VLBI, *Letter to Nature*, (Robertson, D S, Carter, W E and Dillinger, W H) **349,** 768

Interferometry. A high-resolution radio image of a young supernova, *Letter to Nature*, (Bartel, N, Rupen, M P, Shapiro, I I, Preston, R A and Rius, A) **350,** 212

Astronomy: When big is beautiful, *News and views*, (Kulkarni, S R, Shao, M and Haniff, C A) **352,** 383

Gravitational waves: Recycling for a cleaner signal, *News and views*, (Raab, F J) **351,** 98

Quantum eraser, *Scientific correspondence*, (Zajonc, A G, Wang, L J, Zou, X Y and Mandel, L) **353,** 507

Interferon. MHC class I surface expression in embryo-derived cell lines inducible with peptide or interferon, *Letter to Nature*, (Bikoff, E K, Jaffe, L, Ribaudo, R K, Otten, G R, Germain, R N and Robertson, E J) **354,** 235

Interferons. Radical prospects, *News and views*, **349,** 739

Intergalactic medium. The physical state of the intergalactic medium, *Letter to Nature*, (Barcons, X, Fabian, A C and Rees, M J) **350,** 685

Intergovernmental Panel on Climate Change. Global warming makes its mark everywhere, *News*, **349,** 3

Revised projection of future greenhouse warming, *Letter to Nature*, (Schlesinger, M E and Jiang, X) **350,** 219

Interleukin-1 receptor. Toll and IL-1 receptor, *Scientific correspondence*, (Gay, N J and Keith, F J) **351,** 355

Type 1 diabetes in mice is linked to the interleukin-1 receptro and *Lsh/Ity/Bcg* genes on chromosome 1, *Letter to Nature*, (Cornall, R J, Prins, J-B, Todd, J A, Pressey, A, DeLarato, N H, Wicker, L S and Peterson, L B) **353,** 262

Interleukin-2. Interleukin-2 programs mouse αβ T lymphocytes for apoptosis, *Letter to Nature*, (Lenardo, M J) **353,** 858

Interleukin-6. Wild-type p53 induces apoptosis of myeloid leukaemic cells that is inhibited by interleukin-6, *Letter to Nature*, (Yonish-Rouach, E, Resnitzky, D, Lotem, J, Sachs, L, Kimchi, A and Oren, M) **352,** 345

Intermediate filaments. Intermediate filaments: Getting under the skin, *News and views*, (Klymkowsky, M W) **354,** 264

Intermolecular forces. Direct measurement of colloidal forces using an atomic force microscope, *Letter to Nature*, (Ducker, W A, Senden, T J and Pashley, R M) **353,** 239

Forces between polymer-bearing surfaces undergoing shear, *Letter to Nature*, (Klein, J, Perahia, D and Warburg, S) **352,** 143

Surface physics: A vanishing interface, *News and views*, (Ball, P) **353,** 213

International Atomic Energy Agency. Nuclear power: Bulgaria's dilemma, *News*, (Dickman, S) **352,** 7

International collaboration, fusion. Fusion research: ITER work is shared out, *News*, (Aldhous, P) **352,** 179

International collaboration. Far East: Biotech grows in Hong Kong, *News*, (Gwynne, P) **352,** 273

International Competition: MITI moves to open patents, *News*, (Swinbanks, D) **356,** 102

International collaboration: Euro-laser plans on ice, *News*, (Aldhous, P) **350,** 102

International collaboration: Reforms sought from UK Treasury, *News*, (Aldhous, P) **350,** 103

International collaboration: India and Australia plan ties, *News*, (Jayaraman, K S) **351,** 431

International collaboration: At odds over big science, *News*, (Swinbanks, D) **352,** 272

International collaboration: US plans Frontiers support, *News*, (Swinbanks, D) **354,** 424

International laboratories: UK backs out of neutron lab, *News*, (Anderson, C) **352,** 366

Prospects improve for US-European collaboration, *News*, (Anderson, C) **349,** 182

Sixth-generation computing: Japan courts US on joint project, *News*, (Swinbanks, D and Pool, R) **351,** 336

Solar-terrestrial physics: Europe woos Japan, *News*, (Aldhous, P and Swinbanks, D) **351,** 177

International Whaling Commission. International Whaling Commission: Iceland sharpens its harpoons, *News*, (Aldhous, P) **351,** 430

International Whaling Commission: Greens in disarray after committing a tactical blunder, *News*, (Aldhous, P) **351,** 430

Interstellar clouds. Astronomy: Pruning the Lyman-α forest, *News and views*, (Peacock, J) **349,** 190

Evidence for a rotating helical filament in L1641, part of the Orion cloud complex, *Letter to Nature*, (Uchida, Y, Fukui, Y, Minoshima, Y, Mizuno, A, Iwata, T and Takaba, H) **349,** 140

Protostars: Cool and out of sight, *News and views*, (Whitworth, A) **352,** 662

Interstellar gas, globular clusters. Evacuation of gas from globular clusters by winds from millisecond pulsars, *Letter to Nature*, (Spergel, D N) **352,** 221

Interstellar gas. A molecular gas streamer feeding the Galactic Centre, *Article*, (Ho, P T P, Ho, L C, Szczepanski, J C, Jackson, J M, Armstrong, J T and Barrett, A H) **350,** 309

Interstellar medium. Diffuse bands in emission, *Scientific correspondence*, (Sarre, P J) **351,** 356

Images of atomic carbon in the interstellar medium, *Letter to Nature*, (White, G J and Padman, R) **354,** 511

Soft X-ray shadowing by the Draco cloud, *Letter to Nature*, (Burrows, D N and Mendenhall, J A) **351,** 629

The galactic distribution of free electrons, *Article*, (Cordes, J M, Weisberg, J M, Frail, D A, Spangler, S R and Ryan, M) **354,** 121

X-ray astronomy: Draco's silver lining, *News and views*, (Kahn, S M) **351,** 607

Interviews. How to get on, *Correspondence*, (Stuart, A E) **349,** 97

Intestinal pathophysiology. Glucose/galactose malabsorption caused by a defect in the Na^+/glucose cotransporter, *Letter to Nature*, (Turk, E, Zabel, B, Mundlos, S, Dyer, J and Wright, E M) **350,** 354

Intracellular calcium. Inositol trisphosphate-dependent periodic activation of a Ca^{2+}-activated K^+ conductance in glucose-stimulated pancreatic β-cells, *Letter to Nature*, (Ämmälä, C, Larsson, O, Berggren, P-O, Bokvist, K, Juntti-Berggren, L, Kindmark, H and Rorsman, P) **353,** 849

Intracellular signalling. *Myc* rescue of a mutant CSF-1 receptor impaired in mitogenic signalling, *Letter to Nature*, (Roussel, M F, Cleveland, J L, Shurtleff, S A and Sherr, C J) **353,** 361

Membrane proteins and minimalism, *News and views*, (Robertson, M) **354,** 183

Intracellular transport. Phosphorylation of two small GTP-binding proteins of the Rab family by $p34^{cdc2}$, *Letter to Nature*, (Bailly, E, McCaffrey, M, Touchot, N, Zahraoui, A, Goud, B and Bornens, M) **350,** 715

Intron transposition. Integration of a group I intron into a ribosomal RNA sequence promoted by a tyrosyl-tRNA synthetase, *Letter to Nature*, (Mohr, G and Lambowitz, A M) **354,** 164

Introns. Ribozyme recognition of RNA by tertiary interactions with specific ribose 2'-OH groups, *Letter to Nature*, (Pyle, A M and Cech, T R) **350,** 628

Splice after splice, *News and views*, **349,** 739

Invasion percolation. An invasion percolation model of drainage network evolution, *Letter to Nature*, (Stark, C P) **352,** 423

Invertebrate anatomy. Microscopic anatomy of invertebrates, Vols 1-3 of 15, *book review by* Bennet-Clark, H C., (Harrison, F W, Corliss, O, Westfall, J A and Bogitsch, B J *editors*) **353,** 128

Invertebrate zoology. New early Cambrian animal and onychophoran affinities of enigmatic metazoans, *Letter to Nature*, (Ramsköld, L and Xianguang, H) **351,** 225

Palaeontology: Oddballs from the Cambrian start to get even, *News and views*, (Bengtson, S) **351,** 184

Size is important, *News and views*, **351,** 190

Ion channels, stoichiometry. Determination of the subunit stoichiometry of a voltage-activated potassium channel, *Letter to Nature*, (MacKinnon, R) **350,** 232

Ion channels. A cyclic GMP-activated channel in dissociated cells of the chick pineal gland, *Letter to Nature*, (Dryer, S E and Henderson, D) **353,** 756

A Met-to-Val mutation in the skeletal muscle Na$^+$ channel α-subunit in hyperkalaemic periodic paralysis, *Letter to Nature*, (Rojas, C V, Wang, J, Schwartz, L S, Hoffman, E P, Powell, B R and Brown, R H) **354,** 387

Alteration of ionic selectivity of a K^+ channel by mutation of the H5 region, *Letter to Nature,* (Yool, A J and Schwarz, T L) **349,** 700

Altered chloride ion channel kinetics associated with the ΔF508 cystic fibrosis mutation, *Letter to Nature,* (Dalemans, W, Barbry, P, Champigny, G, Jallat, S, Dott, K, Dreyer, D, Crystal, R G, Pavirani, A, Lazdunski, M and Lecocq, J-P) **354,** 526

Ca^{2+} channels or voltage sensors?, *Scientific correspondence,* (Lamb, G D) **352,** 113

Channel control, *Scientific correspondence,* (Pelzer, S, McDonald, T F and Pelzer, D J) **354,** 363

Channel control, *Scientific correspondence,* (Yatani, A and Brown, A M) **354,** 363

Channel control: Reply, *Scientific correspondence,* (Hartzell, H C, Méry, P F, Fischmeister, R and Szabo, G) **354,** 364

Cloned neuronal I_A(A) channels reopen during recovery from inactivation, *Letter to Nature,* (Ruppersberg, J P, Frank, R, Pongs, O and Stocker, M) **353,** 657

Cloning of cDNA for the glutamate-binding subunit of an NMDA receptor complex, *Letter to Nature,* (Kumar, K N, Tilakaratne, N, Johnson, P S, Allen, A E and Michaelis, E K) **354,** 70

Cystic fibrosis: Channelling our thoughts, *News and views,* (Higgins, C F and Hyde, S C) **352,** 194

Cystic fibrosis: Keeping open options, *News and views,* (Wine, J J) **354,** 503

Direct activation of cardiac pacemaker channels by intracellular cyclic AMP, *Letter to Nature,* (DiFrancesco, D and Tortora, P) **351,** 145

Inactivation of muscle chloride channel by transposon insertion in myotonic mice, *Letter to Nature,* (Steinmeyer, K, Klocke, R, Ortland, C, Gronemeier, M, Jockusch, H, Gründer, S and Jentsch, T J) **354,** 304

Inositol trisphosphate-dependent periodic activation of a Ca^{2+}-activated K^+ conductance in glucose-stikmulated pancreatic β-cells, *Letter to Nature,* (Ämmälä, C, Larsson, O, Berggren, P-O, Bokvist, K, Juntti-Berggren, L, Kindmark, H and Rorsman, P) **353,** 849

Ion channels: Making a submicroscopic hole in one, *News and views,* (Stevens, C F) **349,** 657

Ion channels: Not an open-and-shut case, *News and views,* (Jones, S W) **353,** 603

Molecular neurobiology: NMDA receptors cloned at last, *News and views,* (Mayer, M L) **354,** 16

Molecular operations of the sodium-calcium exchanger revealed by conformation currents, *Letter to Nature,* (Niggli, E and Lederer, W J) **349,** 621

Mutations in the channel domain alter desensitization of a neuronal nicotinic receptor, *Letter to Nature,* (Revah, F, Bertrand, D, Galzi, J-L, Devillers-Thiéry, A, Mulle, C, Hussy, N, Bertrand, S, Ballivet, M and Changeux, J-P) **353,** 846

Primary structure and functional expression of a developmentally regulated skeletal muscle chloride channel, *Letter to Nature,* (Steinmeyer, K, Ortland, C and Jentsch, T J) **354,** 301

Putative receptor for the cytoplasmic inactivation gate in the *Shaker* K^+ channel, *Letter to Nature,* (Isacoff, E Y, Jan, Y N and Jan, L Y) **353,** 86

Voltage-sensing residues in the S4 region of a mammalian K^+ channel, *Letter to Nature,* (Liman, E R, Hess, P, Weaver, F and Koren, G) **353,** 752

Ion transport. ATP-sensitive K^+ channel in the mitochondrial inner membrane, *Letter to Nature,* (Inoue, I, Nagase, H, Kishi, K and Higuti, T) **352,** 244

Cystic fibrosis: Channelling our thoughts, *News and views,* (Higgins, C F and Hyde, S C) **352,** 194

Defective acidification of intracellular organelles in cystic fibrosis, *Letter to Nature,* (Barasch, J, Kiss, B, Prince, A, Saiman, L, Gruenert, D and Al-Awqati, Q) **352,** 70

Extracellular domains mediating ε subunit interactions of muscle acetylcholine receptor, *Letter to Nature,* (Yu, X-M and Hall, Z W) **352,** 64

Ion-molecule interactions. ZEKE threshold photoelectron spectroscopy, *Product Review,* (Grant, E R and White, M G) **354,** 249

Ionospheric physics. Sun-Earth connections: The great solar storms of 1989, *News and views,* (Kurth, W S) **353,** 705

IQ, diet. Diet and IQ, *Scientific correspondence,* (Schoenthaler, S) **352,** 292

IQ, lead. Lead risks, *Scientific correspondence,* (Weiner, S L and Goodman, G) **352,** 385

IQ, vitamins. A dose of vitamins and a pinch of salt, *News and views,* (Blinkhorn, S) **350,** 13

IQ and vitamin supplements, *Correspondence,* (Eysenck, H J) **351,** 263

Publication ethics: IQ data controversy, *News,* (Aldhous, P) **350,** 5

Vitamin quotient, *Opinion,* **350,** 2

Vitamins and IQ, *Correspondence,* (Jukes, T H) **350,** 550

Iran, weapons. Weapons trade: Japan embarrassed by weapons sale to Iran, *News,* (Swinbanks, D) **352,** 96

Iraq, biological weapons. Gulf war and sanctions, *Correspondence,* (Cobourn, S D) **351,** 9

Iraq, chemical weapons. Is Big Brother really watching us?, *News and views,* (Maddox, J) **352,** 375

Iraq, nuclear weapons. Iraq makes even more trouble, *Opinion,* **352,** 1

Iraq, refugees. Iraqi refugee: From hillside to laboratory, *News,* (Aldhous, P) **351,** 262

Iraq, sanctions. Sanctions on Iraq, *Correspondence,* (Steeves, K W) **352,** 368

Iraq, science. Bibliometric lines in the sand, *Commentary,* (de Bruin, R E, Braam, R R and Moed, H F) **349,** 559

Iraqi refugee: From hillside to laboratory, *News,* (Aldhous, P) **351,** 262

Iraq, war reparations. War reparations, *Correspondence,* (Issar, A S and Adar, E) **352,** 10

Iraq, war. Is there an end to holy wars?, *Opinion,* **349,** 267

The technology of Wednesday's war, *Opinion,* **349,** 91

Iron fertilization strategy. Biogeochemical cycles: Ironing out greenhouse effects, *News and views,* (Keir, R S) **349,** 198

Dynamical limitations on the Antarctic iron fertilization strategy, *Letter to Nature,* (Peng, T-H and Broecker, W S) **349,** 227

Estimates of the effect of Southern Ocean iron fertilization on atmospheric CO_2 concentrations, *Letter to Nature,* (Joos, F, Sarmiento, J L and Siegenthaler, U) **349,** 772

Ocean productivity: Iron determinations, *News and views,* (Lloyd, P) **350,** 19

Iron fertilization. Iron still comes from above, *Scientific correspondence,* (Martin, J H) **353,** 123

Iron, galactic clusters. Iron distribution in the intracluster gas of the Virgo cluster of galaxies, *Letter to Nature,* (Koyama, K, Takano, S and Tawara, Y) **350,** 135

Iron, hydrothermal plumes. *In situ* chemical mapping of dissolved iron and manganese in hydrothermal plumes, *Letter to Nature,* (Coale, K H, Chin, C S, Massoth, G J, Johnson, K S and Baker, E T) **352,** 325

Iron, oceanic. The photolysis of colloidal iron in the oceans, *Letter to Nature,* (Wells, M L, Mayer, L M, Donard, O F X, de Souza Sierra, M M and Ackelson, S G) **353,** 248

Iron, phytoplankton. Low iron requirement for growth in oceanic phytoplankton, *Letter to Nature,* (Sunda, W G, Swift, D G and Huntsman, S A) **351,** 55

Iron, sediments. Distribution of dissolved iron in sediment pore waters at submillimetre resolution, *Letter to Nature,* (Davison, W, Grime, G W, Morgan, J A W and Clarke, K) **352,** 323

Irrigation, South Africa. South African development: Water project dropped, *News,* (Cherry, M) **349,** 731

IRS-1, insulin receptor substrate. Structure of the insulin receptor substrate IRS-1 defines a unique signal transduction protein, *Letter to Nature,* (Sun, X J, Rothenberg, P, Kahn, C R, Backer, J M, Araki, E, Wilden, P A, Cahill, D A, Goldstein, B J and White, M F) **352,** 73

Ischaemia. Molecular neurobiology: NMDA receptors cloned at last, *News and views,* (Mayer, M L) **354,** 16

Island arcs, subduction. Tomographic imaging of subducted lithosphere below northwest Pacific island arcs, *Article,* (van der Hilst, R, Engdahl, R, Spakman, W and Nolet, G) **353,** 37

Island theory. Nature Reserves: Island Theory and Conservation Practice, *book review by* Williamson, M. (Shafer, C L) **352,** 32

Isopods. Equal mating success among male reproductive strategies in a marine isopod, *Letter to Nature,* (Shuster, S M and Wade, M J) **350,** 608

Isotope analysis, sulphur. Use of cosmogenic ^{35}S to determine the rates of removal of atmospheric SO_2, *Letter to Nature,* (Tanaka, N and Turekian, K K) **352,** 226

Isotope fractionation, crystals. Crystals: Surfaces make a difference, *News and views,* (Reeder, R J) **353,** 797

Disequilibrium carbon and oxygen isotope variations in natural calcite, *Letter to Nature,* (Dickson, J A D) **353,** 842

Isotope fractionation, vegetation. Carbon ratios in the Amazon, *Scientific correspondence,* (Bird, M I, Chivas, A R and Fyfe, W S) **354,** 271

Isotope geochemistry. Constraints from noble-gas contents on the origin of carbonado diamonds, *Letter to Nature,* (Ozima, M, Zashu, S, Tomura, K and Matsuhisa, Y) **351,** 472

Dynamic melting of the Iceland plume, *Article,* (Elliott, T R, Hawkesworth, C J and Grönvold, K) **351,** 201

Evidence for extreme mantle fractionation in early Archaean ultramafic rocks from northern Labrador, *Article,* (Collerson, K D, Campbell, L M, Weaver, B L and Palacz, Z A) **349,** 209

Neodymium isotope evidence for ultra-depleted mantle in the early Proterozoic, *Letter to Nature,* (Sivell, W J and McCulloch, M T) **354,** 384

Oceanic magmatism: Iceland melting dynamics, *News and views,* (Ellam, R) **351,** 191

Rapid change in strontium isotopic composition of sea water before the Cretaceous/Tertiary boundary, *Letter to Nature,* (Nelson, B K, MacLeod, G K and Ward, P D) **351,** 644

Israel, immigrant scientists. Israel: Coping with a talent flood, *News,* (Rabinovich, A) **353,** 201

Israel, nuclear weapons. Israel's nuclear weapons in the open, *Opinion,* **351,** 425

Israel, Soviet Jews. Israel: German proposal draws fire, *News,* (Dickman, S) **351,** 261

Italy, astronomy. Neutrino astronomy: Italy looks to next supernova, *News,* (Aldhous, P) **350,** 643

Italy, research funding. Italian research: Three year plan to double science spending, *News,* **349,** 269

Italy, universities. Academic promotion in Italy, *Correspondence,* (Gactani, G F and Ferraris, A M) **353,** 10

Ivory trade. Elephant conservation: African rift in Kyoto, *News,* (Aldhous, P) **354,** 175

Ivory trading: African states invoke origin test to resist ban, *News,* (Cherry, M) **351,** 7

Keeping the ivory trade banned, *Commentary,* (Pagel, M and Mace, R) **351,** 265

Ivory, ban. Asian elephant threatened, *Correspondence,* (Dawson, S and Blackburn, T M) **352,** 274

Japan Prize. Prizes: Japan Prize winners, *News,* (Swinbanks, D) **349,** 272

Japan, astrophysics. Astrophysics: Bigger than 20 Olympic pools, *News,* (Swinbanks, D) **353,** 200

Japan, biotechnology patents. Biotechnology patents: Genentech wins in Japan, *News,* (Swinbanks, D) **354,** 4

Biotechnology patents: Solving a dispute, Japanese style, *News,* (Swinbanks, D) **354,** 4

Japan, biotechnology. Biotechnology: Engineering trouble?, *News,* **349,** 5

Japan, citations. Research rating: Japanese biologists produce 'hot' papers, *News,* (Swinbanks, D) **351,** 597

Japan, computers. Sixth-generation computing: Japan courts US on joint project, *News,* (Swinbanks, D and Pool, R) **351,** 336

Sixth-generation computing: The private sector offers an alternative, *News,* (Swinbanks, D) **351,** 336

Japan, earthquake prediction. Shake-up for earthquake prediction, *Commentary,* (Geller, R J) **352,** 275

Unpredictable earthquakes, *Scientific correspondence,* (Hamada, K) **353,** 611

Unpredictable earthquakes: Reply, *Scientific correspondence,* (Geller, R J) **353,** 612

Japan, earthquake protection. Disaster response: Tokyo gears up for calamity, *News,* (Swinbanks, D) **351,** 260

Japan, earthquakes. Sixty seconds that will change the world: The coming Tokyo earthquake, *book review by* Swinbanks, D. (Hadfield, P) **352,** 205

Japan, economy. Disaster response: Worldwide costs of an earthquake, *News,* (Swinbanks, D) **351,** 260

Japan, electricity. Nuclear energy: An urgent search for power, *News,* (Swinbanks, D) **352,** 181

Japan, environmental technology. Environment: One Westerner gets it RITE in Japan, *News,* (Swinbanks, D) **351,** 5

Japan, European collaboration. Solar-terrestrial physics: Europe woos Japan, *News,* (Aldhous, P and Swinbanks, D) **351,** 177

Japan, foreign scientists. Gaijin scientist, science and technology group, *book review by* Street, A C. (British Chamber of Commerce) **349,** 202

US students not taking the Japanese bait, *News,* (Swinbanks, D) **350,** 4

Japan, genome project. Japan's Human Genome project takes shape, *News,* (Swinbanks, D) **351,** 593

The new automated DNA sequencer, *News,* (Swinbanks, D) **351,** 593

Japan, genome research. DNA research institute to open in Japan, *News,* (Swinbanks, D) **349,** 640

Human genome: Japan's project stalls, *News,* (Swinbanks, D) **349,** 360

Japan, high energy physics. High-energy physics: Japan in retreat from SSC plans?, *News,* (Swinbanks, D) **352,** 177

Japan, high-definition television. Japanese television: HDTV off to slow start, *News,* (Swinbanks, D) **354,** 423

Japan, Human Frontier Program. Human Frontier effort gets promise from NIH, *News,* (Swinbanks, D and Pool, R) **350,** 97

Human Frontier Program: A foray into red tape, *News,* (Swinbanks, D) **350,** 644

Japan, Human Frontier Science Program. A minnow to catch a mackerel?, *News,* (Swinbanks, D) **353,** 685

Japan, Human Frontiers Science Programme. International collaboration: US plans Frontiers support, *News,* (Swinbanks, D) **354,** 424

Japan, industry. Commercial rocket launches: Blurred lines, *News,* (Swinbanks, D) **350,** 450

Japanese industry: Going for 'green technology', *News,* (Swinbanks, D) **350,** 266

Japan, nanotechnology. Japanese government laboratories: Moving to nanotechnology, *News,* (Swinbanks, D) **351,** 90

Nanotechnology: MITI aims at small research, *News,* (Swinbanks, D) **349,** 449

Japan, neuroscience. Japan: Neuroscience leads grants, *News,* (Swinbanks, D) **352,** 366

Japan, nuclear accidents. Japanese nuclear power: Emergency shutdown of oldest reactor, *News,* (Swinbanks, D) **349,** 557

Japan, nuclear physics. Japan: Is a giant linac next?, *News,* (Swinbanks, D) **353,** 200

Japan, nuclear power. Energy policy: Japan promotes nuclear power, *News,* (Swinbanks, D) **353,** 782

Energy policy: The persuasive power of yen, *News,* (Swinbanks, D) **353,** 782

Japanese nuclear power: Emergency shutdown of oldest reactor, *News,* (Swinbanks, D) **349,** 557

Japanese nuclear power: Political fallout anticipated, *News,* (Swinbanks, D) **349,** 644

Japanese nuclear power: PR blunders, *News,* (Swinbanks, D) **349,** 644

Monju fast-breeder reactor completed, *News,* (Swinbanks, D) **352,** 7

Nuclear energy: An urgent search for power, *News,* (Swinbanks, D) **352,** 181

Nuclear power: Opposition melts away, *News*, (Swinbanks, D) **349**, 449
Nuclear power: Japan debates plutonium, *News*, (Swinbanks, D) **352**, 7
Nuclear power: Anatomy of an accident, *News*, (Swinbanks, D) **354**, 259
Japan, oceanographic research. Japan: From a sow's ear . . ., *News*, (Swinbanks, D) **353**, 594
Japan, patent system. Japanese patent system: Fujitsu and TI fight it out, *News*, (Swinbanks, D) **353**, 488
Japan, politics. Japanese politics: New science pressure group, *News*, (Swinbanks, D) **354**, 342
Japan, pollution. Japan: Pollution on the upswing, *News*, (Swinbanks, D) **351**, 5
Japan, research and development. International Competition: MITI moves to open patents, *News*, (Swinbanks, D) **350**, 102
Japan, research funding. Japan: Survey pans university labs, *News*, (Swinbanks, D) **350**, 544
Japanese budget: End of year splurge, *News*, (Swinbanks, D) **349**, 731
Japanese funding: Bureaucracy denies grants, *News*, (Swinbanks, D) **349**, 185
Japanese funding: One tap is closed, but another is opened, *News*, (Swinbanks, D) **349**, 185
Japanese research funding: Cycle of feast or famine, *News*, (Swinbanks, D) **349**, 730
Japan, research institutes. Japanese government laboratories: MITI to shake up institutes, *News*, (Swinbanks, D) **351**, 90
Japan, research policy. Research policy: Japan reaches out, *News*, (Swinbanks, D) **353**, 376
Research policy: But are manufacturers still holding out?, *News*, (Anderson, C) **353**, 376
Japan, research. Japan: Microgravity on tap, *News*, (Swinbanks, D) **352**, 272
Japanese collaboration: Door opens for national labs, *News*, (Swinbanks, D) **351**, 175
Japanese collaboration: National lab researchers dissatisfied, *News*, (Swinbanks, D) **351**, 175
Research funding: Erato announces new research target, *News*, (Swinbanks, D) **352**, 96
Japan, satellite industry. Japanese firms opt out, *News*, (Swinbanks, D) **353**, 373
Japan, satellites. Japanese satellites: Sunlight in orbit, *News*, (Swinbanks, D) **353**, 102
Japanese satellites: New testing centre, *News*, (Swinbanks, D) **353**, 102
Japanese television: New channel is lost in space, *News*, (Swinbanks, D) **350**, 544
Satellites: US pressure pays off, *News*, (Swinbanks, D) **354**, 424
Japan, science budget. Japan's science budget: Huge increase for global environment?, *News*, (Swinbanks, D) **349**, 94
Japanese budget: Money for space science, *News*, (Swinbanks, D) **349**, 271
Japanese science budget: Good news for universities, *News*, (Swinbanks, D) **353**, 102
Japan, science cities. Japanese research cities: Glaxo and TI open in Tsukuba, *News*, (Swinbanks, D) **353**, 491
Science cities: From parkland to science park, *News*, (Swinbanks, D) **349**, 640
Japan, science. Japanese science agency targets space, genome, *News*, (Swinbanks, D) **353**, 3
US makes plea for Japanese SSC help, *News*, (Swinbanks, D) **353**, 685
Japan, space institute. Solar astronomy: Japanese set to X-ray Sun, *News*, (Swinbanks, D) **352**, 96
Japan, space programme. Commercial rocket launches: Japan chases space market, *News*, (Swinbanks, D) **350**, 450
Commercial rocket launches: Blurred lines, *News*, (Swinbanks, D) **350**, 450
Japanese space agencies: Bridging an old rivalry, *News*, (Swinbanks, D) **352**, 181
Japanese space programme: First the moon, now Mars, *News*, (Swinbanks, D) **353**, 8
Japan, space research. Flare path, *Correspondence*, (Culhane, J L and Cruise, A M) **353**, 204
Japanese budget: Money for space science, *News*, (Swinbanks, D) **349**, 271
Space research: The cost of ambition, *News*, **349**, 8
Japan, Superconducting Super Collider. Super Collider collision ahead, *News*, **349**, 6
Japan, superconductivity research. Superconductivity: Lessons from Japan, *News*, (Swinbanks, D) **353**, 594
Japan, technology. International Competition: MITI moves to open patents, *News*, (Swinbanks, D) **350**, 102
Japanese industry: Going for 'green technology', *News*, (Swinbanks, D) **350**, 266
Japan, tectonics. Deep structure of the northeastern Japan arc and its relationship to seismic and volcanic activity, *Article*, (Hasegawa, A, Zhao, D, Hori, S, Yamamoto, A and Horiuchi, S) **352**, 683
Japan, telecommunications. Japanese television: New channel is lost in space, *News*, (Swinbanks, D) **350**, 544
Telecommunications: HDTV satellite is up, *News*, (Swinbanks, D) **353**, 8
Japan, typhoons. Disaster response: Tokyo gears up for calamity, *News*, (Swinbanks, D) **351**, 260
Japan, universities. Another leap forward in Japan, *Opinion*, **353**, 371
Japan's graduate university matures, *News and views*, (Maddox, J) **353**, 113
Japan: Survey pans university labs, *News*, (Swinbanks, D) **350**, 544
Japanese collaboration: Door opens for national labs, *News*, (Swinbanks, D) **351**, 175
Japanese universities: A $500-million renovation, *News*, (Swinbanks, D) **353**, 292
Japan, volcanic eruptions. Japan: Eruptions no secret, *News*, (Anderson, C) **351**, 511
Japan: Volcano prediction problems, *News*, (Swinbanks, D) **351**, 511
Unzen volcano: Anatomy of an eruption, *News and views*, (Ida, Y) **352**, 571
Japan, volcanoes. Earth sciences: Scientists watching Japanese volcano, *News*, (Swinbanks, D) **351**, 432
In the volcano's shadow, *Commentary*, (Shimozuru, D) **353**, 295
Japan: Help from an unusual source, *News*, (Swinbanks, D) **353**, 202
Under the volcano, *Scientific correspondence*, (Fiske, R S) **353**, 307
Under the volcano, *Scientific correspondence*, (Peterson, D W) **353**, 307
Under the volcano: Reply, *Scientific correspondence*, (Swinbanks, D) **353**, 307
Japan, weapons sale. Weapons trade: Japan embarrassed by weapons sale to Iran, *News*, (Swinbanks, D) **352**, 96
Japan, X-ray satellite. Solar astronomy: Japanese set to X-ray Sun, *News*, (Swinbanks, D) **352**, 96
Japan-UK collaboration. UK-Japan collaboration: Cold fusion leaves a legacy, *News*, (Swinbanks, D) **354**, 98
Japan-US collaboration. International collaboration: At odds over big science, *News*, (Swinbanks, D) **352**, 272
International collaboration: US plans Frontiers support, *News*, (Swinbanks, D) **354**, 424
International collaboration: SSC appeal gets cold shoulder, *News*, (Swinbanks, D) **354**, 424
Poor rich Japan, *Opinion*, **354**, 420
Java, zoology. Zoological researches in Java, and the neighbouring islands, *book review by* Diamond, J., **353**, 27
Jenner, Edward. Edward Jenner 1749-1823, *book review by* Porter, R. (Fisher, R B) **352**, 203
Jet-lag. Circadian rhythms: Resetting the human clock, *News and views*, (Winfree, A T) **350**, 18
Jets, astrophysical. Large-scale superluminal motion in the quasar 3C273, *Letter to Nature*, (Davis, R J, Unwin, S C and Muxlow, T W B) **354**, 374
Jets, galactic. High-resolution optical observations compared to radio structure of the jet in M87, *Letter to Nature*, (Stiavelli, M, Møller, P and Zeilinger, W W) **354**, 132
Job appointments. How to get on, *Correspondence*, (Stuart, A E) **349**, 97
Job performance. Personality put to the test, *Correspondence*, (Jackson, D N and Rothstein, M) **352**, 100
Joint European Submicron Silicon Initiative. JESSI: Losing the 'R' from R&D, *News*, (Aldhous, P) **354**, 257
Joint European Taurus. Burning tritium, *Opinion*, **354**, 94
Fusion: First use of tritium, *News*, (Pease, R) **354**, 95
Journals, electronic. Trials by wire, *News*, (Anderson, C) **353**, 293
Juan de Fuca ridge. Evidence for volcanic eruption on the southern Juan de Fuca ridge between 1981 and 1987, *Letter to Nature*, (Chadwick, W W, Embley, R W and Fox, C G) **350**, 416
Jun protein. Oncogenic and transcriptional cooperation with Ha-Ras requires phosphorylation of c-Jun on serines 63 and 73, *Letter to Nature*, (Smeal, T, Binetruy, B, Mercola, D A, Birrer, M and Karin, M) **354**, 494
Jupiter, atmosphere. Planetary atmospheres: Jupiter's stratosphere mapped, *News and views*, (Gierasch, P J) **351**, 103
The quasiquadrennial oscillation of Jupiter's equatorial stratosphere, *Letter to Nature*, (Leovy, C B, Friedson, A J and Orton, G S) **354**, 380
Jupiter, aurorae. Images of aurorae on Jupiter from H_3^+ emission at 4 μm, *Letter to Nature*, (Kim, S J, Drossart, P, Caldwell, J, Maillard, J-P, Herbst, T and Shure, M) **353**, 536
Imaging Jupiter's aurorae from H_3^+ emissions in the 3-4 μm band, *Letter to Nature*, (Baron, R, Joseph, R D, Owen, T, Tennyson, J, Miller, S and Ballester, G E) **353**, 539
Jupiter, lightning. Spatial distribution of visible lightning on Jupiter, *Letter to Nature*, (Magalhaes, J A and Borucki, W J) **349**, 311
Jupiter, relativistic effects. Small change, *News and views*, **354**, 191
Jupiter. Erratum: The extended sodium nebula of Jupiter, *Letter to Nature*, (Mendillo, M, Baumgardner, J, Flynn, B and Hughes, W J) **349**, 811
Kallman's syndrome. Let them eat soap, *Scientific correspondence*, (Cowart, B J) **354**, 114
Kallmann's syndrome. A gene deleted in Kallmann's syndrome shares homology with neural cell adhesion and axonal path-finding molecules, *Article*, (Franco, B, Guioli, S, Pragliola, A, Incerti, B, Bardoni, B, Tonlorenzi, R, Cartozzo, R, Maestrini, E, Pieretti, M, Taillon-Miller, P, Brown, C J, Willard, H F, Lawrence, C, Persico, M G, Camerino, G and Ballabio, A) **353**, 529
Kapitza, P. Kapitza in Cambridge and Moscow, *book review by* Mott, N. (Boag, J W, Rabinin, P E and Schoenberg, D) **350**, 31
Kartagener's syndrome. Reproductive biology: A clue to Kartagener's, *News and views*, (Aitken, J) **353**, 306
Kennedy's disease. Androgen receptor gene mutations in X-linked spinal and bulbar muscular atrophy, *Letter to Nature*, (La Spada, A R, Wilson, E M, Lubahn, D B, Harding, A E and Fischbeck, K H) **352**, 77
Kenya rift. A three-dimensional seismic image of the crust and upper mantle beneath the Kenya rift, *Article*, (Green, W V, Achauer, U and Meyer, R P) **354**, 199
Large-scale variation in lithospheric structure along and across the Kenya rift, *Letter to Nature*, (KRISP Working Party) **354**, 223
Plate tectonics: A deep look at African rifting, *News and views*, (Morgan, P) **354**, 188
Keratins. Intermediate filaments: Getting under the skin, *News and views*, (Klymkowsky, M W) **354**, 264
Keratocytes. Actin tracks, *Scientific correspondence*, (Kucik, D F and Elson, E L) **354**, 362
Cell locomotion: Actin alone in lamellipodia, *News and views*, (Heath, J and Holifield, B) **352**, 107
Kidney disease. Reverse polarity, *News and views*, **352**, 18
Kin selection. The biology of the naked mole rat, (Sherman, P W, Jarvis, J and Alexander, A *editors*) *book review by* Bertram, B. **354**, 29
Kinesin. Coalignment of vimentin intermediate filaments with microtubules depends on kinesin, *Letter to Nature*, (Gyoeva, F K and Gelfand, V I) **353**, 445
Kinetics, crystallization. Solubility and reaction kinetics of solution-solid reactions determined by *in situ* observations, *Letter to Nature*, (Ohmoto, H, Hayashi, K, Onuma, K, Tsukamoto, K, Kitakaze, A, Nakano, Y and Yamamoto, Y) **351**, 634
Kinetochores. Two different microtubule-based motor activities with opposite polarities in kinetochores, *Article*, (Hyman, A A and Mitchison, T J) **351**, 206
Knots. Fluid dynamics: Forging the missing link, *News and views*, (Jones, J D S) **354**, 21
Knotted DNA. Get knotted, *News and views*, **353**, 303
Kolmogorov entropy. Calculating the rate of loss of information from chaotic time series by forecasting, *Letter to Nature*, (Wales, D J) **350**, 485
Krill, abundance of. Krill abundance, *Scientific correspondence*, (Hewitt, R P and Demer, D A) **353**, 310
Kuwait, Gulf war. Kuwait after the invasion, *Correspondence*, (Burns, G) **349**, 450
Kuwait, oil fields. Kuwait: Oil fields under control, *News*, (Aldhous, P) **354**, 5
Kuwait, oil fires. Airborne observations of the physical and chemical characteristics of the Kuwait oil smoke plume, *Article*, (Johnson, D W, Kilsby, C G, McKenna, D S, Saunders, R W, Jenkins, G J, Smith, F B and Foot, J S) **353**, 617
Black skies or pale fire?, *Correspondence*, (Seitz, R) **350**, 183
Climate response to smoke from the burning oil wells in Kuwait, *Article*, (Bakan, S, Chlond, A, Cubasch, U, Feichter, J, Graf, H, Grassl, H, Hasselmann, K, Kirchner, I, Latif, M, Roekner, E, Sausen, R, Schlese, U, Schriever, D, Schult, I, Schumann, U, Sielmann, F and Welke, W) **351**, 367
Environmental effects from burning oil wells in Kuwait, *Article*, (Browning, K A, Allam, R J, Ballard, S P, Barnes, R T H, Bennetts, D A, Maryon, R H, Mason, P J, McKenna, D, Mitchell, J F B, Senior, C A, Slingo, A and Smith, F B) **351**, 363
Environmental impact of fires in Kuwait, *Commentary*, (Small, R D) **350**, 11
Hell in a small place, *Opinion*, **350**, 448
Oil-well fires: Smog alert in Kuwait City, *News*, (Aldhous, P) **350**, 98
Quenching the wild wells of Kuwait, *Commentary*, (Garwin, R L and Kendall, H W) **354**, 11
Kuwait, oil wells. Gulf war: Oil-well climate catastrophe?, *News*, (Aldhous, P) **349**, 96
Kuwait, science. Gulf war and sanctions, *Correspondence*, (Elkhawad, A O) **351**, 9
Kuwaiti science: Starting again from scratch, *News*, (Aldhous, P) **350**, 369
Kuwait, universities. Kuwait after the invasion, *Correspondence*, (Burns, G) **349**, 450
Kuwait: Palestinians may be barred from courses, *News*, (Aldhous, P) **350**, 369
Kuwait, war reparations. War reparations, *Correspondence*, (Issar, A S and Adar, E) **352**, 10
Kuwait, war. Gulf conflagration: Predicting climate problems, *News*, (Aldhous, P) **349**, 270
The technology of Wednesday's war, *Opinion*, **349**, 91
When will the Gulf War be over?, *Opinion*, **350**, 363
L-tryptophan. Biotechnology: Engineering trouble?, *News*, **349**, 5
Biotechnology: Yellow light on L-tryptophan, *News*, (Aldhous, P) **353**, 490
Labelling, cell membrane. Radioactive cell membrane labelling, *Product Review*, (Siezak, S E and Muirhead, K A) **352**, 261
Laboratory animals. Silver Spring monkeys, *Correspondence*, (Newkirk, I E) **351**, 93
Laboratory reagents. The parasites, *Correspondence*, (Anderson, L C) **351**, 93
Laboratory vibrations. Controlling laboratory vibrations, *Product Review*, (Wong, P) **351**, 168
Labour party, science policy. UK science policy: Labour plans science revamp, *News*, (Gee, H) **351**, 512

UK science policy: Tories respond to Labour plan, *News*, (Gee, H) **351,** 596

Lack, David. Lack's solution?, *Scientific correspondence*, (Magrath, R D) **353,** 611

Lactalbumin, molten globule conformation. The molten globule protein conformation probed by disulphide bonds, *Letter to Nature*, (Ewbank, J J and Creighton, T E) **350,** 518

Lake Baikal. Deep-water renewal and biological production in Lake Baikal, *Article*, (Weiss, R F, Carmack, E C and Koropalov, V M) **349,** 665

Hydrothermal vents in Lake Baikal, *Scientific correspondence*, (Crane, K, Hecker, B and Golubev, V) **350,** 281

Lake Baikal: Slow renewal of deep waters, *News and views*, (Grachev, M) **349,** 654

Sedimentation rates, residence times and radionuclide inventories in Lake Baikal from ^{137}Cs and ^{210}Pb in sediment cores, *Letter to Nature*, (Edgington, D N, Klump, J V, Robbins, J A, Kusner, Y S, Pampura, V D and Sandimirov, I V) **350,** 601

Lake Nyos. Lake Nyos dam threat, *Scientific correspondence*, (Lockwood, J P and Schuster, R L) **351,** 195

Lake Victoria. African fishes, *Scientific correspondence*, (de Caprona, M-D C and Fritzsch, B) **350,** 467

African fishes: Reply, *Scientific correspondence*, (Meyer, A, Kocher, T D and Wilson, A C) **350,** 467

Lamellipodia. Cell locomotion: Actin alone in lamellipodia, *News and views*, (Heath, J and Holifield, B) **352,** 107

Laminin. Cell-surface regulation of β$_1$-integrin activity on developing retinal neurons, *Letter to Nature*, (Neugebauer, K M and Reichardt, L F) **350,** 68

Land degradation. Land degradation and rehabilitation, *Journal review by* Berrow, M L, (Barrow, C J *editor*) **353,** 481

Land, Edwin Herbert. Obituary: Edwin Herbert Land (1909-1991), *News and views*, (Mollon, J D) **350,** 379

Landsat. NOAA: Weather satellite woes, *News*, (Aldhous, P) **352,** 97

Langmuir-Blodgett films. An introduction to ultrathin organic films: From Langmuir-Blodgett to self-assembly, (Ulman, A) *book review by* Tredgold, R H. **354,** 120

Generation of Maxwell displacement current across an azobenzene monolayer by photoisomerization, *Letter to Nature*, (Iwamoto, M, Majima, Y, Narrose, H, Noguchi, T and Fuwa, H) **353,** 645

Molecular-resolution images of Langmuir-Blodgett films using atomic force microscopy, *Letter to Nature*, (Meyer, E, Howald, L, Overney, R M, Heinzelmann, H, Frommer, J, Günitherodt, H J, Wagner, T, Schier, H and Roth, S) **349,** 398

The right way, *Scientific correspondence*, (Liu, Z F, Hashimoto, K and Fujishima, A) **351,** 193

Language, France. La langue: French leave the circumflex unscathed, *News*, (Wenz, C) **349,** 553

Language, origins of. Language origins: The silence of the past, *News and views*, (Foley, R A) **353,** 114

Languages, Chinese. Oriental cons, *News and views*, **350,** 273

Languages, Indo-European. Genetic evidence for the spread of agriculture in Europe by demic diffusion, *Letter to Nature*, (Sokal, R R, Oden, N L and Wilson, C) **351,** 143

Large Hadron Collider. Particle physics: Does Europe need the LHC?, *News*, (Aldhous, P) **350,** 98

Large Magellanic Cloud. X-ray survey of the Large Magellanic Cloud by ROSAT, *Article*, (Trümper, J, Hasinger, G, Aschenbach, B, Bräuninger, H, Briel, U G, Burkert, W, Fink, H, Pfeffermann, E, Pietsch, W, Predehl, P, Schmitt, J H M M, Voges, W, Zimmermann, U and Beuermann, K) **349,** 579

Laser ablation. New cuprate superconductors, *Scientific correspondence*, (Kawai, T, Egami, Y, Tabata, H and Kawai, S) **349,** 200

Laser cooling. Atomic physics: Unnatural selection, *News and views*, (Foot, C and Steane, A) **351,** 521

Making atoms march in step, *News and views*, (Maddox, J) **351,** 601

Laser interferometry. Gravitational waves: Recycling for a cleaner signal, *News and views*, (Raab, F J) **351,** 98

Laser molecular-beam epitaxy. New cuprate superconductors, *Scientific correspondence*, (Kawai, T, Egami, Y, Tabata, H and Kawai, S) **349,** 200

Laser research. International collaboration: Euro-laser plans on ice, *News*, (Aldhous, P) **350,** 102

Lasers, guide stars. Astronomy: Laser beams untwinkle stars, *News and views*, (Merkle, F) **353,** 115

Compensation of atmospheric optical distortion using a synthetic beacon, *Letter to Nature*, (Primmerman, C A, Murphy, D V, Page, D A, Zollars, B G and Barclay, H T) **353,** 141

Measurement of atmospheric wavefront distortion using scattered light from a laser guide-star, *Letter to Nature*, (Fugate, R Q, Fried, D L, Ameer, G A, Boeke, B R, Browne, S L, Roberts, P H, Ruane, R E, Tyler, G A and Wopat, L M) **353,** 144

Lasers, history of. The laser in America 1950-1970, *book review by* Heavens, O S, (Bromberg, J L) **352,** 767

Lasers. Cool radiators, *News and views*, **352,** 760

Lattices. Fashioning wet-look latex, *News and views*, (Ball, P) **350,** 112

Latex elastomer with a permanently hydrophilic surface, *Letter to Nature*, (Noda, I) **350,** 143

Laurentia, evolution of. Plate tectonics: About turn for supercontinents, *News and views*, (Hartnady, C J H) **352,** 476

Lava flows, Hawaii. Snap, crackle and pop, *News and views*, **352,** 666

Lava flows. Volcano warning needed, *Scientific correspondence*, (Fink, J) **351,** 611

Law, US. Scientific misconduct: Precedent set as NIH loses court battle, *News*, (Anderson, C) **349,** 95

Law. Galileo's revenge: Junk science in the courtroom, (Huber, P W) *book review by* Randi, J. **354,** 330

LD50 test. Animal testing: Tide turns against LD50, *News*, (Aldhous, P) **353,** 489

Lead, atmospheric. Decrease in anthropogenic lead, cadmium and zinc in Greenland snows since the late 1960s, *Letter to Nature*, (Boutron, C F, Görlach, U, Candelone, J-P, Bolshov, M A and Delmas, R J) **353,** 153

Lead, exposure to. Lead correction, *Scientific correspondence*, (Bellinger, D) **354,** 26

Lead, health hazards. Lead risks, *Scientific correspondence*, (Weiner, S L and Goodman, G) **352,** 385

Leaf development. The developmental gene *Knotted-1* is a member of a maize homeobox gene family, *Letter to Nature*, (Vollbrecht, E, Veit, B, Sinha, N and Hake, S) **350,** 241

Learning. Molecular neurobiology: NMDA receptors cloned at last, *News and views*, (Mayer, M L) **354,** 16

Legislation, drugs. Research ethics: Zagury challenges NIH report, *News*, (Aldhous, P) **352,** 180

Legislation, US. Fetal tissue research, *News*, (Aldhous, P) **352,** 362

Legislation, zoos. EC targets zoos for crackdowns, *News*, (Anderson, C) **352,** 180

Legislation. Environment: EC putting bite in its green bark, *News*, (Anderson, C) **352,** 182

Leguminous plants. A novel highly unsaturated fatty acid moiety of lipo-oligosaccharide signals determines host specificity of *Rhizobium* (Spaink, H P, Sheeley, D M, van Brussel, A A N, Glushka, J, York, W S, Tak, T, Geiger, O, Kennedy, E P, Reinhold, V N and Lugtenberg, B J J) **354,** 125

Leks, grouse. Lekking in the black grouse - a test of male viability, *Letter to Nature*, (Alatalo, R V, Höglund, J and Lundberg, A) **352,** 155

Leks. The evolution of mating preferences and the paradox of the lek, *Review article*, (Kirkpatrick, M and Ryan, M J) **350,** 33

Lenses, gas. A gas-lens telescope, *Letter to Nature*, (Michaelis, M M, Dempers, C A, Kosch, M, Prause, A, Notcutt, M, Cunningham, P F and Waltham, J A) **353,** 547

LEP. Particle physics after a year of LEP, *Review article*, (Miller, D J) **349,** 379

Leucine zippers. Coronavirus motif, *Scientific correspondence*, (Britton, P) **353,** 394

Leukaemia inhibitory factor. Effect of *Steel* factor and leukaemia inhibitory factor on murine primordial germ cells in culture, *Letter to Nature*, (Matsui, Y, Toksoz, D, Nishikawa, S, Nishikawa, S-I, Williams, D, Zsebo, K and Hogan, B L M) **353,** 750

Leukaemia, epidemiology. Leukaemia favours rich, *News*, (Aldhous, P) **353,** 373

Leukaemia, radon exposure. Leukaemia risks and radon, *Scientific correspondence*, (Wolff, S P) **352,** 288

Radon activity, *News and views*, **351,** 270

Leukaemia. *Bcr* encodes a GTPase-activating protein for p21^{rac}, *Letter to Nature*, (Diekmann, D, Brill, S, Garrett, M D, Totty, N, Hsuan, J, Monfries, C, Hall, C, Lim, L and Hall, A) **351,** 400

Leukaemia and unemployment, *Correspondence*, (Solff, S P) **350,** 268

Leukaemia epidemiology: Confusion surrounds the 'Gardner effect', *News*, (Aldhous, P) **350,** 264

Leukaemic cells, apoptosis. Wild-type p53 induces apoptosis of myeloid leukaemic cells that is inhibited by interleukin-6, *Letter to Nature*, (Yonish-Rouach, E, Resnitzky, D, Lotem, J, Sachs, L, Kimchi, A and Oren, M) **352,** 345

Leukocyte common antigen, CD45. Confusion over CD45 isoform, *Scientific correspondence*, (Merkenschlager, M) **352,** 28

Leukocyte migration. Regulation of leukocyte migration by activation of the leukocyte adhesion molecule-1 (LAM-1) selectin, *Letter to Nature*, (Spertini, O, Kansas, G S, Munro, J M, Griffin, J D and Tedder, T F) **349,** 691

Leukocytes. The next cluster of differentiation (CD) workshop, *Product Review*, (Springer, T A) **354,** 415

Levitation, magnetic. Levitation of organic materials, *Scientific correspondence*, (Beaugnon, E and Tournier, R) **349,** 470

Levitation, superconductivity. High-temperature superconductors: Raised to a higher plane, *News and views*, (Moon, F C) **350,** 270

Lexical processing. Lexical organization of nouns and verbs in the brain, *Letter to Nature*, (Caramazza, A and Hillis, A E) **349,** 788

Lexicography. The Science of Words, *book review by* Fletcher, P. (Miller, G) **352,** 30

Liberal Democrats, UK. Third party assurance?, *Opinion*, **352,** 360

Lice. Lice and easy, *Correspondence*, (Playford, M and Kamiya, M) **354,** 9

Life expectancy. Energy costs of a long life, *Correspondence*, (Schidlowski, M) **353,** 294

Health: Can lefties study be right?, *News*, (Pool, R) **350,** 545

Life sciences, Japan. A minnow to catch a mackerel?, *News*, (Swinbanks, D) **353,** 685

Life sciences, writings in. From Gaia to selfish genes: Selected writings in the life sciences, *book review by* Ridley, M. (Barlow, C) **351,** 449

Life, origin of. Blueprint for a cell: The nature and origin of life, *book review by* Cavalier-Smith, T. (de Duve, C) **351,** 110

Evolution: Hypercycles spring to life, *News and views*, (May, R M) **353,** 607

Life-cycle evolution. Evolution: When to be diploid, *News and views*, (Charlesworth, B) **351,** 273

Haploidy or diploidy: which is better?, *Letter to Nature*, (Kondrashov, A S and Crow, J F) **351,** 314

Transition from haploidy to diploidy, *Letter to Nature*, (Perrot, V, Richerd, S and Valéro, M) **351,** 315

Life-history evolution. Evolutionary and developmental biology: More fecund but not so fit, *News and views*, (Godfray, H C J and Harvey, P H) **354,** 190

Evolutionary ecology: How to live like a mammal, *News and views*, (Harvey, P H and Nee, S) **350,** 23

Ligand-binding activity, identification of. A new type of synthetic peptide library for identifying ligand-binding activity, *Letter to Nature*, (Lam, K S, Salmon, S E, Hersh, E M, Hruby, V J, Kazmierski, W M and Knapp, R J) **354,** 82

Generation and use of synthetic peptide combinatorial libraries for basic research and drug discovery, *Letter to Nature*, (Houghton, R A, Pinilla, C, Blondelle, S E, Appel, J R, Dooley, C T and Cuervo, J H) **354,** 84

Light, polarization of. Double cones as a basis for a new type of polarization vision in vertebrates, *Letter to Nature*, (Cameron, D A and Pugh Jr, E N) **353,** 161

Vision: Polarizing the world of fish, *News and views*, (Land, M F) **353,** 118

Light-emitting diodes. Molecular electronics: Totally organic transistors, *News and views*, (Bloor, D) **349,** 738

Light-pulse imaging. New image, *Scientific correspondence*, (Chance, B and Leigh, J S) **349,** 660

Lightning, Jupiter. Spatial distribution of visible lightning on Jupiter, *Letter to Nature*, (Magalhaes, J A and Borucki, W J) **349,** 311

Lightning. Flash and burn, *News and views*, **353,** 601

Orange sky . . ., *Correspondence*, (McNaught, R H) **352,** 368

Lilienthal, Otto. Otto Lilienthal: Early flight pioneer commemorated, *News*, (Dickman, S) **351,** 177

Limb cartilage development. Homeobox gene expression correlated with the bifurcation process of limb cartilage development, *Letter to Nature*, (Yokouchi, Y, Sasaki, H and Kuroiwa, A) **353,** 443

Limb development. Out on a limb, *Scientific correspondence*, (Newman, S A) **354,** 26

Out on a limb: Reply, *Scientific correspondence*, (Slack, J M W) **354,** 26

Limnology. Deep-water renewal and biological production in Lake Baikal, *Article*, (Weiss, R F, Carmack, E C and Koropalov, V M) **349,** 665

Distribution of dissolved iron in sediment pore waters at submillimetre resolution, *Letter to Nature*, (Davison, W, Grime, G W, Morgan, J A W and Clarke, K) **352,** 323

Hydrothermal vents in Lake Baikal, *Scientific correspondence*, (Crane, K, Hecker, B and Golubev, V) **350,** 281

Lake Baikal: Slow renewal of deep waters, *News and views*, (Grachev, M) **349,** 654

Reconstruction of past changes in salinity and climate using a diatom-based transfer function, *Letter to Nature*, (Fritz, S C, Juggins, S, Battarbee, R W and Engstrom, D R) **352,** 706

Sedimentation rates, residence times and radionuclide inventories in Lake Baikal from ^{137}Cs and ^{210}Pb in sediment cores, *Letter to Nature*, (Edgington, D N, Klump, J V, Robbins, J A, Kusner, Y S, Pampura, V D and Sandimirov, I V) **350,** 601

Sources of sedimentary lipids deduced from stable carbon-isotope analyses of individual compounds, *Letter to Nature*, (Rieley, G, Collier, R J, Jones, D M, Eglinton, G, Eakin, P A and Fallick, A E) **352,** 425

Lincoln, Abraham. Medical genetics: Abraham Lincoln and Marfan syndrome, *News and views*, (McKusick, V A) **352,** 280

Lindow man. Archaeology: Ancient Britons in blue, *News and views*, (Bahn, P G) **350,** 382

Linguistics. The Science of Words, *book review by* Fletcher, P. (Miller, G) **352,** 30

LINK programme, UK. Collaboration: Call for LINK reform, *News*, (Aldhous, P) **351,** 431

Lipases. A model for interfacial activation in lipases from the structure of a fungal lipase-inhibitor complex, *Letter to Nature*, (Brzozowski, A M, Derewenda, U, Derewenda, Z S, Dodson, G G, Lawson, D M, Turkenburg, J P, Bjorkling, F, Huge-Jensen, B, Patkar, S A and Thim, L) **351,** 491

Enzymology: Lipases reach the surface, *News and views*, (Blow, D) **351,** 444

Lipid bilayers. Model membranes: Playing a molecular accordion, *News and views*, (Cates, M) **351,** 102

Self-assembling phospholipid filaments, *Letter to Nature*, (Rudolph, A S, Ratna, B R and Kahn, B) **352,** 52

Lipo-oligosaccharides. A novel highly unsaturated fatty acid moiety of lipo-oligosaccharide signals determines host specificity of *Rhizobium* (Spaink, H P, Sheeley, D M, van Brussel, A A N, Glushka, J, York, W S, Tak, T, Geiger, O, Kennedy, E P, Reinhold, V N and Lugtenberg, B J J) **354,** 125

Lipopolysaccharides. Recognition and plasma clearance of endotoxin by scavenger receptors, *Letter to Nature*, (Hamp-

ton, R Y, Golenbock, D T, Penman, M, Krieger, M and Raetz, C R H) **352,** 342

Liposomes. Formation of membranes, *Scientific correspondence,* (Lasic, D D) **351,** 613

Model membranes: Playing a molecular accordion, *News and views,* (Cates, M) **351,** 102

Lipoxygenase. A primary determinant for lipoxygenase positional specificity, *Letter to Nature,* (Sloane, D L, Leung, R, Craik, C S and Sigal, E) **354,** 149

Liquid crystals. Charge migration in supramolecular stacks of peripherally substituted porphyrins, *Letter to Nature,* (Schouten, P G, Warman, J M, de Haas, M P, Fox, M A and Pan, H-L) **353,** 736

Liquid crystallinity of natural silk secretions, *Letter to Nature,* (Kerkam, K, Viney, C, Kaplan, D and Lombardi, S) **349,** 596

Liquid crystals: Shedding light on alignment, *News and views,* (Jones, C and Day, S) **351,** 15

Nobel Prize: Physics: A gift for unravelling complexity, *News,* (Ball, P) **353,** 689

Surface-mediated alignment of nematic liquid crystals with polarized laser light, *Letter to Nature,* (Gibbons, W M, Shannon, P J, Sun, S-T and Swetlin, B J) **351,** 49

Liquid films, wetting. Relaxation modes of the contact line of a liquid spreading on a surface, *Letter to Nature,* (Ondarçuhu, T and Veyssié, M) **352,** 418

Liquid-state physics. Classical liquid in a box, *News and views,* (Maddox, J) **350,** 105

Effect of defects on molecular mobility in liquid water, *Letter to Nature,* (Sciortino, F, Geiger, A and Stanley, H E) **354,** 218

No capillary rise, *Scientific correspondence,* (Graham, G M) **350,** 198

Water goes with the flow, *News and views,* (Ball, P) **354,** 188

Listeria monocytogenes. Precise prediction of a dominant class I MHC-restricted epitope of *Listeria monocytogenes, Letter to Nature,* (Paner, E G, Harty, J T and Bevan, M J) **353,** 852

Lithography, diamond films. Activated CS170T and diamond, *Scientific correspondence,* (Meilunas, R, Chang, R P H, Liu, S and Kappes, M M) **354,** 271

Lithography. Biopolymers: Light on molecular recognition, *News and views,* (Kaiser, R, Hunkapiller, T and Hood, L) **350,** 656

Lithosphere, extension. Extensional magmatism: The rift narrows, *News and views,* (Ellam, R) **351,** 525

Lithosphere, growth. Complementary Ti and Zr anomalies in orthopyroxine and clinopyroxine from mantle periodotites, *Letter to Nature,* (Rampone, E, Bottazzi, P and Ottolini, L) **354,** 518

Lithosphere, oceanic. Geochemical evidence for formation of the Bay of Islands ophiolite above a subduction zone. *Letter to Nature,* (Elthon, D) **354,** 140

Inverse square-root dependence of mid-ocean-ridge flank roughness on spreading rate, *Letter to Nature,* (Malinverno, A) **352,** 58

Ophiolites: Ocean floor comes ashore, *News and views,* (Pearce, J) **354,** 110

Lithosphere, rifting. A three-dimensional seismic image of the crust and upper mantle beneath the Kenya rift, *Article,* (Green, W V, Achauer, U and Meyer, R P) **354,** 199

Large-scale variation in lithospheric structure along and across the Kenya rift, *Letter to Nature,* (KRISP Working Party) **354,** 223

Plate tectonics: A deep look at African rifting, *News and views,* (Morgan, P) **354,** 188

Lithosphere, stress. Lower-mantle viscosity constrained by seismicity around deglaciated regions, *Letter to Nature,* (Spada, G, Yuen, D A, Sabadini, R and Boschi, E) **351,** 53

Lithosphere, subduction. Isotope evidence for the involvement of recycled sediments in diamond formation, *Letter to Nature,* (Eldridge, C S, Compston, W, Williams, I S, Harris, J W and Bristow, J W) **353,** 649

Mantle geochemistry: Diamonds deliver the dirt, *News and views,* (Gurney, J J) **353,** 601

Lithuania, independence. Open letter: A message from Vilnius, *News,* **349,** 186

What now for the Soviet Union?, *Opinion,* **349,** 181

Liver cancer. *HBx* gene of hepatitis B virus induces liver cancer in transgenic mice, *Letter to Nature,* (Kim, C-M, Koike, K, Saito, I, Miyamura, T and Jay, G) **351,** 317

Living fossils. Living fossil: The story of the coelacanth, *book review by* Taylor, M A., (Thomson, K S) **353,** 29

Lizards, evolution. Parallel within-island microevolution of lizards on neighbouring islands, *Letter to Nature,* (Brown, R P, Thorpe, R S and Báez, M) **352,** 60

Lizards. Experimental detection of rapid evolutionary response in natural lizard populations, *Letter to Nature,* (Malhotra, A and Thorpe, R S) **353,** 347

Localization, microwaves. Microwave localization by two-dimensional random scattering, *Letter to Nature,* (Dalichaouch, R, Armstrong, J P, Schultz, S, Platzman, P M and McCall, S L) **354,** 53

Localization. Disordered systems: Catching moonbeams, *News and views,* (Pendry, J B) **351,** 438

Loch Ness, monster. In-depth probe, *News,* (Anderson, C) **352,** 271

Locomotion, cell. Actin microfilament dynamics in locomoting cells, *Article,* (Theriot, J A and Mitchison, T J) **352,** 126

Loma Prieta Earthquake. Californian quake, *News,* (Aldhous, P) **352,** 8

Loma Prieta earthquake: Putting the pieces together, *News and views,* (Ellsworth, W L) **349,** 371

London Zoo. London Zoo: Attemps to avoid closure, *News,* (Gee, H) **350,** 453

London Zoo: Management under fire, *News,* (Aldhous, P) **353,** 374

Sad tale of an endangered zoo, *News and views,* (Maddox, J) **350,** 457

Zoological gardens: London's ark runs aground, *News,* (Gee, H) **350,** 546

London, summit. Summit gets something done, *Opinion,* **352,** 265

London. Straight-line city, *Opinion,* **353,** 286

Long Duration Exposure Facility. Come in LDEF, your time is up, *News and views,* **349,** 656

Observation of ^{7}Be on the surface of the LDEF spacecraft, *Letter to Nature,* (Fishman, G J, Harmon, B A, Gregory, J C, Parnell, T A, Peters, P, Phillips, G W, King, S E, August, R A, Ritter, J C, Cutchin, J H, Haskins, P S, McKisson, J E, Ely, D W, Weisenberger, A G, Piercey, R B and Dybl) **349,** 678

Too exposed? Reply, *Scientific correspondence,* (Felbeck, D K) **352,** 289

Too exposed?, *Scientific correspondence,* (Redd, C and Zolensky, M) **352,** 289

Long-term memory. Neural organization for the long-term memory of paired associates, *Letter to Nature,* (Sakai, K and Miyashita, Y) **354,** 152

Long-term potentiation. Dendritic spines as individual neuronal compartments for synaptic CaS02+T responses, *Letter to Nature,* (Müller, W and Connor, J A) **354,** 73

$GABA_B$ autoreceptors regulate the induction of LTP, *Letter to Nature,* (Davies, C H, Starkey, S J, Pozza, M F and Collingridge, G L) **349,** 609

Independent regulation of calcium revealed by imaging dendritic spines, *Letter to Nature,* (Guthrie, P B, Segal, M and Kater, S B) **354,** 76

Is maintenance of LTP presynaptic?, *Scientific correspondence,* (Korn, H, Faussacht, C and Faber, D S) **350,** 282

Is maintenance of LTP presynaptic? Reply, *Scientific correspondence,* (Malinow, R and Tsien, R W) **350,** 282

Long-term potentiation in the hippocampus is blocked by tyrosine kinase inhibitors, *Letter to Nature,* (O'Dell, T J, Kandel, E R and Grant, S G N) **353,** 558

Molecular cloning and characterization of the rat NMDA receptor, *Article,* (Moriyoshi, K, Masu, M, Ishii, T, Shigemoto, R, Mizuno, N and Nakanishi, S) **354,** 31

Neurobiology: LTP is a long term problem, *News and views,* (Edwards, F) **350,** 271

Novel form of long-term potentiation produced by a K^+ channel blocker in the hippocampus, *Letter to Nature,* (Aniksztejn, L and Ben-Ari, Y) **349,** 67

Quantal analysis of excitatory synaptic action and depression in hippocampal slices, *Letter to Nature,* (Larkman, A, Stratford, K and Jack, J) **350,** 344

Quantal synaptic transmission?, *Scientific correspondence,* (Clements, J) **353,** 396

Quantal synaptic transmission? Reply, *Scientific correspondence,* (Larkman, A, Stratford, K and Jack, J) **353,** 396

Lord Kelvin. The correspondence between Sir George Gabriel Stokes and Sir William Thomson, Baron Kelvin of Largs, Vol. I & II, *book review by* Brush, S G. (Wilson, D B) **349,** 575

Low-dimensional physics. Faceted crystal growth in two dimensions, *Letter to Nature,* (Berge, B, Faucheux, L, Schwab, K and Libchaber, A) **350,** 322

Low-mass X-ray binaries. A post-core-collapse model for the nucleus of M33, *Letter to Nature,* (Hernquist, L, Hut, P and Kormendy, J) **354,** 376

Evidence for a black hole in the X-ray nova Muscae 1991, *Letter to Nature,* (Della Valle, M, Jarvis, B J and West, R M) **353,** 50

Irradiation-driven mass transfer in low-mass X-ray binaries, *Letter to Nature,* (Podsiadlowski, Ph) **350,** 136

Orbital evolution of low-mass X-ray binaries due to radiation driven mass transfer, *Letter to Nature,* (Tavani, M) **351,** 39

Lower mantle, large-scale structure. Lower-mantle structure from ScS-S differential travel times, *Letter to Nature,* (Woodward, R L and Masters, G) **352,** 231

Lubrication. Forces between polymer-bearing surfaces undergoing shear, *Letter to Nature,* (Klein, J, Perahia, D and Warburg, S) **352,** 143

Luminescence, silicon. Semiconductors: Squeezing light from silicon, *News and views,* (Brus, L) **353,** 301

Visible light emission due to quantum size effects in highly porous crystalline silicon, *Letter to Nature,* (Cullis, A G and Canham, L T) **353,** 335

Lunar meteorites. A lunar meteorite found outside the Antarctic, *Letter to Nature,* (Hill, D H, Boynton, W V and Haag, R A) **352,** 614

Lunar shadow. Sun, sea and shadow, *News,* (Aldhous, P) **352,** 179

Lung disease. Counter current, *News and views,* **353,** 21

Lung physiology. American journal of physiology. Lung cellular and molecular physiology, *journal review by* Peachell, P T., (Massaro, D J *editor*) **353,** 465

Luria, Salvador E. Obituary: Salvador E. Luria (1912-1991), *News and views,* (Watson, J D) **350,** 113

Lyman α clouds. Faint hope, *News and views,* **352,** 18

Lyman-alpha forest. Astronomy: Pruning the Lyman-α forest, *News and views,* (Peacock, J) **349,** 190

Lymphocyte development. Elimination from peripheral lymphoid tissues of self-reactive B lymphocytes recognizing membrane-bound antigens, *Letter to Nature,* (Hartley, S B, Crosbie, J, Brink, R, Kantor, A B, Basten, A and Goodnow, C C) **353,** 765

Lymphocytes. Enhancement of T-cell responsiveness by the lymphocyte-specific tyrosine protein kinase $p56^{lck}$, *Letter to Nature,* (Abraham, N, Miceli, M C, Parnes, J R and Veillette, A) **350,** 62

Lymphocyte homing: Skin-seeking memory T cells, *News and views,* (Mackay, C R) **349,** 737

Lymphokines. $CD4^+$ and $CD8^+$ T cells acquire specific lymphokine secretion potentials during thymic maturation, *Letter to Nature,* (Bendelac, A and Schwartz, R H) **353,** 68

Lyotropic phases. Self-assembling phospholipid filaments, *Letter to Nature,* (Rudolph, A S, Ratna, B R and Kahn, B) **352,** 52

Lysenkoism. The collective farm song, *Correspondence,* **351,** 93

Lysosomes. Regulated import and degradation of a cytosolic protein in the yeast vacuole, *Article,* (Chiang, H-L and Schekman, R) **350,** 313

Segregation of MHC class II molecules from MHC class I molecules in the Golgi complex for transport to lysosomal compartments, *Article,* (Peters, P J, Neefjes, J J, Oorschot, V, Ploegh, H L and Geuze, H J) **349,** 669

Lysozyme. Demonstration by NMR of folding domains in lysozyme, *Letter to Nature,* (Miranker, A, Radford, S E, Karplus, M and Dobson, C M) **349,** 633

M83, galactic magnetism. Galactic magnetic fields: Spinning a tangled web, *News and views,* (Zweibel, E) **352,** 755

Macao, science park. Far East: Science park in Macao, *News,* (Gwynne, P) **352,** 273

Macmillan. *Nature*'s Macmillan, *Opinion,* **354,** 420

Macrocyclic chemistry. Guest-host complexes: Chemistry in a nutshell, *News and views,* (Atwood, J L and Gokel, G W) **354,** 354

Macrocyclic chemistry. A new challenge to valency, *News and views,* (Constable, E C) **353,** 600

Making tracks, *News and views,* **353,** 303

Macrophage activation. Recognition and plasma clearance of endotoxin by scavenger receptors, *Letter to Nature,* (Hampton, R Y, Golenbock, D T, Penman, M, Krieger, M and Raetz, C R H) **352,** 342

Macrophages. Uptake of *Pneumocystis carinii* mediated by the macrophage mannose receptor, *Letter to Nature,* (Ezekowitz, R A B, Williams, D J, Koziel, H, Armstrong, M Y K, Warner, A, Richards, F F and Rose, R M) **351,** 155

Magellan mission. Magellan gets set to fill in Venus's gaps, *News,* (Pease, R) **351,** 174

Magma lakes. In step, *News and views,* **350,** 558

Magmas, silicic. Anhydrite-bearing pumices from Mount Pinatubo: further evidence for the existence of sulphur-rich silicic magmas, *Letter to Nature,* (Bernard, A, Demaiffe, D, Mattielli, N and Punongbayan, R S) **354,** 139

Magmas, water diffusion. Water diffusion in a basaltic melt, *Letter to Nature,* (Zhang, Y and Stolper, E M) **351,** 306

Magmatism, Andes. Andean magma: Peeled or MASHed?, *News and views,* (Hickey-Vargas, R) **350,** 381

Magmatism, Iceland. Increased mantle melting beneath Snaefellsjökull volcano during Late Pleistocene deglaciation, *Letter to Nature,* (Hardarson, B S and Fitton, J G) **353,** 62

Magmatism. Extensional magmatism: The rift narrows, *News and views,* (Ellam, R) **351,** 525

Magnetic field, Earth. Geomagnetism: Reversals of opinion, *News and views,* (Bogue, S) **351,** 445

Magnetic fields, galactic. Correlation of magnetic and optical structure in the barred spiral galaxy M83, *Letter to Nature,* (Neininger, N, Klein, U, Beck, R and Wielebinski, R) **352,** 781

Galactic magnetic fields: Spinning a tangled web, *News and views,* (Zweibel, E) **352,** 755

Magnetic fields, thin-film deposition. Ordered layers, *Correspondence,* (Bonnett, R) **350,** 104

Magnetic levitation. Levitation of organic materials, *Scientific correspondence,* (Beaugnon, E and Tournier, R) **349,** 470

Magnetic multilayers. Materials science: A new magnetic turnon, *Letter to Nature,* (Salamon, M B) **353,** 305

Magnetic penetration depth. Superconductivity: An unconventional family tree, *News and views,* (d'Ambrumenil, N) **352,** 472

Magnetic recording. Materials science: A new magnetic turnon, *Letter to Nature,* (Salamon, M B) **353,** 305

Magnetic resonance, biomolecules. Journal of biomolecular NMR, *journal review by* Williams, R J P., (Wüthrich, K *editor*) **353,** 471

Magnetic storms. Sun-Earth connections: The great solar storms of 1989, *News and views,* (Kurth, W S) **353,** 705

Magnetically levitated trains. Advanced transportation: Maglev burns out in Japan, *News,* (Swinbanks, D) **353,** 592

Magnetism, materials processing. Texturing of magnetic materials at high temperature by solidification in a magnetic field, *Letter to Nature,* (de Rango, P, Lees, M, Lejay, P, Sulpice, A, Tournier, R, Ingold, M, Germi, P and Pernet, M) **349,** 770

Magnetism, metal clusters. Layerede magnetic structure of a metal cluster ion, *Letter to Nature,* (Gatteschi, D, Pardi, L, Barra, A L, Müller, A and Döring, J) **354,** 463

Magnetism, neutron stars. Strong stuff, *News and views,* **349,**

739

Magnetism, solid-state. Antiferromagnetism and metallic conductivity in Nb_3O_{8-y}, *Letter to Natur.*, (Cava, R J, Batlogg, B, Krajewski, J J, Gammel, P, Poulsen, H F, Peck, W F and Rupp, L W) **350,** 598

Magnetism. Magnetically controlled convection in a paramagnetic fluid, *Letter to Nature,* (Braithwaite, D, Beaugnon, E and Tournier, R) **354,** 134

Magnetohydrodynamics. Fast dynamo action in a steady chaotic flow, *Letter to Nature,* (Gilbert, A D) **350,** 483

Formation of giant molecular clouds and helical magnetic fields by the Parker instability, *Letter to Nature,* (Shibata, K and Matsumoto, R) **353,** 633

Galactic magnetic fields: Spinning a tangled web, *News and views,* (Zweibel, E) **352,** 755

The latitude belts of solar activity as a consequence of a boundary-layer dynamo, *Letter to Nature,* (Belvedere, G, Proctor, M R E and Lanzafame, G) **350,** 481

Magnetometers. Thin-film YBCO magnetometer, *Scientific correspondence,* (Miklich, A H, Wellstood, F C, Kingston, J J, Clarke, J, Colclough, M S, Char, K and Zaharchuk, G) **352,** 482

Magnetoresistance. Materials science: A new magnetic turnon, *Letter to Nature,* (Salamon, M B) **353,** 305

Magnetospheres, neutron stars. Theory of neutron star magnetospheres, *book review by* Bailyn, C. (Michel, F C) **351,** 282

Magnetospheric physics. Research in Antarctica: Research collaboration: Magnetic poles together, *News,* (Aldhous, P) **350,** 297

Solar-terrestrial physics: Europe woos Japan, *News,* (Aldhous, P and Swinbanks, D) **351,** 177

Sun-Earth connections: The great solar storms of 1989, *News and views,* (Kurth, W S) **353,** 705

Magnus effect. Fluid mechanics: Aerodynamics in a spin, *News and views,* (Salter, S H) **352,** 470

Maize genetics. The developmental gene *Knotted-1* is a member of a maize homeobox gene family, *Letter to Nature,* (Vollbrecht, E, Veit, B, Sinha, N and Hake, S) **350,** 241

Malaria. AIDS, monkeys and malaria, *Commentary,* (Gilks, C) **354,** 262

Deficiency in red blood cells, *Scientific correspondence,* (MacDonald, D, Town, M, Mason, P, Vulliamy, T, Luzzatto, L and Goff, D K) **350,** 115

Direct access to serum macromolecules by intraerythrocytic malaria parasites, *Letter to Nature,* (Pouvelle, B, Spiegel, R, Hsiao, L, Howard, R J, Morris, R L, Thomas, A P and Taraschi, T F) **353,** 73

Malignant hyperthermia. Malignant diagnosis, *News and views,* **354,** 22

Mammalian life histories. Evolutionary ecology: How to live like a mammal, *News and views,* (Harvey, P H and Nee, S) **350,** 23

Mammals. Country life, *News and views,* **353,** 700

Physiology: Cold facts and naked truth, *News and views,* (Cossins, A R) **353,** 699

Mammary tumour virus. A superantigen encoded in the open reading frame of the 3' long terminal repeat of mouse mammary tumour virus, *Article,* (Choi, Y, Kappler, J W and Marrack, P) **350,** 203

Clonal deletion of Vβ14-bearing T cells in mice transgenic for mammary tumour virus, *Article,* (Acha-Orbea, H, Shakhov, A N, Scarpellino, L, Kolb, E, Müller, V, Vessaz-Shaw, A, Fuchs, R, Blöchlinger, K, Rollini, P, Billotte, J, Sarafidou, M, Macdonald, H R and Diggelmann, H) **350,** 207

Manganese, hydrothermal plumes. *In situ* chemical mapping of dissolved iron and manganese in hydrothermal plumes, *Letter to Nature,* (Coale, K H, Chin, C S, Massoth, G J, Johnson, K S and Baker, E T) **352,** 325

Manifesto, British science. *Nature*'s Manifesto for British Science, *News,* **353,** 105

Manned spaceflight, Mars. Mars mission: Back to the future, *News,* (Aldhous, P) **351,** 594

Manned spaceflight, UK. Manned space flight: UK astronaut named, *News,* (Aldhous, P) **349,** 727

Mantle convection. Earth sciences: A superplume in the mantle, *News and views,* (Cox, K G) **352,** 564

Fluxes and excess temperatures of mantle plumes inferred from their interaction with migrating mid-ocean ridges, *Article,* (Schilling, J-G) **352,** 397

Hotspots: Bermuda stretches a point, *News and views,* (Richardson, R M) **350,** 655

Intermittent layered convection in a model mantle with an endothermic phase change at 670 km, *Letter to Nature,* (Machetel, P and Weber, P) **350,** 55

Lower-mantle viscosity constrained by seismicity around deglaciated regions, *Letter to Nature,* (Spada, G, Yuen, D A, Sabadini, R and Boschi, E) **351,** 53

Mantle structure: A matter for resolution, *News and views,* (Lay, T) **352,** 105

Predominance of long-wavelength heterogeneity in the mantle, *Article,* (Su, W-j and Dziewonski, A M) **352,** 121

Tomographic imaging of subducted lithosphere below northwest Pacific island arcs, *Article,* (van der Hilst, R, Engdahl, R, Spakman, W and Nolet, G) **353,** 37

Mantle fluids. Carbon-fluid equilibria and the oxidation state of the upper mantle, *Letter to Nature,* (Blundy, J D, Brodholt, J P and Wood, B J) **349,** 321

Mantle geochemistry. High internal pressures in diamond fluid inclusions determined by infrared absorption, *Letter to Nature,* (Navon, O) **353,** 746

Isotope evidence for the involvement of recycled sediments in diamond formation, *Letter to Nature,* (Eldridge, C S, Compston, W, Williams, I S, Harris, J W and Bristow, J W) **353,** 649

Mantle geochemistry: Diamonds deliver the dirt, *News and views,* (Gurney, J J) **353,** 601

Mantle geophysics. Ascismicity in the lower mantle by superplasticity of the descending slab, *Letter to Nature,* (Ito, E and Sato, H) **351,** 140

Mantle mineralogy. A high-pressure form of Al_2SiO_5 as a possible host of aluminium in the mantle, *Letter to Nature,* (Ahmed-Zaïd, I and Madon, M) **353,** 426

Complementary Ti and Zr anomalies in orthopyroxine and clinopyroxine from mantle peridodites, *Letter to Nature,* (Rampone, E, Bottazzi, P and Ottolini, L) **354,** 518

Relationship of deep seismicity to the thermal structure of subducted lithosphere, *Letter to Nature,* (Helffrich, G and Brodholt, J) **353,** 252

Mantle plumes. A three-dimensional seismic image of the crust and upper mantle beneath the Kenya rift, *Article,* (Green, W V, Achauer, U and Meyer, R P) **354,** 199

Dynamic melting of the Iceland plume, *Article,* (Elliott, T R, Hawkesworth, C J and Grönvold, K) **351,** 201

Earth sciences: A superplume in the mantle, *News and views,* (Cox, K G) **352,** 564

Fluxes and excess temperatures of mantle plumes inferred from their interaction with migrating mid-ocean ridges, *Article,* (Schilling, J-G) **352,** 397

Increased mantle melting beneath Snaefellsjökull volcano during Late Pleistocene deglaciation, *Letter to Nature,* (Hardarson, B S and Fitton, J G) **353,** 62

Oceanic magmatism: Iceland melting dynamics, *News and views,* (Ellam, R) **351,** 191

Mantle structure. Spinel elasticity and seismic structure of the transition zone of the mantle, *Letter to Nature,* (Rigden, S M, Gwanmesia, G D, Fitz Gerald, J D, Jackson, I and Liebermann, R C) **354,** 143

Mantle, conductivity. Phases and electrical conductivity of a hydrous silicate assemblage at lower-mantle conditions, *Letter to Nature,* (Li, X and Jeanloz, R) **350,** 332

Mantle, differentiation. Evidence for extreme mantle fractionation in early Archaean ultramafic rocks from northern Labrador, *Article,* (Collerson, K D, Campbell, L M, Weaver, B L and Palacz, Z A) **349,** 209

Geochemistry: Solar gases in the Earth?, *News and views,* (Podosek, F A) **349,** 106

Possible solar noble-gas component in Hawaiian basalts, *Letter to Nature,* (Honda, M, McDougall, I, Patterson, D B, Doulgeris, A and Clague, D A) **349,** 149

Mantle, electrical conductivity. Geophysics: Split decision on the mantle, *News and views,* (Heinz, D L) **351,** 346

High-temperature electrical conductivity of the lower-mantle phase (Mg, Fe)O, *Letter to Nature,* (Wood, B J and Nell, J) **351,** 309

Mantle, isotope geochemistry. Neodymium isotope evidence for ultra-depleted mantle in the early Proterozoic, *Letter to Nature,* (Sivell, W J and McCulloch, M T) **354,** 384

Mantle, large-scale structure. Lower-mantle structure from ScS-S differential travel times, *Letter to Nature,* (Woodward, R L and Masters, G) **352,** 231

Mantle structure: A matter for resolution, *News and views,* (Lay, T) **352,** 105

Predominance of long-wavelength heterogeneity in the mantle, *Article,* (Su, W-j and Dziewonski, A M) **352,** 121

Mantle, melting. Dynamic melting of the Iceland plume, *Article,* (Elliott, T R, Hawkesworth, C J and Grönvold, K) **351,** 201

Extensional magmatism: The rift narrows, *News and views,* (Ellam, R) **351,** 525

Oceanic magmatism: Iceland melting dynamics, *News and views,* (Ellam, R) **351,** 191

Mantle, mineralogy. A new high-pressure form of $MgAl_2O_4$, *Letter to Nature,* (Irifune, T, Fujino, K and Ohtani, E) **349,** 409

Carbon-fluid equilibria and the oxidation state of the upper mantle, *Letter to Nature,* (Blundy, J D, Brodholt, J P and Wood, B J) **349,** 321

Fast rise times and the physical mechanism of deep earthquakes, *Letter to Nature,* (Houston, H and Williams, Q) **352,** 520

High-temperature electrical conductivity of the lower-mantle phase (Mg, Fe)O, *Letter to Nature,* (Wood, B J and Nell, J) **351,** 309

Mineral physics: Deep mantle melting, *News and views,* (Hemley, R J and Kubicki, J D) **349,** 283

Phases and electrical conductivity of a hydrous silicate assemblage at lower-mantle conditions, *Letter to Nature,* (Li, X and Jeanloz, R) **350,** 332

Mantle, oxidation state. Carbon-fluid equilibria and the oxidation state of the upper mantle, *Letter to Nature,* (Blundy, J D, Brodholt, J P and Wood, B J) **349,** 321

Mantle, rare gases. Terrestrial primordial neon, *Scientific correspondence,* (Sarda, Ph and Staudacher, Th) **352,** 388

Terrestrial primordial neon: Reply, *Scientific correspondence,* (Honda, M, McDougall, I, Patterson, D B, Doulgeris, A and Clague, D A) **352,** 388

Mantle, viscosity. Lower-mantle viscosity constrained by seismicity around deglaciated regions, *Letter to Nature,* (Spada, G, Yuen, D A, Sabadini, R and Boschi, E) **351,** 53

Manufacturing. Journal of intelligent manufacturing, *journal review by* Wu, B., (Kusiak, A *editor*) **353,** 476

MAP kinases. Dissection of the protein kinase cascade by which nerve growth factor activates MAP kinases, *Letter to Nature,* (Gómez, N and Cohen, P) **353,** 170

Phosphorylation of c-*jun* mediated by MAP kinases, *Letter to Nature,* (Pulverer, B J, Kyriakis, J M, Avruch, J, Nikolakaki, E and Woodgett, J R) **353,** 670

Marfan syndrome. Calcium binding to fibrillin?, *Scientific correspondence,* (Handford, P A, Mayhew, M and Brownlee, G G) **353,** 395

Linkage of Marfan syndrome and a phenotypically related disorder to two different fibrillin genes, *Letter to Nature,* (Lee, B, Godfrey, M, Vitale, E, Hori, H, Mattei, M-G, Sarfarazi, M, Tsipouras, P, Ramirez, F and Hollister, D W) **352,** 330

Marfan syndrome caused by a recurrent *de novo* missense mutation in the fibrillin gene, *Letter to Nature,* (Dietz, H C, Cutting, G R, Pyeritz, R E, Maslen, C L, Sakai, L Y, Corson, G M, Puffenberger, E G, Hamosh, A, Nanthakumar, E J, Curristin, S M, Stetten, G, Meyers, D A and Francomano, C A) **352,** 337

Medical genetics: The defect in Marfan syndrome, *News and views,* (McKusick, V A) **352,** 279

Medical genetics: Abraham Lincoln and Marfan syndrome, *News and views,* (McKusick, V A) **352,** 280

Partial sequence of a candidate gene for the Marfan syndrome, *Letter to Nature,* (Maslen, C L, Corson, G M, Maddox, B K, Glanville, R W and Sakai, L Y) **352,** 334

Marine biology, Antarctic. Research in Antarctica: Marine living resources: The trouble with trawlers, *News,* (Anderson, C) **350,** 296

Research in Antarctica: Marine living resources: How much krill to fish?, *News,* (Ewing, T) **350,** 306

Marine biology. Deep-sea biology: A natural history of organisms at the deep-sea floor, *book review by* Southward, A J. (Gage, J D and Tyler, P A) **352,** 294

Dispersal via whale bones, *Scientific correspondence,* (Martill, D M, Cruickshank, A R I and Taylor, M A) **351,** 193

Premature death, *Scientific correspondence,* (Ogden, J C) **353,** 509

Whale carcasses, *Scientific correspondence,* (Squires, R L, Goedert, J L and Barnes, L G) **349,** 574

Zoology: Marine quick-change acts, *News and views,* (Greenwood, J J D) **349,** 741

Marine ecology. Low iron requirement for growth in oceanic phytoplankton, *Letter to Nature,* (Sunda, W G, Swift, D G and Huntsman, S A) **351,** 55

Whose larvae?, *Scientific correspondence,* (Olson, R R, Runstadler, J A and Kocher, T D) **351,** 357

Marine geology. Evidence for volcanic eruption on the southern Juan de Fuca ridge between 1981 and 1987, *Letter to Nature,* (Chadwick, W W, Embley, R W and Fox, C G) **350,** 416

Unusual sea-floor fabric near the Bullard fracture zone imaged by GLORIA sidescan sonar, *Letter to Nature,* (Livermore, R A, Tomlinson, J S and Woollett, R W) **353,** 158

Mars, atmosphere. Early outgassing of Mars supported by differential water solubility of iodine and xenon, *Letter to Nature,* (Musselwhite, D S, Drake, M J and Swindle, T D) **352,** 697

Making Mars habitable, *Review article,* (McKay, C P, Toon, O B and Kasting, J F) **352,** 489

Mars, core. Soft core, *News and views,* **354,** 22

Mars, exploration of. Soviet space: Mars projects still alive, *News,* (Kanin, Y) **353,** 785

Mars, habitability. Making Mars habitable, *Review article,* (McKay, C P, Toon, O B and Kasting, J F) **352,** 489

Mars, hydrological cycle. Ancient oceans, ice sheets and the hydrological cycle on Mars, *Article,* (Baker, V R, Strom, R G, Gulick, V C, Kargel, J S, Komatsu, G and Kale, V S) **352,** 589

Mars, manned exploration. Mars mission: Back to the future, *News,* (Aldhous, P) **351,** 594

Mars, outgassing. Early outgassing of Mars supported by differential water solubility of iodine and xenon, *Letter to Nature,* (Musselwhite, D S, Drake, M J and Swindle, T D) **352,** 697

Marsupials. Community ecology: A case of missing marsupials, *News and views,* (Diamond, J M) **353,** 17

Mass extinctions, Palaeocene. Abrupt deep-sea warming, palaeoceanographic changes and benthic extinctions at the end of the Palaeocene, *Article,* (Kennett, J P and Stott, L D) **353,** 225

Mass extinctions. Cretaceous/Tertiary extinction: Where did it happen?, *News and views,* (Smit, J) **349,** 461

Glass from the Cretaceous/Tertiary boundary in Haiti, *Article,* (Sigurdsson, H, D'Hondt, S, Arthur, M A, Bralower, T J, Zachos, J C, van Fossen, M and Channell, J E T) **349,** 482

Palaeobotanical evidence for a June 'impact winter' at the Cretaceous/Tertiary boundary, *Letter to Nature,* (Wolfe, J A) **352,** 420

Mast cells. Phosphorylation and dephosphorylation of the high-affinity receptor for immunoglobulin E immediately after receptor engagement and disengagement, *Letter to Nature,* (Paolini, R, Jouvin, M-H and Kinet, J-P) **353,** 855

Materials research, US. US plans to rescue materials research, *News,* (Anderson, C) **350,** 365

Materials science, US. Technology policy: Materials top critical technologies list, (Anderson, C) **351,** 8
Materials science. Another mountain from a molehill, *News and views,* (Maddox, J) **351,** 13
Getting tough, *News and views,* **349,** 460
Graphitic carbon copies, *Correspondence,* (Cahn, R W) **349,** 97
Graphitic carbon copies: Reply, *Correspondence,* (Swinbanks, D) **349,** 97
Highly oriented thin films of poly(tetrafluoroethylene) as a substrate for oriented growth of materials, *Letter to Nature,* (Wittmann, J C and Smith, P) **352,** 414
Journal of materials chemistry, *journal review by* Calvert, P., (West, A R *editor*) **353,** 473
Journal of materials science: Materials in electronics, *journal review by* Alford, N McN., (Willoughby, A *editor*) **353,** 474
Journal of materials science: Materials in medicine, *journal review by* Nicholson, J., (Bonfield, W and Williams, D F *editors*) **353,** 474
Materials science: When size does matter, *News and views,* (Ball, P) **349,** 101
Materials science: Minute particulars, *News and views,* (Cahn, R W) **353,** 208
Microstructure of isotropic materials with negative Poisson's ratio, *Letter to Nature,* (Rothenburg, L, Berlin, A A and Bathurst, R J) **354,** 470
Molecular electronics: Bringing molecules to order, *News and views,* (Friend, R) **352,** 377
Rustum Roy replies, *Correspondence,* (Roy, R) **354,** 9
Maternal effects. The mouse insulin-like growth factor type-2 receptor is imprinted and closely linked to the *Tme* locus, *Letter to Nature,* (Barlow, D P, Stöger, R, Herrmann, B G, Saito, K and Schweifer, N) **349,** 84
Mathematical physics. Reviews in mathematical physics, *journal review by* Clarke, C J S., (Araki, H *editor*) **353,** 478
Mathematical proof. The fangs of the VIPER, *Commentary,* (MacKenzie, D) **352,** 467
Mathematics, computational. Computational mathematics and modeling, *journal review by* Campbell, J A., (Light, W A and Tikhonov, A N *editors*) **353,** 477
Mathematics, in biology. Biology's variable logic, *Correspondence,* (Parks, J R) **351,** 434
Mathematics. Beyond the third dimension, *book review by* Clarke, C J S. (Banchoff, T) **349,** 473
Dynamics: Deciding the undecidable, *News and views,* (Stewart, I) **352,** 664
Extension of Euler's theorem to symmetry properties of polyhedra, *Letter to Nature,* (Ceulemans, A and Fowler, P W) **353,** 52
Firefly synchrony, *Scientific correspondence,* (Ermentrout, G B) **353,** 220
Fractals, chaos, power laws: Minutes from an infinite paradise, *book review by* May, R M. (Schroeder, M) **350,** 524
Mathematics: Circularly covering clathrin, *News and views,* (Stewart, I) **351,** 103
Mathematics: Justifying the means, *News and views,* (Stewart, I) **354,** 185
Rediscovery of Da Rios equations, *Commentary,* (Ricca, R L) **352,** 561
The magic of numbers and motion: The scientific career of René Descartes, *book review by* Hall, A R. (Shea, W R) **352,** 675
Mating preferences, evolution of. The evolution of mating preferences and the paradox of the lek, *Review article,* (Kirkpatrick, M and Ryan, M J) **350,** 33
Mating preferences. Sexual selection and the potential reproductive rates of males and females, *Letter to Nature,* (Clutton-Brock, T H and Vincent, A C J) **351,** 58
Mating systems. The Evolution of Parental Care, *book review by* Gwynne, D T. (Clutton-Brock, T H) **352,** 118
Mating, bacteria. Bacteria mating preferences, *Scientific correspondence,* (Redfield, R J) **352,** 25
Mating, birds. Lekking in the black grouse - a test of male viability, *Letter to Nature,* (Alatalo, R V, Höglund, J and Lundberg, A) **352,** 155
Mating, preference. Bacteria mating preferences, *Scientific correspondence,* (Haskell, D G) **352,** 26
Maxwell's demon. Maxwell's demon: Entropy, information, computing, *book review by* Landsberg, P T. (Leff, H S and Rex, A F) **349,** 376
Maxwell, James Clerk. The scientific letters and papers of James Clerk Maxwell. Volume 1,1846-1862, *book review by* Pais, A. (Harman, P M) **349,** 201
Maxwell, Robert. *Nature*'s Macmillan, *Opinion,* **354,** 420
Maxwell. Robert. Death of a tycoon, *Opinion,* **354,** 93
Mayo, John. Industrial research: Mayo new head at Bell Labs, *News,* (Pool, R) **352,** 268
McMillan, Edwin M. Obituary: Edwin M McMillan (1907-1991), *News and views,* (Jackson, J D) **353,** 602
Mechanical engineering. Molecular network design, *Scientific correspondence,* (Evans, K E, Nkansah, M A, Hutchinson, I J and Rogers, S C) **353,** 124
Mechanics, bicycles. Uphill struggle, *Correspondence,* (Scott, J) **349,** 362
Mechanics. Microstructure of isotropic materials with negative Poisson's ratio, *Letter to Nature,* (Rothenburg, L, Berlin, A A and Bathurst, R J) **354,** 470
Paradoxical behaviour of mechanical and electrical networks, *Letter to Nature,* (Cohen, J E and Horowitz, P) **352,** 699
Mechanoreception. Neurobiology: Most of the senses begin to make some sense, *News and views,* (Lancet, D) **353,** 799
Medical decision making. Strangers at the bedside: A history of how law and bioethics transformed medical decision making, *book review by* Lock, S. (Rothman, D J) **350,** 530
Medical ethics. AIDS research: French minister clears Zagury, *News,* (Culliton, B J) **350,** 546
Medical genetics. Medical genetics: Abraham Lincoln and Marfan syndrome, *News and views,* (McKusick, V A) **352,** 280
Medical Research Council, UK. Human genome dispute, *Correspondence,* (Rees, D A) **354,** 426
Medical research, prizes. Prizes: Chambon among winners of Swiss prize, *News,* (Gee, H) **349,** 270
Medical research, UK. Animal experiments: MRC breach spurs reforms, *News,* (Aldhous, P) **349,** 446
Animal experimentation: Charities fight back, *News,* (Aldhous, P) **354,** 100
Cancer therapy: Neutron-treatment fund axed, *News,* (Gee, H) **349,** 552
Health research: NHS launches first strategy, *News,* (Aldhous, P) **351,** 7
Medical research: World's first MS unit, *News,* (Aldhous, P) **350,** 8
Research budget: Another tough year for MRC, *News,* (Aldhous, P) **349,** 552
Research ethics: Nuffield takes the lead on bioethics, *News,* (Aldhous, P) **350,** 641
Research foundations: First woman director for Wellcome, *News,* **349,** 187
Scientific misconduct: UK medical guidelines proposed, *News,* (Aldhous, P) **350,** 365
University of London: Medicine becomes a liability, *News,* (Aldhous, P) **350,** 546
Medical research, US. Fetal tissue research: New panel for ethical issues, *News,* (Gershon, D) **349,** 184
Medical research: Beating the tissue shortage, *News,* (Anderson, C) **351,** 595
National Institutes of Health: Healy ready to take on NIH, *News,* (Culliton, B J) **350,** 178
US National Academy: Thier plans to leave Institute of Medicine, *News,* (Anderson, C) **351,** 90
US squeamishness, *Opinion,* **349,** 181
Medical research. Cystic fibrosis: Acidification indication, *News and views,* (Welsh, M J) **352,** 23
Infectious paradigm, *Correspondence,* (Brash, D E) **351,** 9
Medicine, materials. Journal of materials science: Materials in medicine, *journal review by* Nicholson, J., (Bonfield, W and Williams, D F *editors*) **353,** 474
Medieval science. Science, optics and music in medieval and early modern thought, *book review by* Hall, A R. (Crombie, A C) **350,** 30
Medium-range order, amorphous solids. Medium-range structural order in covalent amorphous solids, *Review article,* (Elliott, S R) **354,** 445
Medium-range order. Medium-range order in the cation distribution of a calcium silicate glass, *Article,* (Gaskell, P H, Eckersley, M C, Barnes, A C and Chieux, P) **350,** 675
Megaplumes. Evidence for volcanic eruption on the southern Juan de Fuca ridge between 1981 and 1987, *Letter to Nature,* (Chadwick, W W, Embley, R W and Fox, C G) **350,** 416
Meiosis. A dynamin-like protein encoded by the yeast sporulation gene *SPO15*, *Letter to Nature,* (Yeh, E, Driscoll, R, Coltrera, M, Olins, A and Bloom, K) **349,** 713
Independent inactivation of MPF and cytostatic factor (Mos) upon fertilization of *Xenopus* eggs, *Letter to Nature,* (Watanabe, N, Hunt, T, Ikawa, Y and Sagata, N) **352,** 247
Melanocytes. Novel myosin heavy chain encoded by murine *dilute* coat colour locus, *Letter to Nature,* (Mercer, J A, Seperack, P K, Strobel, M C, Copeland, N G and Jenkins, N A) **349,** 709
Melatonin secretion. A cyclic GMP-activated channel in dissociated cells of the chick pineal gland, *Letter to Nature,* (Dryer, S E and Henderson, D) **353,** 756
Meles meles. Country life, *News and views,* **353,** 700
Melt processing, superconductors. Low surface resistance in $YBa_2Cu_3O_x$ melt-processed thick films, *Letter to Nature,* (Alford, N McN, Button, T W, Adams, M J, Hedges, S, Nicholson, B and Phillips, W A) **349,** 680
Melting. Melt droplet formation in energetic impact events, *Letter to Nature,* (Melosh, H J and Vickery, A M) **350,** 494
Membrane channels. Cystic fibrosis: Acidification indication, *News and views,* (Welsh, M J) **352,** 23
Extracellular domains mediating α subunit interactions of muscle acetylcholine receptor, *Letter to Nature,* (Yu, X-M and Hall, Z W) **352,** 64
Structural architecture of an outer membrane channel as determined by electron crystallography, *Letter to Nature,* (Jap, B K, Walian, P J and Gehring, K) **350,** 167
Membrane proteins. A 'molten-globule' membrane-insertion intermediate of the pore-forming domain of colicin A, *Letter to Nature,* (van der Goot, F G, González-Manas, J M, Lakey, J H and Pattus, F) **354,** 408
Alteration of ionic selectivity of a K^+ channel by mutation of the H5 region, *Letter to Nature,* (Yool, A J and Schwarz, T L) **349,** 700
Dependence of Ypt1 and Sec4 membrane attachment on Bet2, *Letter to Nature,* (Rossi, G, Jiang, Y, Newman, A P and Ferro-Novick, S) **351,** 158
Membrane protein association by potential intramembrane charge pairs, *Letter to Nature,* (Cosson, P, Lankford, S P, Bonifacino, J S and Klausner, R D) **351,** 414
Membrane proteins and minimalism, *News and views,* (Robertson, M) **354,** 183
Protein dynamics: A case of a flexible friend, *News and views,* (Pain, R) **354,** 353
Membrane traffic. A small GTP-binding protein dissociates from synaptic vesicles during exocytosis, *Letter to Nature,* (Fischer von Mollard, G, Südhof, T C and Jahn, R) **349,** 79
Cell biology: Membrane traffic COPs, *News and views,* (Robinson, M S) **349,** 743
Membrane transport. Channels, carriers and pumps: An introduction to membrane transport, *book review by* Green, N M. (Stein, W D) **351,** 450
Function of DnaI and DnaK as chaperones in origin-specific DNA binding by RepA, *Letter to Nature,* (Wickner, S, Hoskins, J and McKenney, K) **350,** 165
Membranes, artificial. Golden opportunity, *News and views,* **351,** 99
Model membranes: Playing a molecular accordion, *News and views,* (Cates, M) **351,** 102
Membranes, biological. Biological membranes: The semiotics of charge, *News and views,* (Green, N M) **351,** 349
Membranes, conformations. Formation of membranes, *Scientific correspondence,* (Lasic, D D) **351,** 613
The conformation of membranes, *Review article,* (Lipowsky, R) **349,** 475
Membranes, polymeric. Composite membranes from photochemical synthesis of ultrathin polymer films, *Letter to Nature,* (Liu, C and Martin, C R) **352,** 50
Polymer films: Designing a slow leak, *News and views,* (Kaner, R B) **352,** 23
Membranes, structural probes. Structural studies of membranes and surface layers up to 1,000 Å thick using X-ray standing waves, *Letter to Nature,* (Wang, J, Bedzyk, M J, Penner, T L and Caffrey, M) **354,** 377
Memory, birds. Long-term memory of individual neighbours in a migratory songbird, *Letter to Nature,* (Godard, R) **350,** 228
Memory, long-term. Neural organization for the long-term memory of paired associates, *Letter to Nature,* (Sakai, K and Miyashita, Y) **354,** 152
Memory. Cloning of cDNA for the glutamate-binding subunit of an NMDA receptor complex, *Letter to Nature,* (Kumar, K N, Tilakaratne, N, Johnson, P S, Allen, A E and Michaelis, E K) **354,** 70
Dendritic spines as individual neuronal compartments for synaptic Ca^{2+} responses, *Letter to Nature,* (Müller, W and Connor, J A) **354,** 73
$GABA_B$ autoreceptors regulate the induction of LTP, *Letter to Nature,* (Davies, C H, Starkey, S J, Pozza, M F and Collingridge, G L) **349,** 609
In the palaces of memory: How we build the world inside our heads, *book review by* Sutherland, S. (Johnson, G) **351,** 200
Independent regulation of calcium revealed by imaging dendritic spines, *Letter to Nature,* (Guthrie, P B, Segal, M and Kater, S B) **354,** 76
Is maintenance of LTP presynaptic?, *Scientific correspondence,* (Korn, H, Faussnacht, C and Faber, D S) **350,** 282
Is maintenance of LTP presynaptic? Reply, *Scientific correspondence,* (Malinow, R and Tsien, R W) **350,** 282
Long-term potentiation in the hippocampus is blocked by tyrosine kinase inhibitors, *Letter to Nature,* (O'Dell, T J, Kandel, E R and Grant, S G N) **353,** 558
Molecular neurobiology: NMDA receptors cloned at last, *News and views,* (Mayer, M L) **354,** 16
Neurobiology: LTP is a long term problem, *News and views,* (Edwards, F) **350,** 271
Neurobiology: Temporal associations, *News and views,* (Stryker, M P) **354,** 108
Neuropsychological impairments of short-term memory, *book review by* Marshall, J C. (Vallar, G and Shallice, T) **350,** 536
Novel form of long-term potentiation produced by a K^+ channel blocker in the hippocampus, *Letter to Nature,* (Aniksztejn, L and Ben-Ari, Y) **349,** 67
Mental health, US. Behavioural medicine: Mental health research will return to NIH, *News,* (Culliton, B J) **351,** 509
Mental measurements. Personality put to the test, *Correspondence,* (Jackson, D N and Rothstein, M) **352,** 100
Mental retardation. Abnormal pattern detected in fragile-X patients by pulsed-field gel electrophoresis, *Letter to Nature,* (Vincent, A, Heitz, D, Petit, C, Kretz, C, Oberlé, I and Mandel, J-L) **349,** 624
Copying connection, *News and views,* **350,** 383
Human genetics: Methylation and the fragile X, *News and views,* (Craig, I) **349,** 742
Mercuric ion reductase. Structure of the detoxification catalyst mercuric ion reductase from *Bacillus* sp. strain RC607, *Letter to Nature,* (Schiering, N, Kabsch, W, Moore, M J, Distefano, M D, Walsh, C T and Pai, E F) **352,** 168
Mercury pollution. Mercury risk from teeth: Reply, *Scientific correspondence,* (Mills, A) **349,** 109
Mercury risk from teeth, *Scientific correspondence,* (Basu, M K, Wilson, H J and Krishnan, G) **349,** 109
Mercury, crematoria. More mercury from crematoria, *Scientific correspondence,* (Künzler, P and Andrée, M) **349,** 746
Mercury, detoxification. Structure of the detoxification catalyst mercuric ion reductase from *Bacillus* sp. strain RC607, *Letter to Nature,* (Schiering, N, Kabsch, W, Moore, M J, Dis-

tefano, M D, Walsh, C T and Pai, E F) **352,** 168

Mercury, ice caps. Planetary sciences: Ice right under the Sun, *News and views,* (Chapman, C R) **354,** 504

MERLIN network. Radioastronomy: Making the most of MERLIN's potential, *News,* (Aldhous, P) **349,** 733

Mesoderm formation. A cell autonomous function of *Brachyury* in *T/T* embryonic stem cell chimaras, *Letter to Nature,* (Rashbass, P, Cooke, L A, Herrmann, B G and Beddington, R S P) **353,** 348

Mesophases. Charge migration in supramolecular stacks of peripherally substituted porphyrins, *Letter to Nature,* (Schouten, P G, Warman, J M, de Haas, M P, Fox, M A and Pan, H-L) **353,** 736

Mesoscopic physics. Semiconductor physics: Sure plays a mean pinball, *News and views,* (Washburn, S) **353,** 119

Messenger RNA, synthesis. Primary structure and expression of bovine poly(A) polymerase, *Article,* (Raabe, T, Bollum, F J and Manley, J L) **353,** 229

Messenger RNA. Cloning and expression of the essential gene for poly(A) polymerase from *S. cerevisiae* (Lingner, J, Kellermann, J and Keller, W) **354,** 496

Editing of a chloroplast mRNA by creation of an initiation codon, *Letter to Nature,* (Hoch, B, Maier, R M, Appel, K, Igloi, G L and Kössel, H) **353,** 178

Internal initiation of translation mediated by the 5' leader of a cellular mRNA, *Letter to Nature,* (Macejak, D G and Sarnow, P) **353,** 90

mRNA translation: Initiation without an end, *News and views,* (Jackson, R J) **353,** 14

Metal clusters. Layered magnetic structure of a metal cluster ion, *Letter to Nature,* (Gatteschi, D, Pardi, L, Barra, A L, Müller, A and Döring, J) **354,** 463

Observation of quantum supershells in clusters of sodium atoms, *Letter to Nature,* (Pedersen, J, Bjornholm, S, Borggreen, J, Hansen, K, Martin, T P and Rasmussen, H D) **353,** 733

Metal-metal bonding. Change of coordination from tetrahedral gold-ammonium to square-pyramidal gold-arsonium cations, *Letter to Nature,* (Zeller, E, Beruda, H, Kolb, A, Bissinger, P, Riede, J and Schmidbaur, H) **352,** 141

Metallic glasses. Sonochemical synthesis of amorphous iron, *Letter to Nature,* (Suslick, K S, Choe, S-B, Cichowlas, A A and Grinstaff, M W) **353,** 414

Metalloenzymes. Novel thioether bond revealed by a 1.7 Å crystal structure of galactose oxidase, *Letter to Nature,* (Ito, N, Phillips, S E V, Stevens, C, Ogel, Z B, McPherson, M J, Keen, J N, Yadav, K D S and Knowles, P F) **350,** 87

Metallogenesis. Ore deposits: Ocean cycles in control, *News and views,* (Petersen, U) **352,** 382

Metallurgy. Making sense of binary metal alloys, *News and views,* (Maddox, J) **349,** 649

Materials science: Dropping below freezing point, *News and views,* (Cahn, R W) **349,** 736

Metallurgy: Revealing corrosion pits, *News and views,* (Burstein, G T) **350,** 188

Passivity breakdown and pitting corrosion of binary alloys, *Letter to Nature,* (Williams, D E, Newman, R C, Song, Q and Kelly, R G) **350,** 216

R&D for industry - A century of technical innovation at Alcoa, *book review by* Cahn, R W. (Graham, M B W and Pruitt, B H) **350,** 118

Metamorphic petrology. Effect of fluorine on solid-state alkali interdiffusion rates in feldspar, *Letter to Nature,* (Snow, E and Kidman, S) **349,** 231

Isotope dating: Quick shifts in plate motion, *News and views,* (Yardley, B W D) **354,** 269

Metamorphic fluid flow, *Scientific correspondence,* (Tanner, P W G) **352,** 483

Metamorphic fluid flow: Reply, *Scientific correspondence,* (Yardley, B, Bottrell, S H and Cliff, R A) **352,** 484

Rapid dewatering of the crust deduced from ages of mesothermal gold deposits, *Letter to Nature,* (Goldfarb, R J, Snee, L W, Miller, L D and Newberry, R J) **354,** 296

Metamorphism, meteorites. Metamorphism of eucrite meteorites studied quantitatively using induced thermoluminescence, *Letter to Nature,* (Batchelor, J D and Sears, D W G) **349,** 516

Metamorphism. Evidence for a regional-scale fluid loss event during mid-crustal metamorphism, *Letter to Nature,* (Yardley, B, Bottrell, S H and Cliff, R A) **349,** 151

Metasomatism. Evidence for a regional-scale fluid loss event during mid-crustal metamorphism, *Letter to Nature,* (Yardley, B, Bottrell, S H and Cliff, R A) **349,** 151

Metazoans. New early Cambrian animal and onychophoran affinities of enigmatic metazoans, *Letter to Nature,* (Ramsköld, L and Xianguang, H) **351,** 225

Meteorite impacts, Cretaceous-Tertiary boundary. Mexican site for K/T impact crater, *Scientific correspondence,* (Pope, K O, Ocampo, A C and Duller, C E) **351,** 105

Palaeobotanical evidence for a June 'impact winter' at the Cretaceous/Tertiary boundary, *Letter to Nature,* (Wolfe, J A) **352,** 420

Meteorite impacts. Cretaceous/Tertiary extinction: Where did it happen?, *News and views,* (Smit, J) **349,** 461

Geochemical constraints on source region of Cretaceous/Tertiary impact glasses, *Letter to Nature,* (Sigurdsson, H, Bonté, Ph, Turpin, L, Chaussidon, M, Metrich, N, Steinberg, M, Pradel, Ph and D'Hondt, S) **353,** 839

Glass from the Cretaceous/Tertiary boundary in Haiti, *Article,* (Sigurdsson, H, D'Hondt, S, Arthur, M A, Bralower, T J, Zachos, J C, van Fossen, M and Channell, J E T) **349,** 482

Melt droplet formation in energetic impact events, *Letter to Nature,* (Melosh, H J and Vickery, A M) **350,** 494

Nanometre-size diamonds in the Cretaceous/Tertiary boundary clay of Alberta, *Letter to Nature,* (Carlisle, D G and Braman, D R) **352,** 708

Meteorites, Antarctic. A collection of diverse micrometeorites recovered from 100 tonnes of Antarctic blue ice, *Letter to Nature,* (Maurette, M, Olinger, C, Michel-Levy, M C, Kurat, G, Pourchet, M, Brandstätter, F and Bourot-Denise, M) **351,** 44

Meteorites, lunar. A lunar meteorite found outside the Antarctic, *Letter to Nature,* (Hill, D H, Boynton, W V and Haag, R A) **352,** 614

Meteorites. A collection of diverse micrometeorites recovered from 100 tonnes of Antarctic blue ice, *Letter to Nature,* (Maurette, M, Olinger, C, Michel-Levy, M C, Kurat, G, Pourchet, M, Brandstätter, F and Bourot-Denise, M) **351,** 44

Extraterrestrial synthesis, *Scientific correspondence,* (Miller, S L and Bada, J L) **350,** 387

Extraterrestrial synthesis: Reply, *Scientific correspondence,* (Shock, E L and Schulte, M D) **350,** 388

Large amounts of extinct ^{26}Al in interstellar grains from the Murchison meteorite, *Letter to Nature,* (Zinner, E, Amari, S, Anders, E and Lewis, R) **349,** 51

Metamorphism of eucrite meteorites studied quantitatively using induced thermoluminescence, *Letter to Nature,* (Batchelor, J D and Sears, D W G) **349,** 516

Nanometre-size diamonds in the Cretaceous/Tertiary boundary clay of Alberta, *Letter to Nature,* (Carlisle, D G and Braman, D R) **352,** 708

Phosphates in pallasite meteorites as probes of mantle processes in small planetary bodies, *Letter to Nature,* (Davis, A M and Olsen, E J) **353,** 637

Research in Antarctica: Micrometeorites: Prospecting in the ice, *News,* (Coles, P) **350,** 300

Research in Antarctica: European collaboration: Meteorites for all, *News,* (Aldhous, P) **350,** 308

Solar System: Small grains of truth, *News and views,* (Nuth, J) **349,** 18

Meteorology, drought. Californian drought: Water shortage pits man against nature, *News,* (Schaefer, E) **350,** 180

Meteorology, Gulf war. Gulf conflagration: Predicting climate problems, *News,* (Aldhous, P) **349,** 270

Meteorology, remote sensing. Sub-Saharan Africa: Spotting famine from space, *News,* (Steele, D) **350,** 545

Meteorology. Dimension of weather and climate attractors, *Letter to Nature,* (Lorenz, E N) **353,** 241

Watching the World's Weather, *book review by* Lloyd, P. (Burroughs, W J) **352,** 31

Winding up, *News and views,* **349,** 366

Methane production, cows. India: Skinny cows no threat, *News,* (Jayaraman, K S) **353,** 685

Methane, astrophysics. Unnatural gas, *News and views,* **352,** 476

Methane, atmospheric. A record of the atmospheric methane sink from formaldehyde in polar ice cores, *Letter to Nature,* (Staffelbach, T, Neftel, A, Stauffer, B and Jacob, D) **349,** 603

Atomospheric chemistry: Methane's sinks and sources, *News and views,* (Crutzen, P J) **350,** 380

Ice-age methane variations, *Scientific correspondence,* (Crowley, T J) **353,** 122

Leaking gas in the greenhouse, *Commentary,* (Wallis, M K) **354,** 428

Methane and nitrous oxide fluxes in native, fertilized and cultivated grasslands, *Letter to Nature,* (Mosier, A, Schimel, D, Valentine, D, Bronson, K, Parton, W) **350,** 330

Methane flux to the atmosphere from the Arabian Sea, *Letter to Nature,* (Owens, N J P, Law, C S, Mantoura, R F C, Burkill, P H and Llewellyn, C A) **354,** 293

Methane on the greenhouse agenda, *Commentary,* (Hogan, K B, Hoffman, J S and Thompson, A M) **354,** 181

New measurement of the rate coefficient for the reaction of OH with methane, *Letter to Nature,* (Vaghjiani, G R and Ravishankara, A R) **350,** 406

Methane, partial oxidation. Partial oxidation of methane to synthesis gas using carbon dioxide, *Letter to Nature,* (Ashcroft, A T, Cheetham, A K, Green, M L H and Vernon, P D F) **352,** 225

Methanesulphonic acid. Microbial degradation of methanesulphonic acid: a missing link in the biogeochemical sulphur cycle, *Letter to Nature,* (Baker, S C, Kelly, D P and Murrell, J C) **350,** 627

Metrication. Weighty argument, *Correspondence,* (Krishtalka, L) **349,** 98

Metrology. Measurement science and technology, *journal review by* Gallop, J., (Payne, P A *editor*) **353,** 476

MHC molecules. A new human HLA class II-related locus, *JM, Letter to Nature,* (Kelly, A P, Monaco, J J, Cho, S and Trowsdale, J) **353,** 571

A novel class II MHC molecule with unusual tissue distribution, *Letter to Nature,* (Karlsson, L, Surh, C D, Sprent, J and Peterson, P A) **351,** 485

A proteasome-related gene between the two ABC transporter loci in the class II region of the human MHC, *Letter to Nature,* (Glynne, R, Powis, S H, Beck, S, Kelly, A, Kerr, L-A and Trowsdale, J) **353,** 357

A role for peptide in determining MHC class II structure, *Letter to Nature,* (Sadegh-Nasseri, S and Germain, R N) **353,** 167

A superantigen encoded in the open reading frame of the 3' long terminal repeat of mouse mammary tumour virus, *Article,* (Choi, Y, Kappler, J W and Marrack, P) **350,** 203

Allele-specific motifs revealed by sequencing of self-peptides eluted from MHC molecules, *Article,* (Falk, K, Rötzschke, O, Stevanovic, S, Jung, G and Rammensee, H-G) **351,** 290

An explanation for the protective effect of the MHC class II I-E molecule in murine diabetes: Correction, *Letter to Nature,* (Reich, E-P, Sherwin, R S, Kanagawa, O and Janeway, C A) **352,** 88

Antigen presentation: Later for the rendezvous, *News and views,* (Hackett, C J) **349,** 655

Antigen presentation: Half of a peptide pump, *News and views,* (Parham, P) **351,** 271

Antigen presentation: The second class story, *News and views,* (Germain, R N) **353,** 605

Antigen processing: Proteasomes in the pathway, *News and views,* (Robertson, M) **353,** 300

Dysmyelination in transgenic mice resulting from expression of class I histocompatibility molecules in oligodendrocytes, *Letter to Nature,* (Turnley, A M, Morahan, G, Okano, H, Bernard, O, Mikoshiba, K, Allison, J, Bartlett, P F and Miller, J F A P) **353,** 566

Enhancement of T-cell activation by the CD43 molecule whose expression is defective in Wiskott-Aldrich syndrome, *Letter to Nature,* (Park, J K, Rosenstein, Y J, Remold-O'Donnell, E, Bierer, B E, Rosen, F S and Burakoff, S J) **350,** 706

Enhancement of T-cell responsiveness by the lymphocyte-specific tyrosine protein kinase p56^{lck}, *Letter to Nature,* (Abraham, N, Miceli, M C, Parnes, J R and Veillette, A) **350,** 62

Excess β_2 microglobulin promoting functional peptide association with purified soluble class I MHC molecules, *Letter to Nature,* (Kozlowski, S, Takeshita, T, Boehncke, W-H, Takahashi, H, Boyd, L F, Germain, R N, Berzofsky, J A and Margulies, D H) **349,** 74

Formation of a nine-subunit complex by HLA class II glycoproteins and the invariant chain, *Letter to Nature,* (Roche, P A, Marks, M S and Cresswell, P) **354,** 392

Homology of proteasome subunits to a major histocompatibility complex-linked LMP gene, *Letter to Nature,* (Martinez, C K and Monaco, J J) **353,** 664

Identification of self peptides bound to purified HLA-B27, *Letter to Nature,* (Jardetzky, T S, Lane, W S, Robinson, R A, Madden, D R and Wiley, D C) **353,** 326

Identification and mapping to chromosome 1 of a susceptibility locus for periinsulitis in non-obese diabetic mice, *Letter to Nature,* (Garchon, H-J, Bedossa, P, Eloy, L and Bach, J-F) **353,** 260

Immunomodulation of experimental allergic encephalomyelitis by antibodies to the antigen-Ia complex, *Letter to Nature,* (Aharoni, R, Teitelbaum, D, Arnon, R and Puri, J) **351,** 147

MHC class I surface expression in embryo-derived cell lines inducible with peptide or interferon, *Letter to Nature,* (Bikoff, E K, Jaffe, L, Ribaudo, R K, Ottea, G R, Germain, R N and Robertson, E J) **354,** 235

MHC class II structure, occupancy and surface expression determined by post-endoplasmic reticulum antigen binding, *Article,* (Germain, R N and Hendrix, L R) **353,** 134

New class II-like genes in the murine MHC, *Letter to Nature,* (Cho, S, Attaya, M and Monaco, J J) **353,** 573

Normal development and function of CD8$^+$ cells but markedly decreased helper cell activity in mice lacking CD4, *Letter to Nature,* (Rahemtulla, A, Fung-Leung, W P, Schilham, M W, Kündig, T M, Sambhara, S R, Narendran, A, Arabian, A, Wakeham, A, Paige, C J, Zinkernagel, R M, Miller, R G and Mak, T W) **353,** 180

On the complexity of self, *Letter to Nature,* (Rudensky, A Y, Rath, S, Preston-Hurlburt, P, Murphy, D B and Janeway Jr, C A) **353,** 660

Peptide binding to empty HLA-B27 molecules of viable human cells, *Letter to Nature,* (Benjamin, R J, Madrigal, J A and Parham, P) **351,** 74

Peptide binding to class I MHC on living cells and quantitation of complexes required for CTL lysis, *Letter to Nature,* (Christinck, E R, Luscher, M A, Barber, B H and Williams, D B) **352,** 67

Peptide selection by MHC class I molecules, *Letter to Nature,* (Schumacher, T N M, De Bruijn, M L H, Vernie, L N, Kast, W M, Melief, C J M, Neefjes, J J and Ploegh, H L) **350,** 703

Peptide-induced conformational change of the class I heavy chain, *Letter to Nature,* (Elliott, T, Cerundolo, V, Elvin, J and Townsend, A) **351,** 402

Peripheral deletion of self-reactive B cells, *Letter to Nature,* (Russell, D M, Dembic, Z, Morahan, G, Miller, J F A P, Bürki, K and Nemazee, D) **354,** 308

Precise prediction of a dominant class I MHC-restricted epitope of *Listeria monocytogenes*, *Letter to Nature,* (Pamer, E G, Harty, J T and Bevan, M J) **353,** 852

Reconstitution by MHC-restricted peptides of HLA-A2 heavy chain with β_2-microglobulin, *Letter to Nature,* (Silver, M L, Parker, K C and Wiley, D C) **350,** 619

Restoration of antigen presentation to the mutant cell line RMA-S by an MHC-linked transporter, *Letter to Nature,* (Powis, S J, Townsend, A R M, Deverson, E V, Bastin, J,

Butcher, G W and Howard, J C) **354,** 528
Restored expression of major histocompatibility class I molecules by gene transfer of a putative peptide transporter, *Letter to Nature,* (Spies, T and DeMars, R) **351,** 323
Second proteasome-related gene in the human MHC class II region, *Letter to Nature,* (Kelly, A, Powis, S H, Glynne, R, Radley, E, Beck, S and Trowsdale, J) **353,** 667
Segregation of MHC class II molecules from MHC class I molecules in the Golgi complex for transport to lysosomal compartments, *Article,* (Peters, P J, Neefjes, J J, Oorschot, V, Ploegh, H L and Geuze, H J) **349,** 669
Sequence analysis of peptides bound to MHC class II molecules, *Article,* (Rudensky, A Y, Preston, Hurlburt, P, Hong, S-C, Barlow, A and Janeway Jr, C A) **353,** 622
Specific binding of antigenic peptides to cell-associated MHC class I molecules, *Letter to Nature,* (Luescher, I F, Romero, P, Cerottini, J-C and Maryanski, J L) **351,** 72
Stretching a point, *Scientific correspondence,* (Feinstein, S I) **350,** 563
Structural and serological similarity of MHC-linked LMP and proteasome (multicatalytic protinase) complexes, *Letter to Nature,* (Brown, M G, Driscoll, J and Monaco, J J) **353,** 355
Subunit of the '20S' proteasome (muticatalytic proteinase) encoded by the major histocompatibility complex, *Letter to Nature,* (Ortiz-Navarrete, V, Seelig, A, Gernold, M, Frentzel, S, Kloetzel, P M and Hämmerling, G J) **353,** 662
The structure of HLA-B27 reveals nonamer self-peptides bound in an extended conformation, *Article,* (Madden, D R, Gorga, J C, Strominger, J L and Wiley, D C) **353,** 321
Type 1 diabetes in mice is linked to the interleukin-1 receptro and *Lsh/Ity/Bcg* genes on chromosome 1, *Letter to Nature,* (Cornall, R J, Prins, J-B, Todd, J A, Pressey, A, DeLarato, N H, Wicker, L S and Peterson, L B) **353,** 262
What's the score?, *Scientific correspondence,* (Brodsky, F M) **352,** 288

Mice, transgenic. Formation of β-amyloid protein deposits in brains of transgenic mice, *Letter to Nature,* (Quon, D, Wang, Y, Catalano, R, Scardina, J M, Murakami, K and Cordell, B) **352,** 239

Micelles. Surface physics: A vanishing interface, *News and views,* (Ball, P) **353,** 213
Towards synthetic self-replication, *News and views,* (Maddox, J) **354,** 351

Microbial communities. Largest known microbialites discovered in Lake Van, Turkey, *Letter to Nature,* (Kempe, S, Kazmierczak, J, Landmann, G, Konuk, T, Reimer, A and Lipp, A) **349,** 605

Microbial mats. Largest known microbialites discovered in Lake Van, Turkey, *Letter to Nature,* (Kempe, S, Kazmierczak, J, Landmann, G, Konuk, T, Reimer, A and Lipp, A) **349,** 605

Microbialites. Largest known microbialites discovered in Lake Van, Turkey, *Letter to Nature,* (Kempe, S, Kazmierczak, J, Landmann, G, Konuk, T, Reimer, A and Lipp, A) **349,** 605

Microbiology, heavy metal metabolism. Microbial reduction of uranium, *Letter to Nature,* (Lovley, D R, Phillips, E J P, Gorby, Y A and Landa, E R) **350,** 413

Microbiology. Do bacteria have sex?, *Scientific correspondence,* (Martinez, J L) **352,** 288
Identification *in situ* and phylogeny of uncultured bacterial endosymbionts, *Letter to Nature,* (Amann, R, Springer, N, Ludwig, W, Görtz, H-D and Schleifer, K-H) **351,** 161
Microbiological characterizations by FT-IR spectroscopy, *Product Review,* (Naumann, D, Helm, D and Labischinski, H) **351,** 81
Origin of bacterial adaptation, *Correspondence,* (Baumberg, S) **352,** 274

Microelectronics, SQUIDs. Superconductivity: SQUIDs with applications, *News and views,* (Clarke, J) **352,** 110

Microelectronics. A silicon neuron, *Letter to Nature,* (Mahowald, M and Douglas, R) **354,** 515
Cool radiators, *News and views,* **352,** 760
High-temperature superconductors: Light at the end of the tunnel, *News and views,* (Beasley, M R) **350,** 21
Neural sciences: Electronic arts imitate life, *News and views,* (Andreou, A G) **354,** 501
Semiconductor devices: Pioneering papers, (Sze, S M) *book review by* Holmes-Siedle, A. **354,** 443
Semiconductors: Dawn of the diamond chip, *News and views,* (Brown, L M) **350,** 561
Small wonder, *News and views,* **353,** 796
Transparent currents, *News and views,* **349,** 571

Microgravity. Japan: Microgravity on tap, *News,* (Swinbanks, D) **352,** 272

Microlensing. Active galactic nuclei: Light hidden behind a bushel, *News and views,* (Hewett, P) **349,** 651
Are BL Lac objects too large to be gravitationally lensed?, *Letter to Nature,* (Gear, W K) **349,** 676
Gravitational micro-lensing of the relativistic jets of quasars, *Letter to Nature,* (Krishna, G and Subramanian, K) **349,** 766

Micromasers. Quantum optical tests of complementarity, *Review article,* (Scully, M A, Englert, B-G and Walther, H) **351,** 111

Micrometeorites. A collection of diverse micrometeorites recovered from 100 tonnes of Antarctic blue ice, *Letter to Nature,* (Maurette, M, Olinger, C, Michel-Levy, M C, Kurat, G, Pourchet, M, Brandstätter, F and Bourot-Denise, M) **351,** 44

Microsatellites, engineering. Satellite engineering: Surrey spreads its wings, *News,* (Aldhous, P) **349,** 557

Microscopy, electron. Biophysical electron microscopy, *book review by* Stewart, M. (Hawkes, P W and Valdre, U) **351,** 108

Microscopy, optical. Confocal microscopy, *book review by* Dunn, G. (Wilson, T) **350,** 118
Near-field optical imaging with a non-evanescently excited high-brightness light source of sub-wavelength dimensions, *Letter to Nature,* (Lewis, A and Lieberman, K) **354,** 214

Microscopy, STEM. Structural origin of reduced critical currents at $YBa_2Cu_3O_{7-\delta}$ grain boundaries, *Letter to Nature,* (Chisholm, M F and Pennycook, S J) **351,** 47

Microscopy, STM. Einstein brought down to size, *News,* (Swinbanks, D) **349,** 556
Observation of surface reconstruction on silicon above 800°C using the STM, *Letter to Nature,* (Kitamura, S, Sato, T and Iwatsuki, M) **351,** 215

Microscopy, X-ray. No X-ray lens, *Scientific correspondence,* (Michette, A G) **353,** 510

Microscopy. Journal of computer-assisted microscopy, *journal review by* Dunn, G A., (Russ, J C *editor*) **353,** 471

Microtubules. A dynamin-like protein encoded by the yeast sporulation gene *SPO15,* *Letter to Nature,* (Yeh, E, Driscoll, R, Coltrera, M, Olins, A and Bloom, K) **349,** 713
Cell biology: Microtubules get the chop, *News and views,* (Hollenbeck, P J and Dentler, W L) **350,** 378
Coalignment of vimentin intermediate filaments with microtubules depends on kinesin, *Letter to Nature,* (Gyoeva, F K and Gelfand, V I) **353,** 445
Microtubule translocation in the cytokinetic apparatus of cultured tobacco cells, *Letter to Nature,* (Asada, T, Sonobe, S and Shibaoka, H) **350,** 238
Two different microtubule-based motor activities with opposite polarities in kinetochores, *Article,* (Hyman, A A and Mitchison, T J) **351,** 206

Mid-ocean ridges. Evidence for volcanic eruption on the southern Juan de Fuca ridge between 1981 and 1987, *Letter to Nature,* (Chadwick, W W, Embley, R W and Fox, C G) **350,** 416
Fluxes and excess temperatures of mantle plumes inferred from their interaction with migrating mid-ocean ridges, *Article,* (Schilling, J-G) **352,** 397
Geochemical evidence for formation of the Bay of Islands ophiolite above a subduction zone, *Letter to Nature,* (Elthon, D) **354,** 140
Inside out, *News and views,* **349,** 657
Inverse square-root dependence of mid-ocean-ridge flank roughness on spreading rate, *Letter to Nature,* (Malinverno, A) **352,** 58
Ophiolites: Ocean floor comes ashore, *News and views,* (Pearce, J) **354,** 110

Mid-ocean-ridge basalts. Dynamic melting of the Iceland plume, *Article,* (Elliott, T R, Hawkesworth, C J and Grönvold, K) **351,** 201
Terrestrial primordial neon, *Scientific correspondence,* (Sarda, Ph and Staudacher, Th) **352,** 388
Terrestrial primordial neon: Reply, *Scientific correspondence,* (Honda, M, McDougall, I, Patterson, D B, Doulgeris, A and Clague, D A) **352,** 388

Middle East, health. Cholera marches on, *Opinion,* **350,** 640

Middle East, peace conference. Government without land, *Opinion,* **354,** 93

Middle East, science. Bibliometric lines in the sand, *Commentary,* (de Bruin, R E, Braam, R R and Moed, H F) **349,** 559

Middle East, war. Gulf oil spill: Big test for bioremediation, *News,* (Aldhous, P) **349,** 447
Gulf war: Oil-well climate catastrophe?, *News,* (Aldhous, P) **349,** 96
Is there an end to holy wars?, *Opinion,* **349,** 267
Is this the eco-war?, *Opinion,* **349,** 356
Kuwait after the invasion, *Correspondence,* (Burns, G) **349,** 450
Lessons of hundred-hour war, *Opinion,* **350,** 1
The technology of Wednesday's war, *Opinion,* **349,** 91
When will the Gulf War be over?, *Opinion,* **350,** 363

Mifegyne. RU-486 in UK, *News,* (Anderson, C) **352,** 99

Migration, bird. Population biology: Flying in the face of reason, *News and views,* (Sutherland, W J) **353,** 211

Military strategy. Rhythms of war, *Scientific correspondence,* (Bennett, R) **353,** 310

Milk, dried. Milk and coffee, *Opinion,* **352,** 266

Milk, powdered. Powdered milk, *Correspondence,* (Vickers, J) **353,** 103
Powdered milk, *Correspondence,* (Goldfarb, M F) **353,** 103

Milky Way galaxy, evolution. Galactic astronomy: A census of the Milky Way, *News and views,* (Gilmore, G) **353,** 604

Milky Way galaxy, free electrons. The galactic distribution of free electrons, *Article,* (Cordes, J M, Weisberg, J M, Frail, D A, Spangler, S R and Ryan, M) **354,** 121

Milky Way galaxy. Going to great wavelengths in the Milky Way, *News and views,* (Pease, R) **354,** 110

Milky Way. Milky Way galaxy: annihilation near the centre, *News and views,* (Ramaty, R and Lingenfelter, R E) **353,** 215
Milky Way: Not with a whimper, *News and views,* (Blitz, L) **350,** 110

Millisecond pulsars. A nearby 37.9-ms radio pulsar in a relativistic binary system, *Letter to Nature,* (Wolszczan, A) **350,** 688
Discovery of ten millisecond pulsars in the globular cluster 47 Tucanae, *Letter to Nature,* (Manchester, R N, Lyne, A G, Robinson, C, D'Amico, N, Bailes, M and Lim, J) **352,** 219
Evacuation of gas from globuiar clusters by winds from millisecond pulsars, *Letter to Nature,* (Spergel, D N) **352,** 221
Gamma-ray emission from millisecond pulsars in globular clusters, *Letter to Nature,* (Chen, K) **352,** 695
Globular clusters: New tools of the trade, *News and views,* (Bailyn, C) **352,** 195
Old pulsars in the low-density globular clusters M13 and M53, *Letter to Nature,* (Kulkarni, S R, Anderson, S B, Prince, T A and Wolszczan, A) **349,** 47

Mimicry. Evolutionary biology: A case of self-deception, *News and views,* (Vane-Wright, R I) **350,** 460
Mimicry and viceroy butterflies, *Scientific correspondence,* (Malcolm, S) **353,** 24
Mimicry and viceroy butterflies, *Scientific correspondence,* (Ritland, D B and Brower, L P) **353,** 24
Mimicry and viceroy butterflies, *Scientific correspondence,* (MacCallum, W, Thacker, B and Johnson, G) **353,** 24
The viceroy butterfly is not a batesian mimic, *Letter to Nature,* (Ritland, D B and Brower, L P) **350,** 497

Mineral dendrites. Structure and growth mechanism of mineral dendrites, *Letter to Nature,* (Chopard, B, Herrmann, H J and Vicsek, T) **353,** 409

Mineralization, nanoscale. Synthesis of inorganic nanophase materials in supramolecular protein cages, *Letter to Nature,* (Meldrum, F C, Wade, V J, Nimmo, D L, Heywood, B R and Mann, S) **349,** 684

Mineralization, ores. Hydrothermal activity and metallogenesis in the Lau back-arc basin, *Letter to Nature,* (Fouquet, Y, Von Stackelberg, U, Charlou, J L, Donval, J P, Erzinger, J, Foucher, J P, Herzig, P, Mühe, R, Soakai, S, Wiedicke, M and Whitechurch, H) **349,** 778

Mineralization, uranium. Microbial reduction of uranium, *Letter to Nature,* (Lovley, D R, Phillips, E J P, Gorby, Y A and Landa, E R) **350,** 413

Mineralization. Molecular design based on recognition at inorganic surfaces, *Letter to Nature,* (Davey, R J, Black, S N, Bromley, L A, Cottier, D, Dobbs, B and Rout, J E) **353,** 549

Mineralogy, diamonds. High internal pressures in diamond fluid inclusions determined by infrared absorption, *Letter to Nature,* (Navon, O) **353,** 746
Isotope evidence for the involvement of recycled sediments in diamond formation, *Letter to Nature,* (Eldridge, C S, Compston, W, Williams, I S, Harris, J W and Bristow, J W) **353,** 649

Mineralogy, high-pressure. A new high-pressure form of $MgAl_2O_4$, *Letter to Nature,* (Irifune, T, Fujino, K and Ohtani, E) **349,** 409
Phases and electrical conductivity of a hydrous silicate assemblage at lower-mantle conditions, *Letter to Nature,* (Li, X and Jeanloz, R) **350,** 332

Mineralogy, lower mantle. A new high-pressure form of $MgAl_2O_4$, *Letter to Nature,* (Irifune, T, Fujino, K and Ohtani, E) **349,** 409
High-temperature electrical conductivity of the lower-mantle phase (Mg, Fe)O, *Letter to Nature,* (Wood, B J and Nell, J) **351,** 309

Mineralogy, mantle. A high-pressure form of Al_2SiO_5 as a possible host of aluminium in the mantle, *Letter to Nature,* (Ahmed-Zaïd, I and Madon, M) **353,** 426
Aseismicity in the lower mantle by superplasticity of the descending slab, *Letter to Nature,* (Ito, E and Sato, H) **351,** 140
Complementary Ti and Zr anomalies in orthopyroxine and clinopyroxine from mantle periodotites. *Letter to Nature,* (Rampone, E, Bottazzi, P and Ottolini, L) **354,** 518
Spinel elasticity and seismic structure of the transition zone of the mantle, *Letter to Nature,* (Rigden, S M, Gwanmesia, G D, Fitz Gerald, J D, Jackson, I and Liebermann, R C) **354,** 143

Mineralogy, meteorites. Phosphates in pallasite meteorites as probes of mantle processes in small planetary bodies, *Letter to Nature,* (Davis, A M and Olsen, E J) **353,** 637

Mineralogy. Crystals: Surfaces make a difference, *News and views,* (Reeder, R J) **353,** 797
Disequilibrium carbon and oxygen isotope variations in natural calcite, *Letter to Nature,* (Dickson, J A D) **353,** 842
In a nutshell, *News and views,* **353,** 21
In step, *News and views,* **350,** 558
Mantle geochemistry: Diamonds deliver the dirt, *News and views,* (Gurney, J J) **353,** 601
Mineral physics: Deep mantle melting, *News and views,* (Hemley, R J and Kubicki, J D) **349,** 283
Structural transformation of quartz at high pressures, *Letter to Nature,* (Binggeli, N and Chelikowsky, J R) **353,** 344
The role of fluorine in carbonatite magma evolution, *Letter to Nature,* (Jago, B C and Gittins, J) **349,** 56

Minimal surfaces. Diamond from graphite, *Scientific correspondence,* (Mackay, A L and Terrones, H) **352,** 762

Mining, Antarctic. Antarctic environment: Mining ban in the air, *News,* (Aldhous, P) **351,** 88

Minisatellite variable repeat mapping. Minisatellite repeat coding as a digital approach to DNA typing, *Article,* (Jeffreys, A J, MacLeod, A, Tamaki, K, Neil, D L and Monckton, D G) **354,** 204

Minisatellite variant repeat mapping. DNA fingerprinting: New variations on the theme, *News and views,* (Farr, C J and Goodfellow, P N) **354,** 184

Miocene, hominoid. Extreme sexual dimorphism in a Miocene hominoid, *Letter to Nature*, (Kelley, J and Qinghua, X) **352**, 151
Mir space station. Space: First Briton hits orbit, *News*, (Aldhous, P) **351**, 262
Mires. Ecology: Ups and downs in peatland, *News and views*, (Moore, P D) **353**, 299
Mirror inversion. The semantics of plane-mirror inversion, *News and views*, (Maddox, J) **353**, 791
Missile guidance. Inventing accuracy: A historical sociology of nuclear missile guidance, *book review by* Jones, R V. (Mackenzie, D) **350**, 323
Mites, venom. Insect paralysis by baculovirus-mediated expression of a mite neurotoxin gene, *Letter to Nature*, (Tomalski, M D and Miller, L K) **352**, 82
Mitochondria, DNA. Paternal inheritance of mitochondrial DNA in mice, *Letter to Nature*, (Gyllensten, U, Wharton, D, Josefsson, A and Wilson, A C) **352**, 255
Mitochondria, gene expression. RNA editing: Splicing: the new edition, *News and views*, (Bass, B L) **352**, 283
Mitochondria, K⁺ channel. ATP-sensitive K⁺ channel in the mitochondrial inner membrane, *Letter to Nature*, (Inoue, I, Nagase, H, Kishi, K and Higuti, T) **352**, 244
Mitochondria. Eukaryote origins: Seeds of a universal tree, *News and views*, (Penny, D and O'Kelly, C J) **350**, 106
Plastid origins, *Scientific correspondence*, (Douglas, S E and Gray, M W) **352**, 290
Mitochondrial DNA, paternal inheritance. Paternal inheritance of mitochondrial DNA in mice, *Letter to Nature*, (Gyllensten, U, Wharton, D, Josefsson, A and Wilson, A C) **352**, 255
Mitochondrial DNA. Bone hard, *News and views*, **351**, 16
Evolution: Matriarchal liberation, *News and views*, (Avise, J C) **352**, 192
Gene flow between African- and European-derived honey bee populations in Argentina, *Letter to Nature*, (Sheppard, W S, Rinderer, T E, Mazzoli, J A, Stelzer, J A and Shimanuki, H) **349**, 782
Whose larvae?, *Scientific correspondence*, (Olson, R R, Runstadler, J A and Kocher, T D) **351**, 357
Mitochondrial encephalomyopathies. Impairment of mitochondrial transcription termination by a point mutation associated with the MELAS subgroup of mitochondrial encephalomyopathies, *Letter to Nature*, (Hess, J F, Parisi, M A, Bennett, J L and Clayton, D A) **351**, 236
Mitochondrial base prediction, *Scientific correspondence*, (El Meziane, A and Jacobs, H T) **351**, 194
Mitogenesis. *Myc* rescue of a mutant CSF-1 receptor impaired in mitogenic signalling, *Letter to Nature*, (Roussel, M F, Cleveland, J L, Shurtleff, S A and Sherr, C J) **353**, 361
Mitogens. Phosphorylation of c-*jun* mediated by MAP kinases, *Letter to Nature*, (Pulverer, B J, Kyriakis, J M, Avruch, J, Nikolakaki, E and Woodgett, J R) **353**, 670
Mitosis promoting factor. Independent inactivation of MPF and cytostatic factor (Mos) upon fertilization of *Xenopus* eggs, *Letter to Nature*, (Watanabe, N, Hunt, T, Ikawa, Y and Sagata, N) **352**, 247
Mitosis. *Wee1*⁺-like gene in human cells, *Letter to Nature*, (Igarashi, M, Nagata, A, Jinno, S, Suto, K and Okayama, H) **353**, 80
A molecular chaperone from a thermophilic archaebacterium is related to the eukaryotic protein t-complex polypeptide-1, *Letter to Nature*, (Trent, J D, Nimmesgern, E, Wall, J S, Hartl, F-U and Horwich, A L) **354**, 490
Catalysis of guanine nucleotide exchange on Ran by the mitotic regulator RCC1, *Letter to Nature*, (Bischoff, F R and Ponstingl, H) **354**, 80
Cell biology: Never-in-mitosis in mitosis, *News and views*, (Murray, A W) **353**, 701
Cell cycle: Checkpoints and spindles, *News and views*, (Nurse, P) **354**, 356
Chromosome kinetics: Movement on two fronts, *News and views*, (Vallee, R) **351**, 187
Clues to action of cdc25 protein, *Scientific correspondence*, (Moreno, S and Nurse, P) **351**, 194
Dephosphorylation and activation of a $p34^{cdc2}$/cyclin B complex *in vitro* by human CDC25 protein, *Letter to Nature*, (Strausfeld, U, Labbé, J C, Fesquet, D, Cavadore, J C, Picard, A, Sadhu, K, Russell, P and Dorée, M) **351**, 242
Fission yeast $p107^{mik1}$ mitotic inhibitor is a tyrosine/serine kinase, *Letter to Nature*, (Featherstone, C and Russell, P) **349**, 808
Identification of a G1-type cyclin *puc1*⁺ in the fission yeast *Schizosaccharomyces pombe*, *Letter to Nature*, (Forsburg, S L and Nurse, P) **351**, 245
Molecular Sisyphus, *News and views*, **354**, 105
Phosphorylation of two small GTP-binding proteins of the Rab family by $p34^{cdc2}$, *Letter to Nature*, (Bailly, E, McCaffrey, M, Touchot, N, Zahraoui, A, Goud, B and Bornens, M) **350**, 715
Role for cyclin A in the dependence of mitosis on completion of DNA replication, *Letter to Nature*, (Walker, D H and Maller, J L) **354**, 314
Two different microtubule-based motor activities with opposite polarities in kinetochores, *Article*, (Hyman, A A and Mitchison, T J) **351**, 206
Mole rats, communication. Headbangers, *News and views*, **349**, 657
Molecular beams. Chemical physics: Aiming the molecular arrow, *News and views*, (Stolte, S) **353**, 391
Spatial orientation of molecules in strong electric fields and evidence for pendular states, *Letter to Nature*, (Friedrich, B and Herschbach, D R) **353**, 412
Molecular biology, Europe. Funding of molecular biology, *Commentary*, (Müller-Hill, B) **351**, 11
Molecular biology, textbooks. Genes and genomes, *book review by* Sambrook, J F. (Singer, M and Berg, P) **349**, 752
Molecular biology. DNA science: A first course in recombinant DNA technology, *book review by* Struhl, K. (Micklos, D and Freyer, G) **351**, 360
Hunting the gene, *News and views*, **352**, 380
Interaction of *bride of sevenless* membrane-bound ligand and the *Sevenless* tyrosine-kinase receptor, *Article*, (Krämer, H, Cagan, R L and Zipursky, S L) **352**, 207
Linkage of Marfan syndrome and a phenotypically related disorder to two different fibrillin genes, *Letter to Nature*, (Lee, B, Godfrey, M, Vitale, E, Hori, H, Mattei, M-G, Sarfarazi, M, Tsipouras, P, Ramirez, F and Hollister, D W) **352**, 330
Marfan syndrome caused by a recurrent *de novo* membrane-bound ligand and the *sevenless* missense mutation in the fibrillin gene, *Letter to Nature*, (Dietz, H C, Cutting, G R, Pyeritz, R E, Maslen, C L, Sakai, L Y, Corson, G M, Puffenberger, E G, Hamosh, A, Nanthakumar, E J, Curristin, S M, Stetten, G, Meyers, D A and Francomano, C A) **352**, 337
Partial sequence of a candidate gene for the Marfan syndrome, *Letter to Nature*, (Maslen, C L, Corson, G M, Maddox, B K, Glanville, R W and Sakai, L Y) **352**, 334
RNA editing: Splicing: the new edition, *News and views*, (Bass, B L) **352**, 283
Similarities in RNA helicases, *Scientific correspondence*, (Koonin, E V) **352**, 290
Spontaneous mutation rate, *Scientific correspondence*, (O'Sullivan, J F, Schmidt, G H and Paul, D) **352**, 200
Spontaneous mutation rate: Reply, *Scientific correspondence*, (Winton, D J, Blount, M A and Ponder, B) **352**, 201
Molecular chaperones. A molecular chaperone from a thermophilic archaebacterium is related to the eukaryotic protein t-complex polypeptide-1, *Letter to Nature*, (Trent, J D, Nimmesgern, E, Wall, J S, Hartl, F-U and Horwich, A L) **354**, 490
Molecular chaperones: Unfolding protein folding, *News and views*, (Creighton, T E) **352**, 17
Molecular clouds. Cool for clouds, *News and views*, **350**, 21
Evidence for a rotating helical filament in L1641, part of the Orion cloud complex, *Letter to Nature*, (Uchida, Y, Fukui, Y, Minoshima, Y, Mizuno, A, Iwata, T and Takaba, H) **349**, 140
Formation of giant molecular clouds and helical magnetic fields by the Parker instability, *Letter to Nature*, (Shibata, K and Matsumoto, R) **353**, 633
Images of atomic carbon in the interstellar medium, *Letter to Nature*, (White, G J and Padman, R) **354**, 511
Is the Galactic Centre gamma-ray source 1E1740.7-2942 accreting from a molecular cloud?, *Letter to Nature*, (Bally, J and Leventhal, M) **353**, 234
Ship in the night, *News and views*, **350**, 195
Unnatural gas, *News and views*, **352**, 476
Molecular determinism. Molecular determinism, *News and views*, **350**, 273
Molecular dynamics. Effect of defects on molecular mobility in liquid water, *Letter to Nature*, (Sciortino, F, Geiger, A and Stanley, H E) **354**, 218
Water goes with the flow, *News and views*, (Ball, P) **354**, 188
Molecular electronics. Generation of Maxwell displacement current across an azobenzene monolayer by photoisomerization, *Letter to Nature*, (Iwamoto, M, Majima, Y, Naruse, H, Noguchi, T and Fuwa, H) **353**, 645
Highly oriented thin films of poly (tetrafluoroethylene) as a substrate for oriented growth of materials, *Letter to Nature*, (Wittmann, J C and Smith, P) **352**, 414
Molecular electronics: Totally organic transistors, *News and views*, (Bloor, D) **349**, 738
Molecular electronics: Bringing molecules to order, *News and views*, (Friend, R) **352**, 377
Molecular films: Laying down organic metals, *News and views*, (Bryce, M R) **352**, 760
Molecular evolution. African fishes, *Scientific correspondence*, (de Caprona, M-D C and Fritzsch, B) **350**, 467
African fishes: Reply, *Scientific correspondence*, (Meyer, A, Kocher, T D and Wilson, A C) **350**, 467
Conservation of polymorphic simple sequence loci in cetacean species, *Letter to Nature*, (Schlötterer, C, Amos, B and Tautz, D) **354**, 63
Evolution: Matriarchal liberation, *News and views*, (Avise, J C) **352**, 192
Molecular evolution: The resistance movement, *News and views*, (Brookfield, J F Y) **350**, 107
Neutral mutation hypothesis test, *Scientific correspondence*, (Graur, D and Li, W-H) **354**, 114
Neutral mutation hypothesis test, *Scientific correspondence*, (Whittam, T S and Nei, M) **354**, 115
Neutral mutation hypothesis test: Reply, *Scientific correspondence*, (McDonald, J H and Kreitman, M) **354**, 116
Obituary: Allan Charles Wilson (1934-1991), *News and views*, (Felsenstein, J) **353**, 19
Out of sequence, *News and views*, **350**, 21
Phylogeny and classification of birds: A study in molecular evolution, *book review by* Diamond, J M. (Sibley, C G and Ahlquist, J E) **350**, 537
Splice after splice, *News and views*, **349**, 739
Worldwide migration of amplified insecticide resistance genes in mosquitoes, *Letter to Nature*, (Raymond, M, Callaghan, A, Fort, P and Pasteur, N) **350**, 151
Molecular orientation. Chemical physics: Aiming the molecular arrow, *News and views*, (Stolte, S) **353**, 391
Spatial orientation of molecules in strong electric fields and evidence for pendular states, *Letter to Nature*, (Friedrich, B and Herschbach, D R) **353**, 412
Molecular phylogenetics. Cryptomonad algae are evolutionary chimaeras of two phylogenetically distinct unicellular eukaryotes, *Letter to Nature*, (Douglas, S E, Murphy, C A, Spencer, D F and Gray, M W) **350**, 148
Eukaryote origins: Seeds of a universal tree, *News and views*, (Penny, D and O'Kelly, C J) **350**, 106
Evolution: Two-layered awakening, *News and views*, (Barnes, R S K) **350**, 561
Molecular recognition. Biopolymers: Light on molecular recognition, *News and views*, (Kaiser, R, Hunkapiller, T and Hood, L) **350**, 656
Macrocyclic chemistry: A new challenge to valency, *News and views*, (Constable, E C) **353**, 600
Making tracks, *News and views*, **353**, 303
Molecular design based on recognition at inorganic surfaces, *Letter to Nature*, (Davey, R J, Black, S N, Bromley, L A, Cottier, D, Dobbs, B and Rout, J E) **353**, 549
Molecular sieves. A synthetic gallophosphate molecular sieve with a 20-tetrahedral-atom pore opening, *Letter to Nature*, (Estermann, M, McCusker, L B, Baerlocher, C, Merrouche, A and Kessler, H) **352**, 320
Low-temperature synthesis of hydrated zinco(beryllio)-phosphate and arsenate molecular sieves, *Letter to Nature*, (Gier, T E and Stucky, G D) **349**, 508
Molecular sieves: Grand openings for cloverite, *News*, (Davis, M E) **352**, 281
Monarchy. Feel the draft, *Correspondence*, (Foncin, J-F) **350**, 10
Monoclonal antibodies. Biotechnology: Go-ahead for Centocor, *News*, (Gershon, D) **353**, 101
Growing human B lymphocytes in the CD40 system, *Product Review*, (Banchereau, J and Rousset, F) **353**, 678
Off the shelf, *News and views*, **354**, 437
The next cluster of differentiation (CD) workshop, *Product Review*, (Springer, T A) **354**, 415
Monsoon, Gulf war. Gulf conflagration: Predicting climate problems, *News*, (Aldhous, P) **349**, 270
Monsoon, oil fires. Environmental effects from burning oil wells in Kuwait, *Article*, (Browning, K A, Allam, R J, Ballard, S P, Barnes, R T H, Bennetts, D A, Maryon, R H, Mason, P J, McKenna, D, Mitchell, J F B, Senior, C A, Slingo, A and Smith, F B) **351**, 363
Monsoons. A 13,000-year climate record from western Tibet, *Letter to Nature*, (Gasse, F, Arnold, M, Fontes, J C, Fort, M, Gilbert, E, Huc, A, Bingyan, L, Yuanfang, L, Qing, L, Mélières, F, Van Campo, E, Fubao, W and Qingsong, Z) **353**, 742
Climate: Long-term monsoon regulators, *News and views*, (Hagelberg, T and Mix, A C) **353**, 703
Forcing mechanisms of the Indian Ocean monsoon, *Article*, (Clemens, S, Prell, W, Murray, D, Shimmield, G and Weedon, G) **353**, 720
Methane flux to the atmosphere from the Arabian Sea, *Letter to Nature*, (Owens, N J P, Law, C S, Mantoura, R F C, Burkill, P H and Llewellyn, C A) **354**, 293
Montagnier, Luc. Gallo vs Montagnier?, *Opinion*, **351**, 426
Montreal Protocol. Ozone depletion: Montreal Protocol still too lax?, *News*, (Aldhous, P) **353**, 688
Moon, X-ray imaging. A soft X-ray image of the Moon, *Article*, (Schmitt, J H M M, Snowden, S L, Aschenbach, B, Hasinger, G, Pfeffermann, E, Predehl, P and Trümper, J) **349**, 583
Moorea, snails. Species reintroduction: New twist in snail saga, *News*, (Anderson, C) **353**, 489
Morphogenesis. Requirement of yeast fimbrin for actin organization and morphogenesis *in vivo* (Adams, A E M, Botstein, D and Drubin, D G) **354**, 404
Morphogens. Conversion by retinoic acid of anterior cells into ZPA cells in the chick wing bud, *Letter to Nature*, (Wanek, N, Gardiner, D M, Muneoka, K and Bryant, S V) **350**, 81
Developmental biology: We may not have a morphogen, *News and views*, (Brockes, J) **350**, 15
Out on a limb, *Scientific correspondence*, (Newman, S A) **354**, 26
Out on a limb: Reply, *Scientific correspondence*, (Slack, J M W) **354**, 26
Retinoic acid induces polarizing activity but is unlikely to be a morphogen in the chick limb bud, *Letter to Nature*, (Noji, S, Nohno, T, Koyama, E, Muto, K, Ohyama, K, Aoki, Y, Tamura, K, Ohsugi, K, Ide, H, Taniguchi, S and Saito, T) **350**, 83
Mosquitoes, insecticide resistance. Molecular evolution: The resistance movement, *News and views*, (Brookfield, J F Y) **350**, 107
Worldwide migration of amplified insecticide resistance genes in mosquitoes, *Letter to Nature*, (Raymond, M, Callaghan, A, Fort, P and Pasteur, N) **350**, 151
Mossbauer spectroscopy. Mössbauer test for forgery, *Scientific correspondence*, (Rusanov, V, Angelov, V, Jordanov, V and Ormandjiev, S) **349**, 199
Motility, cell. Actin microfilament dynamics in locomoting

cells, *Article*, (Theriot, J A and Mitchison, T J) **352,** 126
Cell locomotion: Actin alone in lamellipodia, *News and views*, (Heath, J and Holifield, B) **352,** 107
Motor neurone disease. Androgen receptor gene mutations in X-linked spinal and bulbar muscular atrophy, *Letter to Nature*, (La Spada, A R, Wilson, E M, Lubahn, D B, Harding, A E and Fischbeck, K H) **352,** 77
Motor proteins. Motor proteins: Biomechanics goes quantum, *News and views*, (Irving, M) **352,** 284
Sub-piconewton force fluctuations of actomyosin *in vitro*, *Article*, (Ishijima, A, Doi, T, Sakurada, K and Yanagida, T) **352,** 301
Motor, superconducting. Superconducting motor, *News*, (Pool, R) **352,** 269
Mount Etna. Eruptive and diffuse emissions of CO_2 from Mount Etna, *Letter to Nature*, (Allard, P, Carbonnelle, J, Dajlevic, D, Le Bronec, J, Morel, P, Robe, M C, Maurenas, J M, Faivre-Pierret, R, Martin, D, Sabroux, J C and Zettwoog, P) **351,** 387
Volcanology: Etna's greenhouse pump, *News and views*, (Gerlach, T) **351,** 352
Mount Pinatubo. Anhydrite-bearing pumices from Mount Pinatubo: further evidence for the existence of sulphur-rich silicic magmas, *Letter to Nature*, (Bernard, A, Demaiffe, D, Mattielli, N and Punongbayan, R S) **354,** 139
Hazard from volcanic ash, *Scientific correspondence*, (Prata, A J, Barton, I J, Johnson, R W, Kamo, K and Kingwell, J) **354,** 25
Mount Pinatubo: Volcanic shade causes cooling, *News and views*, (Luhr, J F) **354,** 104
Volcanology: Volcanoes' volatile behaviour, *News and views*, (Fink, J) **352,** 188
Mount Unzen, eruption. Japan: Help from an unusual source, *News*, (Swinbanks, D) **353,** 202
Mouse development. A cell autonomous function of *Brachyury* in *T/T* embryonic stem cell chimaras, *Letter to Nature*, (Rashbass, P, Cooke, L A, Herrmann, B G and Beddington, R S P) **353,** 348
Introduction of a subtle mutation into the *Hox-2.6* locus in embryonic stem cells, *Letter to Nature*, (Hasty, P, Ramírez-Solis, R, Krumlauf, R and Bradley, A) **350,** 243
Mouse genetics. A candidate spermatogenesis gene on the mouse Y chromosome is homologous to ubiquitin-activating enzyme E1, *Letter to Nature*, (Kay, G F, Ashworth, A, Penny, G D, Dunlop, M, Swift, S, Brockdorff, N and Rastan, S) **354,** 486
Characterization of a murine gene expressed from the inactive X chromosome, *Letter to Nature*, (Borsani, G, Tonlorenzi, R, Simmler, M C, Dandalo, L, Arnaud, D, Capra, V, Grompe, M, Pizzuti, A, Muzny, D, Lawrence, C, Willard, H F, Avner, P and Ballabio, A) **351,** 325
Conservation of position and exclusive expression of mouse *Xist* from the inactive X chromosome, *Letter to Nature*, (Brockdorff, N, Ashworth, A, Kay, G F, Cooper, P, Smith, S, McCabe, V M, Norris, D P, Penny, G D, Patel, D and Rastan, S) **351,** 329
DNA-binding properties of the product of the testis determining gene and a related protein, *Letter to Nature*, (Nasrin, N, Buggs, C, Kong, X F, Carnazza, J, Goebl, M and Alexander-Bridges, M) **354,** 317
Effect of *Steel* factor and leukaemia inhibitory factor on murine primordial germ cells in culture, *Letter to Nature*, (Matsui, Y, Toksoz, D, Nishikawa, S, Nishikawa, S-I, Williams, D, Zsebo, K and Hogan, B L M) **353,** 750
Homology of a candidate spermatogenic gene from the mouse Y chromosome to the ubiquitin-activating enzyme E1, *Letter to Nature*, (Mitchell, M J, Woods, D R, Tucker, P K, Opp, J S and Bishop, C E) **354,** 483
Identification and mapping to chromosome 1 of a susceptibility locus for periinsulitis in non-obese diabetic mice, *Letter to Nature*, (Garchon, H-J, Bedossa, P, Eloy, L and Bach, J-F) **353,** 260
Mouse *Small eye* results from mutations in a paired-like homeobox-containing gene, *Letter to Nature*, (Hill, R E, Favor, J, Hogan, B L M, Ton, C C T, Saunders, G F, Hanson, I M, Prosser, J, Jordan, T, Hastie, N D and van Heyningen, V) **354,** 522
Novel myosin heavy chain encoded by murine *dilute* coat colour locus, *Letter to Nature*, (Mercer, J A, Seperack, P K, Strobel, M C, Copeland, N G and Jenkins, N A) **349,** 709
Parental imprinting of the mouse H19 gene, *Letter to Nature*, (Bartolomei, M S, Zemel, S and Tilghman, S M) **351,** 153
Prenatal selection in XO mice, *Scientific correspondence*, (Burgoyne, P S) **353,** 709
Prenatal selection in XO mice: Reply, *Scientific correspondence*, (Rastan, S) **353,** 709
The mouse insulin-like growth factor type-2 receptor is imprinted and closely linked to the *Tme* locus, *Letter to Nature*, (Barlow, D P, Stöger, R, Herrmann, B G, Saito, K and Schweifer, N) **349,** 84
Type 1 diabetes in mice is linked to the interleukin-1 receptro and *Lsh/Ity/Bcg* genes on chromosome 1, *Letter to Nature*, (Cornall, R J, Prins, J-B, Todd, J A, Pressey, A, DeLarato, N H, Wicker, L S and Peterson, L B) **353,** 262
Mouse, mutation detection. Spontaneous mutation rate, *Scientific correspondence*, (O'Sullivan, J F, Schmidt, G H and Paul, D) **352,** 200
Spontaneous mutation rate: Reply, *Scientific correspondence*, (Winton, D J, Blount, M A and Ponder, B) **352,** 201
Mucus, eels. Slimier slime, *News and views*, **352,** 191
Muller's ratchet. Muller's ratchet and flu virus, *Scientific correspondence*, (Donis, R O) **353,** 308
Multiple sclerosis. Dysmyelination in transgenic mice resulting from expression of class I histocompatibility molecules in oligodendrocytes, *Letter to Nature*, (Turnley, A M, Morahan, G, Okano, H, Bernard, O, Mikoshiba, K, Allison, J, Bartlett, P F and Miller, J F A P) **353,** 566
Limited jheterogeneity of rearranged T-cell receptor V_{α} transcripts in brains of multiple sclerosis patients (Erratum), *Letter to Nature*, (Oksenberg, J R, Stuart, S, Begovich, A B, Bell, R B, Erlich, H A, Steinman, L and Bernard, C C A) **353,** 94
Medical research: World's first MS unit, *News*, (Aldhous, P) **350,** 8
Multiple star systems. Formation of hierarchical multiple protostellar cores, *Letter to Nature*, (Boss, A P) **351,** 298
Star formation: The good companions, *News and views*, (Hernquist, L) **351,** 274
Muon sources. UK-Japan collaboration: Cold fusion leaves a legacy, *News*, (Swinbanks, D) **354,** 98
Muon spin relaxation. Magnetic-field penetration depth in K_3C_{60} measured by muon spin relaxation, *Letter to Nature*, (Uemura, Y J, Keren, A, Le, L P, Luke, G M, Sternlieb, B J, Wu, W D, Brewer, J H, Whetten, R L, Huang, S M, Lin, S, Kaner, R B, Diederich, F, Donovan, S, Grüner, G and Holczer, K) **352,** 605
Muonium in fullerite, *Scientific correspondence*, (Ansaldo, E J, Niedermayer, C and Stronach, C E) **353,** 121
Superconductivity: An unconventional family tree, *News and views*, (d'Ambrumenil, N) **352,** 472
Muonium, fullerenes. Muonium in fullerite, *Scientific correspondence*, (Ansaldo, E J, Niedermayer, C and Stronach, C E) **353,** 121
Muons, neutrino detectors. Observation of muons using the polar ice cap as a Cerenkov detector, *Letter to Nature*, (Lowder, D M, Miller, T, Price, P B, Westphal, A, Barwick, S W, Halzen, F and Morse, R) **353,** 331
Muscarinic receptors. Assignment of G-protein subtypes to specific receptors inducing inhibition of calcium currents, *Article*, (Kleuss, C, Hescheler, J, Ewel, C, Rosenthal, W, Schultz, G and Wittig, B) **353,** 43
Subcellular patterns of calcium release determined by G protein-specific residues of muscarinic receptors, *Letter to Nature*, (Lechleiter, J, Girard, S, Clapham, D and Peralta, E) **350,** 505
Muscle cells, stability of. Decreased osmotic stability of dystrophin-less muscle cells from the mdx mouse, *Letter to Nature*, (Menke, A and Jockusch, H) **349,** 69
Muscle contraction. Muscles and molecules: Uncovering the principles of biological motion, *book review by* Simmons, R, (Pollack, G) **351,** 452
Sliding distance between actin and myosin filaments per ATP molecule hydrolysed in skinned muscle fibres, *Letter to Nature*, (Higuchi, H and Goldman, Y E) **352,** 352
Muscle physiology. Acceleration of activation and inactivation by the β subunit of the skeletal muscle calcium channel, *Letter to Nature*, (Varadi, G, Lory, P, Schultz, D, Varadi, M and Schwartz, A) **352,** 159
Feel the length, *News and views*, **353,** 700
Inactivation of muscle chloride channel by transposon insertion in myotonic mice, *Letter to Nature*, (Steinmeyer, K, Klocke, R, Ortland, C, Gronemeier, M, Jockusch, H, Gründer, S and Jentsch, T J) **354,** 304
Primary structure and functional expression of a developmentally regulated skeletal muscle chloride channel, *Letter to Nature*, (Steinmeyer, K, Ortland, C and Jentsch, T J) **354,** 301
Muscle proteins. Motor proteins: Biomechanics goes quantum, *News and views*, (Irving, M) **352,** 284
Quantized velocities at low myosin densities in an *in vitro* motility assay, *Article*, (Uyeda, T Q P, Warrick, H M, Kron, S J and Spudich, J A) **352,** 307
Sliding distance between actin and myosin filaments per ATP molecule hydrolysed in skinned muscle fibres, *Letter to Nature*, (Higuchi, H and Goldman, Y E) **352,** 352
Sub-piconewton force fluctuations of actomyosin *in vitro*, *Article*, (Ishijima, A, Doi, T, Sakurada, K and Yanagida, T) **352,** 301
Muscles. Thereby hangs a tail, *News and views*, **353,** 118
Muscular dystrophy. Decreased osmotic stability of dystrophin-less muscle cells from the mdx mouse, *Letter to Nature*, (Menke, A and Jockusch, H) **349,** 69
Muscle damage in mdx mice, *Scientific correspondence*, (Jackson, M J, McArdle, A, Edwards, R H T and Jones, D A) **350,** 664
Museum specimens, DNA typing. DNA typing of museum birds, *Scientific correspondence*, (Ellegren, H) **354,** 113
Museums, Australia. Anthropology: Bones go home, *News*, (Aldhous, P) **351,** 178
Museums, Brazil. Libraries: Museum still looking for stolen books, *News*, (Bonalume, R) **352,** 6
Museums, UK. Natural History Museum: Draft of next corporate plan, *News*, (Gee, H) **349,** 555
Natural History Muscum: Innovative ecology exhibits, *News*, (Gee, H) **350,** 99
Music. AAAS meeting: Hope for the musically mediocre?, *News*, (Pool, R) **349,** 643
Mutation, detection. Spontaneous mutation rate, *Scientific correspondence*, (O'Sullivan, J F, Schmidt, G H and Paul, D) **352,** 200
Spontaneous mutation rate: Reply, *Scientific correspondence*, (Winton, D J, Blount, M A and Ponder, B) **352,** 201
myc oncogene. Complementation of transforming domains in E1a/*myc* chimaeras, *Letter to Nature*, (Ralston, R) **353,** 866
Mycorrhiza. Herbivore-driven mycorrhizal mutualism in insect-susceptible pinyon pine, *Letter to Nature*, (Gehring, C A and Whitham, T G) **353,** 556
Myelin. Dysmyelination in transgenic mice resulting from expression of class I histocompatibility molecules in oligodendrocytes, *Letter to Nature*, (Turnley, A M, Morahan, G, Okano, H, Bernard, O, Mikoshiba, K, Allison, J, Bartlett, P F and Miller, J F A P) **353,** 566
Myocardial infarction. Cloning and expression of cDNA for a human thromboxane A, receptor, *Letter to Nature*, (Hirata, M, Hayashi, Y, Ushikubi, F, Yokota, Y, Kageyama, R, Nakanishi, S and Narumiya, S) **349,** 617
Myosin function. Quantized velocities at low myosin densities in an *in vitro* motility assay, *Article*, (Uyeda, T Q P, Warrick, H M, Kron, S J and Spudich, J A) **352,** 307
Myosin. Quantized velocities at low myosin densities in an *dilute* coat colour locus, *Letter to Nature*, (Mercer, J A, Seperack, P K, Strobel, M C, Copeland, N G and Jenkins, N A) **349,** 709
Sliding distance between actin and myosin filaments per ATP molecule hydrolysed in skinned muscle fibres. *Letter to Nature*, (Higuchi, H and Goldman, Y E) **352,** 352
Thereby hangs a tail, *News and views*, **353,** 118
Myotonia. Inactivation of muscle chloride channel by transposon insertion in myotonic mice, *Letter to Nature*, (Steinmeyer, K, Klocke, R, Ortland, C, Gronemeier, M, Jockusch, H, Gründer, S and Jentsch, T J) **354,** 304
Primary structure and functional expression of a developmentally regulated skeletal muscle chloride channel, *Letter to Nature*, (Steinmeyer, K, Ortland, C and Jentsch, T J) **354,** 301
Na-glucose cotransporter. Glucose/galactose malabsorption caused by a defect in the Na^+/glucose cotransporter, *Letter to Nature*, (Turk, E, Zabel, B, Mundlos, S, Dyer, J and Wright, E M) **350,** 354
NADPH oxidase. Activation of the NADPH oxidase involves the small GTP-binding protein $p21^{rac1}$, *Letter to Nature*, (Abo, A, Pick, E, Hall, A, Totty, N, Teahan, C G and Segal, A W) **353,** 668
Naked mole rats, thermoregulation. Physiology: Cold facts and naked truth, *News and views*, (Cossins, A R) **353,** 699
Naked mole-rat. The biology of the naked mole-rat, (Sherman, P W, Jarvis, J and Alexander, A *editors*) *book review by* Bertram, B. **354,** 29
Nanolithography. Einstein brought down to size, *News*, (Swinbanks, D) **349,** 556
Nanotechnology, Japan. Japanese government laboratories: Moving to nanotechnology, *News*, (Swinbanks, D) **351,** 90
Nanotechnology. An atomic switch realized with the scanning tunnelling microscope, *Letter to Nature*, (Eigler, D M, Lutz, C P and Rudge, W E) **352,** 600
Nanotechnology: MITI aims at small research, *News*, (Swinbanks, D) **349,** 449
Nanotechnology: Switch to atom control, *News and views*, (Quate, C F) **352,** 571
Synthesis of inorganic nanophase materials in supramolecular protein cages, *Letter to Nature*, (Meldrum, F C, Wade, V J, Nimmo, D L, Heywood, B R and Mann, S) **349,** 684
NASA, budget. NASA budget: Space station back on track, *News*, (Aldhous, P) **351,** 507
Space policy: It's official: no more shuttles, *News*, (Aldhous, P) **352,** 362
US science budget: Navy made to pay for civil research, *News*, (Aldhous, P) **352,** 363
Weather satellites: NASA rebuked for GOES-NEXT, *News*, (Aldhous, P) **352,** 362
NASA, space station. NASA budget: Science societies target station, *News*, (Aldhous, P) **352,** 179
Space station: Auditors fret, NASA persists, *News*, (Anderson, C) **351,** 87
NASA. Hubble fix on course, *News*, (Aldhous, P) **352,** 94
Mars mission: Back to the future, *News*, (Aldhous, P) **351,** 594
NASA delays big missions in space science shakeup, *News*, (Anderson, C) **353,** 97
Space research: The cost of ambition, *News*, **349,** 8
Space research: Space Station takes a blow, *News*, (Anderson, C) **350,** 182
US astronomers ask for more, *Commentary*, (Lindley, D) **350,** 185
National Health Service, UK. Health research: NHS launches first strategy, *News*, (Aldhous, P) **351,** 7
How affordable is public health?, *Opinion*, **353,** 587
National Institutes of Health, US. AZT patent: NIH quick off the mark, *News*, (Gershon, D) **352,** 268
Breach of trust in Sudan, *Correspondence*, (Malik, M O A, Ali, M H, Homeida, M, Ali, H M, Ghalib, H W, Suleiman, S M, El-Sheikh, E-H A, Zayed, O and Mahmoud, B) **354,** 346
Even misconduct trials should be fair, *Opinion*, **354,** 259
Genetic engineers: Cracks in the RAC, *News*, (Gershon, D) **353,** 591
Genetic information: Evolution of a gadfly, *News*, (Anderson, C) **353,** 686
Hidden buildings, *Opinion*, **354,** 253
Indirect costs: Will less actually be more?, *News*, (Anderson,

C) **354,** 258
Indirect costs: NIH's options, *News,* (Anderson, C) **354,** 258
National Institutes of Health: Healy ready to take on NIH, *News,* (Culliton, B J) **350,** 178
National Institutes of Health: Hadley quits two OSI investigations, *News,* (Aldhous, P) **352,** 268
National Institutes of Health: Score wars, *News,* (Anderson, C) **353,** 781
National Institutes of Health: Culture clash inside the walls, *News,* (Anderson, C) **353,** 288
National Institutes of Health: Dingell to Healy: lighten up, *News,* (Anderson, C) **353,** 288
National Institutes of Health: Popovic rebuts, *News,* (Culliton, B J) **353,** 288
NIH need clear definition of fraud, *News and views,* (Culliton, B J) **352,** 563
NIH push for women's health, *News and views,* (Culliton, B J) **353,** 383
OSI confirms mix-up, *News,* (Anderson, C) **353,** 687
OSI procedures, *Correspondence,* (Hadley, S W) **353,** 204
Research ethics: Zagury report censures NIH, *News,* (Aldhous, P) **352,** 269
Scientific misconduct: Healy back on the beat, *News,* (Anderson, C) **353,** 590
Scientific misconduct: Tables turned, *News,* (Anderson, C) **354,** 173
Trouble for Healy over misconduct office, *News,* (Aldhous, P) **352,** 361
US kills sex survey, *Opinion,* **353,** 371
National Laboratories, US. US national laboratories: Staying with California labs, *News,* (Aldhous, P) **352,** 365
National Physical Laboratory, UK. Metamorphosis of a British laboratory, *News and views,* (Maddox, J) **354,** 15
National publication bias. National publication bias, *Correspondence,* (Henrissat, B) **354,** 427
Playing the game, *Correspondence,* (Holland, E M) **354,** 426
National Science Foundation, US. National Science Foundation: Social science gets its day, *News,* (Anderson, C) **353,** 590
Plagiarism: Misconduct increases at NSF, *News,* (Anderson, C) **354,** 422
National Socialism, Germany. Uncertainty: The life and science of Werner Heisenberg, (Cassidy, D C) *book review by* Walker, M. **354,** 365
Natural gas, leakages. Leaking gas in the greenhouse, *Commentary,* (Wallis, M K) **354,** 428
Natural gas, origin of. Geochemistry: Stability of petroleum, *News and views,* (Hayes, J M) **352,** 108
The stability of hydrocarbons under the time-temperature conditions of petroleum genesis, *Letter to Nature,* (Mango, F D) **352,** 146
Natural History Museum. Natural History Museum: Draft of next corporate plan, *News,* (Gee, H) **349,** 555
Natural History Museum: Innovative ecology exhibits, *News,* (Gee, H) **350,** 99
Natural history. Deep-sea biology: A natural history of organisms at the deep-sea floor, *book review by* Southward, A J. (Gage, J D and Tyler, P A) **352,** 294
In-depth probe, *News,* (Anderson, C) **352,** 271
The naming of the beasts: Natural history in the medieval bestiary, *book review by* Mabey, R. (George, W and Yapp, B) **352,** 766
Natural selection. Beyond natural selection, *book review by* Smith, J M. (Wesson, R) **352,** 206
Complexity levels, *Correspondence,* (Maiorana, V C) **349,** 558
Complexity still running, *Correspondence,* (Sheldon, P R) **350,** 104
Equal mating success among male reproductive strategies in a marine isopod, *Letter to Nature,* (Shuster, S M and Wade, M J) **350,** 608
Experimental detection of rapid evolutionary response in natural lizard populations, *Letter to Nature,* (Malhotra, A and Thorpe, R S) **353,** 347
Parallel within-island microevolution of lizards on neighbouring islands, *Letter to Nature,* (Brown, R P, Thorpe, R S and Báez, M) **352,** 60
Selfish psycho-darwinism, *Correspondence,* (Waller, M J C) **351,** 264
Stress and evolution, *Scientific correspondence,* (Parsons, P A) **351,** 356
Nature reserves. Nature Reserves: Island Theory and Conservation Practice, *book review by* Williamson, M. (Shafer, C L) **352,** 32
Nature, appointments. *Nature* appointment, *News,* **349,** 184
Nature Genetics. *Nature* Genetics **354,** 341
Nature-nurture debate. The origins of exceptional abilities, *book review by* Bryant, P. (Howe, M J A) **350,** 532
Navigation, birds. Ornithology: The question of polarization, *News and views,* (Martin, G R) **350,** 194
Navy, US. US science budget: Navy made to pay for civil research, *News,* (Aldhous, P) **352,** 363
Nazi Germany. Uncertainty: The life and science of Werner Heisenberg, (Cassidy, D C) *book review by* Walker, M. **354,** 365
Nazism. Germany in perspective, *Correspondence,* (Meijler, F L) **356,** ?
The genocidal mentality:Nazi holocaust and nuclear threat, *book review by* Warner, F. (Lifton, R J and Markusen, E) **350,** 200
Near-field optical microscopy. Near-field optical imaging with a non-evanescently excited high-brightness light source of sub-wavelength dimensions, *Letter to Nature,* (Lewis, A and Lieberman, K) **354,** 214
Nebulin. Feel the length, *News and views,* **353,** 700
Nectar production, costs of. What does it cost a plant to produce floral nectar?, *Letter to Nature,* (Pyke, G H) **350,** 58
Negative Poisson's ratio. Microstructure of isotropic materials with negative Poisson's ratio, *Letter to Nature,* (Rothenburg, L, Berlin, A A and Bathurst, R J) **354,** 470
Neher, Erwin. Nobel Prize: Patch clamp brings honour, *News,* (Aldhous, P) **353,** 487
Nematodes. Evolutionary and developmental biology: More fecund but not so fit, *News and views,* (Godfray, H C J and Harvey, P H) **354,** 190
Neurobiology: Nematodes in nervous decline, *News and views,* (Hodgkin, J) **349,** 564
Neolithic archaeology. The great wooden well of Kückhoven, *News and views,* (Bahn, P G) **354,** 269
Neologisms. New words, *Correspondence,* (Estling, R) **352,** 751
Neon, mantle. Geochemistry: Solar gases in the Earth?, *News and views,* (Podosek, F A) **349,** 106
Possible solar noble-gas component in Hawaiian basalts, *Letter to Nature,* (Honda, M, McDougall, I, Patterson, D B, Doulgeris, A and Clague, D A) **349,** 149
Terrestrial primordial neon, *Scientific correspondence,* (Sarda, Ph and Staudacher, Th) **352,** 388
Terrestrial primordial neon: Reply, *Scientific correspondence,* (Honda, M, McDougall, I, Patterson, D B, Doulgeris, A and Clague, D A) **352,** 388
Neotropical plant diversity. Neotropical plant diversity, *Scientific correspondence,* (Henderson, A, Churchill, S P and Luteyn, J L) **351,** 21
Neotropical rain forests. Four neotropical rain forests, *book review by* Whitmore, T C. (Gentry, A H) **350,** 32
Neptune, atmosphere. Solar cycle relationship clouded by Neptune's sustained brightness maximum, *Letter to Nature,* (Lockwood, G W and Thompson, D T) **349,** 593
Neptune, satellites. Planetary astronomy: Icy clues to Triton's origins, *News and views,* (McKinnon, W B) **354,** 431
Neptune. Solar System: A plurality of worlds, *News and views,* (Weidenschilling, S J) **352,** 190
Nerve growth factor. Dissection of the protein kinase cascade by which nerve growth factor activates MAP kinases, *Letter to Nature,* (Gómez, N and Cohen, P) **353,** 170
High-affinity NGF binding requires coexpression of the *trk* proto-oncogene and the low-affinity NGF receptor, *Letter to Nature,* (Hempstead, B L, Martin-Zanca, D, Kaplan, D R and Chao, M V) **350,** 678
Neurobiology: *trking* neurotrophic receptors, *News and views,* (Ragsdale, C and Woodgett, J) **350,** 660
New protein fold revealed by a 2.3-Å resolution crystal structure of nerve growth factor, *Letter to Nature,* (McDonald, N Q, Lapatto, R, Murray-Rust, J, Gunning, J, Wlodawer, A and Blundell, T L) **354,** 411
Requirement for nerve growth factor in the development of myelinated nociceptors *in vivo*, *Letter to Nature,* (Ritter, A M, Lewin, G R, Kremer, N E and Mendell, L M) **350,** 500
Tyrosine phosphorylation and tyrosine kinase activity of the *trk* proto-oncogene product induced by NGF, *Letter to Nature,* (Kaplan, D R, Martin-Zanca, D and Parada, L F) **350,** 158
Nestlé, boycott. Milk and coffee, *Opinion,* **352,** 266
Netherlands, universities. European universities: Graduate training reforms, *News,* (Aldhous, P) **351,** 339
Networks, mechanical. Paradoxical behaviour of mechanical and electrical networks, *Letter to Nature,* (Cohen, J E and Horowitz, P) **352,** 699
Neural activity. Towards the brain-computer's code?, *News and views,* (Maddox, J) **352,** 469
Neural cell adhesion molecule. Targeting of transmembrane and GPI-anchored forms of N-CAM to opposite domains of a polarized epithelial cell, *Letter to Nature,* (Powell, S K, Cunningham, B A, Edelman, G M and Rodriguez-Boulan, E) **353,** 76
Neural networks. Construction of a pattern-generating circuit with neurons of different networks, *Letter to Nature,* (Meyrand, P, Simmers, J and Moulins, M) **351,** 60
Neurobiology: A new act to swallow, *News and views,* (Marder, E) **351,** 18
Use of a neural network to control an adaptive optics system for an astronomical telescope, *Letter to Nature,* (Sandler, D G, Barrett, T K, Palmer, D A, Fugate, R Q and Wild, W J) **351,** 300
Neural sciences. A silicon neuron, *Letter to Nature,* (Mahowald, M and Douglas, R) **354,** 515
Neural sciences: Electronic arts imitate life, *News and views,* (Andreou, A G) **354,** 501
Neural systems. International journal of neural systems, *journal review by* Aleksander, I., (Lautrup, B *editor*) **353,** 477
Neurobiology, developmental. Comments on developmental neurobiology, *journal review by* Hanley, M., (Prochiantz, A *editor*) **353,** 463
Neurobiology. Construction of a pattern-generating circuit with neurons of different networks, *Letter to Nature,* (Meyrand, P, Simmers, J and Moulins, M) **351,** 60
High-affinity NGF binding requires coexpression of the *trk* proto-oncogene and the low-affinity NGF receptor, *Letter to Nature,* (Hempstead, B L, Martin-Zanca, D, Kaplan, D R and Chao, M V) **350,** 678
Induction of formation of presynaptic terminals in neuroblastoma cells by synapsin IIb, *Letter to Nature,* (Han, H-Q, Nichols, R A, Rubin, M R, Bähler, M and Greengard, P) **349,** 697
Ion channels: Making a submicroscopic hole in one, *News and views,* (Stevens, C F) **349,** 657
Is maintenance of LTP presynaptic?, *Scientific correspondence,* (Korn, H, Fassnacht, C and Faber, D S) **350,** 282
Is maintenance of LTP presynaptic? Reply, *Scientific correspondence,* (Malinow, R and Tsien, R W) **350,** 282
Neurobiology: *trking* neurotrophic receptors, *News and views,* (Ragsdale, C and Woodgett, J) **350,** 660
Neurobiology: A system for synapse control, *News and views,* (Kelly, R B) **349,** 650
Neurobiology: A new act to swallow, *News and views,* (Marder, E) **351,** 18
Neurobiology: LTP is a long term problem, *News and views,* (Edwards, F) **350,** 271
Neurobiology: Most of the senses begin to make some sense, *News and views,* (Lancet, D) **353,** 799
Neurobiology: Nematodes in nervous decline, *News and views,* (Hodgkin, J) **349,** 564
Neurobiology: Temporal associations, *News and views,* (Stryker, M P) **354,** 108
Neuroblastoma cells. Induction of formation of presynaptic terminals in neuroblastoma cells by synapsin IIb, *Letter to Nature,* (Han, H-Q, Nichols, R A, Rubin, M R, Bähler, M and Greengard, P) **349,** 697
Neurodegenerative diseases. Anticipating the anti-prion protein?, *Scientific correspondence,* (Goldgaber, D) **351,** 106
Neurodegeneration. Amyloid plaques, neurofibrillary tangles and neuronal loss in brains of transgenic mice overexpressing a C-terminal fragment of human amyloid precursor protein, *Letter to Nature,* (Kawabata, S, Higgins, G A and Gordon, J W) **354,** 476
Neurodevelopment. Cell-surface regulation of β_1-integrin activity on developing retinal neurons, *Caenorhabditis elegans.* (Neugebauer, K M and Reichardt, L F) **350,** 68
I-POU: a POU-domain protein that inhibits neuron-specific gene activation, *Article,* (Treacy, M N, He, X and Rosenfeld, M G) **350,** 577
Novel myosin heavy chain encoded by murine *dilute* coat colour locus, *Letter to Nature,* (Mercer, J A, Seperack, P K, Strobel, M C, Copeland, N G and Jenkins, N A) **349,** 709
Regulation of cellular responsiveness to inductive signals in the developing *C. elegans* nervous system, *Letter to Nature,* (Waring, D A and Kenyon, C) **350,** 712
Requirement for nerve growth factor in the development of myelinated nociceptors *in vivo*, *Letter to Nature,* (Ritter, A M, Lewin, G R, Kremer, N E and Mendell, L M) **350,** 500
The cyclops mutation blocks specification of the floor plate of the zebrafish central nervous system, *Letter to Nature,* (Hatta, K, Kimmel, C B, Ho, R K and Walker, C) **350,** 339
Zinc and GABA in developing brain, *Scientific correspondence,* (Ben-Ari, Y and Cherubini, E) **353,** 220
Neuroendocrinology. Journal of neuroendocrinology, *journal review by* Swanson, L W., (Lightman, S *editor*) **353,** 463
Neuroepidemiology. Lead correction, *Scientific correspondence,* (Bellinger, D) **354,** 26
Neurofibromatosis. A *de novo Alu* insertion results in neurofibromatosis type 1, *Letter to Nature,* (Wallace, M R, Andersen, L B, Saulino, A M, Gregory, P E, Glover, T W and Collins, F S) **353,** 864
Neurological diseases. Change for the worse, *News and views,* **351,** 16
Neurology. Formation of β-amyloid protein deposits in brains of transgenic mice, *Letter to Nature,* (Quon, D, Wang, Y, Catalano, R, Scardina, J M, Murakami, K and Cordell, B) **352,** 239
Homozygous prion protein genotype predisposes to sporadic Creutzfeldt-Jakob disease, *Letter to Nature,* (Palmer, M S, Dryden, A J, Hughes, J T and Collinge, J) **352,** 340
Object awareness, *Scientific correspondence,* (Goodale, M A, Milner, A D, Jakobson, L S and Carey, D P) **352,** 202
Neuromuscular development. Fetal clues to handedness, *Scientific correspondence,* (Dryden, R) **350,** 27
Neuromuscular junction, quantal analysis. Quantal analysis at the neuromuscular junction, *News and views,* (Edwards, F) **350,** 271
Neuron models. A silicon neuron, *Letter to Nature,* (Mahowald, M and Douglas, R) **354,** 515
Neural sciences: Electronic arts imitate life, *News and views,* (Andreou, A G) **354,** 501
Neuronal degeneration. Neurobiology: Nematodes in nervous decline, *News and views,* (Hodgkin, J) **349,** 564
The *mec-4* gene is a member of a family of *Caenorhabditis elegans* genes that can mutate to induce neuronal degeneration, *Article,* (Driscoll, M and Chalfie, M) **349,** 588
Neuronal migration. A gene deleted in Kallmann's syndrome shares homology with neural cell adhesion and axonal pathfinding molecules, *Article,* (Franco, B, Guioli, S, Pragliola, A, Incerti, B, Bardoni, B, Tonlorenzi, R, Carrozzo, R, Maestrini, E, Pieretti, M, Taillon-Miller, P, Brown, C J, Willard, H F, Lawrence, C, Persico, M G, Camerino, G and Ballabio, A) **353,** 529
Neurophysiology. Towards the brain-computer's code?, *News and views,* (Maddox, J) **352,** 469
Neuropsychiatric illness. Dopamine activation of the arachidonic acid cascade as a basis for D_1/D_2receptor synergism, *Letter to Nature,* (Piomelli, D, Pilon, C, Giros, B, Sokoloff, P,

Martres, M-P and Schwartz, J-C) **353,** 164

Neuropsychology, cognitive. A selective deficit for writing vowels in acquired dysgraphia, *Letter to Nature,* (Cubelli, R) **353,** 258

Cognitive neuropsychology: Writing without vowels, *News and views,* (Marshall, J C) **353,** 209

Neuropsychology. Cognitive neuropsychology: A clinical introduction, *book review by* Marshall, J C. (McCarthy, R A and Warrington, E K) **350,** 536

Lexical organization of nouns and verbs in the brain, *Letter to Nature,* (Caramazza, A and Hillis, A E) **349,** 788

Neuropsychological impairments of short-term memory, *book review by* Marshall, J C. (Vallar, G and Shallice, T) **350,** 536

Neuropsychology: Only four possible solutions, *News and views,* (Sutherland, S) **353,** 389

Neuroscience, history of. The enchanted loom: Chapters in the history of neuroscience, *book review by* Greenfield, S A., (Corsi, P *editor*) **353,** 221

Neuroscience, Japan. Japan: Neuroscience leads grants, *News,* (Swinbanks, D) **352,** 366

Neuroscience, US. Call for brain-maps, *News,* (Aldhous, P) **352,** 8

Neuroscience. Action potentials must admit calcium to evoke transmitter release, *Letter to Nature,* (Mulkey, R M and Zucker, R S) **350,** 153

BDNF is a neurotrophic factor for dopaminergic neurons of the substantia nigra, *Letter to Nature,* (Hyman, C, Hofer, M, Barde, Y-A, Juhasz, M and Yan) **350,** 230

Binding of synaptotagmin to the α-latrotoxin receptor implicates both in synaptic vesicle exocytosis, *Letter to Nature,* (Petrenko, A G, Perin, M S, Davletov, B A, Ushkaryov, Y A, Geppert, M and Südhof, T C) **353,** 65

Cerebral cortex, *journal review by* Davies, P., (Goldman-Rakic, P S and Rakic, P *editors*) **353,** 462

Channel control: Reply, *Scientific correspondence,* (Hartzell, H C, Méry, P F, Fischmeister, R and Szabo, G) **354,** 364

Cloning and expression of a functional serotonin transporter from rat brain, *Letter to Nature,* (Blakely, R D, Berson, H E, Fremeau Jr, R T, Caron, M G, Peck, M M, Prince, H K and Bradley, C C) **354,** 66

Cloning of cDNA for the glutamate-binding subunit of an NMDA receptor complex, *Letter to Nature,* (Kumar, K N, Tilakaratne, N, Johnson, P S, Allen, A E and Michaelis, E K) **354,** 70

Conscious vs neural time, *Scientific correspondence,* (Libet, B) **352,** 27

Conscious vs neural time: reply, *Scientific correspondence,* (Glynn, I M) **352,** 27

Correction: Action potentials must admit calcium to evoke transmitter release, *Letter to Nature,* (Mulkey, R M and Zucker, R S) **351,** 419

Dark-rearing delays the loss of NMDA-receptor function in kitten visual cortex, *Letter to Nature,* (Fox, K, Daw, N, Sato, H and Czepita, D) **350,** 342

Dementia, *journal review by* Davies, P., (Chan-Palay, V *editor*) **353,** 462

Dendritic spines as individual neuronal compartments for synaptic CaS02+T responses, *Letter to Nature,* (Müller, W and Connor, J A) **354,** 73

Expression cloning of a cocaine- and antidepressant-sensitive human noradrenaline transporter, *Letter to Nature,* (Pacholczyk, T, Blakely, R D and Amara, S G) **350,** 350

Eye-wash, *Correspondence,* (Fain, G) **354,** 101

GABA$_A$ autoreceptors regulate the induction of LTP, *Letter to Nature,* (Davies, C H, Starkey, S J, Pozza, M F and Collingridge, G L) **349,** 609

Hippocampus, *journal review by* Davies, P., (Amaral, D G and Witter, M P *editors*) **353,** 462

Homeostatic muffling, *Scientific correspondence,* (Thomas, R C, Coles, J A and Deitmer, J W) **350,** 564

In the palaces of memory: How we build the world inside our heads, *book review by* Sutherland, S. (Johnson, G) **351,** 200

Independent regulation of calcium revealed by imaging dendritic spines, *Letter to Nature,* (Guthrie, P B, Segal, M and Kater, S B) **354,** 76

Iso-orientation domains in cat visual cortex are arranged in pinwheel-like patterns, *Letter to Nature,* (Bonhoeffer, T and Grinvald, A) **353,** 429

Lack of regional specificity for connections formed between thalamus and cortex in coculture, *Letter to Nature,* (Molnár, Z and Blakemore, C) **351,** 475

Long-term potentiation in the hippocampus is blocked by tyrosine kinase inhibitors, *Letter to Nature,* (O'Dell, T J, Kandel, E R and Grant, S G N) **353,** 558

Molecular and cellular neurosciences, *journal review by* Barnard, E A., (Cann, M *editor*) **353,** 462

Molecular cloning and characterization of the rat NMDA receptor, *Article,* (Moriyoshi, K, Masu, M, Ishii, T, Shigemoto, R, Mizuno, N and Nakanishi, S) **354,** 31

Molecular neurobiology: NMDA receptors cloned at last, *News and views,* (Mayer, M L) **354,** 16

Mutations in the channel domain alter desensitization of a neuronal nicotinic receptor, *Letter to Nature,* (Revah, F, Bertrand, D, Galzi, J-L, Devillers-Thiéry, A, Mulle, C, Hussy, N, Bertrand, S, Ballivet, M and Changeux, J-P) **353,** 846

Neural organization for the long-term memory of paired associates, *Letter to Nature,* (Sakai, K and Miyashita, Y) **354,** 152

Neuroreport, *journal review by* Hanley, M., (Ottoson, D *editor*) **353,** 463

Neuroscience: Vehicles of inactivation, *News and views,* (Snyder, S H) **354,** 187

Novel form of long-term potentiation produced by a K^+ channel blocker in the hippocampus, *Letter to Nature,* (Aniksztejn, L and Ben-Ari, Y) **349,** 67

Pentameric structure and subunit stoichiometry of a neuronal nicotinic acetylcholine receptor, *Letter to Nature,* (Cooper, E, Couturier, S and Ballivet, M) **350,** 235

Primary structure and functional expression from complementary DNA of a brain calcium channel, *Article,* (Mori, Y, Friedrich, T, Kim, M-S, Mikami, A, Nakai, J, Ruth, P, Bosse, E, Hofmann, F, Flockerzi, V, Furuichi, T, Mikoshiba, K, Imoto, K, Tanabe, T and Numa, S) **350,** 398

Quantal analysis of excitatory synaptic action and depression in hippocampal slices, *Letter to Nature,* (Larkman, A, Stratford, K and Jack, J) **350,** 344

Quantal synaptic transmission?, *Scientific correspondence,* (Clements, J) **353,** 396

Quantal synaptic transmission? Reply, *Scientific correspondence,* (Larkman, A, Stratford, K and Jack, J) **353,** 396

Seminars in the neurosciences, *journal review by* Hanley, M., **353,** 463

Sequence and expression of a metabotropic glutamate receptor, *Article,* (Masu, M, Tanabe, Y, Tsuchida, K, Shigemoto, R and Nakanishi, S) **349,** 760

Targeting of transmembrane and GPI-anchored forms of N-CAM to opposite domains of a polarized epithelial cell, *Letter to Nature,* (Powell, S K, Cunningham, B A, Edelman, G M and Rodriguez-Boulan, E) **353,** 76

The European journal of neuroscience, *journal review by* Hanley, M., (Guillery, R W *editor*) **353,** 463

Two types of orientation-sensitive responses of amacrine cells in the mammalian retina, *Letter to Nature,* (Bloomfield, S A) **350,** 347

Neurotoxins. Binding of synaptotagmin to the α-latrotoxin receptor implicates both in synaptic vesicle exocytosis, *Letter to Nature,* (Petrenko, A G, Perin, M S, Davletov, B A, Ushkaryov, Y A, Geppert, M and Südhof, T C) **353,** 65

Insect paralysis by baculovirus-mediated expression of a mite neurotoxin gene, *Letter to Nature,* (Tomalski, M D and Miller, L K) **352,** 82

Neurotransmitters. Dopamine activation of the arachidonic acid cascade as a basis for D_1/D_2 receptor synergism, *Letter to Nature,* (Piomelli, D, Pilon, C, Giros, B, Sokoloff, P, Martres, M-P and Schwartz, J-C) **353,** 164

Inositol trisphosphate-dependent periodic activation of a Ca^{2+}-activated K^+ conductance in glucose-stimulated pancreatic β-cells, *Letter to Nature,* (Ämmälä, C, Larsson, O, Berggren, P-O, Bokvist, K, Juntti-Berggren, L, Kindmark, H and Rorsman, P) **353,** 849

Involvement of nitric oxide in the reflex relaxation of the stomach to accommodate food or fluid, *Letter to Nature,* (Desai, K M, Sessa, W C and Vane, J R) **351,** 477

Neurotrophic factors. BDNF is a neurotrophic factor for dopaminergic neurons of the substantia nigra, *Letter to Nature,* (Hyman, C, Hofer, M, Barde, Y-A, Juhasz, M and Yan) **350,** 230

Neurobiology: *trking* neurotrophic receptors, *News and views,* (Ragsdale, C and Woodgett, J) **350,** 660

New protein fold revealed by a 2.3-Å resolution crystal structure of nerve growth factor, *Letter to Nature,* (McDonald, N Q, Lapatto, R, Murray-Rust, J, Gunning, J, Wlodawer, A and Blundell, T L) **354,** 411

Parkinson's disease: Fresh factors to consider, *News and views,* (Snyder, S H) **350,** 195

Tyrosine phosphorylation and tyrosine kinase activity of the *trk* proto-oncogene product induced by NGF, *Letter to Nature,* (Kaplan, D R, Martin-Zanca, D and Parada, L F) **350,** 158

Neurovirulence factors. Neurovirulence factor, *Scient?'ic correspondence,* (McGeoch, D J and Barnett, B C) **353,** 609

Neutral mutations. Neutral mutation hypothesis test, *Scientific correspondence,* (Graur, D and Li, W-H) **354,** 114

Neutral mutation hypothesis test, *Scientific correspondence,* (Whittam, T S and Nei, M) **354,** 115

Neutral mutation hypothesis test: Reply, *Scientific correspondence,* (McDonald, J H and Kreitman, M) **354,** 116

Neutrino astronomy. Neutrino astronomy: Putting a project on ice, *News and views,* (Kazanas, D) **353,** 298

Observation of muons using the polar ice cap as a Cerenkov detector, *Letter to Nature,* (Lowder, D M, Miller, T, Price, P B, Westphal, A, Barwick, S W, Halzen, F and Morse, R) **353,** 331

Neutrino detectors. Astrophysics: Bigger than 20 Olympic pools, *News,* (Swinbanks, D) **353,** 200

Neutrino astronomy: Italy looks to next supernova, *News,* (Aldhous, P) **350,** 643

Neutrino astronomy: Putting a project on ice, *News and views,* (Kazanas, D) **353,** 298

Observation of muons using the polar ice cap as a Cerenkov detector, *Letter to Nature,* (Lowder, D M, Miller, T, Price, P B, Westphal, A, Barwick, S W, Halzen, F and Morse, R) **353,** 331

Neutrino observatories, Japan. Japan: Is a giant linac next?, *News,* (Swinbanks, D) **353,** 200

Neutrino physics. Anything goes, *News and views,* **351,** 442

Deep thought, *News and views,* **351,** 270

Nuclear physics: Neutrino physics gets heavy, *News and views,* (Nelson, H N) **350,** 461

Neutrinos, dark matter. Cosmology: Dark dark matter, *News and views,* (Hogan, C J) **351,** 96

Test of the decaying dark matter hypothesis using the Hopkins Ultraviolet Telescope, *Letter to Nature,* (Davidsen, A F, Kriss, G A, Ferguson, H C, Blair, W P, Bowers, C W, Dixon, W V, Durrance, S T, Feldman, P D, Henry, R C, Kimble, R A, Kruk, J W, Long, K S, Moos, H W and Vancura, O) **351,** 128

Neutrinos. No nothing, *News and views,* **352,** 760

Split decision, *News and views,* **352,** 380

Neutron diffraction. Local oxygen ordering in superconducting $YBa_2Cu_3O_{6+x}$ observed by neutron diffraction, *Letter to Nature,* (Zeiske, T, Sonntag, R, Hohlwein, D, Andersen, N H and Wolf, T) **353,** 542

Neutron research. International laboratories: UK backs out of neutron lab, *News,* (Anderson, C) **352,** 366

Neutron scattering, superconductivity. Anomalous neutron scattering near the superconducting phase transition, *Letter to Nature,* (Bernhoeft, N R, Allen, P J, Paul, D McK, Hayden, S M, Timmins, P A and Lonzarich, G G) **350,** 690

Neutron scattering. Medium-range order in the cation distribution of a calcium silicate glass, *Article,* (Gaskell, P H, Eckersley, M C, Barnes, A C and Chieux, P) **350,** 675

Vibrational spectroscopy of superconducting KS13TCS160T by inelastic neutron scattering, *Letter to Nature,* (Prassides, K, Tomkinson, J, Christides, C, Rosseinsky, M J, Murphy, D W and Haddon, R C) **354,** 462

Neutron source, France. European physics: Cracks shut neutron reactor, *News,* (Anderson, C) **352,** 178

Neutron sources, Germany. German research: Berlin finally licenses reactor, *News,* (Dickman, S) **350,** 451

Neutron stars, SS433. Evidence that the compact object in SS433 is a neutron star and not a black hole, *Letter to Nature,* (D'Odorico, S, Oosterloo, T, Zwitter, T and Calvani, M) **353,** 329

Neutron stars. A γ-ray burst preceded by X-ray activity, *Letter to Nature,* (Murakami, T, Inoue, H, Nishimura, J, van Paradijs, J, Fenimore, E E, Ulmer, A and Yoshida, A) **350,** 592

Astronomy: Starquakes and γ-ray bursts, *News and views,* (Joss, P C) **349,** 103

Astronomy: X-rays from γ-ray bursts, *News and views,* (Dermer, C D) **350,** 559

From science fiction to reality?, *book review by* Tipler, F J. **354,** 362

Irradiation-driven mass transfer in low-mass X-ray binaries, *Letter to Nature,* (Podsiadlowski, Ph) **350,** 136

Strong stuff, *News and views,* **349,** 739

Theory of neutron star magnetospheres, *book review by* Bailyn, C. (Michel, F C) **351,** 282

Neutrophil activation. Pathway of phosphatidylinositol(3,4,5)-trisphosphate synthesis in activated neutrophils, *Article,* (Stephens, L R, Hughes, K T and Irvine, R F) **351,** 33

Neutrophils. The chemotactic receptor for human C5a anaphylatoxin, *Letter to Nature,* (Gerard, N P and Gerard, C) **349,** 614

New England Aquarium. Aquarium fights back, *Opinion,* **353,** 588

New year, science. Towards a world without precedent, *Opinion,* **349,** 1

NF-κB transcription factor. Generation of p50 subunit of NF-κB by processing of p105 through an ATP-dependent pathway, *Letter to Nature,* (Fan, C-M and Maniatis, T) **354,** 395

NF-κB factor. Processing of the precursor of NF-κB by the HIV-1 protease during acute infection, *Letter to Nature,* (Rivière, Y, Blank, V, Kourilsky, P and Israël, A) **350,** 625

Nicotinic acetylcholine receptor. Pentameric structure and subunit stoichiometry of a neuronal nicotinic acetylcholine receptor, *Letter to Nature,* (Cooper, E, Couturier, S and Ballivet, M) **350,** 235

Nicotinic acid. Mutations in the channel domain alter desensitization of a neuronal nicotinic receptor, *Letter to Nature,* (Revah, F, Bertrand, D, Galzi, J-L, Devillers-Thiéry, A, Mulle, C, Hussy, N, Bertrand, S, Ballivet, M and Changeux, J-P) **353,** 846

Nirex. Nuclear waste: Questions at Sellafield, *News,* (Anderson, C) **352,** 366

Nitrate, fertilizers. Fertilizer and climate change, *Scientific correspondence,* (Turner, R E) **349,** 469

Nitrate, snow. Fertilizer and snowfall nitrate, *Scientific correspondence,* (Mulvaney, R) **352,** 27

Nitrates, pollution. Chemical removal of nitrate from water, *Letter to Nature,* (Murphy, A P) **350,** 223

Human influence on river nitrogen, *Scientific correspondence,* (Peierls, B L, Caraco, N F, Pace, M L and Cole, J J) **350,** 386

Nitric oxide. Involvement of nitric oxide in the reflex relaxation of the stomach to accommodate food or fluid, *Letter to Nature,* (Desai, K M, Sessa, W C and Vane, J R) **351,** 477

Nitrification. N_2O production in the ocean, *Scientific correspondence,* (Naqvi, S W A) **349,** 373

Nitrogen cycle. Direct measurement of nitrogen gas fluxes from continental shelf sediments, *Letter to Nature,* (Devol, A H) **349,** 319

Fertilizer and climate change, *Scientific correspondence,* (Turner, R E) **349,** 469

Importance of continental margins in the marine biogeochemical cycling of carbon and nitrogen, *Letter to Nature,*

(Walsh, J J) **350,** 53
Molecular nitrogen emissions from denitrification during biomass burning, *Letter to Nature,* (Kuhlbusch, T A, Lobert, J M, Crutzen, P J and Warneck, P) **351,** 135
N_2O production in the ocean, *Scientific correspondence,* (Naqvi, S W A) **349,** 373
Seasonal and depth-related changes in the source of sinking particles in the North Atlantic, *Letter to Nature,* (Altabet, M A, Deuser, W G, Honjo, S and Stienen, C) **354,** 136
Nitrogen fixation. A haemoprotein with kinase activity encoded by the oxygen sensor of *Rhizobium meliloti, Letter to Nature,* (Gilles-Gonzalez, M A, Ditta, G S and Helinski, D R) **350,** 170
A novel highly unsaturated fatty acid moiety of lipo-oligosaccharide signals determines host specificity of *Rhizobium* (Spaink, H P, Sheeley, D M, van Brussel, A A N, Glushka, J, York, W S, Tak, T, Geiger, O, Kennedy, E P, Reinhold, V N and Lugtenberg, B J J) **354,** 125
Nitrogen oxides, atmospheric. Future aircraft and global ozone, *Scientific correspondence,* (Bekki, S, Toumi, R, Pyle, J A and Jones, A E) **354,** 193
Importance of energetic solar protons in ozone depletion, *Letter to Nature,* (Stephenson, J A E and Scourfield, M W J) **352,** 137
Molecular nitrogen emissions from denitrification during biomass burning, *Letter to Nature,* (Kuhlbusch, T A, Lobert, J M, Crutzen, P J and Warneck, P) **351,** 135
Role of heterogeneous conversion of N_2O_5 on sulphate aerosols in global ozone losses, *Letter to Nature,* (Rodriguez, J M, Ko, M K W and Sze, N D) **352,** 134
Nitrogen, atmospheric. Molecular nitrogen emissions from denitrification during biomass burning, *Letter to Nature,* (Kuhlbusch, T A, Lobert, J M, Crutzen, P J and Warneck, P) **351,** 135
Nitrous oxide, atmospheric. Methane and nitrous oxide fluxes in native, fertilized and cultivated grasslands, *Letter to Nature,* (Mosier, A, Schimel, D, Valentine, D, Bronson, K, Parton, W) **350,** 330
New estimates of nitrous oxide emissions from biomass burning, *Letter to Nature,* (Cofer, W R, Levine, J S, Winstead, E L and Stocks, B J) **349,** 689
Nitrous oxide, oceanic. N_2O production in the ocean, *Scientific correspondence,* (Naqvi, S W A) **349,** 373
NMDA receptor. Cloning of cDNA for the glutamate-binding subunit of an NMDA receptor complex, *Letter to Nature,* (Kumar, K N, Tilakaratne, N, Johnson, P S, Allen, A E and Michaelis, E K) **354,** 70
Dark-rearing delays the loss of NMDA-receptor function in kitten visual cortex, *Letter to Nature,* (Fox, K, Daw, N, Sato, H and Czepita, D) **350,** 342
Molecular cloning and characterization of the rat NMDA receptor, *Article,* (Moriyoshi, K, Masu, M, Ishii, T, Shigemoto, R, Mizuno, N and Nakanishi, S) **354,** 31
Molecular neurobiology: NMDA receptors cloned at last, *News and views,* (Mayer, M L) **354,** 16
NMR imaging. Diffraction-like effects in NMR diffusion studies of fluids in porous solids, *Letter to Nature,* (Callaghan, P T, Coy, A, MacGowan, D, Packer, K J and Zelaya, F O) **351,** 467
NMR: Diffusion and diffraction, *News and views,* (Cotts, R M) **351,** 443
NMR spectroscopy. Structure of domain 1 of rat T lymphocyte CD2 antigen, *Letter to Nature,* (Driscoll, P C, Cyster, J G, Campbell, I D and Williams, A F) **353,** 762
Structure of human cyclophilin and its binding site for cyclosporin A determined by X-ray crystallography and NMR spectroscopy, *Letter to Nature,* (Kallen, J, Spitzfaden, C, Zurini, M G M, Wider, G, Widmer, H, Wüthrich, K and Walkinshaw, M D) **353,** 276
NMR, biomolecules. Journal of biomolecular NMR, *journal review by* Williams, R J P., (Wüthrich, K *editor*) **353,** 471
NMR, fullerenes. Isolation of C_{76}, a chiral D_2 allotrope of carbon, *D Letter to Nature,* (Ettl, R, Chao, I, Diederich, F and Whetten, R L) **353,** 149
NMR, pulsed-field-gradient-spin-echo. Diffraction-like effects in NMR diffusion studies of fluids in porous solids, *Letter to Nature,* (Callaghan, P T, Coy, A, MacGowan, D, Packer, K J and Zelaya, F O) **351,** 467
NMR: Diffusion and diffraction, *News and views,* (Cotts, R M) **351,** 443
NMR. NMR evidence for five-coordinated silicon in a silicate glass at atmospheric pressure, *Letter to Nature,* (Stebbins, J F) **351,** 638
NOAA. NOAA: Weather satellite woes, *News,* (Aldhous, P) **352,** 97
Nobel Prize, Chemistry. Chemistry: Bringing NMR to the masses, *News,* (Aldhous, P) **353,** 689
Nobel Prize, physics. Nobel Prize: Physics: A gift for unravelling complexity, *News,* (Ball, P) **353,** 689
Nobel Prizes. Nobel Prize: Patch clamp brings honour, *News,* (Aldhous, P) **353,** 487
Noble gas isotopes. Geochemistry: Solar gases in the Earth?, *News and views,* (Podosek, F A) **349,** 106
Possible solar noble-gas component in Hawaiian basalts, *Letter to Nature,* (Honda, M, McDougall, I, Patterson, D B, Doulgeris, A and Clague, D A) **349,** 149
Noble gases, geochemistry. Constraints from noble-gas contents on the origin of carbonado diamonds, *Letter to Nature,* (Ozima, M, Zashu, S, Tomura, K and Matsuhisa, Y) **351,** 472
Nodulation. A novel highly unsaturated fatty acid moiety of lipo-oligosaccharide signals determines host specificity of *Rhizobium* (Spaink, H P, Sheeley, D M, van Brussel, A A N, Glushka, J, York, W S, Tak, T, Geiger, O, Kennedy, E P, Reinhold, V N and Lugtenberg, B J J) **354,** 125
Chitin and nodulation, *Scientific correspondence,* (Bulawa, C E and Wasco, W) **353,** 710
Nomenclature. Beating the systematics, *Correspondence,* (Strassmann, J E and Queller, D C) **352,** 100
Non-insulin-dependent diabetes mellitis. Sweet success, *News and views,* **350,** 112
Non-Proliferation Treaty. How to make a stronger NPT, *Opinion,* **353,** 285
Lessons of hundred-hour war, *Opinion,* **350,** 1
The Gulf War and the NPT, *Opinion,* **349,** 637
Non-stoichiometric compounds. A lattice-like construction to explain diffraction patterns of some non-stoichiometric phases, *Letter to Nature,* (Harburn, G, Tilley, R J D, Williams, J M and Williams, R P) **350,** 214
Non-Watson-Crick base pairs, RNA double helix. Crystal structure of an RNA double helix incorporating a track of non-Watson-Crick base pairs, *Letter to Nature,* (Holbrook, S R, Cheong, C, Tinoco Jr, I and Kim, S-H) **353,** 579
Nonequilibrium processes. Nonequilibrium systems: The shape of crystals to come, *News and views,* (Villain, J) **350,** 273
Nonlinear dynamics. Calculating the rate of loss of information from chaotic time series by forecasting, *Letter to Nature,* (Wales, D J) **350,** 485
Cross-membrane coupling of chemical spatiotemporal patterns, *Letter to Nature,* (Winston, D, Arora, M, Maselko, J, Gáspár, V and Showalter, K) **351,** 132
Symmetry and chaotic data, *Scientific correspondence,* (Stewart, I) **354,** 113
Nonlinear optics. Optical communications: As quick as a flash, *News and views,* (Calvert, P) **350,** 114
Nonlinear systems. Mathematics: All together now . . ., *News and views,* (Stewart, I) **350,** 557
Nonlinear waves, solitons and chaos, *book review by* Bohr, T. (Infeld, E and Rowlands, G) **349,** 291
Nonlocality, quantum mechanics. Bell's inequality, *Scientific correspondence,* (Hannabuss, K C) **353,** 395
Non-locality bursts into life, *News and views,* (Maddox, J) **352,** 277
Quantum cryptography: Schrödinger's catflap, *News and views,* (Stewart, I) **353,** 384
Nonlocality. Quantum mechanics: Light and the single photon, *News and views,* (Barnett, S M) **350,** 459
Noradrenaline transporters. Expression cloning of a cocaine- and antidepressant-sensitive human noradrenaline transporter, *Letter to Nature,* (Pacholczyk, T, Blakely, R D and Amara, S G) **350,** 350
Noradrenaline. Cloning and expression of a functional serotonin transporter from rat brain, *Letter to Nature,* (Blakely, R D, Berson, H E, Fremeau Jr, R T, Caron, M G, Peek, M M, Prince, H K and Bradley, C C) **354,** 66
North America, archaeology. Ancient North America: The Archaeology of a Continent, *book review by* Bahn, P G. (Fagan, B M) **351,** 615
North America, tectonics. The first surface faulting from a historical intraplate earthquake in North America, *Letter to Nature,* (Adams, J, Wetmiller, R J, Hasegawa, H S and Drysdale, J) **352,** 617
North Pole, exploration. Hero in disgrace: The true discoverer of the North Pole, Frederick A. Cook, *book review by* Fordham, D. (Abramson, H S) **352,** 293
North Sea, salinity. High salinity in the North Sea, *Scientific correspondence,* (Heath, M R, Henderson, E W, Slesser, G and Woodward, E M S) **352,** 116
Novae. Evidence for a black hole in the X-ray nova Muscae 1991, *Letter to Nature,* (Della Valle, M, Jarvis, B J and West, R M) **353,** 50
Spectral transformation of the unusual variable star MWC560 to resemble a nova, *Letter to Nature,* (Maran, S P, Michalitsianos, A G, Oliversen, R J and Sonneborn, G) **350,** 404
NSF, finance. US science budget: Navy made to pay for civil research, *News,* (Aldhous, P) **352,** 363
Nuclear accidents, cancer risk. Three Mile Island: A stress-cancer link following accident?, *News,* (Pool, R) **351,** 429
Nuclear accidents, Chernobyl. Chernobyl effects not as bad as feared, *News,* (Dickman, S) **351,** 335
Facing up to the Chernobyl accident, *Opinion,* **351,** 1
Health: Five-year toll: 10,000 dead from Chernobyl?, *News,* (Aldhous, P) **351,** 4
Health: World researchers to take a closer look at Chernobyl, *News,* (Dickman, S) **351,** 4
Nuclear accidents, Japan. Japanese nuclear power: Emergency shutdown of oldest reactor, *News,* (Swinbanks, D) **349,** 557
Nuclear accidents. Japanese nuclear power: Political fallout anticipated, *News,* (Swinbanks, D) **349,** 644
Japanese nuclear power: PR blunders, *News,* (Swinbanks, D) **349,** 644
Nuclear explosions. Nuclear dynamite: The peaceful nuclear explosions fiasco, *book review by* Ruquist, R. (Findlay, T) **349,** 28
Nuclear fusion. Burning tritium, *Opinion,* **354,** 94
DoE rallies to save US fusion research programme, *News,* (Anderson, C) **349,** 269
Fusion energy: The moment of truth nears, *News and views,* (Petrasso, R D) **350,** 661
Fusion: First use of tritium, *News,* (Pease, R) **354,** 95
Fusion: The search for endless energy, *book review by* Davenport, P. (Herman, R) **352,** 294
Plasma physics: Just a light squeeze, *News and views,* (Pease, R S) **349,** 466
Nuclear industry, UK. UK nuclear industry: Dounreay loses uranium, *News,* (Aldhous, P) **354,** 422
Nuclear industry, US. Environment: Nuclear cleanup costs rise, *News,* (Pool, R) **353,** 101
Nuclear magnetic resonance spectroscopy. Chemistry: Bringing NMR to the masses, *News,* (Aldhous, P) **353,** 689
Nuclear magnetic resonance. Demonstration by NMR of folding domains in lysozyme, *Letter to Nature,* (Miranker, A, Radford, S E, Karplus, M and Dobson, C M) **349,** 633
Nuclear Non-proliferation Treaty. Leadership needed, *Correspondence,* (Richards, P G) **354,** 347
The NPT and its black sheep, *Opinion,* **354,** 253
Nuclear physics, Japan. Japan: Is a giant linac next?, *News,* (Swinbanks, D) **353,** 200
Nuclear physics, UK. Nuclear structure physics in limbo, *News,* (Aldhous, P) **349,** 551
UK nuclear physicists fear SERC's cuts, *News,* (Aldhous, P) **349,** 357
UK nuclear physics: Daresbury hopes dashed, *Opinion,* (Aldhous, P) **350,** 177
Nuclear physics. Double giant resonances in atomic nuclei, *Review article,* (Mordechai, S and Moore, C F) **352,** 393
Neutrino nudge, *News and views,* **353,** 700
Nuclear and particle physics, *book review by* Brown, G E. (Williams, M S C) **352,** 392
Nuclear physics: Neutrino physics gets heavy, *News and views,* (Nelson, H N) **350,** 461
Nucleosynthesis: Finding the proton drip line, *News and views,* (Mathews, G J) **351,** 348
Obituary: Edwin M McMillan (1907-1991), *News and views,* (Jackson, J D) **353,** 602
Obituary: Lord Penney 1909-1991, *News and views,* (Marshall, W) **350,** 196
Redirecting science: Niels Bohr, philanthropy and the rise of nuclear physics, *book review by* Bernstein, J. (Aaserud, F) **349,** 751
Subnuclear structure: Nucleons just yield to pressure, *News and views,* (Holstein, B R) **354,** 189
Nuclear power, accidents. The Truth about Chernobyl, *book review by* Gittus, J. (Medvedev, G) **352,** 32
Nuclear power, Bulgaria. Nuclear power: Bulgaria's dilemma, *News,* (Dickman, S) **352,** 7
Nuclear power, Germany. German research: Berlin finally licenses reactor, *News,* (Dickman, S) **350,** 451
Nuclear energy: German reactor closed, *News,* (Dickman, S) **350,** 265
Nuclear power, health hazards. Health risks, *Correspondence,* (Wolff, S P) **351,** 10
Nuclear power, Japan. Energy policy: Japan promotes nuclear power, *News,* (Swinbanks, D) **353,** 782
Energy policy: The persuasive power of yen, *News,* (Swinbanks, D) **353,** 782
Japanese nuclear power: Emergency shutdown of oldest reactor, *News,* (Swinbanks, D) **349,** 557
Japanese nuclear power: Political fallout anticipated, *News,* (Swinbanks, D) **349,** 644
Japanese nuclear power: PR blunders, *News,* (Swinbanks, D) **349,** 644
Monju fast-breeder reactor completed, *News,* (Swinbanks, D) **352,** 7
Nuclear energy: An urgent search for power, *News,* (Swinbanks, D) **352,** 181
Nuclear power: Opposition melts away, *News,* (Swinbanks, D) **349,** 449
Nuclear power: Japan debates plutonium, *News,* (Swinbanks, D) **352,** 7
Nuclear power: Anatomy of an accident, *News,* (Swinbanks, D) **354,** 259
Nuclear power, Soviet Union. Chernobyl: Ukraine will close reactors, *News,* (Kanin, Y) **354,** 8
Facing up to the Chernobyl accident, *Opinion,* **351,** 1
Nuclear power, Soviet union. Nuclear power: Chernobyl fire chronology, *News,* (Kanin, Y) **353,** 690
Nuclear power, Soviet Union. The Truth about Chernobyl, *book review by* Gittus, J. (Medvedev, G) **352,** 32
Nuclear power, UK. Leukaemia epidemiology: Confusion surrounds the 'Gardner effect', *News,* (Aldhous, P) **350,** 264
Nuclear power, US. DoE rallies to save US fusion research programme, *News,* (Anderson, C) **349,** 269
Energy policy: More free market, less regulation, Bush asks, *News,* (Pool, R) **349,** 729
Nuclear power, waste. Nuclear waste: Questions at Sellafield, *News,* (Anderson, C) **352,** 366
Nuclear power. Meltdown: The collapse of the nuclear dream, *book review by* Cottrell, A., (Aubrey, C) **353,** 222
Nuclear choices: A citizen's guide to nuclear technology, *book review by* Cottrell, A., (Wolfson, R) **353,** 222
Nuclear energy: Benefits not appreciated, *News,* **349,** 7
Politics of electricity production, *Commentary,* (Price, T) **351,** 435
Nuclear reactors, France. European physics: Cracks shut neutron reactor, *News,* (Anderson, C) **352,** 178
Nuclear reprocessing, India. Nuclear research: India to reprocess fuels, *News,* (Jayaraman, K S) **351,** 338
Nuclear science, US. Department of Energy: Nuclear science

faces cuts, *News*, (Pool, R) **353,** 783

Nuclear structure. Double giant resonances in atomic nuclei, *Review article*, (Mordechai, S and Moore, C F) **352,** 393

Nuclear technology. Nuclear choices: A citizen's guide to nuclear technology, *book review by* Cottrell, A., (Wolfson, R) **353,** 222

Nuclear transport, proteins. Protein synthesis required to anchor a mutant p53 protein which is temperature-sensitive for nuclear transport, *Letter to Nature*, (Gannon, J V and Lane, D P) **349,** 802

Nuclear war, threat of. The end of the nuclear threat?, *Opinion*, **353,** 483

Nuclear war. The genocidal mentality:Nazi holocaust and nuclear threat, *book review by* Warner, F. (Lifton, R J and Markusen, E) **350,** 200

Nuclear waste disposal. Organic matter and containment of uranium and fissiogenic isotopes at the Oklo natural reactors, *Letter to Nature*, (Nagy, B, Gauthier-Lafaye, F, Holliger, P, Davis, D W, Mossman, D J, Leventhal, J S, Rigali, M J and Parnell, J) **354,** 472

Nuclear waste storage, US. Nuclear waste storage: DOE won't wait on WIPP, *News*, (Pool, R) **353,** 487

Nuclear waste storage: WIPP put on hold, *News*, (Pool, R) **353,** 590

Nuclear waste. Nuclear waste: Questions at Sellafield, *News*, (Anderson, C) **352,** 366

Nuclear weapons research, US. Nuclear weapons research: US national labs face changing roles, *News*, (Pool, R) **353,** 6

Nuclear weapons research. At the heart of the bomb: The dangerous allure of weapons work, *book review by* Kevles, D J. (Rosenthal, D) **349,** 664

Nuclear weapons testing. Nuclear dynamite: The peaceful nuclear explosions fiasco, *book review by* Ruquist, . R. (Findlay, T) **349,** 28

Nuclear weapons, Iraq. Iraq makes even more trouble, *Opinion*, **352,** 1

Nuclear weapons, Israel. Israel's nuclear weapons in the open, *Opinion*, **351,** 425

Nuclear weapons, South Africa. Arms control: South Africa to sign, *News*, (Anderson, C) **352,** 7

Nuclear weapons, US. Nuclear weapons: Tritium 'peace dividend', *News*, (Anderson, C) **354,** 3

Nuclear weapons. A path where no man thought: Nuclear winter and the end of the arms race, *book review by* Ruina, J. (Sagan, C and Turco, R) **352,** 765

How to make a stronger NPT, *Opinion*, **353,** 285

Leadership needed, *Correspondence*, (Richards, P G) **354,** 347

The Gulf War and the NPT, *Opinion*, **349,** 637

The nuclear lion: What every citizen should know about nuclear power and nuclear war, *book review by* Cottrell, A., (Jagger, J) **353,** 222

Nuclear winter. A path where no man thought: Nuclear winter and the end of the arms race, *book review by* Ruina, J. (Sagan, C and Turco, R) **352,** 765

Nuclear-powered ships, Japan. Japan: From a sow's ear . . ., *News*, (Swinbanks, D) **353,** 594

Nucleation theory. Materials science: Dropping below freezing point, *News and views*, (Cahn, R W) **349,** 736

Nucleic acid sequence-based amplification. Nucleic acid sequence-based amplification, *Product Review*, (Compton, J) **350,** 91

Nucleic acids. Base-pairing shift in the major groove of (CA)5InT tracts by B-DNA crystal structures, *Letter to Nature*, (Timsit, Y, Vilbois, E and Moras, D) **354,** 167

Crystal structure of an RNA double helix incorporating a track of non-Watson-Crick base pairs, *Letter to Nature*, (Holbrook, S R, Cheong, C, Tinoco Jr, I and Kim, S-H) **353,** 579

Nucleic acids in chemistry and biology, *book review by* Gumport, R I. (Blackburn, G M and Gait, M J) **350,** 667

Nucleoside diphosphate kinases. A product of the *prune* locus of *Drosophila* is similar to mammalian GTPase-activating protein, *Letter to Nature*, (Teng, D H F, Engele, C M and Venkatesh, T R) **353,** 437

Regulatory proteins: Ras and the *awd* couple, *News and views*, (Ruggieri, R and McCormick, F) **353,** 390

Nucleosynthesis. Chemical evolution: Origin of the elements, molecules and living systems, *book review by* Walker, J C G. (Mason, S F) **351,** 199

Constraints on r-process nucleosynthesis in accretion disks, *Letter to Nature*, (Jin, L) **350,** 403

Nucleosynthesis: Finding the proton drip line, *News and views*, (Mathews, G J) **351,** 348

Nucleosynthesis: Beryllium and the Big Bang, *News and views*, (Pagel, B E J) **354,** 267

Nutrition. Help wanted, *Correspondence*, (Clarke, P) **353,** 9

O'Toole, Margot. Baltimore declares O'Toole mistaken, *News and views*, (Baltimore, D) **351,** 341

Margot O'Toole's record of events, *News and views*, (O'Toole, M) **351,** 180

Origins of MIT inquiry, *News and views*, (Eisen, H N) **351,** 343

OSI's conclusions wrong, *News and views*, (Imanishi-Kari, T) **351,** 344

Obituaries. Obituary: Edwin Herbert Land (1909-1991), *News and views*, (Mollon, J D) **350,** 379

Obituary: Edwin M McMillan (1907-1991), *News and views*, (Jackson, J D) **353,** 602

Obituary: John Bardeen (1908-1991), *News and views*, (Anderson, P W) **349,** 652

Obituary: Lord Penney 1909-1991, *News and views*, (Marshall, W) **350,** 196

Obituary: Salvador E. Luria (1912-1991), *News and views*, (Watson, J D) **350,** 113

Ocean chemistry, hydrothermal vents. *In situ* chemical mapping of dissolved iron and manganese in hydrothermal plumes, *Letter to Nature*, (Coale, K H, Chin, C S, Massoth, G J, Johnson, K S and Baker, E T) **352,** 325

Ocean circulation. Climate change: Credit the oceans?, *News and views*, (Covey, C) **352,** 196

Ocean circulation beneath the Ronne ice shelf, *Letter to Nature*, (Nicholls, K W, Makinson, K and Robinson, A V) **354,** 221

Ocean-atmosphere coupling. Ocean uncertainty, *Scientific correspondence*, (Covey, C) **353,** 309

Revised projection of future greenhouse warming, *Letter to Nature*, (Schlesinger, M E and Jiang, X) **350,** 219

Oceanic crust, evolution of. Geophysics: The lost continents, *News and views*, (Schubert, G) **354,** 358

Oceanographic research, Japan. Japan: From a sow's ear . . ., *News*, (Swinbanks, D) **353,** 594

Oceanography, Antarctica. Research in Antarctica: Undersea research: When things go wrong, *News*, (Anderson, C) **350,** 292

Oceanography, Black Sea. Depletion of barium and radium-226 in Black Sea surface waters over the past thirty years, *Letter to Nature*, (Falkner, K K, O'Neill, D J, Todd, J F, Moore, W S and Edmond, J M) **350,** 481

Low organic carbon accumulation rates in Black Sea sediments, *Letter to Nature*, (Calvert, S E, Karlin, R E, Toolin, L J, Donahue, D J, Southon, J R and Vogel, J S) **350,** 692

Oceanography, carbon dioxide. Estimates of the effect of Southern Ocean iron fertilization on atmospheric CO_2 concentrations, *Letter to Nature*, (Joos, F, Sarmiento, J L and Siegenthaler, U) **349,** 772

Oceanography. Biological control of surface temperature in the Arabian Sea, *Letter to Nature*, (Sathyendranath, S, Gouveia, A D, Shetye, S R, Ravindran, P and Platt, T) **349,** 54

Climate change: Credit the oceans?, *News and views*, (Covey, C) **352,** 196

Climate change: Chaos in ocean heat transport, *News and views*, (Covey, C) **353,** 796

Do upper-ocean sediment traps provide an accurate record of particle flux?, *Letter to Nature*, (Buesseler, K O) **353,** 420

Enhanced particle fluxes in Bay of Bengal induced by injection of fresh water, *Letter to Nature*, (Ittekkot, V, Nair, R R, Honko, S, Ramaswamy, V, Bartsch, M, Manganini, S and Desai, B N) **351,** 385

Estimation of new production in the ocean by compound remote sensing, *Article*, (Sathyendranath, S, Platt, T, Horne, E P W, Harrison, W G, Ulloa, O, Outerbridge, R and Hoepffner, N) **353,** 129

Freshwater flux forcing of decadal and interdecadal oceanic variability, *Letter to Nature*, (Weaver, A J, Sarachik, E S and Marotze, J) **353,** 836

High salinity in the North Sea, *Scientific correspondence*, (Heath, M R, Henderson, E W, Slesser, G and Woodward, E M S) **352,** 116

High turnover rates of dissolved organic carbon during a spring phytoplankton bloom, *Letter to Nature*, (Kirchman, D L, Suzuki, Y, Garside, C and Ducklow, H W) **352,** 612

Importance of *Phaeocystis* blooms in the high-latitude ocean carbon cycle, *Letter to Nature*, (Smith Jr, W O, Codispoti, L A, Nelson, D M, Manley, T, Buskey, E J, Niebauer, J and Cota, G F) **352,** 514

Importance of continental margins in the marine biogeochemical cycling of carbon and nitrogen, *Letter to Nature*, (Walsh, J J) **350,** 53

Occurrence of small colloids in sea water, *Letter to Nature*, (Wells, M L and Goldberg, E D) **353,** 342

Ocean circulation beneath the Ronne ice shelf, *Letter to Nature*, (Nicholls, K W, Makinson, K and Robinson, A V) **354,** 221

Ocean productivity: Iron determinations, *News and views*, (Lloyd, P) **350,** 19

Ocean uncertainty, *Scientific correspondence*, (Covey, C) **353,** 309

Oceanography: Europe in the vanguard?, *News*, (Aldhous, P) **350,** 643

Research in Antarctica: Climate research: Filling in missing pieces, *News*, (Dickman, S) **350,** 308

Role of eddy pumping in enhancing primary production in the ocean, *Letter to Nature*, (Falkowski, P G, Ziemann, D, Kolber, Z and Bienfang, P K) **352,** 55

Seasonal and depth-related changes in the source of sinking particles in the North Atlantic, *Letter to Nature*, (Altabet, M A, Deuser, W G, Honjo, S and Stienen, C) **354,** 136

Spatial variability in the sink for atmospheric carbon dioxide in the North Atlantic, *Letter to Nature*, (Watson, A J, Robinson, C, Robinson, J E and Williams, P J le B and Fasham, M J R) **350,** 50

Structure of the upper ocean in the western equatorial Pacific, *Letter to Nature*, (Richards, K J and Pollard, R T) **350,** 48

The ocean in human affairs, *book review by* Charnock, H. (Singer, S F) **349,** 577

The photolysis of colloidal iron in the oceans, *Letter to Nature*, (Wells, M L, Mayer, L M, Donard, O F X, de Souza Sierra, M M and Ackelson, S G) **353,** 248

Oceans, Mars. Ancient oceans, ice sheets and the hydrological cycle on Mars, *Article*, (Baker, V R, Strom, R G, Gulick, V C, Kargel, J S, Komatsu, G and Kale, V S) **352,** 589

Odorant signal termination. Odorant signal termination by olfactory UDP glucuronosyl transferase, *Letter to Nature*, (Lazard, D, Zupko, K, Poria, Y, Nef, P, Lazarovits, J, Horn, S, Khen, M and Lancet, D) **349,** 790

Odour, human. The scented ape: The biology and culture of human odour, *book review by* Bronson, F H. (Stoddart, M) **349,** 576

Office of Scientific Integrity, NIH. OSI confirms mix-up, *News*, (Anderson, C) **353,** 687

OSI procedures, *Correspondence*, (Siekevitz, P) **353,** 597

Office of Scientific Integrity, US. NIH need clear definition of fraud, *News and views*, (Culliton, B J) **352,** 563

OSI's conclusions wrong, *News and views*, (Imanishi-Kari, T) **351,** 344

Oil fields, Kuwait. Kuwait: Oil fields under control, *News*, (Aldhous, P) **354,** 5

Oil fires, Kuwait. Airborne observations of the physical and chemical characteristics of the Kuwait oil smoke plume, *Article*, (Johnson, D W, Kilsby, C G, McKenna, D S, Saunders, R W, Jenkins, G J, Smith, F B and Foot, J S) **353,** 617

Black skies or pale fire?, *Correspondence*, (Seitz, R) **350,** 183

Climate response to smoke from the burning oil wells in Kuwait, *Article*, (Bakan, S, Chlond, A, Cubasch, U, Feichter, J, Graf, H, Grassl, H, Hasselmann, K, Kirchner, I, Latif, M, Roekner, E, Sausen, R, Schiese, U, Schriever, D, Schult, I, Schumann, U, Sielmann, F and Welke, W) **351,** 367

Environmental effects from burning oil wells in Kuwait, *Article*, (Browning, K A, Allam, R J, Ballard, S P, Barnes, R T H, Bennetts, D A, Maryon, R H, Mason, P J, McKenna, D, Mitchell, J F B, Senior, C A, Slingo, A and Smith, F B) **351,** 363

Hell in a small place, *Opinion*, **350,** 448

Oil-well fires: Smog alert in Kuwait City, *News*, (Aldhous, P) **350,** 98

Quenching the wild wells of Kuwait, *Commentary*, (Garwin, R L and Kendall, H W) **354,** 11

Oil spills, Antarctica. research in Antarctica: Oil biology: In troubled waters, *News*, (Anderson, C) **350,** 293

Research in Antarctica: Oil spillage: Helping the local population, *News*, (Ewing, T) **350,** 304

Oil spills, biodegradation. Gulf oil spill, *Correspondence*, (Radwan, S S) **350,** 456

US-Japan collaboration to develop oil-eating bacteria, *News*, (Swinbanks, D) **350,** 266

Oil spills, Gulf war. Gulf oil spill: Big test for bioremediation, *News*, (Aldhous, P) **349,** 447

Gulf oil spill: Let nature take its course, *News*, (Aldhous, P) **349,** 731

India: Impact of Gulf War, *News*, (Jayaraman, K S) **349,** 447

Is this the eco-war?, *Opinion*, **349,** 356

Pollution and the Persian Gulf, *Scientific correspondence*, (Bohle-Carbonell, M) **350,** 25

Oil spills, Mediterranean. Mediterranean oil spill: Riviera under threat, *News*, (Aldhous, P) **350,** 547

Oil spills. Oil spill clean-up, *Scientific correspondence*, (Claxton, L D, Houk, V S, Williams, R and Kremer, F) **353,** 24

Oklo natural reactors. Organic matter and containment of uranium and fissiogenic isotopes at the Oklo natural reactors, *Letter to Nature*, (Nagy, B, Gauthier-Lafaye, F, Holliger, P, Davis, D W, Mossman, D J, Leventhal, J S, Rigali, M J and Parnell, J) **354,** 472

Olbers' paradox. Another look at the Big Bang, *Scientific correspondence*, (Harrison, E) **352,** 574

Olbers' paradox has more to teach, *News and views*, (Maddox, J) **349,** 363

Olbers' paradox: Dandekar, T, *Scientific correspondence*, **351,** 21

Olbers' paradox in concert halls?, *Scientific correspondence*, (Lee, J B) **352,** 202

Olduvai Gorge. Laser-fusion $^{40}Ar/^{39}Ar$ dating of Bed I, Olduvai Gorge, Tanzania, *Letter to Nature*, (Walter, R C, Manega, P C, Hay, R L, Drake, R E and Curtis, G H) **354,** 145

Olduvai Gorge. Vol. 4. The skulls, endocasts and teeth of *Homo habilis*, *book review by* Wood, B. (Tobias, P V) **353,** 313

Olfaction, artificial. Artificial 'olfactory' images from a chemical sensor using a light-pulse technique, *Letter to Nature*, (Lundström, I, Erlandsson, R, Frykman, U, Hedborg, E, Spetz, A, Sundgren, H, Welin, S and Winquist, F) **352,** 47

Olfaction, plesiosaurs. Dorsal nostrils and hydrodynamically driven underwater olfaction in plesiosaurs, *Letter to Nature*, (Cruickshank, A R I, Small, P G and Taylor, M A) **352,** 62

Olfaction. Let them eat soap, *Scientific correspondence*, (Cowart, B J) **354,** 114

Odorant signal termination by olfactory UDP glucuronosyl transferase, *Letter to Nature*, (Lazard, D, Zupko, K, Poria, Y, Nef, P, Lazarovits, J, Horn, S, Khen, M and Lancet, D) **349,** 790

Olfaction: molecules to network, *News and views*, (Lancet, D) **351,** 275

Olfaction: The strong scent of success, *News and views*, (Lancet, D) **351,** 275

On the scent, *News and views*, **353,** 601

Sensory perception: Turning on and turning off the sense of

smell, *News and views,* (Burchell, B) **350,** 16

Olfactomedin. On the scent, *News and views,* **353,** 601

Oligodendrocytes. Dysmyelination in transgenic mice resulting from expression of class I histocompatibility molecules in oligodendrocytes, *Letter to Nature,* (Turnley, A M, Morahan, G, Okano, H, Bernard, O, Mikoshiba, K, Allison, J, Bartlett, P F and Miller, J F A P) **353,** 566

Oligonucleotide drugs. Oligonucleotide drugs: A change of backbone, *News and views,* (Frank-Kamenetskii, M) **354,** 505

Oligonucleotide-based therapeutics. Oligonucleotide-based therapeutics, *Product Review,* (Riordan, M L and Martin, J C) **350,** 442

Oligosaccharides. Chitin and nodulation, *Scientific correspondence,* (Bulawa, C E and Wasco, W) **353,** 710

Olympics, sex testing. Genetic testing: Olympic row over sex testing, *News,* (Anderson, C) **353,** 784

Oncogenes. *Drosophila genes* Posteria Sex Combs and *Suppressor two of zeste* encode proteins with homology to the murine *bmi-1* oncogene, *Letter to Nature,* (Brunk, B P, Martin, E C and Adler, P N) **353,** 351

src surprise, *News and views,* **350,** 195

WT1 mutations contribute to abnormal genital system development and hereditary Wilms' tumour, *Letter to Nature,* (Pelletier, J, Bruening, W, Li, F P, Haber, D A, Glaser, T and Housman, D E) **353,** 431

A novel cyclin encoded by a *bcl1*-linked candidate oncogene, *Letter to Nature,* (Motokura, T, Bloom, T, Kim, H G, Jüppner, H, Ruderman, J V, Kronenberg, H M and Arnold, A) **350,** 512

Association of $p60^{src}$ with polyoma virus middle-T antigen abrogating mitosis-specific activation, *Letter to Nature,* (Kaech, S, Covic, L, Wyss, A and Ballmer-Hofer, K) **350,** 431

Catalysis of guanine nucleotide exchange on the CDC42Hs protein by the *dbl* oncogene product, *Letter to Nature,* (Hart, M J, Eva, A, Evans, T, Aaronson, S A and Cerione, R A) **354,** 311

Cell biology: Cell cycle gets more cyclins, *News and views,* (Hunt, T) **350,** 462

Complementation of transforming domains in E1a/*myc* chimaeras, *Letter to Nature,* (Ralston, R) **353,** 866

Ha-Ras augments c-Jun activity and stimulates phosphorylation of its activation domain, *Article,* (Binétruy, B, Smeal, T and Karin, M) **351,** 122

Mutant α subunits of G_s inhibit cyclic AMP accumulation, *Letter to Nature,* (Wong, Y H, Federman, A, Pace, A M, Zachary, I, Evans, T, Pouysségur, J and Bourne, H R) **351,** 63

Phosphorylation of *c-jun* mediated by MAP kinases, *Letter to Nature,* (Pulverer, B J, Kyriakis, J M, Avruch, J, Nikolakaki, E and Woodgett, J R) **353,** 670

Protein synthesis required to anchor a mutant p53 protein which is temperature-sensitive for nuclear transport, *Letter to Nature,* (Gannon, J V and Lane, D P) **349,** 802

The p53 tumour suppressor gene, *Review article,* (Levine, A J, Momand, J and Finlay, C A) **351,** 453

v-Src and EJ Ras alleviate repression of c-Jun by a cell-specific inhibitor, *Letter to Nature,* (Baichwal, V R, Park, A and Tjian, R) **352,** 165

Oncogenesis. Cloning of cDNAs for cellular proteins that bind to the retinablastoma gene product, *Letter to Nature,* (Defeo-Jones, D, Huang, P S, Jones, R E, Haskell, K M, Vuocolo, G A, Hanobik, M G, Huber, H E and Oliff, A) **352,** 251

Cyclin A facilitates the association of the retinoblastoma gene product with a cellular transcription factor, *Letter to Nature,* (Bandara, L R, Adamczewski, J P, Hunt, T and La Thangue, N B) **352,** 249

Failure of wild-type or a mutant form of protein kinase C-α to transform fibroblasts, *Letter to Nature,* (Borner, C, Filipuzzi, I, Weinstein, I B and Imber, R) **353,** 78

Oncogenic and transcriptional cooperation with Ha-Ras requires phosphorylation of c-Jun on serines 63 and 73, *Letter to Nature,* (Smeal, T, Binetruy, B, Mercola, D A, Birrer, M and Karin, M) **354,** 494

Oncogenic germ-line mutations in Sp1 and ATF sites in the human retinoblastoma gene, *Letter to Nature,* (Sakai, T, Ohtani, N, McGee, T L, Robbins, P D and Dryja, T P) **353,** 83

Retinoblastoma: A transcriptional tryst, *News and views,* (Wagner, S and Green, M R) **352,** 189

Oncology. Cancer confirmation, *News and views,* **352,** 285

Cancer treatments, *Correspondence,* (Groner, B and Nagel, G A) **354,** 346

Detection of human carcinogens, *Commentary,* (Ashby, J and Morrod, R S) **352,** 185

Wild-type p53 induces apoptosis of myeloid leukaemic cells that is inhibited by interleukin-6, *Letter to Nature,* (Yonish-Rouach, E, Resnitzky, D, Lotem, J, Sachs, L, Kimchi, A and Oren, M) **352,** 345

Oncoproteins. A cellular protein that competes with SV40 T antigen for binding to the retinoblastoma gene product, *Letter to Nature,* (Huang, S, Lee, W-H and Lee, E Y-H P) **350,** 160

Bovine papillomavirus E5 oncoprotein binds to the 16K component of vacuolar H^+-ATPases, *Letter to Nature,* (Goldstein, D J, Finbow, M E, Andresson, T, McLean, P, Smith, K, Bubb, V and Schlegel, R) **352,** 347

Oncogenic and transcriptional cooperation with Ha-Ras requires phosphorylation of c-Jun on serines 63 and 73, *Letter to Nature,* (Smeal, T, Binetruy, B, Mercola, D A, Birrer, M and Karin, M) **354,** 494

Retinoblastoma: A transcriptional tryst, *News and views,* (Wagner, S and Green, M R) **352,** 189

Onychophorans. New early Cambrian animal and onychophoran affinities of enigmatic metazoans, *Letter to Nature,* (Ramsköld, L and Xianguang, H) **351,** 225

Palaeontology: Oddballs from the Cambrian start to get even, *News and views,* (Bengtson, S) **351,** 184

Oort cloud. Physics and chemistry of comets, *book review by* Brownlee, D E. (Heubner, W F) **351,** 197

Opal fluxes, oceanic. Effects of ice coverage and ice-rafted material on sedimentation in the Fram Strait, *Letter to Nature,* (Hebbeln, D and Wefer, G) **350,** 409

Opal records. Evidence for lower productivity in the Antarctic Ocean during the last glaciation, *Letter to Nature,* (Mortlock, R A, Charles, C D, Froelich, P N, Zibello, M A, Saltzman, J, Hays, J D and Burckle, L H) **351,** 220

Glacial climate: No change down under, *News and views,* (Berger, W H) **351,** 186

Ophiolites. Geochemical evidence for formation of the Bay of Islands ophiolite above a subduction zone, *Letter to Nature,* (Elthon, D) **354,** 140

Ophiolites: Ocean floor comes ashore, *News and views,* (Pearce, J) **354,** 110

Optical astronomy, Canada. Optical astronomy: Canada back in the fold?, *News,* (Aldhous, P) **353,** 688

Optical astronomy. Astronomy: When big is beautiful, *News and views,* (Kulkarni, S R, Shao, M and Haniff, C A) **352,** 383

High-resolution optical observations compared to radio structure of the jet in M87, *Letter to Nature,* (Stiavelli, M, Møller, P and Zcilinger, W W) **354,** 132

Hubble's calibration error, *Scientific correspondence,* (Korhonen, T) **350,** 280

Morphological differences between optical and infrared images of the spiral galaxy NGC309, *Letter to Nature,* (Block, D L and Wainscoat, R J) **353,** 48

Optical communications. Optical communications: As quick as a flash, *News and views,* (Calvert, P) **350,** 114

Optical microscopy, near-field. Near-field optical imaging with a non-evanescently excited high-brightness light source of sub-wavelength dimensions, *Letter to Nature,* (Lewis, A and Lieberman, K) **354,** 214

Optical microscopy. Confocal microscopy, *book review by* Dunn, G. (Wilson, T) **350,** 118

Optical molasses. Atomic physics: Unnatural selection, *News and views,* (Foot, C and Steane, A) **351,** 521

Making atoms march in step, *News and views,* (Maddox, J) **351,** 601

Optics industry, Germany. German unification & Carl Zeiss Jena: Times getting tough for an ex-giant, *News,* (Dickman, S) **350,** 548

Optics, holography. Time-resolved holography, *Letter to Nature,* (Rebane, A and Feinberg, J) **351,** 378

Optics, nonlinear. Optical communications: As quick as a flash, *News and views,* (Calvert, P) **350,** 114

Optics, X-ray. No X-ray lens, *Scientific correspondence,* (Michette, A G) **353,** 510

Optics, X-rays. Refractive lens for X-ray focus, *Scientific correspondence,* (Suehiro, S, Miyaji, H and Hayashi, H) **352,** 385

Optics. A gas-lens telescope, *Letter to Nature,* (Michaelis, M M, Dempers, C A, Kosch, M, Prause, A, Notcutt, M, Cunningham, P F and Waltham, J A) **353,** 547

Atoms and light interactions, *book review by* Loudon, R. (Dodd, J N) **352,** 678

Grand spectacles, *Correspondence,* (Max, N) **353,** 294

Observation of the optical analogue of quantized conductance of a point contact, *Letter to Nature,* (Montie, E A, Cosman, E C, Hooft, G W 't, van der Mark, M B and Beenakker, C W J) **350,** 594

Optics: Photonic insulators, *News and views,* (Pendry, J B) **354,** 435

Principles of adaptive optics, (Tyson, R K) *book review by* Woolf, N J. **354,** 197

The semantics of plane-mirror inversion, *News and views,* (Maddox, J) **353,** 791

Optoelectronics. Optical communications: As quick as a flash, *News and views,* (Calvert, P) **350,** 114

Ore deposition. Hydrothermal activity and metallogenesis in the Lau back-arc basin, *Letter to Nature,* (Fouquet, Y, Von Stackelberg, U, Charlou, J L, Donval, J P, Erzinger, J, Foucher, J P, Herzig, P, Mühe, R, Soakai, S, Wiedicke, M and Whitechurch, H) **349,** 778

Ore deposits: Ocean cycles in control, *News and views,* (Petersen, U) **352,** 382

Organ transplant, Hong Kong. Hong Kong: Looking for livers, kidneys, *News,* (Gwynne, P) **354,** 343

Organic carbon, oceanic. Another recipe for bomb ^{14}C dilution, *Scientific correspondence,* (Rau, G H) **350,** 116

Do upper-ocean sediment traps provide an accurate record of particle flux?, *Letter to Nature,* (Buesseler, K O) **353,** 420

Low organic carbon accumulation rates in Black Sea sediments, *Letter to Nature,* (Calvert, S E, Karlin, R E, Toolin, L J, Donahue, D J, Southon, J R and Vogel, J S) **350,** 692

Photochemical degradation of dissolved organic carbon and its impact on the oceanic carbon cycle, *Letter to Nature,* (Mopper, K, Zhou, X, Kieber, R J, Kieber, D J, Sikorski, R J and Jones, R D) **353,** 60

Organic chemistry. Organic chemistry: Synthesis with a strong hand, *News and views,* (Brown, J M) **350,** 191

Polycyclic aromatic compounds, *journal review by* Roberts, S., (Zander, M *editor*) **353,** 471

The journal of essential oil research, *journal review by* Crombie, L., (Lawrence, B M *editor*) **353,** 475

Organic geochemistry. Biases from natural sulphurization in palaeoenvironmental reconstruction based on hydrocarbon biomarker distributions, *Letter to Nature,* (Kohnen, M E L, Damsté, J S S and De Leeuw, J W) **349,** 775

Biodegradation of refractory hydrocarbon biomarkers from petroleum under laboratory conditions, *Letter to Nature,* (Chosson, P, Lanau, C, Connan, J and Dessort, D) **351,** 640

Enrichment in saturated compounds of Black Sea interfacial sediment, *Letter to Nature,* (Beier, J A, Wakeham, S G, Pilskaln, C H and Honjo, S) **351,** 642

Geochemistry: Stability of petroleum, *News and views,* (Hayes, J M) **352,** 108

Organic matter and containment of uranium and fissiogenic isotopes at the Oklo natural reactors, *Letter to Nature,* (Nagy, B, Gauthier-Lafaye, F, Holliger, P, Davis, D W, Mossman, D J, Leventhal, J S, Rigali, M J and Parnell, J) **354,** 472

Sources of sedimentary lipids deduced from stable carbon-isotope analyses of individual compounds, *Letter to Nature,* (Rieley, G, Collier, R J, Jones, D M, Eglinton, G, Eakin, P A and Fallick, A E) **352,** 425

The stability of hydrocarbons under the time-temperature conditions of petroleum genesis, *Letter to Nature,* (Mango, F D) **352,** 146

Organic matter, oceanic. Occurrence of small colloids in sea water, *Letter to Nature,* (Wells, M L and Goldberg, E D) **353,** 342

Organic metals. Molecular films: Laying down organic metals, *News and views,* (Bryce, M R) **352,** 760

Organic superconductors. Superconductivity: An unconventional family tree, *News and views,* (d'Ambrumenil, N) **352,** 472

Organometallic chemistry. Synthesis of pentacoordinate silicon complexes from SiO_2, *Letter to Nature,* (Laine, R M, Biohowiak, K Y, Robinson, T R, Hoppe, M L, Nardi, P, Kampf, J and Uhm, J) **353,** 642

Origin of life. Blueprint for a cell: The nature and origin of life, *book review by* Cavalier-Smith, T. (de Duve, C) **351,** 110

Chemical evolution: Origin of the elements, molecules and living systems, *book review by* Walker, J C G. (Mason, S F) **351,** 199

Chirality and the cold origin of life, *Scientific correspondence,* (Goldanski, V I and Kuzmin, V V) **352,** 114

Orion cloud complex. Evidence for a rotating helical filament in L1641, part of the Orion cloud complex, *Letter to Nature,* (Uchida, Y, Fukui, Y, Minoshima, Y, Mizuno, A, Iwata, T and Takaba, H) **349,** 140

Formation of giant molecular clouds and helical magnetic fields by the Parker instability, *Letter to Nature,* (Shibata, K and Matsumoto, R) **353,** 633

Ornithology, Siberia. Ornithological cooperation in Siberia, *Commentary,* (Prys-Jones, R) **354,** 102

Ornithology. Bird community structure, *Scientific correspondence,* (Cotgreave, P and Harvey, P H) **353,** 123

Bird life of mountain and upland, *book review by* Howlett, R. (Ratcliffe, D) **350,** 567

Bird migration, *book review by* Greenwood, J J D. (Alerstam, T) **351,** 25

Long-term memory of individual neighbours in a migratory songbird, *Letter to Nature,* (Godard, R) **350,** 228

Ornithology: The question of polarization, *News and views,* (Martin, G R) **350,** 194

The relationship between abundance and body size in British birds, *Letter to Nature,* (Nee, S, Read, A F, Greenwood, J J D and Harvey, P H) **351,** 312

Oscillating reactions. Chemical waves: Crystals from dreams, *News and views,* (Winfree, A T) **352,** 568

Super-spiral structures in an excitable medium, *Letter to Nature,* (Perez-Muñuzuri, V, Allev, R, Baslev, B, Perez-Villar, V and Krinsky, V I) **353,** 740

Oscillators, synchronization of. Firefly synchrony, *Scientific correspondence,* (Ermentrout, G B) **353,** 220

Oscillatory chemical reactions. Geometric phase shifts in chemical oscillators, *Letter to Nature,* (Kagan, M L, Kepler, T B and Epstein, I R) **349,** 506

Oscillatory reactions. Cross-membrane coupling of chemical spatiotemporal patterns, *Letter to Nature,* (Winston, D, Arora, M, Maselko, J, Gáspár, V and Showalter, K) **351,** 132

Wave upon chemical wave, *News and views,* **351,** 99

OSI, deputy director. National Institutes of Health: Hadley quits two OSI investigations, *News,* (Aldhous, P) **352,** 268

Oxidases. Enzymology: Radical copper in oxidases, *News and views,* (Thomson, A J) **350,** 22

Novel thioether bond revealed by a 1.7 Å crystal structure of galactose oxidase, *Letter to Nature,* (Ito, N, Phillips, S E V, Stevens, C, Ogel, Z B, McPherson, M J, Keen, J N, Yadav, K D S and Knowles, P F) **350,** 87

Oxygen isotope analysis. Global nature of the Younger Dryas cooling event inferred from oxygen isotope data from Sulu Sea cores, *Letter to Nature,* (Kudrass, H R, Erlenkeuser, H, Vollbrecht, R and Weiss, W) **349,** 406

Oxygen, atmospheric. Breathless, *News and views,* **350,** 383

Oxygen, photochemistry. Highly vibrationally excited oxygen as a potential source of ozone in the upper stratosphere and

mesosphere, *Letter to Nature*, (Toumi, R, Kerridge, B J and Pyle, J A) **351,** 217

Ozone depletion, Antarctica. Atmospheric chemistry: New ozone hole phenomenon, *News and views*, (Thompson, A M) **352,** 282

Ozone depletion, Arctic. Atmospheric chemistry: Stratospheric ozone depletion over the Arctic, *News and views*, (Chipperfield, M) **349,** 279

Evidence from balloon measurements for chemical depletion of stratospheric ozone in the Arctic winter of 1989-90, *Article*, (Hofmann, D J and Deshler, T) **349,** 300

Ozone depletion, nitrous oxide. New estimates of nitrous oxide emissions from biomass burning, *Letter to Nature*, (Cofer, W R, Levine, J S, Winstead, E L and Stocks, B J) **349,** 689

Ozone depletion. CFC replacements: A global experiment in technology transfer, *News*, (Pool, R) **351,** 6

DNA damage in the Antarctic, *Scientific correspondence*, (Karentz, S, Cleaver, J E and Mitchell, D L) **350,** 28

Environment: Ozone loss worse than expected, *News*, (Pool, R) **350,** 451

Environment: Red flag on CFC substitute, *News*, (Pool, R) **352,** 98

Future aircraft and global ozone, *Scientific correspondence*, (Bekki, S, Toumi, R, Pyle, J A and Jones, A E) **354,** 193

Global warming: Ozone report puts US policy in question, *News*, (Aldhous, P) **353,** 783

Importance of energetic solar protons in ozone depletion, *Letter to Nature*, (Stephenson, J A E and Scourfield, M W J) **352,** 137

Measuring air from polar vortices, *Scientific correspondence*, (Roscoe, H K) **350,** 197

Ozone depletion: A deepening, broadening trend, *News and views*, (Brasseur, G P) **352,** 668

Ozone depletion: Montreal Protocol still too lax?, *News*, (Aldhous, P) **353,** 688

Ozone diplomacy; New directions in safeguarding the planet, *book review by* Greenberg, D S. (Benedick, R E) **351,** 450

Ozone hits new low, *News*, (Anderson, C) **352,** 271

Role of heterogeneous conversion of N_2O_5 on sulphate aerosols in global ozone losses, *Letter to Nature*, (Rodriguez, J M, Ko, M K W and Sze, N D) **352,** 134

Ozone hole. Antarctic ozone: Worst hole yet, *News*, (Anderson, C) **353,** 591

Ozone mission up, *News*, (Anderson, C) **353,** 199

Ozone, biological effects. Not in the blood, *News and views*, **354,** 22

Ozone, stratospheric. Highly vibrationally excited oxygen as a potential source of ozone in the upper stratosphere and mesosphere, *Letter to Nature*, (Toumi, R, Kerridge, B J and Pyle, J A) **351,** 217

Ozone hits new low, *News*, (Anderson, C) **352,** 271

p53 protein. Cancer genes: Telling changes of base, *News and views*, (Harris, A L) **350,** 377

Mutational hotspot in the p53 gene in human hepatocellular carcinomas, *Letter to Nature*, (Hsu, I C, Metcalf, R A, Sun, T, Welsh, J A, Wang, N J and Harris, C C) **350,** 427

Protein synthesis required to anchor a mutant p53 protein which is temperature-sensitive for nuclear transport, *Letter to Nature*, (Gannon, J V and Lane, D P) **349,** 802

Selective G to T mutations of p53 gene in hepatocellular carcinoma from southern Africa, *Letter to Nature*, (Bressac, B, Kew, M, Wands, J and Ozturk, M) **350,** 429

The p53 tumour suppressor gene, *Review article*, (Levine, A J, Momand, J and Finlay, C A) **351,** 453

Wild-type p53 induces apoptosis of myeloid leukaemic cells that is inhibited by interleukin-6, *Letter to Nature*, (Yonish-Rouach, E, Resnitzky, D, Lotem, J, Sachs, L, Kimchi, A and Oren, M) **352,** 345

p60 proto-oncogene. Cloning of a complementary DNA for a protein-tyrosine kinase that specifically phosphorylates a negative regulatory site of $p60^{c\text{-}src}$, *Letter to Nature*, (Nada, S, Okada, M, MacAuley, A, Cooper, J A and Nakagawa, H) **351,** 69

Palaeoanthropology. Language origins: The silence of the past, *News and views*, (Foley, R A) **353,** 114

Olduvai Gorge. Vol. 4. The skulls, endocasts and teeth of *Homo habilis*, *book review by* Wood, B., (Tobias, P V) **353,** 313

Palaeobotany. Palaeobotanical evidence for a June 'impact winter' at the Cretaceous/Tertiary boundary, *Letter to Nature*, (Wolfe, J A) **352,** 420

Palaeoceanography. Abrupt deep-sea warming, palaeoceanographic changes and benthic extinctions at the end of the Palaeocene, *Article*, (Kennett, J P and Stott, L D) **353,** 225

Climate change: A stop-start ocean conveyer, *News and views*, (Jones, G A) **349,** 364

Evidence for lower productivity in the Antarctic Ocean during the last glaciation, *Letter to Nature*, (Mortlock, R A, Charles, C D, Froelich, P N, Zibello, M A, Saltzman, J, Hays, J D and Burckle, L H) **351,** 220

Extraction of high-resolution carbonate data for palaeoclimate reconstruction, *Letter to Nature*, (Mayer, L A) **352,** 148

Glacial climate: No change down under, *News and views*, (Berger, W H) **351,** 186

Global nature of the Younger Dryas cooling event inferred from oxygen isotope data from Sulu Sea cores, *Letter to Nature*, (Kudrass, H R, Erlenkeuser, H, Vollbrecht, R and Weiss, W) **349,** 406

Ice-core record of oceanic emissions of dimethylsulphide during the last climate cycle, *Letter to Nature*, (Legrand, M, Feniet-Saigne, C, Saltzman, E S, Germain, C, Barkov, N I and Petrov, V N) **350,** 144

Initiation of Fennoscandian ice-sheet retreat during the last deglaciation, *Letter to Nature*, (Lehman, S J, Jones, G A, Keigwin, L D, Andersen, E S, Butenko, G and Ostmo, S-R) **349,** 513

Ocean Drilling Program: Ancient ocean-climate links, *News and views*, (Leg 138 shipboard Scientific Party) **353,** 304

Rapid change in strontium isotopic composition of sea water before the Cretaceous/Tertiary boundary, *Letter to Nature*, (Nelson, B K, MacLeod, G K and Ward, P D) **351,** 644

Sea-level constraints, *Scientific correspondence*, (Lambeck, K and Nakada, M) **350,** 115

Palaeoclimatology. A 13,000-year climate record from western Tibet, *Letter to Nature*, (Gasse, F, Arnold, M, Fontes, J C, Fort, M, Gilbert, E, Huc, A, Bingyan, L, Yuanfang, L, Qing, L, Mélières, F, Van Campo, E, Fubao, W and Qingsong, Z) **353,** 742

Abrupt deep-sea warming, palaeoceanographic changes and benthic extinctions at the end of the Palaeocene, *Article*, (Kennett, J P and Stott, L D) **353,** 225

Carbon ratios in the Amazon, *Scientific correspondence*, (Bird, M I, Chivas, A R and Fyfe, W S) **354,** 271

Chronology from plant matter, *Scientific correspondence*, (Leavitt, S W and Danzer, S R) **352,** 671

Climate change: A stop-start ocean conveyer, *News and views*, (Jones, G A) **349,** 364

Climate change: Credit the oceans?, *News and views*, (Covey, C) **352,** 196

Climate: Long-term monsoon regulators, *News and views*, (Hagelberg, T and Mix, A C) **353,** 703

Current change, *News and views*, **354,** 191

Evidence for lower productivity in the Antarctic Ocean during the last glaciation, *Letter to Nature*, (Mortlock, R A, Charles, C D, Froelich, P N, Zibello, M A, Saltzman, J, Hays, J D and Burckle, L H) **351,** 220

Extraction of high-resolution carbonate data for palaeoclimate reconstruction, *Letter to Nature*, (Mayer, L A) **352,** 148

Forcing mechanisms of the Indian Ocean monsoon, *Article*, (Clemens, S, Prell, W, Murray, D, Shimmield, G and Weedon, G) **353,** 720

Glacial climate: No change down under, *News and views*, (Berger, W H) **351,** 186

Global changes of the past, *book review by* Rooth, C G H., (Bradley, R *editor*) **353,** 806

Global nature of the Younger Dryas cooling event inferred from oxygen isotope data from Sulu Sea cores, *Letter to Nature*, (Kudrass, H R, Erlenkeuser, H, Vollbrecht, R and Weiss, W) **349,** 406

Ice age carbon, *Scientific correspondence*, (Crowley, T J) **352,** 575

Ice-age methane variations, *Scientific correspondence*, (Crowley, T J) **353,** 122

Ice-core record of oceanic emissions of dimethylsulphide during the last climate cycle, *Letter to Nature*, (Legrand, M, Feniet-Saigne, C, Saltzman, E S, Germain, C, Barkov, N I and Petrov, V N) **350,** 144

Initiation of Fennoscandian ice-sheet retreat during the last deglaciation, *Letter to Nature*, (Lehman, S J, Jones, G A, Keigwin, L D, Andersen, E S, Butenko, G and Ostmo, S-R) **349,** 513

Isotopic composition of atmospheric CO_2 inferred from carbon in C4 plant cellulose, *Article*, (Marino, B D and McElroy, M B) **349,** 127

Ocean Drilling Program: Ancient ocean-climate links, *News and views*, (Leg 138 shipboard Scientific Party) **353,** 304

Paleoclimatology, *book review by* Rooth, C G H., (Crowley, T J) **353,** 806

Post-glacial sea-level rise from a coral record at Huon Peninsula, Papua New Guinea, *Letter to Nature*, (Chappell, J and Polach, H) **349,** 147

Reconstruction of glaciation over the past 6 Myr from iceborne deposits in the Norwegian Sea, *Letter to Nature*, (Jansen, E and Sjoholm, J) **349,** 600

Reconstruction of past changes in salinity and climate using a diatom-based transfer function, *Letter to Nature*, (Fritz, S C, Juggins, S, Battarbee, R W and Engstrom, D R) **352,** 706

Reconstruction of Caribbean climate change over the past 10,500 years, *Letter to Nature*, (Hodell, D A, Curtis, J H, Jones, G A, Higuera-Gundy, A, Brenner, M, Binford, M W and Dorsey, K T) **352,** 790

Sea-level constraints, *Scientific correspondence*, (Lambeck, K and Nakada, M) **350,** 115

Palaeoecology. Late quaternary extinct ungulates of East Africa and palaeoenvironmental implications, *Letter to Nature*, (Marean, C W and Gifford-Gonzalez, D) **350,** 418

The early development of terrestrial ecosystems, *Review article*, (Shear, W A) **351,** 283

Palaeoenvironment reconstruction. Biases from natural sulphurization in palaeoenvironmental reconstruction based on hydrocarbon biomarker distributions, *Letter to Nature*, (Kohnen, M E L, Damsté, J S S and De Leeuw, J W) **349,** 775

Palaeogeography, Gondwana. Plate tectonics: About turn for supercontinents, *News and views*, (Hartnady, C J H) **352,** 476

Palaeohydrology. Temperate palaeohydrology: Fluvial processes in the temperate zone during the last 15,000 years, *book review by* Kirkby, M. (Starkel, L, Gregory, K J and Thornes, J B) **351,** 26

Palaeolimnology. Reconstruction of past changes in salinity and climate using a diatom-based transfer function, *Letter to Nature*, (Fritz, S C, Juggins, S, Battarbee, R W and Engstrom, D R) **352,** 706

Reconstruction of Caribbean climate change over the past 10,500 years, *Letter to Nature*, (Hodell, D A, Curtis, J H, Jones, G A, Higuera-Gundy, A, Brenner, M, Binford, M W and Dorsey, K T) **352,** 790

Sedimentation rates, residence times and radionuclide inventories in Lake Baikal from ^{137}Cs and ^{210}Pb in sediment cores, *Letter to Nature*, (Edgington, D N, Klump, J V, Robbins, J A, Kusner, Y S, Pampura, V D and Sandimirov, I V) **350,** 601

Palaeomagnetism. Geomagnetic reversal paths, *Scientific correspondence*, (Laj, C, Mazaud, A, Weeks, R, Fuller, M and Herrero-Bervera, E) **351,** 447

Geomagnetism: Reversals of opinion, *News and views*, (Bogue, S) **351,** 445

Long-lived transitional states of the geomagnetic field and the two dynamo families, *Article*, (Hoffman, K A) **354,** 273

Mapping magnetism onto the core, *News and views*, (Maddox, J) **349,** 563

Palaeomagnetism: Plate tectonic speed limits, *News and views*, (Gordon, R G) **349,** 16

Reversal records in marine marls and delayed acquisition of remanent magnetization, *Letter to Nature*, (van Hoof, A A M and Langereis, C G) **351,** 223

Palaeontology, Himalayan. Himalayan palaeontology: Gupta faces suspension, *News*, (Jayaraman, K S) **349,** 645

Indian reputations, *Opinion*, **349,** 639

Palaeontology. A fossil smut fungus from the anthers of an Eocene angiosperm, *Letter to Nature*, (Currah, R S and Stockey, R A) **350,** 698

Dorsal nostrils and hydrodynamically driven underwater olfaction in plesiosaurs, *Letter to Nature*, (Cruickshank, A R I, Small, P G and Taylor, M A) **352,** 62

Early bird, *News and views*, **353,** 601

Extinction: Bad genes or bad luck?, (Raup, D M) *book review by* Hallam, A. **354,** 327

First skulls of the Early Eocene primate *Shoshonius cooperi* and the anthropoid-tarsier dichotomy, *Letter to Nature*, (Beard, K C, Krishtalka, L and Stucky, R K) **349,** 64

Fish-like gills and breathing in the earliest known tetrapod, *Letter to Nature*, (Coates, M I and Clack, J A) **352,** 234

Fossil first, *News and views*, **354,** 108

Graptolites, *book review by* Gee, H. (Palmer, D and Rickards, B) **350,** 202

In the swim, *News and views*, **350,** 195

New early Cambrian animal and onychophoran affinities of enigmatic metazoans, *Letter to Nature*, (Ramsköld, L and Xianguang, H) **351,** 225

Palaeoanthropology: Teeth, sex and species, *News and views*, (Martin, L) **352,** 111

Palaeontology: Oddballs from the Cambrian start to get even, *News and views*, (Bengtson, S) **351,** 184

Palaeontology: The bird in the bush, *News and views*, (Ostrom, J H) **353,** 212

Palaeontology: The brave vertebrate venture, *News and views*, (Gee, H) **354,** 268

Principles of geology, first edition, Volumes I-III, *book review by* Gould, S J. (Lyell, C) **352,** 577

Tetrapod or near-tetrapod fossils from the Upper Devonian of Scotland, *Letter to Nature*, (Ahlberg, P E) **354,** 298

The miner's canary: Unravelling the mysteries of extinction, (Eldredge, N) *book review by* Hallam, A. **354,** 327

The processes of fossilization, (Donovan, S K *editor*) *book review by* Palmer, D. **354,** 120

Venom-conducting teeth in a Triassic reptile, *Paramecium*. (Sues, H-D) **351,** 141

Palaeosalininty. Reconstruction of past changes in salinity and climate using a diatom-based transfer function, *Letter to Nature*, (Fritz, S C, Juggins, S, Battarbee, R W and Engstrom, D R) **352,** 706

Palestinians, Kuwait. Kuwait: Palestinians may be barred from courses, *News*, (Aldhous, P) **350,** 369

Palynology. Ice-age methane variations, *Scientific correspondence*, (Crowley, T J) **353,** 122

Pancreas. Activation by adrenaline of a low-conductance G protein-dependent K^+ channel in mouse pancreatic B cells, *Letter to Nature*, (Rorsman, P, Bokvist, K, Ämmälä, C, Arkhammar, P, Berggren, P-O, Larsson, O and Wåhlander, K) **349,** 77

Inositol trisphosphate-dependent periodic activation of a Ca^{2+}-activated K^+ conductance in glucose-stimulated pancreatic β-cells, *Letter to Nature*, (Ämmälä, C, Larsson, O, Berggren, P-O, Bokvist, K, Juntti-Berggren, L, Kindmark, H and Rorsman, P) **353,** 849

Paper chemistry. Paper chemistry, *book review by* Hardman, T M. (Roberts, J C **352,** 486

Papilloma virus. Activation of BPV-1 replication *in vitro* by the transcription factor E2, *Article*, (Uang, L, Li, R, Mohr, I J, Clark, R and Botchan, M R) **353,** 628

Papillomavirus, bovine E5 oncoprotein. Bovine papillomavirus E5 oncoprotein binds to the 16K component of vacuolar H^+-ATPases, *Letter to Nature*, (Goldstein, D J, Finbow, M E, Andresson, T, McLean, P, Smith, K, Bubb, V and

Schlegel, R) **352,** 347

Parallel computing. Parallel boost, *News,* (Anderson, C) **352,** 271

Paralysis. A Met-to-Val mutation in the skeletal muscle NaS0+T channel α-subunit in h yperkalaemic periodic paralysis, *Letter to Nature,* (Rojas, C V, Wang, J, Schwartz, L S, Hoffman, E P, Powell, B R and Brown, R H) **354,** 387

Paramagnetism. Magnetically controlled convection in a paramagnetic fluid, *Letter to Nature,* (Braithwaite, D, Beaugnon, E and Tournier, R) **354,** 134

Parasexual process, bacteria. Bacteria mating preferences, *Scientific correspondence,* (Redfield, R J) **352,** 25

Parasites. Colour coding, *News and views,* **350,** 21

Parasitic DNA. Lice and easy, *Correspondence,* (Playford, M and Kamiya, M) **354,** 9

Parasitic plants. Plastid genes and parasitic plants, *Scientific correspondence,* (Wallsgrove, R M) **350,** 664

Parasitic protozoa, clonal. Clonal defence, *Scientific correspondence,* (Tibayrenc, M, Kjellberg, F and Ayala, F J) **350,** 385

Parasitism, mating. Bacteria mating preferences, *Scientific correspondence,* (Haskell, D G) **352,** 26

Parasitology. Breach of trust in Sudan, *Correspondence,* (Malik, M O A, Ali, M H, Homeida, M, Ali, H M, Ghalib, H W, Suleiman, S M, El-Sheikh, E-H A, Zayed, O and Mahmoud, B) **354,** 346

Direct access to serum macromolecules by intraerythrocytic malaria parasites, *Letter to Nature,* (Pouvelle, B, Spiegel, R, Hsiao, L, Howard, R J, Morris, R L, Thomas, A P and Taraschi, T F) **353,** 73

Parent-offspring relationships. Signalling of need by offspring to their parents, *Letter to Nature,* (Godfray, H C J) **352,** 328

Parental care. Signalling of need by offspring to their parents, *Letter to Nature,* (Godfray, H C J) **352,** 328

The Evolution of Parental Care, *book review by* Gwynne, D T. (Clutton-Brock, T H) **352,** 118

Parker instability. Formation of giant molecular clouds and helical magnetic fields by the Parker instability, *Letter to Nature,* (Shibata, K and Matsumoto, R) **353,** 633

Parkinson's disease. BDNF is a neurotrophic factor for dopaminergic neurons of the substantia nigra, *Letter to Nature,* (Hyman, C, Hofer, M, Barde, Y-A, Juhasz, M and Yan) **350,** 230

Cloning of the gene for a human dopamine D_3 receptor with high affinity for the antipsychotic clozapine, *Letter to Nature,* (Van Tol, H H M, Bunzow, J R, Guan, H-C, Sunahara, R K, Seeman, P, Niznik, H B and Civelli, O) **350,** 610

Cloning of the gene for a human dopamine D_4 receptor with higher affinity for dopamine than D_2, *Letter to Nature,* (Sunahara, R K, Guan, H-C, O'Dowd, B F, Seeman, P, Laurier, L G, Ng, G, George, S R, Torchia, J, Van Tol, H H M and Niznik, H B) **350,** 614

New protein fold revealed by a 2.3-Å resolution crystal structure of nerve growth factor, *Letter to Nature,* (McDonald, N Q, Lapatto, R, Murray-Rust, J, Gunning, J, Wlodawer, A and Blundell, T L) **354,** 411

Parkinson's disease: Fresh factors to consider, *News and views,* (Snyder, S H) **350,** 195

Parthenocarpy. Seeing the fruits of deception, *News and views,* (Moore, P D) **351,** 189

Particle accelerators, UK. Nuclear structure physics in limbo, *News,* (Aldhous, P) **349,** 551

UK nuclear physics: Daresbury hopes dashed, *Opinion,* (Aldhous, P) **350,** 177

Particle accelerators. High-energy physics: HERA stores protons, *News,* (Dickman, S) **351,** 261

High-energy physics: Japan in retreat from SSC plans?, *News,* (Swinbanks, D) **352,** 177

No friction, *Correspondence,* (Rubbia, C and Schwitters, R) **352,** 187

Particle accelerators: Focusing for free, *Letter to Nature,* (Evans, R) **351,** 522

Superconducting Super Collider: New detector sought, *News,* (Pool, R) **351,** 258

US getting little help in funding the SSC, *News,* (Pool, R) **351,** 173

Particle detectors. Notes from underground, *News and views,* **350,** 656

Particle physics, standard model. Anything goes, *News and views,* **351,** 442

Particle physics, US. New quarters for the Superconducting Super Collider, *News,* **353,** 783

Species reintroduction: New twist in snail saga, *News,* (Anderson, C) **353,** 489

SSC: New sheriff in town?, *News,* (Anderson, C) **354,** 259

Particle physics. Bang on, *News and views,* **349,** 104

Can any anti-particle make a probe?, *News and views,* (Maddox, J) **353,** 207

Cosmic rays and particle physics, *book review by* Kazanas, D. (Gaisser, T K) **350,** 390

International collaboration: SSC appeal gets cold shoulder, *News,* (Swinbanks, D) **354,** 424

No nothing, *News and views,* **352,** 760

Nuclear and particle physics, *book review by* Brown, G E. (Williams, M S C) **352,** 392

Particle physics after a year of LEP, *Review article,* (Miller, D J) **349,** 379

Particle physics: Glueballs and exotic matter, *News and views,* (Close, F) **349,** 368

Poor rich Japan, *Opinion,* **354,** 420

Subnuclear structure: Nucleons just yield to pressure, *News and views,* (Holstein, B R) **354,** 189

Suspended animation, *News and views,* **353,** 386

Weak equivalence in the balance, *News and views,* (Maddox, J) **350,** 187

Patch-clamp technique. Nobel Prize: Patch clamp brings honour, *News,* (Aldhous, P) **353,** 487

Patent law, US. Gene patents: A battle as old as the nation, *News,* (Anderson, C) **354,** 174

Patent law Protecting US biotech firms, *News,* (Gershon, D) **352,** 4

Patent system, Japan. Japanese patent system: Fujitsu and TI fight it out, *News,* (Swinbanks, D) **353,** 488

Patent, zidovudine. Patent confusion, *Correspondence,* (Jackson, M P) **350,** 550

Patents, AIDS drugs. AIDS drugs: "Too little, too late" for AZT, *News,* (Anderson, C and Gershon, D) **351,** 508

Patents, AZT. AZT patent: NIH quick off the mark, *News,* (Gershon, D) **352,** 268

Patents, biotechnology. Biotechnology patents: Amgen scores a knockout, *News,* (Gershon, D) **350,** 99

Biotechnology patents: Genentech wins in Japan, *News,* (Swinbanks, D) **354,** 4

Biotechnology patents: Solving a dispute, Japanese style, *News,* (Swinbanks, D) **354,** 4

Patent law Protecting US biotech firms, *News,* (Gershon, D) **352,** 4

Patents, drugs. Pharmaceutical patents: EC row looms over patents, *News,* (Aldhous, P) **350,** 645

Patents, genes. Gene patents: More questions than answers, *News,* (Anderson, C) **354,** 174

To patent a naked gene, *News,* (Anderson, C) **353,** 485

US patent application stirs up gene hunters, *News,* (Anderson, C) **353,** 485

Patents, Human Genome Project. Human Genome Project: Tit for tat on patents?, *News,* (Aldhous, P) **353,** 785

Patents, PCR. Biotechnology: Cetus retains PCR patents, *News,* (Schaefer, E) **350,** 6

Patents, transgenic animals. Europe approves first transgenic animal patent, *News,* (Aldhous, P) **353,** 589

Patents, US. Ribozyme technology: Cech wins first patent, *News,* (Davies, K) **349,** 449

Patents. Biotechnology: EC look to animal patents, *News,* (Anderson, C) **353,** 8

Pattern formation. Chemical waves: Crystals from dreams, *News and views,* (Winfree, A T) **352,** 568

Mutations affecting body organization in the *Arabidopsis* embryo, *Article,* (Mayer, U, Ruiz, R A T, Berleth, T, Miséra, S and Jürgens, G) **353,** 402

Transition from a uniform state to hexagonal and striped Turing patterns, *Letter to Nature,* (Ouyang, Q and Swinney, H L) **352,** 610

Peatland. Ecology: Ups and downs in peatland, *News and views,* (Moore, P D) **353,** 299

Peer review. Lesson for science, *Correspondence,* (Krowitz, E J) **352,** 751

Peer review: A cleanish bill of health, *News,* (Aldhous, P) **349,** 272

Peltier effect. Cool radiators, *News and views,* **352,** 760

Penetration depths, fullerenes. Magnetic-field penetration depth in K_3C_{60} measured by muon spin relaxation, *Letter to Nature,* (Uemura, Y J, Keren, A, Le, L P, Luke, G M, Sternlieb, B J, Wu, W D, Brewer, J H, Whetten, R L, Huang, S M, Lin, S, Kaner, R B, Diederich, F, Donovan, S, Grüner, G and Holczer, K) **352,** 605

Penguins, ecology. Penguins crowded out?, *Correspondence,* (Culik, B and Wilson, R) **351,** 340

Penguins. Swift to avoid the swallow, *News and views,* (Anderson, C) **353,** 795

Penicillin. Penicillin and beyond, *Commentary,* (Chain, B) **353,** 492

Penney, William. Obituary: Lord Penney 1909-1991, *News and views,* (Marshall, W) **350,** 196

Penrose, Lionel. Mix-up, *Correspondence,* (Hodgson, S) **350,** 648

People for the Ethical Treatment of Animals (PETA) PETA wins one, *News,* (Anderson, C) **353,** 687

Peptide binding. Peptide binding to class I MHC on living cells and quantitation of complexes required for CTL lysis, *Letter to Nature,* (Christinck, E R, Luscher, M A, Barber, B H and Williams, D B) **352,** 67

Peptide growth factors. Peptide growth factors and their receptors. Volumes 1 and 2, *book review by* Waterfield, M D. (Sporn, M B and Roberts, A B) **350,** 566

Peptide supply factor. Restored expression of major histocompatibility class I molecules by gene transfer of a putative peptide transporter, *Letter to Nature,* (Spies, T and DeMars, R) **351,** 323

Peptides, synthetic. A new type of synthetic peptide library for identifying ligand-binding activity, *Letter to Nature,* (Lam, K S, Salmon, S E, Hersh, E M, Hruby, V J, Kazmierski, W M and Knapp, R J) **354,** 82

Generation and use of synthetic peptide combinatorial libraries for basic research and drug discovery, *Letter to Nature,* (Houghton, R A, Pinilla, C, Blondelle, S E, Appel, J R, Dooley, C T and Cuervo, J H) **354,** 84

Perception, orientation. Object awareness, *Scientific correspondence,* (Goodale, M A, Milner, A D, Jakobson, L S and Carey, D P) **352,** 202

Perception. Conscious vs neural time, *Scientific correspondence,* (Libet, B) **352,** 27

Conscious vs neural time: reply, *Scientific correspondence,* (Glynn, I M) **352,** 27

Developmental psychology: Face to face with babies, *News and views,* (Bryant, P E) **354,** 19

Eye-wash, *Correspondence,* (Fain, G) **354,** 101

Percolation theory. Passivity breakdown and pitting corrosion of binary alloys, *Letter to Nature,* (Williams, D E, Newman, R C, Song, Q and Kelly, R G) **350,** 216

Percolation. An invasion percolation model of drainage network evolution, *Letter to Nature,* (Stark, C P) **352,** 423

Perfusion chromatography. Perfusion chromatography, *Product Review,* (Regnier, F E) **350,** 634

Peridotites, mineralogy. Complementary Ti and Zr anomalies in orthopyroxine and clinopyroxine from mantle peridotites, *Letter to Nature,* (Rampone, E, Bottazzi, P and Ottolini, L) **354,** 518

Periinsulitis. Identification and mapping to chromosome 1 of a susceptibility locus for periinsulitis in non-obese diabetic mice, *Letter to Nature,* (Garchon, H-J, Bedossa, P, Eloy, L and Bach, J-F) **353,** 260

Peripherin. A three-base-pair deletion in the perpherin-*RDS* gene in one form of retinitis pigmentosa, *Letter to Nature,* (Farrar, G J, Kenna, P, Jordan, S A, Kumar-Singh, R, Humphries, M M, Sharp, E M, Sheils, D M and Humphries, P) **354,** 478

Peroxisome assembly. Restoration by a 35K membrane protein of peroxisome assembly in a peroxisome-deficient mammalian cell mutant, *Letter to Nature,* (Tsukamoto, T, Miura, S and Fujiki, Y) **350,** 77

Peroxy radicals, atmospheric. Terpenes and forest decline, *Scientific correspondence,* (Ross, H B and De Serves, C) **352,** 672

Terpenes and forest decline: Reply, *Scientific correspondence,* (Becker, K H, Brockmann, K J and Bechara, J) **352,** 672

Persian Gulf, pollution. Pollution and the Persian Gulf, *Scientific correspondence,* (Bohle-Carbonell, M) **350,** 25

Personality tests. Personality put to the test, *Correspondence,* (Jackson, D N and Rothstein, M) **352,** 100

Peru, cancer. Cholera epidemic traced to risk miscalculation, *News,* (Anderson, C) **354,** 255

Pest control. Construction of an improved baculovirus insecticide containing an insect-specific toxin gene, *Letter to Nature,* (Stewart, L M D, Hirst, M, Ferber, M L, Merryweather, A T, Cayley, P J and Possee, R D) **352,** 85

Insect paralysis by baculovirus-mediated expression of a mite neurotoxin gene, *Letter to Nature,* (Tomalski, M D and Miller, L K) **352,** 82

Pesticides, suicide pills. India: Death pills from pesticide, *News,* (Jayaraman, K S) **353,** 377

Pesticides. Biopesticides: Control engineering, *News and views,* (Hochberg, M E and Waage, J K) **352,** 16

Biotechnology: A first step, but still a long way to go, *News,* (Berlfein, J) **352,** 365

Petroleum genesis. Geochemistry: Stability of petroleum, *News and views,* (Hayes, J M) **352,** 108

The stability of hydrocarbons under the time-temperature conditions of petroleum genesis, *Letter to Nature,* (Mango, F D) **352,** 146

Petroleum geology. Petroleum geology: Black gold causes a stir, *News,* (Aldhous, P) **353,** 593

Petroleum, biodegradation. Biodegradation of refractory hydrocarbon biomarkers from petroleum under laboratory conditions, *Letter to Nature,* (Chosson, P, Lanau, C, Connan, J and Dessort, D) **351,** 640

Petrology, granulites. Isotopic evidence for involvement of CO$_2$-bearing magmas in granulite formation, *Letter to Nature,* (Farquhar, J and Chacko, T) **354,** 60

Petrology, igneous. Increased mantle melting beneath Snaefellsjökull volcano during Late Pleistocene deglaciation, *Letter to Nature,* (Hardarson, B S and Fitton, J G) **353,** 62

Picritic glasses from Hawaii, *Letter to Nature,* (Clague, D A, Weber, W S and Dixon, J E) **353,** 553

Petrology, metamorphic. Evidence for a regional-scale fluid loss event during mid-crustal metamorphism, *Letter to Nature,* (Yardley, B, Bottrell, S H and Cliff, R A) **349,** 151

In a nutshell, *News and views,* **353,** 21

Metamorphic fluid flow, *Scientific correspondence,* (Tanner, P W G) **352,** 483

Metamorphic fluid flow: Reply, *Scientific correspondence,* (Yardley, B, Bottrell, S H and Cliff, R A) **352,** 484

Petrology, sedimentary. Largest known microbialites discovered in Lake Van, Turkey, *Letter to Nature,* (Kempe, S, Kazmierczak, J, Landmann, G, Konuk, T, Reimer, A and Lipp, A) **349,** 605

Phagocytes. Activation of the NADPH oxidase involves the small GTP-binding protein p21^{rac1}, *Letter to Nature,* (Abo, A, Pick, E, Hall, A, Totty, N, Teahan, C G and Segal, A W) **353,** 668

Pharmaceutical industry, Europe. Pharmaceutical patents: EC row looms over patents, *News,* (Aldhous, P) **350,** 645

Pharmaceutical industry, France. Biotechnology: French drug industry initiative, *News,* (Anderson, C) **353,** 487

Pharmaceutical industry, Switzerland. Switzerland: Doubt afflicts Swiss anniversary, *News,* (Maddox, J) **352,** 371

Pharmaceutical industry, US. FDA announces reforms of drug review process, *News,* (Anderson, C) **354,** 173

University-industry collaboration: Questions on drug pact, *News,* (Shulman, S) **350,** 645

Pharmaceutical industry. Conservation: 'Hunting licence' for drugs, *News*, (Aldhous, P) **353,** 290
Does industry corrupt?, *Opinion*, **351,** 334
FDA vs. free speechover drug promotions, *News*, (Anderson, C) **354,** 421
Pharmaceuticals, AIDS drugs. US drug regulation: AIDS politics change rules, *News*, (Schaefer, E) **349,** 187
Pharmaceuticals, Germany. Genetic engineering: TNF production licensed, *News*, (Dickman, S) **349,** 271
Pharmaceuticals. Biotechnology: More problems than products, *News*, **349,** 5
US challenge to AZT patent, *News*, (Anderson, C) **349,** 93
Pharmacology. Cloning and expression of cDNA for a human thromboxane A_2 receptor, *Letter to Nature*, (Hirata, M, Hayashi, Y, Ushikubi, F, Yokota, Y, Kageyama, R, Nakanishi, S and Narumiya, S) **349,** 617
Cloning of the gene for a human dopamine D_3 receptor with high affinity for the antipsychotic clozapine, *Letter to Nature*, (Van Tol, H H M, Bunzow, J R, Guan, H-C, Sunahara, R K, Seeman, P, Niznik, H B and Civelli, O) **350,** 610
Cloning of the gene for a human dopamine D_4 receptor with higher affinity for dopamine than D_2, *Letter to Nature*, (Sunahara, R K, Guan, H-C, O'Dowd, B F, Seeman, P, Laurier, L G, Ng, G, George, S R, Torchia, J, Van Tol, H H M and Niznik, H B) **350,** 614
Defence of diluted water, *Correspondence*, (Benveniste, J) **353,** 787
Dopamine activation of the arachidonic acid cascade as a basis for D_1/D_2receptor synergism, *Letter to Nature*, (Piomelli, D, Pilon, C, Giros, B, Sokoloff, P, Martres, M-P and Schwartz, J-C) **353,** 164
Drug discovery: A casebook and analysis, *book review by* Collier, J. (Maxwell, R A and Eckhardt, S B) **350,** 201
Expression cloning of a cocaine- and antidepressant-sensitive human noradrenaline transporter, *Letter to Nature*, (Pacholczyk, T, Blakely, R D and Amara, S G) **350,** 350
In search of a cure: A history of pharmaceutical discovery, *book review by* Collier, J. (Weatherall, M) **350,** 201
Molecular cloning and characterization of the rat NMDA receptor, *Article*, (Moriyoshi, K, Masu, M, Ishii, T, Shigemoto, R, Mizuno, N and Nakanishi, S) **354,** 31
Molecular neurobiology: NMDA receptors cloned at last, *News and views*, (Mayer, M L) **354,** 16
Neuroscience: Vehicles of inactivation, *News and views*, (Snyder, S H) **354,** 187
Synthetic chemistry: A radical approach to cancer, *News and views*, (Jarman, M) **349,** 566
Phase transitions, cosmology. Cosmology: Texture and cosmic structure, *News and views*, (Silk, J and Juszkiewicz, R) **353,** 386
Particle physics and inflationary cosmology, *book review by* Turok, N. (Linde, A D) **350,** 666
Phase transitions, gels. Volume transition in a gel driven by hydrogen bonding, *Letter to Nature*, (Ilmain, F, Tanaka, T and Kokufuta, E) **349,** 400
Phase transitions, high-pressure. Structural transformation of quartz at high pressures, *Letter to Nature*, (Binggeli, N and Chelikowsky, J R) **353,** 344
Phase transitions, mantle. Aseismicity in the lower mantle by superplasticity of the descending slab, *Letter to Nature*, (Ito, E and Sato, H) **351,** 140
Relationship of deep seismicity to the thermal structure of subducted lithosphere, *Letter to Nature*, (Helffrich, G and Brodholt, J) **353,** 252
Spinel elasticity and seismic structure of the transition zone of the mantle, *Letter to Nature*, (Rigden, S M, Gwanmesia, G D, Fitz Gerald, J D, Jackson, I and Liebermann, R C) **354,** 143
Phase transitions, silica. Relation between crystal symmetry and ionicity in silica polymorphs, *Letter to Nature*, (Kramer, G J, van Beest, W H and van Santen, R A) **351,** 636
Phase transitions, solid-state. Shock-induced martensitic phase transformation of oriented graphite to diamond, *Letter to Nature*, (Erskine, D J and Nellis, W J) **349,** 317
Phase transitions, superconductivity. Anomalous neutron scattering near the superconducting phase transition, *Letter to Nature*, (Bernhoeft, N R, Allen, P J, Paul, D McK, Hayden, S M, Timmins, P A and Lonzarich, G G) **350,** 690
Phase transitions, surfaces. Observation of surface reconstruction on silicon above 800C using the STM, *Letter to Nature*, (Kitamura, S, Sato, T and Iwatsuki, M) **351,** 215
Phase transitions. High-pressure dialectric measurements of solid hydrogen to 170 GPa, *Letter to Nature*, (Hemley, R J, Hanfland, M and Mao, H K) **350,** 488
Ionicity in silica, *Scientific correspondence*, (Silvi, B, D'Arco, P and Causà, M) **353,** 394
Materials science: Dropping below freezing point, *News and views*, (Cahn, R W) **349,** 736
Pressure-induced amorphization and disordering on coo'ing in a crystalline polymer, *Letter to Nature*, (Rastogi, S, Newman, M and Keller, A) **353,** 55
Saccharide-sensitive phase transition of a lectin-loaded gel, *Letter to Nature*, (Kokufata, E, Zhang, Y-Q and Tanaka, T) **351,** 302
Philology. Meanings, *Correspondence*, (Goodman, N W) **354,** 10
New words, *Correspondence*, (Marshall, J H) **352,** 751
Philosophy of science. Baer facts, *Correspondence*, (Kaavere, V) **353,** 104
Bayesian reasoning in science, *Commentary*, (Howson, C and Urbach, P) **350,** 371
Lacuna seeker, *Correspondence*, (Kell, D B) **350,** 268
Niels Bohr's times, in physics, philosophy and polity, *book review by* Ziman, J., (Pais, A) **353,** 511
Reductionism, *Correspondence*, (Barnett, S A) **353,** 786
Scientism: Philosophy and the infatuation with science, (Sorell, T) *book review by* Kitcher, P. **354,** 118
The rhetoric of science, *book review by* Ravetz, J R. (Gross, A G) **350,** 30
Philosophy, Arabic. Arabic sciences and philosophy, *journal review by* Sardar, Z., (Musallem, B, Rashed, R, Jolivet, J, Mahdi, M and Saliba, G *editors*) **353,** 459
Philosophy. A universal Hamlet?, *Correspondence*, (Elomaa, E) **351,** 179
A universal Hamlet?, *Correspondence*, (Rakitzis, E T) **351,** 179
Extremes of reality, *Correspondence*, (Estling, R) **352,** 100
Pseudo-dilemma?, *Correspondence*, (Craig, W L) **354,** 347
Science, optics and music in medieval and early modern thought, *book review by* Hall, A R. (Crombie, A C) **350,** 30
The magic of numbers and motion: The scientific career of René Descartes, *book review by* Hall, A R. (Shea, W R) **352,** 675
Wittgenstein and reality, *Correspondence*, (Bird, R J) **351,** 10
Wittgenstein and reality, *Correspondence*, (Jenner, F A) **351,** 10
Wittgenstein's paranoia, *Correspondence*, (Smythies, J R) **350,** 9
Phonons, superconductivity. Phonon suppression of coherence peak in nuclear spin relaxation rate of superconductors, *Letter to Nature*, (Allen, P B and Rainer, D) **349,** 396
Photoreceptors. A *Drosophila* mutant defective in extracellular calcium-dependent photoreceptor deactivation and rapid desensitization, *Letter to Nature*, (Ranganathan, R, Harris, G L, Stevens, C F and Zuker, C S) **354,** 230
A three-base-pair deletion in the perpherin-*RDS* gene in one form of retinitis pigmentosa, *Letter to Nature*, (Farrar, G J, Kenna, P, Jordan, S A, Kumar-Singh, R, Humphries, M M, Sharp, E M, Sheils, D M and Humphries, P) **354,** 478
Mutations in the human retinal degeneration slow gene in autosomal dominant, *Letter to Nature*, **354,** 480
Mutations in the human retinal degeneration slow gene in autosomal dominant retinitis pigmentosa, *Letter to Nature*, (Kajiwara, K, Hahn, L B, Mukai, S, Travis, G H, Berson, E L and Dryja, T P) **354,** 480
Relation of an array of early-differentiating cones to the photoreceptor mosaic in the primate retina, *Letter to Nature*, (Wikler, K C and Rakik, P) **351,** 397
Photosynthesis, isotope fractionation. Stable carbon isotope variation in C_3 and C_4 plants along the Amazon River, *Letter to Nature*, (Martinelli, L A, Devol, A H, Victoria, R L and Richey, J E) **353,** 57
Photosynthesis. Photoelectrochemistry: Bettering nature's solar cells, *News and views*, (Mallouk, T E) **353,** 698
Photosynthesis: Absorbing developments, *News and views*, (Evans, M C W and Nugent, J H A) **350,** 109
The major chloroplast envelope polypeptide is the phosphate translocator and not the protein import receptor, *Letter to Nature*, (Flügge, U-I, Weber, A, Fischer, K, Lottspeich, F, Eckerskorn, C, Waegemann, K and Soll, J) **353,** 364
Three-dimensional structure of plant light-harvesting complex determined by electron crystallography, *Article*, (Kühlbrandt, W and Wang, D N) **350,** 130
Phototaxis. Rhodopsin-regulated calcium currents in *Chlamydomonas*, *Letter to Nature*, (Harz, H and Hegemann, P) **351,** 489
Phototransduction. A cyclic GMP-activated channel in dissociated cells of the chick pineal gland, *Letter to Nature*, (Dryer, S E and Henderson, D) **353,** 756
Photovoltaic cells. Effect of cyanide on the photo-electrochemical response of n-CdSe/Fe$(CN)_6^{4-/3-}$electrolytic cells, *Letter to Nature*, (Seshadri, G, Chun, J K M and Bocarsly, A B) **352,** 508
Harnessing solar power: The photovoltaics challenge, *book review by* Kumar, A and Lewis, N. (Zweibel, K) **349,** 577
Phyletic gradualism. Stress and evolution, *Scientific correspondence*, (Parsons, P A) **351,** 356
Phylogenetic trees. Naming of the species, *Scientific correspondence*, (Lewin, R A) **353,** 611
Phylogenetics, molecular. Evolution: Two-layered awakening, *News and views*, (Barnes, R S K) **350,** 561
Phylogenetics. Identification *in situ* and phylogeny of uncultured bacterial endosymbionts, *Letter to Nature*, (Amann, R, Springer, N, Ludwig, W, Görtz, H-D and Schleifer, K-H) **351,** 161
More natural classification, *Scientific correspondence*, (Mayr, E) **353,** 122
Phylogeny. Phylogeny, ecology and behavior: A research program in comparative biology, *book review by* Siebert, D J and Humphries, C J (Brooks, D R and McLennan, D A) **353,** 615
Physical chemistry. Atoms, electrons and change, *book review by* Simons, J P., (Atkins, P W) **353,** 805
Physical oceanography. Ocean circulation beneath the Ronne ice shelf, *Letter to Nature*, (Nicholls, K W, Makinson, K and Robinson, A V) **354,** 221
Structure of the upper ocean in the western equatorial Pacific, *Letter to Nature*, (Richards, K J and Pollard, R T) **350,** 48
Physics, Brazil. Brazil: Physicist jumping ship, *News*, (Bonalume, R) **354,** 100
Physics, Canada. Physics and the rise of scientific research in Canada, *book review by* de la Mothe, J. (Gingras, Y) **352,** 488
Photoemission spectroscopy. Electronic states and phases of K_xC_{60} from photoemission and X-ray absorption spectroscopy, *Letter to Nature*, (Chen, C T, Tjeng, L H, Rudolf, P, Meigs, G, Rowe, J E, Chen, J, McCauley Jr, J P, Smith III, A B, McGhie, A R, Romanow, W J and Plummer, E W) **352,** 603
Photography. Obituary: Edwin Herbert Land (1909-1991), *News and views*, (Mollon, J D) **350,** 379
Photolithography. Biopolymers: Light on molecular recognition, *News and views*, (Kaiser, R, Hunkapiller, T and Hood, L) **350,** 656
Photolysis, colloidal iron. The photolysis of colloidal iron in the oceans, *Letter to Nature*, (Wells, M L, Mayer, L M, Donard, O F X, de Souza Sierra, M M and Ackelson, S G) **353,** 248
Photonic band gaps. Microwave localization by two-dimensional random scattering, *Letter to Nature*, (Dalichaouch, R, Armstrong, J P, Schultz, S, Platzman, P M and McCall, S L) **354,** 53
Optics: Photonic insulators, *News and views*, (Pendry, J B) **354,** 435
Photonic bandgaps. Disordered systems: Catching moonbeams, *News and views*, (Pendry, J B) **351,** 438
Hope for photonic bandgaps, *Scientific correspondence*, (Yablonovitch, E and Leung, K M) **351,** 278
Photoreception. Neurobiology: Most of the senses begin to make some sense, *News and views*, (Lancet, D) **353,** 799

Physics, mathematical. Reviews in mathematical physics, *journal review by* Clarke, C J S., (Araki, H *editor*) **353,** 478
Physics, Nobel Prize. Nobel Prize: Physics: A gift for unravelling complexity, *News,* (Ball, P) **353,** 689
Physics. Conversations on the dark secrets of physics, *book review by* Mulvey, J H. (Teller, E, Teller, W and Talley, W) **352,** 579
Where has fundamental physics gone?, *News and views,* (Maddox, J) **354,** 263
Physiological engineering. Pituitary hyperplasia and gigantism in mice caused by a cholera toxin transgene, *Letter to Nature,* (Burton, F H, Hasel, K W, Bloom, F E and Sutcliffe, J G) **350,** 74
Physiology. American journal of physiology: Lung cellular and molecular physiology, *journal review by* Peachell, P T., (Massaro, D J *editor*) **353,** 465
Calcium control and $InsP_3$, *Scientific correspondence,* (Irvine, R F) **352,** 115
Depth is encoded in the visual cortex by a specialized receptive field structure, *Letter to Nature,* (DeAngelis, G C, Ohzawa, I and Freeman, R D) **352,** 156
Homeostatic muffling, *Scientific correspondence,* (Thomas, R C, Coles, J A and Deitmer, J W) **350,** 564
Involvement of nitric oxide in the reflex relaxation of the stomach to accommodate food or fluid, *Letter to Nature,* (Desai, K M, Sessa, W C and Vane, J R) **351,** 477
Physiology: Cold facts and naked truth, *News and views,* (Cossins, A R) **353,** 699
Rheostasis: The physiology of change, *book review by* Schmidt-Nielsen, K. (Mrosovsky, N) **349,** 750
Visual neuroscience: Misaligned viewpoints, *News and views,* (Parker, A J) **352,** 109
Phytohormones. Plant growth hormones control voltage-dependent activity of anion channels in plasma membrane of guard cells, *Letter to Nature,* (Marten, I, Lohse, G and Hedrich, R) **353,** 758
Phytoplankton blooms. High turnover rates of dissolved organic carbon during a spring phytoplankton bloom, *Letter to Nature,* (Kirchman, D L, Suzuki, Y, Garside, C and Ducklow, H W) **352,** 612
Importance of *Phaeocystis* blooms in the high-latitude ocean carbon cycle, *Letter to Nature,* (Smith Jr, W O, Codispoti, L A, Nelson, D M, Manley, T, Buskey, E J, Niebauer, J and Cota, G F) **352,** 514
Phytoplankton, iron. Low iron requirement for growth in oceanic phytoplankton, *Letter to Nature,* (Sunda, W G, Swift, D G and Huntsman, S A) **351,** 55
Phytoplankton, remote sensing. Estimation of new production in the ocean by compound remote sensing, *Article,* (Sathyendranath, S, Platt, T, Horne, E P W, Harrison, W G, Ulloa, O, Outerbridge, R and Hoepffner, N) **353,** 129
Phytoplankton, sea surface temperatures. Biological control of surface temperature in the Arabian Sea, *Letter to Nature,* (Sathyendranath, S, Gouveia, A D, Shetye, S R, Ravindran, P and Platt, T) **349,** 54
Picritic glasses. Picritic glasses from Hawaii, *Letter to Nature,* (Clague, D A, Weber, W S and Dixon, J E) **353,** 553
Pig, genome project. Genome researchers go hog wild, *News,* (Anderson, C) **352,** 180
Piglet behaviour. This little piggie . . ., *News and views,* **354,** 266
Pineal gland. A cyclic GMP-activated channel in dissociated cells of the chick pineal gland, *Letter to Nature,* (Dryer, S E and Henderson, D) **353,** 756
Pituitary hyperplasia. Pituitary hyperplasia and gigantism in mice caused by a cholera toxin transgene, *Letter to Nature,* (Burton, F H, Hasel, K W, Bloom, F E and Sutcliffe, J G) **350,** 74
Pituitary tumours. Mutant α subunits of G_i inhibit cyclic AMP accumulation, *Letter to Nature,* (Wong, Y H, Federman, A, Pace, A M, Zachary, I, Evans, T, Pouysségur, J and Bourne, H R) **351,** 63
Plagiarism. Another mountain from a molehill, *News and views,* (Maddox, J) **351,** 13
Plagiarism: Misconduct increases at NSF, *News,* (Anderson, C) **354,** 422
Scientific integrity: Robocops: Stewart and Feder's mechanized misconduct search, *News,* (Anderson, C) **350,** 454
Scientific integrity: If Orwell had had a Macintosh (and a scanner), *News,* (Anderson, C) **350,** 454
Planetary atmospheres. Ancient oceans, ice sheets and the hydrological cycle on Mars, *Article,* (Baker, V R, Strom, R G, Gulick, V C, Kargel, J S, Komatsu, G and Kale, V S) **352,** 589
Early outgassing of Mars supported by differential water solubility of iodine and xenon, *Letter to Nature,* (Musselwhite, D S, Drake, M J and Swindle, T D) **352,** 697
Images of aurorae on Jupiter from H_3^+ emission at 4 μm, *Letter to Nature,* (Kim, S J, Drossart, P, Caldwell, J, Maillard, J-P, Herbst, T and Shure, M) **353,** 536
Imaging Jupiter's aurorae from H_3^+ emissions in the 3-4 μm band, *Letter to Nature,* (Baron, R, Joseph, R D, Owen, T, Tennyson, J, Miller, S and Ballester, G E) **353,** 539
Making Mars habitable, *Review article,* (McKay, C P, Toon, O B and Kasting, J F) **352,** 489
Planetary astronomy: Icy clues to Triton's origins, *News and views,* (McKinnon, W B) **354,** 431
Planetary atmospheres: Jupiter's stratosphere mapped, *News and views,* (Gierasch, P J) **351,** 103
Planetary sciences: Ice right under the Sun, *News and views,* (Chapman, C R) **354,** 504
Saturn: At the eye of the storm, *News and views,* (Flasar, F M) **349,** 21
Solar cycle relationship clouded by Neptune's sustained brightness maximum, *Letter to Nature,* (Lockwood, G W and Thompson, D T) **349,** 593
Spatial distribution of visible lightning on Jupiter, *Letter to Nature,* (Magalhaes, J A and Borucki, W J) **349,** 311
The Great White Spot and disturbances in Saturn's equatorial atmosphere during 1990, *Article,* (Sanchez-Lavega, A, Colas, F, Lecacheux, J, Laques, P, Miyazaki, I and Parker, D) **353,** 397
The quasiquadrennial oscillation of Jupiter's equatorial stratosphere, *Letter to Nature,* (Leovy, C B, Friedson, A J and Orton, G S) **354,** 380
Planetary formation. Astronomy: Comets in collision, *News and views,* (Weintraub, D A) **351,** 440
Geochemistry: Young Earth like Venus?, *News and views,* (Taylor, S R) **350,** 376
Planetary rings, Uranus. Uranus the planet, rings and satellites, *book review by* Borderies, N. (Miner, E D) **349,** 204
Planetary rings. Planetary rings: Ever decreasing circles, *News and views,* (Esposito, L W) **354,** 107
Planetary science. Erratum: The extended sodium nebula of Jupiter, *Letter to Nature,* (Mendillo, M, Baumgardner, J, Flynn, B and Hughes, W J) **349,** 811
Planetary sciences: An ice cap on Mercury, *News and views,* (Chapman, C R) **354,** 504
Soft core, *News and views,* **354,** 22
Wanderers in space: Exploration and discovery in the Solar System, (Lang, K R and Whitney, C A) *book review by* Chapman, C R. **354,** 28
Planets, non-solar. A planet orbiting the neutron star PSR1829-10, *Letter to Nature,* (Bailes, M, Lyne, A G and Shemar, S L) **352,** 311
A planet, not a plasma cloud?, *Scientific correspondence,* (Lyne, A) **352,** 573
A plasma cloud, not a planet?, *Scientific correspondence,* (Helfand, D J and Hamilton, T T) **352,** 481
Binary precursor for planet?, *Scientific correspondence,* (Fabian, A C and Podsiadlowski, Ph) **353,** 801
Creation by stellar ablation of the low-mass companion to pulsar 1829-10, *Letter to Nature,* (Krolik, J H) **353,** 829
Formation of a planet orbiting pulsar 1829-10 from the debris of a supernova explosion, *Letter to Nature,* (Lin, D N C, Woosley, S E and Bodenheimer, P H) **353,** 827
From science fiction to reality?, *book review by* Tipler, F J. **354,** 362
New possibility for planet, *Scientific correspondence,* (Dawson, P C) **352,** 763
Planet searches: It's all in the timing, *News and views,* (Black, D) **352,** 278
The origin of the planet orbiting PSR1829-10, *Letter to Nature,* (Podsiadlowski, Ph, Pringle, J E and Rees, M J) **352,** 783
Plant biochemistry. Molecular activities of plant cells: An introduction to plant biochemistry, (Anderson, J W and Beardall, J) *book review by* Rubery, P. **354,** 196
Plant breeding. Plants, power and profit, *book review by* Krimsky, S. (Busch, L, Lacy, W B, Burkhardt, J and Lacy, L R) **350,** 568
Plant cells, cytokinesis. Microtubule translocation in the cytokinetic apparatus of cultured tobacco cells, *Letter to Nature,* (Asada, T, Sonobe, S and Shibaoka, H) **350,** 238
Plant development. A portable palette, *News and views,* **353,** 20
The development gene *Knotted-1* is a member of a maize homeobox gene family, *Letter to Nature,* (Vollbrecht, E, Veit, B, Sinha, N and Hake, S) **350,** 241
The war of the whorls: genetic interactions controlling flower development, *Review article,* (Coen, E S and Meyerowitz, E M) **353,** 31
Plant diversity, neotropical. Neotropical plant diversity, *Scientific correspondence,* (Henderson, A, Churchill, S P and Luteyn, J L) **351,** 21
Plant ecology. British plant communities. Vol. I. Woodlands and scrub, *book review by* Crawley, M J., (Rodwell, J S *editor*) **353,** 224
Plant genetics. Mutations affecting body organization in the *Arabidopsis* embryo, *Article,* (Mayer, U, Ruiz, R A T, Berleth, T, Miséra, S and Jürgens, G) **353,** 402
Plant genetics: Abnormal developments, *News and views,* (Meyerowitz, E M) **353,** 385
Plant growth hormones. Plant growth hormones control voltage-dependent activity of anion channels in plasma membrane of guard cells, *Letter to Nature,* (Marten, I, Lohse, G and Hedrich, R) **353,** 758
Plant physiology. Plant physiology, *book review by* Jarvis, B C., (Taiz, L and Zeiger, E) **353,** 30
Streamside trees that do not use stream water, *Letter to Nature,* (Dawson, T E and Ehleringer, J R) **350,** 335
Plant population dynamics. Oscillations and chaos in the dynamics of a perennial grass, *Letter to Nature,* (Tilman, D and Wedin, D) **353,** 653
Plant science. A novel highly unsaturated fatty acid moiety of lipo-oligosaccharide signals determines host specificity of *Rhizobium* (Spaink, H P, Sheeley, D M, van Brussel, A A N, Glushka, J, York, W S, Tak, T, Geiger, O, Kennedy, E P, Reinhold, V N and Lugtenberg, B J J) **354,** 125
Plastid genes and parasitic plants, *Scientific correspondence,* (Wallsgrove, R M) **350,** 664
The major chloroplast envelope polypeptide is the phosphate translocator and not the protein import receptor, *Letter to Nature,* (Flügge, U-I, Weber, A, Fischer, K, Lottspeich, F, Eckerskorn, C, Waegemann, K and Soli, J) **353,** 364
Plant-pest interactions. Herbivore-driven mycorrhizal mutualism in insect-susceptible pinyon pine, *Letter to Nature,* (Gehring, C A and Whitham, T G) **353,** 556
Plants, genetic resources. Direct access to serum macromolecules by intraerythrocytic malaria parasites, *Letter to Nature,* (Pouvelle, B, Spiegel, R, Hsiao, L, Howard, R J, Morris, R L, Thomas, A P and Taraschi, T F) **353,** 73
Plants, not pandas, *News,* (Anderson, C) **353,** 784
Plants, insectivorous. Ecology: Prey for the plundering, *News and views,* (Moore, P D) **350,** 192
Plants, nectar production. What does it cost a plant to produce floral nectar?, *Letter to Nature,* (Pyke, G H) **350,** 58
Plasma clouds, astrophysical. A plasma cloud, not a planet?, *Scientific correspondence,* (Helfand, D J and Hamilton, T T) **352,** 481
Plasma lenses. Particle accelerators: Focusing for free, *Letter to Nature,* (Evans, R) **351,** 522
Plasma physics. Fusion energy: The moment of truth nears, *News and views,* (Petrasso, R D) **350,** 661
Physics of space plasmas: An introduction, *book review by* Saunders, M. (Parks, G K) **351,** 281
Plasma fireballs formed by microwave interference in air, *Letter to Nature,* (Ohtsuki, Y H and Ofuruton, H) **350,** 139
Plasma physics: Just a light squeeze, *News and views,* (Pease, R S) **349,** 466
Plastics, recycled. Stronger recycled plastics, *Scientific correspondence,* (Nosker, T J, Morrow, D R, Renfree, R W, Van Ness, K E and Donaghy, J J) **350,** 563
Plastics. Fashioning wet-look latex, *News and views,* (Ball, P) **350,** 112
Latex elastomer with a permanently hydrophilic surface, *Letter to Nature,* (Noda, I) **350,** 143
Plastid genes. Plastid genes and parasitic plants, *Scientific correspondence,* (Wallsgrove, R M) **350,** 664
Plastids. Cryptomonad algae are evolutionary chimaeras of two phylogenetically distinct unicellular eukaryotes, *Letter to Nature,* (Douglas, S E, Murphy, C A, Spencer, D F and Gray, M W) **350,** 148
Plastid origins, *Scientific correspondence,* (Douglas, S E and Gray, M W) **352,** 290
Plate tectonics. Continental drift, *Correspondence,* (Goodacre, A) **354,** 261
Geological faulting: Do little things matter?, *News and views,* (King, G and Cisternas, A) **351,** 350
Geophysics: The lost continents, *News and views,* (Schubert, G) **354,** 358
Global tectonics, *book review by* Smith, P J. (Keary, P and Vine, F J) **350,** 200
Isotope dating: Quick shifts in plate motion, *News and views,* (Yardley, B W D) **354,** 269
Palaeomagnetism: Plate tectonic speed limits, *News and views,* (Gordon, R G) **349,** 16
Plate tectonics: About turn for supercontinents, *News and views,* (Hartnady, C J H) **352,** 476
Rapid dewatering of the crust deduced from ages of mesothermal gold deposits, *Letter to Nature,* (Goldfarb, R J, Snee, L W, Miller, L D and Newberry, R J) **354,** 296
The importance of small-scale faulting in regional extension, *Letter to Nature,* (Walsh, J, Watterson, J and Yielding, G) **351,** 391
Tomographic imaging of subducted lithosphere below northwest Pacific island arcs, *Article,* (van der Hilst, R, Engdahl, R, Spakman, W and Nolet, G) **353,** 37
Platelet activation. Domains specifying thrombin-receptor interaction, *Letter to Nature,* (Vu, T-K H, Wheaton, V I, Hung, D T, Charo, I and Coughlin, S R) **353,** 674
Platelet aggregation. Cloning and expression of cDNA for a human thromboxane A_2 receptor, *Letter to Nature,* (Hirata, M, Hayashi, Y, Ushikubi, F, Yokota, Y, Kageyama, R, Nakanishi, S and Narumiya, S) **349,** 617
Thrombin receptor: Variations on a theme, *Pneumocystis carinii.* (Lefkowitz, R J) **351,** 353
Platelets. A discrete sequence in a platelet integrin is involved in ligand recognition, *Letter to Nature,* (D'Souza, S E, Ginsberg, M H, Matsueda, G R and Plow, E F) **350,** 66
The next cluster of differentiation (CD) workshop, *Product Review,* (Springer, T A) **354,** 415
Plesiosaurs, olfaction. Dorsal nostrils and hydrodynamically driven underwater olfaction in plesiosaurs, *Letter to Nature,* (Cruickshank, A R I, Small, P G and Taylor, M A) **352,** 62
Pluto. Solar System: A plurality of worlds, *News and views,* (Weidenschilling, S J) **352,** 190
Plutonium, Japan. Nuclear power: Japan debates plutonium, *News,* (Swinbanks, D) **352,** 7
Poisson's ratio, negative. Molecular network design, *Scientific correspondence,* (Evans, K E, Nkansah, M A, Hutchinson, I J and Rogers, S C) **353,** 124
Poisson's ratio. Microstructure of isotropic materials with negative Poisson's ratio, *Letter to Nature,* (Rothenburg, L, Berlin, A A and Bathurst, R J) **354,** 470
Poland, industrial research. Hard times for Polish industrial researchers, *News,* (Aldhous, P) **354,** 341
Polar research, France. French polar research: Poles together, *News,* (Aldhous, P) **354,** 425

Polar wander. Earth sciences: A superplume in the mantle, *News and views,* (Cox, K G) **352,** 564
Polarization perception, birds. Ornithology: The question of polarization, *News and views,* (Martin, G R) **350,** 194
Polarization vision. Double cones as a basis for a new type of polarization vision in vertebrates, *Letter to Nature,* (Cameron, D A and Pugh Jr, E N) **353,** 161
Polimers. Nobel Prize: Physics: A gift for unravelling complexity, *News,* (Ball, P) **353,** 689
Polio, vaccination. Food and drug administration: Tempest over polio vaccine, *News,* (Anderson, C) **351,** 510
Politics, Japan. Japanese politics: New science pressure group, *News,* (Swinbanks, D) **354,** 342
Politics, Middle East. When will the Gulf War be over?, *Opinion,* **350,** 363
Politics, Soviet Union. Mikhail Gorbachev's tightest corner, *Opinion,* **350,** 639
Science and the Soviet social order, *book review by* Medvedev, Z A. (Graham, L R) **350,** 283
Politics, UK. Policy by stealth, *Opinion,* **351,** 592
Third party assurance?, *Opinion,* **352,** 360
UK science policy: Tories respond to Labour plan, *News,* (Gee, H) **351,** 596
Politics, Yugoslavia. A plea from Croatia, *Correspondence,* (Vucak, I and Juretic, A) **353,** 597
Pollination. Floral colour changes as cues for pollinators, *Letter to Nature,* (Weiss, M R) **354,** 227
Pollution, acidification. Acid rain and acid waters, *book review by* Battarbee, R W. (Howells, G) **350,** 285
Pollution, Antarctica. Research in Antarctica: Oil biology: In troubled waters, *News,* (Anderson, C) **350,** 293
Pollution, atmospheric. Global air pollution: Problems for the 1990s, *book review by* Birks, J W. (Bridgman, H) **349,** 472
The changing atmosphere: A global challenge, *book review by* Birks, J W. (Firor, J) **349,** 472
Pollution, biodegradation. US-Japan collaboration to develop oil-eating bacteria, *News,* (Swinbanks, D) **350,** 266
Pollution, Czechoslovakia. Czechoslovak environment, *Correspondence,* (Nondek, L) **354,** 180
Pollution, East Germany. Cancer epidemiology: Gold mine in East Germany?, *News,* (Dickman, S) **349,** 728
Pollution, Gulf oil spill. Gulf oil spill: Let nature take its course, *News,* (Aldhous, P) **349,** 731
Pollution, Japan. Japan: Pollution on the upswing, *News,* (Swinbanks, D) **351,** 5
Pollution, lead. Lead risks, *Scientific correspondence,* (Weiner, S L and Goodman, G) **352,** 385
Pollution, mercury. Mercury risk from teeth, *Scientific correspondence,* (Basu, M K, Wilson, H J and Krishnan, G) **349,** 109
Mercury risk from teeth: Reply, *Scientific correspondence,* (Mills, A) **349,** 109
Pollution, nitrates. Chemical removal of nitrate from water, *Letter to Nature,* (Murphy, A P) **350,** 223
Fertilizer and climate change, *Scientific correspondence,* (Turner, R E) **349,** 469
Human influence on river nitrogen, *Scientific correspondence,* (Peierls, B L, Caraco, N F, Pace, M L and Cole, J J) **350,** 386
Pollution, oceans. Oceans of garbage, *Scientific correspondence,* (Benton, T) **352,** 113
Pollution, oil fires. Airborne observations of the physical and chemical characteristics of the Kuwait oil smoke plume, *Article,* (Johnson, D W, Kilsby, C G, McKenna, D S, Saunders, R W, Jenkins, G J, Smith, F B and Foot, J S) **353,** 617
Climate response to smoke from the burning oil wells in Kuwait, *Article,* (Bakan, S, Chlond, A, Cubasch, U, Feichter, J, Graf, H, Grassl, H, Hasselmann, K, Kirchner, I, Latif, M, Rockner, E, Sausen, R, Schlese, U, Schriever, D, Schult, I, Schumann, U, Sielmann, F and Welke, W) **351,** 367
Environmental effects from burning oil wells in Kuwait, *Article,* (Browning, K A, Allam, R J, Ballard, S P, Barnes, R T H, Bennetts, D A, Maryon, R H, Mason, P J, McKenna, D, Mitchell, J F B, Senior, C A, Slingo, A and Smith, F B) **351,** 363
Environmental impact of fires in Kuwait, *Commentary,* (Small, R D) **350,** 11
Oil-well fires: Smog alert in Kuwait City, *News,* (Aldhous, P) **350,** 98
Quenching the wild wells of Kuwait, *Commentary,* (Garwin, R L and Kendall, H W) **354,** 11
Pollution, oil spills. Gulf oil spill, *Correspondence,* (Radwan, S S) **350,** 456
Gulf oil spill: Big test for bioremediation, *News,* (Aldhous, P) **349,** 447
India: Impact of Gulf War, *News,* (Jayaraman, K S) **349,** 447
Mediterranean oil spill: Riviera under threat, *News,* (Aldhous, P) **350,** 547
Oil spill clean-up, *Scientific correspondence,* (Claxton, L D, Houk, V S, Williams, R and Kremer, F) **353,** 24
Pollution and the Persian Gulf, *Scientific correspondence,* (Bohle-Carbonell, M) **350,** 25
Pollution, rubbish. Odd omission, *Scientific correspondence,* (Merrick, R D) **352,** 387
Pollution, smoke. Influence of biomass burning on equatorial African rains, *Letter to Nature,* (Cachier, H and Ducret, J) **352,** 228
Pollution, space. In a flash, *News and views,* **351,** 520
Pollution, sulphur. Origin of sulphur in Canadian Arctic haze from isotope measurements, *Letter to Nature,* (Nriagu, J O, Coker, R D and Barrie, L A) **349,** 142
Pollution, toxic chemicals. US government orders new look at dioxin, *News and views,* (Culliton, B J) **352,** 753
Pollution, trace metals. Decrease in anthropogenic lead, cadmium and zinc in Greenland snows since the late 1960s, *Letter to Nature,* (Boutron, C F, Görlach, U, Candelone, J-P, Bolshov, M A and Delmas, R J) **353,** 153
Pollution, US. The limits of law: The public regulation of private pollution, *book review by* Ashby, E. (Yeager, P C) **351,** 23
Pollution. Environmental advice, *News,* (Aldhous, P) **352,** 362
Environmental regulation: Polluters pay at auction, *News,* (Pool, R) **351,** 337
Structure of the detoxification catalyst mercuric ion reductase from *Bacillus* sp. strain RC607, *Letter to Nature,* (Schiering, N, Kabsch, W, Moore, M J, Distefano, M D, Walsh, C T and Pai, E F) **352,** 168
Technological risk, *book review by* Sills, D L. (Lewis, H W) **349,** 749
Poly(A) polymerase. Cloning and expression of the essential gene for poly(A) polymerase from *S. cerevisiae* (Lingner, J, Kellermann, J and Keller, W) **354,** 496
Primary structure and expression of bovine poly(A) polymerase, *Article,* (Raabe, T, Bollum, F J and Manley, J L) **353,** 229
Polychaetes. Size is important, *News and views,* **351,** 190
Polycyclic compounds. Polycyclic aromatic compounds, *journal review by* Roberts, S., (Zander, M *editor*) **353,** 471
Polyenes. Off-axis orientation of the electronic transition moment for a linear conjugated polyene, *Letter to Nature,* (Shang, Q-y, Dou, X and Hudson, B S) **352,** 703
Polyhedra. Extension of Euler's theorem to symmetry properties of polyhedra, *Letter to Nature,* (Ceulemans, A and Fowler, P W) **353,** 52
Polymer films. Highly oriented thin films of poly(tetrafluoroethylene) as a substrate for oriented growth of materials, *Letter to Nature,* (Wittmann, J C and Smith, P) **352,** 414
Molecular electronics: Bringing molecules to order, *News and views,* (Friend, R) **352,** 377
Polymer gels. Volume transition in a gel driven by hydrogen bonding, *Letter to Nature,* (Ilmain, F, Tanaka, T and Kokufuta, E) **349,** 400
Polymer physics. Pressure-induced amorphization and disordering on cooling in a crystalline polymer, *Letter to Nature,* (Rastogi, S, Newman, M and Keller, A) **353,** 55
Polymer science. Chemical fluff, *News and views,* **354,** 266
Electrically erodible polymer gel for controlled release of drugs, *Letter to Nature,* (Kwon, I C, Bae, Y H and Kim, S W) **354,** 291
Fashioning wet-look latex, *News and views,* (Ball, P) **350,** 112
Forces between polymer-bearing surfaces undergoing shear, *Letter to Nature,* (Klein, J, Perahia, D and Warburg, S) **352,** 143
Introduction to polymer dynamics, *book review by* Graessley, W W. (de Gennes, P G) **349,** 576
Latex elastomer with a permanently hydrophilic surface, *Letter to Nature,* (Noda, I) **350,** 143
Model membranes: Playing a molecular accordion, *News and views,* (Cates, M) **351,** 102
Polymers for advanced technologies, *journal review by* Pethrick, R A., (Lewin, M *editor*) **3:3,** 473
Saccharide-sensitive phase transition of a lectin-loaded gel, *Letter to Nature,* (Kokufata, E, Zhang, Y-Q and Tanaka, T) **351,** 302
Stronger recycled plastics, *Scientific correspondence,* (Nosker, T J, Morrow, D R, Renfree, R W, Van Ness, K E and Donaghy, J J) **350,** 563
Polymerase chain reaction, patents. Biotechnology: Cetus retains PCR patents, *News,* (Schaefer, E) **350,** 6
Polymerase chain reaction. Ancient *HLA* genes from 7,500-year-old archaeological remains, *Letter to Nature,* (Lawlor, D A, Dickel, C D, Hauswirth, W W and Parham, P) **349,** 785
Biotechnology: Is Cetus selling the family silver?, *News,* (Gershon, D) **352,** 364
Bone hard, *News and views,* **351,** 16
DNA typing of museum birds, *Scientific correspondence,* (Ellegren, H) **354,** 113
Identification *in situ* and phylogeny of uncultured bacterial endosymbionts, *Letter to Nature,* (Amann, R, Springer, N, Ludwig, W, Görtz, H-D and Schleifer, K-H) **351,** 161
Lethargic viruses, *News and views,* **350,** 273
PCR DNA typing for forensics, *Correspondence,* (Dallapiccola, B, Novelli, G and Spinella, A) **354,** 179
Polymerization, proteins. Biopolymers: Light on molecular recognition, *News and views,* (Kaiser, R, Hunkapiller, T and Hood, L) **350,** 656
Polymers, biomineralization. Biominerals: Flattery by imitation, *News and views,* (Mann, S) **349,** 285
Crystallization of an inorganic phase controlled by a polymer matrix, *Letter to Nature,* (Bianconi, P A, Lin, J and Strzelecki, A R) **349,** 315
Polymers, mechanical properties. Molecular network design, *Scientific correspondence,* (Evans, K E, Nkansah, M A, Hutchinson, I J and Rogers, S C) **353,** 124
Polymers, silicon. Synthesis of pentacoordinate silicon complexes from SiO_2, *Letter to Nature,* (Laine, R M, Blohowiak, K Y, Robinson, T R, Hoppe, M L, Nardi, P, Kampf, J and Uhm, J) **353,** 642
Polymorphism. Conservation of polymorphic simple sequence loci in cetacean species, *Letter to Nature,* (Schlötterer, C, Amos, B and Tautz, D) **354,** 63
Neutral mutation hypothesis test, *Scientific correspondence,* (Graur, D and Li, W-H) **354,** 114
Neutral mutation hypothesis test, *Scientific correspondence,* (Whittam, T S and Nei, M) **354,** 115
Neutral mutation hypothesis test: Reply, *Scientific correspondence,* (McDonald, J H and Kreitman, M) **354,** 116
Polynuclear metal complexes. Layered magnetic structure of a metal cluster ion, *Letter to Nature,* (Gatteschi, D, Pardi, L, Barra, A L, Müller, A and Döring, J) **354,** 463
Polyoma virus, middle-T antigen. Association of $p60^{c\text{-}src}$ with polyoma virus middle-T antigen abrogating mitosis-specific activation, *Letter to Nature,* (Kaech, S, Covic, L, Wyss, A and Ballmer-Hofer, K) **350,** 431
Polyomaviruses. Structure of simian virus 40 at 3.8-Å resolution, *Article,* (Liddington, R C, Yan, Y, Moulai, J, Sahli, R, Benjamin, T L and Harrison, S C) **354,** 278
Polyphosphates. Volcanic production of polyphosphates and its relevance to prebiotic evolution, *Letter to Nature,* (Yamagata, Y, Watanabe, H, Saitoh, M and Namba, T) **352,** 516
Polysilanes. Air-stable alkali-metal colloids and the blue colour in Wurtz syntheses, *Letter to Nature,* (Benfield, R E, Cragg, R H, Jones, R G and Swain, A C) **353,** 340
Polytechnics, UK. Higher education: British move sows confusion, *News,* (Maddox, J) **351,** 508
Less class distinction, *Opinion,* **351,** 256
UK higher education: Polytechnics seeking their fair share, *News,* (Aldhous, P) **349,** 360
UK science: Polys gain, *News,* (Aldhous, P) **349,** 443
University/polytechnic distinction to end, *News,* (Aldhous, P) **351,** 257
Population biology, human. Disease, mortality and population in transition: Change in England since the eighteenth century as part of a global phenomenon, *book review by* Porter, R. (Mercer, A) **349,** 663
Population biology. Diversity overrated, *Correspondence,* (Young, T P) **352,** 10
Parallel within-island microevolution of lizards on neighbouring islands, *Letter to Nature,* (Brown, R P, Thorpe, R S and Báez, M) **352,** 60
Population biology: Flying in the face of reason, *News and views,* (Sutherland, W J) **353,** 211
Signalling of need by offspring to their parents, *Letter to Nature,* (Godfray, H C J) **352,** 328
Population dynamics, insects. Spatial structure and chaos in insect population dynamics, *Letter to Nature,* (Hassell, M P, Comins, H N and May, R M) **353,** 255
Population dynamics, plants. Oscillations and chaos in the dynamics of a perennial grass, *Letter to Nature,* (Tilman, D and Wedin, D) **353,** 653
Population ecology. Delayed density-dependence, *Scientific correspondence,* (Hanski, I and Woiwood, I) **350,** 28
Ecosystem trends, *Scientific correspondence,* (Moen, J and Oksanen, L) **353,** 510
Population ecology: Chaos in time and space, *News and views,* (Ives, A R) **353,** 214
Population genetics. Ancient *HLA* genes from 7,500-year-old archaeological remains, *Letter to Nature,* (Lawlor, D A, Dickel, C D, Hauswirth, W W and Parham, P) **349,** 785
Gene flow between African- and European-derived honey bee populations in Argentina, *Letter to Nature,* (Sheppard, W S, Rinderer, T E, Mazzoli, J A, Stelzer, J A and Shimanuki, H) **349,** 782
Genetic evidence for the spread of agriculture in Europe by demic diffusion, *Letter to Nature,* (Sokal, R R, Oden, N L and Wilson, C) **351,** 143
Population genetics: Farming is in the blood, *News and views,* (Jones, J S) **351,** 97
Rapid spread of an inherited incompatibility factor in California *Drosophila*, *Letter to Nature,* (Turelli, M and Hoffmann, A A) **353,** 440
Population growth. New technologies needed, *Correspondence,* (Sherr, E B) **352,** 752
Worrying trends, *Correspondence,* (Rout, A) **354,** 261
Pore waters, iron. Distribution of dissolved iron in sediment pore waters at submillimetre resolution, *Letter to Nature,* (Davison, W, Grime, G W, Morgan, J A W and Clarke, K) **352,** 323
Pore waters, sediments. Microbial production of organic acids in aquitard sediments and its role in aquifer geochemistry, *Letter to Nature,* (McMahon, P B and Chapelle, F H) **349,** 233
Porins. Structural architecture of an outer membrane channel as determined by electron crystallography, *Letter to Nature,* (Jap, B K, Walian, P J and Gehring, K) **350,** 167
Porous media. Diffraction-like effects in NMR diffusion studies of fluids in porous solids, *Letter to Nature,* (Callaghan, P T, Coy, A, MacGowan, D, Packer, K J and Zelaya, F O) **351,** 467
Dispersion and advection in unsaturated porous media enhanced by anion exclusion, *Letter to Nature,* (Gvirtzman, H and Gorelick, S M) **352,** 793
NMR: Diffusion and diffraction, *News and views,* (Cotts, R M) **351,** 443
Porphyrins. Charge migration in supramolecular stacks of peripherally substituted porphyrins, *Letter to Nature,* (Schouten, P G, Warman, J M, de Haas, M P, Fox, M A and Pan, H-L) **353,** 736
Porpoises. Marine cats' eyes, *News,* (Aldhous, P) **353,** 373

Positron annihilation, Galactic Centre. Is the Galactic Centre gamma-ray source 1E1740.7-2942 accreting from a molecular cloud?, *Letter to Nature*, (Bally, J and Leventhal, M) **353,** 234
Milky Way galaxy: annihilation near the centre, *News and views*, (Ramaty, R and Lingenfelter, R E) **353,** 215
Positrons, solid-state physics. Can any anti-particle make a probe?, *News and views*, (Maddox, J) **353,** 207
Postviral fatigue syndrome. Lethargic viruses, *News and views*, **350,** 273
Potassium channels. Activation by adrenaline of a low-conductance G protein-dependent K^+ channel in mouse pancreatic B cells, *Letter to Nature*, (Rorsman, P, Bokvist, K, Ämmälä, C, Arkhammar, P, Berggren, P-O, Larsson, O and Wåhlander, K) **349,** 77
Alteration of ionic selectivity of a K^+ channel by mutation of the H5 region, *Letter to Nature*, (Yool, A J and Schwarz, T L) **349,** 700
ATP-sensitive K^+ channel in the mitochondrial inner membrane, *Letter to Nature*, (Inoue, I, Nagase, H, Kishi, K and Higuti, T) **352,** 244
Cloned neuronal $I_K(A)$ channels reopen during recovery from inactivation, *Letter to Nature*, (Ruppersberg, J P, Frank, R, Pongs, O and Stocker, M) **353,** 657
Determination of the subunit stoichiometry of a voltage-activated potassium channel, *Letter to Nature*, (MacKinnon, R) **350,** 232
Novel form of long-term potentiation produced by a K^+ channel blocker in the hippocampus, *Letter to Nature*, (Aniksztejn, L and Ben-Ari, Y) **349,** 67
Putative receptor for the cytoplasmic inactivation gate in the *Shaker* K^+ channel, *Letter to Nature*, (Isacoff, E Y, Jan, Y N and Jan, L Y) **353,** 86
Voltage-sensing residues in the S4 region of a mammalian K^+ channel, *Letter to Nature*, (Liman, E R, Hess, P, Weaver, F and Koren, G) **353,** 752
POU proteins. Gene activation: An agent of suppression, *News and views*, (Herr, W) **350,** 554
I-POU: a POU-domain protein that inhibits neuron-specific gene activation, *Article*, (Treacy, M N, He, X and Rosenfeld, M G) **350,** 577
Powdered milk. Powdered milk, *Correspondence*, (Vickers, J) **353,** 103
Powdered milk, *Correspondence*, (Goldfarb, M F) **353,** 103
Powdered milk, *Correspondence*, (Perroud, F X) **353,** 786
Power industries. Politics of electricity production, *Commentary*, (Price, T) **351,** 435
Power industry, UK. Ferranti and the British Electrical Industry,1864-1940, *book review by* Hackmann, W. (Wilson, J F) **352,** 119
Power industry, US. Electrical generation: Storage opens up options, *News*, (Pool, R) **351,** 509
Power, waves. Waves rediscovered, *News*, (Anderson, C) **352,** 271
Prebiotic evolution. Volcanic production of polyphosphates and its relevance to prebiotic evolution, *Letter to Nature*, (Yamagata, Y, Watanabe, H, Saitoh, M and Namba, T) **352,** 516
Precipitation, Antarctica. Evidence from Antarctic ice cores for recent increases in snow accumulation, *Letter to Nature*, (Morgan, V I, Goodwin, I D, Etheridge, D M and Wookey, C W) **354,** 58
Precipitation, particulate carbon. Influence of biomass burning on equatorial African rains, *Letter to Nature*, (Cachier, H and Ducret, J) **352,** 228
Prehistoric tools. Archaeology: Brilliant - rock art and art rock in Australia, *News and views*, (Gamble, C) **351,** 608
Primary production, Lake Baikal. Deep-water renewal and biological production in Lake Baikal, *Article*, (Weiss, R F, Carmack, E C and Koropalov, V M) **349,** 665
Primary production, oceanic. Enhanced particle fluxes in Bay of Bengal induced by injection of fresh water, *Letter to Nature*, (Ittekkot, V, Nair, R R, Honko, S, Ramaswamy, V, Bartsch, M, Manganini, S and Desai, B N) **351,** 385
Estimation of new production in the ocean by compound remote sensing, *Article*, (Sathyendranath, S, Platt, T, Horne, E P W, Harrison, W G, Ulloa, O, Outerbridge, R and Hoepffner, N) **353,** 129
Glacial climate: No change down under, *News and views*, (Berger, W H) **351,** 186
Importance of *Phaeocystis* blooms in the high-latitude ocean carbon cycle, *Letter to Nature*, (Smith Jr, W O, Codispoti, L A, Nelson, D M, Manley, T, Buskey, E J, Niebauer, J and Cota, G F) **352,** 514
Role of eddy pumping in enhancing primary production in the ocean, *Letter to Nature*, (Falkowski, P G, Ziemann, D, Kolber, Z and Bienfang, P K) **352,** 55
Primary production. Ecosystem trends, *Scientific correspondence*, (Moen, J and Oksanen, L) **353,** 510
High turnover rates of dissolved organic carbon during a spring phytoplankton bloom, *Letter to Nature*, (Kirchman, D L, Suzuki, Y, Garside, C and Ducklow, H W) **352,** 612
Low iron requirement for growth in oceanic phytoplankton, *Letter to Nature*, (Sunda, W G, Swift, D G and Huntsman, S A) **351,** 55
The photolysis of colloidal iron in the oceans, *Letter to Nature*, (Wells, M L, Mayer, L M, Donard, O F X, de Souza Sierra, M M and Ackelson, S G) **353,** 248
Primate evolution. First skulls of the Early Eocene primate *Shoshonius cooperi* and the anthropoid-tarsier dichotomy, *Letter to Nature*, (Beard, K C, Krishtalka, L and Stucky, R K) **349,** 64
Primate imports, US. Primate import probe, *News*, (Anderson, C) **353,** 199
Primate research. Animal experimentation: UK primate research under scrutiny, *News*, (Aldhous, P) **354,** 177
Silver Spring monkeys, *Correspondence*, (Newkirk, I E) **351,** 93
Primatology. How monkeys see the world, *book review by* McGrew, W C. (Cheney, D L and Seyfarth, R M) **350,** 565
Walking with the great apes, *book review by* Jolly, A. (Montgomery, S) **350,** 534
Primordial black holes. Gamma rays and energetic particles from primordial black holes, *Review article*, (Halzen, F, Zas, E, MacGibbon, J H and Weekes, T C) **353,** 807
Prion protein gene. Homozygous prion protein genotype predisposes to sporadic Creutzfeldt-Jakob disease, *Letter to Nature*, (Palmer, M S, Dryden, A J, Hughes, J T and Collinge, J) **352,** 340
Prion protein. Camouflaged DNA, *Scientific correspondence*, (Griffin, B E) **354,** 25
CJD discrepancy, *Scientific correspondence*, (Doh-ura, K, Kitamoto, T, Sakaki, Y and Tateishi, J) **353,** 801
CJD discrepancy: Reply, *Scientific correspondence*, (Collinge, J and Palmer, M) **353,** 802
Prion proteins. Anticipating the anti-prion protein?, *Scientific correspondence*, (Goldgaber, D) **351,** 106
Change for the worse, *News and views*, **351,** 16
Prion infection, *Scientific correspondence*, (Hurst, L D and Haig, D) **351,** 21
Spongiform encephalopathies: The prion's progress, *News and views*, (Weissmann, C) **349,** 569
Prions. Anti-prions and other agents, *Scientific correspondence*, (Manson, J and Hope, J) **352,** 291
Anti-prions and other agents, *Scientific correspondence*, (Hewinson, R G, Lowings, J P, Dawson, M D and Woodward, M J) **352,** 291
Anti-prions and other agents, *Scientific correspondence*, (Bendheim, P E and Bolton, D C) **352,** 291
Homozygous prion protein genotype predisposes to sporadic Creutzfeldt-Jakob disease, *Letter to Nature*, (Palmer, M S, Dryden, A J, Hughes, J T and Collinge, J) **352,** 340
Membrane proteins and minimalism, *News and views*, (Robertson, M) **354,** 183
Prizes, Japan Prize. Prizes: Japan Prize winners, *News*, (Swinbanks, D) **349,** 272
Prizes, Louis Jeantet Prize. Prizes: Chambon among winners of Swiss prize, *News*, (Gee, H) **349,** 270
Probability theory. Bayesian reasoning, *Scientific correspondence*, (Skilling, J) **353,** 707
Bayesian reasoning, *Scientific correspondence*, (Larham, R) **353,** 708
Productivity, Black Sea. Depletion of barium and radium-226 in Black Sea surface waters over the past thirty years, *Letter to Nature*, (Falkner, K K, O'Neill, D J, Todd, J F, Moore, W S and Edmond, J M) **350,** 481
Productivity, oceanic. Evidence for lower productivity in the Antarctic Ocean during the last glaciation, *Letter to Nature*, (Mortlock, R A, Charles, C D, Froelich, P N, Zibello, M A, Saltzman, J, Hays, J D and Burckle, L H) **351,** 220
Ocean productivity: Iron determinations, *News and views*, (Lloyd, P) **350,** 19
Spatial variability in the sink for atmospheric carbon dioxide in the North Atlantic, *Letter to Nature*, (Watson, A J, Robinson, C, Robinson, J E and Williams, P J le B and Fasham, M J R) **350,** 50
Prokaryotes. More natural classification, *Scientific correspondence*, (Mayr, E) **353,** 122
Proline-rich proteins. Spit and polish, *News and views*, **351,** 270
Pronghorn antelope. Running energetics in the pronghorn antelope, *Letter to Nature*, (Lindstedt, S L, Hokanson, J F, Wells, D J, Swain, S D, Hoppeler, H and Navarro, V) **353,** 748
Protease inhibitors. Mobile reactive centre of serpins and the control of thrombosis, *Letter to Nature*, (Carrell, R W, Evans, D Ll and Stein, P E) **353,** 576
Proteases. Viral proteases: Molecular metamorphosis, *News and views*, (Ringe, D and Petsko, G A) **354,** 22
Proteasomes. A proteasome-related gene between the two ABC transporter loci in the class II region of the human MHC, *Letter to Nature*, (Glynne, R, Powis, S H, Beck, S, Kelly, A, Kerr, L-A and Trowsdale, J) **353,** 357
Antigen processing: Proteasomes in the pathway, *News and views*, (Robertson, M) **353,** 300
Homology of proteasome subunits to a major histocompatibility complex-linked LMP gene, *Letter to Nature*, (Martinez, C K and Monaco, J J) **353,** 664
Second proteasome-related gene in the human MHC class II region, *Letter to Nature*, (Kelly, A, Powis, S H, Glynne, R, Radley, E, Beck, S and Trowsdale, J) **353,** 667
Structural and serological similarity of MHC-linked LMP and proteasome (multicatalytic protinase) complexes, *Letter to Nature*, (Brown, M G, Driscoll, J and Monaco, J J) **353,** 355
Subunit of the '20S' proteasome (muticatalytic proteinase) encoded by the major histocompatibility complex, *Letter to Nature*, (Ortiz-Navarrete, V, Seelig, A, Gernold, M, Frentzel, S, Kloetzel, P M and Hämmerling, G J) **353,** 662
Protein biosynthesis. Anticodon and acceptor stem nucleotides in $tRNA^{Gln}$ are major recognition elements for *E. coli* glutaminyl-tRNA synthetase, *Letter to Nature*, (Jahn, M, Rogers, M J and Söll, D) **352,** 258
Protein chemistry. Motor proteins: Biomechanics goes quantum, *News and views*, (Irving, M) **352,** 284
Protein expression and purification, *journal review by* Craik, C S., (Griffith, O W *editor*) **353,** 469
Protein dynamics. Protein dynamics: A case of a flexible friend, *News and views*, (Pain, R) **354,** 353
Protein engineering. Humanized antibodies for therapy, *Product Review*, (Co, M S and Queen, C) **351,** 501
Protein folding. A 'molten-globule' membrane-insertion intermediate of the pore-forming domain of colicin A, *Letter to Nature*, (van der Goot, F G, González-Manas, J M, Lakey, J H and Pattus, F) **354,** 408
A homologue of the bacterial heat-shock gene *DnaJ* that alters protein sorting in yeast, *Letter to Nature*, (Blumberg, H and Silver, P A) **349,** 627
A search for the most stable folds of protein chains, *Letter to Nature*, (Finkelstein, A V and Reva, B A) **351,** 497
Binding of chaperonins, *Scientific correspondence*, (Saibil, H, Dong, Z, Wood, S and auf der Mauer, A) **353,** 25
Cell biology: A cytoplasmic chaperonin?, *News and views*, (North, G) **354,** 434
Chaperonin-mediated protein folding at the surface of groEL through a 'molten globule'-like intermediate, *Article*, (Martin, J, Langer, T, Boteva, R, Schramel, A, Horwich, A L and Hartl, F-U) **352,** 36
Demonstration by NMR of folding domains in lysozyme, *Letter to Nature*, (Miranker, A, Radford, S E, Karplus, M and Dobson, C M) **349,** 633
Enzyme evolution: Déjà vu all over again, *News and views*, (Petsko, G A) **352,** 104
Function of DnaJ and DnaK as chaperones in origin-specific DNA binding by RepA, *Letter to Nature*, (Wickner, S, Hoskins, J and McKenney, K) **350,** 165
Helix formation: Alarums and diversions, *News and views*, (Lesk, A M) **352,** 379
Molecular chaperones: Unfolding protein folding, *News and views*, (Creighton, T E) **352,** 17
Peptide-binding specificity of the molecular chaperone BiP, *Article*, (Flynn, G C, Pohl, J, Flocco, M T and Rothman, J E) **353,** 726
Structural basis of anticodon loop recognition by glutaminyl-tRNA synthetase, *Article*, (Rould, M A, Perona, J J and Steitz, T A) **352,** 213
Supersalt, *News and views*, **352,** 110
The molten globule protein conformation probed by disulphide bonds, *Letter to Nature*, (Ewbank, J J and Creighton, T E) **350,** 518
Protein kinase C. Failure of wild-type or a mutant form of protein kinase C-α to transform fibroblasts, *Letter to Nature*, (Borner, C, Filipuzzi, I, Weinstein, I B and Imber, R) **353,** 78
FK506 and protein kinase C, *Scientific correspondence*, (Tropschug, M and Hofmann, R) **351,** 195
Regulation by phosphorylation of reversible association of a myristoylated protein kinase C substrate with the plasma membrane, *Letter to Nature*, (Thelen, M, Rosen, A, Nairn, A C and Adcrem, A) **351,** 320
Protein kinases. Wee1'-like gene in human cells, *Letter to Nature*, (Igarashi, M, Nagata, A, Jinno, S, Suto, K and Okayama, H) **353,** 80
A haemoprotein with kinase activity encoded by the oxygen sensor of *Rhizobium meliloti*, *Letter to Nature*, (Gilles-Gonzalez, M A, Ditta, G S and Helinski, D R) **350,** 170
Activation of chloride channels in normal and cystic fibrosis airway epithelial cells by multifunctional calcium/calmodulin-dependent protein kinase, *Letter to Nature*, (Wagner, J A, Cozens, A L, Schulman, H, Gruenert, D C, Stryer, L and Gardner, P) **349,** 793
Cell biology: Never-in-mitosis in mitosis, *News and views*, (Murray, A W) **353,** 701
Dissection of the protein kinase cascade by which nerve growth factor activates MAP kinases, *Letter to Nature*, (Gómez, N and Cohen, P) **353,** 170
Enhancement of T-cell responsiveness by the lymphocyte-specific tyrosine protein kinase $p56^{lck}$, *Letter to Nature*, (Abraham, N, Miceli, M C, Parnes, J R and Veillette, A) **350,** 62
Fission yeast $p107^{mod1}$ mitotic inhibitor is a tyrosine/serine kinase, *Letter to Nature*, (Featherstone, C and Russell, P) **349,** 808
Isolation of the human *cdk2* gene that encodes the cyclin A- and adenovirus E1A-associated p33 kinase, *Letter to Nature*, (Tsai, L-H, Harlow, E and Meyerson, M) **353,** 174
Phosphorylation of *c-jun* mediated by MAP kinases, *Letter to Nature*, (Pulverer, B J, Kyriakis, J M, Avruch, J, Nikolakaki, E and Woodgett, J R) **353,** 670
Protein phosphorylation. Ha-Ras augments c-Jun activity and stimulates phosphorylation of its activation domain, *Article*, (Binétruy, B, Smeal, T and Karin, M) **351,** 122
Oncogenic and transcriptional cooperation with Ha-Ras requires phosphorylation of c-Jun on serines 63 and 73, *Letter to Nature*, (Smeal, T, Binetruy, B, Mercola, D A, Birrer, M and Karin, M) **354,** 494
Phosphorylation of *c-jun* mediated by MAO kinases, *Letter to Nature*, (Pulverer, B J, Kyriakis, J M, Avruch, J, Nikolakaki, E and Woodgett, J R) **353,** 670
Tyrosine phosphorylation and tyrosine kinase activity of the

trk proto-oncogene product induced by NGF, *Letter to Nature*, (Kaplan, D R, Martin-Zanca, D and Parada, L F) **350**, 158

Protein pumps. Bovine papillomavirus E5 oncoprotein binds to the 16K component of vacuolar H^+-ATPases, *Letter to Nature*, (Goldstein, D J, Finbow, M E, Andresson, T, McLean, P, Smith, K, Bubb, V and Schlegel, R) **352**, 347

Protein structure. A model for interfacial activation in lipases from the structure of a fungal lipase-inhibitor complex, *Letter to Nature*, (Brzozowski, A M, Derewenda, U, Derewenda, Z S, Dodson, G G, Lawson, D M, Turkenburg, J P, Bjorkling, F, Huge-Jensen, B, Patkar, S A and Thim, L) **351**, 491

Anticodon and acceptor stem nucleotides in $tRNA^{Gln}$ are major recognition elements for *E. coli* glutaminyl-tRNA synthetase, *Letter to Nature*, (Jahn, M, Rogers, M J and Söll, D) **352**, 258

Convergent evolution of similar function in two structurally divergent enzymes, *Letter to Nature*, (Kuriyan, J, Krishna, T S R, Wong, L, Guenther, B, Pahler, A, Williams, C H and Model, P) **352**, 172

Crystal structure of a cholera toxin-related heat-labile enterotoxin from *E. coli*, *Article*, (Sixma, T K, Pronk, S E, Kalk, K H, Wartna, E S, van Zanten, B A M, Witholt, B and Hol, W G J) **351**, 371

Crystal structure of insecticidal δ-endotoxin from *Bacillus thuringiensis* at 2.5 Å resolution, *Article*, (Li, J, Carroll, J and Ellar, D J) **353**, 815

Crystals of haemoglobin with the T quaternary structure bind oxygen noncooperatively with no Bohr effect, *Letter to Nature*, (Mozzarelli, A, Rivetti, C, Rossi, G L, Henry, E R and Eaton, W A) **351**, 416

Enterotoxins: The ring on a finger, *News and views*, (van Heyningen, S) **351**, 351

Enzymology: Lipases reach the surface, *News and views*, (Blow, D) **351**, 444

Introduction to protein structure, *book review by* Perutz, M F., (Branden, C and Tooze, J) **353**, 311

New protein fold revealed by a 2.3-Å resolution crystal structure of nerve growth factor, *Letter to Nature*, (McDonald, N Q, Lapatto, R, Murray-Rust, J, Gunning, J, Wlodawer, A and Blundell, T L) **354**, 411

Novel thioether bond revealed by a 1.7 Å crystal structure of galactose oxidase, *Letter to Nature*, (Ito, N, Phillips, S E V, Stevens, C, Ogel, Z B, McPherson, M J, Keen, J N, Yadav, K D S and Knowles, P F) **350**, 87

Protein structure: Prediction of progress at last, *News and views*, (Thornton, J M, Flores, T P, Jones, D T and Swindells, M B) **354**, 105

Solution structure of the major binding protein for the immunosuppressant FK506, *Letter to Nature*, (Moore, J M, Peattie, D A, Fitzgibbon, M J and Thomson, J A) **351**, 248

Structural architecture of an outer membrane channel as determined by electron crystallography, *Letter to Nature*, (Jap, B K, Walian, P J and Gehring, K) **350**, 167

Structure of recombinant human rheumatoid arthritic synovial fluid phospholipase A, at 2.2Å resolution, *Letter to Nature*, (Wery, J-P, Schevitz, R W, Clawson, D K, Bobbitt, J L, Dow, E R, Gamboa, G, Goodson, T, Hermann, R B, Kramer, R M, McClure, D B, Mihelich, E D, Putnam, J E, Sharp, J D, Stark, D H, Teater, C, Warrick, M W and Jones, N D) **352**, 79

Structure of the insulin receptor substrate IRS-1 defines a unique signal transduction protein, *Letter to Nature*, (Sun, X J, Rothenberg, P, Kahn, C R, Backer, J M, Araki, E, Wilden, P A, Cahill, D A, Goldstein, B J and White, M F) **352**, 73

Structure of the detoxification catalyst mercuric ion reductase from *Bacillus* sp. strain RC607, *Letter to Nature*, (Schiering, N, Kabsch, W, Moore, M J, Distefano, M D, Walsh, C T and Pai, E F) **352**, 168

Three-dimensional structure of plant light-harvesting complex determined by electron crystallography, *Article*, (Kühlbrandt, W and Wang, D N) **350**, 130

Was the loss of the D helix in α globin a functionally neutral mutation?, *Letter to Nature*, (Komiyama, N H, Shih, D T-B, Looker, D, Tame, J and Nagai, K) **352**, 349

Protein synthesis inhibitors. Signalling and superinduction, *Scientific correspondence*, (Mahadevan, L C and Edwards, D R) **349**, 747

Protein topology. Prion infection, *Scientific correspondence*, (Hurst, L D and Haig, D) **351**, 21

Protein translocation. A 'molten-globule' membrane-insertion intermediate of the pore-forming domain of colicin A, *Letter to Nature*, (van der Goot, F G, González-Manas, J M, Lakey, J H and Pattus, F) **354**, 408

Assembly of yeast Sec proteins involved in translocation into the endoplasmic reticulum into a membrane-bound multisubunit complex, *Letter to Nature*, (Deshaies, R J, Sanders, S L, Feldheim, D A and Schekman, R) **349**, 806

Protein transport. A homologue of the bacterial heat-shock gene *DnaJ* that alters protein sorting in yeast, *Letter to Nature*, (Blumberg, H and Silver, P A) **349**, 627

Protein tyrosine phosphatases. A Tyr/Ser protein phosphatase encoded by vaccinia virus, *Letter to Nature*, (Guan, K, Broyles, S S and Dixon, J E) **350**, 359

Protein-DNA interactions. A structural taxonomy of DNA-binding domains, *Review article*, (Harrison, S C) **353**, 715

Protein-protein interactions. Membrane protein association by potential intramembrane charge pairs, *Letter to Nature*, (Cosson, P, Lankford, S P, Bonifacino, J S and Klausner, R D) **351**, 414

Protein-tyrosine kinases. A protein-tyrosine phosphatase with sequence similarity to the SH2 domain of the protein-tyrosine kinases, *Letter to Nature*, (Shen S-H, Bastien, L, Posner, B I and Chrétien, P) **353**, 868

Cloning of a complementary DNA for a protein-tyrosine kinase that specifically phosphorylates a negative regulatory site of $p60^{c\text{-}src}$, *Letter to Nature*, (Nada, S, Okada, M, MacAuley, A, Cooper, J A and Nakagawa, H) **351**, 69

Effect of *Steel* factor and leukaemia inhibitory factor on murine primordial germ cells in culture, *Letter to Nature*, (Matsui, Y, Toksoz, D, Nishikawa, S, Nishikawa, S-I, Williams, D, Zsebo, K and Hogan, B L M) **353**, 750

Protein-tyrosine phosphatases. A protein-tyrosine phosphatase with sequence similarity to the SH2 domain of the protein-tyrosine kinases, *Letter to Nature*, (Shen S-H, Bastien, L, Posner, B I and Chrétien, P) **353**, 868

Proteinases. Structure of Sindbis virus core protein reveals a chymotrypsin-like serine proteinase and the organization of the virion, *Article*, (Choi, H-K, Tong, L, Minor, W, Dumas, P, Boege, U, Rossmann, M G and Wengler, G) **354**, 37

Proteins, detection of. More from less, *News and views*, **350**, 558

Proteins, regulatory. Regulatory proteins: Ras and the *awd* couple, *News and views*, (Ruggieri, R and McCormick, F) **353**, 390

Proteins. Intracellular trafficking of proteins, (Steer, C J and Hanover, J A *editors*) *book review by* Armstrong, J. **354**, 29

Proto-oncogenes. *src* surprise, *News and views*, **350**, 195

Cloning of a complementary DNA for a protein-tyrosine kinase that specifically phosphorylates a negative regulatory site of $p60^{c\text{-}src}$, *Letter to Nature*, (Nada, S, Okada, M, MacAuley, A, Cooper, J A and Nakagawa, H) **351**, 69

Ets-related protein Elk-1 is homologous to the *c-fos* regulatory factor p62^{SRF}/TCFT, *Letter to Nature*, (Hipskind, R A, Rao, V N, Mueller, C G F, Reddy, E S P and Nordheim, A) **354**, 531

Ha-Ras augments c-Jun activity and stimulates phosphorylation of its activation domain, *Article*, (Binétruy, B, Smeal, T and Karin, M) **351**, 122

Neurobiology: *trking* neurotrophic receptors, *News and views*, (Ragsdale, C and Woodgett, J) **350**, 660

Palaeontology: The bird in the bush, *News and views*, (Ostrom, J H) **353**, 212

Phosphorylation of *c-jun* mediated by MAP kinases, *Letter to Nature*, *Protoavis texensis*, (Pulverer, B J, Kyriakis, J M, Avruch, J, Nikolakaki, E and Woodgett, J R) **353**, 670

Sequence similarity between the mammalian *bmi-1* proto-oncogene and the *Drosophila* regulatory genes *Psc* and *Su(z)2*, *Letter to Nature*, (van Lohuizen, M, Frasch, M, Wientjens, E and Berns, A) **353**, 353

Signalling and superinduction, *Scientific correspondence*, (Mahadevan, L C and Edwards, D R) **349**, 747

The *int-2* proto-oncogene is responsible for induction of the inner ear, *Letter to Nature*, (Represa, J, León, Y, Miner, C and Giraldez, F) **353**, 561

Tyrosine phosphorylation and tyrosine kinase activity of the *trk* proto-oncogene product induced by NGF, *Letter to Nature*, (Kaplan, D R, Martin-Zanca, D and Parada, L F) **350**, 158

v-Src and EJ Ras alleviate repression of c-Jun by a cell-specific inhibitor, *Letter to Nature*, (Baichwal, V R, Park, A and Tjian, R) **352**, 165

Proton colliders. High-energy physics: HERA stores protons, *News*, (Dickman, S) **351**, 261

Proton-rich nuclei. Nucleosynthesis: Finding the proton drip line, *News and views*, (Mathews, G J) **351**, 348

Protoplanetary disks. Astronomy: Comets in collision, *News and views*, (Weintraub, D A) **351**, 440

Protostars. Protostars: Cool and out of sight, *News and views*, (Whitworth, A) **352**, 662

Protozoa, parasitic. Clonal defence, *Scientific correspondence*, (Tibayrenc, M, Kjellberg, F and Ayala, F J) **350**, 385

Pseudogenes. Pseudogenes, *Correspondence*, (Tangoren, I A) **354**, 10

Pseudoscience. Galileo's revenge: Junk science in the courtroom, (Huber, P W) *book review by* Randi, J. **354**, 330

Psychiatric illness. Wittgenstein, *Correspondence*, (Fischer, P, Küpferle, B and Berner, P) **353**, 598

Psychiatry. Extremes of reality, *Correspondence*, (Estling, R) **352**, 100

Psycho-darwinism. Selfish psycho-darwinism, *Correspondence*, (Waller, M J C) **351**, 264

Psychoanalysis. Final analysis: The making and unmaking of a psychoanalyst, (Masson, J) *book review by* Shepherd, M. **354**, 331

Psychology, Antarctic research. Research in Antarctica: Polar psychology: Coping with it all, *News*, (Anderson, C) **350**, 290

Research in Antarctica: Overwintering: In the bleak midwinter, *News*, (Coles, P) **350**, 302

Psychology. Developmental psychology: Face to face with babies, *News and views*, (Bryant, P E) **354**, 19

Extremes of reality, *Correspondence*, (Estling, R) **352**, 100

Personality put to the test, *Correspondence*, (Jackson, D N and Rothstein, M) **352**, 100

Psychological science, *journal review by* Bryant, P E., (Estes, W K *editor*) **353**, 461

Science, Ideology, and the Media: The Cyril Burt Scandal, *book review by* Loevinger, L. (Fletcher, R) **352**, 120

Scientific misconduct: Burt files reopened, *News*, (Aldhous, P) **354**, 97

Unified theories of cognition, *book review by* Fox, J., (Newell, A) **353**, 312

Psychophysics. Apparent surface curvature affects lightness perception, *Letter to Nature*, (Knill, D C and Kersten, D) **351**, 228

Psychotherapy. Human change processes: The scientific foundations of psychotherapy, *book review by* Sutherland, S. (Mahoney, M J) **350**, 120

Puberty, precocious. Precocious puberty, *News and views*, **349**, 571

Public health, UK. How affordable is public health?, *Opinion*, **353**, 587

Public health, US. Splitting the difference on risk, *News*, (Anderson, C) **354**, 255

Public health. Schizophrenia in the melting pot, *Commentary*, (Leff, J) **353**, 693

Publication bias. National publication bias, *Correspondence*, (Henrissat, B) **354**, 427

Playing the game, *Correspondence*, (Holland, E M) **354**, 426

Pulp chemistry. Paper chemistry, *book review by* Hardman, T M. (Roberts, J C **352**, 486

Pulsars, planets. A planet, not a plasma cloud?, *Scientific correspondence*, (Lyne, A) **352**, 573

A plasma cloud, not a planet?, *Scientific correspondence*, (Helfand, D J and Hamilton, T T) **352**, 481

Pulsars, supernova 1987A. No pulsar in SN1987A, *Scientific correspondence*, (Kristian, J) **349**, 747

Pulsars. A nearby 37.9-ms radio pulsar in a relativistic binary system, *Letter to Nature*, (Wolszczan, A) **350**, 688

A planet orbiting the neutron star PSR1829-10, *Letter to Nature*, (Bailes, M, Lyne, A G and Shemar, S L) **352**, 311

Binary precursor for planet?, *Scientific correspondence*, (Fabian, A C and Podsiadlowski, Ph) **353**, 801

Creation by stellar ablation of the low-mass companion to pulsar 1829-10, *Letter to Nature*, (Kroßk, J H) **353**, 829

Discovery of ten millisecond pulsars in the globular cluster 47 Tucanae, *Letter to Nature*, (Manchester, R N, Lyne, A G, Robinson, C, D'Amico, N, Bailes, M and Lim, J) **352**, 219

Eclipses of the ablating binary pulsar PSR1744-24A, *Letter to Nature*, (Thorsett, S E and Nice, D J) **353**, 731

Ejection of pulsars and binaries to the outskirts of globular clusters, *Letter to Nature*, (Phinney, E S and Sigurdsson, S) **349**, 220

Evacuation of gas from globular clusters by winds from millisecond pulsars, *Letter to Nature*, (Spergel, D N) **352**, 221

Formation of a planet orbiting pulsar 1829-10 from the debris of a supernova explosion, *Letter to Nature*, (Lin, D N C, Woosley, S E and Bodenheimer, P H) **353**, 827

From science fiction to reality?, *book review by* Tipler, F J. **354**, 362

Gamma-ray emission from millisecond pulsars in globular clusters, *Letter to Nature*, (Chen, K) **352**, 695

Globular clusters: New tools of the trade, *News and views*, (Bailyn, C) **352**, 195

Irradiation-driven mass transfer in low-mass X-ray binaries, *Letter to Nature*, (Podsiadlowski, Ph) **350**, 136

Old pulsars in the low-density globular clusters M13 and M53, *Letter to Nature*, (Kulkarni, S R, Anderson, S B, Prince, T A and Wolszczan, A) **349**, 47

Planet searches: It's all in the timing, *News and views*, (Black, D) **352**, 278

Strong stuff, *News and views*, **349**, 739

Supernova debris gets ahead of itself, *News and views*, **352**, 759

The origin of the planet orbiting PSR1829-10, *Letter to Nature*, (Podsiadlowski, Ph, Pringle, J E and Rees, M J) **352**, 783

Theory of neutron star magnetospheres, *book review by* Bailyn, C. (Michel, F C) **351**, 282

Unusual interaction of the high-velocity pulsar PSR1757-24 with the supernova remnant G5.4-1.2, *Letter to Nature*, (Frail, D A and Kulkarni, S R) **352**, 785

Pulsed-field gel electrophoresis. Abnormal pattern detected in fragile-X patients by pulsed-field gel electrophoresis, *Letter to Nature*, (Vincent, A, Heitz, D, Petit, C, Kretz, C, Oberlé, I and Mandel, J-L) **349**, 624

Pygmies. Anthropology: Why are pygmies small?, *News and views*, (Diamond, J M) **354**, 111

Pyroclastic flows. In the volcano's shadow, *Commentary*, (Shimozuru, D) **353**, 295

Under the volcano, *Scientific correspondence*, (Fiske, R S) **353**, 307

Under the volcano: Reply, *Scientific correspondence*, (Swinbanks, D) **353**, 307

Unzen volcano: Anatomy of an eruption, *News and views*, (Ida, Y) **352**, 571

Quantum beats. Observation of quantum supershells in clusters of sodium atoms, *Letter to Nature*, (Pedersen, J, Bjornholm, S, Borggreen, J, Hansen, K, Martin, T P and Rasmussen, H D) **353**, 733

Quantum chaos. Another Landau sum made good, *News and views*, (Maddox, J) **349**, 277

Quantum chemistry. Buckminsterfullerene: Aromaticity revisited, *News and views*, (Fowler, P) **350**, 20

Experimental and theoretical determination of the magnetic susceptibility of C_{60} and C_{70}, *Letter to Nature*, (Haddon, R C, Schneemeyer, L F, Waszczak, J V, Glarum, S H, Tycko,

R, Dabbagh, G, Kortan, A R, Muller, A J, Mujsce, A M, Rosseinsky, M J, Zaburak, S M, Makhija, A V, Thiel, F A, Raghavachari, K, Cockayne, E and E) **350,** 46

Quantum chromodynamics. Cosmology: Quark soup: do not boil, *News and views,* (Fukugita, M and Hogan, C J) **354,** 17

Particle physics after a year of LEP, *Review article,* (Miller, D J) **349,** 379

Particle physics: Glueballs and exotic matter, *News and views,* (Close, F) **349,** 368

Quantum confinement. Semiconductors: Squeezing light from silicon, *News and views,* (Brus, L) **353,** 301

Visible light emission due to quantum size effects in highly porous crystalline silicon, *Letter to Nature,* (Cullis, A G and Canham, L T) **353,** 335

Quantum cryptography. Quantum cryptography: Schrödinger's catflap, *News and views,* (Stewart, I) **353,** 384

Quantum electrodynamics. Atoms and light interactions, *book review by* Loudon, R. (Dodd, J N) **352,** 678

Particle physics after a year of LEP, *Review article,* (Miller, D J) **349,** 379

Particle physics: Glueballs and exotic matter, *News and views,* (Close, F) **349,** 368

Quantum gravity. No two ways, *News and views,* **350,** 558

Quantum mechanics. Another Landau sum made good, *News and views,* (Maddox, J) **349,** 277

Bell's inequality, *Scientific correspondence,* (Hannabuss, K C) **353,** 395

Classical records, *Scientific correspondence,* (Gregory, B) **352,** 763

Dirac: A scientific biography, *book review by* Kemmer, N. (Kragh, H S) **349,** 750

Niels Bohr's times, in physics, philosophy and polity, *book review by* Ziman, J., (Pais, A) **353,** 511

Non-locality bursts into life, *News and views,* (Maddox, J) **352,** 277

Observation of the optical analogue of quantized conductance of a point contact, *Letter to Nature,* (Montie, E A, Cosman, E C, Hooft, G W 't, van der Mark, M B and Beenakker, C W J) **350,** 594

Quantum cryptography: Schrödinger's catflap, *News and views,* (Stewart, I) **353,** 384

Quantum eraser, *Scientific correspondence,* (Zajonc, A G, Wang, L J, Zou, X Y and Mandel, L) **353,** 507

Quantum mechanics: Light and the single photon, *News and views,* (Barnett, S M) **350,** 459

Quantum optical tests of complementarity, *Review article,* (Scully, M A, Englert, B-G and Walther, H) **351,** 111

Schroedinger's quantum cat, *Scientific correspondence,* (Percival, I) **351,** 357

The joy of insight: Passions of a physicist, *book review by* Press, W H. (Weisskopf, V) **350,** 665

Quantum optics. Nonlinear waves, solitons and chaos, *book review by* Bohr, T. (Infeld, E and Rowlands, G) **349,** 291

Quantum optical tests of complementarity, *Review article,* (Scully, M A, Englert, B-G and Walther, H) **351,** 111

Quantum optics, *journal review by* Firth, W J., (Pike, E R *editor*) **353,** 478

Something for nothing, *News and views,* **349,** 280

Quantum wells. Quantum semiconductor structures: Fundamentals and applications, *book review by* Eaves, L., (Weisbuch, C and Vinter, B) **353,** 314

Quark model. Subnuclear structure: Nucleons just yield to pressure, *News and views,* (Holstein, B R) **354,** 189

Quark-gluon plasma. Cosmology: Quark soup: do not boil, *News and views,* (Fukugita, M and Hogan, C J) **354,** 17

Quartz, phase transitions. Structural transformation of quartz at high pressures, *Letter to Nature,* (Binggeli, N and Chelikowsky, J R) **353,** 344

Quartz, structure. Relation between crystal symmetry and ionicity in silica polymorphs, *Letter to Nature,* (Kramer, G J, van Beest, W H and van Santen, R A) **351,** 636

Quasars. A disrupted radio jet inside the host galaxy of the quasar 3C48, *Letter to Nature,* (Wilkinson, P N, Tzioumis, A K, Benson, J M, Walker, R C, Simon, R S and Kahn, F D) **352,** 313

A rapid energetic X-ray flare in the quasar PKS0558-504, *Letter to Nature,* (Remillard, R A, Grossan, B, Bradt, H V, Ohashi, T, Hayashida, K, Makino, F and Tanaka, Y) **350,** 589

Active galactic nuclei: In the eye of the beholder, *News and views,* (Gaskell, C M) **349,** 194

Active galactic nuclei: A sideways look at quasars, *News and views,* (Urry, M) **353,** 18

An estimate of the Hubble constant from the gravitational lensing of quasar Q0957+561, *Letter to Nature,* (Rhee, G) **350,** 211

Astronomy: Pruning the Lyman-α forest, *News and views,* (Peacock, J) **349,** 190

Cosmology: A quasar superstructure, *News and views,* (Silk, J and Weinberg, D) **350,** 272

Evidence for a common central-engine mechanism in all extragalactic radio sources, *Letter to Nature,* (Rawlings, S and Saunders, R) **349,** 138

Faint hope, *News and views,* **352,** 18

Gravitational micro-lensing of the relativistic jets of quasars, *Letter to Nature,* (Krishna, G and Subramanian, K) **349,** 766

Large-scale superluminal motion in the quasar 3C273, *Letter to Nature,* (Davis, R J, Unwin, S C and Muxlow, T W B) **354,** 374

Outer limit, *News and views,* **353,** 21

Quasar jets: Life in the fast lane, *News and views,* (Heckman, T and O'Dea, C) **354,** 355

Quasar redshifts, *Scientific correspondence,* (Dar, A) **353,** 708

The case for the relativistic hot Big Bang cosmology, *Review article,* (Peebles, P J E, Schramm, D N, Turner, E L and Kron, R G) **352,** 769

The Hubble constant from VLA measurement of the time delay in the double quasar 0957+561, *Letter to Nature,* (Roberts, D H, Lehár, J, Hewitt, J N and Burke, B F) **352,** 43

The origin of the cosmic X-ray background, *Article,* (Shanks, T, Georgantopoulos, I, Stewart, G C, Pounds, K A, Boyle, B J and Griffiths, R E) **353,** 315

Where are quasars?, *News and views,* **354,** 108

Quasi-stellar objects. Active galactic nuclei: In the eye of the beholder, *News and views,* (Gaskell, C M) **349,** 194

Quasibiennial oscillation. The quasiquadrennial oscillation of Jupiter's equatorial stratosphere, *Letter to Nature,* (Leovy, C B, Friedson, A J and Orton, G S) **354,** 380

Quasicrystals. Solid-state physics: And now quasi-semiconductors?, *News and views,* (Carlsson, A) **353,** 15

Solid-state physics: Temperature dependence of electrical conductivity, *News and views,* (Carlsson, A) **353,** 16

R-process. Constraints on r-process nucleosynthesis in accretion disks, *Letter to Nature,* (Jin, L) **350,** 403

Rab proteins. Hypervariable C-terminal domain of rab proteins acts as a targeting signal, *Letter to Nature,* (Chavrier, P, Gorvel, J-P, Stelzer, E, Simons, K, Gruenberg, J and Zerial, M) **353,** 769

Rabies control. Large scale eradication of rabies using recombinant vaccinia-rabies vaccine, *Letter to Nature,* (Brochier, B, Kieny, M P, Costy, F, Coppens, P, Bauduin, B, Lecocq, J P, Languet, B, Chappuis, G, Desmettre, P, Afiademanyo, K, Libois, R and Pastoret, P-P) **354,** 521

Rabies, immunization. Rabies: Immunization in the field, *News and views,* (Anderson, R M) **354,** 502

Racial characteristics, Germany. Two views of the new Germany, *Correspondence,* (Koenemann, F) **350,** 648

Two views of the new Germany, *Correspondence,* (Vrba, R) **350,** 648

Racial characteristics. Unwise after the events, *Correspondence,* (zur Hausen, H) **352,** 10

War reparations, *Correspondence,* (Dumont, J E) **352,** 10

Radar, backscattering. Coherent backscatter model for the unusual radar reflectivity of icy satellites, *Letter to Nature,* (Hapke, B and Blewett, D) **352,** 46

Radiation damage, ultraviolet B. DNA damage in the Antarctic, *Scientific correspondence,* (Karentz, S, Cleaver, J E and Mitchell, D L) **350,** 28

Radiation, health hazards. Radiation risks, *Correspondence,* (Southon, F C G and Gandevia, S C) **349,** 450

Radio galaxies. Active galactic nuclei: A sideways look at quasars, *News and views,* (Urry, M) **353,** 18

Evidence for a common central-engine mechanism in all extragalactic radio sources, *Letter to Nature,* (Rawlings, S and Saunders, R) **349,** 138

Radio jets, quasars. A disrupted radio jet inside the host galaxy of the quasar 3C48, *Letter to Nature,* (Wilkinson, P N, Tzioumis, A K, Benson, J M, Walker, R C, Simon, R S and Kahn, F D) **352,** 313

Radio jets. High-resolution optical observations compared to radio structure of the jet in M87, *Letter to Nature,* (Stiavelli, M, Møller, P and Zeilinger, W W) **354,** 132

Radio nebulae. Unusual interaction of the high-velocity pulsar PSR1757-24 with the supernova remnant G5.4-1.2, *Letter to Nature,* (Frail, D A and Kulkarni, S R) **352,** 785

Radioactive contamination, India. India: Chasing the source of radioactive steel, *News,* (Jayaraman, K S) **353,** 202

Radioactive materials, transport. Radioactive materials: New UK road rules, *News,* (Aldhous, P) **349,** 445

Radioastronomy, UK. Radioastronomy: Funding hiccup at Jodrell, *News,* (Aldhous, P) **349,** 733

Radioastronomy: Making the most of MERLIN's potential, *News,* (Aldhous, P) **349,** 733

Radioastronomy. A filamentary radio source near the Galactic Centre, *Letter to Nature,* (Gray, A D, Cram, L E, Ekers, R D and Goss, W M) **353,** 237

A high-resolution radio image of a young supernova, *Letter to Nature,* (Bartel, N, Rupen, M P, Shapiro, I I, Preston, R A and Rius, A) **350,** 212

A molecular gas streamer feeding the Galactic Centre, *Article,* (Ho, P T P, Ho, L C, Szczepanski, J C, Jackson, J M, Armstrong, J T and Barrett, A H) **350,** 309

An unusually strong Einstein ring in the radio source PKS1830-211, *Letter to Nature,* (Jauncy, D L, Reynolds, J E, Tzioumis, A K, Muxlow, T W B, Perley, R A, Murphy, D W, Preston, R A, Meier, D L, Bird, D J, Blair, D G, Bunton, J D, Clay, R W, Costa, M E, Duncan, R A, Ferris, R H, Gough, R G, Hamilton, P **352,** 132

Evidence for a common central-engine mechanism in all extragalactic radio sources, *Letter to Nature,* (Rawlings, S and Saunders, R) **349,** 138

High-resolution VLA images of the Galactic Centre at 2-cm wavelength with large dynamic range, *Letter to Nature,* (Zhao, J-H, Goss, W M, Lo, K Y and Ekers, R D) **354,** 46

Quasar jets: Life in the fast lane, *News and views,* (Heckman, T and O'Dea, C) **354,** 355

Small change, *News and views,* **354,** 191

Two radio supernovae in the unusual galaxy Markarian 297, *Letter to Nature,* (Yin, Q F and Heeschen, D S) **354,** 130

Radiocarbon dating, earthquake zones. Only one earthquake, *News and views,* (Pease, R) **353,** 116

Radiocarbon dating, earthquakes. Radiocarbon test of earthquake magnitude at the Cascadia subduction zone, *Letter to Nature,* (Atwater, B F, Stuiver, M and Yamaguchi, D K) **353,** 156

Radiocarbon dating. Sampling error?, *Correspondence,* (Busson, P) **352,** 187

Sea-level constraints, *Scientific correspondence,* (Lambeck, K and Nakada, M) **350,** 115

Sea-level curve, *Scientific correspondence,* (Coke, J, Perry, E C and Long, A) **353,** 25

Shroud dating still questioned, *Correspondence,* (Pourrat, O) **349,** 558

Radiochemistry. Radiation doses, *Scientific correspondence,* (Desrosiers, M F, Coursey, B M, Avila, M J and Parks, N J) **349,** 287

Radiological protection. Radiation doses, *Correspondence,* (Fremlin, J H) **350,** 10

Radiation doses and cancer, *Scientific correspondence,* (Shlyakhter, A and Wilson, R) **350,** 25

Radiation risks, *Correspondence,* (Southon, F C G and Gandevia, S C) **349,** 450

Radiometry. Hazard from volcanic ash, *Scientific correspondence,* (Prata, A J, Barton, I J, Johnson, R W, Kamo, K and Kingwell, J) **354,** 25

Radionuclide migration. Organic matter and containment of uranium and fissiogenic isotopes at the Oklo natural reactors, *Letter to Nature,* (Nagy, B, Gauthier-Lafaye, F, Holliger, P, Davis, D W, Mossman, D J, Leventhal, J S, Rigali, M J and Parnell, J) **354,** 472

Radionuclides, Lake Baikal. Sedimentation rates, residence times and radionuclide inventories in Lake Baikal from ^{137}Cs and ^{210}Pb in sediment cores, *Letter to Nature,* (Edgington, D N, Klump, J V, Robbins, J A, Kusner, Y S, Pampura, V D and Sandimirov, I V) **350,** 601

Radon exposure, leukaemia risk. Radon activity, *News and views,* **351,** 270

Radon, health hazards. Leukaemia risks and radon, *Scientific correspondence,* (Wolff, S P) **352,** 288

Rain forest, Brazil. Debt swaps: The greening of Collor, *News,* (Bonalume, R) **352,** 6

Rain forests, Amazon. Amazonia: Deforestation rate is falling, *News,* (Bonalume, R) **350,** 368

Amazonia: From mine camp to laboratory, *News,* (Bonalume, R) **350,** 368

Rain forests. Four neotropical rain forests, *book review by* Whitmore, T C. (Gentry, A H) **350,** 32

Rain, particulate carbon. Influence of biomass burning on equatorial African rains, *Letter to Nature,* (Cachier, H and Ducret, J) **352,** 228

Raman Research Institute. Raman Institute: Storm at Bangalore institute, *News,* (Jayaraman, K S) **349,** 732

Raman rejoinder, *Correspondence,* (Radhakrishnan, V) **350,** 183

Ran protein. Catalysis of guanine nucleotide exchange on Ran by the mitotic regulator RCC1, *Letter to Nature,* (Bischoff, F R and Ponstingl, H) **354,** 80

Rare gases, geochemistry. Constraints from noble-gas contents on the origin of carbonado diamonds, *Letter to Nature,* (Ozima, M, Zashu, S, Tomura, K and Matsuhisa, Y) **351,** 472

Rare gases, mantle. Terrestrial primordial neon, *Scientific correspondence,* (Sarda, Ph and Staudacher, Th) **352,** 388

Terrestrial primordial neon: Reply, *Scientific correspondence,* (Honda, M, McDougall, I, Patterson, D B, Doulgeris, A and Clague, D A) **352,** 388

Ras oncogene. Complementation of transforming domains in E1a/*myc* chimaeras, *Letter to Nature,* (Ralston, R) **353,** 866

Ras proteins. A product of the *prune* locus of *Drosophila Letter to Nature,* (Teng, D H F, Engele, C M and Venkatesh, T R) **353,** 437

Catalysis of guanine nucleotide exchange on the CDC42Hs protein by the *dbl* oncogene product, *Letter to Nature,* (Hart, M J, Eva, A, Evans, T, Aaronson, S A and Cerione, R A) **354,** 311

Regulatory proteins: Ras and the *awd* couple, *News and views,* (Ruggieri, R and McCormick, F) **353,** 390

Reaction dynamics. Chemical physics: Aiming the molecular arrow, *News and views,* (Stolte, S) **353,** 391

Receptive field structure. Depth is encoded in the visual cortex by a specialized receptive field structure, *Letter to Nature,* (DeAngelis, G C, Ohzawa, I and Freeman, R D) **352,** 156

Receptor stoichiometry. Pentameric structure and subunit stoichiometry of a neuronal nicotinic acetylcholine receptor, *Letter to Nature,* (Cooper, E, Couturier, S and Ballivet, M) **350,** 235

Receptors. Mutations in the channel domain alter desensitization of a neuronal nicotinic receptor, *Letter to Nature,* (Revah, F, Bertrand, D, Galzi, J-L, Devillers-Thiéry, A, Mulle, C, Hussy, N, Bertrand, S, Ballivet, M and Changeux, J-P) **353,** 846

Recombinant DNA technology. DNA science: A first course in recombinant DNA technology, *book review by* Struhl, K. (Micklos, D and Freyer, G) **351,** 360

Recombinant vaccines. BCG: Rebirth of a star performer, *News and views,* (Colston, M J) **351,** 442

Humoral and cell-mediated immune responses to live recombinant BCG-HIV vaccines, *Letter to Nature,*

(Aldovini, A and Young, R A) **351,** 479
New use of BCG for recombinant vaccines, *Article,* (Stover, C K, de la Cruz, V F, Fuerst, T R, Burlein, J E, Benson, L A, Bennett, L T, Bansal, G P, Young, J F, Lee, M H, Hatfull, G F, Snapper, S B, Barletta, R G, Jacobs, W R and Bloom, B R) **351,** 456

Recombinant vaccinia virus. Large scale eradication of rabies using recombinant vaccinia-rabies vaccine, *Letter to Nature,* (Brochier, B, Kieny, M P, Costy, F, Coppens, P, Bauduin, B, Lecocq, J P, Languet, B, Chappuis, G, Desmettre, P, Afiademanyo, K, Libois, R and Pastoret, P-P) **354,** 521

Recombinant-DNA technology. Biotechnology: Yellow light on L-tryptophan, *News,* (Aldhous, P) **353,** 490

Recombinant-vaccinia vaccines. Rabies: Immunization in the field, *News and views,* (Anderson, R M) **354,** 502

Recombination, DNA. Formation and resolution of recombination intermediates by *E. coli* RecA and RuvC proteins, *Article,* (Dunderdale, H J, Benson, F E, Parsons, C A, Sharples, G J, Lloyd, R G and West, S C) **354,** 506
TFIIS and strand-transfer proteins, *Scientific correspondence,* (Kipling, D and Kearsey, S E) **353,** 509

Recombination, genetic. . . . and then there were two, *News and views,* (Baker, T A) **353,** 794

Red blood cells. Deficiency in red blood cells, *Scientific correspondence,* (MacDonald, D, Town, M, Mason, P, Vulliamy, T, Luzzatto, L and Goff, D K) **350,** 115

Red fox. Large scale eradication of rabies using recombinant vaccinia-rabies vaccine, *Letter to Nature,* (Brochier, B, Kieny, M P, Costy, F, Coppens, P, Bauduin, B, Lecocq, J P, Languet, B, Chappuis, G, Desmettre, P, Afiademanyo, K, Libois, R and Pastoret, P-P) **354,** 521
Rabies: Immunization in the field, *News and views,* (Anderson, R M) **354,** 502

Red giants. CaII emission from old red giants in the globular cluster M15, *Letter to Nature,* (Dupree, A K and Whitney, B A) **354,** 284

Red Rectangle. Red Rectangle emission, *Scientific correspondence,* (Fossey, S J) **353,** 393

Redshifts, quasars. Quasar redshifts, *Scientific correspondence,* (Dar, A) **353,** 708

Reductionism. Lacuna seeker, *Correspondence,* (Kell, D B) **350,** 268
Reductionism, *Correspondence,* (Barnett, S A) **353,** 786

Refrigeration, food. Bacon's chicken, *Correspondence,* (Woods, K L and Woods, R) **352,** 368

Refrigeration. Frosty foods, *Correspondence,* (Cuthbertson, W F J) **351,** 434

Regulatory proteins. Regulatory proteins: Ras and the *and* couple, *News and views,* (Ruggieri, R and McCormick, F) **353,** 390

Reindeer. Red-blooded reindeer, *News and views,* **349,** 657

***rel* gene family.** Generation of p50 subunit of NF-κB by processing of p105 through an ATP-dependent pathway, *Letter to Nature,* (Fan, C-M and Maniatis, T) **354,** 395

Relativistic beaming. A rapid energetic X-ray flare in the quasar PKS0558-504, *Letter to Nature,* (Remillard, R A, Grossan, B, Bradt, H V, Ohashi, T, Hayashida, K, Makino, F and Tanaka, Y) **350,** 589

Relativity. Black holes and the Universe, *book review by* Friedman, J L. (Novikov, I) **350,** 119
General relativity: Evading the cosmic censor, *News and views,* (Friedman, J L) **351,** 269
General relativity: Inside a black hole, *News and views,* (Hiscock, W A) **353,** 702
New measurement of solar gravitational deflection of radio signals using VLBI, *Letter to Nature,* (Robertson, D S, Carter, W E and Dillinger, W H) **349,** 768
Olbers' paradox has more to teach, *News and views,* (Maddox, J) **349,** 363
Small change, *News and views,* **354,** 191
The detection of gravitational waves, *book review by* Weiss, R., (Blair, D G *editor*) **353,** 616
Weak equivalence in the balance, *News and views,* (Maddox, J) **350,** 187

Religion, and science. Can scientists believe? Some examples of the attitude of scientists to religion, *book review by* Marsden, G. (Mott, N) **350,** 528

Religion, hallucinogenics. One route to religious ecstasy, *Correspondence,* (Piomelli, D) **349,** 362

Religion. Shroud of Turin, *Correspondence,* (Emiliani, C) **353,** 598

Religious relics. Keeping bloody relics liquid, *Scientific correspondence,* (Hendry, G A F and Lyon, A J E) **354,** 114
Keeping bloody relics liquid, *Scientific correspondence,* (Dunlop, J M) **354,** 114
Working bloody miracles, *Scientific correspondence,* (Garlaschelli, L, Ramaccini, F and Della Sala, S) **353,** 507

Remote sensing, meteorology. Sub-Saharan Africa: Spotting famine from space, *News,* (Steele, D) **350,** 545
Watching the World's Weather, *book review by* Lloyd, P. (Burroughs, W J) **352,** 31

Remote sensing, ozone depletion. Measuring air from polar vortices, *Scientific correspondence,* (Roscoe, H K) **350,** 197

Remote sensing. Estimation of new production in the ocean by compound remote sensing, *Article,* (Sathyendranath, S, Platt, T, Horne, E P W, Harrison, W G, Ulloa, O, Outerbridge, R and Hoepffner, N) **353,** 129
Remote sensing: ESA's eye on the oceans, *News,* (Aldhous, P) **351,** 8
Remote sensing: Satellite launch delay, *rep* (Dickman, S) **351,** 596
Satellite data: Spat over Gulf War windfall, *News,* (Anderson, C) **351,** 174

Renewable energy, US. Renewable energy: The future is now (again), *News,* (Anderson, C) **354,** 344

Renewable energy. Renewable energy: The windmill gets a second wind, *News,* (Anderson, C) **354,** 344
Renewable energy: A bright light goes out, *News,* (Anderson, C) **354,** 345

Reproduction, bacteria. Do bacteria have sex?, *Scientific correspondence,* (Martinez, J L) **352,** 288

Reproductive biology. Reproductive biology: Do sperm find eggs attractive?, *News and views,* (Aitken, J) **351,** 19
Reproductive biology: A clue to Kartagener's, *News and views,* (Aitken, J) **353,** 306

Reproductive endocrinology. On labour day, *News and views,* **353,** 303

Reproductive strategies. Equal mating success among male reproductive strategies in a marine isopod, *Letter to Nature,* (Shuster, S M and Wade, M J) **350,** 608

Reproductive success. Sexual selection and the potential reproductive rates of males and females, *Letter to Nature,* (Clutton-Brock, T H and Vincent, A C J) **351,** 58

Reptiles, breathing. Dorsal nostrils and hydrodynamically driven underwater olfaction in plesiosaurs, *Letter to Nature,* (Cruickshank, A R I, Small, P G and Taylor, M A) **352,** 62

Reptiles, Triassic. Venom-conducting teeth in a Triassic reptile, *Letter to Nature,* (Sues, H-D) **351,** 141

Research and development, UK. Industrial innovation: Get academics into the boardroom, *News,* (Aldhous, P) **350,** 7
Industrial R&D: SPUR to innovation, *News,* (Aldhous, P) **349,** 556

Research and development, US. R&D for industry - A century of technical innovation at Alcoa, *book review by* Cahn, R W. (Graham, M B W and Pruitt, B H) **350,** 118

Research budget, Germany. German research budget: Robbing west to pay east, *News,* (Bachtler, B) **354,** 345

Research budgets. Research budget: growth continues in adversity, *News,* **349,** 4

Research commercialization, Australia. Australia: Costly commercialization, *News,* (Wright, B) **353,** 490

Research commercialization, Canada. Research commercialization: Canada targets biotech, *News,* (Spurgeon, D) **354,** 423

Research commercialization, US. Research commercialization: SBIR is good business, *News,* (Pool, R) **353,** 488

Research costs, US. Indirect costs: Flowers, opera and art, *News,* (Anderson, C) **351,** 173
Overheads cost research dear, *Opinion,* **351,** 255
Research funding: Cuts coming on overheads, *News,* (Anderson, C) **350,** 642
University research: No end of blame on costs, *News,* (Anderson, C) **350,** 182

Research councils, UK. British science, *Correspondence,* (Blundell, T) **353,** 787
UK research councils: Trouble at AFRC, *News,* (Aldhous, P) **353,** 690

Research funding, Australia. Research in Antarctica: Finance: Concentrating the effort, *News,* (Ewing, T) **350,** 307

Research funding, Europe. 'Civil war' scuttles EC research programme, *News,* (Aldhous, P) **350,** 177
Anglo-European research: Spend more to compete, *News,* (Aldhous, P) **349,** 183
Community confusion, *Opinion,* **349,** 638
Europe's research postponed, *Opinion,* **350,** 175
European research: Grant scheme put in doubt, *News,* (Maddox, J) **349,** 556
European research: Setting up shop in Brussels, *News,* (Aldhous, P) **350,** 641
European science funding: Auditors decry EC research waste, *News,* (Gee, H) **351,** 512

Research funding, France. Antarctic research: French research threatened, *News,* (Coles, P) **349,** 553
France: Budget cuts for research, *News,* (Coles, P) **350,** 181
Research in Antarctica: Finance and organization: research takes a back seat, *News,* (Coles, P) **350,** 300

Research funding, Human Frontier Program. Human Frontier Science Program: US leads race for Human Frontier grants, *News,* (Swinbanks, D) **350,** 644

Research funding, Italy. Italian research: Three year plan to double science spending, *News,* **349,** 269

Research funding, Japan. Human Frontier Science Program: A foray into red tape, *News,* (Swinbanks, D) **350,** 644
Japan: Survey pans university labs, *News,* (Swinbanks, D) **350,** 544
Japanese budget: End of year splurge, *News,* (Swinbanks, D) **349,** 731
Japanese funding: Bureaucracy denies grants, *News,* (Swinbanks, D) **349,** 185
Japanese funding: One tap is closed, but another is opened, *News,* (Swinbanks, D) **349,** 185
Japanese research funding: Cycle of feast or famine, *News,* (Swinbanks, D) **349,** 730
Research funding: Erato announces new research target, *News,* (Swinbanks, D) **352,** 96

Research funding, South Africa. Research funding: Tough times in South Africa, *News,* (Cherry, M) **350,** 549

Research funding, UK. A future for British science, *Commentary,* (Richmond, M) **353,** 379
Better answers needed, *Correspondence,* (Hopkins, S J and Rothwell, N J) **353,** 692
Better answers needed, *Correspondence,* (Ellis, V) **353,** 692
Growth of private funding, *Correspondence,* (Kealey, T) **352,** 466
Minister's reply, *Opinion,* **353,** 260
No growth for British science, *Correspondence,* (Roberts, D H) **350,** 550
No money, *Correspondence,* (Broome-Smith, J) **350,** 184
Overheads overblown, *Opinion,* **349,** 355
Problems of funding research, *Correspondence,* (Clough, D P, Dawson, W, Hughes, J, Jones, T, Ringrose, P S, Sim, A W, Turnbull, M J and White, A M) **349,** 646
Radioastronomy: Funding hiccup at Jodrell, *News,* (Aldhous, P) **349,** 733
Science budget: Tough times extend even to the top, *News,* (Aldhous, P) **351,** 339
SERC research grants: Award now, pay later, *News,* (Aldhous, P) **351,** 88
State of British science, *Correspondence,* (Humphreys, C) **351,** 513
State of British science, *Correspondence,* (Mulvey, J H) **351,** 513
UK research funding: Reform may cut grant awards, *News,* (Aldhous, P) **351,** 88
UK science budget: The Lords weigh in, *News,* (Aldhous, P) **349,** 644
UK science budget: Lords look for culprits, *News,* (Aldhous, P) **350,** 8
UK science budget: Moneysaving measures, *News,* (Aldhous, P) **350,** 8
UK science budget: Lords ask for crisis handout, *News,* (Aldhous, P) **350,** 264
UK science: All change at the top, *News,* (Aldhous, P) **349,** 443
UK science: Polys gain, *News,* (Aldhous, P) **349,** 443
UK universities: What's in it for science?, *News,* (Aldhous, P) **350,** 7
UK university budgets: Education under threat, *News,* (Aldhous, P) **350,** 6
University of London: Medicine becomes a liability, *News,* (Aldhous, P) **350,** 546

Research funding, US. . . . and at NIH, *Correspondence,* (Jardetzky, O) **349,** 646
Research funding: Cuts coming on overheads, *News,* (Anderson, C) **350,** 642
Science lobbying: California takes the gloves off, *News,* (Schaefer, E) **349,** 557
Storm clouds gather over research costs, *News,* (Anderson, C) **350,** 543
US research costs: Showdown over overheads?, *News,* (Anderson, C and Schaefer, E) **349,** 361

Research funding. Degrees of freedom, *Correspondence,* (Tokaryk, T T) **350,** 183
Grants as status, *Correspondence,* (Goodman, N W) **350,** 104
New money, *Correspondence,* (Yaes, R J) **350,** 9

Research grants, US. Hidden buildings, *Opinion,* **354,** 253
Indirect costs: Will less actually be more?, *News,* (Anderson, C) **354,** 258
Indirect costs: The case of the amazing shrinking scandal, *News,* (Anderson, C) **354,** 258
Indirect costs: NIH's options, *News,* (Anderson, C) **354,** 258

Research grants, France. France: research grants or handouts?, *News,* (Anderson, C) **353,** 98

Research institutes, eastern Germany. German research: Ray of hope for the East, *News,* (Dickman, S) **351,** 87

Research institutes, India. Raman rejoinder, *Correspondence,* (Radhakrishnan, V) **350,** 183

Research institutes, Japan. Japanese government laboratories: MITI to shake up institutes, *News,* (Swinbanks, D) **351,** 90

Research institutes, UK. Fair shares, *Correspondence,* (Pisciccelli-Taeggi, C) **349,** 558

Research policy, Japan. Research policy: Japan reaches out, *News,* (Swinbanks, D) **353,** 376
Research policy: But are manufacturers still holding out?, *News,* (Anderson, C) **353,** 376

Research policy, US. US research policy: A new role for DARPA?, *News,* (Pool, R) **353,** 198
US research policy: Ethics rule reconsidered, *News,* (Anderson, C) **353,** 784

Research spending, UK. British research spending: SERC ponders partnerships, *News,* (Maddox, J) **353,** 292

Research, Antarctica. Limits to *Endurance, News,* (Anderson, C) **352,** 271
The Antarctic Treaty System in world politics, *book review by* Drewry, D J., (Jorgansen-Dahl, A and Ostreng, W *editors*) **353,** 126

Research, Brazil. Amazonia: From mine camp to laboratory, *News,* (Bonalume, R) **350,** 368

Research, developing countries. Bad loans, good science, *News,* (Anderson, C) **353,** 293

Research, Europe. Compromise averts Framework fiasco, *News,* (Aldhous, P) **350,** 641
Due credit, *Correspondence,* (Markl, H) **351,** 263
EC research centres: Early retirement spawns money row, *News,* (Aldhous, P) **349,** 182
EC research: Brite's prospects dim, *News,* (Aldhous, P) **354,** 5
European collaboration: Opening up to the east, *News,* (Aldhous, P) **354,** 7
European research: Commission bids for power, *News,* (Ald-

hous, P) **350,** 101
European research: Gordon conference clones, *News,* (Dickman, S) **350,** 179

Research, Germany. German research budget robs west to pay east, *News,* (Dickman, S) **352,** 267
German reunification: Selling research to save it, *News,* (Anderson, C) **352,** 99
Unifying German research: Restructuring gets under way, *News,* (Dickman, S) **349,** 448
Unifying German research: Politics rears its not-so-ugly head, *News,* (Dickman, S) **349,** 448
Unifying German research: Simon stays, *News,* (Dickman, S) **349,** 448
Unifying German research: Good news, for a change, *News,* (Dickman, S) **350,** 366
Unifying German research: 'Now it seems this whole enterprise is about to fail', *News,* **350,** 366

Research, India. Indian research: Universities and industry collaborate, *News,* (Jayaraman, K S) **349,** 555

Research, Japan. Japanese collaboration: Door opens for national labs, *News,* (Swinbanks, D) **351,** 175
Japanese collaboration: National lab researchers dissatisfied, *News,* (Swinbanks, D) **351,** 175
Japanese government laboratories: Moving to nanotechnology, *News,* (Swinbanks, D) **351,** 90
Research funding: Erato announces new research target, *News,* (Swinbanks, D) **352,** 96

Research, social benefits. The social return of academic research, *News and views,* (Pool, R) **352,** 661

Research, South Africa. South Africa: Three blacks on research council, *News,* (Cherry, M) **353,** 377

Research, UK. Britain's science saga, *Opinion,* **349,** 442
British research: Richmond issues challenge, *News,* (Gee, H) **353,** 203
British science, *Correspondence,* (Collins, P) **351,** 9
On the margins of Europe, *Correspondence,* (Legg, C R) **349,** 188
Parallel boost, *News,* (Anderson, C) **352,** 271
Research centres: Teething troubles for UK technology labs, *News,* (Anderson, C) **352,** 270
Research centres: The perils of industrial participation, *News,* (Anderson, C) **352,** 270
UK research: British scientists hit back, *News,* (Gee, H) **349,** 641

Research, US. AAAS meeting: Presidential address sets the tone, *News,* (Culliton, B J and Pool, R) **349,** 642

Retina, mammalian. Two types of orientation-sensitive responses of amacrine cells in the mammalian retina, *Letter to Nature,* (Bloomfield, S A) **350,** 347

Retina. A cyclic GMP-activated channel in dissociated cells of the chick pineal gland, *Letter to Nature,* (Dryer, S E and Henderson, D) **353,** 756
Relation of an array of early-differentiating cones to the photoreceptor mosaic in the primate retina, *Letter to Nature,* (Wikler, K C and Rakic, P) **351,** 397
Retinal receptors in rodents maximally sensitive to ultraviolet light, *Letter to Nature,* (Jacobs, G H, Neitz, J and Deegan II, J F) **353,** 655

Retinal degeneration. Mutations in the human retinal degeneration slow gene in autosomal dominant, *Letter to Nature,* **354,** 480
Mutations in the human retinal degeneration slow gene in autosomal dominant retinitis pigmentosa, *Letter to Nature,* (Kajiwara, K, Hahn, L B, Mukai, S, Travis, G H, Berson, E L and Dryja, T P) **354,** 480

Retinal neurons. Cell-surface regulation of β1-integrin activity on developing retinal neurons, *Letter to Nature,* (Neugebauer, K M and Reichardt, L F) **350,** 68

Retinitis pigmentosa. A three-base-pair deletion in the peripherin-*RDS* gene in one form of retinitis pigmentosa, *Letter to Nature,* (Farrar, G J, Kenna, P, Jordan, S A, Kumar-Singh, R, Humphries, M M, Sharp, E M, Sheils, D M and Humphries, P) **354,** 478
Mutations in the human retinal degeneration slow gene in autosomal dominant, *Letter to Nature,* **354,** 480
Mutations in the human retinal degeneration slow gene in autosomal dominant retinitis pigmentosa, *Letter to Nature,* (Kajiwara, K, Hahn, L B, Mukai, S, Travis, G H, Berson, E L and Dryja, T P) **354,** 480

Retinoblastoma gene. Adenovirus E1a prevents the retinoblastoma gene product from complexing with a cellular transcription factor, *Letter to Nature,* (Bandara, L R and La Thangue, N B) **351,** 494
Correction: Negative regulation of human *c-fos* expression by the retinoblastoma gene product, *Letter to Nature,* (Robbins, P D, Horowitz, J M and Mulligan, R C) **351,** 419
Oncogenic germ-line mutations in Sp1 and ATF sites in the human retinoblastoma gene, *Letter to Nature,* (Sakai, T, Ohtani, N, McGee, T L, Robbins, P D and Dryja, T P) **353,** 83

Retinoblastoma. A cellular protein that competes with SV40 T antigen for binding to the retinoblastoma gene product, *Letter to Nature,* (Huang, S, Lee, W-H and Lee, E Y-H P) **350,** 160
Cloning of cDNAs for cellular proteins that bind to the retinablastoma gene product, *Letter to Nature,* (Defeo-Jones, D, Huang, P S, Jones, R E, Haskell, K M, Vuocolo, G A, Hanobik, M G, Huber, H E and Oliff, A) **352,** 251
Cyclin A facilitates the association of the retinoblastoma gene product with a cellular transcription factor, *Letter to Nature,* (Bandara, L R, Adamczewski, J P, Hunt, T and La Thangue, N B) **352,** 249
Retinoblastoma: A transcriptional tryst, *News and views,* (Wagner, S and Green, M R) **352,** 189

Retinoic acid. Conversion by retinoic acid of anterior cells into ZPA cells in the chick wing bud, *Letter to Nature,* (Wanek, N, Gardiner, D M, Muneoka, K and Bryant, S V) **350,** 81
Developmental biology: We may not have a morphogen, (Brockes, J) **350,** 15
Expression of the homeobox *Hox-4* genes and the specification of position in chick wing development, *Article,* (Izpisúa-Belmonte, J-C, Tickle, C, Dollé, P, Wolpert, L and Duboule, D) **350,** 585
Out on a limb, *Scientific correspondence,* (Newman, S A) **354,** 26
Out on a limb: Reply, *Scientific correspondence,* (Slack, J M W) **354,** 26
Retinoic acid induces polarizing activity but is unlikely to be a morphogen in the chick limb bud, *Letter to Nature,* (Noji, S, Nohno, T, Koyama, E, Muto, K, Ohyama, K, Aoki, Y, Tamura, K, Ohsugi, K, Ide, H, Taniguchi, S and Saito, T) **350,** 83

Retirements, universities. University faculties: NRC proposes end to forced retirement, *News,* (Anderson, C) **351,** 337

Rhenium, strength of. Static strength and equation of state of rhenium at ultra-high pressures, *Letter to Nature,* (Jeanloz, R, Godwal, B K and Meade, C) **349,** 687

Rheology, colloids. Forces between polymer-bearing surfaces undergoing shear, *Letter to Nature,* (Klein, J, Perahia, D and Warburg, S) **352,** 143

Rheostasis. Rheostasis: The physiology of change, *book review by* Schmidt-Nielsen, K. (Mrosovsky, N) **349,** 750

Rhetorical analysis. The art of scientific rhetoric, *book review by* Durant, J., (Pera, M and Shea, W R *editors*) **353,** 714

Rheumatoid arthritis. Structure of recombinant human rheumatoid arthritic synovial fluid phospholipase A2 at 2.2Å resolution, *Letter to Nature,* (Wery, J-P, Schevitz, R W, Clawson, D K, Bobbitt, J L, Dow, E R, Gamboa, G, Goodson, T, Hermann, R B, Kramer, R M, McClure, D B, Mihelich, E D, Putnam, J E, Sharp, J D, Stark, D H, Teater, C, Warrick, M W and Jones, N D) **352,** 79

Rhizobium bacteria. Chitin and nodulation, *Scientific correspondence,* (Bulawa, C E and Wasco, W) **353,** 710

Rhodopsin. A three-base-pair deletion in the perpherin-*RDS* gene in one form of retinitis pigmentosa, *Letter to Nature,* (Farrar, G J, Kenna, P, Jordan, S A, Kumar-Singh, R, Humphries, M M, Sharp, E M, Sheils, D M and Humphries, P) **354,** 478
Rhodopsin-regulated calcium currents in *Chlamydomonas, Letter to Nature,* (Harz, H and Hegemann, P) **351,** 489

Rhizobium bacteria. A novel highly unsaturated fatty acid moiety of lipo-oligosaccharide signals determines host specificity of *Rhizobium* (Spaink, H P, Sheeley, D M, van Brussel, A A N, Glushka, J, York, W S, Tak, T, Geiger, O, Kennedy, E P, Reinhold, V N and Lugtenberg, B J J) **354,** 125

Ribosomes. Integration of a group I intron into a ribosomal RNA sequence promoted by a tyrosyl-tRNA synthetase, *Letter to Nature,* (Mohr, G and Lambowitz, A M) **354,** 164
Internal initiation of translation mediated by the 5' leader of a cellular mRNA, *Letter to Nature,* (Macejak, D G and Sarnow, P) **353,** 90
mRNA translation: Initiation without an end, *News and views,* (Jackson, R J) **353,** 14
Ribosomes: Drugs and the RNA world, *News and views,* (Noller, H F) **353,** 302

Ribozyme technology. Ribozyme technology: Cech wins first patent, *News,* (Davies, K) **349,** 449

Ribozymes. Antibiotic inhibition of group I ribozyme function, *Letter to Nature,* (von Ahsen, U, Davies, J and Schroeder, R) **353,** 368
Novel guanosine requirement for catalysis by the hairpin ribozyme, *Letter to Nature,* (Chowrira, B M, Berzal-Herranz, A and Burke, J M) **354,** 320
Ribosomes: Drugs and the RNA world, *News and views,* (Noller, H F) **353,** 302
Ribozyme recognition of RNA by tertiary interactions with specific ribose 2'-OH groups, *Letter to Nature,* (Pyle, A M and Cech, T R) **350,** 628

Rice genome project. Rice genome project: 'Office ladies' aid research, *News,* (Ferrell, J) **353,** 99

Rifkin, Jeremy. Genetic information: Evolution of a gadfly, *News,* (Anderson, C) **353,** 686
Genetic information: Global warming meets genetic engineering, *News,* (Anderson, C) **353,** 686

Rift dynamics. A three-dimensional seismic image of the crust and upper mantle beneath the Kenya rift, *Article,* (Green, W V, Achauer, U and Meyer, R P) **354,** 199

Rifting. Large-scale variation in lithospheric structure along and across the Kenya rift, *Letter to Nature,* (KRISP Working Party) **354,** 223
Plate tectonics: A deep look at African rifting, *News and views,* (Morgan, P) **354,** 188

Ring nebula, supernova 1987A. Velocity structure of the ring nebula around supernova 1987A, *Letter to Nature,* (Crotts, A P S and Heathcote, S R) **350,** 683

RISC microprocessors. Computer industry: IBM and Apple set up camp, *News,* (Aldhous, P) **352,** 98

Risk assessment, public health. Public health: Hazards of risk assessment, *News,* (Anderson, C) **351,** 176

Risk assessment, US. Risk assessment: End of an era, *News,* (Anderson, C) **353,** 289

Risk assessment. Cholera epidemic traced to risk miscalculation, *News,* (Anderson, C) **354,** 255
Splitting the difference on risk, *News,* (Anderson, C) **354,** 255

RNA action. RNA action, *News and views,* **351,** 99

RNA amplification. Nucleic acid sequence-based amplification, *Product Review,* (Compton, J) **350,** 91

RNA catalysis. Novel guanosine requirement for catalysis by the hairpin ribozyme, *Letter to Nature,* (Chowrira, B M, Berzal-Herranz, A and Burke, J M) **354,** 320
Ribozyme recognition of RNA by tertiary interactions with specific ribose 2'-OH groups, *Letter to Nature,* (Pyle, A M and Cech, T R) **350,** 628

RNA double helix, crystal structure. Crystal structure of an RNA double helix incorporating a track of non-Watson-Crick base pairs, *Letter to Nature,* (Holbrook, S R, Cheong, C, Tinoco Jr, I and Kim, S-H) **353,** 579

RNA editing. Editing of a chloroplast mRNA by creation of an initiation codon, *Letter to Nature,* (Hoch, B, Maier, R M, Appel, K, Igloi, G L and Kössel, H) **353,** 178
RNA editing: Splicing: the new edition, *News and views,* (Bass, B L) **352,** 283

RNA helicases. A suppressor of yeast splicing mutation (*prp8-1*) encodes a putative ATP-dependent RNA helicase, *Letter to Nature,* (Jamieson, D J, Rahe, B, Pringle, J and Beggs, J D) **349,** 715
Similarities in RNA helicases, *Scientific correspondence,* (Koonin, E V) **352,** 290
The *Xenopus* localized RNA An3 may encode an ATP-dependent RNA helicase, *Letter to Nature,* (Gururajan, R, Perry-O'Keefe, H, Melton, D A and Weeks, D L) **349,** 717

RNA polymerases. A mediator required for activation of RNA polymerase II transcription *Letter to Nature,* (Flanagan, P M, Kelleher, R J, Sayre, M H, Tschochner, H and Kornberg, R D) **350,** 436
Blocking of Tat-dependent HIV-1 RNA modification by an inhibitor of RNA polymerase II processivity, *Letter to Nature,* (Braddock, M, Thorburn, A M, Kingsman, A J and Kingsman, S M) **350,** 439
Conserved sequence motifs in the small subunit of human general transcription factor TFIIE, *Letter to Nature,* (Sumimoto, H, Ohkuma, Y, Sinn, E, Kato, H, Shimasaki, S, Horikoshi, M and Roeder, R G) **354,** 401
Structural motifs and potential σ homologies in the large subunit of human general transcription factor TFIIE, *Letter to Nature,* (Ohkuma, Y, Sumimoto, H, Hoffmann, A, Shimasaki, S, Horikoshi, M and Roeder, R G) **354,** 398

RNA processing. Cloning and expression of the essential gene for poly(A) polymerase from *S. cerevisiae* (Lingner, J, Kellermann, J and Keller, W) **354,** 496
Efficient production of functional mRNA mediated by RNA polymerase I in *Trypanosoma brucei, Letter to Nature,* (Zomerdijk, J C B M, Kieft, R and Borst, P) **353,** 772
RNA editing: Splicing: the new edition, *News and views,* (Bass, B L) **352,** 283

RNA splicing. A suppressor of yeast splicing mutation (*prp8-1*) encodes a putative ATP-dependent RNA helicase, *Letter to Nature,* (Jamieson, D J, Rahe, B, Pringle, J and Beggs, J D) **349,** 715
Integration of a group I intron into a ribosomal RNA sequence promoted by a tyrosyl-tRNA synthetase, *Letter to Nature,* (Mohr, G and Lambowitz, A M) **354,** 164
Out of sequence, *News and views,* **350,** 21
Splice after splice, *News and views,* **349,** 739

RNA viruses. Muller's ratchet and flu virus, *Scientific correspondence,* (Donis, R O) **353,** 308
Structure of Sindbis virus core protein reveals a chymotrypsin-like serine proteinase and the organization of the virion, *Article,* (Choi, H-K, Tong, L, Minor, W, Dumas, P, Boege, U, Rossmann, M G and Wengler, G) **354,** 37

RNA world. Antibiotic inhibition of group I ribozyme function, *Letter to Nature,* (von Ahsen, U, Davies, J and Schroeder, R) **353,** 368
Ribosomes: Drugs and the RNA world, *News and views,* (Noller, H F) **353,** 302

RNA, catalytic. Antibiotic inhibition of group I ribozyme function, *Letter to Nature,* (von Ahsen, U, Davies, J and Schroeder, R) **353,** 368

RNA, four-stranded. Tetramerization of an RNA oligonucleotide containing a GGGG sequence, *Letter to Nature,* (Kim, J, Cheong, C and Moore, P B) **351,** 331

RNA, messenger. Internal initiation of translation mediated by the 5' leader of a cellular mRNA, *Letter to Nature,* (Macejak, D G and Sarnow, P) **353,** 90
mRNA translation: Initiation without an end, *News and views,* (Jackson, R J) **353,** 14
Primary structure and expression of bovine poly(A) polymerase, *Article,* (Raabe, T, Bollum, F J and Manley, J L) **353,** 229

RNA, viral. A pseudoknot-like structure required for efficient self-cleavage of hepatitis delta virus RNA, *Letter to Nature,* (Perrotta, A T and Been, M D) **350,** 434

RNA. Nucleic acids in chemistry and biology, *book review by* Gumport, R I. (Blackburn, G M and Gait, M J) **350,** 667

Rock mechanics. Quasi-static fault growth and shear fracture energy in granite, *Article,* (Lockner, D A, Byerlee, J D, Kuksenko, V, Ponomarev, A and Sidorin, A) **350,** 39

Rock mechanics: Action replay for fracture, *News and views*, (Wong, T-f) **350**, 17
Spinel elasticity and seismic structure of the transition zone of the mantle, *Letter to Nature*, (Rigden, S M, Gwanmesia, G D, Fitz Gerald, J D, Jackson, I and Liebermann, R C) **354**, 143
Rock paintings. Ancient North America: The Archaeology of a Continent, *book review by* Bahn, P G. (Fagan, B M) **351**, 615
Archaeology: Brilliant - rock art and art rock in Australia, *News and views*, (Gamble, C) **351**, 608
Rockefeller University. Baltimore defeat a defeat for research, *Opinion*, **354**, 419
Imanishi-Kari affair: Baltimore resigns, *News*, (Anderson, C) **354**, 341
Rockerfeller, John D. Partners in Science: Foundations and Natural Scientists,1890-1945, *book review by* Bynum, W F. (Kohler, R E) **351**, 618
Rockets, Japan. Japanese space agencies: Bridging an old rivalry, *News*, (Swinbanks, D) **352**, 181
Rodents. Tests for rodent polyphyly, *Scientific correspondence*, (Allard, M W, Miyamoto, M M and Honeycutt, R L) **353**, 610
Romania, universities. Romania rebuilds, *Correspondence*, (Wallace, D) **349**, 450
Roots. Herbivore-driven mycorrhizal mutualism in insect-susceptible pinyon pine, *Letter to Nature*, (Gehring, C A and Whitham, T G) **353**, 556
ROSAT satellite. A soft X-ray image of the Moon, *Article*, (Schmitt, J H M M, Snowden, S L, Aschenbach, B, Hasinger, G, Pfeffermann, E, Predehl, P and Trümper, J) **349**, 583
ROSAT: How to rescue a satellite, *News*, (Gee, H) **349**, 445
Soft X-ray shadowing by the Draco cloud, *Letter to Nature*, (Burrows, D N and Mendenhall, J A) **351**, 629
X-ray astronomy: ROSAT's return, *News*, (Gee, H) **349**, 555
X-ray astronomy: Draco's silver lining, *News and views*, (Kahn, S M) **351**, 607
X-ray survey of the Large Magellanic Cloud by ROSAT, *Article*, (Trümper, J, Hasinger, G, Aschenbach, B, Bräuninger, H, Briel, U G, Burkert, W, Fink, H, Pfeffermann, E, Pietsch, W, Predehl, P, Schmitt, J H M M, Voges, W, Zimmermann, U and Beuermann, K) **349**, 579
Rotational cooling. Chemical physics: Aiming the molecular arrow, *News and views*, (Stolte, S) **353**, 391
Spatial orientation of molecules in strong electric fields and evidence for pendular states, *Letter to Nature*, (Friedrich, B and Herschbach, D R) **353**, 412
Rotational spectroscopy. Red Rectangle emission, *Scientific correspondence*, (Fossey, S J) **353**, 393
Rounding errors. Digital display, *Correspondence*, (Thomas, A F) **352**, 9
Royal Society. Celebration of a dead genius, *News and views*, (Maddox, J) **353**, 599
UK science policy: Royal Society announces policy inquiry, *News*, (Aldhous, P) **349**, 183
Who speaks for science?, *Correspondence*, (Johnson, P M) **349**, 188
RU-486. Drug policy: More RU-486 now available for research, *News*, (Anderson, C) **352**, 6
Génération pilule, *book review by* Gratzer, W. (Baulieu, E-E) **350**, 199
RU-486 in UK, *News*, (Anderson, C) **352**, 99
Russia, science. Russian Academy: "For science and Russia", (Kanin, Y) **350**, 547
The Russian academy, *Opinion*, **350**, 542
What will happen to Russian science?, *Opinion*, **353**, 683
Ryanodine receptor. Malignant diagnosis, *News and views*, **354**, 22
Rydberg atoms. Another Landau sum made good, *News and views*, (Maddox, J) **349**, 277
Saccharides, gels. Saccharide-sensitive phase transition of a lectin-loaded gel, *Letter to Nature*, (Kokufata, E, Zhang, Y-Q and Tanaka, T) **351**, 302
Sakharov, Andrei. Andrei Sakharov: Facets of a life, *book review by* Charap, J M. **354**, 333
Moscow and beyond, *book review by* Charap, J M. (Sakharov, A) **350**, 526
Sakharov remembered: A tribute by friends and colleagues, (Drell, S D and Kapitza, S P *editors*) *book review by* Charap, J M. **354**, 333
Sakmann, Bert. Nobel Prize: Patch clamp brings honour, *News*, (Aldhous, P) **353**, 487
Salinity, North Sea. High salinity in the North Sea, *Scientific correspondence*, (Heath, M R, Henderson, E W, Slesser, G and Woodward, E M S) **352**, 116
Salinity, oceans. Structure of the upper ocean in the western equatorial Pacific, *Letter to Nature*, (Richards, K J and Pollard, R T) **350**, 48
Saliva, proteins. Spit and polish, *News and views*, **351**, 270
San Andreas fault. Loma Prieta earthquake: Putting the pieces together, *News and views*, (Ellsworth, W L) **349**, 371
The San Andreas Fault system, California, *book review by* Sibson, R. (Wallace, R E **352**, 487
Transform faults and vertical tectonics, *News and views*, **349**, 371
Sanctions, Gulf war. Gulf war and sanctions, *Correspondence*, (Elkhawad, A O) **351**, 9
Sand piles. On the slide, *News and views*, **349**, 20
Sanger, Frederick. Portrait of a biochemist, *News and views*, **353**, 606
Satellite industry, Japan. Japanese firms opt out, *News*, (Swinbanks, D) **353**, 373
Satellite television. Telecommunications: HDTV satellite is up, *News*, (Swinbanks, D) **353**, 8
Satellite, Europe. ERS-1 off at last, *News*, (Anderson, C) **352**, 271
Satellites, atmospheric research. Ozone mission up, *News*, (Anderson, C) **353**, 199
Satellites, debris. In a flash, *News and views*, **351**, 520
Satellites, engineering. Satellite engineering: Surrey spreads its wings, *News*, (Aldhous, P) **349**, 557
Satellites, Europe. Remote sensing: ESA's eye on the oceans, *News*, (Aldhous, P) **351**, 8
Remote sensing: Satellite launch delay, *News*, (Dickman, S) **351**, 596
Satellites, India. Earth mapping: New Indian satellite is up, *News*, (Jayaraman, K S) **353**, 202
Nuclear research: India to reprocess fuels, *News*, (Jayaraman, K S) **351**, 338
Satellites, Japan. Japanese satellites: Sunlight in orbit, *News*, (Swinbanks, D) **353**, 102
Japanese satellites: New testing centre, *News*, (Swinbanks, D) **353**, 102
Satellites: US pressure pays off, *News*, (Swinbanks, D) **354**, 424
Satellites, Long Duration Exposure Facility. Come in LDEF, your time is up, *News and views*, **349**, 656
Observation of ^{7}Be on the surface of the LDEF spacecraft, *Letter to Nature*, (Fishman, G J, Harmon, B A, Gregory, J C, Parnell, T A, Peters, P, Phillips, G W, King, S E, August, R A, Ritter, J C, Cutchin, J H, Haskins, P S, McKisson, J E, Ely, D W, Weisenberger, A G, Piercey, R B and Dybl) **349**, 678
Satellites, meteorology. Watching the World's Weather, *book review by* Lloyd, P. (Burroughs, W J) **352**, 31
Satellites, military. Satellite data: Spat over Gulf War windfall, *News*, (Anderson, C) **351**, 174
Satellites, planetary. Coherent backscatter model for the unusual radar reflectivity of icy satellites, *Letter to Nature*, (Hapke, B and Blewett, D) **352**, 46
Satellites, remote sensing. Earth mapping: New Indian satellite is up, *News*, (Jayaraman, K S) **353**, 202
Satellites, ROSAT. ROSAT: How to rescue a satellite, *News*, (Gee, H) **349**, 445
Satellites, telecommunications. Commercial rocket launches: Japan chases space market, *News*, (Swinbanks, D) **350**, 450
Satellites, television. Japanese television: New channel is lost in space, *News*, (Swinbanks, D) **350**, 544
Satellites, US. Hubble fix on course, *News*, (Aldhous, P) **352**, 94
Satellites, weather. NOAA: Weather satellite woes, *News*, (Aldhous, P) **352**, 97
Satellite lent to US, *News*, (Anderson, C) **353**, 199
Saturn, atmosphere. Saturn: At the eye of the storm, *News and views*, (Flasar, F M) **349**, 21
Saturn, Great White Spot. The Great White Spot and disturbances in Saturn's equatorial atmosphere during 1990, *Article*, (Sanchez-Lavega, A, Colas, F, Lecacheux, J, Laques, P, Miyazaki, I and Parker, D) **353**, 397
Saturn, rings. Planetary rings: Ever decreasing circles, *News and views*, (Esposito, L W) **354**, 107
Savannah, burning. Influence of biomass burning on equatorial African rains, *Letter to Nature*, (Cachier, H and Ducret, J) **352**, 228
Scanning transmission electron microscopy. Structural origin of reduced critical currents at YBa$_2$Cu$_3$O$_{7-\delta}$ grain boundaries, *Letter to Nature*, (Chisholm, M F and Pennycook, S J) **351**, 47
Scanning tunnelling microscope. An atomic switch realized with the scanning tunnelling microscope, *Letter to Nature*, (Eigler, D M, Lutz, C P and Rudge, W E) **352**, 600
Einstein brought down to size, *News*, (Swinbanks, D) **349**, 556
Nanotechnology: Switch to atom control, *News and views*, (Quate, C F) **352**, 571
Observation of surface reconstruction on silicon above 800°C using the STM, *Letter to Nature*, (Kitamura, S, Sato, T and Iwatsuki, M) **351**, 215
Scanning tunnelling microscopy. Incremental charging of a molecule at room temperature using the scanning tunnelling microscope, *Letter to Nature*, (Nejoh, H) **353**, 640
Scatter factor. Cell biology: The Janus factor, *News and views*, (Warn, R M) **353**, 20
Scattering, localization. Microwave localization by two-dimensional random scattering, *Letter to Nature*, (Dalichaouch, R, Armstrong, J P, Schultz, S, Platzman, P M and McCall, S L) **354**, 53
Scavenger receptors. Recognition and plasma clearance of endotoxin by scavenger receptors, *Letter to Nature*, (Hampton, R Y, Golenbock, D T, Penman, M, Krieger, M and Raetz, C R H) **352**, 342
Schizophrenia. A universal Hamlet?, *Correspondence*, (Elomaa, E) **351**, 179
A universal Hamlet?, *Correspondence*, (Rakitzis, E T) **351**, 179
Cloning of the gene for a human dopamine D$_3$ receptor with high affinity for the antipsychotic clozapine, *Letter to Nature*, (Van Tol, H H M, Bunzow, J R, Guan, H-C, Sunahara, R K, Seeman, P, Niznik, H B and Civelli, O) **350**, 610
Cloning of the gene for a human dopamine D$_3$ receptor with higher affinity for dopamine than D$_2$, *Letter to Nature*, (Sunahara, R K, Guan, H-C, O'Dowd, B F, Seeman, P, Laurier, L G, Ng, G, George, S R, Torchia, J, Van Tol, H H M and Niznik, H B) **350**, 614
Schizophrenia in the melting pot, *Commentary*, (Leff, J) **353**, 693
Wittgenstein and reality, *Correspondence*, (Bird, R J) **351**, 10
Wittgenstein and reality, *Correspondence*, (Jenner, F A) **351**, 10
Wittgenstein's paranoia, *Correspondence*, (Smythies, J R) **350**, 9

Secrecy, science. Science and secrecy, *Commentary,* (Ormerod, W) **350,** 551
Secret Service, US. Secret Service as ultimate referee, *News and views,* (Maddox, J) **350,** 553
Secretory proteins. Assembly of yeast Sec proteins involved in translocation into the endoplasmic reticulum into a membrane-bound multisubunit complex, *Letter to Nature,* (Deshaies, R J, Sanders, S L, Feldheim, D A and Schekman, R) **349,** 806
Security, science. Science and secrecy, *Commentary,* (Ormerod, W) **350,** 551
Sediment traps. Do upper-ocean sediment traps provide an accurate record of particle flux?, *Letter to Nature,* (Buesseler, K O) **353,** 420
Seasonal and depth-related changes in the source of sinking particles in the North Atlantic, *Letter to Nature,* (Altabet, M A, Deuser, W G, Honjo, S and Stienen, C) **354,** 136
Sediment-water interface. Distribution of dissolved iron in sediment pore waters at submillimetre resolution, *Letter to Nature,* (Davison, W, Grime, G W, Morgan, J A W and Clarke, K) **352,** 323
Sedimentary petrology, ores. Ore deposits: Ocean cycles in control, *News and views,* (Petersen, U) **352,** 382
Sedimentary petrology. Largest known microbialites discovered in Lake Van, Turkey, *Letter to Nature,* (Kempe, S, Kazmierczak, J, Landmann, G, Konuk, T, Reimer, A and Lipp, A) **349,** 605
Sedimentation rates, Lake Baikal. Sedimentation rates, residence times and radionuclide inventories in Lake Baikal from ^{137}Cs and ^{210}Pb in sediment cores, *Letter to Nature,* (Edgington, D N, Klump, J V, Robbins, J A, Kusner, Y S, Pampura, V D and Sandimirov, I V) **350,** 601
Sedimentation, Arctic ocean. Effects of ice coverage and ice-rafted material on sedimentation in the Fram Strait, *Letter to Nature,* (Hebbeln, D and Wefer, G) **350,** 409
Sedimentation, rivers. Mixing-layer distortion at the confluence of channels of different depth, *Letter to Nature,* (Best, J L and Roy, A G) **350,** 411
Sedimentation. Erosion of a stable density gradient by sedimentation-driven convection, *Letter to Nature,* (Kerr, R C) **353,** 423
Sediments, Black Sea. Enrichment in saturated compounds of Black Sea interfacial sediment, *Letter to Nature,* (Beier, J A, Wakeham, S G, Pilskaln, C H and Honjo, S) **351,** 642
Low organic carbon accumulation rates in Black Sea sediments, *Letter to Nature,* (Calvert, S E, Karlin, R E, Toolin, L J, Donahue, D J, Southon, J R and Vogel, J S) **350,** 692
Sediments, carbonate. Extraction of high-resolution carbonate data for palaeoclimate reconstruction, *Letter to Nature,* (Mayer, L A) **352,** 148
Sediments, ice. Reconstruction of glaciation over the past 6 Myr from ice-borne deposits in the Norwegian Sea, *Letter to Nature,* (Jansen, E and Sjoholm, J) **349,** 600
Sediments, organic geochemistry. Sources of sedimentary lipids deduced from stable carbon-isotope analyses of individual compounds, *Letter to Nature,* (Rieley, G, Collier, R J, Jones, D M, Eglinton, G, Eakin, P A and Fallick, A E) **352,** 425
Seep sediments. Control of pore-water chemistry at the base of the Florida escarpment by processes within the platform, *Letter to Nature,* (Chanton, J P, Martens, C S and Paull, C K) **349,** 229
Segmentation genes. Concentration-dependent transcriptional activation or repression by *Kruppel* from a single binding site, *Letter to Nature,* (Sauer, F and Jäckle, H) **353,** 563
Seismic discontinuities, mantle. Spinel elasticity and seismic structure of the transition zone of the mantle, *Letter to Nature,* (Rigden, S M, Gwanmesia, G D, Fitz Gerald, J D, Jackson, I and Liebermann, R C) **354,** 143
Seismic refraction imaging. Large-scale variation in lithospheric structure along and across the Kenya rift, *Letter to Nature,* (KRISP Working Party) **354,** 223
Seismic reflection profiles. Late Palaeozoic deformation in central Africa: a result of distant collision?, *Letter to Nature,* (Daly, M C, Lawrence, S R, Kimun'a, D and Binga, M) **350,** 605
Seismic tomography. A three-dimensional seismic image of the crust and upper mantle beneath the Kenya rift, *Article,* (Green, W V, Achauer, U and Meyer, R P) **354,** 199
Deep structure of the northeastern Japan arc and its relationship to seismic and volcanic activity, *Article,* (Hasegawa, A, Zhao, D, Hori, S, Yamamoto, A and Horiuchi, S) **352,** 683
Lower-mantle structure from ScS-S differential travel times, *Letter to Nature,* (Woodward, R L and Masters, G) **352,** 231
Mantle structure: A matter for resolution, *News and views,* (Lay, T) **352,** 105
Predominance of long-wavelength heterogeneity in the mantle, *Article,* (Su, W-j and Dziewonski, A M) **352,** 121
Tomographic imaging of subducted lithosphere below northwest Pacific island arcs, *Article,* (van der Hilst, R, Engdahl, R, Spakman, W and Nolet, G) **353,** 37
Seismicity, lithosphere. Lower-mantle viscosity constrained by seismicity around deglaciated regions, *Letter to Nature,* (Spada, G, Yuen, D A, Sabadini, R and Boschi, E) **351,** 53
Seismicity. Water at fault, *News and views,* **351,** 520
Seismology, eruption prediction. Prospects for eruption prediction in near real-time, *Letter to Nature,* (Voight, B and Cornelius, R R) **350,** 695
Seismology. Aseismicity in the lower mantle by superplasticity of the descending slab, *Letter to Nature,* (Ito, E and Sato, H) **351,** 140
Earthquake explanations, *Scientific correspondence,* (Langbein, J) **349,** 287
Earthquake hazard analysis: Issues and insights, *book review by* Wesson, R L., (Reiter, L) **353,** 127
Earthquakes in aseismic zones, *News and views,* (Crone, A J) **352,** 570
Fast rise times and the physical mechanism of deep earthquakes, *Letter to Nature,* (Houston, H and Williams, Q) **352,** 520
Geological faulting: Do little things matter?, *News and views,* (King, G and Cisternas, A) **351,** 350
Geosciences: Predicting earthquake risks, *News,* (Schaefer, E) **350,** 103
Insignificant isotropic component in the moment tensor of deep earthquakes, *Letter to Nature,* (Kawakatsu, H) **351,** 50
Kerb crawling, *News and views,* **353,** 796
Light from seismic waves, *Scientific correspondence,* (Johnston, A C) **354,** 361
Loma Prieta earthquake: Putting the pieces together, *News and views,* (Ellsworth, W L) **349,** 371
Quasi-static fault growth and shear fracture energy in granite, *Article,* (Lockner, D A, Byerlee, J D, Kuksenko, V, Ponomarev, A and Sidorin, A) **350,** 39
Relationship of deep seismicity to the thermal structure of subducted lithosphere, *Letter to Nature,* (Helffrich, G and Brodholt, J) **353,** 252
Rock mechanics: Action replay for fracture, *News and views,* (Wong, T-f) **350,** 17
Sea-level rise and earthquakes, *Scientific correspondence,* (Bilham, R and Barrientos, S) **350,** 386
Seismic excitation by the space shuttle Columbia, *Letter to Nature,* (Kanamori, H, Mori, J, Anderson, D L and Heaton, T H) **349,** 781
Seismic quiescence at Parkfield due to detachment faulting, *Letter to Nature,* (Stuart, W D) **349,** 58
Shake-up for earthquake prediction, *Commentary,* (Geller, R J) **352,** 275
Spinel elasticity and seismic structure of the transition zone of the mantle, *Letter to Nature,* (Rigden, S M, Gwanmesia, G D, Fitz Gerald, J D, Jackson, I and Liebermann, R C) **354,** 143
The first surface faulting from a historical intraplate earthquake in North America, *Letter to Nature,* (Adams, J, Wetmiller, R J, Hasegawa, H S and Drysdale, J) **352,** 617
The importance of small-scale faulting in regional extension, *Letter to Nature,* (Walsh, J, Watterson, J and Yielding, G) **351,** 391
The San Andreas Fault system, California, *book review by* Sibson, R. (Wallace, R E **352,** 487
Transform faults and vertical tectonics, *News and views,* **349,** 371
Unpredictable earthquakes, *Scientific correspondence,* (Hamada, K) **353,** 611
Unpredictable earthquakes: Reply, *Scientific correspondence,* (Geller, R J) **353,** 612
Seizures. Cloning of cDNA for the glutamate-binding subunit of an NMDA receptor complex, *Letter to Nature,* (Kumar, K N, Tilakaratne, N, Johnson, P S, Allen, A E and Michaelis, E K) **354,** 70
Selectin. Regulation of leukocyte migration by activation of the leukocyte adhesion molecule-1 (LAM-1) selectin, *Letter to Nature,* (Spertini, O, Kansas, G S, Munro, J M, Griffin, J D and Tedder, T F) **349,** 691
Selenocysteine. Recognition of UGA as a selenocysteine codon in Type I deiodinase requires sequences in the 3' untranslated region, *Letter to Nature,* (Berry, M J, Banu, L,

Chen, Y, Mandel, S J, Kieffer, J D, Harney, J W and Larsen, P R) **353,** 273

Selenoprotein synthesis. Recognition of UGA as a selenocysteine codon in Type I deiodinase requires sequences in the 3' untranslated region, *Letter to Nature,* (Berry, M J, Banu, L, Chen, Y, Mandel, S J, Kieffer, J D, Harney, J W and Larsen, P R) **353,** 273

Self-assembly. An introduction to ultrathin organic films: From Langmuir-Blodgett to self-assembly, (Ulman, A) *book review by* Tredgold, R H. **354,** 120

Self-organized criticality. 'Life' not critical?, *Scientific correspondence,* (Bennett, C and Bourzutschky, M S) **350,** 468

On the slide, *News and views,* **349,** 20

Self-replication. Towards synthetic self-replication, *News and views,* (Maddox, J) **354,** 351

Selfish genes. Selfish psycho-darwinism, *Correspondence,* (Waller, M J C) **351,** 264

Sellafield. Nuclear waste: Questions at Sellafield, *News,* (Anderson, C) **352,** 366

Semantics. Misuse of words, *Correspondence,* (Katscher, F) **351,** 179

Semiconductor devices. A silicon neuron, *Letter to Nature,* (Mahowald, M and Douglas, R) **354,** 515

Neural sciences: Electronic arts imitate life, *News and views,* (Andreou, A G) **354,** 501

Semiconductor heterostructures. Quantum semiconductor structures: Fundamentals and applications, *book review by* Eaves, L., (Weisbuch, C and Vinter, B) **353,** 314

Semiconductor industry. Japanese patent system: Fujitsu and TI fight it out, *News,* (Swinbanks, D) **353,** 488

Semiconductor physics. Quantum semiconductor structures: Fundamentals and applications, *book review by* Eaves, L., (Weisbuch, C and Vinter, B) **353,** 314

Semiconductor physics: Sure plays a mean pinball, *News and views,* (Washburn, S) **353,** 119

Semiconductors: Squeezing light from silicon, *News and views,* (Brus, L) **353,** 301

Visible light emission due to quantum size effects in highly porous crystalline silicon, *Letter to Nature,* (Cullis, A G and Canham, L T) **353,** 335

Semiconductor research, Europe. JESSI: Losing the 'R' from R&D, *News,* (Aldhous, P) **354,** 257

Semiconductor research: Retrenchment at JESSI, *News,* (Aldhous, P) **354,** 5

Semiconductors, clusters. Cluster physics: All surface and no bulk, *News and views,* (Grätzel, M) **349,** 740

Semiconductors, electronics. Transparent currents, *News and views,* **349,** 571

Semiconductors. Semiconductor devices: Pioneering papers, (Sze, S M) *book review by* Holmes-Siedle, A. **354,** 443

Semiconductors: Dawn of the diamond chip, *News and views,* (Brown, L M) **350,** 561

Solid-state physics: And now quasi-semiconductors?, *News and views,* (Carlsson, A) **353,** 15

Solid-state physics: Temperature dependence of electrical conductivity, *News and views,* (Carlsson, A) **353,** 16

Senescence. Longevity, senescence and the genome, *book review by* Partridge, L. (Finch, C E) **351,** 198

Sensor technology. A fibre-optic chemical sensor with discrete sensing sites, *Letter to Nature,* (Barnard, S M and Walt, D R) **353,** 338

Sensors, gas. Artificial 'olfactory' images from a chemical sensor using a light-pulse technique, *Letter to Nature,* (Lundström, I, Erlandsson, R, Frykman, U, Hedborg, E, Spetz, A, Sundgren, H, Welin, S and Winquist, F) **352,** 47

Nobody nose ..., *News and views,* **352,** 22

Polymer films: Designing a slow leak, *News and views,* (Kaner, R B) **352,** 23

Sensors, membranes. Composite membranes from photochemical synthesis of ultrathin polymer films, (Liu, C and Martin, C R) **352,** 50

Sensory cells. Neurobiology: Most of the senses begin to make some sense, *News and views,* (Lancet, D) **353,** 799

Sensory nerves. Requirement for nerve growth factor in the development of myelinated nociceptors *in vitro, Letter to Nature,* (Ritter, A M, Lewin, G R, Kremer, N E and Mendell, L M) **350,** 500

Sensory perception. Sensory perception: Turning on and turning off the sense of smell, *News and views,* (Burchell, B) **350,** 16

Sensory receptors. Nature of the motor element in electrokinetic shape changes of cochlear outer hair cells, *Letter to Nature,* (Dallos, P, Evans, B N and Hallworth, R) **350,** 155

Separation science. Bioseparation: International journal of separation science in biotechnology, *journal review by* Karger, B L., (Atkinson, T *editor*) **353,** 470

Sequence analysis. Sequence analysis: Spinning in hyperspace, *News and views,* (Taylor, W) **353,** 388

Serine proteinases. Structure of Sindbis virus core protein reveals a chymotrypsin-like serine proteinase and the organization of the virion, *Article,* (Choi, H-K, Tong, L, Minor, W, Dumas, P, Boege, U, Rossmann, M G and Wengler, G) **354,** 37

Serotonin transporters. Cloning and expression of a functional serotonin transporter from rat brain, *Letter to Nature,* (Blakely, R D, Berson, H E, Fremeau Jr, R T, Caron, M G, Peek, M M, Prince, H K and Bradley, C C) **354,** 66

Neuroscience: Vehicles of inactivation, *News and views,* (Snyder, S H) **354,** 187

Serpins. Mobile reactive centre of serpins and the control of thrombosis, *Letter to Nature,* (Carrell, R W, Evans, D Ll and Stein, P E) **353,** 576

Sesame seeds. Sesame sauce, *News and views,* **353,** 118

Sex chromosomes. A candidate spermatogenesis gene on the mouse Y chromosome is homologous to ubiquitin-activating enzyme E1, *Letter to Nature,* (Kay, G F, Ashworth, A, Penny, G D, Dunlop, M, Swift, S, Brockdorff, N and Rastan, S) **354,** 486

Characterization of a murine gene expressed from the inactive X chromosome, *Letter to Nature,* (Borsani, G, Tonlorenzi, R, Simmler, M C, Dandalo, L, Arnaud, D, Capra, V, Grompe, M, Pizzuti, A, Muzny, D, Lawrence, C, Willard, H F, Avner, P and Ballabio, A) **351,** 325

Conservation of position and exclusive expression of mouse *Xist* from the inactive X chromosome, *Letter to Nature,* (Brockdorff, N, Ashworth, A, Kay, G F, Cooper, P, Smith, S, McCabe, V M, Norris, D P, Penny, G D, Patel, D and Rastan, S) **351,** 329

Homology of a candidate spermatogenic gene from the mouse Y chromosome to the ubiquitin-activating enzyme E1, *Letter to Nature,* (Mitchell, M J, Woods, D R, Tucker, P K, Opp, J S and Bishop, C E) **354,** 483

Protection from X inactivation, *Scientific correspondence,* (Crow, T J) **353,** 710

X-chromosome inactivation may explain the difference in viability of XO humans and mice, *Letter to Nature,* (Ashworth, A, Rastan, S, Lovell-Badge, R and Kay, G) **351,** 406

Sex determination. Early aspects of *Caenorhabditis elegans* sex determination and dosage compensation are regulated by a zinc-finger protein, *Letter to Nature,* (Nonet, M L and Meyer, B J) **351,** 65

Male development of chromosomally female mice transgenic for *sry, Article,* (Koopman, P, Gubbay, J, Vivian, N, Goodfellow, P and Lovell-Badge, R) **351,** 117

Prenatal selection in XO mice, *Scientific correspondence,* (Burgoyne, P S) **353,** 709

Prenatal selection in XO mice: Reply, *Scientific correspondence,* (Rastan, S) **353,** 709

Sex determination: The making of male mice, *Caenorhabditis elegans* . (McLaren, A) **351,** 96

Sex surveys, US. Sex study dead again, *News,* (Anderson, C) **353,** 199

US kills sex survey, *Opinion,* **353,** 371

Sex testing, athletics. Genetic testing: Olympic row over sex testing, *News,* (Anderson, C) **353,** 784

Sex, bacteria. Do bacteria have sex?, *Scientific correspondence,* (Martinez, J L) **352,** 288

Localized sex in bacteria, *Review article,* (Maynard Smith, J, Dowson, C G and Spratt, B G) **349,** 29

Sex, definition of. Sexual semantics, *Scientific correspondence,* (Cuthill, I C) **353,** 309

Sexual semantics, *Scientific correspondence,* (Thain, M) **353,** 309

Sex, dimorphism. Extreme sexual dimorphism in a Miocene hominoid, *Letter to Nature,* (Kelley, J and Qinghua, X) **352,** 151

Palaeoanthropology: Teeth, sex and species, *News and views,* (Martin, L) **352,** 111

Sex, origin of. Evolution: Sex, slime and selfish genes, *News and views,* (Hurst, L D) **354,** 23

Sex-change. Size is important, *News and views,* **351,** 190

Sexism. Man's inhumanity, *Correspondence,* (Hogan, B) **349,** 558

Sexual competition. The Evolution of Parental Care, *book review by* Gwynne, D T. (Clutton-Brock, T H) **352,** 118

Sexual disorders. Precocious puberty, *News and views,* **349,** 571

Sexual life cycle. Evolution: When to be diploid, *News and views,* (Charlesworth, B) **351,** 273

Sexual reproduction. Clonal defence, *Scientific correspondence,* (Tibayrenc, M, Kjellberg, F and Ayala, F J) **350,** 385

Sexual selection. Colour coding, *News and views,* **350,** 21

Equal mating success among male reproductive strategies in a marine isopod, *Letter to Nature,* (Shuster, S M and Wade, M J) **350,** 608

Lekking in the black grouse - a test of male viability, *Letter to Nature,* (Alatalo, R V, Höglund, J and Lundberg, A) **352,** 155

Plumage coloration is a sexually selected indicator of male quality, *Letter to Nature,* (Hill, G E) **350,** 337

Sexual selection and the potential reproductive rates of males and females, *Letter to Nature,* (Clutton-Brock, T H and Vincent, A C J) **351,** 58

The evolution of mating preferences and the paradox of the lek, *Review article,* (Kirkpatrick, M and Ryan, M J) **350,** 33

Sexuality, history of. Journal of the history of sexuality, *journal review by* Porter, R., (Fout, J C *editor*) **353,** 460

Sexuality, human. Mystery dance: On the evolution of human sexuality, (Margulis, L and Sagan, D) *book review by* Dawkins, R. **354,** 442

Seyfert galaxies. A hot gas model for iron-line X-ray emission from the rapidly varying Seyfert galaxy NGC6814, *Letter to Nature,* (Hayakawa, S) **351,** 214

Active galactic nuclei: In the eye of the beholder, *News and views,* (Gaskell, C M) **349,** 194

Sharks, conservation. South Africa: Saving the shark, *News,* (Cherry, M) **350,** 645

Ships, Flettner rotors. Fluid mechanics: Aerodynamics in a spin, *News and views,* (Salter, S H) **352,** 470

Shroud of Turin. Sampling error?, *Correspondence,* (Busson, P) **352,** 187

Shroud dating still questioned, *Correspondence,* (Pourrat, O) **349,** 558

Shroud of Turin, *Correspondence,* (Emiliani, C) **353,** 598

Shuttle glow. Origin of the shuttle glow, *Letter to Nature,* (Viereck, R A, Murad, E, Green, B D, Joshi, P, Pike, C P, Hieb, R and Harbaugh, G) **354,** 48

Siberia, ornithology. Ornithological cooperation in Siberia, *Commentary,* (Prys-Jones, R) **354,** 102

Signal transduction. *myc* rescue of a mutant CSF-1 receptor impaired in mitogenic signalling, *Letter to Nature,* (Roussel, M F, Cleveland, J L, Shurtleff, S A and Sherr, C J) **353,** 361

A haemoprotein with kinase activity encoded by the oxygen sensor of *Rhizobium meliloti, Letter to Nature,* (Gilles-Gonzalez, M A, Ditta, G S and Helinski, D R) **350,** 170

Activation of the β1 isozyme of phospholipase C by α subunits of the G_q class of G proteins, *Letter to Nature,* (Taylor, S J, Chae, H Z, Rhee, S G and Exton, J H) **350,** 516

Bcr encodes a GTPase-activating protein for $p21^{rac}$, *Letter to Nature,* (Diekmann, D, Brill, S, Garrett, M D, Totty, N, Hsuan, J, Monfries, C, Hall, C, Lim, L and Hall, A) **351,** 400

Colon cancer: Consider the coiled coil . . ., *News and views,* (Bourne, H R) **351,** 188

Dissection of the protein kinase cascade by which nerve growth factor activates MAP kinases, *Letter to Nature,* (Gómez, N and Cohen, P) **353,** 170

Membrane proteins and minimalism, *News and views,* (Robertson, M) **354,** 183

Molecular biology: Signal recognition revisited, *News and views,* (Munro, S) **354,** 437

Mutant α subunits of G_s inhibit cyclic AMP accumulation, *Letter to Nature,* (Wong, Y H, Federman, A, Pace, A M, Zachary, I, Evans, T, Pouysségur, J and Bourne, H R) **351,** 63

New protein fold revealed by a 2.3-Å resolution crystal structure of nerve growth factor, *Letter to Nature,* (McDonald, N Q, Lapatto, R, Murray-Rust, J, Gunning, J, Wlodawer, A and Blundell, T L) **354,** 411

Odorant signal termination by olfactory UDP glucuronosyl transferase, *Letter to Nature,* (Lazard, D, Zupko, K, Poria, Y, Nef, P, Lazarovits, J, Horn, S, Khen, M and Lancet, D) **349,** 790

Olfaction: The strong scent of success, *News and views,* (Lancet, D) **351,** 275

On the scent, *News and views,* **353,** 601

Oncogenic and transcriptional cooperation with Ha-Ras requires phosphorylation of c-Jun on serines 63 and 73, *Letter to Nature,* (Smeal, T, Binetruy, B, Mercola, D A, Birrer, M and Karin, M) **354,** 494

Pathway of phosphatidylinositol(3,4,5)-trisphosphate synthesis in activated neutrophils, *Article,* (Stephens, L R, Hughes, K T and Irvine, R F) **351,** 33

Phosphorylation and dephosphorylation of the high-affinity receptor for immunoglobulin E immediately after receptor engagement and disengagement, *Letter to Nature,* (Paolini, R, Jouvin, M-H and Kinet, J-P) **353,** 855

Regulation by phosphorylation of reversible association of a myristoylated protein kinase C substrate with the plasma membrane, *Letter to Nature,* (Thelen, M, Rosen, A, Nairn, A C and Aderem, A) **351,** 320

Regulatory proteins: Ras and the *awd* couple, *News and views,* (Ruggieri, R and McCormick, F) **353,** 390

Rhodopsin-regulated calcium currents in *Chlamydomonas, Letter to Nature,* (Harz, H and Hegemann, P) **351,** 489

Sensory perception: Turning on and turning off the sense of smell, *News and views,* (Burchell, B) **350,** 16

Sequence and expression of a metabotropic glutamate receptor, *Article,* (Masu, M, Tanabe, Y, Tsuchida, K, Shigemoto, R and Nakanishi, S) **349,** 760

Subcellular patterns of calcium release determined by G protein-specific residues of muscarinic receptors, *Letter to Nature,* (Lechleiter, J, Girard, S, Clapham, D and Peralta, E) **350,** 505

Targeting of transmembrane and GPI-anchored forms of N-CAM to opposite domains of a polarized epithelial cell, *Letter to Nature,* (Powell, S K, Cunningham, B A, Edelman, G M and Rodriguez-Boulan, E) **353,** 76

Thrombin receptor: Variations on a theme, *News and views,* (Lefkowitz, R J) **351,** 353

Toll and IL-1 receptor, *Scientific correspondence,* (Gay, N J and Keith, F J) **351,** 355

Tyrosine phosphorylation and tyrosine kinase activity of the *trk* proto-oncogene product induced by NGF, *Letter to Nature,* (Kaplan, D R, Martin-Zanca, D and Parada, L F) **350,** 158

Silica polymorphs. Relation between crystal symmetry and ionicity in silica polymorphs, *Letter to Nature,* (Kramer, G J, van Beest, W H and van Santen, R A) **351,** 636

Silica, phase transitions. Ionicity in silica, *Scientific correspondence,* (Silvi, B, D'Arco, P and Causà, M) **353,** 394

Structural transformation of quartz at high pressures, *Letter to Nature,* (Binggeli, N and Chelikowsky, J R) **353,** 344

Silicate glasses. Medium-range order in the cation distribution of a calcium silicate glass, *Article,* (Gaskell, P H, Eckersley, M C, Barnes, A C and Chieux, P) **350,** 675

NMR evidence for five-coordinated silicon in a silicate glass at atmospheric pressure, *Letter to Nature,* (Stebbins, J F) **351,** 638

Solid-state physics: Glasses come to order, *News and views,*

(Jeanloz, R and Williams, Q) **350,** 659

Silicon carbide, meteoritic. Meteoritic silicon carbide: pristine material from carbon stars (Erratum), *Letter to Nature,* (Lewis, R S, Amari, S and Anders, E) **350,** 174

Silicon carbide. Getting tough, *News and views,* **349,** 460

Large amounts of extinct ^{26}Al in interstellar grains from the Murchison meteorite, *Letter to Nature,* (Zinner, E, Amari, S, Anders, E and Lewis, R) **349,** 51

Solar System: Small grains of truth, *News and views,* (Nuth, J) **349,** 18

Silicon chemistry. Synthesis of pentacoordinate silicon complexes from SiO_2, *Letter to Nature,* (Laine, R M, Biohowiak, K Y, Robinson, T R, Hoppe, M L, Nardi, P, Kampf, J and Uhm, J) **353,** 642

Silicon, coordination chemistry. NMR evidence for five-coordinated silicon in a silicate glass at atmospheric pressure, *Letter to Nature,* (Stebbins, J F) **351,** 638

Silicon, luminescence. Semiconductors: Squeezing light from silicon, *News and views,* (Brus, L) **353,** 301

Visible light emission due to quantum size effects in highly porous crystalline silicon, *Letter to Nature,* (Cullis, A G and Canham, L T) **353,** 335

Silicon, surface reconstructions. Observation of surface reconstruction on silicon above 800°C using the STM, *Letter to Nature,* (Kitamura, S, Sato, T and Iwatsuki, M) **351,** 215

Silk. Liquid crystallinity of natural silk secretions, *Letter to Nature,* (Kerkam, K, Viney, C, Kaplan, D and Lombardi, S) **349,** 596

Simian virus 40. Structure of simian virus 40 at 3.8-Å resolution, *Article,* (Liddington, R C, Yan, Y, Moulai, J, Sahli, R, Benjamin, T L and Harrison, S C) **354,** 278

Simon, Herbert A. Models of my life, *book review by* Longuet-Higgins, H C. (Simon, H A) **350,** 531

Sindbis virus. Structure of Sindbis virus core protein reveals a chymotrypsin-like serine proteinase and the organization of the virion, *Article,* (Choi, H-K, Tong, L, Minor, W, Dumas, P, Boege, U, Rossmann, M G and Wengler, G) **354,** 37

Sirius, archaeoastronomy. Steady shine, *Scientific correspondence,* (van Gent, R H) **349,** 470

Sirius, colour of. Did Sirius change colour, *Scientific correspondence,* (Tang, T B) **352,** 25

SIV. AIDS response, *Scientific correspondence,* (Schwartz, D H) **354,** 439

AIDS response, *Scientific correspondence,* (Montefiori, D C, Hirsch, V M and Johnson, P R) **354,** 439

AIDS response, *Scientific correspondence,* (Whipple, A P) **354,** 440

Anti-cell antibody in macaques, *Scientific correspondence,* (Stott, E J) **353,** 393

Skeletal biomineralization. Skeletal biomineralization: Patterns, processes and evolutionary trends. Volumes I and II, *book review by* Mann, S. (Carter, J G) **351,** 24

Skeletal muscle. A Met-to-Val mutation in the skeletal muscle Na^+ channel α-subunit in h yperkalaemic periodic paralysis, *Letter to Nature,* (Rojas, C V, Wang, J, Schwartz, L S, Hoffman, E P, Powell, B R and Brown, R H) **354,** 387

Inactivation of muscle chloride channel by transposon insertion in myotonic mice, *Letter to Nature,* (Steinmeyer, K, Klocke, R, Ortland, C, Gronemeier, M, Jockusch, H, Gründer, S and Jentsch, T J) **354,** 304

Primary structure and functional expression of a developmentally regulated skeletal muscle chloride channel, *Letter to Nature,* (Steinmeyer, K, Ortland, C and Jentsch, T J) **354,** 301

Skin disorders. Intermediate filaments: Getting under the skin, *News and views,* (Klymkowsky, M W) **354,** 264

Sleep disorders. Circadian rhythms: Resetting the human clock, *News and views,* (Winfree, A T) **350,** 18

Slime moulds. Evolution: Sex, slime and selfish genes, *News and views,* (Hurst, L D) **354,** 23

Smallpox vaccination. Edward Jenner 1749-1823, *book review by* Porter, R. (Fisher, R B) **352,** 203

Smell, mechanisms of. Olfaction: The strong scent of success, *News and views,* (Lancet, D) **351,** 275

Smell, sense of. Odorant signal termination by olfactory UDP glucuronosyl transferase, *Letter to Nature,* (Lazard, D, Zupko, K, Poria, Y, Nef, P, Lazarovits, J, Horn, S, Khen, M and Lancet, D) **349,** 790

Sensory perception: Turning on and turning off the sense of smell, *News and views,* (Burchell, B) **350,** 16

Smithsonian Tropical Research Institute. The Smithsonian's tropical niche, *Commentary,* (Anderson, A) **349,** 647

Smoke plumes, Kuwait. Airborne observations of the physical and chemical characteristics of the Kuwait oil smoke plume, *Article,* (Johnson, D W, Kilsby, C G, McKenna, D S, Saunders, R W, Jenkins, G J, Smith, F B and Foot, J S) **353,** 617

Smoke plumes. Flash and burn, *News and views,* **353,** 601

Smoke, environmental effects. Environmental impact of fires in Kuwait, *Commentary,* (Small, R D) **350,** 11

Smoke, oil fires. Climate response to smoke from the burning oil wells in Kuwait, *Article,* (Bakan, S, Chlond, A, Cubasch, U, Feichter, J, Graf, H, Grassl, H, Hasselmann, K, Kirchner, I, Latif, M, Roeckner, E, Sausen, R, Schlese, U, Schriever, D, Schult, I, Schumann, U, Sielmann, F and Welke, W) **351,** 367

Environmental effects from burning oil wells in Kuwait, *Article,* (Browning, K A, Allam, R J, Ballard, S P, Barnes, R T H, Bennetts, D A, Maryon, R H, Mason, P J, McKenna, D, Mitchell, J F B, Senior, C A, Slingo, A and Smith, F B) **351,** 363

Smooth muscle. Acting on actin, *News and views,* **354,** 357

Smut fungi. A fossil smut fungus from the anthers of an Eocene angiosperm, *Letter to Nature,* (Currah, R S and Stockey, R A) **350,** 698

Snails, Moorea. Species reintroduction: New twist in snail saga, *News,* (Anderson, C) **353,** 489

Social insects. The social biology of wasps, *book review by* Seger, J., (Ross, K G and Matthews, R W *editors*) **353,** 804

Social organization, birds. Long-term memory of individual neighbours in a migratory songbird, *Letter to Nature,* (Godard, R) **350,** 228

Social science, US. National Science Foundation: Social science gets its day, *News,* (Anderson, C) **353,** 590

Sociobiology. From Gaia to selfish genes: Selected writings in the life sciences, *book review by* Ridley, M. (Barlow, C) **351,** 449

Socioeconomics. On the height side, *News and views,* **353,** 386

Sociology of science. Leaving the lab, *Correspondence,* (Hart, A) **349,** 98

Sentimental journey, *Correspondence,* (Wagger, D L) **349,** 98

Soddy, Frederick. Did anyone know Frederick Soddy?, *Correspondence,* (Merrick, L) **349,** 188

Sodium channels. A Met-to-Val mutation in the skeletal muscle NaS0+T channel α-subunit in h yperkalaemic periodic paralysis, *Letter to Nature,* (Rojas, C V, Wang, J, Schwartz, L S, Hoffman, E P, Powell, B R and Brown, R H) **354,** 387

Sodium-calcium exchange. Molecular operations of the sodium-calcium exchanger revealed by conformation currents, *Letter to Nature,* (Niggli, E and Lederer, W J) **349,** 621

Sodium-calcium exchange: Ins and outs of CA^{2+} transport, *News and views,* (Reuter, H) **349,** 567

Software protection, US. Software protection, *News,* (Anderson, C) **353,** 199

Software. Growing up with your software, *News and views,* (Maddox, J) **351,** 437

Soil moisture. Streamside trees that do not use stream water, *Letter to Nature,* (Dawson, T E and Ehleringer, J R) **350,** 335

Soil science. Amelioration of subsoil acidity by application of a coal-derived calcium fulvate to the soil surface, *Letter to Nature,* (van der Watt, H v H, Barnard, R O, Cronje, I J, Dekker, J, Croft, G J B and van der Walt, M M) **350,** 146

Soils, carbon cycle. Model estimates of CO_2 emissions from soil in response to global warming, *Letter to Nature,* (Jenkinson, D S, Adams, D E and Wild, A) **351,** 304

Soils, methane emissions. Ice-age methane variations, *Scientific correspondence,* (Crowley, T J) **353,** 122

Solar activity. Solar-cycle dependence of the Sun's deep internal rotation shown by helioseismology, *Letter to Nature,* (Goode, P R and Dziembowski, W A) **349,** 223

The latitude belts of solar activity as a consequence of a boundary-layer dynamo, *Letter to Nature,* (Belvedere, G, Proctor, M R E and Lanzafame, G) **350,** 481

Solar cells. A low-cost, high-efficiency solar cell based on dye-sensitized colloidal TiO$_2$ films, *Letter to Nature,* (O'Regan, B and Grätzel, M) **353,** 737

Effect of cyanide on the photo-electrochemical response of n-CdSe/Fe(CN)$_6^{4-/3-}$ electrolytic cells, *Letter to Nature,* (Seshadri, G, Chun, J K M and Bocarsly, A B) **352,** 508

Efficiency in a liquid solar cell, *Scientific correspondence,* (Licht, S and Peramunage, D) **354,** 440

Harnessing solar power: The photovoltaics challenge, *book review by* Kumar, A and Lewis, N. (Zweibel, K) **349,** 577

Photoelectrochemistry: Bettering nature's solar cells, *News and views,* (Mallouk, T E) **353,** 698

Solar cookers. Designing better solar cookers, *Scientific correspondence,* (Jagadeesh, A) **351,** 21

Designing better solar cookers: Reply, *Scientific correspondence,* (Kammen, D M and Lankford, W F) **351,** 21

Solar corona. 'Sunlight' sees Sun in a different light, *News,* **353,** 486

Solar cycle. Solar cycle relationship clouded by Neptune's sustained brightness maximum, *Letter to Nature,* (Lockwood, G W and Thompson, D T) **349,** 593

Solar-cycle dependence of the Sun's deep internal rotation shown by helioseismology, *Letter to Nature,* (Goode, P R and Dziembowski, W A) **349,** 223

The 154-day and related periodicities of solar activity as subharmonics of a fundamental period, *Letter to Nature,* (Bai, T and Sturrock, P A) **350,** 141

The Sun's luminosity over a complete solar cycle, *Letter to Nature,* (Willson, R C and Hudson, H S) **351,** 42

Solar eclipse. Sun, sea and shadow, *News,* (Aldhous, P) **352,** 179

Solar energy research. Renewable energy: A bright light goes out, *News,* (Anderson, C) **354,** 345

Solar evolution. Seismological measurement of solar helium abundance, *Letter to Nature,* (Vorontsov, S V, Baturin, V A and Pamyatnykh, A A) **349,** 49

Solar flares. Sun-Earth connections: The great solar storms of 1989, *News and views,* (Kurth, W S) **353,** 705

The 154-day and related periodicities of solar activity as subharmonics of a fundamental period, *Letter to Nature,* (Bai, T and Sturrock, P A) **350,** 141

Solar physics. Flare path, *Correspondence,* (Culhane, J L and Cruise, A M) **353,** 204

Research in Antarctica: Research collaboration: Magnetic poles together, *News,* (Aldhous, P) **350,** 297

Solar-terrestrial physics: Europe woos Japan, *News,* (Aldhous, P and Swinbanks, D) **351,** 177

The latitude belts of solar activity as a consequence of a boundary-layer dynamo, *Letter to Nature,* (Belvedere, G, Proctor, M R E and Lanzafame, G) **350,** 481

Solar power. Harnessing solar power: The photovoltaics challenge, *book review by* Kumar, A and Lewis, N. (Zweibel, K) **349,** 577

New technologies needed, *Correspondence,* (England, S B and Kammen, D B) **352,** 752

Solar protons, ozone depletion. Importance of energetic solar protons in ozone depletion, *Letter to Nature,* (Stephenson, J A E and Scourfield, M W J) **352,** 137

Solar satellite. Solar astronomy: Japanese set to X-ray Sun, *News,* (Swinbanks, D) **352,** 96

Solar System, early. Geochemistry: Young Earth like Venus?, *News and views,* (Taylor, S R) **350,** 376

Solar System, evolution of. Solar System: A plurality of worlds, *News and views,* (Weidenschilling, S J) **352,** 190

Solar System: Small grains of truth, *News and views,* (Nuth, J) **349,** 18

Solar System. Gravitationally unbound comets move in predominantly retrograde orbits, *Letter to Nature,* (Matese, J J, Whitman, P G and Whitmire, D P) **352,** 506

Wanderers in space: Exploration and discovery in the Solar System, (Lang, K R and Whitney, C A) *book review by* Chapman, C R. **354,** 28

Solar wind. A kick from the solar wind as the cause of Comet Halley's February 1991 flare, *Letter to Nature,* (Intriligator, D S and Dryer, M) **353,** 407

Solar-terrestrial physics: Europe woos Japan, *News,* (Aldhous, P and Swinbanks, D) **351,** 177

Sun-Earth connections: The great solar storms of 1989, *News and views,* (Kurth, W S) **353,** 705

Solid electrolytes. Stabilization of superionic α-AgI at room temperature in a glass matrix, *Letter to Nature,* (Tatsumisago, M, Shinkuma, Y and Minami, T) **354,** 217

Solid-state chemistry. A lattice-like construction to explain diffraction patterns of some non-stoichiometric phases, *Letter to Nature,* (Harburn, G, Tilley, R J D, Williams, J M and Williams, R P) **350,** 214

Solid-state diffusion. Effect of fluorine on solid-state alkali interdiffusion rates in feldspar, *Letter to Nature,* (Snow, E and Kidman, S) **349,** 231

Solid-state ionics. Small wonder, *News and views,* **353,** 796

Stabilization of superionic α-AgI at room temperature in a glass matrix, *Letter to Nature,* (Tatsumisago, M, Shinkuma, Y and Minami, T) **354,** 217

Solid-state physics. Absence of a metallic phase at high pressures in CS160T, *Letter to Nature,* (Reguiro, M N, Monceau, P, Rassat, A, Bernier, P and Zahab, A) **354,** 289

Antiferromagnetism and metallic conductivity in $Nb_3O_{8-\delta}$, *Letter to Nature,* (Cava, R J, Batlogg, B, Krajewski, J J, Gammel, P, Poulsen, H F, Peck, W F and Rupp, L W) **350,** 598

Conducting films of C_{60} and C_{70} by alkali-metal doping, *Letter to Nature,* (Haddon, R C, Hebard, A F, Rosseinsky, M J, Murphy, D W, Duclos, S J, Lyons, K B, Miller, B, Rosomilia, J M, Fleming, R M, Kortan, A R, Glarum, S H, Makhija, A V, Muller, A J, Eick, R H, Zahurak, S M, Tycko, R, D) **350,** 320

Electronic states and phases of K_xC_{60} from photoemission and X-ray absorption spectroscopy, *Letter to Nature,* (Chen, C T, Tjeng, L H, Rudolf, P, Meigs, G, Rowe, J E, Chen, J, McCauley Jr, J P, Smith III, A B, McGhie, A R, Romanow, W J and Plummer, E W) **352,** 603

Environmental fine structure in low-energy β-particle spectra, *Letter to Nature,* (Koonin, S E) **354,** 468

High-pressure diaiectric measurements of solid hydrogen to 170 GPa, *Letter to Nature,* (Hemley, R J, Hanfland, M and Mao, H K) **350,** 488

High-temperature superconductors: Whorls upon whorls, *News and views,* (Garwin, L) **350,** 277

Hope for photonic bandgaps, *Scientific correspondence,* (Yablonovitch, E and Leung, K M) **351,** 278

Ionicity in silica, *Scientific correspondence,* (Silvi, B, D'Arco, P and Causà, M) **353,** 394

Magnetic-field penetration depth in K_3C_{60} measured by muon spin relaxation, *Letter to Nature,* (Uemura, Y J, Keren, A, Le, L P, Luke, G M, Sternlieb, B J, Wu, W D, Brewer, J H, Whetten, R L, Huang, S M, Lin, S, Kaner, R B, Diederich, F, Donovan, S, Grüner, G and Holczer, K) **352,** 605

Materials science: A new magnetic turn-on, *Letter to Nature,* (Salamon, M B) **353,** 305

Medium-range structural order in covalent amorphous solids, *Review article,* (Elliott, S R) **354,** 445

Relation between crystal symmetry and ionicity in silica polymorphs, *Letter to Nature,* (Kramer, G J, van Beest, W H and van Santen, R A) **351,** 626

Screw dislocations in high-*Tc* Films, *Scientific correspondence,* (Gerber, C, Anselmett, D, Bednorz, J G, Mannhart, J and Schlom, D G) **350,** 279

Semiconductors: Squeezing light from silicon, *News and views,* (Brus, L) **353,** 301

Solid-state physics: And now quasi-semiconductors?, *News and views,* (Carlsson, A) **353,** 15

Solid-state physics: Temperature dependence of electrical conductivity, *News and views,* (Carlsson, A) **353,** 16

Solid-state physics: Crystal effects in β-decay, *News and views,* (Rehr, J J) **354,** 436

Structural transformation of quartz at high pressures, *Letter to Nature,* (Binggeli, N and Chelikowsky, J R) **353,** 344

Vibrational spectroscopy of superconducting KS13TCS160T by inelastic neutron scattering. *Letter to Nature,* (Prassides, K, Tomkinson, J, Christides, C, Rosseinsky, M J, Murphy, D W and Haddon, R C) **354,** 462
Visible light emission due to quantum size effects in highly porous crystalline silicon, *Letter to Nature,* (Cullis, A G and Canham, L T) **353,** 335
Solid-state synthesis. Rapid solid-state synthesis of materials from molybdenum disulphide to refractories, *Letter to Nature,* (Bonneau, P R, Jarvis, R F and Kaner, R B) **349,** 510
Solitons. Nonlinear waves, solitons and chaos, *book review by* Bohr, T. (Infeld, E and Rowlands, G) **349,** 291
Solubility, solids. Solubility and reaction kinetics of solution-solid reactions determined by *in situ* observations, *Letter to Nature,* (Ohmoto, H, Hayashi, K, Onuma, K, Tsukamoto, K, Kitakaze, A, Nakano, Y and Yamamoto, Y) **351,** 634
Somatostatin receptor. Assignment of G-protein subtypes to specific receptors inducing inhibition of calcium currents, *Article,* (Kleuss, C, Hescheler, J, Ewel, C, Rosenthal, W, Schultz, G and Wittig, B) **353,** 43
Somatotroph hypoplasia. Somatotroph hypoplasia and dwarfism in transgenic mice expressing a non-phosphorylatable CREB mutant, *Letter to Nature,* (Struthers, R S, Vale, W W, Arias, C, Sawchenko, P E and Montminy, M R) **350,** 622
Sonar imaging, sea floor. Unusual sea-floor fabric near the Bullard fracture zone imaged by GLORIA sidescan sonar, *Letter to Nature,* (Livermore, R A, Tomlinson, J S and Woollett, R W) **353,** 158
Sonochemistry. Observation of synchronous picosecond sonoluminescence, *Letter to Nature,* (Barber, B P and Putterman, S J) **352,** 318
Sonochemical synthesis of amorphous iron, *Letter to Nature,* (Suslick, K S, Choe, S-B, Cichowlas, A A and Grinstaff, M W) **353,** 414
Sonoluminescence. Light from seismic waves, *Scientific correspondence,* (Johnston, A C) **354,** 361
Observation of synchronous picosecond sonoluminescence, *Letter to Nature,* (Barber, B P and Putterman, S J) **352,** 318
Sound processing. Better speech recognition with cochlear implants, *Letter to Nature,* (Wilson, B S, Finley, C C, Lawson, D T, Wolford, R D, Eddington, D K and Rabinowitz, W M) **352,** 236
South Africa, Antarctic programme. Antarctica: New base for South Africa, *News,* (Cherry, M) **354,** 100
South Africa, arms control. Arms control: South Africa to sign, *News,* (Anderson, C) **352,** 7
South Africa, conservation. Seal hunting: Moratorium in South Africa, *News,* (Cherry, M) **350,** 4
South Africa: Saving the shark, *News,* (Cherry, M) **350,** 645
South Africa, irrigation. South African development: Water project dropped, *News,* (Cherry, M) **349,** 731
South Africa, ivory trade. Ivory trading: African states invoke origin test to resist ban, *News,* (Cherry, M) **351,** 7
South Africa, research funding. Research funding: Tough times in South Africa, *News,* (Cherry, M) **350,** 549
South Africa, research. South Africa: Three blacks on research council, *News,* (Cherry, M) **353,** 377
South America, cholera. Cholera marches on, *Opinion,* **350,** 640
South Korea, science and technology. Southeast Asia: South Korea sets sights on G-7 status, *News,* (Swinbanks, D) **354,** 176
Southeast Asia: White lab coats and greasy hands, *News,* (Swinbanks, D) **354,** 176
Southeast Asia: A science tax?, *News,* (Swinbanks, D) **354,** 176
Sovereignty. Feel the draft, *Correspondence,* (Foncin, J-F) **350,** 10
Soviet Jews, Israel. Israel: German proposal draws fire, *News,* (Dickman, S) **351,** 261
Soviet Union, Baltic states. Europe's future, *Correspondence,* (Altosaar, I) **349,** 13
Soviet Union, dissidents. Andrei Sakharov: Facets of a life, *book review by* Charap, J M. **354,** 333
Sakharov remembered: A tribute by friends and colleagues, (Drell, S D and Kapitza, S P *editors*) *book review by* Charap, J M. **354,** 333
Soviet Union, economy. $100 billion loan, *Opinion,* **351,** 334
Is the world running out of wealth?, *Opinion,* (Maddox, J) **351,** 505
Soviet Union, nuclear power. Chernobyl: Ukraine will close reactors, *News,* (Kanin, Y) **354,** 8
Facing up to the Chernobyl accident, *Opinion,* **351,** 1
Nuclear power: Chernobyl fire chronology, *News.* (Kanin, Y) **353,** 690
Soviet Union, philosophy. Man, science, humanism: A new synthesis, *book review by* Graham, L. (Frolov, I) **350,** 527
Soviet Union, politics. Mikhail Gorbachev's tightest corner, *Opinion,* **350,** 639
Moscow and beyond, *book review by* Charap, J M. (Sakharov, A) **350,** 526
Open letter: A message from Vilnius, *News,* **349,** 186
Science and the Soviet social order, *book review by* Medvedev, Z A. (Graham, L R) **350,** 283
The NPT and its black sheep, *Opinion,* **354,** 253
What now for the Soviet Union?, *Opinion,* **349,** 181
Soviet Union, science academies. Russian Academy: "For science and Russia", *News,* (Kanin, Y) **350,** 547
The Russian academy, *Opinion,* **350,** 542
Soviet Union, science and technology. Soviet Union: In the wake of the coup, *News,* (Knorre, H) **353,** 374
Soviet Union, science policy. Science and the Soviet social order, *book review by* Medvedev, Z A. (Graham, L R) **350,** 283
Science policy in the Soviet Union, *book review by* Medvedev, Z A. (Fortescue, S) **350,** 283
Soviet Union, science. Can Soviet science be rescued?, *Opinion,* **354,** 339
Kapitza in Cambridge and Moscow, *book review by* Mott, N. (Boag, J W, Rubinin, P E and Schoenberg, D) **350,** 31
Soviet science: Russia takes over academy, *News,* (Kanin, Y) **353,** 690
Soviet science: Hunger strike at volcanology institute, *News,* (Anderson, C) **354,** 3
Soviet science: Exodus likely to increase, *News,* (Kanin, Y) **354,** 342
What will happen to Russian science?, *Opinion,* **353,** 683
Soviet Union, space programme. Soviet space gloom, *News,* (Aldhous, P) **353,** 373
Soviet space: Mars projects still alive, *News,* (Kanin, Y) **353,** 785
Space: First Briton hits orbit, *News,* (Aldhous, P) **351,** 262
Soviet Union, technology. Soviet technology: Old secrets on the market, *News,* (Schaefer, E) **349,** 186
Soviet-US relations. Soviet-American relations: Translations and turkey, *News,* (Pool, R) **354,** 260
Space agencies, Japan. Japanese space agencies: Bridging an old rivalry, *News,* (Swinbanks, D) **352,** 181
Space Infrared Telescope Facility. Astronomers still thinking too big?, *Correspondence,* (Yaes, R J) **352,** 9
Space programme, Europe. Europe in space, *book review by* King-Hele, D. (Collins, G) **349,** 113
European space summit: Deciding ESA's future, *News,* (Aldhous, P) **354,** 97
European Space Agency: Deciding on indecision, *News,* (Aldhous, P) **354,** 256
Germany pulls back on space programmes, *News,* (Dickman, S) **352,** 177
Space programme, India. India: Meagre science budget, *News,* (Jayaraman, K S) **352,** 365
Space programme, Japan. Commercial rocket launches: Japan chases space market, *News,* (Swinbanks, D) **350,** 450
Commercial rocket launches: Blurred lines, *News,* (Swinbanks, D) **350,** 450
Japanese space agencies: Bridging an old rivalry, *News,* (Swinbanks, D) **352,** 181
Japanese space programme: First the moon, now Mars, *News,* (Swinbanks, D) **353,** 8
Space programme, Soviet Union. Soviet space gloom, *News,* (Aldhous, P) **353,** 373
Soviet space: Mars projects still alive, *News,* (Kanin, Y) **353,** 785
Space programme, UK. Manned space flight: UK astronaut named, *News,* (Aldhous, P) **349,** 727
Space programme, US. Astronomers still thinking too big?, *Correspondence,* (Yaes, R J) **352,** 9
How to stop the space station, *Opinion,* **352,** 175
Mars mission: Back to the future, *News,* (Aldhous, P) **351,** 594
NASA budget: Space station back on track, *News,* (Aldhous, P) **351,** 507
Space exploration: Moon base best, says panel, *News,* (Anderson, C) **351,** 429
Space policy: It's official: no more shuttles, *News,* (Aldhous, P) **352,** 362
Space station: Auditors fret, NASA persists, *News,* (Anderson, C) **351,** 87
Weather satellites: NASA rebuked for GOES-NEXT, *News,* (Aldhous, P) **352,** 362
Space programme, USSR. Soviet Union: Space programme in disarray, *News,* (de Selding, P B) **352,** 363
Space research, Japan. Japanese budget: Money for space science, *News,* (Swinbanks, D) **349,** 271
Space research, Europe. Space science: ESA and Hungary cooperate, *News,* (Dickman, S) **350,** 450
Space research, Gamma Ray Observatory. Gamma Ray Observatory: Successful satellite lift-off, *News,* (Lindley, D) **350,** 451
Space research, India. Nuclear research: India to reprocess fuels, *News,* (Jayaraman, K S) **351,** 338
Space research, UK. Satellite engineering: Surrey spreads its wings, *News,* (Aldhous, P) **349,** 557
Space research, US. Space research: Space Station takes a blow, *News,* (Anderson, C) **350,** 182
Space science: Astro reborn, *News,* (Lindley, D) **351,** 257
US astronomers ask for more, *Commentary,* (Lindley, D) **350,** 185
Space research. Space research: The cost of ambition, *News,* **349,** 8
Space science, Europe. European space science: Columbus delayed, *News,* (Aldhous, P) **353,** 491
Space science, US. NASA delays big missions in space science shakeup, *News,* (Anderson, C) **353,** 97
US budget: NSF wins, space science loses, *News,* (Anderson, C) **353,** 372
Space shuttle, Europe. Germany pulls back on space programmes, *News,* (Dickman, S) **352,** 177
Space shuttle. Origin of the shuttle glow, *Letter to Nature,* (Viereck, R A, Murad, E, Green, B D, Joshi, P, Pike, C P, Hieb, R and Harbaugh, G) **354,** 48
Seismic excitation by the space shuttle Columbia, *Letter to Nature,* (Kanamori, H, Mori, J, Anderson, D L and Heaton, T H) **349,** 781
Space policy: It's official: no more shuttles, *News,* (Aldhous, P) **352,** 362
Space station. Germany pulls back on space programmes, *News,* (Dickman, S) **352,** 177
How to stop the space station, *Opinion,* **352,** 175
Japan, Europe lobby US over space station, *Opinion,* (Swinbanks, D, Aldhous, P and Dickman, S) **351,** 428
NASA budget: Science societies target station, *News,* (Aldhous, P) **352,** 179
NASA budget: Space station back on track, *News,* (Aldhous, P) **351,** 507
Space research: Space Station takes a blow, *News,* (Anderson, C) **350,** 182
Space station: Auditors fret, NASA persists, *News,* (Anderson, C) **351,** 87
Space telescopes, infrared. Infrared astronomy: Keeping cool in space, *News,* (Aldhous, P) **351,** 338
Spacewatch Telescope. Near miss of the Earth by a small asteroid, *Letter to Nature,* (Scotti, J V, Rabinowitz, D L and Marsden, B G) **354,** 287
Species flocks. African fishes, *Scientific correspondence,* (de Caprona, M-D C and Fritzsch, B) **350,** 467
African fishes: Reply, *Scientific correspondence,* (Meyer, A, Kocher, T D and Wilson, A C) **350,** 467
Species invasions. Amphipod also invades Britain, *Scientific correspondence,* (Harris, R R) **354,** 194
Species reintroduction. Species reintroduction: New twist in snail saga, *News,* (Anderson, C) **353,** 489
Species, naming. Naming of the species, *Scientific correspondence,* (Lewin, R A) **353,** 611
Speckle, X-rays. Observation of speckle by diffraction with coherent X-rays, *Letter to Nature,* (Sutton, M, Mochrie, S G J, Greytak, T, Nagler, S E, Berman, L E, Held, G A and Stephenson, G B) **352,** 608
Spectroscopy, EXAFS. Environmental fine structure in low-energy β-particle spectra, *Letter to Nature,* (Koonin, S E) **354,** 468
Solid-state physics: Crystal effects in β-decay, *News and views,* (Rehr, J J) **354,** 436
Tracing the conversion of aurichalcite to a copper catalyst by combined X-ray absorption and diffraction, *Letter to Nature,* (Couves, J W, Thomas, J M, Waller, D, Jones, R H, Dent, A J, Derbeyshire, G E and Greaves, G N) **354,** 465
Spectroscopy, fluorescence. Fluorescence spectroscopy and spectral diffusion of single impurity molecules in a crystal, *Letter to Nature,* (Ambrose, W P and Moerner, W E) **349,** 225
Solid-state physics: Single-molecule probes, *News and views,* (Skinner, J L) **349,** 195
Spectroscopy, fullerenes. Comparison of a calculated spectrum of $C_{60}H_2$ with the unidentified astronomical infrared emission features, *Letter to Nature,* (Webster, A) **352,** 412
Spectroscopy, intensity-fluctuation. Observation of speckle by diffraction with coherent X-rays, *Letter to Nature,* (Sutton, M, Mochrie, S G J, Greytak, T, Nagler, S E, Berman, L E, Held, G A and Stephenson, G B) **352,** 608
Spectroscopy, Mossbauer. Mössbauer test for forgery, *Scientific correspondence,* (Rusanov, V, Angelov, V, Jordanov, V and Ormandjiev, S) **349,** 199
Spectroscopy, photoemission. Electronic states and phases of K_xC_{60} from photoemission and X-ray absorption spectroscopy, *Letter to Nature,* (Chen, C T, Tjeng, L H, Rudolf, P, Meigs, G, Rowe, J E, Chen, J, McCauley Jr, J P, Smith III, A B, McGhie, A R, Romanow, W J and Plummer, E W) **352,** 603
Spectroscopy, solid-state. Fluorescence spectroscopy and spectral diffusion of single impurity molecules in a crystal, *Letter to Nature,* (Ambrose, W P and Moerner, W E) **349,** 225
Solid-state physics: Single-molecule probes, *News and views,* (Skinner, J L) **349,** 195
Spectroscopy, vibrational. Vibrational spectroscopy: A section of analytica chemica acta, *journal review by* Steele, D., **353,** 472
Spectroscopy. Off-axis orientation of the electronic transition moment for a linear conjugated polyene, *Letter to Nature,* (Shang, Q-y, Dou, X and Hudson, B S) **352,** 703
Speech recognition. Better speech recognition with cochlear implants, *Letter to Nature,* (Wilson, B S, Finley, C C, Lawson, D T, Wolford, R D, Eddington, D K and Rabinowitz, W M) **352,** 236
Sperm competition. Tall tales, *News and views,* **350,** 656
Sperm whale. Smart whale, *Correspondence,* (Herring, P J) **353,** 294
Sperm. Reproductive biology: Do sperm find eggs attractive?, *News and views,* (Aitken, J) **351,** 19
Spermatogenesis. A candidate spermatogenesis gene on the mouse Y chromosome is homologous to ubiquitin-activating enzyme E1, *Letter to Nature,* (Kay, G F, Ashworth, A, Penny, G D, Dunlop, M, Swift, S, Brockdorff, N and Rastan, S) **354,** 486
Homology of a candidate spermatogenic gene from the mouse Y chromosome to the ubiquitin-activating enzyme E1, *Letter to Nature,* (Mitchell, M J, Woods, D R, Tucker, P K, Opp, J S and Bishop, C E) **354,** 483
Spiders, channel tunnel. Tunnelling in, *News and views,* **352,**

285

Spin echo NMR. NMR: Diffusion and diffraction, *News and views*, (Cotts, R M) **351,** 443

Spinal muscular atrophy. Androgen receptor gene mutations in X-linked spinal and bulbar muscular atrophy, *Letter to Nature*, (La Spada, A R, Wilson, E M, Lubahn, D B, Harding, A E and Fischbeck, K H) **352,** 77

Spinal tap, *News and views*, **353,** 386

Spiral galaxies. Galactic magnetic fields: Spinning a tangled web, *News and views*, (Zweibel, E) **352,** 755

Morphological differences between optical and infrared images of the spiral galaxy NGC309, *Letter to Nature*, (Block, D L and Wainscoat, R J) **353,** 48

Spongiform encephalopathies. Anticipating the anti-prion protein?, *Scientific correspondence*, (Goldgaber, D) **351,** 106

Spongiform encephalopathies: The prion's progress, *News and views*, (Weissmann, C) **349,** 569

SQUIDs, high-temperature. Thin-film YBCO magnetometer, *Scientific correspondence*, (Miklich, A H, Wellstood, F C, Kingston, J J, Clarke, J, Colclough, M S, Char, K and Zaharchuk, G) **352,** 482

SQUIDs. Manufacturable low-noise SQUIDs operating in liquid nitrogen, *Letter to Nature*, (Dilorio, M S, Yoshizumi, S, Maung, M, Yang, K-Y, Zhang, J and Fan, N Q) **354,** 513

Superconductivity: SQUIDs with applications, *News and views*, (Clarke, J) **352,** 110

SS433. Evidence that the compact object in SS433 is a neutron star and not a black hole, *Letter to Nature*, (D'Odorico, S, Oosterloo, T, Zwitter, T and Calvani, M) **353,** 329

Stamps, Germany. Designer data, *Correspondence*, (McManus, I C) **354,** 427

Standard Model. Particle physics after a year of LEP, *Review article*, (Miller, D J) **349,** 379

Standing waves, X-rays. Structural studies of membranes and surface layers up to 1,000 Å thick using X-ray standing waves, *Letter to Nature*, (Wang, J, Bedzyk, M J, Penner, T L and Caffrey, M) **354,** 377

Stanford University. Stanford unrepentant, *News*, (Aldhous, P) **352,** 94

Star formation. Formation of hierarchical multiple protostellar cores, *Letter to Nature*, (Boss, A P) **351,** 298

Star formation: The good companions, *News and views*, (Hernquist, L) **351,** 274

Starburst galaxies. Galactic magnetic fields: Spinning a tangled web, *News and views*, (Zweibel, E) **352,** 755

Milky Way: Not with a whimper, *News and views*, (Blitz, L) **350,** 110

Two radio supernovae in the unusual galaxy Markarian 297, *Letter to Nature*, (Yin, Q F and Heeschen, D S) **354,** 130

Starburst polymers. Chemical fluff, *News and views*, **354,** 266

Starquakes. Astronomy: Starquakes and γ-ray bursts, *News and views*, (Joss, P C) **349,** 103

Statistical mechanics. The conformation of membranes, *Review article*, (Lipowsky, R) **349,** 475

Statistics, bayesian reasoning. Bayesian reasoning in science, *Scientific correspondence*, (Traut, H) **352,** 386

Bayesian reasoning in science, *Scientific correspondence*, (Edwards, A W F) **352,** 386

Statistics. Bayesian reasoning in science, *Commentary*, (Howson, C and Urbach, P) **350,** 371

Bayesian reasoning, *Scientific correspondence*, (Skilling, J) **353,** 707

Bayesian reasoning, *Scientific correspondence*, (Larham, R) **353,** 708

Secret Service as ultimate referee, *News and views*, (Maddox, J) **350,** 553

The taming of chance, *book review by* Lindley, D V. (Hacking, I) **349,** 202

Steel factor. Effect of *Steel* factor and leukaemia inhibitory factor on murine primordial germ cells in culture, *Letter to Nature*, (Matsui, Y, Toksoz, D, Nishikawa, S, Nishikawa, S-I, Williams, D, Zsebo, K and Hogan, B L M) **353,** 750

Stellar collisions. Blue stragglers in the core of the globular cluster 47 Tucanae, *Article*, (Paresce, F, Shara, M, Meylan, G, Baxter, D, Greenfield, P, Jedrzejewski, R, Nota, A, Sparks, W B, Albrecht, R, Barbieri, C, Blades, J C, Boksenberg, A, Crane, P, Deharveng, J M, Disney, M J, Jakobsen, P, Kamperman, T M, **352,** 297

Stellar evolution: Collisions and mergers, *News and views*, (Nemec, J M) **352,** 286

Stellar evolution. Blue stragglers in the core of the globular cluster 47 Tucanae, *Article*, (Paresce, F, Shara, M, Meylan, G, Baxter, D, Greenfield, P, Jedrzejewski, R, Nota, A, Sparks, W B, Albrecht, R, Barbieri, C, Blades, J C, Boksenberg, A, Crane, P, Deharveng, J M, Disney, M J, Jakobsen, P, Kamperman, T M, **352,** 297

CaII emission from old red giants in the globular cluster M15, *Letter to Nature*, (Dupree, A K and Whitney, B A) **354,** 284

Formation of hierarchical multiple protostellar cores, *Letter to Nature*, (Boss, A P) **351,** 298

Protostars: Cool and out of sight, *News and views*, (Whitworth, A) **352,** 662

Spectral transformation of the unusual variable star MWC560 to resemble a nova, *Letter to Nature*, (Maran, S P, Michalitsianos, A G, Oliversen, R J and Sonneborn, G) **350,** 404

Star formation: The good companions, *News and views*, (Hernquist, L) **351,** 274

Stellar evolution: Collisions and mergers, *News and views*, (Nemec, J M) **352,** 286

Young ones, *News and views*, **352,** 110

Stellar flares. Detection of a stellar flare at extreme ultraviolet wavelengths, *Letter to Nature*, (Barstow, M A, Bromage, G E, Pankiewicz, G S, González-Rioestra, R, Denby, M and Pye, J P) **353,** 635

Stellar physics. Detection of a stellar flare at extreme ultraviolet wavelengths, *Letter to Nature*, (Barstow, M A, Bromage, G E, Pankiewicz, G S, González-Rioestra, R, Denby, M and Pye, J P) **353,** 635

Stem cells, embryonic. Introduction of a subtle mutation into the *Hox-2.6* locus in embryonic stem cells, *Letter to Nature*, (Hasty, P, Ramírez-Solis, R, Krumlauf, R and Bradley, A) **350,** 243

Stem cells. A cell autonomous function of *Brachyury* in *T/T* embryonic stem cell chimaras, *Letter to Nature*, (Rashbass, P, Cooke, L A, Herrmann, B G and Beddington, R S P) **353,** 348

Introduction of a subtle mutation into the *Hox-2.6* locus in embryonic stem cells (erratum), *Letter to Nature*, (Hasty, P, Ramírez-Solis, R, Krumlauf, R and Bradley, A) **353,** 94

Stem cells, *Scientific correspondence*, (Weissman, I, Spangrude, G, Heimfeld, S, Smith, L and Uchida, N) **353,** 26

Stem cells: Reply, *Scientific correspondence*, (Iscove, N) **353,** 26

Sterility vaccine. India: Sterilized dogs, bulls will keep their libido, *News*, (Jayaraman, K S) **352,** 97

Steroid 5 -reductase. Deletion of steroid 5α-reductase 2 gene in male pseudohermaphroditism, *Letter to Nature*, (Andersson, S, Berman, D M, Jenkins, E P and Russell, D W) **354,** 159

Stocks and shares. Market heats up for US biotech companies, *News*, (Gershon, D) **351,** 86

Stokes, Gabriel. The correspondence between Sir George Gabriel Stokes and Sir William Thomson, Baron Kelvin of Largs, Vol. I & II, *book review by* Brush, S G. (Wilson, D B) **349,** 575

Stomach, adaptive relaxation. Involvement of nitric oxide in the reflex relaxation of the stomach to accommodate food or fluid, *Letter to Nature*, (Desai, K M, Sessa, W C and Vane, J R) **351,** 477

Stomata. Plant growth hormones control voltage-dependent activity of anion channels in plasma membrane of guard cells, *Letter to Nature*, (Marten, I, Lohse, G and Hedrich, R) **353,** 758

Storms, climate change. Climate change, *Correspondence*, (Sukumar, R and Devi Prasad, K V) **353,** 496

Strategic Defense Initiative. Underflying Brilliant Pebbles, *Scientific correspondence*, (Wright, D C and Gronlund, L) **350,** 663

Stratigraphy, geomagnetism. Reversal records in marine marls and delayed acquisition of remanent magnetization, *Letter to Nature*, (van Hoof, A A M and Langereis, C G) **351,** 223

Stratigraphy, ice cores. Evidence from Antarctic ice cores for recent increases in snow accumulation, *Letter to Nature*, (Morgan, V I, Goodwin, I D, Etheridge, D M and Wookey, C W) **354,** 58

Stratigraphy, strontium. Rapid change in strontium isotopic composition of sea water before the Cretaceous/Tertiary boundary, *Letter to Nature*, (Nelson, B K, MacLeod, G K and Ward, P D) **351,** 644

Stratigraphy. A geologic time scale 1989, *book review by* McElhinny, M. (Harland, W B, Armstrong, R L, Cox, A V, Craig, L E, Smith, A G and Smith, D G) **349,** 26

Extraction of high-resolution carbonate data for palaeoclimate reconstruction, *Letter to Nature*, (Mayer, L A) **352,** 148

Global extinction: Acid rain at the K/T boundary, *News and views*, (Palmer, M) **352,** 758

Ocean Drilling Program: Ancient ocean-climate links, *News and views*, (Leg 138 shipboard Scientific Party) **353,** 304

Principles of stratigraphic analysis, *book review by* Tucker, M E. (Blatt, H, Berry, W B N and Brande, S) **350,** 284

Reconstruction of past changes in salinity and climate using a diatom-based transfer function, *Letter to Nature*, (Fritz, S C, Juggins, S, Battarbee, R W and Engstrom, D R) **352,** 706

Stratosphere, chlorine. Chlorine in the stratosphere, *Scientific correspondence*, (Tanaka, N and Rye, D M) **353,** 707

Stratosphere, ozone. Antarctic ozone: Worst hole yet, *News*, (Anderson, C) **353,** 591

Streams, trees. Streamside trees that do not use stream water, *Letter to Nature*, (Dawson, T E and Ehleringer, J R) **350,** 335

Stress, and evolution. Stress and evolution, *Scientific correspondence*, (Parsons, P A) **351,** 356

Stress, lithosphere. Lower-mantle viscosity constrained by seismicity around deglaciated regions, *Letter to Nature*, (Spada, G, Yuen, D A, Sabadini, R and Boschi, E) **351,** 53

Stroke. Cloning and expression of cDNA for a human thromboxane A_2 receptor, *Letter to Nature*, (Hirata, M, Hayashi, Y, Ushikubi, F, Yokota, Y, Kageyama, R, Nakanishi, S and Narumiya, S) **349,** 617

Stromatolites. Largest known microbialites discovered in Lake Van, Turkey, *Letter to Nature*, (Kempe, S, Kazmierczak, J, Landmann, G, Konuk, T, Reimer, A and Lipp, A) **349,** 605

Strontium isotope geochemistry. Rapid change in strontium isotopic composition of sea water before the Cretaceous/Tertiary boundary, *Letter to Nature*, (Nelson, B K, MacLeod, G K and Ward, P D) **351,** 644

Strontium stratigraphy. Global extinction: Acid rain at the K/T boundary, *News and views*, (Palmer, M) **352,** 758

Structural biology. Enzyme evolution: Déjà vu all over again, *News and views*, (Petsko, G A) **352,** 104

Structural chemistry. Structural chemistry, *journal review by* Drew, M G B., (Hargittai, I and Greenberg, SA *editors*) **353,** 472

Structural geology. A three-dimensional seismic image of the crust and upper mantle beneath the Kenya rift, *Article*, (Green, W V, Achauer, U and Meyer, R P) **354,** 199

Large-scale variation in lithospheric structure along and across the Kenya rift, *Letter to Nature*, (KRISP Working Party) **354,** 223

Plate tectonics: A deep look at African rifting, *News and views*, (Morgan, P) **354,** 188

Structure, enzymes. Convergent evolution of similar function in two structurally divergent enzymes, *Letter to Nature*, (Kuriyan, J, Krishna, T S R, Wong, L, Guenther, B, Pahler, A, Williams, C H and Model, P) **352,** 172

Structure, protein. Structural basis of anticodon loop recognition by glutaminyl-tRNA synthetase, *Article*, (Rould, M A, Perona, J J and Steitz, T A) **352,** 213

Students, UK. UK universities: What's in it for science?, *News*, (Aldhous, P) **350,** 7

UK university funding: Cutting student costs, *News*, (Aldhous, P) **350,** 453

Students, US. Undergraduate teaching: Stanford initiative, *News*, (Pool, R) **350,** 5

Subduction zones, Japan. Deep structure of the northeastern Japan arc and its relationship to seismic and volcanic activity, *Article*, (Hasegawa, A, Zhao, D, Hori, S, Yamamoto, A and Horiuchi, S) **352,** 683

Subduction, sediments. Isotope evidence for the involvement of recycled sediments in diamond formation, *Letter to Nature*, (Eldridge, C S, Compston, W, Williams, I S, Harris, J W and Bristow, J W) **353,** 649

Mantle geochemistry: Diamonds deliver the dirt, *News and views*, (Gurney, J J) **353,** 601

Subduction. Andean magma: Peeled or MASHed?, *News and views*, (Hickey-Vargas, R) **350,** 381

Aseismicity in the lower mantle by superplasticity of the descending slab, *Letter to Nature*, (Ito, E and Sato, H) **351,** 140

Relationship of deep seismicity to the thermal structure of subducted lithosphere, *Letter to Nature*, (Helffrich, G and Brodholt, J) **353,** 252

Tomographic imaging of subducted lithosphere below northwest Pacific island arcs, *Article*, (van der Hilst, R, Engdahl, R, Spakman, W and Nolet, G) **353,** 37

Submarines. Underwater exploration: Jason lost at sea, *News*, (Anderson, C) **354,** 260

Submillisecond pulsar, supernova 1987A. No pulsar in SN1987A, *Scientific correspondence*, (Kristian, J) **349,** 747

Subnuclear structure. Subnuclear structure: Nucleons just yield to pressure, *News and views*, (Holstein, B R) **354,** 189

Sudan, biomedical research. Breach of trust in Sudan, *Correspondence*, (Malik, M O A, Ali, M H, Homeida, M, Ali, H M, Ghalib, H W, Suleiman, S M, El-Sheikh, E-H A, Zayed, O and Mahmoud, B) **354,** 346

Sudan, drought. Sub-Saharan Africa: Spotting famine from space, *News*, (Steele, D) **350,** 545

Suicide pills, India. India: Death pills from pesticide, *News*, (Jayaraman, K S) **353,** 377

Sulphate aerosols, atmospheric. Anhydrite-bearing pumices from Mount Pinatubo: further evidence for the existence of sulphur-rich silicic magmas, *Letter to Nature*, (Bernard, A, Demaiffe, D, Mattielli, N and Punongbayan, R S) **354,** 139

Sulphate aerosols. Role of heterogeneous conversion of N_2O_5 on sulphate aerosols in global ozone losses, *Letter to Nature*, (Rodriguez, J M, Ko, M K W and Sze, N D) **352,** 134

Seasonal relationship between cloud condensation nuclei and aerosol methanesulphonate in marine air, *Letter to Nature*, (Ayers, G P and Gras, J L) **353,** 834

Sulphate, atmospheric. Coherence between seasonal cycles of dimethyl sulphide, methanesulphonate and sulphate in marine air, *Letter to Nature*, (Ayers, G P, Ivey, J P and Gillett, R W) **349,** 404

Could reducing fossil-fuel emissions cause global warming?, *Letter to Nature*, (Wigley, T M L) **349,** 503

Sulphur cycle. Coherence between seasonal cycles of dimethyl sulphide, methanesulphonate and sulphate in marine air, *Letter to Nature*, (Ayers, G P, Ivey, J P and Gillett, R W) **349,** 404

Ice-core record of oceanic emissions of dimethylsulphide during the last climate cycle, *Letter to Nature*, (Legrand, M, Feniet-Saigne, C, Saltzman, E S, Germain, C, Barkov, N I and Petrov, V N) **350,** 144

Impact of oceanic sources of biogenic sulphur on sulphate aerosol concentions at Mawson, Antarctica, *Letter to Nature*, (Prospero, J M, Savoie, D L, Saltzman, E S and Larsen, R) **350,** 221

Microbial degradation of methanesulphonic acid: a missing link in the biogeochemical sulphur cycle, *Letter to Nature*, (Baker, S C, Kelly, D P and Murrell, J C) **350,** 627

Seasonal relationship between cloud condensation nuclei and aerosol methanesulphonate in marine air, *Letter to Nature*, (Ayers, G P and Gras, J L) **353,** 834

Sulphur dioxide emissions, regulation. Environmental regulation: Polluters pay at auction, *News*, (Pool, R) **351,** 337

Sulphur dioxide, atmospheric. Acid rain: An economic case for environmental cooperation, *News*, (Aldhous, P) **351,** 175

Anhydrite-bearing pumices from Mount Pinatubo: further evidence for the existence of sulphur-rich silicic magmas, *Letter to Nature*, (Bernard, A, Demaiffe, D, Mattielli, N and Punongbayan, R S) **354,** 139

Mount Pinatubo: Volcanic shade causes cooling, *News and views*, (Luhr, J F) **354,** 104

Use of cosmogenic ^{35}S to determine the rates of removal of atmospheric SO_2, *Letter to Nature*, (Tanaka, N and Turekian, K K) **352,** 226

Sulphur, atmospheric. Aircraft sulphur emissions, *Scientific correspondence*, (Hofmann, D J) **349,** 659

Origin of sulphur in Canadian Arctic haze from isotope measurements, *Letter to Nature*, (Nriagu, J O, Coker, R D and Barrie, L A) **349,** 142

Sulphur, organic geochemistry. Biases from natural sulphurization in palaeoenvironmental reconstruction based on hydrocarbon biomarker distributions, *Letter to Nature*, (Kohnen, M E L, Damsté, J S S and De Leeuw, J W) **349,** 775

Sulphur, pollution. Origin of sulphur in Canadian Arctic haze from isotope measurements, *Letter to Nature*, (Nriagu, J O, Coker, R D and Barrie, L A) **349,** 142

Sulphur, volcanic emissions. Anhydrite-bearing pumices from Mount Pinatubo: further evidence for the existence of sulphur-rich silicic magmas, *Letter to Nature*, (Bernard, A, Demaiffe, D, Mattielli, N and Punongbayan, R S) **354,** 139

Mount Pinatubo: Volcanic shade causes cooling, *News and views*, (Luhr, J F) **354,** 104

Sun, helium abundance. Seismological measurement of solar helium abundance, *Letter to Nature*, (Vorontsov, S V, Baturin, V A and Pamyatnykh, A A) **349,** 49

Sun, luminosity. The Sun's luminosity over a complete solar cycle, *Letter to Nature*, (Willson, R C and Hudson, H S) **351,** 42

Sun, rotation of. Solar-cycle dependence of the Sun's deep internal rotation shown by helioseismology, *Letter to Nature*, (Goode, P R and Dziembowski, W A) **349,** 223

Sunspots. Radial filamentary structure in a sunspot umbra, *Letter to Nature*, (Livingston, W) **350,** 45

The 154-day and related periodicities of solar activity as subharmonics of a fundamental period, *Letter to Nature*, (Bai, T and Sturrock, P A) **350,** 141

Super Conducting Supercollider. US makes plea for Japanese SSC help, *News*, (Swinbanks, D) **353,** 685

Superantigen SEB. Stimulation by superantigen, *Scientific correspondence*, (Cohen, J J, Duke, R C and Sellins, K S) **352,** 199

Superantigens. A superantigen encoded in the open reading frame of the 3' long terminal repeat of mouse mammary tumour virus, *Article*, (Choi, Y, Kappler, J W and Marrack, P) **350,** 203

Interleukin-2 programs mouse αβ T lymphocytes for apoptosis, *Letter to Nature*, (Lenardo, M J) **353,** 858

Supercolliding Super Conductor. International collaboration: SSC appeal gets cold shoulder, *News*, (Swinbanks, D) **354,** 424

Supercomputers, Europe. High-performance computing: A last chance to catch up?, *News*, (Aldhous, P) **349,** 645

Supercomputers, UK. UK supercomputing: London centre keeps Cray, *News*, (Aldhous, P) **349,** 184

Supercomputing, UK. Supercomputing: Logjam ahead for UK academics, *News*, (Aldhous, P) **354,** 422

Superconducting devices. Manufacturable low-noise SQUIDs operating in liquid nitrogen, *Letter to Nature*, (Dilorio, M S, Yoshizumi, S, Maung, M, Yang, K-Y, Zhang, J and Fan, N Q) **354,** 513

Superconducting gap, fullerenes. The superconducting energy gap of Rb_3C_{60}, *Letter to Nature*, (Zhang, Z, Chen, C-C, Kelty, S P, Dai, H and Lieber, C M) **353,** 333

Superconducting Super Collider. New quarters for the Superconducting Super Collider, *News*, **353,** 783

No friction, *Correspondence*, (Rubbia, C and Schwitters, R) **352,** 187

Particle Physics: Friction continues over costs, *News*, (Aldhous, P) **351,** 594

Poor rich Japan, *Opinion*, **354,** 420

SSC: New sheriff in town?, *News*, (Anderson, C) **354,** 259

Super Collider collision ahead, *News*, **349,** 8

Superconducting Super Collider: first winner in detector race, *News*, (Schaefer, E) **349,** 96

Superconducting Super Collider: New detector sought, *News*, (Pool, R) **351,** 258

Superconducting Super Collider: Hopes for Japanese funds fade, *News*, (Swinbanks, D) **354,** 98

US getting little help in funding the SSC, *News*, (Pool, R) **351,** 173

Superconductivity, buckminsterfullerene. Buckminsterfullerene: Sooty superconductors, *News and views*, (Sleight, A W) **350,** 557

Going up, *News and views*, **351,** 353

Structure of single-phase superconducting K_3C_{60}, *Letter to Nature*, (Stephens, P W, Mihaly, L, Lee, P L, Whetten, R L, Huang, S-M, Kaner, R, Deiderich, F and Holczer, K) **351,** 632

Superconductivity at 18 K in potassium-doped fullerene (K_xC_{60}), *Letter to Nature*, (Hebard, A F, Rosseinsky, M J, Haddon, R C, Murphy, D W, Glarum, S H, Palstra, T T M, Ramirez, A P and Kortan, A R) **350,** 600

Superconductivity: Cagey carbon conundrums, *News and views*, (Pickett, W E) **351,** 602

Superconductivity at 33K in $CS_2Rb_1C_{60}$, *Letter to Nature*, (Tanigaki, K, Ebbesen, T W, Saito, S, Mizuki, J, Tsai, J S, Kubo, Y and Kuroshima, S) **352,** 222

Superconductivity at 30 K in caesium-doped C_{60}, *Letter to Nature*, (Kelty, S P, Chen, C-C and Lieber, C M) **352,** 223

Superconductivity, critical currents. Structural origin of reduced critical currents at $YBa_2Cu_3O_7$ δ grain boundaries, *Letter to Nature*, (Chisholm, M F and Pennycook, S J) **351,** 47

Superconductivity, devices. Superconductivity: SQUIDs with applications, *News and views*, (Clarke, J) **352,** 110

Superconductivity, flux-line pinning. High-temperature superconductors: Whorls upon whorls, *News and views*, (Garwin, L) **350,** 277

Screw dislocations in high-Tc films, *Scientific correspondence*, (Gerber, C, Anselmett, D, Bednorz, J G, Mannhart, J and Schlom, D G) **350,** 279

Superconductivity, fullerenes. Electronic states and phases of K_3C_{60} from photoemission and X-ray absorption spectroscopy, *Letter to Nature*, (Chen, C T, Tjeng, L H, Rudolf, P, Meigs, G, Rowe, J E, Chen, J, McCauley Jr, J P, Smith III, A B, McGhie, A R, Romanow, W J and Plummer, E W) **352,** 603

Magnetic-field penetration depth in K_3C_{60} measured by muon spin relaxation, *Letter to Nature*, (Uemura, Y J, Keren, A, Le, L P, Luke, G M, Sternlieb, B J, Wu, W D, Brewer, J H, Whetten, R L, Huang, S M, Lin, S, Kaner, R B, Diederich, F, Donovan, S, Grüner, G and Holczer, K) **352,** 605

Relation of structure and superconducting transition temperatures in A_3C_{60}, *Letter to Nature*, (Fleming, R M, Ramirez, A P, Rosseinsky, M J, Murphy, D W, Haddon, R C, Zahurak, S M and Makhija, A V) **352,** 787

The superconducting energy gap of Rb_3C_{60}, *Letter to Nature*, (Zhang, Z, Chen, C-C, Kelty, S P, Dai, H and Lieber, C M) **353,** 333

Vibrational spectroscopy of superconducting KS13TCS160T by inelastic neutron scattering, *Letter to Nature*, (Prassides, K, Tomkinson, J, Christides, C, Rosseinsky, M J, Murphy, D W and Haddon, R C) **354,** 462

Superconductivity, high temperature. Absence of weak-link behaviour in $YBa_2Cu_3O_7$ grains connected by 90 [010] twist boundaries, *Letter to Nature*, (Eom, C B, Marshall, A F, Suzuki, Y, Boyer, B, Pease, R F W and Geballe, T H) **353,** 544

Anomalous neutron scattering near the superconducting phase transition, *Letter to Nature*, (Bernhoeft, N R, Allen, P J, Paul, D McK, Hayden, S M, Timmins, P A and Lonzarich, G G) **350,** 690

Current record in superconductors, *Scientific correspondence*, (Ekin, J W, Salama, K and Selvamanickam, V) **350,** 26

Giant tunnelling anisotrophy in the high-T_c superconductor $Bi_2Sr_2CaCu_2O_8$, *Letter to Nature*, (Mandrus, D, Forro, L, Koller, D and Mihaly, L) **351,** 460

High-temperature superconductors: Light at the end of the tunnel, *News and views*, (Beasley, M R) **350,** 21

High-temperature superconductivity: Attractive vortices, *News and views*, (Kes, P H) **350,** 192

High-temperature superconductors: Raised to a higher plane, *News and views*, (Moon, F C) **350,** 270

High-temperature superconductors: Whorls upon whorls, *News and views*, (Garwin, L) **350,** 277

High-temperature superconductivity: Supercurrents at a pinch, *News and views*, (Gallop, J) **350,** 465

High-temperature superconductivity: Parent structure superconducts, *News and views*, (Cava, R J) **351,** 518

Local oxygen ordering in superconducting $YBa_2Cu_3O_{6.4}$ observed by neutron diffraction, *Letter to Nature*, (Zeiske, T, Sonntag, R, Hohlwein, D, Andersen, N H and Wolf, T) **353,** 542

Low surface resistance in $YBa_2Cu_3O_7$ melt-processed thick films, *Letter to Nature*, (Alford, N McN, Button, T W, Adams, M J, Hedges, S, Nicholson, B and Phillips, W A) **349,** 680

Materials science: Superconductivity hot again, *News*, (Pool, R) **352,** 5

New cuprate superconductors, *Scientific correspondence*, (Kawai, T, Egami, Y, Tabata, H and Kawai, S) **349,** 200

Normal-state conductivity between CuO_2 planes in copper oxide superconductors, *Letter to Nature*, (Ito, T, Takagi, H, Ishibashi, S, Ido, T and Uchida, S) **350,** 596

Oxide superconductors: Bringing oxygen to order, *News and views*, (Jorgensen, J D) **349,** 565

Phonon suppression of coherence peak in nuclear spin relaxation rate of superconductors, *Letter to Nature*, (Allen, P B and Rainer, D) **349,** 396

Relation between superconducting transition temperature and oxygen ordering in $YBa_2Cu_3O_{6+x}$, *Letter to Nature*, (Poulson, H F, Andersen, N H, Andersen, J V, Bohr, H and Mouritsen, O G) **349,** 594

Screw dislocations in high-T_c films, *Scientific correspondence*, (Gerber, C, Anselmett, D, Bednorz, J G, Mannhart, J and Schlom, D G) **350,** 279

Structural origin of reduced critical currents at $YBa_2Cu_3O_7$ δ grain boundaries, *Letter to Nature*, (Chisholm, M F and Pennycook, S J) **351,** 47

Superconductivity: Lessons from Japan, *News*, (Swinbanks, D) **353,** 594

Thin-film YBCO magnetometer, *Scientific correspondence*, (Miklich, A H, Wellstood, F C, Kingston, J J, Clarke, J, Colclough, M S, Char, K and Zaharchuk, G) **352,** 482

Superconductivity, high-temperature. Manufacturable low-noise SQUIDs operating in liquid nitrogen, *Letter to Nature*, (Dilorio, M S, Yoshizumi, S, Maung, M, Yang, K-Y, Zhang, J and Fan, N Q) **354,** 513

Superconductivity, levitation. High-temperature superconductors: Raised to a higher plane, *News and views*, (Moon, F C) **350,** 270

Superconductivity, UK. Magnetic machine, *Correspondence*, (Good, J) **352,** 560

Superconductivity, US report. Materials science: Superconductivity hot again, *News*, (Pool, R) **352,** 5

Superconductivity. Fundamentals of superconductivity, *book review by* Forgan, T. (Kresin, V Z and Wolf, S A) **349,** 26

Superconductivity: Flux lines on video holograms, *News and views*, (Caplin, D) **350,** 14

Superconductivity: An unconventional family tree, *News and views*, (d'Ambrumenil, N) **352,** 472

Superconductor industry. Economic competitiveness: Superconductor consortium approaches test, *News*, (Pool, R) **353,** 100

Superconductors, electron-beam focusing. Do it yourself, *News and views*, **352,** 285

Superconductors. Superconducting motor, *News*, (Pool, R) **352,** 269

Superconductors: Fullerene false alarm, *News*, (Swinbanks, D) **353,** 377

Supercooling. Materials science: Dropping below freezing point, *News and views*, (Cahn, R W) **349,** 736

Superinduction. Signalling and superinduction, *Scientific correspondence*, (Mahadevan, L C and Edwards, D R) **349,** 747

Superionic materials. Stabilization of superionic α-AgI at room temperature in a glass matrix, *Letter to Nature*, (Tatsumisago, M, Shinkuma, Y and Minami, T) **354,** 217

Superlattices, magnetic. Materials science: A new magnetic turn-on, *Letter to Nature*, (Salamon, M B) **353,** 305

Superluminal jets. Large-scale superluminal motion in the quasar 3C273, *Letter to Nature*, (Davis, R J, Unwin, S C and Muxlow, T W B) **354,** 374

Supernova 1987A. No pulsar in SN1987A, *Scientific correspondence*, (Kristian, J) **349,** 747

Origin of the Napoleon's hat nebula around SN1987A and implications for the progenitor, *Letter to Nature*, (Podsiadlowski, Ph, Fabian, A C and Stevens, I R) **354,** 43

Supernovae: Running rings around supernova 1987A, *News and views*, (Podsiadlowski, Ph) **350,** 654

Velocity structure of the ring nebula around supernova 1987A, *Letter to Nature*, (Crotts, A P S and Heathcote, S R) **350,** 683

Supernovae, binary progenitors. Origin of the Napoleon's hat nebula around SN1987A and implications for the progenitor, *Letter to Nature*, (Podsiadlowski, Ph, Fabian, A C and Stevens, I R) **354,** 43

Supernovae, evolution. Supernovae: Running rings around supernova 1987A, *News and views*, (Podsiadlowski, Ph) **350,** 654

Supernovae, neutrino detectors. Neutrino astronomy: Italy looks to next supernova, *News*, (Aldhous, P) **350,** 643

Supernovae. A high-resolution radio image of a young supernova, *Letter to Nature*, (Bartel, N, Rupen, M P, Shapiro, I I, Preston, R A and Rius, A) **350,** 212

A planet orbiting the neutron star PSR1829-10, *Letter to Nature*, (Bailes, M, Lyne, A G and Shemar, S L) **352,** 311

Formation of a planet orbiting pulsar 1829-10 from the debris of a supernova explosion, *Letter to Nature*, (Lin, D N C, Woosley, S E and Bodenheimer, P H) **353,** 827

New possibility for planet, *Scientific correspondence*, (Dawson, P C) **352,** 763

Planet searches: It's all in the timing, *News and views*, (Black, D) **352,** 278

Supernova debris gets ahead of itself, *News and views*, **352,** 759

The origin of the planet orbiting PSR1829-10, *Letter to Nature*, (Podsiadlowski, Ph, Pringle, J E and Rees, M J) **352,** 783

Two radio supernovae in the unusual galaxy Markarian 297, *Letter to Nature*, (Yin, Q F and Heeschen, D S) **354,** 130

Unusual interaction of the high-velocity pulsar PSR1757-24 with the supernova remnant G5.4-1.2, *Letter to Nature*, (Frail, D A and Kulkarni, S R) **352,** 785

Supernovae. From science fiction to reality?, *book review by* Tipler, F J. **354,** 362

Superplasticity, subducted slabs. Aseismicity in the lower mantle by superplasticity of the descending slab, *Letter to Nature*, (Ito, E and Sato, H) **351,** 140

Superplumes, mantle. Earth sciences: A superplume in the mantle, *News and views*, (Cox, K G) **352,** 564

Supersymmetry. High-energy physics: Evidence of supersymmetry, *News and views*, (Ross, G G) **352,** 21

Supramolecular assemblies. Charge migration in supramolecular stacks of peripherally substituted porphyrins, *Letter to Nature*, (Schouten, P G, Warman, J M, de Haas, M P, Fox, M A and Pan, H-L) **353,** 736

Supramolecular chemistry. Making tracks, *News and views*, **353,** 303

Surface science. An atomic switch realized with the scanning tunnelling microscope, *Letter to Nature*, (Eigler, D M, Lutz, C P and Rudge, W E) **352,** 600

An introduction to ultrathin organic films: From Langmuir-Blodgett to self-assembly, (Ulman, A) *book review by* Tredgold, R H. **354,** 120

Cluster physics: All surface and no bulk, *News and views*, (Grätzel, M) **349,** 740
Holographic images of iodine atoms on a silver surface from electron emission patterns, *Letter to Nature*, (Hu, P and King, D A) **353,** 831
Materials science: When size does matter, *News and views*, (Ball, P) **349,** 101
No capillary rise, *Scientific correspondence*, (Graham, G M) **350,** 198
Observation of surface reconstruction on silicon above 800°C using the STM, *Letter to Nature*, (Kitamura, S, Sato, T and Iwatsuki, M) **351,** 215
Ordered layers, *Correspondence*, (Bonnett, R) **350,** 104
Origin of the shuttle glow, *Letter to Nature*, (Viereck, R A, Murad, E, Green, B D, Joshi, P, Pike, C P, Hieb, R and Harbaugh, G) **354,** 48
Relaxation modes of the contact line of a liquid spreading on a surface, *Letter to Nature*, (Ondarçuhu, T and Veyssié, M) **352,** 418
Structural studies of membranes and surface layers up to 1,000 Å thick using X-ray standing waves, *Letter to Nature*, (Wang, J, Bedzyk, M J, Penner, T L and Caffrey, M) **354,** 377
Surface physics: A vanishing interface, *News and views*, (Ball, P) **353,** 213
Susceptometers. Magnetic machine, *Correspondence*, (Good, J) **352,** 560
SV40 T antigen. A cellular protein that competes with SV40 T antigen for binding to the retinoblastoma gene product, *Letter to Nature*, (Huang, S, Lee, W-H and Lee, E Y-H P) **350,** 160
Swiss science. Science fair: Heureka winds up, *News*, (Aldhous, P) **354,** 7
Swiss science: Showpiece in transition, *News*, (Aldhous, P) **354,** 6
Swiss science: Swiss government plans to boost research, *News*, (Aldhous, P) **354,** 6
Switzerland, exhibitions. Science communication: Frustration in Switzerland, *News*, (Dickman, S) **351,** 597
Switzerland, Human Frontier Program. Swiss sign up also, *News*, (Swinbanks, D and Pool, R) **350,** 97
Switzerland, science. Switzerland: Doubt afflicts Swiss anniversary, *News*, (Maddox, J) **352,** 371
Symmetry breaking. Lattice work, *News and views*, **349,** 571
Symmetry. Symmetry and chaotic data, *Scientific correspondence*, (Stewart, I) **354,** 113
Visions of symmetry: Notebooks, period drawings, and related works of M C Escher, *book review by* Mackay, A L, (Schattschneider, D) **349,** 471
Synapse. Binding of synaptotagmin to the α-latrotoxin receptor implicates both in synaptic vesicle exocytosis, *Letter to Nature*, (Petrenko, A G, Perin, M S, Davletov, B A, Ushkaryov, Y A, Geppert, M and Südhof, T C) **353,** 65
Expression cloning of a cocaine- and antidepressant-sensitive human noradrenaline transporter, *Letter to Nature*, (Pacholczyk, T, Blakely, R D and Amara, S G) **350,** 350
Neurobiology: A system for synapse control, *News and views*, (Kelly, R B) **349,** 650
Synapsins. Induction of formation of presynaptic terminals in neuroblastoma cells by synapsin IIb, *Letter to Nature*, (Han, H-Q, Nichols, R A, Rubin, M R, Bähler, M and Greengard, P) **349,** 697
Synaptic plasticity. Cloning of cDNA for the glutamate-binding subunit of an NMDA receptor complex, *Letter to Nature*, (Kumar, K N, Tilakaratne, N, Johnson, P S, Allen, A E and Michaelis, E K) **354,** 70
Dendritic spines as individual neuronal compartments for synaptic $CaSiO_3$+T responses, *Letter to Nature*, (Müller, W and Connor, J A) **354,** 73
$GABA_B$ autoreceptors regulate the induction of LTP, *Letter to Nature*, (Davies, C H, Starkey, S J, Pozza, M F and Collingridge, G L) **349,** 609
Independent regulation of calcium revealed by imaging dendritic spines, *Letter to Nature*, (Guthrie, P B, Segal, M and Kater, S B) **354,** 76
Molecular neurobiology: NMDA receptors cloned at last, *News and views*, (Mayer, M L) **354,** 16
Synaptic transmission, quantal analysis. Quantal analysis of excitatory synaptic action and depression in hippocampal slices, *Letter to Nature*, (Larkman, A, Stratford, K and Jack, J) **350,** 344
Synaptic transmission, quantal. Quantal synaptic transmission?, *Scientific correspondence*, (Clements, J) **353,** 396
Quantal synaptic transmission? Reply, *Scientific correspondence*, (Larkman, A, Stratford, K and Jack, J) **353,** 396
Synaptotagmin. Binding of synaptotagmin to the α-latrotoxin receptor implicates both in synaptic vesicle exocytosis, *Letter to Nature*, (Petrenko, A G, Perin, M S, Davletov, B A, Ushkaryov, Y A, Geppert, M and Südhof, T C) **353,** 65
Synchrony. Mathematics: All together now . . ., *News and views*, (Stewart, I) **350,** 557
Synchrotron radiation. Bright ideas, *News and views*, **349,** 192
Synthesis gas. Partial oxidation of methane to synthesis gas using carbon dioxide, *Letter to Nature*, (Ashcroft, A T, Cheetham, A K, Green, M L H and Vernon, P D F) **352,** 225
Synthetic chemistry, meteorites. Extraterrestrial synthesis, *Scientific correspondence*, (Miller, S L and Bada, J L) **350,** 387
Extraterrestrial synthesis: Reply, *Scientific correspondence*, (Shock, E L and Schulte, M D) **350,** 388
Synthetic chemistry. Making tracks, *News and views*, **353,** 303
Organic chemistry: Synthesis with a strong hand, *News and views*, (Brown, J M) **350,** 191
Synthetic chemistry: A radical approach to cancer, *News and views*, (Jarman, M) **349,** 566
Synthetic peptides. A new type of synthetic peptide library for identifying ligand-binding activity, *Letter to Nature*, (Lam, K S, Salmon, S E, Hersh, E M, Hruby, V J, Kazmierski, W M and Knapp, R J) **354,** 82
Generation and use of synthetic peptide combinatorial libraries for basic research and drug discovery, *Letter to Nature*, (Houghton, R A, Pinilla, C, Blondelle, S E, Appel, J R, Dooley, C T and Cuervo, J H) **354,** 84
Synthetic vaccines. Synthetic vaccines: Peptides of fortune, *News and views*, (Janeway, C) **353,** 792
Systematics. Beating the systematics, *Correspondence*, (Strassmann, J E and Queller, D C) **352,** 100
T cells. A novel class II MHC molecule with unusual tissue distribution, *Letter to Nature*, (Karlsson, L, Surh, C D, Sprent, J and Peterson, P A) **351,** 485
A proteasome-related gene between the two ABC transporter loci in the class II region of the human MHC, *Letter to Nature*, (Glynne, R, Powis, S H, Beck, S, Kelly, A, Kerr, L-A and Trowsdale, J) **353,** 357
A role for peptide in determining MHC class II structure, *Letter to Nature*, (Sadegh-Nasseri, S and Germain, R N) **353,** 167
A superantigen encoded in the open reading frame of the 3′ long terminal repeat of mouse mammary tumour virus, *Article*, (Choi, Y, Kappler, J W and Marrack, P) **350,** 203
Acquisition of the human adeno-associated virus type-2 *rep* gene by human herpesvirus type-6, *Letter to Nature*, (Thomson, B J, Efstathiou, S and Honess, R W) **351,** 78
Activation-independent binding of human memory T cells to adhesion molecule ELAM-1, *Letter to Nature*, (Shimizu, Y, Shaw, S, Graber, N, Gopal, T V, Horgan, K J, Van Seventer, G A and Newman, W) **349,** 799
Allele-specific motifs revealed by sequencing of self-peptides eluted from MHC molecules, *Article*, (Falk, K, Rötzschke, O, Stevanovic, S, Jung, G and Rammensee, H-G) **351,** 290
An explanation for the protective effect of the MHC class II I-E molecule in murine diabetes: Correction, *Letter to Nature*, (Reich, E-P, Sherwin, R S, Kanagawa, O and Janeway, C A) **352,** 88
Antigen presentation: Half of a peptide pump, *News and views*, (Parham, P) **351,** 271
Antigen presentation: The second class story, *News and views*, (Germain, R N) **353,** 605
Antigen processing: Proteasomes in the pathway, *News and views*, (Robertson, M) **353,** 300
$CD4^+$ and $CD8^+$ T cells acquire specific lymphokine secretion potentials during thymic maturation, *Letter to Nature*, (Bendelac, A and Schwartz, R H) **353,** 68
CD4 expressed on earliest T-lineage precursor cells in the adult murine thymus, *Letter to Nature*, (Wu, L, Scollay, R, Egerton, M, Pearse, M, Spangrude, G J and Shortman, K) **349,** 71
Cell adhesion: A birth certificate for CD2, *News and views*, (Springer, T A) **353,** 704
Clonal deletion of Vβ14-bearing T cells in mice transgenic for mammary tumour virus, *Article*, (Acha-Orbea, H, Shakhov, A N, Scarpellino, L, Kolb, E, Müller, V, Vessaz-Shaw, A, Fuchs, R, Blöchlinger, K, Rollini, P, Billotte, J, Sarafidou, M, Macdonald, H R and Diggelmann, H) **350,** 207
Clonal deletion of immature $CD4^+8^+$ thymocytes in suspension culture by extrathymic antigen presenting cells, *Letter to Nature*, (Swat, W, Ignatowicz, L, von Boehmer, H and Kisielow, P) **351,** 150
ELAM-1 is an adhesion molecule for skin-homing T cells, *Letter to Nature*, (Picker, L J, Kishimoto, T K, Smith, C W, Warnock, R A and Butcher, E C) **349,** 796
Enhancement of T-cell responsiveness by the lymphocyte-specific tyrosine protein kinase $p56^{lck}$, *Letter to Nature*, (Abraham, N, Miceli, M C, Parnes, J R and Veillette, A) **350,** 62
Enhancement of T-cell activation by the CD43 molecule whose expression is defective in Wiskott-Aldrich syndrome, *Letter to Nature*, (Park, J K, Rosenstein, Y J, Remold-O'Donnell, E, Bierer, B E, Rosen, F S and Burakoff, S J) **350,** 706
Excess β$_2$ microglobulin promoting functional peptide association with purified soluble class I MHC molecules, *Letter to Nature*, (Kozlowski, S, Takeshita, T, Boehncke, W-H, Takahashi, H, Boyd, L F, Germain, R N, Berzofsky, J A and Margulies, D H) **349,** 74
Formation of a nine-subunit complex by HLA class II glycoproteins and the invariant chain, *Letter to Nature*, (Roche, P A, Marks, M S and Cresswell, P) **354,** 392
HIV enhancer activity perpetuated by NF-κB induction on infection of monocytes, *Letter to Nature*, (Bachelerie, F, Alcami, J, Arenzana-Seisdedos, F and Virelizier, J-L) **350,** 709
HIV: Games that viruses play, *News and views*, (Zinkernagel, R M and Hengartner, H) **354,** 433
Homology of proteasome subunits to a major histocompatibility complex-linked LMP gene, *Letter to Nature*, (Martinez, C K and Monaco, J J) **353,** 664
Human immunodeficiency virus genetic variation that can escape cytotoxic T cell recognition, *Article*, (Phillips, R E, Rowland-Jones, S, Nixon, D F, Gotch, F M, Edwards, J P, Ogunlesi, A O, Elvin, J G, Rothbard, J A, Bangham, C R M, Rizza, C R and McMichael, A J) **354,** 453
Identification of self peptides bound to purified HLA-B27, *Letter to Nature*, (Jardetzky, T S, Lane, W S, Robinson, R A, Madden, D R and Wiley, D C) **353,** 326
Identifying antigenic T-cell sites, *Product Review*, (Feller, D C and de la Cruz, V F) **349,** 720
Immunology: The centre of hypermutation, *News and views*, (MacLennan, I) **354,** 352
Immunomodulation of experimental allergic encephalomyelitis by antibodies to the antigen-Ia complex, *Letter to Nature*, (Aharoni, R, Teitelbaum, D, Arnon, R and Puri, J) **351,** 147
Interleukin-2 programs mouse αβ T lymphocytes for apoptosis, *Letter to Nature*, (Lenardo, M J) **353,** 858
Intracloncal generation of antibody mutants in germinal centres, *Letter to Nature*, (Jacob, J, Kelsoe, G, Rajewsky, K and Weiss, U) **354,** 389
Limited heterogeneity of rearranged T-cell receptor Vα transcripts in brains of multiple sclerosis patients (Erratum), *Letter to Nature*, (Oksenberg, J R, Stuart, S, Begovich, A B, Bell, R B, Erlich, H A, Steinman, L and Bernard, C C A) **353,** 94
Lower receptor avidity required for thymic clonal deletion than for effector T-cell function, *Letter to Nature*, (Pircher, H, Rohrer, U H, Moskophidis, D, Zinkernagel, R M and Hengartner, H) **351,** 482
Lymphocyte homing: Skin-seeking memory T cells, *News and views*, (Mackay, C R) **349,** 737
Normal development and function of $CD8^+$ cells but markedly decreased helper cell activity in mice lacking CD4, *Letter to Nature*, (Rahemtulla, A, Fung-Leung, W P, Schilham, M W, Kündig, T M, Sambhara, S R, Narendran, A, Arabian, A, Wakeham, A, Paige, C J, Zinkernagel, R M, Miller, R G and Mak, T W) **353,** 180
On the complexity of self, *Letter to Nature*, (Rudensky, A Y, Rath, S, Preston-Hurlburt, P, Murphy, D B and Janeway Jr, C A) **353,** 660
Peptide selection by MHC class I molecules, *Letter to Nature*, (Schumacher, T N M, De Bruijn, M L H, Vernie, L N, Kast, W M, Melief, C J M, Neefjes, J J and Ploegh, H L) **350,** 703
Peripheral deletion of self-reactive B cells, *Letter to Nature*, (Russell, D M, Dembic, Z, Morahan, G, Miller, J F A P, Bürki, K and Nemazee, D) **354,** 308
Precise prediction of a dominant class I MHC-restricted epitope of *Listeria monocytogenes*, *Letter to Nature*, (Pamer, E G, Harty, J T and Bevan, M J) **353,** 852
Processing of the precursor of NF-κB by the HIV-1 protease during acute infection, *Letter to Nature*, (Rivière, Y, Blank, V, Kourilsky, P and Israel, A) **350,** 625
Reconstitution by MHC-restricted peptides of HLA-A2 heavy chain with β$_2$-microglobulin, *Letter to Nature*, (Silver, M L, Parker, K C and Wiley, D C) **350,** 619
Restored expression of major histocompatibility class I molecules by gene transfer of a putative peptide transporter, *Letter to Nature*, (Spies, T and DeMars, R) **351,** 323
Second proteasome-related gene in the human MHC class II region, *Letter to Nature*, (Kelly, A, Powis, S H, Glynne, R, Radley, E, Beck, S and Trowsdale, J) **353,** 667
Segregation of MHC class II molecules from MHC class I molecules in the Golgi complex for transport to lysosomal compartments, *Article*, (Peters, P J, Neefjes, J J, Oorschot, V, Ploegh, H L and Geuze, H J) **349,** 669
Sequence analysis of peptides bound to MHC class II molecules, *Article*, (Rudensky, A Y, Preston, Hurlburt, P, Hong, S-C, Barlow, A and Janeway Jr, C A) **353,** 622
Serine phosphorylation-independent downregulation of cell-surface CD4 by *nef*, *Letter to Nature*, (Garcia, J V and Miller, A D) **350,** 508
Specific binding of antigenic peptides to cell-associated MHC class I molecules, *Letter to Nature*, (Luescher, I F, Romero, P, Cerottini, J-C and Maryanski, J L) **351,** 72
Structural and serological similarity of MHC-linked LMP and proteasome (multicatalytic protinase) complexes, *Letter to Nature*, (Brown, M G, Driscoll, J and Monaco, J J) **353,** 355
Structure of domain 1 of rat T lymphocyte CD2 antigen, *Letter to Nature*, (Driscoll, P C, Cyster, J G, Campbell, I D and Williams, A F) **353,** 762
Subunit of the '20S' proteasome (multicatalytic proteinase) encoded by the major histocompatibility complex, *Letter to Nature*, (Ortiz-Navarrete, V, Seelig, A, Gernold, M, Frentzel, S, Kloetzel, P M and Hämmerling, G J) **353,** 662
Synthetic vaccines: Peptides of fortune, *News and views*, (Janeway, C) **353,** 792
The structure of HLA-B27 reveals nonamer self-peptides bound in an extended conformation, *Article*, (Madden, D R, Gorga, J C, Strominger, J L and Wiley, D C) **353,** 321
T-cell activation. CD43, a molecule defective in Wiskott-Aldrich syndrome, binds ICAM-1, *Letter to Nature*, (Rosenstein, Y, Park, J K, Hahn, W C, Rosen, F S, Bierer, B E and Burakoff, S J) **354,** 233
T-cell receptor. Membrane protein association by potential intramembrane charge pairs, *Letter to Nature*, (Cosson, P, Lankford, S P, Bonifacino, J S and Klausner, R D) **351,** 414
T-cell recognition. Peptide binding to class I MHC on living cells and quantitation of complexes required for CTL lysis, *Letter to Nature*, (Christinck, E R, Luscher, M A, Barber, B

H and Williams, D B) **352,** 67

t-complex polypeptide-1. A molecular chaperone from a thermophilic archaebacterium is related to the eukaryotic protein t-complex polypeptide-1, *Letter to Nature,* (Trent, J D, Nimmesgern, E, Wall, J S, Hartl, F-U and Horwich, A L) **354,** 490

Tat protein. Blocking of Tat-dependent HIV-1 RNA modification by an inhibitor of RNA polymerase II processivity, *Letter to Nature,* (Braddock, M, Thorburn, A M, Kingsman, A J and Kingsman, S M) **350,** 439

Taxol. Barking up the right tree, *News,* (Aldhous, P) **352,** 95

Taxonomy. Beating the systematics, *Correspondence,* (Strassmann, J E and Queller, D C) **352,** 100

Distribution and taxonomy of birds of the world, *book review by* Diamond, J M. (Sibley, C G and Monroe, B L) **350,** 537

Phylogeny and classification of birds: A study in molecular evolution, *book review by* Diamond, J M. (Sibley, C G and Ahlquist, J E) **350,** 537

Taxonomy: Naming names in botany, *News and views,* (Stace, C A) **350,** 466

Tests for rodent polyphyly, *Scientific correspondence,* (Allard, M W, Miyamoto, M M and Honeycutt, R L) **353,** 610

Technology transfer. CFC replacements: A global experiment in technology transfer, *News,* (Pool, R) **351,** 6

Technology, climatology. Does climate still matter?, *Commentary,* (Ausubel, J H) **350,** 649

Technology, health risks. Technological risk, *book review by* Sills, D L. (Lewis, H W) **349,** 749

Technology, Japan. Japanese industry: Going for 'green technology', *News,* (Swinbanks, D) **350,** 266

Technology, nuclear. Nuclear choices: A citizen's guide to nuclear technology, *book review by* Cottrell, A., (Wolfson, R) **353,** 222

Technology, Soviet Union. Soviet technology: Old secrets on the market, *News,* (Schaefer, E) **349,** 186

Technology, UK. British Technology Group: Privatization ahead for BTG, *News,* (Gee, H) **349,** 272

British Technology Group: Universities considering a buy-out, *News,* (Aldhous, P) **350,** 181

Inventive Britain, *Opinion,* **349,** 268

Technology, US. Candidate for change, *Opinion,* **351,** 427

Technological research: US losing its lead, *News,* (Aldhous, P) **352,** 5

Technology policy: Materials top critical technologies list, *News,* (Anderson, C) **351,** 8

Technology. Journal of intelligent manufacturing, *journal review by* Wu, B., (Kusiak, A *editor*) **353,** 476

Tectonics, Africa. A three-dimensional seismic image of the crust and upper mantle beneath the Kenya rift, *Article,* (Green, W V, Achauer, U and Meyer, R P) **354,** 199

Large-scale variation in lithospheric structure along and across the Kenya rift, *Letter to Nature,* (KRISP Working Party) **354,** 223

Plate tectonics: A deep look at African rifting, *News and views,* (Morgan, P) **354,** 188

Tectonics, California. The San Andreas Fault system, California, *book review by* Sibson, R. (Wallace, R E **352,** 487

Tectonics, Central Africa. Late Palaeozoic deformation in central Africa: a result of distant collision?, *Letter to Nature,* (Daly, M C, Lawrence, S R, Kimun'a, D and Binga, M) **350,** 605

Tectonics, Greece. A possible normal-fault rupture for the 464 BC Sparta earthquake, *Letter to Nature,* (Armijo, R, Lyon-Caen, H and Papanastassiou, D) **351,** 137

Tectonics, Himalayas. In a nutshell, *News and views,* **353,** 21

Tectonics, Japan. Deep structure of the northeastern Japan arc and its relationship to seismic and volcanic activity, *Article,* (Hasegawa, A, Zhao, D, Hori, S, Yamamoto, A and Horiuchi, S) **352,** 683

Tectonics, North America. The first surface faulting from a historical intraplate earthquake in North America, *Letter to Nature,* (Adams, J, Wetmiller, R J, Hasegawa, H S and Drysdale, J) **352,** 617

Teeth, mercury. Mercury risk from teeth, *Scientific correspondence,* (Basu, M K, Wilson, H J and Krishnan, G) **349,** 109

Mercury risk from teeth: Reply, *Scientific correspondence,* (Mills, A) **349,** 109

Tektites. Cretaceous/Tertiary extinction: Where did it happen?, *News and views,* (Smit, J) **349,** 461

Glass from the Cretaceous/Tertiary boundary in Haiti, *Article,* (Sigurdsson, H, D'Hondt, S, Arthur, M A, Bralower, T J, Zachos, J C, van Fossen, M and Channell, J E T) **349,** 482

Melt droplet formation in energetic impact events, *Letter to Nature,* (Melosh, H J and Vickery, A M) **350,** 494

Telecommunication satellites. Commercial rocket launches: Japan chases space market, *News,* (Swinbanks, D) **350,** 450

Telecommunications, Europe. Telecommunications: Pandolfi boosts HDTV, *News,* (Anderson, C) **353,** 7

Telecommunications, Germany. Telecommunications: Satellite aids sore fingers, *News,* (Dickman, S) **350,** 647

Telecommunications, Japan. Japanese television: New channel is lost in space, *News,* (Swinbanks, D) **350,** 544

Telecommunications: HDTV satellite is up, *News,* (Swinbanks, D) **353,** 8

Telecommunications, UK. Technology untied?, *Opinion,* **350,** 95

Telecommunications, US. Telecommunications: Mystery solved in US phone failures, *News,* (Pool, R) **352,** 178

Teleconferences, video. Video teleconferences: Long-distance hearing, *News,* (Pool, R) **353,** 593

Telephone numbers, US. Telephone silence, *Opinion,* **353,** 286

Telescopes, adaptive optics. Principles of adaptive optics, (Tyson, R K) *book review by* Woolf, N J. **354,** 197

Use of a neural network to control an adaptive optics system for an astronomical telescope, *Letter to Nature,* (Sandler, D G, Barrett, T K, Palmer, D A, Fugate, R Q and Wild, W J) **351,** 300

Telescopes, gas. A gas-lens telescope, *Letter to Nature,* (Michaelis, M M, Dempers, C A, Kosch, M, Prause, A, Notcutt, M, Cunningham, P F and Waltham, J A) **353,** 547

Telescopes, interferometry. Astronomy: When big is beautiful, *News and views,* (Kulkarni, S R, Shao, M and Haniff, C A) **352,** 383

Telescopes, US. Astronomy: Keck telescope twin gets the go-ahead, *News,* (Anderson, C) **351,** 8

Telescopes. Astronomy: Insult to injury, *News,* (Anderson, C) **353,** 97

Cheap big science, *Correspondence,* (Tayler, R J) **354,** 10

The creation of the Anglo-Australian Observatory, *book review by* Ward, M. (Gascoigne, S C B, Proust, K M and Robins, M O) **350,** 522

Television, epilepsy. That's entertainment, *News and views,* **352,** 191

Television, high-definition. Japanese television: HDTV off to slow start, *News,* (Swinbanks, D) **354,** 423

Television, satellites. Japanese television: New channel is lost in space, *News,* (Swinbanks, D) **350,** 544

Television, science. Publication ethics: IQ data controversy, *News,* (Aldhous, P) **350,** 5

Teller, Edward. Conversations on the dark secrets of physics, *book review by* Mulvey, J H. (Teller, E, Teller, W and Talley, W) **352,** 579

Telomerase. Inhibition of telomerase by G-quartet DNA structures, *Letter to Nature,* (Zahler, A M, Williamson, J R, Cech, T R and Prescott, D M) **350,** 718

Recognition of a chromosome truncation site associated with α-thalassaemia by human telomerase, *Letter to Nature,* (Morin, G B) **353,** 454

Telomerase primer specificity and chromosome healing, *Letter to Nature,* (Harrington, L A and Greider, C W) **353,** 451

Telomere loss, cancer. Telomere loss and cancer, *Scientific correspondence,* (Jankovic, G M J, Colovic, M D and Petrovic, M D) **350,** 197

Telomere loss and cancer: Reply, *Scientific correspondence,* (Hastie, N D, Dempster, M, Dunlop, M G, Thompson, A M, Green, D K and Allshire, R C) **350,** 197

Telomeres. Inhibition of telomerase by G-quartet DNA structures, *Tetrahymena* (Zahler, A M, Williamson, J R, Cech, T R and Prescott, D M) **350,** 718

Recognition of a chromosome truncation site associated with α-thalassaemia by human telomerase, *Letter to Nature,* (Morin, G B) **353,** 454

Structure and function of telomeres, *Review article,* (Blackburn, E H) **350,** 569

Temperature records. Do bidecadal oscillations exist in the global temperature record?, *Letter to Nature,* (Elsner, J B and Tsonis, A A) **353,** 551

Temporal lobe. Neurobiology: Temporal associations, *News and views,* (Stryker, M P) **354,** 108

Ternary complex factor p62. Ets-related protein Elk-1 is homologous to the *c-fos* regulatory factor p62SOTCFT, *Letter to Nature,* (Hipskind, R A, Rao, V N, Mueller, C G F, Reddy, E S P and Nordheim, A) **354,** 531

Terpenes, atmospheric. Terpenes and forest decline, *Scientific correspondence,* (Ross, H B and De Serves, C) **352,** 672

Terpenes and forest decline: Reply, *Scientific correspondence,* (Becker, K H, Brockmann, K J and Bechara, J) **352,** 672

Terrestrial ecosystems. The early development of terrestrial ecosystems, *Review article,* (Shear, W A) **351,** 283

Testis-determining factor. Sex determination: The making of male mice, *News and views,* (McLaren, A) **351,** 96

Testis-determining gene. DNA-binding properties of the product of the testis determining gene and a related protein, *Letter to Nature,* (Nasrin, N, Buggs, C, Kong, X F, Carnazza, J, Goebl, M and Alexander-Bridges, M) **354,** 317

Male development of chromosomally female mice transgenic for *Sry, Article,* (Koopman, P, Gubbay, J, Vivian, N, Goodfellow, P and Lovell-Badge, R) **351,** 117

Testis-stimulating factors. Precocious puberty, *News and views,* **349,** 571

Testosterone. Deletion of steroid 5α-reductase 2 gene in male pseudohermaphroditism, *Letter to Nature,* (Andersson, S, Berman, D M, Jenkins, E P and Russell, D W) **354,** 159

Tetrahymena telomerases. Recognition of a chromosome truncation site associated with α-thalassaemia by human telomerase, *Letter to Nature,* (Morin, G B) **353,** 454

Telomerase primer specificity and chromosome healing, *Letter to Nature,* (Harrington, L A and Greider, C W) **353,** 451

Tetrameric RNA. Tetramerization of an RNA oligonucleotide containing a GGGG sequence, *Letter to Nature,* (Kim, J, Cheong, C and Moore, P B) **351,** 331

Tetrapods, origin of. Close tetrapod relationships of the coelacanth *Latimeria* indicated by haemoglobin sequences, *Letter to Nature,* (Gorr, T, Kleinschmidt, T and Fricke, H) **351,** 394

Coelacanth's relationships, *Scientific correspondence,* (Stock, D W and Swofford, D L) **353,** 217

Coelacanth's relationships, *Scientific correspondence,* (Sharp, P M, Lloyd, A T and Higgins, D G) **353,** 218

Coelacanth's relationships, *Scientific correspondence,* (Meyer, A and Wilson, A C) **353,** 219

Evolution: Blood lines of the coelacanth, *News and views,* (Forey, P) **351,** 347

Fish-like gills and breathing in the earliest known tetrapod, *Letter to Nature,* (Coates, M I and Clack, J A) **352,** 234

Tetrapod or near-tetrapod fossils from the Upper Devonian of Scotland, *Letter to Nature,* (Ahlberg, P E) **354,** 298

Tetrapods. Palaeontology: The brave vertebrate venture, *News and views,* (Gee, H) **354,** 268

Texture, cosmology. Cosmology: Texture and cosmic structure, *News and views,* (Silk, J and Juszkiewicz, R) **353,** 386

Thalamus. Lack of regional specificity for connections formed between thalamus and cortex in coculture, *Letter to Nature,* (Molnár, Z and Blakemore, C) **351,** 475

Thalassaemia. Dead right, *News and views,* **351,** 190

Thalassaemias. Recognition of a chromosome truncation site associated with α-thalassaemia by human telomerase, *Letter to Nature,* (Morin, G B) **353,** 454

Theoretical chemistry. Electron density maps with a difference, *News and views,* **352,** 194

Theoretical physics. Conversations on the dark secrets of physics, *book review by* Mulvey, J H. (Teller, E, Teller, W and Talley, W) **352,** 579

Dirac: A scientific biography, *book review by* Kemmer, N. (Kragh, H S) **349,** 750

The joy of insight: Passions of a physicist, *book review by* Press, W H. (Weisskopf, V) **350,** 665

Thermodynamics, evolution. Is Darwinism a thermodynamic necessity?, *News and views,* (Maddox, J) **350,** 653

Thermodynamics. Complexity, entropy and the physics of information, *book review by* Landsberg, P T. (Zurek, W H) **349,** 376

Maxwell's demon: Entropy, information, computing, *book review by* Landsberg, P T. (Leff, H S and Rex, A F) **349,** 376

Thermohaline circulation. Climate change: Chaos in ocean heat transport, *News and views,* (Covey, C) **353,** 796

Freshwater flux forcing of decadal and interdecadal oceanic variability, *Letter to Nature,* (Weaver, A J, Sarachik, E S and Marotze, J) **353,** 836

Thermoluminescence. Metamorphism of eucrite meteorites studied quantitatively using induced thermoluminescence, *Letter to Nature,* (Batchelor, J D and Sears, D W G) **349,** 516

Thermophilic archaebacteria. A molecular chaperone from a thermophilic archaebacterium is related to the eukaryotic protein t-complex polypeptide-1, *Letter to Nature,* (Trent, J D, Nimmesgern, E, Wall, J S, Hartl, F-U and Horwich, A L) **354,** 490

Thermoregulation, naked mole rats. Physiology: Cold facts and naked truth, *News and views,* (Cossins, A R) **353,** 699

Thermotolerance. Hsp104 is a highly conserved protein with two essential nucleotide-binding sites, *Letter to Nature,* (Parsell, D A, Sanchez, Y, Stitzel, J D and Lindquist, S) **353,** 270

Thick films, superconducting. Low surface resistance in $YBa_2Cu_3O_x$ melt-processed thick films, *Letter to Nature,* (Alford, N McN, Button, T W, Adams, M J, Hedges, S, Nicholson, B and Phillips, W A) **349,** 680

Thin films, oriented growth. Molecular electronics: Bringing molecules to order, *News and views,* (Friend, R) **352,** 377

Thin films. Ordered layers, *Correspondence,* (Bonnett, R) **350,** 104

Thin-film technology. Golden opportunity, *News and views,* **351,** 99

Thioether bonds. Novel thioether bond revealed by a 1.7 Å crystal structure of galactose oxidase, *Letter to Nature,* (Ito, N, Phillips, S E V, Stevens, C, Ogel, Z B, McPherson, M J, Keen, J N, Yadav, K D S and Knowles, P F) **350,** 87

Thixotropy. Keeping bloody relics liquid, *Scientific correspondence,* (Hendry, G A F and Lyon, A J E) **354,** 114

Keeping bloody relics liquid, *Scientific correspondence,* (Dunlop, J M) **354,** 114

Working bloody miracles, *Scientific correspondence,* (Garlaschelli, L, Ramaccini, F and Della Sala, S) **353,** 507

Thomson, William. The correspondence between Sir George Gabriel Stokes and Sir William Thomson, Baron Kelvin of Largs, Vol. I & II, *book review by* Brush, S G. (Wilson, D B) **349,** 575

Three Mile Island. Three Mile Island: A stress-cancer link following accident?, *News,* (Pool, R) **351,** 429

Thrombin receptor. Thrombin receptor: Variations on a theme, *News and views,* (Lefkowitz, R J) **351,** 353

Thrombin. Domains specifying thrombin-receptor interaction, *Letter to Nature,* (Vu, T-K H, Wheaton, V I, Hung, D T, Charo, I and Coughlin, S R) **353,** 674

Thrombolites. Largest known microbialites discovered in Lake Van, Turkey, *Letter to Nature,* (Kempe, S, Kazmierczak, J, Landmann, G, Konuk, T, Reimer, A and Lipp, A) **349,** 605

Thrombosis. A discrete sequence in a platelet integrin is involved in ligand recognition, *Letter to Nature,* (D'Souza, S E, Ginsberg, M H, Matsueda, G R and Plow, E F) **350,** 66

Mobile reactive centre of serpins and the control of thrombosis, *Letter to Nature,* (Carrell, R W, Evans, D Ll and Stein, P E) **353,** 576

Thromboxane receptors. Cloning and expression of cDNA for a human thromboxane A_2 receptor, *Letter to Nature,* (Hirata, M, Hayashi, Y, Ushikubi, F, Yokota, Y, Kageyama, R,

Nakanishi, S and Narumiya, S) **349,** 617

Thymic maturation. $CD4^+$ and $CD8^+$ T cells acquire specific lymphokine secretion potentials during thymic maturation, *Letter to Nature,* (Bendelac, A and Schwartz, R H) **353,** 68

Thymic selection. On the complexity of self, *Letter to Nature,* (Rudensky, A Y, Rath, S, Preston-Hurlburt, P, Murphy, D B and Janeway Jr, C A) **353,** 660

Thymus. A novel class II MHC molecule with unusual tissue distribution, *Letter to Nature,* (Karlsson, L, Surh, C D, Sprent, J and Peterson, P A) **351,** 485

CD4 expressed on earliest T-lineage precursor cells in the adult murine thymus, *Letter to Nature,* (Wu, L, Scollay, R, Egerton, M, Pearse, M, Spangrude, G J and Shortman, K) **349,** 71

Clonal deletion of immature $CD4^+8^+$ thymocytes in suspension culture by extrathymic antigen presenting cells, *Letter to Nature,* (Swat, W, Ignatowicz, L, von Boehmer, H and Kisielow, P) **351,** 150

Lower receptor avidity required for thymic clonal deletion than for effector T-cell function, *Letter to Nature,* (Pircher, H, Rohrer, U H, Moskophidis, D, Zinkernagel, R M and Hengartner, H) **351,** 482

Thyroid tumours. Mutant α subunits of G_s inhibit cyclic AMP accumulation, *Letter to Nature,* (Wong, Y H, Federman, A, Pace, A M, Zachary, I, Evans, T, Pouysségur, J and Bourne, H R) **351,** 63

Tibet, palaeoclimatology. A 13,000-year climate record from western Tibet, *Letter to Nature,* (Gasse, F, Arnold, M, Fontes, J C, Fort, M, Gilbert, E, Huc, A, Bingyan, L, Yuanfang, L, Qing, L, Mélières, F, Van Campo, E, Fubao, W and Qingsong, Z) **353,** 742

Tigers. Conservation: Tiger project halted, *News,* (Jayaraman, K S) **354,** 424

Tiling. Visions of symmetry: Notebooks, period drawings, and related works of M C Escher, *book review by* Mackay, A L, (Schattschneider, D) **349,** 471

Time, conscious. Conscious vs neural time, *Scientific correspondence,* (Libet, B) **352,** 27

Conscious vs neural time: reply, *Scientific correspondence,* (Glynn, I M) **352,** 27

Time, symmetry. The arrow of time: Reply, *Correspondence,* (Price, H) **350,** 456

The arrow of time, *Correspondence,* (Coveney, P and Highfield, R) **350,** 456

Tissue plasminogen activator. Biotechnology patents: Genentech wins in Japan, *News,* (Swinbanks, D) **354,** 4

Togaviruses. Structure of Sindbis virus core protein reveals a chymotrypsin-like serine proteinase and the organization of the virion, *Article,* (Choi, H-K, Tong, L, Minor, W, Dumas, P, Boege, U, Rossmann, M G and Wengler, G) **354,** 37

Tokamak fusion reactor. Fusion research: ITER work is shared out, *News,* (Aldhous, P) **352,** 179

Tokamaks. Fusion energy: The moment of truth nears, *News and views,* (Petrasso, R D) **350,** 661

Tokyo, earthquake protection. Disaster response: Tokyo gears up for calamity, *News,* (Swinbanks, D) **351,** 260

Tokyo, earthquakes. Disaster response: Worldwide costs of an earthquake, *News,* (Swinbanks, D) **351,** 260

Sixty seconds that will change the world: The coming Tokyo earthquake, *book review by* Swinbanks, D. (Hadfield, P) **352,** 205

Toll protein. Toll and IL-1 receptor, *Scientific correspondence,* (Gay, N J and Keith, F J) **351,** 355

Top quark. Particle physics after a year of LEP, *Review article,* (Miller, D J) **349,** 379

Topography, mid-ocean ridges. Inverse square-root dependence of mid-ocean-ridge flank roughness on spreading rate, *Letter to Nature,* (Malinverno, A) **352,** 58

Topography, sea floor. Unusual sea-floor fabric near the Bullard fracture zone imaged by GLORIA sidescan sonar, *Letter to Nature,* (Livermore, R A, Tomlinson, J S and Woollett, R W) **353,** 158

Topology. Fluid dynamics: Forging the missing link, *News and views,* (Jones, J D S) **354,** 21

Linking of vortex rings, *Letter to Nature,* (Aref, H and Zawadzki, I) **354,** 50

Toughened glass. Beer break, *News and views,* **354,** 357

Tourism, Antarctica. Research in Antarctica: Tourism: Let sleeping dogs lie, *News,* (Anderson, C) **350,** 291

Toxic chemicals. Dioxin damages denied, *Opinion,* **351,** 591

US government orders new look at dioxin, *News and views,* (Culliton, B J) **352,** 753

Toxicity testing. Animal research: Challenge on testing, *News,* (Anderson, C) **350,** 549

Trace metal cycles. Depiction of barium and radium-226 in Black Sea surface waters over the past thirty years, *Letter to Nature,* (Falkner, K K, O'Neill, D J, Todd, J F, Moore, W S and Edmond, J M) **350,** 481

Trace metals, atmospheric. Decrease in anthropogenic lead, cadmium and zinc in Greenland snows since the late 1960s, *Letter to Nature,* (Boutron, C F, Görlach, U, Candelone, J-P, Bolshov, M A and Delmas, R J) **353,** 153

Trade restrictions. Many catastrophes too many, *Opinion,* **351,** 171

Trade, Europe. Free trade now free?, *Opinion,* **349,** 726

Trade, US. Recovery by decree, *Opinion,* **351,** 1

Traffic flow. Paradoxical behaviour of mechanical and electrical networks, *Letter to Nature,* (Cohen, J E and Horowitz, P) **352,** 699

Trains, magnetically levitated. Advanced transportation: Maglev burns out in Japan, *News,* (Swinbanks, D) **353,** 592

Transcription factors. A mediator required for activation of RNA polymerase II transcription *in vitro,* *Letter to Nature,* (Flanagan, P M, Kelleher, R J, Sayre, M H, Tschochner, H and Kornberg, R D) **350,** 436

Activation of BPV-1 replication *in vitro* by the transcription factor E2, *Article,* (Uang, L, Li, R, Mohr, I J, Clark, R and Botchan, M R) **353,** 628

Adenovirus E1a prevents the retinoblastoma gene product from complexing with a cellular transcription factor, *Letter to Nature,* (Bandara, L R and La Thangue, N B) **351,** 494

Binding of general transcription factor TFIIB to an acidic activating region, *Letter to Nature,* (Lin, Y-S, Ha, I, Maldonado, E, Reinberg, D and Green, M R) **353,** 569

Concentration-dependent transcriptional activation or repression by *Krüppel* from a single binding site, *Letter to Nature,* (Sauer, F and Jäckle, H) **353,** 563

Conserved sequence motifs in the small subunit of human general transcription factor TFIIE, *Letter to Nature,* (Sumimoto, H, Ohkuma, Y, Sinn, E, Kato, H, Shimasaki, S, Horikoshi, M and Roeder, R G) **354,** 401

Cooperative interaction of an initiator-binding transcription initiation factor and the helix-loop-helix activator USF, *Letter to Nature,* (Roy, A L, Meisterernst, M, Pognonec, P and Roeder, R G) **354,** 245

Coordination of expression of DNA synthesis genes in budding yeast by a cell-cycle regulated *trans* factor, *Letter to Nature,* (Lowndes, N F, Johnson, A L and Johnston, L H) **350,** 247

Early aspects of *Coenorhabditis elegans* sex determination and dosage compensation are regulated by a zinc-finger protein, *Letter to Nature,* (Nonet, M L and Meyer, B J) **351,** 65

Gene transcription: TFIIB or not TFIIB?, *News and views,* (Sharp, P A) **351,** 16

Generating yeast transcriptional activators containing no yeast protein sequences, *Letter to Nature,* (Ruden, D M, Ma, J, Li, Y, Wood, K and Ptashne, M) **350,** 250

Generation of p50 subunit of NF-κB by processing of p105 through an ATP-dependent pathway, *Letter to Nature,* (Fan, C-M and Maniatis, T) **354,** 395

Ha-Ras augments c-Jun activity and stimulates phosphorylation of its activation domain, *Article,* (Binétruy, B, Smeal, T and Karin, M) **351,** 122

HIV enhancer activity perpetuated by NF-κB induction on infection of monocytes, *Letter to Nature,* (Bachelerie, F, Alcami, J, Arenzana-Seisdedos, F and Virelizier, J-L) **350,** 709

HIV: Tampering with transcription, *News and views,* (Nabel, G J) **350,** 658

Oncogenic and transcriptional cooperation with Ha-Ras requires phosphorylation of c-Jun on serines 63 and 73, *Letter to Nature,* (Smeal, T, Binetruy, B, Mercola, D A, Birrer, M and Karin, M) **354,** 494

Oncogenic germ-line mutations in Sp1 and ATF sites in the human retinoblastoma gene, *Letter to Nature,* (Sakai, T, Ohtani, N, McGee, T L, Robbins, P D and Dryja, T P) **353,** 83

Phosphorylation of *c-jun* mediated by MAP kinases, *Letter to Nature,* (Pulverer, B J, Kyriakis, J M, Avruch, J, Nikolakaki, E and Woodgett, J R) **353,** 670

Processing of the precursor of NF-κB by the HIV-1 protease during acute infection, *Letter to Nature,* (Rivière, Y, Blank, V, Kourilsky, P and Israël, A) **350,** 625

RNA action, *News and views,* **351,** 99

Stress-induced oligomerization and chromosomal relocalization of heat-shock factor, *Article,* (Westwood, J T, Clos, J and Wu, C) **353,** 822

Structural motifs and potential σ homologies in the large subunit of human general transcription factor TFIIE, *Letter to Nature,* (Ohkuma, Y, Sumimoto, H, Hoffmann, A, Shimasaki, S, Horikoshi, M and Roeder, R G) **354,** 398

Structure and functional properties of human general transcription factor IIE, *Article,* (Peterson, M G, Inostroza, J, Maxon, M E, Flores, O, Admon, A, Reinberg, D and Tjian, R) **354,** 369

TFIIS and strand-transfer proteins, *Scientific correspondence,* (Kipling, D and Kearsey, S E) **353,** 509

The developmental gene *Knotted-1* is a member of a maize homeobox gene family, *Letter to Nature,* (Vollbrecht, E, Veit, B, Sinha, N and Hake, S) **350,** 241

Transcription: When the CAP fits bent DNA, *News and views,* (Lilley, D M J) **354,** 359

YY1 is an initiator sequence-binding protein that directs and activates transcription *in vitro* (Seto, E, Shi, Y and Shenk, T) **354,** 241

Transcription, regulation. Cyclin A facilitates the association of the retinoblastoma gene product with a cellular transcription factor, *Letter to Nature,* (Bandara, L R, Adamczewski, J P, Hunt, T and La Thangue, N B) **352,** 249

Transcription. Retinoblastoma: A transcriptional tryst, *News and views,* (Wagner, S and Green, M R) **352,** 189

v-Src and EJ Ras alleviate repression of c-Jun by a cell-specific inhibitor, *Letter to Nature,* (Baichwal, V R, Park, A and Tjian, R) **352,** 165

Transfer RNA. Structural basis of anticodon loop recognition by glutaminyl-tRNA synthetase, *Article,* (Rould, M A, Perona, J J and Steitz, T A) **352,** 213

Transformation, E7 and E1A proteins. Cloning of cDNAs for cellular proteins that bind to the retinablastoma gene product, *Letter to Nature,* (Defeo-Jones, D, Huang, P S, Jones, R E, Haskell, K M, Vuocolo, G A, Hanobik, M G, Huber, H E and Oliff, A) **352,** 251

Transgenic animals, patents. Europe approves first transgenic animal patent, *News,* (Aldhous, P) **353,** 589

Transgenic animals. Biotechnology: Will milk shake up industry?, *News,* (Gershon, D) **353,** 7

Transgenic mice. *HBx* gene of hepatitis B virus induces liver cancer in transgenic mice, *Letter to Nature,* (Kim, C-M, Koike, K, Saito, I, Miyamura, T and Jay, G) **351,** 317

Amyloid plaques, neurofibrillary tangles and neuronal loss in brains of transgenic mice overexpressing a C-terminal fragment of human amyloid precursor protein, *Letter to Nature,* (Kawabata, S, Higgins, G A and Gordon, J W) **354,** 476

Clonal deletion of Vβ14-bearing T cells in mice transgenic for mammary tumour virus, *Article,* (Acha-Orbea, H, Shakhov, A N, Scarpellino, L, Kolb, E, Müller, V, Vessaz-Shaw, A, Fuchs, R, Blöchlinger, K, Rollini, P, Billotte, J, Sarafidou, M, Macdonald, H R and Diggelmann, H) **350,** 207

Dysmyelination in transgenic mice resulting from expression of class I histocompatibility molecules in oligodendrocytes, *Letter to Nature,* (Turnley, A M, Morahan, G, Okano, H, Bernard, O, Mikoshiba, K, Allison, J, Bartlett, P F and Miller, J F A P) **353,** 566

Elimination from peripheral lymphoid tissues of self-reactive B lymphocytes recognizing membrane-bound antigens, *Letter to Nature,* (Hartley, S B, Crosbie, J, Brink, R, Kantor, A B, Basten, A and Goodnow, C C) **353,** 765

Human γ-globin genes silenced independently of other genes in the β-globin locus, *Letter to Nature,* (Dillon, N and Grosveld, F) **350,** 252

Inhibition of early atherogenesis in transgenic mice by human apolipoprotein AI, *Letter to Nature,* (Rubin, E M, Krauss, R M, Spangler, E A, Verstuyft, J G and Clift, S M) **353,** 265

Male development of chromosomally female mice transgenic for *Sry*, *Article,* (Koopman, P, Gubbay, J, Vivian, N, Goodfellow, P and Lovell-Badge, R) **351,** 117

Peripheral deletion of self-reactive B cells, *Letter to Nature,* (Russell, D M, Dembic, Z, Morahan, G, Miller, J F A P, Bürki, K and Nemazee, D) **354,** 308

Pituitary hyperplasia and gigantism in mice caused by a cholera toxin transgene, *Letter to Nature,* (Burton, F H, Hasel, K W, Bloom, F E and Sutcliffe, J G) **350,** 74

Reproductive biology: A clue to Kartagener's, *News and views,* (Aitken, J) **353,** 306

Somatotroph hypoplasia and dwarfism in transgenic mice expressing a non-phosphorylatable CREB mutant, *Letter to Nature,* (Struthers, R S, Vale, W W, Arias, C, Sawchenko, P E and Montminy, M R) **350,** 622

Transistors, organic. Molecular electronics: Totally organic transistors, *News and views,* (Bloor, D) **349,** 738

Transition zone, mantle. Spinel elasticity and seismic structure of the transition zone of the mantle, *Letter to Nature,* (Rigden, S M, Gwanmesia, G D, Fitz Gerald, J D, Jackson, I and Liebermann, R C) **354,** 143

Transplantation, bone marrow. Bone marrow transplantation: Making just the right match, *News and views,* (Parham, P) **350,** 111

Transport, Japan. Japan: Pollution on the upswing, *News,* (Swinbanks, D) **351,** 5

Transport, transepithelial. Defective acidification of intracellular organelles in cystic fibrosis, *Letter to Nature,* (Barasch, J, Kiss, B, Prince, A, Saiman, L, Gruenert, D and Al-Awqati, Q) **352,** 70

Transport, UK. Radioactive materials: New UK road rules, *News,* (Aldhous, P) **349,** 445

Transportation, advanced. Advanced transportation: Maglev burns out in Japan, *News,* (Swinbanks, D) **353,** 592

Transposons. A portable palette, *News and views,* **353,** 20

Tree physiology. Streamside trees that do not use stream water, (Dawson, T E and Ehleringer, J R) **350,** 335

Tree-ring chronologies. A stable-isotope tree-ring timescale of the Late Glacial/Holocene boundary, *Letter to Nature,* (Becker, B, Kromer, B and Trimborn, P) **353,** 647

Trees, US. Barking up the right tree, *News,* (Aldhous, P) **352,** 95

Triassic reptiles. Venom-conducting teeth in a Triassic reptile, *Letter to Nature,* (Sues, H-D) **351,** 141

Tribology. Forces between polymer-bearing surfaces undergoing shear, *Letter to Nature,* (Klein, J, Perahia, D and Warburg, S) **352,** 143

Triosephosphate isomerase. Enzyme catalysis: not different, just better, *Review article,* (Knowles, J R) **350,** 121

Triploblasts. Evolution: Two-layered awakening, *News and views,* (Barnes, R S K) **350,** 561

Tritium. Fusion: First use of tritium, *News,* (Pease, R) **354,** 95

Nuclear weapons: Tritium 'peace dividend', *News,* (Anderson, C) **354,** 3

Triton. Planetary astronomy: Icy clues to Triton's origins, *News and views,* (McKinnon, W B) **354,** 431

Solar System: A plurality of worlds, *News and views,* (Weidenschilling, S J) **352,** 190

Tropical ecology. The Smithsonian's tropical niche, *Commentary,* (Anderson, A) **349,** 647

Tropical forests. Neotropical plant diversity, *Scientific correspondence,* (Henderson, A, Churchill, S P and Luteyn, J L) **351,** 21

Tropical medicine. Breach of trust in Sudan, *Correspondence,*

(Malik, M O A, Ali, M H, Homeida, M, Ali, H M, Ghalib, H W, Suleiman, S M, El-Sheikh, E-H A, Zayed, O and Mahmoud, B) **354,** 346
The history of yellow fever: An essay on the birth of tropical medicine, (Delaporte, F) *book review by* Goodwin, L. **354,** 335

Tropospheric ozone depletion. Atmospheric chemistry: New ozone hole phenomenon, *News and views,* (Thompson, A M) **352,** 282

Trypanosome brucei. Efficient production of functional mRNA mediated by RNA polymerase I in *Trypanosoma brucei, Letter to Nature,* (Zomerdijk, J C B M, Kieft, R and Borst, P) **353,** 772

Tuberculosis vaccine. BCG: Rebirth of a star performer, *News and views,* (Colston, M J) **351,** 442
Humoral and cell-mediated immune responses to live recombinant BCG-HIV vaccines, *Letter to Nature,* (Aldovini, A and Young, R A) **351,** 479

Tubules, gold. Golden opportunity, *News and views,* **351,** 99

Tumorigenesis. A novel Cyclin encoded by a *bcl1*-linked candidate oncogene, *Letter to Nature,* (Motokura, T, Bloom, T, Kim, H G, Jüppner, H, Ruderman, J V, Kronenberg, H M and Arnold, A) **350,** 512
Association of $p60^{v\text{-}src}$ with polyoma virus middle-T antigen abrogating mitosis-specific activation, *Letter to Nature,* (Kaech, S, Covic, L, Wyss, A and Ballmer-Hofer, K) **350,** 431
Oncogenic and transcriptional cooperation with Ha-Ras requires phosphorylation of c-Jun on serines 63 and 73, *Letter to Nature,* (Smeal, T, Binetruy, B, Mercola, D A, Birrer, M and Karin, M) **354,** 494

Tumour Biology Centre. Clinical cancer research: An 'alternative' in Germany, *News,* (Dickman, S) **352,** 95

Tumour metastasis. Regulatory proteins: Ras and the *awd* couple, *News and views,* (Ruggieri, R and McCormick, F) **353,** 390

Tumour research. Cancer treatments, *Correspondence,* (Groner, B and Nagel, G A) **354,** 346

Tumour suppressor genes. A cellular protein that competes with SV40 T antigen for binding to the retinoblastoma gene product, *Letter to Nature,* (Huang, S, Lee, W-H and Lee, E Y-H P) **350,** 160
Adenovirus E1a prevents the retinoblastoma gene product from complexing with a cellular transcription factor, *Letter to Nature,* (Bandara, L R and La Thangue, N B) **351,** 494
Colon cancer: Consider the coiled coil . . ., *News and views,* (Bourne, H R) **351,** 188
Out of sequence, *News and views,* **350,** 21
The p53 tumour suppressor gene, *Review article,* (Levine, A J, Momand, J and Finlay, C A) **351,** 453
Wild-type p53 induces apoptosis of myeloid leukaemic cells that is inhibited by interleukin-6, *Letter to Nature,* (Yonish-Rouach, E, Resnitzky, D, Lotem, J, Sachs, L, Kimchi, A and Oren, M) **352,** 345

Tumour viruses. A superantigen encoded in the open reading frame of the 3' long terminal repeat of mouse mammary tumour virus, *Article,* (Choi, Y, Kappler, J W and Marrack, P) **350,** 203
Clonal deletion of Vβ14-bearing T cells in mice transgenic for mammary tumour virus, *Article,* (Acha-Orbea, H, Shakhov, A N, Scarpellino, L, Kolb, E, Müller, V, Vessaz-Shaw, A, Fuchs, R, Blöchlinger, K, Rollini, P, Billotte, J, Sarafidou, M, Macdonald, H R and Diggelmann, H) **350,** 207
Retinoblastoma: A transcriptional tryst, *News and views,* (Wagner, S and Green, M R) **352,** 189

Tumour-suppressor genes. Colon cancer: Suppression with a difference, *News and views,* (Bourne, H R) **353,** 696

Tumours, CFCs. Environment: Red flag on CFC substitute, *News,* (Pool, R) **352,** 98

Tunnel junctions. High-temperature superconductors: Light at the end of the tunnel, *News and views,* (Beasley, M R) **350,** 21

Tunnelling spectroscopy. The superconducting energy gap of Rb_3C_{60}, *Letter to Nature,* (Zhang, Z, Chen, C-C, Kelty, S P, Dai, H and Lieber, C M) **353,** 333

Tunnelling, superconductivity. Giant tunnelling anisotrophy in the high-T_c superconductor $Bi_2Sr_2CaCu_2O_x$, *Letter to Nature,* (Mandrus, D, Forro, L, Koller, D and Mihaly, L) **351,** 460

Turbidity currents. Erosion of a stable density gradient by sedimentation-driven convection, *Letter to Nature,* (Kerr, R C) **353,** 423

Turing patterns. Chemical waves: Crystals from dreams, *News and views,* (Winfree, A T) **352,** 568
Transition from a uniform state to hexagonal and striped Turing patterns, *Letter to Nature,* (Ouyang, Q and Swinney, H L) **352,** 610

Turner's syndrome. X-chromosome inactivation may explain the difference in viability of XO humans and mice, *Letter to Nature,* (Ashworth, A, Rastan, S, Lovell-Badge, R and Kay, G) **351,** 406

Type I deiodinase. Recognition of UGA as a selenocysteine codon in Type I deiodinase requires sequences in the 3' untranslated region, *Letter to Nature,* (Berry, M J, Banu, L, Chen, Y, Mandel, S J, Kieffer, J D, Harney, J W and Larsen, P R) **353,** 273

Typhoons, Japan. Disaster response: Tokyo gears up for calamity, *News,* (Swinbanks, D) **351,** 260

Tyrosine kinase inhibitors. Long-term potentiation in the hippocampus is blocked by tyrosine kinase inhibitors, *Letter to Nature,* (O'Dell, T J, Kandel, E R and Grant, S G N) **353,** 558

Tyrosine kinases. *Myc* rescue of a mutant CSF-1 receptor impaired in mitogenic signalling, *Letter to Nature,* (Roussel, M F, Cleveland, J L, Shurtleff, S A and Sherr, C J) **353,** 361
Association of $p60^{v\text{-}src}$ with polyoma virus middle-T antigen abrogating mitosis-specific activation, *Letter to Nature,* (Kaech, S, Covic, L, Wyss, A and Ballmer-Hofer, K) **350,** 431
High-affinity NGF binding requires coexpression of the *trk* proto-oncogene and the low-affinity NGF receptor, *Letter to Nature,* (Hempstead, B L, Martin-Zanca, D, Kaplan, D R and Chao, M V) **350,** 678
Tyrosine phosphorylation and tyrosine kinase activity of the *trk* proto-oncogene product induced by NGF, *Letter to Nature,* (Kaplan, D R, Martin-Zanca, D and Parada, L F) **350,** 158

Tyrosine-serine kinases. Fission yeast $p107^{mes1}$ mitotic inhibitor is a tyrosine/serine kinase, *Letter to Nature,* (Featherstone, C and Russell, P) **349,** 808

Tyrosine-serine protein phosphatases. A Tyr/Ser protein phosphatase encoded by vaccinia virus, *Letter to Nature,* (Guan, K, Broyles, S S and Dixon, J E) **350,** 359

Tyrosyl-tRNA synthetases. Integration of a group I intron into a ribosomal RNA sequence promoted by a tyrosyl-tRNA synthetase, *Letter to Nature,* (Mohr, G and Lambowitz, A M) **354,** 164

Ubiquitin-activating enzyme E1. A candidate spermatogenesis gene on the mouse Y chromosome is homologous to ubiquitin-activating enzyme E1, *Letter to Nature,* (Kay, G F, Ashworth, A, Penny, G D, Dunlop, M, Swift, S, Brockdorff, N and Rastan, S) **354,** 486
Homology of a candidate spermatogenic gene from the mouse Y chromosome to the ubiquitin-activating enzyme E1, *Letter to Nature,* (Mitchell, M J, Woods, D R, Tucker, P K, Opp, J S and Bishop, C E) **354,** 483

UDP glucuronosyl transferase. Odorant signal termination by olfactory UDP glucuronosyl transferase, *Letter to Nature,* (Lazard, D, Zupko, K, Poria, Y, Nef, P, Lazarovits, J, Horn, S, Khen, M and Lancet, D) **349,** 790

UK, abortion drug. RU-486 in UK, *News,* (Anderson, C) **352,** 99

UK, animal experiments. Animal experiments: UK government funds humane research, *News,* (Aldhous, P) **349,** 272
Animal procedures research, *Correspondence,* (Huxley, A) **349,** 274

UK, animal rights. The animal rights question, *Correspondence,* (Matfield, M) **352,** 9

UK, Antarctic research. Research in Antarctica: British Antarctic Survey: Playing according to the game plan, *News,* (Aldhous, P) **350,** 297
Research in Antarctica: Research infrastructure: A steady expansion, *News,* (Aldhous, P) **350,** 298

UK, astronauts. Space: First Briton hits orbit, *News,* (Aldhous, P) **351,** 262

UK, astronomy. Astronomer Royal: New man will speak his mind, *News,* (Aldhous, P) **349,** 93
Not so old, *Correspondence,* (Wayman, P A) **349,** 734

UK, banks. Bankrupt systems, *Opinion,* **352,** 175

UK, cancer therapy. Cancer therapy: Neutron-treatment fund axed, *News,* (Gee, H) **349,** 552

UK, chemical exports. Is Big Brother really watching us?, *News and views,* (Maddox, J) **352,** 375

UK, cholera. Cholera mystery, *Correspondence,* (Gantt, R C) **351,** 264
Cholera mystery, *Correspondence,* (Yach, D) **351,** 264

UK, collaborative research. Collaboration: Call for LINK reform, *News,* (Aldhous, P) **351,** 431
Research collaboration: Charities cohabit in Cambridge, *News,* (Aldhous, P) **351,** 432

UK, computer industry. Computer industry: ICL expelled from JESSI projects, *News,* (Aldhous, P) **350,** 368

UK, computer networks. Research in Antarctica: Research computing: Logging-on on the ice, *News,* (Aldhous, P) **350,** 297

UK, computing. UK supercomputing: London centre keeps Cray, *News,* (Aldhous, P) **349,** 184

UK, conservation. Biodiversity: The UK role in conservation, *News,* (Gee, H) **351,** 596

UK, defence research. Defence research: UK military favoured, *News,* (Maddox, J) **351,** 512

UK, education. British science, *Correspondence,* (Fagandini, D A A) **353,** 787
Education platitudes, *Opinion,* **349,** 2
Shakespeare's school, *Opinion,* **351,** 2
Testing the science testers, *Commentary,* (Drummond, M J) **352,** 369

UK, electrical industry. Ferranti and the British Electrical Industry,1864-1940, *book review by* Hackmann, W. (Wilson, J F) **352,** 119

UK, energy. Waves rediscovered, *News,* (Anderson, C) **352,** 271

UK, environment. Global warming: 'Activist' stance by UK government, *News,* (Aldhous, P) **354,** 99

UK, forensic science. UK forensic science: Forensic reform needed now, *News,* (Aldhous, P) **351,** 262

UK, genetic engineering. Genetic engineering: Regulation cost concerns, *News,* (Aldhous, P) **354,** 5

UK, genome project. Genome project: Secrecy and the bottom line, *News,* (Anderson, C and Aldhous, P) **354,** 96

UK, health research. Health research: NHS launches first strategy, *News,* (Aldhous, P) **351,** 7

UK, health. Cholera mystery, *Correspondence,* (Gantt, R C) **351,** 264
Cholera mystery, *Correspondence,* (Yach, D) **351,** 264

UK, high-energy physics. UK nuclear physics: Daresbury hopes dashed, *Opinion,* (Aldhous, P) **350,** 177

UK, higher education. Less class distinction, *Opinion,* **351,** 256
UK higher education: Polytechnics seeking their fair share, *News,* (Aldhous, P) **349,** 360
University/polytechnic distinction to end, *News,* (Aldhous, P) **351,** 257

UK, industry. Industrial innovation: Get academics into the boardroom, *News,* (Aldhous, P) **350,** 7
Industrial R&D: SPUR to innovation, *News,* (Aldhous, P) **349,** 556
Industrial/academic collaboration: Alvey lessons unheeded, *News,* (Aldhous, P) **351,** 178
Technology untied?, *Opinion,* **350,** 95

UK, international collaborations. International collaboration: Reforms sought from UK Treasury, *News,* (Aldhous, P) **350,** 103

UK, judicial system. Independence of forensic science, *Opinion,* **350,** 95

UK, LINK programme. Collaboration: Call for LINK reform, *News,* (Aldhous, P) **351,** 431

UK, manned spaceflight. Manned space flight: UK astronaut named, *News,* (Aldhous, P) **349,** 727

UK, medical research. Animal experiments: MRC breach spurs reforms, *News,* (Aldhous, P) **349,** 446
Animal experimentation: Charities fight back, *News,* (Aldhous, P) **354,** 100
Cancer therapy: Neutron-treatment fund axed, *News,* (Gee, H) **349,** 552
Health research: NHS launches first strategy, *News,* (Aldhous, P) **351,** 7
Medical research: World's first MS unit, *News,* (Aldhous, P) **350,** 8
Research budget: Another tough year for MRC, *News,* (Aldhous, P) **349,** 552
Research ethics: Nuffield takes the lead on bioethics, *News,* (Aldhous, P) **350,** 641
Research foundations: First woman director for Wellcome, *News,* **349,** 187
Scientific misconduct: UK medical guidelines proposed, *News,* (Aldhous, P) **350,** 365
University of London: Medicine becomes a liability, *News,* (Aldhous, P) **350,** 546

UK, museums. Natural History Museum: Draft of next corporate plan, *News,* (Gee, H) **349,** 555
Natural History Museum: Innovative ecology exhibits, *News,* (Gee, H) **350,** 99

UK, National Physical Laboratory. Metamorphosis of a British laboratory, *News and views,* (Maddox, J) **354,** 15

UK, nuclear industry. UK nuclear industry: Dounreay loses uranium, *News,* (Aldhous, P) **354,** 422

UK, nuclear physics. Nuclear structure physics in limbo, *News,* (Aldhous, P) **349,** 551
UK nuclear physicists fear SERC's cuts, *News,* (Aldhous, P) **349,** 357

UK, nuclear power. Leukaemia epidemiology: Confusion surrounds the 'Gardner effect', *News,* (Aldhous, P) **350,** 264
Meltdown: The collapse of the nuclear dream, *book review by* Cottrell, A., (Aubrey, C) **353,** 222

UK, politics. Policy by stealth, *Opinion,* **351,** 592
UK science policy: Tories respond to Labour plan, *News,* (Gee, H) **351,** 596

UK, polytechnics. Higher education: British move sows confusion, *News,* (Maddox, J) **351,** 508
UK higher education: Polytechnics seeking their fair share, *News,* (Aldhous, P) **349,** 360
UK science: Polys gain, *News,* (Aldhous, P) **349,** 443

UK, power industry. Ferranti and the British Electrical Industry,1864-1940, *book review by* Hackmann, W. (Wilson, J F) **352,** 119

UK, primate research. Animal experimentation: UK primate research under scrutiny, *News,* (Aldhous, P) **354,** 177

UK, public health. How affordable is public health?, *Opinion,* **353,** 587

UK, radioastronomy. Radioastronomy: Funding hiccup at Jodrell, *News,* (Aldhous, P) **349,** 733
Radioastronomy: Making the most of MERLIN's potential, *News,* (Aldhous, P) **349,** 733

Research centres: The perils of industrial participation, *News,* (Anderson, C) **352,** 270
UK, technology. British Technology Group: Privatization ahead for BTG, *News,* (Gee, H) **349,** 272
British Technology Group: Universities considering a buy-out, *News,* (Aldhous, P) **350,** 181
Inventive Britain, *Opinion,* **349,** 268
UK, telecommunications. Technology untied?, *Opinion,* **350,** 95
UK, transport. Radioactive materials: New UK road rules, *News,* (Aldhous, P) **349,** 445
UK, unemployment. Leukaemia and unemployment, *Correspondence,* (Solff, S P) **350,** 268
UK, universities. Anglo-European research: Spend more to compete, *News,* (Aldhous, P) **349,** 183
British Technology Group: Universities considering a buy-out, *News,* (Aldhous, P) **350,** 181
Higher education: British move sows confusion, *News,* (Maddox, J) **351,** 508
Indirect costs again, *Opinion,* **353,** 196
Industrial innovation: Get academics into the boardroom, *News,* (Aldhous, P) **350,** 7
Less class distinction, *Opinion,* **351,** 256
Overheads overblown, *Opinion,* **349,** 355
SERC research grants: Award now, pay later, *News,* (Aldhous, P) **351,** 88
UK research funding: Reform may cut grant awards, *News,* (Aldhous, P) **351,** 88
UK science budget: Lords look for culprits, *News,* (Aldhous, P) **350,** 8
UK science budget: Moneysaving measures, *News,* (Aldhous, P) **350,** 8
UK supercomputing: London centre keeps Cray, *News,* (Aldhous, P) **349,** 184
UK universities: What's in it for science?, *News,* (Aldhous, P) **350,** 7
UK universities: New CVCP chairman, *News,* (Aldhous, P) **350,** 101
UK university budgets: Education under threat, *News,* (Aldhous, P) **350,** 6
UK university funding: Cutting student costs, *News,* (Aldhous, P) **350,** 453
Universities: Battling for and against rising numbers, *News,* **349,** 6
University of London: Medicine becomes a liability, *News,* (Aldhous, P) **350,** 546
University/polytechnic distinction to end, *News,* (Aldhous, P) **351,** 257
UK, zoos. Crisis at London Zoo, *Correspondence,* (Hawkey, C, Sober, R, Bearder, S, Cobb, S, Tudge, C and Mitchell, G) **354,** 261
London Zoo: Attemps to avoid closure, *News,* (Gee, H) **350,** 453
Sad tale of an endangered zoo, *News and views,* (Maddox, J) **350,** 457
Zoological gardens: London's ark runs aground, *News,* (Gee, H) **350,** 546
UK-Japan collaboration. UK-Japan collaboration: Cold fusion leaves a legacy, *News,* (Swinbanks, D) **354,** 98
Ultrasound. Observation of synchronous picosecond sonoluminescence, *Letter to Nature,* (Barber, B P and Putterman, S J) **352,** 318
Sonochemical synthesis of amorphous iron, *Letter to Nature,* (Suslick, K S, Choe, S-B, Cichowlas, A A and Grinstaff, M W) **353,** 414
Ultraviolet astronomy. Detection of a stellar flare at extreme ultraviolet wavelengths, *Letter to Nature,* (Barstow, M A, Bromage, G E, Pankiewicz, G S, González-Riestra, R, Denby, M and Pye, J P) **353,** 635
Space science: Astro reborn, *News,* (Lindley, D) **351,** 257
Spectral transformation of the unusual variable star MWC560 to resemble a nova, *Letter to Nature,* (Maran, S P, Michalitsianos, A G, Oliversen, R J and Sonneborn, G) **350,** 404
Test of the decaying dark matter hypothesis using the Hopkins Ultraviolet Telescope, *Letter to Nature,* (Davidsen, A F, Kriss, G A, Ferguson, H C, Blair, W P, Bowers, C W, Dixon, W V, Durrance, S T, Feldman, P D, Henry, R C, Kimble, R A, Kruk, J W, Long, K S, Moos, H W and Vancura, O) **351,** 128
Ultraviolet B radiation. DNA damage in the Antarctic, *Scientific correspondence,* (Karentz, S, Cleaver, J E and Mitchell, D L) **350,** 28
Ultraviolet light. Retinal receptors in rodents maximally sensitive to ultraviolet light, *Letter to Nature,* (Jacobs, G H, Neltz, J and Deegan II, J F) **353,** 655
Uncertainty principle. Quantum optical tests of complementarity, *Review article,* (Scully, M A, Englert, B-G and Walther, H) **351,** 111
Undecidability. Dynamics: Deciding the undecidable, *News and views,* (Stewart, I) **352,** 664
Underwater exploration. Underwater exploration: Jason lost at sea, *News,* (Anderson, C) **354,** 260
Ungulates, extinct. Late quaternary extinct ungulates of East Africa and palaeoenvironmental implications, *Letter to Nature,* (Marean, C W and Gifford-Gonzalez, D) **350,** 418
Universe, density field. The density field of the local Universe, *Article,* (Saunders, W, Frenk, C, Rowan-Robinson, M, Efstathiou, G, Lawrence, A, Kaiser, N, Ellis, R, Crawford, J, Xia, X-Y and Parry, I) **349,** 32
Universe, large-scale structure. Astronomy: A smooth ride for galaxies, *News and views,* (Edmunds, M G and Phillips, S) **350,** 464
Black holes and structure in an oscillating universe, *Letter to Nature,* (Saslaw, W C) **350,** 43
Cosmology: A quasar superstructure, *News and views,* (Silk, J and Weinberg, D) **350,** 272
Cosmology: Cold dark matter makes an exit, *News and views,* (Lindley, D) **349,** 14
Cosmology: Texture and cosmic structure, *News and views,* (Silk, J and Juszkiewicz, R) **353,** 386
Formation of cosmic structure by Doppler instability, *Article,* (Hogan, C J) **350,** 469
Is cold dark matter really dead?, *Scientific correspondence,* (Frenk, C S and Kaiser, N) **351,** 22
Large-scale structure in the Universe, *Review article,* (Kashlinsky, A and Jones, B J T) **349,** 753
Olbers' paradox: Dandekar, T. *Scientific correspondence,* **351,** 21
The case for the relativistic hot Big Bang cosmology, *Review article,* (Peebles, P J E, Schramm, D N, Turner, E L and Kron, R G) **352,** 769
The Great Attractor: do galaxies trace the large-scale mass distribution?, *Review article,* (Dressler, A) **350,** 391
Voronoi cosmology, *Scientific correspondence,* (Coles, P) **349,** 288
Were small galaxies once the dominant cosmological population?, *Letter to Nature,* (Cowie, L L, Songaila, A and Hu, E M) **354,** 460
Universities, Europe. A thesis for all seasons, *Commentary,* (Breimer, L H and Mikhailidis, D P) **353,** 789
Universities, Australia. Advance from Australia?, *Correspondence,* (Rohozinski, J) **351,** 599
Australia's talisman, *Opinion,* **350,** 447
Australian research: Canberra squeezes ANU, *News,* (Maddox, J) **350,** 452
Universities, Canada. Academic freedom: Back to flesh, *News,* (Anderson, C) **349,** 94
Universities, commerical research. Soul not for sale, *Correspondence,* (Iles, R) **349,** 188
Universities, Europe. European universities: Graduate training reforms, *News,* (Aldhous, P) **351,** 339
Universities, France. France's peers overseas, *Correspondence,* (Courtillot, V) **353,** 786
Friends for France, *Opinion,* **352,** 176
Universities, Germany. German education, *Correspondence,* (Weber, T J) **349,** 274
German politics: Späth loss rocks universities, *News,* (Dickman, S) **349,** 270
German research: Funding, east and west, *News,* (Dickman, S) **349,** 552
German universities: Rebuilding takes a downturn, *News,* (Dickman, S) **351,** 432
Germany: New university for Frankfurt on the Oder?, *News,* (Dickman, S) **351,** 261
Hobson's choice?, *Opinion,* **349,** 442
Unifying German research: Politics rears its not-so-ugly head, *News,* (Dickman, S) **349,** 448
Universities, Hong Kong. Far East: Hong Kong university, *News,* (Gwynne, P) **352,** 273
Universities, India. Himalayan palaeontology: Gupta faces suspension, *News,* (Jayaraman, K S) **349,** 645
Indian reputations, *Opinion,* **349,** 639
Indian research: Universities and industry collaborate, *News,* (Jayaraman, K S) **349,** 555
Perspectives for India, *Correspondence,* (Singh, J S) **353,** 104
Raman Institute: Storm at Bangalore institute, *News,* (Jayaraman, K S) **349,** 732
Universities, Italy. Academic promotion in Italy, *Correspondence,* (Gaetani, G F and Ferraris, A M) **353,** 10
Universities, Japan. Another leap forward in Japan, *Opinion,* **353,** 371
Japan's graduate university matures, *News and views,* (Maddox, J) **353,** 113
Japan: Survey pans university labs, *News,* (Swinbanks, D) **350,** 544
Japanese collaboration: Door opens for national labs, *News,*

(Swinbanks, D) **351,** 175
Japanese universities: A $500-million renovation, *News,* (Swinbanks, D) **353,** 292
Universities, Kuwait. Kuwait after the invasion, *Correspondence,* (Burns, G) **349,** 450
Kuwait: Palestinians may be barred from courses, *News,* (Aldhous, P) **350,** 369
Universities, Romania. Romania rebuilds, *Correspondence,* (Wallace, D) **349,** 450
Universities, South Africa. Research funding: Tough times in South Africa, *News,* (Cherry, M) **350,** 549
Universities, Switzerland. Switzerland: Doubt afflicts Swiss anniversary, *News,* (Maddox, J) **352,** 371
Universities, the Netherlands. European universities: Graduate training reforms, *News,* (Aldhous, P) **351,** 339
Universities, UK. Anglo-European research: Spend more to compete, *News,* (Aldhous, P) **349,** 183
British Technology Group: Universities considering a buy-out, *News,* (Aldhous, P) **350,** 181
Higher education: British move sows confusion, *News,* (Maddox, J) **351,** 508
Indirect costs again, *Opinion,* **353,** 196
Industrial innovation: Get academics into the boardroom, *News,* (Aldhous, P) **350,** 7
Less class distinction, *Opinion,* **351,** 256
Overheads overblown, *Opinion,* **349,** 355
SERC research grants: Award now, pay later, *News,* (Aldhous, P) **351,** 88

US, national laboratories. US national laboratories: Staying with California labs, *News,* (Aldhous, P) **352,** 365
US, National Science Foundation. National Science Foundation: Social science gets its day, *News,* (Anderson, C) **353,** 590
US, Navy. US science budget: Navy made to pay for civil research, *News,* (Aldhous, P) **352,** 363
US, neuroscience. Call for brain-maps, *News,* (Aldhous, P) **352,** 8
US, nuclear industry. Environment: Nuclear cleanup costs rise, *News,* (Pool, R) **353,** 101
US, nuclear power. DoE rallies to save US fusion research programme, *News,* (Anderson, C) **349,** 269
Energy policy: More free market, less regulation, Bush asks, *News,* (Pool, R) **349,** 729
US, nuclear programme. Nuclear dynamite: The peaceful nuclear explosions fiasco, *book review by* Ruquist, . R. (Findlay, T) **349,** 28
US, nuclear science. Department of Energy: Nuclear science faces cuts, *News,* (Pool, R) **353,** 783
US, nuclear waste storage. Nuclear waste storage: DOE won't wait on WIPP, *News,* (Pool, R) **353,** 487
Nuclear waste storage: WIPP put on hold, *News,* (Pool, R) **353,** 590
US, nuclear weapons research. Nuclear weapons research: US national labs face changing roles, *News,* (Pool, R) **353,** 6
US, nuclear weapons. Nuclear weapons: Tritium 'peace dividend', *News,* (Anderson, C) **354,** 3
US, Office of Scientific Integrity. OSI's conclusions wrong, *News and views,* (Imanishi-Kari, T) **351,** 344
US, particle physics. New quarters for the Superconducting Super Collider, *News,* **353,** 783
SSC: New sheriff in town?, *News,* (Anderson, C) **354,** 259
US, patent law. Gene patents: A battle as old as the nation, *News,* (Anderson, C) **354,** 174
US, pharmaceutical industry. University-industry collaboration: Questions on drug pact, *News,* (Shulman, S) **350,** 645
US, pollution. The limits of law: The public regulation of private pollution, *book review by* Ashby, E. (Yeager, P C) **351,** 23
US, power industry. Electrical generation: Storage opens up options, *News,* (Pool, R) **351,** 509

US, primate imports. Primate import probe. *News*, (Anderson, C) **353,** 199
US, public health. Splitting the difference on risk. *News*, (Anderson, C) **354,** 255
US, remote-sensing satellites. Satellite data: Spat over Gulf War windfall, *News*, (Anderson, C) **351,** 174
US, renewable energy. Renewable energy: The future is now (again), *News*, (Anderson, C) **354,** 344
US, research and development. R&D for industry - A century of technical innovation at Alcoa, *book review by* Cahn, R W, (Graham, M B W and Pruitt, B H) **350,** 118
US, research budget. Research budget: growth continues in adversity, *News*, **349,** 4
US, research commercialization. Research commercialization: SBIR is good business, *News*, (Pool, R) **353,** 488
US, research costs. Indirect costs: Flowers, opera and art, *News*, (Anderson, C) **351,** 173
Overheads cost research dear, *Opinion*, **351,** 255
University research: No end of blame on costs, *News*, (Anderson, C) **350,** 182
US, research funding. . . . and at NIH, *Correspondence*, (Jardetzky, O) **349,** 646
Research funding: Cuts coming on overheads, *News*, (Anderson, C) **350,** 642
Science lobbying: California takes the gloves off, *News*, (Schaefer, E) **349,** 557
Storm clouds gather over research costs, *News*, (Anderson, C) **350,** 543
US research costs: Showdown over overheads?, *News*, (Anderson, C and Schaefer, E) **349,** 361
US, research grants. Hidden buildings, *Opinion*, **354,** 253
Indirect costs: The case of the amazing shrinking scandal, *News*, (Anderson, C) **354,** 258
Indirect costs: NIH's options, *News*, (Anderson, C) **354,** 258
US, research policy. US research policy: A new role for DARPA?, *News*, (Pool, R) **353,** 198
US research policy: Ethics rule reconsidered, *News*, (Anderson, C) **353,** 784
US, research. AAAS meeting: Presidential address sets the tone, *News*, (Culliton, B J and Pool, R) **349,** 642
US, risk assessment. Risk assessment: End of an era, *News*, (Anderson, C) **353,** 289
US, science budget. Bush asks for 13 per cent extra for science, *News*, (Culliton, B J, Pool, R and Gershon, D) **349,** 443
More spending, not more of the same, *Opinion*, **349,** 549
US budget: Budget boost for science, *News*, (Culliton, B J, Pool, R and Gershon, D) **349,** 444
US budget: NSF wins, space science loses, *News*, (Anderson, C) **353,** 372
US science budget: In space, no one can hear you oink, *News*, (Anderson, C) **353,** 486
US, science policy. US appointment: Eradicator of smallpox moves, *News*, (Pool, R) **350,** 452
US, science politics. Science politics: US science's 'stealth agency', *News*, (Anderson, C) **353,** 198
US, science. A minnow to catch a mackerel?, *News*, (Swinbanks, D) **353,** 685
Prospects improve for US-European collaboration, *News*, (Anderson, C) **349,** 182
US, scientific commercialization. Scientific commercialization: US biotech in good health, *News*, (Gershon, D) **353,** 785
US, scientific misconduct. OSI procedures, *Correspondence*, (Hadley, S W) **353,** 204
US, scientific societies. Scientific societies: Ethics rules provoke storm, *News*, (Aldhous, P) **353,** 5
US, sex surveys. Sex study dead again, *News*, (Anderson, C) **353,** 199
US kills sex survey, *Opinion*, **353,** 371
US, space programme. Astronomers still thinking too big?, *Correspondence*, (Yaes, R J) **352,** 9
How to stop the space station, *Opinion*, **352,** 175
Mars mission: Back to the future, *News*, (Aldhous, P) **351,** 594
NASA budget: Space station back on track, *News*, (Aldhous, P) **351,** 507
Space exploration: Moon base best, says panel, *News*, (Anderson, C) **351,** 429
Space station: Auditors fret, NASA persists, *News*, (Anderson, C) **351,** 87
US, space research. Space research: The cost of ambition, *News*, **349,** 8
Space research: Space Station takes a blow, *News*, (Anderson, C) **350,** 182
Space science: Astro reborn, *News*, (Lindley, D) **351,** 257
US astronomers ask for more, *Commentary*, (Lindley, D) **350,** 185
US, space science. NASA delays big missions in space science shakeup, *News*, (Anderson, C) **353,** 97
US, space station. Japan, Europe lobby US over space station, *Opinion*, (Swinbanks, D, Aldhous, P and Dickman, S) **351,** 428
NASA budget: Science societies target station, *News*, (Aldhous, P) **352,** 179
US, Super Conducting Supercollider. US makes plea for Japanese SSC help, *News*, (Swinbanks, D) **353,** 685
US, technological research. Technological research: US losing its lead, *News*, (Aldhous, P) **352,** 5
US, technology. Candidate for change, *Opinion*, **351,** 427
Technology policy: Materials top critical technologies list, *News*, (Anderson, C) **351,** 8
US, telecommunications. Telecommunications: Mystery solved in US phone failures, *News*, (Pool, R) **352,** 178
US, telephone numbers. Telephone silence, *Opinion*, **353,** 286
US, telephones. Telecommunications: Mystery solved in US phone failures, *News*, (Pool, R) **352,** 178
US, telescopes. Astronomy: Keck telescope twin gets the go-ahead, *News*, (Anderson, C) **351,** 8
US, trade. Recovery by decree, *Opinion*, **351,** 1
US, trees. Barking up the right tree, *News*, (Aldhous, P) **352,** 95
US, universities. Figures in dispute, *Correspondence*, (Donahue, T M) **353,** 691
Indirect costs: Flowers, opera and art, *News*, (Anderson, C) **351,** 173
Indirect costs: OMB announces cap, *News*, (Aldhous, P) **352,** 5
New president, *News*, (Shulman, S) **350,** 265
Overheads cost research dear, *Opinion*, **351,** 255
Overkill at Stanford?, *News*, (Aldhous, P) **352,** 362
Stanford unrepentant, *News*, (Aldhous, P) **352,** 94
Storm clouds gather over research costs, *News*, (Anderson, C) **350,** 543
The social return of academic research, *News and views*, (Pool, R) **352,** 661
Undergraduate teaching: Stanford initiative, *News*, (Pool, R) **350,** 5
Universities: Battling for and against rising numbers, *News*, **349,** 6
University faculties: NRC proposes end to forced retirement, *News*, (Anderson, C) **351,** 337
University of California: Stronger management tactics for laboratories, *News*, (Schaefer, E) **349,** 446
University research: No end of blame on costs, *News*, (Anderson, C) **350,** 182
University-industry collaboration: Questions on drug pact, *News*, (Shulman, S) **350,** 645
US research costs: Showdown over overheads?, *News*, (Anderson, C and Schaefer, E) **349,** 361
US state universities face massive cuts, *News*, (Anderson, C) **351,** 3
US, weather satellites. Satellite lent to US, *News*, (Anderson, C) **353,** 199
US, women's health. NIH push for women's health, *News and views*, (Culliton, B J) **353,** 383
US-Japan collaboration. International collaboration: At odds over big science, *News*, (Swinbanks, D) **352,** 272
International collaboration: US plans Frontiers support, *News*, (Swinbanks, D) **354,** 424
International collaboration: SSC appeal gets cold shoulder, *News*, (Swinbanks, D) **354,** 424
Poor rich Japan, *Opinion*, **354,** 420
US-Soviet relations. Soviet-American relations: Translations and turkey, *News*, (Pool, R) **354,** 260
US. US makes plea for Japanese SSC help, *News*, (Swinbanks, D) **353,** 685
USSR, HUGO. Grant to HUGO, *Correspondence*, (Bodmer, W) **352,** 274
USSR, space programme. Soviet Union: Space programme in disarray, *News*, (de Selding, P B) **352,** 363
Vaccination, polio. Food and drug administration: Tempest over polio vaccine, *News*, (Anderson, C) **351,** 510
Vaccine trials, AIDS. AIDS research: New findings cast doubt on UK vaccine trials, *News*, **353,** 287
Vaccine, sterility. India: Sterilized dogs, bulls will keep their libido, *News*, (Jayaraman, K S) **352,** 97
Vaccines, AIDS. AIDS: Passive primate protection, *News and views*, (Moore, J P and Weiss, R A) **352,** 376
Research ethics: Zagury challenges NIH report, *News*, (Aldhous, P) **352,** 180
Vaccines, cholera. Toxin two, *News and views*, **352,** 110
Vaccines, rabies. Large scale eradication of rabies using recombinant vaccinia-rabies vaccine. *Letter to Nature*, (Brochier, B, Kieny, M P, Costy, F, Coppens, P, Bauduin, B, Lecocq, J P, Languet, B, Chappuis, G, Desmettre, P, Afiademanyo, K, Libois, R and Pastoret, P-P) **354,** 521
Rabies: Immunization in the field, *News and views*, (Anderson, R M) **354,** 502
Vaccines, recombinant. BCG: Rebirth of a star performer, *News and views*, (Colston, M J) **351,** 442
Vaccines, synthetic. Synthetic vaccines: Peptides of fortune, *News and views*, (Janeway, C) **353,** 792
Vaccines. Anti-cell antibody in macaques, *Scientific correspondence*, (Stott, E J) **353,** 393
New use of BCG for recombinant vaccines, *Article*, (Stover, C K, de la Cruz, V F, Fuerst, T R, Burlein, J E, Benson, L A, Bennett, L T, Bansal, G P, Young, J F, Lee, M H, Hatfull, G F, Snapper, S B, Barletta, R G, Jacobs, W R and Bloom, B R) **351,** 456
Vaccinia virus. A Tyr/Ser protein phosphatase encoded by vaccinia virus, *Letter to Nature*, (Guan, K, Broyles, S S and Dixon, J E) **350,** 359
Valence. Electron density maps with a difference, *News and views*, **352,** 194
Vanadium chemistry. Induced molecule self-organization, *Scientific correspondence*, (Müller, A) **352,** 115
Layered magnetic structure of a metal cluster ion, *Letter to Nature*, (Gatteschi, D, Pardi, L, Barra, A L, Müller, A and Döring, J) **354,** 463
Variable stars. Spectral transformation of the unusual variable star MWC560 to resemble a nova, *Letter to Nature*, (Maran, S P, Michalitsianos, A G, Oliversen, R J and Sonneborn, G) **350,** 404
Vascular physiology. Cloning and expression of cDNA for a human thromboxane A, receptor, *Letter to Nature*, (Hirata, M, Hayashi, Y, Ushikubi, F, Yokota, Y, Kageyama, R, Nakanishi, S and Narumiya, S) **349,** 617
Isolation of a cDNA encoding the vascular type-I angiotensin II receptor, *Letter to Nature*, (Murphy, T J, Alexander, R W, Griendling, K K, Runge, M S and Bernstein, K E) **351,** 233
Vegetarian food. Sesame sauce, *News and views*, **353,** 118
Venom-conducting teeth. Venom-conducting teeth in a Triassic reptile, *Letter to Nature*, (Sues, H-D) **351,** 141
Venus, Magellan mission. Magellan gets set to fill in Venus's gaps, *News*, (Pease, R) **351,** 174
Vertebrate development. A cell autonomous function of *Brachyury* in *T/T* embryonic stem cell chimaras, *Letter to Nature*, (Rashbass, P, Cooke, L A, Herrmann, B G and Beddington, R S P) **353,** 348
A distinct *Hox* code for the branchial region of the vertebrate head, *Letter to Nature*, (Hunt, P, Gulisano, M, Cook, M, Sham-M-H, Faiella, A, Wilkinson, D, Boncinelli, E and Krumlauf, R) **353,** 861
Conversion by retinoic acid of anterior cells into ZPA cells in the chick wing bud, *Letter to Nature*, (Wanek, N, Gardiner, D M, Muneoka, K and Bryant, S V) **350,** 81
Developmental biology: We may not have a morphogen, *News and views*, (Brockes, J) **350,** 15
Expression pattern of zebrafish *pax* genes suggests a role in early brain regionalization, *Letter to Nature*, (Krauss, S, Johansen, T, Korzh, V and Fjose, A) **353,** 267
Out on a limb, *Scientific correspondence*, (Newman, S A) **354,** 26
Out on a limb: Reply, *Scientific correspondence*, (Slack, J M W) **354,** 26
Pre-existent pattern in Xenopus animal pole cells revealed by induction with activin, *Letter to Nature*, (Sokol, S and Melton, D A) **351,** 409
Regionally restricted developmental defects resulting from targeted disruption of the mouse homeobox gene *hox 1.5*, *Article*, (Chisaka, O and Capecchi, M R) **350,** 473
Retinoic acid induces polarizing activity but is unlikely to be a morphogen in the chick limb bud, *Letter to Nature*, (Noji, S, Nohno, T, Koyama, E, Muto, K, Ohyama, K, Aoki, Y, Tamura, K, Ohsugi, K, Ide, H, Taniguchi, S and Saito, T) **350,** 83
The *int-2* gene proto-oncogene is responsible for induction of the inner ear, *Letter to Nature*, (Represa, J, León, Y, Miner, C and Giraldez, F) **353,** 561
Vertebrate locomotion. Athletics: It may be better to be a wimp, *News and views*, (Alexander, R McN) **353,** 696
Running energetics in the pronghorn antelope, *Letter to Nature*, (Lindstedt, S L, Hokanson, J F, Wells, D J, Swain, S D, Hoppeler, H and Navarro, V) **353,** 748
Vertebrate retina. A cyclic GMP-activated channel in dissociated cells of the chick pineal gland, *Letter to Nature*, (Dryer, S E and Henderson, D) **353,** 756
Vertebrate vision. Double cones as a basis for a new type of polarization vision in vertebrates, *Letter to Nature*, (Cameron, D A and Pugh Jr, E N) **353,** 161
Vertebrate zoology. Close tetrapod relationships of the coelacanth *Latimeria* indicated by haemoglobin sequences, *Letter to Nature*, (Gorr, T, Kleinschmidt, T and Fricke, H) **351,** 394
Dinosaurs, spitfires, & sea dragons, *book review by* Gee, H, (McGowan, C) **351,** 361
Evolution: Blood lines of the coelacanth, *News and views*, (Forey, P) **351,** 347
Fossil first, *News and views*, **354,** 108
Palaeontology: The brave vertebrate venture, *News and views*, (Gee, H) **354,** 268
Tetrapod or near-tetrapod fossils from the Upper Devonian of Scotland, *Letter to Nature*, (Ahlberg, P E) **354,** 298
Venom-conducting teeth in a Triassic reptile, *Letter to Nature*, (Sues, H-D) **351,** 141
Very-Long Baseline Interferometry. Astronomy: When big is beautiful, *News and views*, (Kulkarni, S R, Shao, M and Haniff, C A) **352,** 383
New measurement of solar gravitational deflection of radio signals using VLBI, *Letter to Nature*, (Robertson, D S, Carter, W E and Dillinger, W H) **349,** 768
Vesicles, filamentary. Self-assembling phospholipid filaments, *Letter to Nature*, (Rudolph, A S, Ratna, B R and Kahn, B) **352,** 52
Vibrational spectroscopy. Vibrational spectroscopy: A section of analytica chemica acta, *journal review by* Steele, D., **353,** 472
Viceroy butterflies. Mimicry and viceroy butterflies, *Scientific correspondence*, (Malcolm, S) **353,** 24
Mimicry and viceroy butterflies, *Scientific correspondence*, (Ritland, D B and Brower, L P) **353,** 24
Mimicry and viceroy butterflies, *Scientific correspondence*, (MacCallum, W, Thacker, B and Johnson, G) **353,** 24
Viceroy butterfly. The viceroy butterfly is not a batesian mimic, *Letter to Nature*, (Ritland, D B and Brower, L P) **350,** 497
Video display terminals, health hazards. An electrostatic attraction, *Scientific correspondence*, (Ziemba, F P) **349,** 659
Health at work: Exoneration for VDTs, *News*, (Pool, R) **350,** 179
Risks to VDT operators, *Scientific correspondence*, (Wedberg, W C) **352,** 199

Video teleconferences. Video teleconferences: Long-distance hearing, *News*, (Pool, R) **353,** 593
Vimentin. Coalignment of vimentin intermediate filaments with microtubules depends on kinesin, *Letter to Nature*, (Gyoeva, F K and Gelfand, V I) **353,** 445
Viral infections, monkeys. Endangered species: Emerging virus threat, *News*, (Anderson, C) **351,** 89
Viral oncogenes. Association of $p60^{src}$ with polyoma virus middle-T antigen abrogating mitosis-specific activation, *Letter to Nature*, (Kaech, S, Covic, L, Wyss, A and Ballmer-Hofer, K) **350,** 431
Viral proteases. Viral proteases: Molecular metamorphosis, *News and views*, (Ringe, D and Petsko, G A) **354,** 22
Viral replication. HIV: Tampering with transcription, *News and views*, (Nabel, G J) **350,** 658
Viral RNA. A pseudoknot-like structure required for efficient self-cleavage of hepatitis delta virus RNA, *Letter to Nature*, (Perrotta, A T and Been, M D) **350,** 434
Virology. A pseudoknot-like structure required for efficient self-cleavage of hepatitis delta virus RNA, *Letter to Nature*, (Perrotta, A T and Been, M D) **350,** 434
A Tyr/Ser protein phosphatase encoded by vaccinia virus, *Letter to Nature*, (Guan, K, Broyles, S S and Dixon, J E) **350,** 359
Acquisition of the human adeno-associated virus type-2 *rep* gene by human herpesvirus type-6, *Letter to Nature*, (Thomson, B J, Efstathiou, S and Honess, R W) **351,** 78
Activation of Epstein-Barr virus latent genes protects human B cells from death by apoptosis, *Letter to Nature*, (Gregory, C D, Dive, C, Henderson, S, Smith, C A, Williams, G T, Gordon, J and Rickinson, A B) **349,** 612
Adenovirus E1a prevents the retinoblastoma gene product from complexing with a cellular transcription factor, *Letter to Nature*, (Bandara, L R and La Thangue, N B) **351,** 494
AIDS: Of mice, monkeys and men, *News and views*, (Groopman, J E) **349,** 568
Anti-HIV drug mechanism, *Scientific correspondence*, (Jones, I M and Jacob, G S) **352,** 198
Contaminated origin of AIDS virus, *News and views*, (Culliton, B J) **351,** 267
Coronavirus motif, *Scientific correspondence*, (Britton, P) **353,** 394
Discrepancies in AIDS virus data, *Scientific correspondence*, (Chermann, J-C, Donker, G, Yahi, N, Salaun, D, Guettari, N, Gayet, O and Hirsh, I) **351,** 277
Gallo's virus sequence, *Scientific correspondence*, (Reitz Jr, M S, Streicher, H Z and Gallo, R C) **351,** 358
Gallo's virus sequence . . . and his response, *Scientific correspondence*, (Gallo, R C) **351,** 358
HIV infectivity, *Scientific correspondence*, (McKeating, J A and Moore, J P) **349,** 660
HIV: Games that viruses play, *News and views*, (Linkernagel, R M and Hengartner, H) **354,** 433
HIV: Tampering with transcription, *News and views*, (Nabel, G J) **350,** 658
Human immunodeficiency virus genetic variation that can escape cytotoxic T cell recognition, *Article*, (Phillips, R E, Rowland-Jones, S, Nixon, D F, Gotch, F M, Edwards, J P, Ogunlesi, A O, Elvin, J G, Rothbard, J A, Bangham, C R M, Rizza, C R and McMichael, A J) **354,** 453
Lethargic viruses, *News and views*, **350,** 273
Maternal transfer of HCV, *Scientific correspondence*, (Inoue, Y, Miyamura, T, Unayama, T, Takahashi, K and Saito, I) **353,** 609
Mucosal transmission of HIV, *Scientific correspondence*, (Lehner, T, Hussain, L, Wilson, J and Chapman, M) **353,** 709
Neurovirulence factor, *Scientific correspondence*, (McGeoch, D J and Barnett, B C) **353,** 609
New twist in the long saga of HIV, *News and views*, (Culliton, B J) **349,** 735
Origin of AIDS, *Correspondence*, (McFadden, J) **350,** 104
Origin of AIDS, *Correspondence*, (Lecatsas, G) **351,** 179
Processing of the precursor of NF-κB by the HIV-1 protease during acute infection, *Letter to Nature*, (Rivière, Y, Blank, V, Kourilsky, P and Israël, A) **350,** 625
Rabies: Immunization in the field, *News and views*, (Anderson, R M) **354,** 502
Risks of handling HIV, *Scientific correspondence*, (Letvin, N L, Lord, C I, King, N W, Wyand, M S, Myrick, K V and Haseltine, W A) **349,** 573
Seminars in virology, *journal review by* Weiss, R A., **353,** 466
Sequence analysis of original HIV-1, *Scientific correspondence*, (Guo, H-G, Chermann, J-C, Waters, D, Hall, L, Louie, A, Gallo, R C, Streicher, H, Reitz, M S, Popovic, M and Blattner, W) **349,** 745
Structure of Sindbis virus core protein reveals a chymotrypsin-like serine proteinase and the organization of the virion, *Article*, (Choi, H-K, Tong, L, Minor, W, Dumas, P, Boege, U, Rossmann, M G and Wengler, G) **354,** 37
Virology: Architecture with a difference, *News and views*, (Filman, D J and Hogle, J M) **351,** 100
Where next for canine virus?, *Scientific correspondence*, (Appel, M J G) **353,** 508
Virtual reality. Virtual reality, (Rheingold, H) *book review by* Anderson, C. **354,** 366
Virus structures. Structure of sindbis virus 40 at 3.8-Å resolution, *Article*, (Liddington, R C, Yan, Y, Moulai, J, Sahli, R, Benjamin, T L and Harrison, S C) **354,** 278
Viruses, removal from protein solutions. Validatable virus removal from protein solutions, *Product Review*, (DiLeo, A J and Allegrezza Jr, A E) **351,** 420
Vision, depth. Depth is encoded in the visual cortex by a specialized receptive field structure, *Letter to Nature*, (DeAngelis, G C, Ohzawa, I and Freeman, R D) **352,** 156
Vision. Double cones as a basis for a new type of polarization vision in vertebrates, *Letter to Nature*, (Cameron, D A and Pugh Jr, E N) **353,** 161
Grand spectacles, *Correspondence*, (Max, N) **353,** 294
Images at the blind spot, *Scientific correspondence*, (Andrews, P R and Campbell, F W) **353,** 308
Relation of an array of early-differentiating cones to the photoreceptor mosaic in the primate retina, *Letter to Nature*, (Wikler, K C and Rakic, P) **351,** 397
Retinal receptors in rodents maximally sensitive to ultraviolet light, *Letter to Nature*, (Jacobs, G H, Neltz, J and Deegan II, J F) **353,** 655
The eyes have it, *News and views*, **351,** 442
Vision: Coding and efficiency, *book review by* Movshon, J A. (Blakemore, C) **351,** 24
Vision: Polarizing the world of fish, *News and views*, (Land, M F) **353,** 118
Visual neuroscience: Misaligned viewpoints, *News and views*, (Parker, A J) **352,** 109
Visual cortex. Dark-rearing delays the loss of NMDA-receptor function in kitten visual cortex, *Letter to Nature*, (Fox, K, Daw, N, Sato, H and Czepita, D) **350,** 342
Iso-orientation domains in cat visual cortex are arranged in pinwheel-like patterns, *Letter to Nature*, (Bonhoeffer, T and Grinvald, A) **353,** 429
Visual dysfunction. A three-base-pair deletion in the peripherin-*RDS* gene in one form of retinitis pigmentosa, *Letter to Nature*, (Farrar, G J, Kenna, P, Jordan, S A, Kumar-Singh, R, Humphries, M M, Sharp, E M, Sheils, D M and Humphries, P) **354,** 478
Mutations in the human retinal degeneration slow gene in autosomal dominant, *Letter to Nature*, **354,** 480
Mutations in the human retinal degeneration slow gene in autosomal dominant retinitis pigmentosa, *Letter to Nature*, (Kajiwara, K, Hahn, L B, Mukai, S, Travis, G H, Berson, E L and Dryja, T P) **354,** 480
Visual perception. Apparent surface curvature affects lightness perception, *Letter to Nature*, (Knill, D C and Kersten, D) **351,** 228
Conscious or unconscious?, *Scientific correspondence*, (Libet, B) **351,** 194
Left neglect for near but not far space in man, *Letter to Nature*, (Halligan, P W and Marshall, J C) **350,** 498
Neurobiology: Temporal associations, *News and views*, (Stryker, M P) **354,** 108
Perceiving depth, *Scientific correspondence*, (Lazarides, M) **351,** 106
Perceptual filling in of artificially induced scotomas in human vision, *Letter to Nature*, (Rarmachandran, V S and Gregory, R L) **350,** 699
The semantics of plane-mirror inversion, *News and views*, (Maddox, J) **353,** 791
Visual transduction. A *Drosophila* mutant defective in extracellular calcium-dependent photoreceptor deactivation and rapid desensitization, *Letter to Nature*, (Ranganathan, R, Harris, G L, Stevens, C F and Zuker, C S) **354,** 230
Vitamin C, cancer. Vitamin C and cancer: Medicine or politics, *book review by* Galloway, J., (Richards, E) **353,** 125
Vitamin K. The working of vitamin K, *News and views*, (Maddox, J) **353,** 695
Vitamins, and intelligence. Vitamins and intelligence tests, *Correspondence*, (Pauling, L) **353,** 103
Vitamins, and IQ. A dose of vitamins and a pinch of salt, *News and views*, (Blinkhorn, S) **350,** 13
Publication ethics: IQ data controversy, *News*, (Aldhous, P) **350,** 5
Vitamin quotient, *Opinion*, **350,** 2
Vitamins and IQ, *Correspondence*, (Jukes, T H) **350,** 550
Vitamins, intelligence. Diet and IQ, *Scientific correspondence*, (Schoenthaler, S) **352,** 292
IQ and vitamin supplements, *Correspondence*, (Eysenck, H J) **351,** 263
Vivisection. Animal rights, *Correspondence*, (Wolpert, D) **352,** 466
Volatiles, magmas. Water diffusion in a basaltic melt, *Letter to Nature*, (Zhang, Y and Stolper, E M) **351,** 306
Volcanic ash. Charge measurements on particle fallout from a volcanic plume, *Letter to Nature*, (Gilbert, J S, Lane, S J, Sparks, R S J and Koyaguchi, T) **349,** 598
Hazard from volcanic ash, *Scientific correspondence*, (Prata, A J, Barton, I J, Johnson, R W, Kamo, K and Kingwell, J) **354,** 25
Long-range transport of volcanic ash to the Greenland ice sheet, *Letter to Nature*, (Ram, M and Gayley, R I) **349,** 401
Volcanic emissions. Anhydrite-bearing pumices from Mount Pinatubo: further evidence for the existence of sulphur-rich silicic magmas, *Letter to Nature*, (Bernard, A, Demaiffe, D, Mattielli, N and Punongbayan, R S) **354,** 139
Eruptive and diffuse emissions of CO_2 from Mount Etna, *Letter to Nature*, (Allard, P, Carbonnelle, J, Dajlevic, D, Le Bronec, J, Morel, P, Robe, M C, Maurenas, J M, Faivre-Pierret, R, Martin, D, Sabroux, J C and Zettwoog, P) **351,** 387
Gas sample correction, *Scientific correspondence*, (Marty, B) **354,** 194
Mount Pinatubo: Volcanic shade causes cooling, *News and views*, (Luhr, J F) **354,** 104
Volcanic eruptions, Japan. Japan: Eruptions no secret, *News*, (Anderson, C) **351,** 511
Japan: Volcano prediction problems, *News*, (Swinbanks, D) **351,** 511
Unzen volcano: Anatomy of an eruption, *News and views*, (Ida, Y) **352,** 571
Volcanic eruptions, Unzen. In the volcano's shadow, *Commentary*, (Shimozuru, D) **353,** 295
Under the volcano, *Scientific correspondence*, (Fiske, R S) **353,** 307
Under the volcano, *Scientific correspondence*, (Peterson, D W) **353,** 307
Under the volcano: Reply, *Scientific correspondence*, (Swinbanks, D) **353,** 307
Volcanic gases, phosphates. Volcanic production of polyphosphates and its relevance to prebiotic evolution, *Letter to Nature*, (Yamagata, Y, Watanabe, H, Saitoh, M and Namba, T) **352,** 516
Volcanic glasses. Picritic glasses from Hawaii, *Letter to Nature*, (Clague, D A, Weber, W S and Dixon, J E) **353,** 553
Volcanism, Andes. Andean magma: Peeled or MASHed?, *News and views*, (Hickey-Vargas, R) **350,** 381
Volcanism, Hawaii. Snap, crackle and pop, *News and views*, **352,** 666
Volcanoes, Japan. Earth sciences: Scientists watching Japanese volcano, *News*, (Swinbanks, D) **351,** 432
In the volcano's shadow, *Commentary*, (Shimozuru, D) **353,** 295
Japan: Help from an unusual source, *News*, (Swinbanks, D) **353,** 202
Under the volcano, *Scientific correspondence*, (Fiske, R S) **353,** 307
Under the volcano, *Scientific correspondence*, (Peterson, D W) **353,** 307
Under the volcano: Reply, *Scientific correspondence*, (Swinbanks, D) **353,** 307
Volcanology, Hawaii. Picritic glasses from Hawaii, *Letter to Nature*, (Clague, D A, Weber, W S and Dixon, J E) **353,** 553
Volcanology, Soviet Union. Soviet science: Hunger strike at volcanology institute, *News*, (Anderson, C) **354,** 3
Volcanology. Anhydrite-bearing pumices from Mount Pinatubo: further evidence for the existence of sulphur-rich silicic magmas, *Letter to Nature*, (Bernard, A, Demaiffe, D, Mattielli, N and Punongbayan, R S) **354,** 139
Charge measurements on particle fallout from a volcanic plume, *Letter to Nature*, (Gilbert, J S, Lane, S J, Sparks, R S J and Koyaguchi, T) **349,** 598
Deep structure of the northeastern Japan arc and its relationship to seismic and volcanic activity, *Article*, (Hasegawa, A, Zhao, D, Hori, S, Yamamoto, A and Horiuchi, S) **352,** 683
Dimensions and dynamics of co-ignimbrite eruption columns, *Letter to Nature*, (Woods, A W and Wohletz, K) **350,** 225
Eruptive and diffuse emissions of CO_2 from Mount Etna, *Letter to Nature*, (Allard, P, Carbonnelle, J, Dajlevic, D, Le Bronec, J, Morel, P, Robe, M C, Maurenas, J M, Faivre-Pierret, R, Martin, D, Sabroux, J C and Zettwoog, P) **351,** 387
Evidence for volcanic eruption on the southern Juan de Fuca ridge between 1981 and 1987, *Letter to Nature*, (Chadwick, W W, Embley, R W and Fox, C G) **350,** 416
Gas hazard on Vulcano Island, *Scientific correspondence*, (Badalamenti, B, Gurrieri, S, Nuccio, P M and Velenza, M) **350,** 26
Gas hazard on Vulcano Island: Reply, *Scientific correspondence*, (Baubron, J C, Allard, P and Toutain, J-P) **350,** 27
Gold fever, *News and views*, **353,** 118
Hotspots: Bermuda stretches a point, *News and views*, (Richardson, R M) **350,** 655
In the volcano's shadow, *Commentary*, (Shimozuru, D) **353,** 295
Prospects for eruption prediction in near real-time, *Letter to Nature*, (Voight, B and Cornelius, R R) **350,** 695
Snap, crackle and pop, *News and views*, **352,** 666
Under the volcano, *Scientific correspondence*, (Peterson, D W) **353,** 307
Unzen volcano: Anatomy of an eruption, *News and views*, (Ida, Y) **352,** 571
Volcano warning needed, *Scientific correspondence*, (Fink, J) **351,** 611
Volcanology: Etna's greenhouse pump, *News and views*, (Gerlach, T) **351,** 352
Volcanology: Volcanoes' volatile behaviour, *News and views*, (Fink, J) **352,** 188
Voltage sensors. Ca^{2+} channels or voltage sensors?, *Scientific correspondence*, (Lamb, G D) **352,** 113
von Baer, Karl Ernst. Baer facts, *Correspondence*, (Kaavere, V) **353,** 104
Von Neumann, John. John von Neumann and the origins of modern computing, *book review by* Tweedale, G. (Aspray, W) **349,** 662
Voronoi tesselation. Voronoi cosmology, *Scientific correspondence*, (Coles, P) **349,** 288
Vortex rings. Fluid dynamics: Forging the missing link, *News and views*, (Jones, J D S) **354,** 21
Linking of vortex rings, *Letter to Nature*, (Aref, H and

Zawadzki, I) **354,** 50

Vorticity. Fluid dynamics: Forging the missing link, *News and views,* (Jones, J D S) **354,** 21

Linking of vortex rings, *Letter to Nature,* (Aref, H and Zawadzki, I) **354,** 50

Voyager missions. Uranus the planet, rings and satellites, *book review by* Borderies, N. (Miner, E D) **349,** 204

Wallace, Alfred Russel. Alfred Russel Wallace: An anthology of his shorter writings, *book review by* Bynum, W F., (Wallace, A R) **353,** 223

War, nuclear. The nuclear lion: What every citizen should know about nuclear power and nuclear war, *book review by* Cottrell, A., (Jagger, J) **353,** 222

Wars. Rhythms of war, *Scientific correspondence,* (Bennett, R) **353,** 310

Washington, telephone system. Washington 'busy', *Opinion,* **352,** 2

Wasps. The social biology of wasps, *book review by* Seger, J., (Ross, K G and Matthews, R W *editors*) **353,** 804

Water resources, climate change. Does climate still matter?, *Commentary,* (Ausubel, J H) **350,** 649

Water resources, pollution. The limits of law: The public regulation of private pollution, *book review by* Ashby, E. (Yeager, P C) **351,** 23

Water resources, US. Californian drought: Water shortage pits man against nature, *News,* (Schaefer, E) **350,** 180

Water vapour, atmospheric. Climate change: Is water vapour understood?, *News and views,* (Jones, R L and Mitchell, J F B) **353,** 210

Greenhouse warming: Positive about water feedback, *News and views,* (Cess, R D) **349,** 462

No limit to global warming?, *Scientific correspondence,* (Mitchell, J F B) **353,** 219

Positive water vapour feedback in climate models confirmed by satellite data, *Letter to Nature,* (Rind, D, Chiou, E-W, Chu, W, Larsen, J, Oltmans, S, Lerner, J, McCormick, M P and McMaster, L) **349,** 500

Sensitivity of the Earth's climate to height-dependent changes in the water vapour mixing ratio, *Letter to Nature,* (Shine, K P and Sinha, A) **354,** 382

Simulations of the effect of a warmer climate on atmospheric humidity, *Letter to Nature,* (Del Genio, A D, Lacis, A A and Ruedy, R A) **351,** 382

Sun and water in the greenhouse, *Scientific correspondence,* (Gilliland, R !, Jastrow, R and Parker, E) **349,** 467

Sun and water in the greenhouse, *Scientific correspondence,* (Lindzen, R S) **349,** 467

Sun and water in the greenhouse: Reply, *Scientific correspondence,* (Hansen, J E and Lacis, A A) **349,** 467

Thermodynamic regulation of ocean warming by cirrus clouds deduced from observations of the 1987 El Niño, *Article,* (Ramanathan, V and Collins, W) **351,** 27

Wintertime asymmetry of upper tropospheric water between the Northern and Southern Hemispheres, *Letter to Nature,* (Kelly, K K, Tuck, A F and Davies, T) **353,** 244

Water vapour, greenhouse effect. Climate feedbacks: Limit to greenhouse warming?, *News and views,* (Heymsfield, A J and Miloshevich, L M) **351,** 14

Water, mobility. Effect of defects on molecular mobility in liquid water, *Letter to Nature,* (Sciortino, F, Geiger, A and Stanley, H E) **354,** 218

Water goes with the flow, *News and views,* (Ball, P) **354,** 188

Water, on Mars. Early outgassing of Mars supported by differential water solubility of iodine and xenon, *Letter to Nature,* (Musselwhite, D S, Drake, M J and Swindle, T D) **352,** 697

Watson-Crick pairing. Base-pairing shift in the major groove of (CA)5InT tracts by B-DNA crystal structures, *Letter to Nature,* (Timsit, Y, Vilbois, E and Moras, D) **354,** 167

Wave breaking. Air entrainment and dissipation in breaking waves, *Letter to Nature,* (Lamarre, E and Melville, W K) **351,** 469

Waves, power. Waves rediscovered, *News,* (Anderson, C) **352,** 271

Weak force. No nothing, *News and views,* **352,** 760

Weak links, superconductivity. Absence of weak-link behaviour in $YBa_2Cu_3O_7$ grains connected by 90 [010] twist boundaries, *Letter to Nature,* (Eom, C B, Marshall, A F, Suzuki, Y, Boyer, B, Pease, R F W and Geballe, T H) **353,** 544

Weapons, Iran. Weapons trade: Japan embarrassed by weapons sale to Iran, *News,* (Swinbanks, D) **352,** 96

Weapons, Japan. Weapons trade: Japan embarrassed by weapons sale to Iran, *News,* (Swinbanks, D) **352,** 96

Weather satellites, US. Satellite lent to US, *News,* (Anderson, C) **353,** 199

Weather satellites. NOAA: Weather satellite woes, *News,* (Aldhous, P) **352,** 97

Weather satellites: NASA rebuked for GOES-NEXT, *News,* (Aldhous, P) **352,** 362

Weathering. Global extinction: Acid rain at the K/T boundary, *News and views,* (Palmer, M) **352,** 758

Weddell Sea. Ocean circulation beneath the Ronne ice shelf, *Letter to Nature,* (Nicholls, K W, Makinson, K and Robinson, A V) **354,** 221

Weights and measures. Weighty argument, *Correspondence,* (Krishtalka, L.) **349,** 98

Weisskopf, Victor. The joy of insight: Passions of a physicist, *book review by* Press, W H. (Weisskopf, V) **350,** 665

Wellcome Trust. Research foundations: First woman director for Wellcome, *News,* **349,** 187

Wetlands, methane emissions. Ice-age methane variations, *Scientific correspondence,* (Crowley, T J) **353,** 122

Wetlands. Wetlands: A threatened landscape, (Williams, M *editor*) *book review by* Pursegiove, J. **354,** 117

Wetting. Fashioning wet-look latex, *News and views,* (Ball, P) **350,** 112

Latex elastomer with a permanently hydrophilic surface, *Letter to Nature,* (Noda, I) **350,** 143

Relaxation modes of the contact line of a liquid spreading on a surface, *Letter to Nature,* (Ondarçuhu, T and Veyssié, M) **352,** 418

Surface physics: A vanishing interface, *News and views,* (Ball, P) **353,** 213

Whale bones. Dispersal via whale bones, *Scientific correspondence,* (Martill, D M, Cruickshank, A R I and Taylor, M A) **351,** 193

Whale carcasses. Whale carcasses, *Scientific correspondence,* (Squires, R L, Goedert, J L and Barnes, L G) **349,** 574

Whales, mass strandings. Whales and the military, *Scientific correspondence,* (Simmonds, M P and Lopez-Jurado, L F) **351,** 448

Whales. Conservation of polymorphic simple sequence loci in cetacean species, *Letter to Nature,* (Schlötterer, C, Amos, B and Tautz, D) **354,** 63

Smart whale, *Correspondence,* (Herring, P J) **353,** 294

Zoology: A whale of a new species, *News and views,* (Ralls, K and Brownell Jr, R L) **350,** 560

Whaling. International Whaling Commision: Whaling ban versus science, *News,* (Aldhous, P and Swinbanks, D) **351,** 259

International Whaling Commission: Iceland sharpens its harpoons, *News,* (Aldhous, P) **351,** 430

International Whaling Commission: Greens in disarray after committing a tactical blunder, *News,* (Aldhous, P) **351,** 430

Whewell, William. William Whewell: A composite portrait, *book review by* Knight, D. (Fisch, M and Schaffer, S) **350,** 533

White dwarfs. The origin of the planet orbiting PSR1829-10, *Letter to Nature,* (Podsiadlowski, Ph, Pringle, J E and Rees, M J) **352,** 783

White smokers. Hydrothermal activity and metallogenesis in the Lau back-arc basin, *Letter to Nature,* (Fouquet, Y, Von Stackelberg, U, Charlou, J L, Donval, J P, Erzinger, J, Foucher, J P, Herzig, P, Mühe, R, Soakai, S, Wiedicke, M and Whitechurch, H) **349,** 778

Wigglers, superconductors. Do it yourself, *News and views,* **352,** 285

Wild parsnip. Seeing the fruits of deception, *News and views,* (Moore, P D) **351,** 189

Wilms' tumour. *WT1* mutations contribute to abnormal genital system development and hereditary Wilms' tumour, *Letter to Nature,* (Pelletier, J, Bruening, W, Li, F P, Haber, D A, Glaser, T and Housman, D E) **353,** 431

Wilson, Allan Charles. Obituary: Allan Charles Wilson (1934-1991), *News and views,* (Felsenstein, J) **353,** 19

Wind power. New technologies needed, *Correspondence,* (England, S B and Kammen, D B) **352,** 752

Wind turbines. Renewable energy: The windmill gets a second wind, *News,* (Anderson, C) **354,** 344

Wiskott-Aldrich syndrome. CD43, a molecule defective in Wiskott-Aldrich syndrome, binds ICAM-1, *Letter to Nature,* (Rosenstein, Y, Park, J K, Hahn, W C, Rosen, F S, Bierer, B E and Burakoff, S J) **354,** 233

Enhancement of T-cell activation by the CD43 molecule whose expression is defective in Wiskott-Aldrich syndrome, *Letter to Nature,* (Park, J K, Rosenstein, Y J, Remold-O'Donnell, E, Bierer, B E, Rosen, F S and Burakoff, S J) **350,** 706

Wittgenstein, Ludwig. A universal Hamlet?, *Correspondence,* (Ekonaa, E) **351,** 179

A universal Hamlet?, *Correspondence,* (Rakitzis, E T) **351,** 179

Extremes of reality, *Correspondence,* (Estling, R) **352,** 100

Wittgenstein and reality, *Correspondence,* (Bird, R J) **351,** 10

Wittgenstein and reality, *Correspondence,* (Jenner, F A) **351,** 10

Wittgenstein's paranoia, *Correspondence,* (Smythies, J R) **350,** 9

Wittgenstein, *Correspondence,* (Fischer, P, Küpferle, B and Berner, P) **353,** 598

Wolfram, Stephen. Growing up with your software, *News and views,* (Maddox, J) **351,** 437

Women in science. The outer cycle: Women in the scientific community, (Zuckerman, H, Cole, J R and Bruer, J T *editors*) *book review by* Galloway, J W. **354,** 336

Women's health, US. NIH push for women's health, *News and views,* (Culliton, B J) **353,** 383

Women, health. Medical research: Boost for women's health, *News,* (Aldhous, P) **352,** 180

Women, in science. Man's inhumanity, *Correspondence,* (Hogan, B) **349,** 558

The invisible-obstacle race, *Commentary,* (Mason, J) **353,** 205

The scientific lady: A social history of women's scientific interests,1520-1918, *book review by* Brone, J. (Phillips, P) **350,** 529

Walking with the great apes, *book review by* Jolly, A. (Montgomery, S) **350,** 534

World Ocean Circulation Experiment. Oceanography: Europe in the vanguard?, *News,* (Aldhous, P) **350,** 643

Research in Antarctica: Climate research: Filling in missing pieces, *News,* (Dickman, S) **350,** 308

World War II. A long view of history, *Correspondence,* (Theodore, W H) **349,** 734

Wurtz synthesis. Air-stable alkali-metal colloids and the blue colour in Wurtz syntheses, *Letter to Nature,* (Benfield, R E, Cragg, R H, Jones, R G and Swain, A C) **353,** 340

X chromosome. Protection from X inactivation, *Scientific correspondence,* (Crow, T J) **353,** 710

X-chromosome inactivation. A gene from the region of the human X inactivation centre is expressed exclusively from the inactive X chromosome, *Article,* (Brown, C J, Ballabio, A, Rupert, J L, Lafreniere, R G, Grompe, M, Tonlorenzi, R and Willard, H F) **349,** 38

Characterization of a murine gene expressed from the inactive X chromosome, *Letter to Nature,* (Borsani, G, Tonlorenzi, R, Simmler, M C, Dandalo, L, Arnaud, D, Capra, V, Grompe, M, Pizzuti, A, Muzny, D, Lawrence, C, Willard, H F, Avner, P and Ballabio, A) **351,** 325

Conservation of position and exclusive expression of mouse *Xist* from the inactive X chromosome, *Letter to Nature,* (Brockdorff, N, Ashworth, A, Kay, G F, Cooper, P, Smith, S, McCabe, V M, Norris, D P, Penny, G D, Patel, D and Rastan, S) **351,** 329

Localization of the X inactivation centre on the human X chromosome in Xq13, *Letter to Nature,* (Brown, C J, Lafreniere, R G, Powers, V E, Sebastio, G, Ballabio, A, Pettigrew, A L, Ledbetter, D H, Levy, E, Craig, I W and Willard, H F) **349,** 82

X-chromosome inactivation may explain the difference in viability of XO humans and mice, *Letter to Nature,* (Ashworth, A, Rastan, S, Lovell-Badge, R and Kay, G) **351,** 406

X-linked disease. Androgen receptor gene mutations in X-linked spinal and bulbar muscular atrophy, *Letter to Nature,* (La Spada, A R, Wilson, E M, Lubahn, D B, Harding, A E and Fischbeck, K H) **352,** 77

X-ray absorption spectroscopy. Electronic states and phases of K_xC_{60} from photoemission and X-ray absorption spectroscopy, *Letter to Nature,* (Chen, C T, Tjeng, L H, Rudolf, P, Meigs, G, Rowe, J E, Chen, J, McCauley Jr, J P, Smith III, A B, McGhie, A R, Romanow, W J and Plummer, E W) **352,** 603

Tracing the conversion of aurichalcite to a copper catalyst by combined X-ray absorption and diffraction, *Letter to Nature,* (Couves, J W, Thomas, J M, Waller, D, Jones, R H, Dent, A J, Derbeyshire, G E and Greaves, G N) **354,** 465

X-ray astronomy. A γ-ray burst preceded by X-ray activity, *Letter to Nature,* (Murakami, T, Inoue, H, Nishimura, J, van Paradijs, J, Fenimore, E E, Ulmer, A and Yoshida, A) **350,** 592

A hot gas model for iron-line X-ray emission from the rapidly varying Seyfert galaxy NGC6814, *Letter to Nature,* (Hayakawa, S) **351,** 214

A rapid energetic X-ray flare in the quasar PKS0558-504, *Letter to Nature,* (Remillard, R A, Grossan, B, Bradt, H V, Ohashi, T, Hayashida, K, Makino, F and Tanaka, Y) **350,** 589

A soft X-ray image of the Moon, *Article,* (Schmitt, J H M M, Snowden, S L, Aschenbach, B, Hasinger, G, Pfeffermann, E, Predehl, P and Trümper, J) **349,** 583

Astronomy: X-rays from γ-ray bursts, *News and views,* (Dermer, C D) **350,** 559

Evidence for a black hole in the X-ray nova Muscae 1991, *Letter to Nature,* (Della Valle, M, Jarvis, B J and West, R M) **353,** 50

Evidence that the compact object in SS433 is a neutron star and not a black hole, *Letter to Nature,* (D'Odorico, S, Oosterloo, T, Zwitter, T and Calvani, M) **353,** 329

High-energy background radiation from quiescent γ-ray burst sources, *Letter to Nature,* (van Paradijs, J) **353,** 730

Hole story, *News and views,* **354,** 266

Iron distribution in the intracluster gas of the Virgo cluster of galaxies, *Letter to Nature,* (Koyama, K, Takano, S and Tawara, Y) **350,** 135

Is the Galactic Centre gamma-ray source 1E1740.7-2942 accreting from a molecular cloud?, *Letter to Nature,* (Bally, J and Leventhal, M) **353,** 234

Milky Way galaxy: annihilation near the centre, *News and views,* (Ramaty, R and Lingenfelter, R E) **353,** 215

ROSAT: How to rescue a satellite, *News,* (Gee, H) **349,** 445

Soft X-ray shadowing by the Draco cloud, *Letter to Nature,* (Burrows, D N and Mendenhall, J A) **351,** 629

The origin of the cosmic X-ray background, *Article,* (Shanks, T, Georgantopoulos, I, Stewart, G C, Pounds, K A, Boyle, B J and Griffiths, R E) **353,** 315

X-ray astronomy: ROSAT's return, *News,* (Gee, H) **349,** 555

X-ray astronomy: Draco's silver lining, *News and views,* (Kahn, S M) **351,** 607

X-ray survey of the Large Magellanic Cloud by ROSAT, *Article,* (Trümper, J, Hasinger, G, Aschenbach, B, Bräuninger, H, Briel, U G, Burkert, W, Fink, H, Pfeffermann, E, Pietsch, W, Predehl, P, Schmitt, J H M M, Voges, W, Zimmermann, U and Beuermann, K) **349,** 579

X-ray background radiation. High-energy background radiation from quiescent γ-ray burst sources, *Letter to Nature,* (van Paradijs, J) **353,** 730

X-ray background. Soft X-ray shadowing by the Draco cloud, *Letter to Nature,* (Burrows, D N and Mendenhall, J A) **351,** 629

The physical state of the intergalactic medium, *Letter to*

Nature, (Barcons, X, Fabian, A C and Rees, M J) **350,** 685
X-ray astronomy: Draco's silver lining. *News and views*, (Kahn, S M) **351,** 607
X-ray binaries. Binary precursor for planet?. *Scientific correspondence*, (Fabian, A C and Podsiadlowski, Ph) **353,** 801
X-ray binary systems. A post-core-collapse model for the nucleus of M33. *Letter to Nature*, (Hernquist, L, Hut, P and Kormendy, J) **354,** 376
X-ray bursts. Astronomy: Starquakes and γ-ray bursts. *News and views*, (Joss, P C) **349,** 103
X-ray crystallography, buckminsterfullerene. Structure and bonding in alkali-metal-doped C_{60}. (Zhou, O, Fischer, J E, Coustel, N, Kycia, S, Zhu, Q, McGhie, A R, Romanow, W J, McCauley, J P, Smith, A B and Cox, D E) **351,** 462
X-ray crystallography. Pressure-induced amorphization and disordering on cooling in a crystalline polymer. *Letter to Nature*, (Rastogi, S, Newman, M and Keller, A) **353,** 55
Structure of human cyclophilin and its binding site for cyclosporin A determined by X-ray crystallography and NMR spectroscopy. *Letter to Nature*, (Kallen, J, Spitzfaden, C, Zurini, M G M, Wider, G, Widmer, H, Wüthrich, K and Walkinshaw, M D) **353,** 276
The structure of HLA-B27 reveals nonamer self-peptides bound in an extended conformation. *Article*, (Madden, D R, Gorga, J C, Strominger, J L and Wiley, D C) **353,** 321
X-ray diffraction. Tracing the conversion of aurichalcite to a copper catalyst by combined X-ray absorption and diffraction. *Letter to Nature*, (Couves, J W, Thomas, J M, Waller, D, Jones, R H, Dent, A J, Derbeyshire, G E and Greaves, G N) **354,** 465
X-ray lenses. No X-ray lens. *Scientific correspondence*, (Michette, A G) **353,** 510
X-ray novae. Evidence for a black hole in the X-ray nova Muscae 1991. *Letter to Nature*, (Della Valle, M, Jarvis, B J and West, R M) **353,** 50
X-ray satellite, Japan. Solar astronomy: Japanese set to X-ray Sun. *News*, (Swinbanks, D) **352,** 96
X-ray scattering, lenses. Refractive lens for X-ray focus. *Scientific correspondence*, (Suehiro, S, Miyaji, H and Hayashi, H) **352,** 385
X-ray scattering. Observation of speckle by diffraction with coherent X-rays. *Letter to Nature*, (Sutton, M, Mochrie, S G J, Greytak, T, Nagler, S E, Berman, L E, Held, G A and Stephenson, G B) **352,** 608
X-ray sources. Bright ideas. **349,** 192
Constraints on r-process nucleosynthesis in accretion disks. *Letter to Nature*, (Jin, L) **350,** 403
X-ray standing waves. Structural studies of membranes and surface layers up to 1,000 Å thick using X-ray standing waves. *Letter to Nature*, (Wang, J, Bedzyk, M J, Penner, T L and Caffrey, M) **354,** 377
X-ray synchrotron sources. Refractive lens for X-ray focus. *Scientific correspondence*, (Suehiro, S, Miyaji, H and Hayashi, H) **352,** 385
Tracing the conversion of aurichalcite to a copper catalyst by combined X-ray absorption and diffraction. *Letter to Nature*, (Couves, J W, Thomas, J M, Waller, D, Jones, R H, Dent, A J, Derbeyshire, G E and Greaves, G N) **354,** 465
X-ray telescopes. 'Sunlight' sees Sun in a different light. *News*, **353,** 486
Xenon isotopes, Mars. Early outgassing of Mars supported by differential water solubility of iodine and xenon. *Letter to Nature*, (Musselwhite, D S, Drake, M J and Swindle, T D) **352,** 697
Xenopus eggs, cell cycle. Independent inactivation of MPF and cytostatic factor (Mos) upon fertilization of *Xenopus* eggs. *Letter to Nature*, (Watanabe, N, Hunt, T, Ikawa, Y and Sagata, N) **352,** 247
Xeroderma pigmentosum. DNA repair: Seven genes for three diseases. *News and views*, (Wood, R D) **350,** 190
XO mice. Prenatal selection in XO mice. *Scientific correspondence*, (Burgoyne, P S) **353,** 709
Prenatal selection in XO mice: Reply. *Scientific correspondence*, (Rastan, S) **353,** 709
Y chromosome. A candidate spermatogenesis gene on the mouse Y chromosome is homologous to ubiquitin-activating enzyme E1. *Letter to Nature*, (Kay, G F, Ashworth, A, Penny, G D, Dunlop, M, Swift, S, Brockdorff, N and Rastan, S) **354,** 486
Homology of a candidate spermatogenic gene from the mouse Y chromosome to the ubiquitin-activating enzyme E1. *Letter to Nature*, (Mitchell, M J, Woods, D R, Tucker, P K, Opp, J S and Bishop, C E) **354,** 483
Male development of chromosomally female mice transgenic for *Sry*. *Article*, (Koopman, P, Gubbay, J, Vivian, N, Goodfellow, P and Lovell-Badge, R) **351,** 117
Protection from X inactivation. *Scientific correspondence*, (Crow, T J) **353,** 710
Sex determination: The making of male mice. *News and views*, (McLaren, A) **351,** 96
Yanomami, AIDS. Brazil: AIDS in Yanomami?. *News*, (Bonalume, R) **352,** 272
Yeast genetics. A dynamin-like protein encoded by the yeast sporulation gene *SPO15*. *Letter to Nature*, (Yeh, E, Driscoll, R, Coltrera, M, Olins, A and Bloom, K) **349,** 713
A homologue of the bacterial heat-shock gene *DnaJ* that alters protein sorting in yeast. *Letter to Nature*, (Blumberg, H and Silver, P A) **349,** 627
A suppressor of yeast splicing mutation. *Letter to Nature*, (Jamieson, D J, Rahe, B, Pringle, J and Beggs, J D) **349,** 715
Assembly of yeast Sec proteins involved in translocation into the endoplasmic reticulum into a membrane-bound multisubunit complex. *Letter to Nature*, (Deshaies, R J, Sanders, S L, Feldheim, D A and Schekman, R) **349,** 806
Catalysis of guanine nucleotide exchange on the CDC42Hs protein by the *dbl* oncogene product. *Letter to Nature*, (Hart, M J, Eva, A, Evans, T, Aaronson, S A and Cerione, R A) **354,** 311
Chitin and nodulation. *Scientific correspondence*, (Bulawa, C E and Wasco, W) **353,** 710
Cloning and expression of the essential gene for poly(A) polymerase from *S. cerevisiae* (Lingner, J, Kellermann, J and Keller, W) **354,** 496
Coordination of expression of DNA synthesis genes in budding yeast by a cell-cycle regulated *trans* factor. *Letter to Nature*, (Lowndes, N F, Johnson, A L and Johnston, L H) **350,** 247
Dephosphorylation and activation of a $p34^{cdc2}$/cyclin B complex *in vitro* by human CDC25 protein. *Letter to Nature*, (Strausfeld, U, Labbé, J C, Fesquet, D, Cavadore, J C, Picard, A, Sadhu, K, Russell, P and Doréé, M) **351,** 242
Fission yeast $p107^{mcs1}$ mitotic inhibitor is a tyrosine/serine kinase. *Letter to Nature*, (Featherstone, C and Russell, P) **349,** 808
Generating yeast transcriptional activators containing no yeast protein sequences. *Letter to Nature*, (Ruden, D M, Ma, J, Li, Y, Wood, K and Ptashne, M) **350,** 250
Hsp104 is a highly conserved protein with two essential nucleotide-binding sites. *Letter to Nature*, (Parsell, D A, Sanchez, Y, Stitzel, J D and Lindquist, S) **353,** 270
Identification of a G1-type cyclin *puc1*$^+$ in the fission yeast *Schizosaccharomyces pombe*. *Letter to Nature*, (Forsburg, S L and Nurse, P) **351,** 245
Molecular biology: Signal recognition revisited. *News and views*, (Munro, S) **354,** 437
Regulated import and degradation of a cytosolic protein in the yeast vacuole. *Article*, (Chiang, H-L and Schekman, R) **350,** 313
Requirement of yeast fimbrin for actin organization and morphogenesis *in vivo* (Adams, A E M, Botstein, D and Drubin, D G) **354,** 404
Yeast released. *News and views*, **354,** 191
Yellow fever. The history of yellow fever: An essay on the birth of tropical medicine. (Delaporte, F) *book review by* Goodwin, L. **354,** 335
Younger Dryas. A 13,000-year climate record from western Tibet. *Letter to Nature*, (Gasse, F, Arnold, M, Fontes, J C, Fort, M, Gilbert, E, Huc, A, Bingyan, L, Yuanfang, L, Qing, L, Mélières, F, Van Campo, E, Fubao, W and Qingsong, Z) **353,** 742
A stable-isotope tree-ring timescale of the Late Glacial/Holocene boundary. *Letter to Nature*, (Becker, B, Kromer, B and Trimborn, P) **353,** 647
Climate change: A stop-start ocean conveyer. *News and views*, (Jones, G A) **349,** 364
Global nature of the Younger Dryas cooling event inferred from oxygen isotope data from Sulu Sea cores. *Letter to Nature*, (Kudrass, H R, Erlenkeuser, H, Vollbrecht, R and Weiss, W) **349,** 406
Post-glacial sea-level rise from a coral record at Huon Peninsula, Papua New Guinea. *Letter to Nature*, (Chappell, J and Polach, H) **349,** 147
Reconstruction of Caribbean climate change over the past 10,500 years. *Letter to Nature*, (Hodell, D A, Curtis, J H, Jones, G A, Higuera-Gundy, A, Brenner, M, Binford, M W and Dorsey, K T) **352,** 790
Yugoslav crisis. Yugoslav crisis: Caught in a propaganda war. *News*, (Aldhous, P) **354,** 178
Yugoslav crisis: Academics invade Dubrovnik. *News*, (Aldhous, P) **354,** 425
Yugoslavia, civil war. A letter from Dubrovnik. *News*, (Serman, D) **354,** 8
Yugoslavia, politics. A plea from Croatia. *Correspondence*, (Vucak, I and Juretic, A) **353,** 597
Balkanization again?. *Opinion*, **350,** 176
Z^0 particle. Neutrino nudge. *News and views*, **353,** 700
Particle physics after a year of LEP. *Review article*, (Miller, D J) **349,** 379
Zebrafish development. Expression pattern of zebrafish *pax* genes suggests a role in early brain regionalization. *Letter to Nature*, (Krauss, S, Johansen, T, Korzh, V and Fjose, A) **353,** 267
Zebrafish, central nervous system. The cyclops mutation blocks specification of the floor plate of the zebrafish central nervous system. *Letter to Nature*, (Hatta, K, Kimmel, C B, Ho, R K and Walker, C) **350,** 339
ZEKE threshold photoelectron spectroscopy. ZEKE threshold photoelectron spectroscopy. *Product Review*, (Grant, E R and White, M G) **354,** 249
Zeldovich, Ya B. Basics of modern cosmology. *book review by* Peacock, J. (Dolgov, A D, Sazhin, M V and Zeldovich, Ya B) **351,** 359
Zellweger syndrome. Restoration by a 35K membrane protein of peroxisome assembly in a peroxisome-deficient mammalian cell mutant. *Letter to Nature*, (Tsukamoto, T, Miura, S and Fujiki, Y) **350,** 77
Zeolites. A synthetic gallophosphate molecular sieve with a 20-tetrahedral-atom pore opening. *Letter to Nature*, (Estermann, M, McCusker, L B, Baerlocher, C, Merrouche, A and Kessler, H) **352,** 320
Low-temperature synthesis of hydrated zinco(beryllo)-phosphate and arsenate molecular sieves. *Letter to Nature*, (Gier, T E and Stucky, G D) **349,** 508
Molecular sieves: Grand openings for cloverite. *News*, (Davis, M E) **352,** 281
Structure of the two-dimensional medium-pore high-silica zeolite NU-87. *Letter to Nature*, (Shannon, M D, Casci, J L, Cox, P A and Andrews, S J) **353,** 417
Zidovudine, patent. Patent confusion. *Correspondence*, (Jackson, M P) **350,** 550
Zidovudine. AZT patents. *Correspondence*, (Cousins, F W) **350,** 184
Potential of community-wide chemotherapy or immunotherapy to control the spread of HIV-1. *Letter to Nature*, (Anderson, R M, Gupta, S and May, R M) **350,** 356
Zinc fingers. *Drosophila genes* Posteria Sex Combs and *Suppressor two of zeste* encode proteins with homology to the murine *bmi-1* oncogene. *Letter to Nature*, (Brunk, B P, Martin, E C and Adler, P N) **353,** 351
Sequence similarity between the mammalian *bmi-1* proto-oncogene and the *Drosophila* regulatory genes *Psc* and *Su(Z)2*. *Letter to Nature*, (van Lohuizen, M, Frasch, M, Wientjens, E and Berns, A) **353,** 353
Zinc, in developing brain. Zinc and GABA in developing brain. *Scientific correspondence*, (Ben-Ari, Y and Cherubini, E) **353,** 220
Zinc-finger proteins. Early aspects of *Caenorhabditis elegans* sex determination and dosage compensation are regulated by a zinc-finger protein. *Letter to Nature*, (Nonet, M L and Meyer, B J) **351,** 65
Zoology, Java. Zoological researches in Java, and the neighbouring islands. *book review by* Diamond, J., **353,** 27
Zoology. Fitness consequences of foraging behaviour in the zebra finch. *Letter to Nature*, (Lemon, W C) **352,** 153
Lekking in the black grouse - a test of male viability. *Letter to Nature*, (Alatalo, R V, Höglund, J and Lundberg, A) **352,** 155
The concise dictionary of zoology. (Allaby, M) *book review by* Lewin, R A. **354,** 325
The Evolution of Parental Care. *book review by* Gwynne, D T. (Clutton-Brock, T H) **352,** 118
Zoology: A whale of a new species. *News and views*, (Ralls, K and Brownell Jr, R L) **350,** 560
Zoology: Marine quick-change acts. *News and views*, (Greenwood, J J D) **349,** 741
Zoos, golden lion tamarins. Diversity overrated. *Correspondence*, (Young, T P) **352,** 10
Zoos, Kuwait. Zoo exchange: Kuwaiti home-from-home. *News*, (Anderson, C) **352,** 4
Zoos, reintroduction programme. Diversity overrated. *Correspondence*, (Young, T P) **352,** 10
Zoos, UK. Crisis at London Zoo. *Correspondence*, (Hawkey, C, Sober, R, Bearder, S, Cobb, S, Tudge, C and Mitchell, G) **354,** 261
Diffuse bands in emission. *Scientific correspondence*, (Sarre, P J) **351,** 356
London Zoo: Attemps to avoid closure. *News*, (Gee, H) **350,** 453
Sad tale of an endangered zoo. *News and views*, (Maddox, J) **350,** 457
Zoo exchange: Kuwaiti home-from-home. *News*, (Anderson, C) **352,** 4
Zoological gardens: London's ark runs aground. *News*, (Gee, H) **350,** 546
Zoos, viral infections. Endangered species: Emerging virus threat. *News*, (Anderson, C) **351,** 89
Zoos. EC targets zoos for crackdowns. *News*, (Anderson, C) **352,** 180
Last animals at the zoo. (Tudge, C) *book review by* Mace, G M. **354,** 195
London Zoo: Management under fire. *News*, (Aldhous, P) **353,** 374
Non-profit profits from animals. *News and views*, (Maddox, J) **349,** 457
